CHANGES IN CABINET

Sir Wilfrid Laurier's Statement in the House.

APPROVAL OF THE OPPOSITION

The Precedence Question—Col. Hughes' Motion Discussed and Withdrawn—The Government Considering Some Action—Ministers Give Inquiring Members Some Information—Agreement With Marconi.

Ottawa Feb. 27.—In compliance with the request of Mr. Borden a few days since Sir Wilfrid Laurier yesterday made an official announcement in the House respecting recent changes in the Cabinet. The Premier's remarks were received with cheers from the Government benches, and the comments of the leader of the Opposition were couched in terms of approbation. The vexed question of "precedence" at State functions received an airing upon a motion by Lieut.-Col. Sam Hughes to amend the table of precedence for Canada. The Premier expressed the opinion that no doubt denominations not now recognized were entitled to representation if they desired it. The matter was, he added, now being investigated by a sub-committee of Council, who would be very glad to receive the suggestions of members on the matter, and he had no doubt that any representation made by Canada would be acceptable to His Majesty. The announcement by the Premier was satisfactory to Lieut.-Col. Hughes, who withdrew the motion.

Mr. Gallagher introduced a bill respecting the United Gold Fields of British Columbia, Limited.

Mr. Parmelee introduced a bill respecting the Orford Mountain Railway. Both were read a first time.

Dr. Roddick introduced a bill for the establishing of a medical council in Canada. He said that since last session he had met doctors from all over Canada at the medical convention in Winnipeg, and they unanimously endorsed it. Two changes were, however, suggested. One was to have the representation on the council, according to the number of medical men in each province, instead of three for each province as at first proposed. Another was to have the 10 universities in Canada represented also on the council. He suggested that the bill be referred to a special committee, composed of ten medical men in the House, and one or two legal gentlemen. The bill was given its first reading.

The Minister of Justice, replying to a question of Mr. Ward, said that R. J. Eilbeck was sheriff of the Yukon, having been appointed in 1899 at a salary of $2,000. He is now getting $3,000 a year. He has had leave of absence recently, and drew his pay to Dec. 31. Neither the Minister of Justice nor Mr. Fitzpatrick was aware that Mr. Eilbeck had been in West Durham during the recent election.

Col. Hughes was informed that the total cost of the permanant corps for 1901-2 was $300,000. During the year 323 certificates to men and 256 to officers had been issued.

Mr. Blain was informed by the Minister of Justice that the binder twine unsold on June 30, 1901, was advertised in the newspapers and in circulars to previous customers. It was sold by tender to S. S. Dickinson, one ton of Sisal at $6, and to Henderson & Black, the balance at $4.80 for Sisal, and $5.10 for mixed.

Mr. Puttee was informed by Hon. James Sutherland that during the year 1901 the number of employes of Canadian railways killed was 118: injured, 970.

Mr. Lariviere was told that the Government didn't intend to appoint an additional Supreme Court judge in Manitoba at present.

Sir Wilfrid Laurier explained the Cabinet changes which had taken place since last session. The new Ministers were all referred to by the Premier in most commendatory terms.

Mr. Borden disclaimed having asked these explanations with any view to criticism, but simply to follow constitutional procedure.

The Minister of Justice said that the bill he had introduced dealt with County Court judges throughout the Dominion. Parliament could deal with County Court judges under the statute, but not with judges of the higher court, and, while he would hold the bench sacred, it was a duty he owed to the public to see that men were not allowed to continue on the bench who were not fit for the position. The bill provided for retirement at 70 or 75 years of age, but after 25 years' service and upon full salary. He couldn't see any hardship in that.

The agreement between Signor Marconi and the Dominion Government, setting forth the terms upon which the company is to establish communication by the Marconi wireless process between Great Britain and Canada, was laid on the table of the House by the Premier. It is embodied in a communication addressed to the Premier by the inventor during his visit to Ottawa last January. The terms are as they have already been published, and the Government accepted the same by cablegram to Mr. Marconi on Jan. 29.

Col. Sam Hughes moved his resolution, declaring for a change in the table of precedence for Canada, but in view of the statement of the Premier, that the matter was now under consideration of the Government Col. Hughes, at the suggestion of Mr. Borden, withdrew his motion.

The House then adjourned.

Strong Enough for Cancers.

Cancers are caused by poisonous humors in the blood. The only non-surgical treatment known is Merrill's System Tonic. This is a powerful blood purifier and at the same time blood builder. It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.

Cures Coughs, Colds, Lung and Bronchial affections that other remedies won't touch.

MR. THOS. J. SMITH, Caledonia, Ont., writes: "A year ago I had a very severe cold which settled in my lungs and in my throat, so that I could scarcely speak louder than a whisper. I tried several medicines, but got no relief until I used one and a half bottles of Norway Pine Syrup, which completely cured me."

25c. a bottle or five for $1.00.

THE PRINCESS IN DANGER.

Passed Within a Foot of Hoxton Tom, a Runaway Stallion.

New York, Feb. 28.—A special cable to The Herald from London says: The Princess of Wales had a very narrow escape at the Shire Horse Show yesterday. The winning stallion, Hoxton Tom, was being led down the ring as the royal party was leaving the enclosure. The cheering scared the animal, which got almost beyond control of the groom. He made a dash for an exit through which the Prince and Princess, with other members of the royal party, were just about to pass. They appeared totally unaware of the danger until the shouts of warning from all parts of the building attracted their attention. Then the Princess, who was nearest the animal, realized her danger and stopped short. The stallion rushed by Her Royal Highness, missing her by a foot or two only. It was only through the skill of the groom, who managed to pull the animal to one side as it dashed past the royal party, that a very serious and deplorable accident was averted.

Conscience Stamps.

The postoffice department has a "conscience fund" of its own. Not at all unusual is it for people to use a poorly canceled stamp and then to regret cheating the government out of 2 cents. In order to secure peace of mind the 2 cent culprit will send a good stamp to the department with an anonymous explanation. This stamp is turned over to an official of the files and mails division, who pastes it on a large card and draws a couple of pen marks across it. The effect would be just as good if the repentant canceled the stamp himself.

A Wrong Idea of the Nerves.

The Action of the Heart, Lungs, Stomach, Liver and Kidneys Dependent on the Nerve Force—Extraordinary Results From the use Of

DR. CHASE'S NERVE FOOD.

There is not a single organ of the human body that can perform its functions without a liberal supply of nerve force—the motive power of the body.

The nervous system should never be thought of as a separate part of the body. Its branches extend from the brain and the spinal column to the tips of the fingers and toes. Just as the blood is carried by the arteries to every nook and corner of the system, so the nerve force, by means of nerve fibres, is distributed, and nerve force is just as important to life as is good, rich blood.

When the nerve cells are wasted, by over-exertion, worry or disease, more rapidly than they are replaced, the action of the heart becomes slower, the lungs begin to weaken, the stomach fails to do its duty, the liver and kidneys falter in their work as filters, and the excretory organs get feeble and inactive. You may be a sufferer from weakness and exhaustion of the nerves, and may have been attributing the trouble to the stomach, kidneys or other organs. Nervous exhaustion is marked by restlessness, disturbed sleep, languid, weary feelings, headache, dyspepsia and bodily pains, inability to concentrate the thoughts, absent-mindedness, weakened memory, twisting of the muscles and eyelids, sudden startings and jerking of the limbs in sleep, dizziness, irritability and gloomy forbodings.

Through the medium of the nervous system, Dr. Chase's Nerve Food carries new life and energy to every organ of the body. It strengthens the action of the heart, invigorates the stomach, makes the kidneys, liver and bowels more active, and builds up the entire system.

If you experience any of these symptoms of nervous exhaustion, you can rely absolutely on Dr. Chase's Nerve Food to cure you. It does not stimulate, but thoroughly cures, by forming new, red corpuscles in the blood and creating nerve force.

Mr. E. Rosevear, a retired school teacher of 2 Markham-place, Toronto, says:

"I am getting up in years, and, as a natural result of severe study, my health has been undermined, and my system very much run down. I got so weak and nervous, and suffered so much from dizziness, that I found it necessary to begin a treatment of some kind. Dr. Chase's Nerve Food has been so highly spoken of that I decided to give it a trial, and can now speak of its merits from personal experience. It has built me up wonderfully, and strengthened and restored my nervous system."

Dr. Chase's Nerve Food, 50 cents a box. 6 boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 1

SALISBURY'S SON.

Young Peer Who Has Stepped Up a Lively International Rebuke—In Parliament Seven Years.

Lord Cranborne, who has just stirred European diplomatic circles to its profoundest depths by his statement in the British House of Commons that but for England the powers would have intervened to prevent the Spanish-American war, is the eldest son of the Marquis of Salisbury, Premier of England.

Viscount Cranborne entered Parliament seven years ago at the age of

LORD CRANBORNE.

twenty-five. Young Cranborne was educated in Oxford and was married to the daughter of the fifth Earl of Arran. He has represented the Darwen division of Lancashire and for several years has sat for Rochester. He is Under Secretary of State for Foreign Affairs. Lord Cranborne will succeed his father as Marquis of Salisbury.

It was an impressive scene in the House of Commons when the young statesman, in answer to a question from the Liberal side, stated that Great Britain had refused to entertain a proposition from the European powers that joint action be taken to prevent the outbreak of hostilities between the United States and Spain. The announcement that England had refused to interfere, which was made amid absolute silence, was received with a burst of ringing cheers such as seldom greet the mere answer to a parliamentary question.

Both Germany and Russia have hastened to disclaim any participation in the proposed intervention. The proposition, it is alleged, emanated from Austria and had the support of some of the powers in a tentative way, but the unwillingness, it is said, of Germany, Russia and England to interfere in the matter caused its final rejection.

Never Say Die.

You may be weak, miserable, nervous, sleepless, your digestion may be poor, and you despair. Never say die until you have used Ferrozone, the most wonderful blood maker, strengthener, and brain invigorator. It tones up the whole system. You can eat anything and digest it if you use Ferrozone. You sleep well; you make blood quickly; strength increases daily, and in a short time you are well. Try Ferrozone, which you can obtain at Ormond & Walsh's drugstore.

Cut Both Ways.

A farmer's boy in Scotland was charged with attempting to steal an article from a shop door. In pleading his case he said he didn't steal the thing—"he was only gann tae dae it."

Whereupon the judge informed him that to do it and going to do it were all the same and that he would have to pay a fine of 10 shillings or go to jail for ten days.

The boy, not having the money, was allowed to go and get it from a friend. In a little while he was seen standing in the court, and when asked if he had got the money to pay his fine he answered:

"Na, but I was gaen tae dae it, and ye said that gaen tae dae it and dae it were jist the same. I'm thinking you and me'll be aboot clear noo."

Squandered a Fortune.

How often we hear the expression, notwithstanding the fact that those who use it are perhaps spending their money foolishly in medicines which only give relief without removing the cause. Merrill's System Tonic cures heart, stomach, kidney, nerve and liver troubles—because by purifying the blood, regulating the bowels and toning each of these organs the cause of disease is removed. Price 50 cts. per bottle at Ormond & Walsh's drug store.

The Birth of the Cicada.

Even when warm weather comes again and other cicadas sing gayly from their trees the subterranean exile remains within the ground, daily growing larger and stronger until a second winter has come and gone. Then a stranger restlessness possesses him, and, burrowing steadily upward, he at last emerges from his long retirement on some warm, moist August morning. A rough, horny, earth colored creature he is, with strong hooked feet and bulky body. Clumsy is he also, and, staggering along, he gropes blindly about for some perpendicular object, up which he laboriously begins to climb.

Presently a slight quiver shakes his form, and a little crack opens a down his back. It seems almost as if his unwonted exertions had actually burst his horny shell as the gaping wound reveals a mass of damp material within. Slowly the split widens, and a broad and massive head equipped with two great shining eyes pushes upward through the opening, and we realize that the birth of a cicada is taking place.—Frank Leslie's Monthly.

Paid Twenty-five Years.

We have spent over twenty-five years paying for space to talk about Scott's Emulsion as a great help to the consumptive, for all throat and lung trouble, as an unrivalled flesh builder and as a tonic for weak children.

There's a Contrast

in style and comfort between laundry work which is well done, and that which is not. Hot weather especially makes the contrast felt. Work sent to Parker's Laundry is always well done. The finish is perfect. No damage to goods. Orders called for and delivered. Your address on a postal brings the wagon. Phone 230.

OUR COUNTRY.

God of the ancient days,
God whom the nations praise,
Our country spare.
For Canada the blest—
Queen of the new-born west,
Land that we love the best,
Thy grace we crave.

May our Dominion be
Home of the brave and free;
In Thee who trust!
Make Thou our worship pure,
Our union firm and sure,
Our government secure,
Our counsels just.

Lead us, O mighty God,
In paths as yet untrod
Where we must go.
Long may our native land,
Obeying Thy command,
Among the nations stand,
Its light to show!

To Thee our country brings
Its tributes, King of Kings,
From shore to shore.
On Canada the blest,
Queen of the new-born west,
Thy choicest mercies rest
For evermore.

—Mrs. P. A. Henry.

Names of Materials.

The fine white linen of which cambric handkerchiefs are made is so called because it was first made at Cambrai, in the department of the Nord, France. The gauzy fabric muslin is so named from the town of Mosul, in Mesopotamia. Alpaca was originally made from the wool of the Peruvian sheep of that name, akin to the llama. In eighteenth century romances we often read of garments made of paduasoy, which was simply a smooth kind of silk originally made at Padua, soy or soie being French for silk.

To this day shopkeepers who appeal to the custom of ladies are fond of labeling their goods with French names, and the description of the dresses at a fashionable wedding is a hidden mystery to the male reader. Mousseline de soie is simply silk muslin, and crepe de chine is china crape. Crape is so called from its wrinkled appearance and sharpness to the touch and is the same word as we know in the form of crisp. The rough material called frieze was originally made in Friesland. Tweed, although Scotch, is not named from the famous border river. It is a corruption of twill.—Chambers' Journal.

When Trade Was Booming.

It was in the morning hours of bake day in the little out of the way village. The mingled odors of fresh bread, pies and cookies floated out of the open kitchen windows.

From one of the smaller cottages at the end of the street came a barefooted child in a colorless calico dress and slat sunbonnet. With the important air of a heavy buyer she entered the village store and handed across the counter a blue teacup. The proprietor took the cup and said in brisk tones:

"Well, Emmy, what does your ma want today?"

"Please, sir, ma wants an egg's worth of molasses." And she carefully placed a large white egg on the counter.

From a stone jug a little molasses was poured and the cup set before the customer.

"Mr. Smif," she said as she took her purchase, "I'll be back in a little while for some ginger. Ma said to tell you the black hen was on."

And the buyer walked with dignity out the store door and up the village street to her home.—Harper's Magazine.

Superstitions of Today.

There are villages near the University of Oxford where no notion of medical science has penetrated and where charms are the only recognized cure for disease. A woman who has lately been lecturing in the neighborhood on sanitation found that whooping cough was always treated by spider. The spider was sewed into a piece of muslin and hung on a curtain rod, and the death of the spider meant the end of the cough. Not long ago a child was seized with the illness, and the doctor ordered "poultices on the chest." When he returned, he found that the mother had carefully laid the poultices on the oak chest which stood by the bedside. The remedy appeared to her perfectly natural.

A Hard Law.

A traveler getting outside of St. Petersburg discovered when he tried to re-enter the city that he had left his passport in the bedroom of his hotel. The guards refused to let him pass and refused to send for the passport. "According to you," said he, "the only thing for me to do is to throw myself in the Neva."

"No," said the sentry, "suicide in Russia is strictly against the law."

Her Point of View.

Mrs. Hiram Offen—How long were you in your last place?

Applicant—Oi was there just a month, ma'am.

Mrs. Hiram Offen—A month? What was the trouble?

Applicant—The trouble was, ma'am, that I was took sick, an' Oi couldn't get away anny sooner.

His Ideal.

"Gracious! You don't mean to say you are going to move out to Bogville?"

"Indeed I am. I consider it an ideal place."

"Huh! You ought to read the papers. There's more sickness there than in any other town in this vicinity."

"I know it. I'm a physician."

A Twofold Surprise.

"Miss Alice," said the nervy young man, "I think I will marry you."

"Indeed? Two very remarkable statements, sir."

"Two! How two?"

"One that you will marry me, the other that you think."

Ocean Depths.

The ocean used to be considered about as deep at its deepest as the highest mountains are high. It has now been proved to be half as deep again—that is, 46,236 feet.

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is

Clerking

Looks more attractive than housework for a woman, but it is also even more exhausting. The work is often done under high pressure, and the brightness of the eyes and the flushed cheeks of the attentive clerk indicate nervousness rather than health. If this is true under most favorable conditions, what shall be said of those who suffer from womanly diseases, and who endure headache, backache, and other pains day after day?

No sick woman should neglect the means of cure for womanly diseases offered in Doctor Pierce's Favorite Prescription. It regulates the periods, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"A heart overflowing with gratitude, as well as a sense of duty, urges me to write to you and tell you of my wonderful recovery," says Miss Corinne C. Hook, Orangeburg, Orangeburg Co., South Carolina. "By the use of Dr. Pierce's Favorite Prescription I am entirely a new being compared with the poor miserable sufferer who wrote you four months ago. I remark to my parents almost every day that it seems almost an impossibility for medicine to do a person so much good. During the whole summer I could scarcely keep up to walk about the house, and yesterday I walked four miles and felt better from the exercise. I now weigh 125 pounds. Mine was a complicated case of female disease in its worst form."

Doctor Pierce's Pleasant Pellets cure biliousness.

RUBBERS for Men and Women, to fit any shoe.

Ordered Work a specialty. Repairing done in a workmanlike manner.

WORDS OF REPROOF.

An incident which awakened a good deal of discussion during the first Dufferin visit to Montreal was a speech in the McGill Normal School, in which Lord Dufferin advised the teachers that they were yet to be to address themselves to the task of rendering their pupils polite, well-bred, deferential and respectful to their parents, to their elders, and to their superiors. His excellency had noticed the peculiar precocity of children on this side of the water, and he insisted that while there was no quality more creditable than self-respect, yet the very idea of self-respect excludes self-assertion and rudeness. At a later date Lord Dufferin spoke of another form of rudeness which was becoming popular on this continent—the reference to eminent persons particularly ladies, by pet names. Some of the American papers were speaking of the daughter of President Grant as "Nellie," and of Lady Dufferin as "Harriet." "It seems to me," said his lordship, "to be a monstrous sacrilege and quite incompatible with the dignity and self-respect due to the daughters of our land, and with the chivalrous reverence with which they should be approached even in thought, that the tender, love-invented nomenclature of the fireside should be bandied about at random in the mouths of every empty-headed Tom, Dick and Harry in the street whose idle tongue may chance to babble of them. The women of this continent are ladies as refined, high-minded, and noble-hearted as are to be found in any country in the world, and the sooner we get rid of this vulgar solecism the better."

Cripples Held the Stage.

A very remarkable theatrical fad raged in Paris sixty or seventy years ago. The journals of the period show that the writers of plays had an especial fondness for the representation of bodily deformities and infirmities.

It was well known, of course, that Victor Hugo made a hunchback the hero of a tragedy and that one of Scribe's heroes stuttered. But the many forgotten plays by the forgotten authors of the period also swarm with hunchbacks, stutterers, the lame, the halt, the blind and the deaf and dumb.

Sometimes as many as a dozen of these cripple plays were performed on the same evening in the theaters of Paris.

In one year eighteen plays with blind characters were produced and probably three or four times as many were written. The first of the "blind" plays was Ancelot's "Un Regard," which later furnished the book of an opera for which Halevy, the composer of "The Jewess," wrote the music.

An African River.

The Webbe Shebeyli, an African river, is one of the wonders of the Dark Continent. Although it is a large, rapid flowing river, almost as large as the Missouri, and flows for hundreds of miles through a fertile country, it never reaches the sea. About thirty miles before its waters get to the point where they should mingle with those of the Indian ocean the whole stream sinks out of sight into the sands of a desert.

A Hard Law.

A traveler getting outside of St. Petersburg discovered when he tried to re-enter the city that he had left his passport in the bedroom of his hotel. The guards refused to let him pass and refused to send for the passport. "According to you," said he, "the only thing for me to do is to throw myself in the Neva."

"No," said the sentry, "suicide in Russia is strictly against the law."

Her Point of View.

Mrs. Hiram Offen—How long were you in your last place?

Applicant—Oi was there just a month, ma'am.

Mrs. Hiram Offen—A month? What was the trouble?

Applicant—The trouble was, ma'am, that I was took sick, an' Oi couldn't get away anny sooner.

MEN WHO ARE MISQUOTED.

To most men criticism brings smarting and hurt. They may give no sign save the hard, forced smile which dies so soon, but to good men the biting words of even bad and spiteful men bring pain. But what hurts most of all is to be misunderstood and misrepresented and maligned by those who are sincere, who love the truth, and whose commendation one would fain deserve. If there is a grief bitterer than that it is in being applauded by the selfish, loose-living crowd whose interest is not truth's, nor purity's, nor love's. That is the last sorrow of a good man's life.

As these lines are being written, we look up to a portrait on the wall at the face of as true and brave a man as ever stood in a Canadian pulpit, the late D. J. Macdonnell, who paid to the full for his honesty and courage. And this was the measure of his keenest sorrow; that he grieved the hearts of men he trusted and fain would have followed, and offended some who fain would have followed him; and more, that his words, spoken out of the heat and passion of his own intense conviction, warped from their purpose and meaning, seemed to give comfort to men whose loose views of life and of truth he utterly loathed.—From The Westminster.

Loved Before He Was Seen.

Preceding Lord Dufferin's arrival there came to Canada a farewell speech his Lordship had delivered in Belfast. This model of eloquence sounded the keynote of his administration. It outlined with wonderful accuracy our constitutional system. It expressed the pride entertained by Great Britain for the confederated Dominion and all its people. It pictured Canada as a land of great promise and of unquestioned splendor. It intimated that the new Governor would be the interpreter of the good-will of the people of the Mother Land towards those of Canada, and the medium through which the will of the country would be exercised. Lord Dufferin's appreciation of his high duties together with his picturesque expressions of devotion to Canada's interests earned for him the admiration of those who as yet had not seen him. It was therefore not surprising that his reception at Quebec should have been conducted on a scale of extraordinary magnificence. —Mail and Empire.

Not to Be Learned.

A dignified bishop while passing along a London street heard three vegetable peddlers engaged in a rather blasphemous argument.

Intending to rebuke them, he said to one of the offenders, "My good man, where did you learn to swear like that?"

"Lord luv yer, guv'nor," replied the brawny peddler, clapping him genially on the shoulder, "ye can't learn it! It's a gift!"

A Scientific Voice Improver.

Because of its strengthening influence upon the vocal chords, Catarrhozone cannot be too highly recommended as a wonderful voice improver. It almost instantly removes huskiness or hoarseness, thus insuring clearness and brilliancy of tone. Catarrhozone keeps the mucous surfaces in perfect condition, and its regular use absolutely prevents colds and throat irritation, thereby removing the singer's greatest source of anxiety, unfitness of voice. The most eminent speakers and Prima Donas would not be without Catarrhozone and credit in no small degree their uniform strength and brilliancy of tone to its influence. The hard rubber inhaler fits conveniently into a purse or vest pocket, and may be used in the church, theatre, any place or time. Complete outfit $1. Small sizes 25c. Druggists or Polson & Co., Kingston, Ont.

Looking For Them.

Major d'Arlandes, like many another French soldier, was tired of waiting for promotion and opportunities to distinguish himself. He seized an opportunity to enjoy a little excitement and at the same time to remind Louis XVI. of his baffled ambitions.

He made a balloon ascension, which at that time was thought to be a very risky affair. The king promptly reproved him for his rashness.

"Your majesty will pardon me, I hope," said the officer, "but the fact is the minister of war has made me so many promises in the air that I went up to look for some of them."

FROST'S

JEWELLERS AND OPTICIANS,

249 George St., Peterborough.

DIED AT 107 YEARS.

Father of Mrs. Capt. Waters of Belleville Passes at That Great Age—Boy Drowned in Owl Lake.

Dr. Harold Jones, who had charge of the smallpox patients at the Isolation Hospital at Brockville, has contracted the disease.

Stanislas Lacroix, the wife-killer, at Ottawa, has broken his fast, and has resumed his religious devotions. He will hang on March 21.

Mrs. Capt. R. Waters of Belleville, Ont., has been advised of the death of her father, Mr. Alexander Gunn, in Kansas, at the age of 107 years.

Mrs. Charlotte A. Bennett, who was in the Park Avenue Hotel in New York, died Thursday in Bellevue Hospital from her injuries in the fire.

The committee of the Manitoba legislature Thursday, it was decided to postpone the date for referendum on the Liquor Act until April 2nd.

The Quebec branch of the Dominion Alliance passed a resolution on Thursday proffering support to the temperance people of Manitoba and Ontario in their fight.

Hon. E. G. Prior was sworn in Thursday afternoon as Minister of Mines in the Dunsmuir Cabinet of British Columbia. He will oppose E. V. Bodwell in Victoria City.

In the Stuartburn murder case the coroner's jury returned a verdict that the deceased met death, by violence, at the hands of Usipp Salamon. The preliminary trial of Salamon is proceeding at Dominion City, Man.

Larwell, the three-year-old son of Duncan Giles, manager of the woollen mills at McKellar, Ont., was drowned in Owl Lake, into which he was throwing sticks on Thursday. His five-year-old brother tried to rescue him, and although Mr. Canning pulled them both out in a few moments, Larwell was dead.

Rev. Dr. Laing, Presbyterian minister of Dundas, died shortly after one o'clock Thursday afternoon in the General Hospital, Toronto. He was taken there on the 21st inst., for an operation, which was performed, in connection with some kidney trouble. The shock was too much for him, however, and death resulted. The deceased was seventy years of age, and was a noted divine.

The Press Association.

Ottawa, Feb. 28.—Daniel McGillicuddy of The Signal, Goderich, was yesterday elected by acclamation president of the Canadian Press Association. The other officers elected by acclamation were: First vice-president, H. J. Pettypiece, M.P.P., Forest, Ont.; second vice-president, John A. Cooper, Canadian Magazine, Toronto; secretary-treasurer, J. T. Clark, Star, Toronto; assistant secretary, M. O. Hammond, Globe, Toronto. Mr. Cooper presented the secretary-treasurer's report, which showed that the fight against the paper combine cost the association $1,700, which amount the Dominion Government will be asked to refund. The legal expenses amounted to about $1,000.

The Canadian Press Association's annual banquet last night was a great success, and was attended by the Premier, Sir Wilfrid Laurier; Hon. R. L. Borden, Senator Templeman, Speaker Power of the Senate, Sir Sandford Fleming, Hon. William Mulock, Hon. William Patterson, Charles Marcil, M.P.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of nervous exhaustion and Debility. You can be thoroughly and gradually cured of sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in Nature's way, by creating new nerve cells and restoring lost vitality.

THREW A LAMP AT HIS WIFE.

Nearly Kills Her and Then Takes Carbolic Acid With Success.

Montreal, Feb. 28.—An awful tragedy took place at an early hour yesterday morning on Craig street, at the residence of Dr. J. Turcot, a veterinary surgeon of some repute.

The doctor returned home very much under the influence of liquor, and, seizing a lighted lamp, he hurled it at his wife.

An explosion took place and Mrs. Turcot was so badly burned that the doctors say she will not live 24 hours.

Having been taken to headquarters Turcot soon ended his days by taking a dose of carbolic acid.

The Falls Claims Another Victim.

Many times has this statement been published. But if Niagara has claimed its thousands, neglected coughs and colds have claimed their tens of thousands. You can't stop the falls but you can stop the cough or cold in two days by taking a 25c bottle of Four T's, the great guaranteed cough and cold cure. Sold by Ormond & Walsh.

STUDENTS IN QUEEN CITY.

The Number That Have Already Reached Toronto Is 2,800—Phenomenal Growth of the Movement.

Toronto, Feb. 28.—The lively interest manifested by the great number of delegates to the Student Volunteer Movement convention in the proceedings of the sessions and conferences conveys an evidence that they are resolutely carrying forward their work of preparation for the mission field. The majority take copious notes.

The exact number of delegates in attendance has not been made known officially as yet, and may not be until the close of the convention. However, an estimate by some of those engaged in the registration bureau placed the number at 2,800 up to 6 o'clock last evening. This is practically the full number expected, so that further arrivals will be few in number.

Mr. John R. Mott read a well-written report of the Executive at the morning session, in which he recited the growth of the student volunteer movement. Over 800 educational institutions in America have student volunteer organizations. There are now 325 mission study classes in these colleges, with 5,000 students enrolled. Four years ago, at the time of the Cleveland convention, there were only 267 classes, with an enrollment of 2,300 students. Since the volunteer movement has been formed 1,953 volunteer missionaries have sailed for foreign lands. The movement had been chiefly influential in encouraging the spiritual life of the colleges and seminaries, in overcoming pride, selfishness and rationalism. The movement is now planted in every country in the world. Holland is the last European country to come into the students' federation.

Yesterday was marked by nine sectional conferences and two big rallies. There will be 25 denominational gatherings to-day.

Malt Breakfast Food

Is a Perfect Food Product.

A perfect food product is one that is soothing and grateful to the stomach, that does not tax the powers of digestion, that keeps the blood pure, that clears the brain and bestows restful sleep, that builds up flesh, bone and muscle. Users of Malt Breakfast Food secure all these blessings and advantages. No other food can equal it as a delicious and satisfying breakfast or supper dish. A prominent physician and a user of Malt Breakfast Food writes thus: "When I go home tired out and in a condition to have a restless night if I eat anything, I find I can make a meal of Malt Breakfast Food and go to bed without apprehension. It digests itself. I find that it soothes and quiets the nerves and gives a feeling of rest and refreshment." All grocers sell it.

For twenty-four years Vapo-Cresolene has been extensively used for all forms of throat and bronchial troubles. All Druggists.

HUNTS WITH CAMERA.

English Society Woman Who Has Snapped Big Game in Rockies.

Lord and Lady Algernon Gordon Lennox as the guests of ex-Senator Wolcott of Colorado have been enjoying the sport of pursuing the mountain lion to his liar and other strenuous diversions peculiar to the Rocky mountains.

At the Denver home of Senator Wolcott the distinguished visitors have been hospitably entertained.

LADY GORDON LENNOX.

Making their headquarters at Wolhurst, several trips into the mountain wilderness have furnished them with excitement a-plenty.

Lady Lennox did not carry a gun, as she had no desire to take the lives of the animals, but instead carried a camera to shoot them in bloodless fashion. On one of their trips she was fortunate enough to get a shot at a grizzly bear, which trophy she prizes highly and which no doubt will furnish a theme for many a thrilling story on her return to England.

Besides the hunting excursions, the distinguished couple ascended Pike's peak, a difficult feat in the winter season. Several days were also spent on the mountain game preserves of J. S. Osgood of the Colorado Fuel and Iron Company. This is situated in the mountain fastnesses of southern Colorado, a wild and forbidding wilderness, the natural home of the wild creatures that inhabit that region.

Crown Points.

No professional of note, be he actor, singer or conjuror, passes through Constantinople without an invitation to appear before the Sultan. He always pays for those performances in Bank of England notes.

King Edward, it is said, has read every book that has been written on the history of the Crimean war, and few men are better acquainted with the history of India and with the characteristics of many of the native races.

The Shah of Persia is absolutely ruler within his own dominions and master of the lives and goods of all his subjects. The whole revenue of the country being at their disposal, recent shahs have been able to amass large private fortunes.

AN ARMY OF AFFLICTED WOMEN.

NERVOUSNESS IN VARYING FORMS IS ON THE INCREASE IN CANADA.

PAINE'S CELERY COMPOUND

Restores the Nervous System to Full Vigor and Strength.

Paine's Celery Compound is the true physical strengthener and nerve nourisher for women suffering from physical exhaustion, tired nerves and brain, and sleeplessness. This great medicine quickly bestows energy and vigour, banishes headache, tired feelings, despondency, languidness, makes rich, pure blood, and imparts a health that copes with all the duties and work of life. Paine's Celery Compound does for weak women a work that no physician can accomplish; it brings true womanhood and happiness as nothing else can do. Mrs. E. Hurd, of Summerville, Hants Co., N. S., writes for the benefit of suffering women as follows:

"I cannot speak too highly of your wonderful curing medicine, Paine's Celery Compound, from which I have derived such direct benefit after suffering from nervous prostration, sleeplessness and general debility. I first used one bottle and was greatly improved; I afterward used two bottles more, and now am quite well. I wish to recommend Paine's Celery Compound to others, and trust it will be found in every home where sickness prevails."

Rosebery Repudiated.

London, Feb. 28.—The Liberal-Unionists at the annual meeting of the Liberal-Unionist Council yesterday, definitely repudiated any desire to enroll themselves under Lord Rosebery's banner.

Hard on the Hack Business.

That great discovery made by a Brantford druggist and known as "Four T's" does away with hacking and coughing in two days. As a lung tonic and lung tissue re-constructor it has no equal. Children take Four T's and it cures whooping cough and croup. Price, 25c per bottle. Sold by Ormond & Walsh, druggists.

German Dolls.

It takes eighty men to make a German doll. Each man makes a small portion of the doll, but it is the same bit all the time, and 1,000 dozen dolls can be made in a day in some of the big factories. After the men finish the body portion of the doll the women's work begins. They paint, dress the dolls and pack them for the market.

The above farm, stock sales will commence each day at 1 o'clock sharp.

John Haggart, Auctioneer.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

CHOICEST FLOWERS.

All the seasonable flowers can be relied on when purchased at the West End Greenhouses. Floral designs a speciality. Bouquets for the table, blooming and foliage plants, in pots, flowers for the sick, etc. A Slade, manager, 495 Park street, at residence of G. M. Roger. 'Phone, 21B.

1902

The Daily Examiner.

VOL. XXXII, NO. 50. PETERBOROUGH, SATURDAY, MARCH 1, 1902. PRICE TWO CENTS

R "THE FAIR STORE." F

A Forecast Of Spring!

There is the stir and bustle of great preparations for a greater business than ever at the Golden Lion.

Many new Goods are arriving these days, affording a showing of early Spring Styles ready for you that gives more than a hint of how

THE TIDE OF FASHION HAS SET

NEW DRESS GOODS are crowding in. It's like painting the lily to say more than point them out—these dainty imported weaves.

NEW SUITINGS in magnificent new ranges and shades that early comers are already sampling and buying freely.

NEW SILKS in bewildering variety of patterns and finishes, abrim with values that challenge comparison.

NEW LACES, representing the newest approved trimmings for the new fabrics that will be so much worn this season.

NEW WASH GOODS. Every witchery of loom and style is here. New designs that will be in greatest vogue when the sunny days of spring and summer flash around.

Stocks to be proud of! It will be a pleasure to show you round, with apologies for the great jam and want of order occasioned by the hurried opening out of great boxes and bales of new merchandise.

N.B.—Miss Neild will open our Dressmaking Department on Saturday, March 1st.

Robert Fair & Co.

STRAYED.

THE PUBLIC HIGHWAYS BILL

Issue of Debentures For Good Roads to Be Subject to the Approval of the Electors—Railway Subsidy Fund Amounts to $39,539—Debate on Conditions of the Asylums—Bills Read a Second Time.

Toronto, Feb. 28.—This afternoon in the Legislative Assembly Hon. G. W. Ross introduced a bill to amend the act respecting the Improvement of Public Highways. The bill having been read a first time he moved its second reading, explaining that the act as it stood enabled debentures to be issued for a term of 30 years. According to the Municipal Act debentures could be issued for 50 years. The bill fixed 40 years as the term over which the payment of debentures could be extended. It also made the issue of debentures subject to the approval of the electors. The bill was read a second time.

Other bills introduced were as follows: By Mr. Commee, to incorporate the Canada Central Railway Co.; Mr. Carscallen, to amend the Ontario Factories Act and respecting prison made goods; Mr. Dryden, to amend the Factories Act.

Mr. Monteith enquired whether it was the intention of the Government to take any steps with a view of extending a welcome to Prince Henry of Germany.

Hon. G. W. Ross said that he had put a notice on the paper for an address to be drawn up by the House and the appointment of a delegation to present it.

Mr. Matheson enquired whether any Railway Subsidy Fund had been formed under the provisions of 52 Vic. c. 35, ss. 4 to 9, and if so, what is the amount of such fund. Has any separate account ever been kept of the sales of lands within ten miles on each side of the Ontario and Rainy River Railway, the Parry Sound Colonization Railway or the Brockville, Westport and Sault Ste. Marie Railway, as provided by this Act.

Hon. E. J. Davis replied that such a Railway Subsidy fund had been formed, the amount of the same being $39,539. A separate account of the sales of the land referred to had been kept.

Mr. Kribs moved for a return of correspondence between the Orillia Idiot Asylum, the Bellevil,e Deaf and Dumb Asylum, and the Department in relation to the need of increased accommodation in both institutions.

Hon. J. R. Stratton said that the Deaf and Dumb Asylum had ample accommodation. The Orillia Idiot Asylum had for some time been overcrowded. Arrangements had been completed for the transfer to the institution of the children in Waterloo county referred to by Mr. Kribs.

Mr. Wardell complained that applications for the admission of idiots from Dundas county had been refused.

Mr. Stratton reiterated his statement that the accommodation for idiots was limited. There was, however, space which could be utilized, but it would require a considerable expenditure. He was now having plans drawn up to see if additional accommodation could be provided.

The order was discharged.

The bills respecting the Port Dalhousie, St. Catharines and Thorold Electric Street Railway Co., Mr. Jessop, and respecting the town of Perth, Mr. Matheson, were read a third time.

The following bills received a second reading: To amend the Toll Roads Expropriation Act, Mr. Brower; to amend the Agricultural and Arts Act, Mr. Hoyle; to amend the Toll Roads Expropriation Act, Mr. McKay, and to amend the Ontario Controverted Elections Act, Mr. Matheson; to amend the Manhood Suffrage Registration Act, Mr. Gibson.

Hon. J. M. Gibson moved the second reading of the bill to amend the Joint Stock Companies Winding-up Act. He said that sometimes difficulties arose from shareholders refusing to accept a settlement or receive money when companies were being wound up. The bill provided that in such cases, and also when the shareholder happened to be an infant the money might be paid into court. The measure was in the direction of economy in liquidation. The bill received a second reading.

Hon. Mr. Latchford introduced a bill to provide for the removal of obstructions in rivers and streams.

The bill of the Town of Wiarton was passed by the Private Bills Committee yesterday. It provides for the payment of a $25,000 bonus to a beet sugar company for a fixed assessment of $80,000 for nine years.

The Railway Committee of the Legislature passed the bill to incorporate the New Ontario Central Railway Company. The line will be built from near Dryden and Vermillion Bay to the west end of Lac Seul.

TOOK HIS OWN LIFE.

Disappointed in Love, Life no Longer Worth Living.

Toronto, March 1.—A young man named Frank Jackson committed suicide at 41 Woodlawn Avenue, where his body was found about 11 p.m. Thursday night. He was employed as a coachman by Lewis H. Stewart, manager of the United States Life Insurance Company. The family had been in Parkdale in the afternoon and evening. Jackson was 21 years old, and a note he left intimated that he was disappointed in love and that he considered life no longer worth living. The note also included a wish that his watch be given to the girl. Coroner Spencer was notified, but did not consider an inquest necessary.

Servant and Baby Disappear.

Montreal, Que., March 1.—Montreal has a sensation. A missing servant and a stolen baby is the problem upon which the detectives are working here. The baby is Edgar Wayland, son of Mr. and Mrs. E. J. Wayland of 629 City Hall avenue. He was stolen from the house some time Thursday afternoon by the servant, Audley Erle, as she calls herself. She is about 18 years of age. She is said to have taken some of Mrs. Wayland's clothing, and left with the baby for parts unknown.

Later.—The servant girl was arrested at a boarding house on St. Paul street. The baby was all right.

THE MILL-END STORE!

Fed with these Mill "Feints" or Ends by the largest Canadian and foreign manufacturers. We don't wish to mislead the people and have them think that this store has only Mill Ends—for there is no better assorted Dry Goods stock in Canada, considering the size. Most Domestic made, and Some Foreign. Goods are "made up" into stipulated lengths for convenience of handling and reckoning. In consequence of this, if the yarn on the loom is more than enough to weave this certain yardage, the extra piece is cut off, and constitutes a "Mill Feint."

These Feints or Ends run usually from 1 yard to 10 yards in length, and are sold to us in bulk. The preparation of getting these ready for sale means much work, yet when we can save our customers from 25 per cent to 50 per cent. on useful and usually staple goods, we are only too glad of this labour.

This store always has something or other in this way, and Monday you can see represented here an object lesson of the above talk, when we will sell—

DEWET'S SON IS TAKEN

British War Secretary Makes Announcement in Commons.

GREAT SUCCESSES SCORED

During Two Days Six Hundred Boers Have Been Killed or Captured—2,000 Horses and 28,000 Cattle Have Also Fallen Into the Hands of the British Troops in South Africa.

London, March 1.—The War Secretary, Mr. Brodrick, announced in the House of Commons yesterday that during the last two days six hundred Boers had been killed or captured, and that 2,000 horses and 28,000 head of cattle had fallen into the hands of the British troops. The prisoners include Gen. Dewet's son and the General's secretary.

COLONIES GET PREFERENCE.

Canadian Hay and New Zealand Oats Go to South Africa.

New York, March 1.—Another British transport is coming here to load hay for South Africa. The forage this time is coming from Canada, in bond, by rail. It costs but $4 per ton to bring it here, to say nothing of the stowage on board ship and freight to Cape Town, or such other port as may be designated later. The bales weigh about one hundred pounds each and are known as half bales, being put up at this weight for convenience of transport on mule-back, two of them making a load.

In connection with the stoppage in the loading of oats here for the seat of war it may be stated that the British Government is now shipping oats to Africa from New Zealand. The idea undoubtedly is to buy all the material possible from the colonies first, and when this is exhausted to fall back on the supplies of other countries.

CZAR AND CABINET FOR WAR.

Steps Authorized to Strengthen Russia's Position in Far East.

St. Petersburg, March 1.—The Cabinet, the Czar and the leading military authorities held a long conference yesterday, at which it was decided, in view of the Anglo-Japanese agreement, to make improvements and alterations in Eastern Siberia, especially at Vladivostok and Port Arthur.

It was also decided to push the completion of the Siberian Railroad.

While no one connected with the Government will make any more definite explanation of the Czar's purpose than is given above, hints are plenty that Russia "means to hold her own" in North China regardless of any treaties intended to curb her.

"Improvements and alterations" to be made in Eastern Siberia will probably turn out to be the concentration of a powerful army there, and the fortification and provisioning of Port Arthur and Vladivostok as bases of supply.

Yesterday's action is taken to mean that Russia expects war as the result of the Anglo-Japanese treaty, whether as an aggressor or acting on the defensive.

New Chwang to Be an Open Port.

London, March 1.—The Chancellor of the Exchequer, Sir Michael Hicks-Beach, replying to a question in the House of Commons yesterday, said the Government had received assurances from Russia that the rights of foreigners at New Chwang as an open port would remain inviolate. When asked by what authority Russia gave such assurances in regard to a Chinese port, and whether the Government recognized that authority, the Chancellor replied that the Russian military forces were in "temporary" possession of the port, and that, therefore, Russia was in a position to give such a promise.

$60,365 FOR MISSIONS.

A Great Outpouring of Money Pledges at the Students' Meetings.

Toronto, March 1.—Two great missionary gatherings last night pledged $60,365 for the carrying out of the work. Of this amount $55,235 was pledged by the immense Massey Hall meeting. The pledges are given for equal amounts for four years, or $13,808.75 annually. In the Metropolitan Church the pledges aggregate $5,040 yearly for the same period, in addition to $90 taken up in cash.

There were 25 denominational student meetings yesterday, in addition to the two great meetings mentioned above.

Copyright Question.

Ottawa, March 1.—At the meeting of the Canadian Press Association yesterday morning, E. L. Newcombe, Deputy Minister of Justice, read an interesting paper on "The Copyright Question." A discussion followed, in which J. Ross Robertson declared that until the Parliament of Canada insisted upon the right to pass a copyright act perfectly independent of the Imperial copyright, the publishers would get no more satisfaction from Great Britain than they received to-day.

The Students at Moscow.

St. Petersburg, March 1.—According to an official account of the disturbances Feb. 22 at Moscow University, four hundred students, armed with bludgeons, iron bars, and revolvers, wrecked the interior of the University buildings, barricaded themselves within, and hung out red flags from the windows. The police and troops forced an entrance into the interior and arrested the ringleaders of the rioters.

Advertising in the Examiner brings the best results.

THE KAISER'S BROTHER.

Arrangements For the Military Ceremony at Niagara Falls Completed—24 Aides-de-camp on Friday—Heavily Insured.

Annapolis, March 1.—Prince Henry arrived here at 10.25 a.m. yesterday. The review on the grounds of the Naval Academy took place in a deluging rain.

At Niagara Falls.

Ottawa, March 1.—The Militia Department has made all arrangements for the military ceremonies in honor of Prince Henry when that distinguished personage sets foot on Canadian soil. The 7th Welland Canal Battery of St. Catharines will turn out its full strength of six guns and 60 men, under Major Merritt, and, fire a royal salute of 21 guns. One hundred men from the 13th Regiment will form the guard of honor. A field officer's escort of 12 men will be detached from the Royal Canadian Dragoons, Toronto. This is the same kind of escort that was provided when the Prince and Princess of Wales visited Canada. Major-General O'Grady-Haly may go up to Niagara to represent the Government. Lieut.-Col. A. F. Sherwood of the Dominion police has been asked to arrange for police and detectives to be on hand. He is now in communication with Chief Mains of Niagara Falls upon the point.

Insured Against Assassination.

New York, March 1.—The Herald says: Insurance against assassination is one of the new ideas Prince Henry has brought to American shores. He carries a policy of $900,000 against assassination, and is said to be the only man in the world so insured. The Prince's brother, Emperor William, carries a life policy of $5,000,000. King Edward's life is insured for $8,000,000. The Czar of Russia and his immediate family are insured for $8,750,000.

SUICIDES BY HANGING.

Mrs. Grey of Elmvale and Farmer Sheppard, Near Elmvale.

Barrie, Ont., March 1.—On Wednesday afternoon Mrs. Geo. Grey of Elmvale committed suicide by hanging. She had just returned from the Barrie hospital, and being despondent of recovery, took her life. She leaves a husband and several small children.

Thursday afternoon a farmer named Sheppard, of Crossland, near Elmvale, hanged himself in his barn. He was in comfortable circumstances, and no reason can be given for his act. He was married but had no children.

WM. MURPHY TAKEN.

Capture of a Noted Robber After Ten Weeks' Hunt.

Dawson, Y.T., via Ashcroft, B. C., March 1.—Mounted police at the Stockade Road House, Yukon, captured William Brophy, a notorious robber, after a ten weeks' hunt. During the scuffle while arresting him a revolver belonging to one of the policemen exploded, the bullet going through Brophy's abdomen and emerging near the spine. The police have spent more than $10,000 in the search and the capture is considered the most noted since that of Murderer O'Brien.

What Canada Has Done.

London, March 1.—Sir Edward A. Samson lectured yesterday before the London Chamber of Commerce on the telegraph lines of the Empire. Concluding he said: "I cannot bring this lecture to a close without bearing testimony to the great efforts made by Canada to advance the cause which I have had the pleasure of interpreting to you. But for the tenacity of purpose shown by Canada and the sacrifices she has willingly made there is little doubt but that the Pacific cable scheme would have come to nothing."

May End Boundary Dispute.

Valparaiso, March 1.—It is persistently reported that the Chilian and Argentine Governments are secretly planning a direct settlement of the boundary controversy, in which Col. Sir Thomas H. Holdich is acting as the expert for King Edward, the arbitrator. Nothing can be gathered in official circles regarding this rumor, which most of the newspapers frankly welcome as a sensible way of averting a war and reducing the budgets of both countries.

Canada's Revenue.

Ottawa, March 1.—The customs revenue for eight months ending yesterday was $1,675,490 greater than for the same time last year. The figures are $20,675,210, as against $18,999,777 for the last fiscal year. For the month of February there was $4,000 of a decrease.

Home Next Monday.

Ottawa, March 1.—Hon. A. G. Blair, who, with Mrs. Blair, is on a trip to New York, will be back in his office at the department on Monday night.

Goes South.

Ottawa, March 1.—Hon. Clifford Sifton, accompanied by his wife and Senator William Gibson of Beamsville, left to-day on a fortnight's visit to Virginia. Mr. Sifton has had a severe cold for some days past, and his throat has been causing him some trouble.

Tillman Obdurate.

Washington, March 1.—Senators McLaurin and Tillman of South Carolina were severely censured yesterday by the United States Senate. Mr. Tillman added a new sensation to the proceedings by rising and saying with ill-concealed emotion: "Among gentlemen an apology for an offence committed under heat of blood is usually considered sufficient."

More Trouble in Spain.

Madrid, March 1.—The mining regions are in a ferment of agitation. At Albujon and Madrid rioters have set fire to the municipal revenue offices and burned the documents they contained.

Mrs. L. A. Harris, a Prominent Member of a Chicago Woman's Political Club, tells how Ovarian Troubles may be Cured without a Surgical Operation. She says:

"Doctors have a perfect craze for operations. The minute there is any trouble, nothing but an operation will do them; one hundred dollars and costs, and included in the costs are pain, and agony, and often death.

"I suffered for eight years with ovarian troubles; spent hundreds of dollars for relief, until two doctors agreed that an operation was my only chance of life. My sister had been using **Lydia E. Pinkham's Vegetable Compound** for her troubles, and been cured, and she strongly urged me to let the doctors go and try the Compound. I did so as a last resort; used it faithfully with the Sanative Wash for five months, and was rejoiced to find that my troubles were over and my health restored. If women would only try Lydia E. Pinkham's Vegetable Compound first, fewer surgical operations would occur."—Mrs. L. A. Harris, 278 East 31st St., Chicago, Ill.

$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. **Lydia E. Pinkham's Vegetable Compound** at once removes such troubles.

Daily Examiner.

London (England) office—146 Fleet street, E. C., Central Press Agency Limited, Special Agents.

SATUDAY, MARCH 1, 1902.

ARMOURY FOR PETERBOROUGH.

It is a source of no little gratification that the Dominion Government has decided to practically recognize the claims of Peterborough to an armoury building suited to the requirement of the various branches of the militia represented and having headquarters in Peterborough. Not only will the proposed new building be of great benefit to the citizen soldiery of Peterborough, promoting an esprit-de-corps which was discouraged under long existing conditions of the rather decrepit and invalid barn that has done duty as a drill shed, and at the same time been a blot on the part of the town where it stood. It is to be hoped that there will be no avoidable delay in beginning operations in the construction of the new armouries building. In having brought about the action of the Government in this direction, Mr. J. H. McClellan is entitled to no small degree of credit for the persistent fight he has put up in the interests of our volunteer militia and in the interest of the credit of the town. It will be remembered that Mr. McClellan is also an advocate for the selection of Peterborough as a central depot of military supplies and stores for the Third District, a claim which the Examiner has also warmly advocated, and he will crown his efforts if he can succeed in inducing the Government to take such a step at once. The new drill hall buildings which are being erected might be constructed with a view to enlargement to suit the conditions for a military depot.

MR. WHITNEY'S WATER POWER POLICY.

Mr. Whitney has left it to one of his minor lieutenants to devise a policy which he has tacitly accepted. This policy may be briefly explained. It was declared in the amendment to the motion to go into supply by Mr. Miscampbell. This amendment pronounces in favour of the Government going into the business of developing electrical energy by means of water power to be sold at cost, and the astonishing proposal of the mover of the amendment is to use the power at Niagara Falls to develop Ontario's nickel fields! The power developed by the Government is to be sold to municipalities at cost. Toronto wants to get electric power from the Falls. It would be a great "pic-nic" for what Hamilton calls "Hogtown" to have the Government spend a few millions of the people's money for the sake of supplying Toronto with electricity "at cost," while other municipalities in the meantime would have to pay honest commercial rates. What would be the position of Peterborough if the Government went into competition with private enterprise to supply electric power at cost? What encouragement would such a policy be to private enterprise? Consider the expenditure of money and multiplicity of details and the army of officials that would be required to thus exploit the thousands of water-powers in the Province and supply the hundreds of municipalities with power at cost. For all must be developed or none. It would not do to favour one or a score of municipalities with power at cost, and at the public expense, and neglect the others. While much can be said in favour of the nationalization of certain public utilities, the stopping point must be drawn at reasonable limits. Transportation seems to be a reasonable place to draw the line; our canal system, our railway systems, as well, perhaps, as telegraph lines for postal and other purposes, might come within the limit. But other public utilities of less general extent and application, might be left to municipal exploitation, and, descending the scale the point might be reached where municipal ownership should give way to private enterprise. This is the principle adopted in Peterborough by the Aldermen who are adverse to the development of the reserve power at the Waterworks Dam, because such a course would be unjustifiable and unnecessary interference with private enterprise and private vested rights. The Ontario Government has faith in provincial ownership, as practically demonstratstrated in the proposal to construct the Temiskaming Railway, as a Government enterprise, and by the provisos to grants to several recently constructed railways, reserving the right of the Government to purchase. In this respect Government ownership appears to resemble the application of the single tax principle, and to be specially applicable in the earlier settlement and development of a country. Advance in this direction should be gradual, and not revolutionary, as the proposal of the Opposition to launch out in a wholesale development of water powers to generate electricity to be supplied to municipalities at cost, at incalculably great expense, and an infinite multiplication of officials, which the Opposition have professed to condemn.

Twelve Years of Awful Pile Pain.

A. E. Auringer, Braidwood, Ills., says; "After suffering untold agony for over twelve years from both forms of piles and trying all sorts of pile remedies without relief, I am completely cured by Pyramid Pile Cure." Sold by all druggists, 50c. a box. Book, "Piles, Causes and Cure," mailed free. Pyramid Drug Co., Marshall, Mich.

MONTREAL GRAIN AND PRODUCE.

Montreal, Feb. 28.—Flour, receipts, 900 barrels; market quiet.

Flour quotations—Patent winter, $3.70 to $3.90; patent spring, $3.90 to $4.00; straight roller, $3.60 to $3.70; strong bakers', $3.70 to $3.90; Ontario bags, $1.70 to $1.80.

Grain—Wheat, No. 2 Man. hard, 78c to 80c; corn, 64c to 65c; peas, 90c to 93c; oats, 46c to 47c; barley, 51c to 53c; rye, 59c to 60c. Buckwheat, 53c to 55c. Cornmeal, $2.30 to $2.40; cornmeal, $1.40 to $1.50.

Provisions—Pork, $21 to $22. Lard, 8c to 9c. Bacon, 14c to 15c. Hams, 13c to 14c.

Produce Market—Cheese, 10c to 11c. Butter, townships, 20c to 21c; Western, 15c to 16c; eggs, 26c to 27c.

TORONTO LIVE STOCK.

Receipts of live stock were moderately large, 70 car loads all told, composed of 1146 cattle, 1460 hogs, 396 sheep and 20 calves.

Export Cattle—Choice lots of heavy exporters sold at $5.40 to $5.50; medium exporters, $4.75 to $5; rough, unfinished exporters, $4.40 to $4.70; light green exporters, $4.25 to $4.60, and the better class of butchers' cattle, 1100 to 1200 lbs. each, for export, sold at $4.60 to $4.80 per cwt.

Export Bulls—Choice heavy export bulls sold at $4 to $4.25; light export bulls sold at $3.40 to $3.85 per cwt.

Export Cows—Export cows sold at $3.50 to $4 per cwt.

Butchers' Cattle—Choice picked lots of butchers' cattle, 1000 to 1050 lbs. each, sold at $4.35 to $4.50 per cwt.; loads of exporters' and butchers' cattle, mixed, sold at $4.25 to $4.40 per cwt.; loads of good butchers' sold at $4 to $4.25 per cwt.; loads of medium butchers' sold at $3.80 to $3.90 per cwt.; common to medium sold at $3.30 to $3.50 per cwt.; inferior butchers' sold at $2.75 to $3.30 per cwt.

Heavy Feeders—Heavy short-keep feeders, 1100 to 1200 lbs. each, are worth $4.50 to $4.75; feeders weighing from 900 to 1050 lbs., of good quality, are worth $3.75 to $4.40 per cwt.

Stockers—Yearling steers, 500 to 800 lbs. each, sold at $3.30 to $3.60 per cwt.; off-colors, with poor breeding qualities, are sold at $2.75 to $3.15 each.

Milch Cows—Tweaty cows and springers sold at $25 to $50 each.

Calves—Calves were sold at $4.50 to $5 per cwt. for good to choice.

Sheep—Deliveries, 396; prices firm at $3.50 to $3.75 per cwt. for ewes, and $2.90 to $3 for bucks.

Lambs—Prices firmer, at $3.75 to $4.25 each, and $4.50 to $5.25 per cwt.

Hogs—Best select bacon hogs, not less than 160 lbs. nor more than 200 lbs. each, off cars, sold at $6 per cwt.; lights at $5.75, and fats at $5.75 per cwt.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Feb. 28.—Cattle—Receipts, light; quiet, unchanged; veals, choice, $7.75 to $8; common to good, $7 to $7.25.

Hogs—Receipts, 5100 head; fully 5c lower; Yorkers, $6.20 to $6.30; light, do., $6 to $6.15; mixed packers, $6.35 to $6.40; choice heavy, $6.45 to $6.50; pigs, $5.70 to $5.80; roughs, $5.40 to $5.50; stags, $4 to $4.50.

Sheep and Lambs—Receipts, offerings, 21,000 head; choice lambs, $6.65 to $6.80; good to choice, $6.10 to $6.40; culls to fair, $5.50 to $6.40; sheep, tops, mixed, $4.50 to $5.75; common to extra mixed, $4.50 to $5.15; culls and common, $3.25 to $4.25.

NEW YORK LIVE STOCK.

New York, Feb. 28.—Beeves—Receipts, 3389; 29 cars on sale; slow; steers, 10c and 15c lower; bulls, steady to 10c lower; cows, 15c and 25c lower; steers, $4.80 to $5.25; bulls, $2.75 to $4.45; cows, $2.25 to $4.10; exports to-morrow, 908 cattle and 4000 quarters of beef.

Calves—Receipts, 185; dull and 5c lower; 78 unsold; veals, $4 to $7.50; tops, $8; little calves, $2.50; barnyard, do., $2.75 to $3.12½; city dressed veals, 7½c to 11c per pound.

Sheep and Lambs—Receipts, 4164 head; sheep, 15c lower; lambs, 10c to 15c off; sheep, $4 to $5.25; culls, $3 to $3.25; lambs, $5.50 to $6.70; culls, $4 to $5.

Hogs—Receipts, 2200; nominally steady.

CHICAGO LIVE STOCK.

Chicago, Feb. 28.—Cattle—Receipts, 2500; slow, steady; good to prime steers, $6.50 to $7.60; poor to medium, $4 to $6.40; stockers and feeders, $2.25 to $5; cows, $1.25 to $5; heifers, $2.25 to $5.25; canners, $1.25 to $2.25; bulls, $2.10 to $4.60; calves, $3.50 to $8; Texas fed steers, $4.50 to $5.75.

Hogs—Receipts, 21,000, active, 10c higher; mixed and butchers', $5.80 to $6.40; good to choice heavy, $6.20 to $6.30; rough heavy, $5.90 to $6.15; light, $5.75 to $6.10; bulk of sales, $5.90 to $6.25.

Sheep—Receipts, 4000; sheep, steady; lambs, lower; good to choice wethers, $4.85 to $5.25; western sheep, $4.60 to $5.00; native lambs, $3.75 to $5.60; western lambs, $5.25 to $5.60.

Hard on the Hack Business.

That great discovery made by a Brantford druggist and known as "Four T's" does away with hacking and coughing in two days. As a lung tonic and lung tissue re-constructor it has no equal. Children take Four T's and it cures whooping cough and croup. Price, 25c per bottle. Sold by Ormond & Walsh, druggists.

Canada Life.

Reserve Basis the Strongest on This Continent.

55th ANNUAL REPORT.

An announcement of great importance to the insurance world was that of Senator Cox at the Annual Meeting of the Canada Life Assurance Company yesterday.

He informed the meeting that the policy reserves of the Company are now valued by the most stringent standard employed by any company organized on this continent, the Institute of Actuaries' Table, with interest at 3 1-2 per cent., business since 1899 being valued at the still more severe rate of 3 per cent.

The report of the Directors is as follows:—

The Year's Business. The number of applications received for assurances was 3,871 for $8,467,243. The number of policies issued was 3,650, representing assurances of $7,761,131. Applications for $485,642 of assurance were declined, and the balance were deferred or incomplete at the close of the year. As compared with the previous year there was an increase of 1,579 in number of policies issued, and of $2,397,996 in amount. The number of new policies on which first premiums were actually paid during the year was 3,228, effecting assurances of $7,078,356. This constitutes the largest paid-for business in any year of the Company's history. The total assurances now in force amount to $54,404,972, being an increase of $3,355,891 for the year.

The Income. The net premium income amounted to $2,476,251.29, and the income from interest to $1,041,365.94, making a total net income of $3,517,617.23. It is pleasing to note that the interest income, for the first time in the Company's history, has exceeded the million-dollar mark.

The Payments. The death claims paid during the year amounted to $1,163,098, an increase of only $50,730.60 over those paid in 1900, and the amount was again well within that expected. Including bonus additions, the death claims, endowments and annuities paid in 1901 amounted to $1,384,239.04, while $175,703.51 was paid as surrender values and dividends to policyholders, making total payments to policyholders $1,559,942.55.

The Assets. The total assets at 31st December, 1901, as shown by the Balance Sheet, amount to $24,504,790.48, being an increase of $1,856,586.40 over the previous year. Apart from the $560,380 received from calls on Capital Stock, the natural increase in the assets of $1,296,206.40 must be very gratifying to all interested in the Company's welfare. The funds have been kept fully employed during the year at remunerative rates of interest.

The Liabilities. Two detailed valuations of the Company's policy liabilities were again made—one upon the Combined Experience 6 per cent. basis, the other upon the Institute of Actuaries Hm. 3 1-2 per cent. table. In addition to these a third valuation was again made for all policies issued since 31 December, 1899, upon an Hm. 3 per cent. basis. The Directors have much pleasure in announcing the final transfer of the Company's reserves to an Hm. 3 1-2 per cent. basis, and further, that for all policies issued since January 1st, 1900, a rate of interest of 3 per cent. only has been employed in the valuation now adopted. So far as known, no other Canadian Company, and with one possible exception, no United States Company, employs so stringent a valuation basis or holds such strong policy reserves as the Canada Life. After providing for these and all other liabilities, except Capital Stock, there remains a surplus on policyholders' account of $1,348,706.22.

Review. It is, perhaps, not too much to say that the year 1901 was the most successful in the Company's long record of fifty-five years. The new business paid for was the largest in the Company's history, while the total business in force shows a very material gain. The increase in assets was very gratifying, the interest earnings most satisfactory, while the mortality experience was well within that expected. To crown all, the completion of the transition to the new and stronger basis of reserve, now announced, must be a cause of great satisfaction to all interested in the continued prosperity of the Company.

GEO. A. COX, President.
R. HILLS, Secretary.

Financial Abstract

as at 1st January, 1902:

Assets.

Government, Municipal and other Bonds, Stocks and Debentures	$11,653,143 00
Mortgages on Real Estate	3,910,190 25
Loans on Bonds, Stocks, Policies, etc.	6,009,377 63
Real Estate (including Company's Buildings in Toronto, Montreal and Hamilton)	1,579,588 33
Premiums in Transit, deferred Premiums and interest accrued	873,969 08
Other Assets (including Cash in Banks)	478,522 19
	$24,504,790 48

Liabilities.

Assurance, Reserve Fund (Hm. 3 1-2 per cent. for all business prior to 1st of Jannary, 1900; Hm. 3 per cent. policies issued since then)	$22,709,306 00
Investment Reserve Fund	75,000 00
Other Liabilities except Paid-up Capital	371,778 26
Surplus on Policy-Holders' Account	1,348,706 22
	$24,504,790 48

Receipts.

Net Premium and Annuity Income	$2,476,251 29
Interest	1,009,980 23
Capital	560,380, 00
Profit on Sale of Securities	31,385 71
	$4.077,997 23

Payments.

Paid Policy-Holders and Annuitants	$1,559,942 57
All other Payments	656,808 17
	$2,216,750 74

PRESIDENT'S ADDRESS.

The President, Hon. George A. Cox, in moving the adoption of the Report, spoke as follows:

I have pleasure in moving the adoption of the Report, which has just been presented to you. I feel very strongly that the shareholders and policyholders alike are to be heartily congratulated on the result of the operations of the Company during the fifty-fifth year. The growth in all Departments has been most satisfactory, as a brief review of the figures will show.

The number of applications received for the year was 3,871, for assurances of $8,467,243. The policies actually issued represented assurances of $7,761,000, an increase over the previous year of 1,579 in number, and of $2,397,996 in amount, while 3,228 policies were delivered, effecting assurances of $7,078,356. The number of policies actually paid for is the largest in the Company's record for any one year, and this, I think, is a very marked indication of the quality of the business which our agents are securing, as it establishes beyond any question the fact that only applicants are approached who can afford to maintain their policies, and who make application with the strong conviction that they are doing right, and have fully decided to carry out their part of the contract, if the policy be issued. Of course, some applications received prior to 31st December, had not been completed, but in many cases the policies have now been issued and paid for, and will be included in the business of the current year.

In regard to the premium income in 1901, it is not easy to make a proper comparison with that of 1900, as in the latter year our Quinquennial Division of Surplus took place and a considerable sum entered our premium income in that year as single premiums to purchase reversionary additions. Perhaps I should explain that this course, although usual heretofore with many Companies, was adopted for the first time by our Company, in accordance with the legal requirements of the Insurance Departments of these States of the American Union where we do business, and is also approved by the Dominion Insurance Department. As this is the only way whereby we can obtain credit in the Government returns for dividends applied as bonus additions, we propose to continue this method at subsequent divisions of surplus.

In order, therefore, to make a fair comparison between the regular premium income of 1900 and that of 1901, it is necessary to leave out of account the special sum arising as single premiums at the Quinquennial Division, and, doing this, I am pleased to be able to say that our regular premium income for 1901 exceeded that for 1900 by $123,869.

The income from interest was $1,041,365.94, an increase of $134,980.67. This should be especially gratifying to all, as it indicates the very healthy state of the Company's investments, and demonstrates the care which has been exercised, not only in the investment of our money, but in looking after it subsequent to its investment. Our total annual income now exceeds three and a half millions of dollars.

The death claims paid during the year, as you will see from the Report, are very little in excess of those paid during the previous year. We have had a number of sudden deaths during the year of comparatively young lives where the previous health had been apparently perfect. These resulted from acute disease, which could not have been foreseen, and from accident, but, notwithstanding this it affords me much pleasure to be able to say that the total claims were well within the amount expected and provided for. It is interesting to note that the average duration in the Company of those lives assured, whose policies became claims during the year, was 21.16 years, as compared with an average of 13.55 shown by our forty-seven years' experience, published in 1896, and with the average of 13.50 as shown by the Institute of Actuaries' Hm. experience.

The assets of the Company now amount to $24,504,000, and in referring to this item I would like to draw your attention to the figures which were presented to you in the Report for the year 1891. In that statement the total assets were shown to amount to $12,674,124.87, a growth of over 100 per cent., being the result in one short decade. I mention this simply to give you a clear idea of the actual growth which we are enjoying.

I now come to the question of liabilities, and I am at a loss to know how to adequately convey my congratulations to the Policyholders and Shareholders upon the completion of the change in the valuation basis. Several years ago the fact was pressed home upon us, that the rate of interest assumed in the calculations of our reserves was altogether too high, in view of the constantly decreasing rate of interest obtainable on loans and investments of the first quality. After the most careful consideration, and after seeking the advice of men of undoubted ability in the actuarial, as well as in the financial world steps were taken to gradually lower the rate of interest employed in making our calculations. This, as you are aware, has been in progress now for some eight years, until to-day, your statement appears with its liabilities on policies issued prior to 1900 valued on an Hm. 3 1-2 per cent. basis, and those issued since that date valued on an Hm. 3 per cent. basis. The reserves thus brought out amount to $22,709,306, and exceed those required by the present Canadian Government standard by $2,505,198. In confirmation of this I am glad to be able to put beside our own valuation the actual valuation of our policy liabilities made by the Dominion Superintendent of Insurance, whose certificate calls for reserves of $20,144,108. As intimated in the report, so far as known, no other Canadian Company, and, with one possible exception, no United States Company, employs so stringent a valuation basis, or holds such strong policy reserves as the Canada Life now does. I think it is important to point out that the adoption of this new standard of valuation practically removes the necessity of any further change in our valuation basis for the present generation of policyholders, so that the Canada Life may now be said to have arrived at a settled basis for the valuation of its existing policies. It is interesting, however, in this connection, to note that in Great Britain, out of sixty-eight Companies reporting to the Board of Trade, fifty-six of this number value on a basis lower than 3 1-2 per cent., while fifty of them value on 3 per cent., or lower, and eight value on 2 1-2 per cent. The Australian Mutual, with head offices at Sydney, Australia, value their policy liabilities on an interest basis of 3 1-2 per cent.; so that you will see the present condition of the Canada Life, with its liabilities valued on a 3 1-2 per cent., and 3 per cent. basis, compares favourably with that of the leading companies of the Empire.

I have much pleasure in moving the adoption of the Report.

VICE-PRESIDENT'S ADDRESS.

Mr. F. W. Gates, the Vice-President, spoke as follows:—

To second the adoption of the Fifty-fifth Annual Report of this Company upon this occasion is to me a source of no little satisfaction. To have been privileged to see the consummation of our efforts in bringing up our reserves to the new valuation basis is a source of keen gratification to one who, like myself, has been intimately identified with this Company for nearly half a century, and who has had the honour of filling its Vice-Presidency for a quarter of a century. I have lived to see the Reserves of this institution moved, first from a 6 per cent. interest basis to a 5 per cent. basis; then from a 5 per cent. to a 4 1-2 per cent. basis; afterwards from a 4 1-2 per cent. to a 4 per cent. basis, and now from a 4 per cent. to a 3 1-2 per cent. basis, with a further provision of a 3 per cent. valuation for recent business. Our position now, therefore, is practically this: All the business of last century is upon an Institute of Actuaries Hm. 3 1-2 per cent. basis, while all the business of this new century is upon a 3 per cent. basis.

I am sure that the announcement which we make to-day as to the completion of this difficult problem in the readjustment of our reserves will be hailed with great delight by all our field representatives, and also by all those interested in the permanent welfare of this great institution.

I was much interested in reading the other day an article from a financial journal touching upon events that have happened since our last quinquennial report. I quote two or three sentences:—

"It is also worthy of remark that during the past year several of the British Life Companies have dealt in a very radical way with the problem of increasing reserves; for instance, the Life Association of Scotland, one of the oldest and best-known Companies of Edinburgh, last year entirely passed its quinquennial division of profits. The same remarks apply to such a large and progressive Company as the Gresham Life of England, which also passed its quinquennial division of profits. Several other British Companies have made very large reductions in their last profit divisions, so that what appeared to be two years ago a heroic measure on the part of the Canada Life Assurance Company has since that time been outstripped by even more heroic treatment on the part of well-known English and Scottish Companies.

"The Canada Life appears to have very well weathered the difficult passage which it encountered a couple of years ago, and its policy-holders, as a rule, now appear to accept the situation as in their best interests."

It therefore appears that in the Home of Life Insurance, where its principles are best understood, the course pursued two years ago by this Company at its quinquennial divison of surplus has since been followed by prominent British Companies, and in some cases far exceeded. So far as the past year is concerned, the new business was very large and satisfactory; in fact the largest paid for new business in our whole history.

It should not be forgotten, too, that during 1901 a good deal of pioneer work was done in establishing agencies in new fields, and this, while temporarily an expensive undertaking, will, we hope, ultimately prove profitable.

The Directors of the Company are endeavouring to follow the ideal set by our President in his address two years ago, when he said "Conservative Progress" was to be our motto.

If, as a result of our policy of Conservative Progress, this Company can make as rapid strides in the next ten or twenty years as in the last quinquennium, I am sure the Canada Life will then, as now, be known as Canada's Premier Life Insurance Institution.

I have much pleasure in seconding the adoption of the report.

At the close of the meeting the Hon. George A. Cox was re-elected President and Mr. F. W. Gates Vice-President.

You Taste With Your Throat.

The idea that the sense of taste has any connection with the throat appears peculiar at first thought. We have been possessed with the notion that the sense of taste lies in the tongue and the palate. We all speak of a fine palate, and many persons express astonishment that they can enjoy a delicacy as well after having had a plate fitted to their mouths by a dentist as they could before they paid a visit to that clever gentleman.

The sense of taste is not confined to the tongue and the palate, but is more widely distributed. You taste also with the epiglottis, that little valve at the base of the tongue, and the larynx, to which the epiglottis acts as an assistant, also takes part in the process. Concerning the palate, it is noteworthy that we taste with the soft part, which is at the back of the mouth, but not with the hard or front palate. That explains the mystery of the dental plate. The tonsils do nothing for the sense of taste, nor does the uvula.

The Falls Claims Another Victim.

Many times has this statement been published. But if Niagara has claimed its thousands, neglected boughs and colds have claimed their tens of thousands. You can't stop the falls but you can stop the cough or cold in two days by taking a 25c bottle of Four T's, the great guaranteed cough and cold cure. Sold by Ormond & Walsh.

"Minne Giggie" Falls.

"Some years ago I visited an old friend of mine in Minneapolis," said a well known Milwaukee railroad man, "and he spent considerable time taking me about to show me the many interesting places in that interesting city. One day he took me out to see the famous Minnehaha falls, and after I had feasted my eyes on this beautiful work of nature he invited me to accompany him down the gulch through which the little stream flows—at least half a mile—and there called my attention to a little cascade that is an exact miniature of Minnehaha falls.

"'What do you call this cascade?' I asked of my friend.

"'We call this Minne Giggie.'".

Miller's Worm Powders correct all such troubles as lack of appetite, biliousness, drowsiness, sallow complexion, etc., also to take. Sold by all druggists.

The Book and the Plan.

I have a new plan—a safe plan, too. Something unique, something uncommon. Something no one else ever ventured to do. Something I believe no one else will ever venture to do. —Here it is.

You can get for yourself, or for some friend that may need it, the book shown below. No money is wanted. Simply write me a postal for the book you desire. That is all. With the book I will send you an order either for yourself or some sick friend, on your nearest druggist for six bottles of Dr. Shoop's Restorative. I will instruct the druggist to let you take it for a month; and if it succeeds it will cost you $5.50. If it fails, the dealer will send the bill to me. There is no catch, no deceit. My Restorative must stand this test of merit.

Is not this a remarkable offer? Some have asked me if I actually allow the 30 day test entirely at my own risk. It does seem incredible, but that is just exactly what I do. The book tells how I am able to make such an offer. It tells how I reach, with my Restorative, deeply seated and chronic diseases that have baffled the treatment and skill of other physicians.

My records show that 39 out of 40 who take this treatment are cured. The record is one I am proud of. I will tell you how I am able to make such a record.

I have learned how to strengthen the inside nerves. The nerves that bring strength or weakness to the vital organs. My ability to do this explains the secret of my success. This is why I am able to assume the entire risk; to offer a plan that absolutely protects the patients against loss unless I succeed. This offer is too fair to need argument. Will you not make this known to some sick person? Your reward will come in knowing you have made it possible for this sufferer to regain his health. Do not let prejudice prevent your learning about my way of curing. Thousands need the help I offer. I cannot personally reach them all. Every person knowns of some sick one. You can help me place this opportunity in the hands of some such person. Will you do so? Will you do it now, to-day?

Simply state which book you want, and address to Dr. Shoop, Box 47, Racine, Wisc.

Book No. 1. on Dyspepsia
Book No. 2. on the Heart
Book No. 3. on the Kidneys
Book No. 4. for Women
Book No. 5. for Men (Sealed)
Book No. 6. on Rheumatism

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

AN INFATUATED LOVER

Drinks Carbolic Acid in Presence of Girl and May Die.

Smith's Falls, March 1.— Harry Wilkins, a young man whose home is in Belleville, and who has been working for the past two summers on granolithic sidewalks here, attempted to end his existence yesterday morning by swallowing a quantity of carbolic acid. The doctor in attendance says his chance against recovery is strong.

Thursday night he grew quite unmanageable, and declared to the inmates of his boarding-house that he could not and would not live without a young woman to whom he had been paying marked attention. He had learned that she no longer cared for him. Finally she was sent for, and the remainder of the night after her coming he passed comparatively quiet. In the morning he came down to the post office, and it is supposed, bought a bottle of carbolic acid. On his return he went to his room, and in a little while sent for the girl. After telling her that he could not live without her he put the bottle to his lips. She attempted to prevent him swallowing the contents, and in doing so, was frightfully burned on the hands. The girl screamed, but in the meantime Wilkie had turned the key in the door and had succeeded in drinking what was left of the acid. The man of the house broke in the door, but he was too late to save the man from his rash act.

Captain Suspended.

Halifax, N.S., Feb. 27.—The Court of Enquiry into the loss of the steamer Grecian rendered its decision yesterday morning. Capt. Harrison was suspended for three months.

PASSING ESTIMATES

Good Progress Made by the House of Commons at Ottawa.

THE FRENCH RIVER ROUTE

Estimates For the Fisheries Branch Considered and Marine and Fisheries Estimates All Passed—Public Works Votes—Information About the New Dredges—Transportation Questions.

Ottawa, March 1.—The House made rapid progress in supply yesterday. When the committee rose last evening the remainder of the estimates for the Department of Marine and Fisheries, and the items on capital account for the Public Works Department, amounting altogether to about a million and a half, had been passed.

Bills Introduced.

Respecting the Edmonton & Pacific Railway Company, Mr. Costigan.

Respecting the Canada & Michigan Bridge & Tunnel Company, Mr. Cowan.

Incorporating the Indian River Railway Company, Mr. Beland.

Respecting the River St. Clair Railway, Bridge & Tunnel Company, Mr. Ingram.

Respecting the Manitoba and Northwestern Railway Company, Dr. Douglas.

To incorporate the Lake Bennett Railway Company, Mr. Morrison.

To incorporate the Velvet Mine & Railway Company, Mr. Galliher.

The House went into Committee of Supply and passed the items under the head of civil government for the Department of Trade and Commerce.

The estimates for the fisheries branch of the Department of Marine and Fisheries were considered.

Public Works Estimates.

Mr. Sutherland's main estimates were all passed, and Mr. Tarte's were taken up. The Minister explained the plans for the branch of the Royal Mint. He also gave a great deal of information about the new dredges that have been made for the St. Lawrence channel and other works, saying that the Poison dredge is now the most efficient and modern dredge in the world, and may dredge at less than a cent a yard. Mr. George Taylor criticized an item of purchases of carpets, etc., for a Government tug. Mr. Tarte explained that the tug had been furnished and decorated in anticipation of a lake trip by the Prince and Princess of Wales, as proposed in the original program. Mr. Tarte had been in the boat only once, and on that occasion he was nearly killed.

The New Dredges.

In the evening the estimates for public works were again taken up. Mr. Tarte, in reply to questions, said that when he took office the Department have five dredges, of which only one was fit to work. Now it possessed a fleet of the most powerful and modern type. In two years he hoped to have the channel 30 feet deep, 450 feet wide in the straight stretches, and up to 800 feet wide in the curves, completed between Montreal and Quebec. The amount asked for this work this year was $500,000, and he expressed the hope that this was the last year that large votes for building dredges would be needed. In addition to the work referred to between Montreal and Quebec there was a piece of about one mile in length below Quebec where dredging was necessary to give sufficient depth at low water.

The French River Route.

A long discussion of the French River route resulted from the request of Mr. Tarte that gentlemen on the Opposition side would not be frightened at the proposal, but would give it that calm consideration which public questions should receive. When the French River route was finished there would, he anticipated, be a vast accumulation of grain and other freight at North Bay in the fall which the C.P.R. could haul down grade during the winter months to feed the Canadian winter ports.

Mr. D. C. Fraser thought the solution of the question of transportation was to be found in the ultimate exportation of our produce from a Canadian national port which would be open summer and winter. The question might be considered whether it would not be wise to apply some of the money to improving the railway connection with the Maritime Province ports instead of spending it all on canals.

Mr. A. E. Kemp inquired whether the Minister had ever taken into consideration the question of fitting up a harbor on the Georgian Bay at the point nearest to the "Soo" branch, to which the C.P.R. might extend their railway, instead of developing the French River route. He also inquired the distance from the "Soo" branch to the Georgian Bay.

Mr. Tarte replied that the nearest point on the Georgian Bay was 90 miles from the "Soo" branch. He gave a table of distances, showing that by the French River route a distance of 300 miles was saved to Montreal, and there was a further saving of 332 nautical miles to Liverpool, compared with the New York route.

After two hours' discussion the item carried at $600,000.

The greater portion of the items for public works chargeable to capital, amounting to upwards of $1,000,000, having been passed, the committee rose and the House adjourned at 10.45 p.m.

To Control the Rates.

Hon. Charles Fitzpatrick last night gave notice of a bill in regard to telegraph and telephone companies. The Minister of Justice would give no forecast of its provisions, but from another source it was learned that the Government will take the power under certain circumstances to absolutely control the rates of both telegraph and telephone companies.

Mr. W. McGuire, editor of The Tilsonburg Liberal, who was in attendance at the Canadian Press Association meetings here this week, is receiving the congratulations of his confreres on his appointment to the vacant postmastership of Tilsonburg.

MAN CUT IN TWAIN.

Railway Express Strikes James G. Harris a Nova Scotia Nursery Manager, With This Tragic Result.

Earl Grey in Toronto to-night will discuss the subject of a public house trust.

M. Topalis, the Greek Minister of Justice, resigned in order to fight a duel with Colonel Koumounddouros.

Captain Dulessis, "B" Battery, Kingston, has forwarded his resignation to the Militia Department at Ottawa.

It is reported that S. W. Davy has withdrawn his name from the protest against Mr. Avery, M.P., for Addington.

H. G. Carroll, Solicitor-General, was Friday re-elected by acclamation to represent Kamouraska County, Que., in the House of Commons.

The School of Manual Training and Domestic Science, recently erected at Stratford, was formally opened Friday evening by the Minister of Education, Hon. Richard Harcourt.

It is not O'Donovan Rossa that is dying at Colorado Springs from blood poisoning, but a son who bears his name. All hope for his recovery has been practically abandoned.

Between sixty and seventy men are reported dead beneath a snow slide, which wrecked the Liberty Bell Mine shaft house at Telluride, Col., on Friday. The loss of life may not exceed 30.

At Waterloo, Ont., W. S. Hodgins of Berlin, a well-known life insurance man, was found dead about 9 o'clock Friday evening. Deceased was nearly 60 years of age. He leaves a wife and two children living in Berlin.

Shortly after midnight Friday the buildings of the New Hamburg Manufacturing Company at New Hamburg were discovered to be on fire. The buildings and machinery are a total loss. Loss estimated between $25,000 and $30,000.

Joseph Bourdeau, aged 24, of Charlottetown, mate of Schooner Brilliant, laid up at Halifax, N.S., at Dewolfe's wharf, while going on board at 10.30 Thursday night, fell between the vessel and the wharf and was drowned. Body recovered ten minutes after, but life extinct.

James G. Harris, manager of the Nova Scotia Nursery, met instant death Friday evening. While attempting to cross the railway track in Halifax, N.S., he was struck by the out-going suburban express, and his body cut in twain. He was 46 years of age, and is survived by a widow.

The Flahertys Acquitted.

St. Scholastique, Que., March 1.—Jas. Flaherty was acquitted by the jury last night of the charge of murdering Frank Blais, who was killed in a row at Flaherty's house last August. After the verdict, Flaherty's wife was put in the dock on a similar charge, but as the Crown announced there was no evidence to offer, she was also acquitted.

A CAUSE OF HEADACHE.

One Very Common Cause, Generally Over-Looked.

Headache is a symptom, an indication of derangement or disease in some organ and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses, all produce headaches, and if we could always locate the organ which is at fault, the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache, called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the head-

ache is located in the back of head and neck it is often caused from catarrh of the stomach or liver.

At any rate catarrh is the most common cause of such headaches, and the cause of the catarrh causes a prompt disappearance of the headaches.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics, like eucalyptol, guaiacol and blood root, which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and eulogizes Stuart's Catarrh Tablets as a cure for them. She says, "I suffered daily from severe frontal headaches, and pain in the back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from Catarrh more or less for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case, because the headaches were always worse whenever I had a cold or a fresh attack of catarrh.

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure, and after using a few fifty-cent boxes which I procured from my druggists I was surprised and delighted to find that both the catarrh and headaches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at 50 cents per package under the guarantee of the proprietors, that they contain absolutely no cocaine (found in so many catarrh cures), no opium, (so common in cheap cough cures), nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

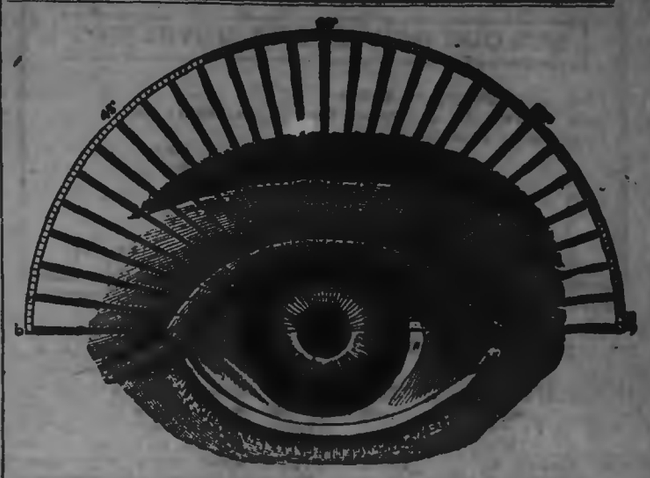
The Artist and the Critic.

Sidney Cooper, the English artist, happening one day to visit the Royal academy, where some of his works were on exhibition, while a couple of critics were examining the pictures, strolled up to where they were standing. At that moment the younger of the two critics exclaimed, "Any machine could turn out sheep like that!"

Mr. Cooper put his hand in his pocket, produced his card and, handing it to the newspaper man, said, with gravity, "If you will kindly send that machine to this address when completed, I'll send a check for $1,000 to the institute for decayed journalists!"

GOLD SOAP

The Purest, Handiest Soap in all the World.



THE GLARE OF THE SUN AND SNOW

is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

The Story of John Beatty,

Ex-Mayor of St. Lamberts.

For Forty-Seven Years Superintendent Mechanical Department of the Montreal Witness.

The Town of St. Lamberts.

There are few citizens of Montreal or vicinity who are better known or more highly respected than Mr. John Beatty, of St. Lamberts, P. Q. For the long period of 49 years he has been connected with The Montreal Daily Witness as Manager and Mechanical Superintendent. He has held many public offices; been a Justice of the Peace for the past 20 years and is ex-Mayor of St. Lamberts.

Mr. Beatty makes the following statement in regard to Powley's Liquified Ozone, because he feels it his duty to tell everybody about this remarkable preparation that they may benefit. He sets forth the following facts:

October, 1901.

"For the past fifteen years I have been the unfortunate victim of asthma and hay fever, and during that period tried many remedies and received but little benefit. I also tried sanatoriums and resorts in high altitudes yearly, but the relief I secured was at the best but temporary. In the month of September these maladies generally appeared in a very aggressive form, and caused intense suffering. This year was no exception and the usual date brought about a severe recurrence of my trouble.

"One evening in the beginning of September, I was suffering greatly, when a St. Lambert neighbor, Mr. Heavysege, who himself had received wonderful benefit from Powley's Liquified Ozone, advised me to secure a bottle without delay. I had not seen Ozone advertised, nor had I heard anything about it previously, yet my friend was so enthusiastic and positive in regard to it that I hitched my horse, though the evening was well advanced, and drove to Montreal, a distance of three miles, where I secured a bottle. Returning shortly before midnight, I partook of a light meal and then made my acquaintance with Ozone. As assured by Mr. Heavysege, certain enough relief came to me within two hours after taking the first dose, and I enjoyed a night's sleep such as had for long been denied me. Since then I have used three bottles of Ozone and no recurrence of my trouble has appeared. I have recommended Ozone to many friends all over the country and in every instance it has been found beneficial. I would travel miles to recommend it to one suffering as I have."

(Sgd.) JOHN BEATTY,
St. Lamberts, Montreal, P. Q.

Any bronchial or lung trouble you contract may mean something very serious to you later on if you don't attend to it at once. Whenever you get the least bit under the weather take Powley's Liquified Ozone two or three times at night before retiring, in hot water. When you take it hot your body absorbs the oxygen most readily and you get the full benefit of the element to feed the blood and so stimulate the entire body in a healthy permanent way. If you suffer any bronchial trouble, as asthma, bronchitis, chest colds, take Ozone—it will cure you like magic.

50 Cents and $1 at all Druggists, The Ozone Co. of Toronto, Limited, Toronto and Chicago.

THEY CANNOT UNDERSTAND.

Many People Still Inquiring About Joseph Brown's Case.

Dodd's Kidney Pills are Acknowledged to be a Wonder Working Medicine—Many Other Miraculous Cures Brought to Light.

Oshawa, Ont., Feb. 28th.—(Special.) One effect of the publication far and wide through the press of the miraculous cure of a case of Paralysis here in Oshawa has been to bring to the surface a great many similarly wonderful and well authenticated cures by the same remedy—Dodd's Kidney Pills.

Mr. Brown, whose case has caused all the sensation, is a modest unassuming mechanic employed in the Oshawa Malleable Iron Works. Since the publication of the facts of his case and its cure he has been overwhelmed with letters of inquiry from all over the country, and to each of these he answered simply:

"Yes, Dodd's Kidney Pills cured me after all the doctors and hospital specialists had given me up. I couldn't walk and had to be fed like a baby for four months, but the pills soon fixed me up and I have been all right ever since."

He has also been in receipt of not a few letters from others who too have found Dodd's Kidney Pills a life-saving remedy when all else had failed.

Several of these, encouraged by Mr. Brown's example, have written to the papers reporting their cases and all are very enthusiastic in their praises of the medicine.

But our explanation of all these cases has been offered and it seems to make them easily understandable. The Kidneys are Nature's blood filters. If the Kidneys are healthy all diseases will be extracted and expelled—Dodd's Kidney Pills cure the Kidneys and thus enable them to throw off sickness and to protect the body from any and every assault of disease.

SATUDAY, MARCH 1, 1902.

Probabilities.

Strong west and north-west winds, showery; colder at night, with light snow. Sunday—Colder.

St. Luke's Church.

The subejcts for sermons to-morrow are as follows: In the morning, "The Tears of Love," in the evening, "Home Influence." The rector will preach.

Song Sermon.

The monthly song sermon will be given in Charlotte street church on Sunday evening. Subject "Save the Boy." New and attractive music and song will be rendered, by the pastor and the choir.

Something Choice.

The largest and finest Pineapples we have ever seen have just arrived; also fine, ripe tomatoes, bananas, cocoanuts, lettuce, onions, parsley, and celery. S. A. OKE, 376 George street. Telephone, 18.

Sunday Reading.

The March publications of the illustrated magazines and newspapers have arrived at the Peterborough Bookstore. Also all the newest books and periodicals of the day. A cordial invitation is extended to all to call and select their Sunday reading to-night. A. H. Stratton & Co.

An Illustrated Talk.

A new series of talks for the month of March will begin at the Y.M.C.A. on Sunday at 4.15 p.m. These will be taken by leading laymen and the theme will be The Titles of Christ. Mr. Elcome, who, as a naturalist, draws many lessons from nature, will give the talk to-morrow, which will be illustrated by natural history specimens. The subject will be "The Rock." Mr. Watson will sing. All men are invited.

All Saints' Church.

There will be a celebration of the Holy Communion Sunday at 8.30 a.m. The series of Lenten sermons will be continued, the morning subject being "The Church of, and the Epistle to, the Romans," and in the evening the fourth word from the Cross. "My God, my God, why hast Thou forsaken Me?" Rev. Canon McNab, M.A., of Toronto, will give a lecture, illustrated with limelight views, in the church on Monday evening. The subject is, "Bible Scenes in our Lord's Ministry," and will prove very interesting at this season of the year.

Will Citizen Call?

The Chief this morning received a letter signed "Citizen," in which the writer asks that certain alleged wrongful doings in the town be investigated. The writer is afraid to allow his name to be known for fear that he might become mixed up in any investigation that might follow. The Chief, however, wishes to inform "Citizen," that if he will only call at the Chief's private office, and have a talk with him, that he need not be afraid that his name will be divulged in any way in any investigation that may follow. The name is required only as a guarantee of good faith. Will "Citizen" please call and see the Chief?

All the latest styles in photos and mounts at Whiten's. Have Whiten make your large crayon work for you. Have Whiten frame your pictures for you. Studio, 158 Hunter street west.

FEDERAL UNION.

Highest Water Mark Reached Last Night—186 new Members Initiated.

Remarkable as has been the growth of the membership in Peterborough Federal Union, No. 9,240, the increase to the roll last night rose to the highest water mark yet reached. The actual number initiated was one hundred and fifty-three, furnishing an acquisition to the strength of the union that was little short of sensational.

The hall was crowded as it never was crowded before. It was estimated that between 500 and 600 men were present, and the good order and business-like decorum which prevailed reflected the greatest credit on officers and men.

It appeared to be the general impression that the hall had become inadequate for holding the meetings in future and a committee was appointed to procure new premises for holding the regular weekly sessions of the union at once.

During the evening the Rev. J. C. Davidson was presented with a beautiful cane, by the union, as an expression of the respect of the men for his interest in their cause.

Mr. Davidson made a feeling reply, thanking them for their gift. He also gave them some good counsel and advice regarding their duties as members of the union and as workingmen.

A general discussion of the recent labour disagreements took place, when it was decided that the press be requested to refrain from publishing anything that might be calculated to give undue prominence to their business.

A petition was presented from some fifty female employees asking permission to be affiliated with the union.

PERSONALS.

Miss Laura Davidson returned last evening, from Toronto.

Miss Clara Bellegham will sing at St. Paul's church to-morrow evening.

Rev. John Edmison, who has been in town for the last few days, has returned west.

Hon. J. R. Stratton spent the day in town and returned to Toronto this afternoon.

Mr. Roger Davidson, who has been laid up in the Keewatin hospital for the last week has recovered from the effects of a bad cold.

Hon. E. A. Evanturel, Speaker of the Legislative Assembly for the Province of Ontario, was in town to-day, and was introduced to his compatriots and many other citizens, by Mr. H. LeBrun. A few hours were spent most pleasantly in calling upon friends. The Speaker, is a genial, whole-souled gentleman, and is delighted with the appearance of Peterborough and its manufacturing possibilities.

BAND CONCERT.

The band concert in the market hall last night, by the 57th Regimental band was well attended notwithstanding the rather unfavourable condition of the weather. The programme was of the usual excellent variety and heartily enjoyed. It is to be hoped that the band will hold another concert before the warm weather sets in.

GAME LAW INFRACTION.

County Police Magistrate Edmison held court in Havelock on Tuesday, when Mr. Elesir Hubble, Belmont, was charged with selling partridge during the close season to Mr. John Farmer. Game Warden Smith of Belleville, conducted the prosecution, and Mr. Hubble conducted his own case. The evidence brought out the fact that the game in question was not partridge, but rabbits, or more properly speaking, Northern Hares, and that the sale was made to Mr. Bissonnette and not to Mr. Farmer. On this the original charge was amended so as to read hares instead of partridge, but owing to Mr. Hubble not knowing that hares were protected by the Ontario Game Laws, the Magistrate closed the case, on Mr. Hubble paying the costs, which amounted to about $5.

RUNNING OFF THE WATER.

No Complaints yet About any Premises Being Flooded.

Town Engineer Hay is to be congratulated on the success of his preparations to meet the exigencies demanded by the sudden thaw. Although there was an enormous amount of snow on the streets, the excavation of trenches leading to the manholes resulted in the water being promptly run off and although it is very sluahy underfoot for pedestrians, yet there are no complaints yet of flooded cellars.

The creek is behaving in a most becoming manner this spring, so far, and the residents along the banks do not anticipate any trouble.

PRESENTATION OF PRIZES

To Pupils who Have Won the Awards Offered by the W. C. T. U.

The cash prizes donated by W.C. T. U., for the pupils who obtained the highest number of marks in the study of scientific temperance in the public schools during 1901, will be presented at a public meeting to be held at the Y.M.C.A. hall on Tuesday evening, March 4th, beginning at 8 o'clock.

The clergymen of the town and other leading citizens have been invited to take part.

Short addresses will be given and good music may be expected. An urgent invitation is extended to parents and teachers to be present. A collection will be taken up at the close of meeting. 2d

ODDFELLOWS' RALLY

Will be Held on Thursday Evening March Thirteenth.

The Joint Committee of Peterborough and Otonabee Lodges will meet on Monday evening, March 3, at 7.45 sharp, at the lodge rooms, to make final arrangements for the Oddfellow's Rally to be held in Peterborough, on Thursday, March 13, beginning at half-past seven o'clock. Grand Secretary King and Grand Master Lyman have been invited to attend. There will be initiation, the three degrees, the Oriental degree, speeches, songs, refreshments, etc. A very pleasant and profitable time is looked for, and all Oddfellows are cordially invited. All members of Peterborough and Otonabee Lodges are particularly requested to attend the meeting of their respective lodges, between now and March 13, to practise the degree work.

COURT PETERBOROUGH.

They Held an "At Home" Last Night—Most Enjoyable.

The Foresters' Hall, Simcoe street, was the scene of a very happy gathering last night. Yesterday was the 23rd anniversary of the institution of Court Peterborough, No. 29, C.O.F., and the event was celebrated in a manner that was characteristic of the previous anniversaries of the lodge. Court Peterborough was "at home" to its members, quite a number of whom were in attendance. An informal social evening was spent in various means of entertainment, and refreshments were served in the spacious dining hall. A short though informal toast list was disposed of, and many happy references were made to the success of Court Peterborough.

HIRWEN JONES CONCERT, MARCH 21ST.

The following is a copy of a telegram received by Mr. Crane on the appearance of Hirwen Jones at Halifax, N.S.:

"Hirwen Jones' concert tremendous success, hundreds turned away, standing room only, individual opinion—best concert of season, he captured everybody by his excellent voice."

This artist appears here on March 21st, with Hilda Richardson, 'cellist; Owen Smiley, reader, and Miss Veitch, pianist.

Subscription list will be opened in a few days.

NEWS NUGGETS.

—The Jory Police Court case will resume on Monday.

—The Ashburnham Village Council will meet on Monday night.

—The regular monthly meeting of the Peterborough Town Council will be held on Monday evening.

—The bed of the canal between the town and Nassau has become a favourite drive for pleasure parties.

—At the Murray street Baptist church to-morrow morning the sacrament of the Lord's Supper will be observed after the service.

—Mr. Johnston Paudash, of Hiawatha, passed through town to-day on his way home from the Chemong Reservation, where he was attending a tea meeting.

—The market this morning was a very small one. Quite a number of farmers living within a few miles of Peterborough walked into town with their butter for regular customers.

—The Orangemen of East Peterborough have decided to hold their annual celebration this year at Havelock. Some 18 lodges are expected to participate in the celebration of the "Glorious Twelfth."

—Rev. Mr. McAmmond has reconsidered the matter and decided to serve the Perth church for another year if the conference approve. The clergyman is worried still by the Syracuse scandal. Like Banquo's ghost it will not down.—Ex.

—All pipes, cigars, cigar holders, pouches, cigar cases, at cost. To all who purchase 25 cents worth of Bobs Chewing Tobacco I will also give a special prize which you have only to see to appreciate, and one that will please all. W. J. Morgan, 436 George street. 20d49

—The Trusts and Guarantee Company, Limited, 14 King street, west, Toronto, has been appointed executor of the estate of the late Rev. Dr. Francis Andrews, of Keene, Ont., who died last month, leaving a will dated June 26th, 1901, appointing the Company trustee and executor. The estate is valued at about $40,000, and consists principally of moneys on deposit in banks and stocks.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

DEATH OF MRS. MANNING.

She Passed Away This Morning at No. 294 McDonnell Street—88 Years of Age.

The numerous friends and acquaintances of Mrs. Samuel Manning, will learn with regret of her death, which occurred at the residence of her son, Dr. W. H. Manning, No. 294 McDonel street, this morning. Erysipelas was the immediate cause of Mrs. Manning's death.

The deceased lady, whose maiden name was Nancy Cowing, was born in the County of Cumberland, Eng., 88 years ago, and came to Peterborough with her parents in the year 1831. Sixty-three years ago she married her deceased husband, and moved to Smith, where she resided for many years. About twenty-five years ago Mrs. Manning, with her husband, moved to town again, and she has since resided here. Her husband predeceased her about four years. The late Mrs. Manning was a member of Bethany Tabernacle. She was an earnest Christian, and was known to a wide circle of friends.

She leaves to mourn her demise, five sons and two daughters. The former are Messrs. W. H. of town; W. C., and J. C., of Smith; Samuel, of Dakota; and Sidney, of Wisconsin. The daughters are Mrs. Jas. Bell, of Smith; and Mrs. John Martin, of Canton, Hope Township.

The funeral will leave the family residence at 10.30 o'clock on Monday, and proceed to the Little Lake cemetery.

THE LATE JOHN PORTER.

His Death Occurred in Toronto Yesterday—Resided Here.

John Porter a resident of Auburn died in Toronto yesterday, from the effects of an operation that had been performed on him. The deceased was born at Auburn 57 years ago, and for some years he was engaged in farming in Douro. Two years ago he removed to Auburn where his family since resided. The deceased was married to Miss Jessie Forsythe, daughter of Mr. Andrew Forsythe, of Keene, who together with six of a family survive him. They are, Misses Mary, Amy, Alice and Lillian, and Messrs. Wm. and John, all of town. Mr. David Porter, of Toronto, is a brother of the deceased.

The funeral will take place on Monday at 2.30 o'clock to Little Lake Cemetery.

CHURCH CHIMES.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral there will be three masses celebrated—at 8 a.m., low mass; children's mass, at 9.15 a.m., high mass at 10.30. Vespers at 7 p.m. with Sermon.

The above farm, stock sales will commence each day at 1 o'clock sharp.

John Haggart, Auctioneer.

Miller's Grip Powders Cure. Sold by all druggists.

AN ENVIABLE POSITION.

A magnificent achievement is recorded in the 55th annual report of the Canada Life Assurance Company published in this issue. That this, our oldest, and largest native company, should be able to place its entire policy reserves on so stringent a basis is worthy of more than passing mention, the report published elsewhere in this issue intimating that every dollar of policy reserves is now valued by the Institute of Actuaries Table, with interest at not more than 3 1-2 per cent.

Two years ago the President, Senator Cox, in his address, said: "I believe in building on foundations that will stand the strain and stress of years." That his belief was the outcome of a conviction that he would be able to put it into effect is evidenced by the splendid report he was able to present within two short years.

The fact that all anxiety as to the strength of the company's valuation basis is now removed, for the present generation at least, will have a reassuring effect on policyholders, and should attract many applicants, for they will doubtless be drawn towards a company where they will be free from obligation as to the reserves on policies of long standing.

In every respect the report is distinctly favourable. The business actually paid for $7,078,356, was the largest in the company's history. The assurances amount to $84,484,972.

The income from interest was also larger than ever before, passing for the first time, the million dollar mark. The death claims, while amounting to $1,163,096, were well within the amount expected and provided for.

The assets were increased, aside from payments of account of capital stock, by about $1,300,000, and now stand at $24,504,790.

Taking the report all in all, there appears to be ample justification for the claim that 1901 was the most successful year in the company's history, and the local agents in Peterborough are to be congratulated on contributing their full share to this grand year's business.

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

Novelties in Dress Goods

Such an elegant showing of High-class Novelties in Dress Goods is to be seen at this store—beautiful new colourings and decidedly new weaves. There is a decided difference in stylish goods this year, while there will still be a great quantity of Tailor-made Suits of heavy material worn for street costumes and travelling dresses. Still, you will find that ladies of taste and those who study proper form will be seen wearing full dresses of the many beautiful weaves in light-weight goods, which are to be had this season.

Among the favourite weaves will be found:—

French Crepetines, French Eatiennes, French Voiles, German Crepe de Chene Wool and Silk Warp Henrietta, French Wool Satan-finished Goods,

all of which are to be had now at this store in all the new shades, and we will be pleased to show them to you whether you intend to buy or not.

Another big assortment of McBRIDE'S IRISH DIMITIES, in beautiful design and colourings, for both Full Dresses or Short Waists, are being very much admired these days.

Our Wash Goods section is having many compliments paid it already this year. Come and see the many handsome things we are showing in Wash Goods.

Counterpanes—New Counterpanes

We can show you the finest assortment in these goods that has ever been shown in this city.

White Satin-finished Quilts, from.....$1.50 to $4.50
White Honeycomb Quilts, heavy make, with fringe all around—the proper thing for Brass or Enamelled Beds. From.....$1.75 to $2.75
White Crotchet Quilts, from.....75c to $1.25

A visit to this store will pay you. We have many beautiful things to show you.

PORT HOPE KNITTING WORKS

ABOUT DOG POISONING.

Dr. Poole Gives Some Very Kindly Advice to Dog Owners and Others.

Vet.-Lieut. Poole, of the 3rd Prince of Wales Canadian Dragoons, sends the following communication to the Examiner which will no doubt prove of great interest to dog owners:

To the Editor of the Examiner,—

Dear sir,—I am frequently hearing of dogs in this locality dying of supposed strychnine poisoning. In considering the matter, and from symptoms explained to me, I don't believe all the cases are from the effects of strychnine, but are cases of ptomaine poisoning, i.e., by eating putrefying flesh, etc., to which dogs especially, as so many are allowed to ramble, are very partial. Your doggy friends relish like to hear of a few simple remedies that would save them the loss of their canine friends, so I here give them for their benefit.

Gently take hold of the animal, and on no account scold or abuse him, administer as an emetic, a tablespoonful of mustard and salt, added to which three parts of a tablespoonful of warm water. There is no need to force the dog's mouth open, simply take hold of the side of the lip, pull it out, and pour the fluid into the pouch thus formed. After the animal has vomited freely, give a full ounce of castor oil, and fast the animal for twenty-four hours. I think if these simple remedies were carried out, a number of the so-called deaths by strychnine might be mitigated and some unlucky neighbour freed from blame.

Yours, etc.,
B. R. POOLE, V. S.
430 Water street, Peterborough.

A SOCIAL EVENING.

The Members of Mr. S. R. Armstrong's Class had an Enjoyable Time Last Night.

The social evening which was held last night in the Sunday school room of the George street Methodist church, by the members of Mr. S. R. Armstrong's class, proved to be a very enjoyable affair. Notwithstanding the inclement state of the weather, a large number of young men of the congregation responded to the invitation to be present, whilst the class itself was well represented. It was an informal social evening, at which everyone was made to feel at home, and all appeared to enjoy the excellent programme which was provided.

The chair was occupied by Mr. S. R. Armstrong, the popular teacher of the class, who extended a cordial welcome to those present. An informal programme of songs and recitations were run off. Mr. Daly opened the programme with a solo, which was followed by an excellent character sketch by Mr. Sorsoleil, entitled "The Sting of a Bee, a Cure for Rheumatism." A quartette consisting of Messrs. Theulis, Dodge, Turner and Maguire rendered "Annie Laurie" unaccompanied, in a very excellent manner, which was followed by a solo by Mr. Piece, entitled "Good Night Sweet Dreams." Mr. Piece is the possessor of a very rich baritone voice.

A pleasing feature of the programme was the debate on the subject—"Resolved that the country girl makes a better wife than the city girl." The cause of the country girl was championed by Messrs. H. Van Dusen and A. Gordon, whilst Messrs. J. S. Knapman and A. Warrem upheld the argument in favour of the city young lady. Many well thought-out but rather amusing arguments were advanced by both sides, but the judges, who were Messrs. D. W. Dumble and A. R. Kidd and F. H. Dobbin decided in favour of the country girl.

Mr. G. W. Mulligan sang "The Shipbuilders," after which Mr. D. W. Dumble gave a very interesting talk to young men. Mr. Skitch's solo, "Asleep on the Deep," was well rendered, and Mr. F. W. Stubbs' short address, in which he invited all present who were not members of the class to become such, was cordially received. Mr. James Brown was heard to good advantage in his selection "In a House of Too Much Trouble," Mr. J.C. Frances had his gramaphone along with him, and gave a number of selections. In fact, during the time refreshments were being served, the gramaphone discoursed pleasing music. Mr. Frances also gave a talk on the mechanism of the gramaphone, which was exceptionally interesting. Refreshments were served, and altogether the social evening was a great success.

Mr. Will Staples acted very efficiently as accompanist during the evening, and rendered a piano solo that was splendidly executed.

REMNANTS OF TWEEDS.

H. LeBrun & Co. have just received another large consignment of Remnants of Tweeds direct from the Mill, which they secured at mill-end prices. These Remnants come in three-quarter yard to suit lengths, and will be sold at less than half the regular web prices. No better chance was ever offered so near the spring season to buy a whole suit, or part of a suit, at a bargain. Mothers will find what they want for Suits, or pants, for their boys at lowest prices.
H. LeBRUN & CO.

IN LATEST SPORTING CIRCLES.

Locals Will Keep in Good Condition.

The Port Hope Young Ladies and the Cobourg Young Ladies are "Scrapping" too—Some Curling Notes.

HOCKEY.

A meeting of the Executive and the members of the Intermediate team was held last night when the situation was talked over and it was decided to keep the team in training during the soft spell.

The members of the Intermediate team will practice at the rink on Monday evening, whether the temperature takes a drop or not.

Port Hope and Cobourg are at it again. This time the "scrap" is between the ladies' hockey team of Port Hope, and the team of the sister town. It is nothing more than was expected by the casual observer. Here is what the Guide has to say concerning a return game of hockey which was to have been played on Thursday last. The game did not take place owing to the soft weather, although the Port Hope team went down with the intention of playing. The Guide says:

"Miss Thompson, captain of the Cobourg team, called after tea and did her utmost to make amends for the unseemly treatment accorded by her friends, and the ignorant mob. Her actions were very much appreciated by the Port Hope girls. Shortly after seven o'clock the band sleigh was gotten out and the homeward trip commenced. As the roads were so bad, it was decided to send the rig with a couple of occupants, up the front way, while the remainder went up Division street, with the understanding to meet at 'Barney Lillie's corners.' It was a lucky job the majority did vacate the rig for those who drove were subjected to shameful abuse by portions of the same mob that had been lined up at the hotel. Snow and ice were quite frequently used to emphasize their foul language. All arrived home without broken bones, but to find a more sorry lot of hockeyists you would have to go many a mile. To think of receiving such blackguardly treatment in return for the good time tendered the Cobourg girls on their visit to Port Hope! But, as the saying is, "What is in must come out." The boys from here always expect illtreatment at the hands of Cobourg, but when it comes to doing likewise to ladies, it is nearly time to call a halt. If some people in Cobourg are not thoroughly ashamed of themselves for such conduct them they should be. The Cobourg girls had all their expenses paid, and were treated like ladies when they visited Port Hope, but the High School team paid their own expenses, and were glad to get safely out of such a crowd. Peterborough had intended sending a team to Cobourg, but the Port Hope girls will warn them in time to prevent them visiting a town that is so far behind in civilization."

CURLIANA.

The Executive of the Curling Club has drawn up the following schedule of games which will go into effect on Monday evening:

Monday, March 3rd.
Ice No. 1.

Cornstock	Robinson
Patterson,	Houson
Connal	Jeffries
Morrow, sk	Ferguson, sk.
Ice No. 2.	
Pringle,	Lech
Matthews	Sub.
Pentland	Sub.
Rutherford, sk.	Edwards, sk.
Ice No. 3.	
Bradley	Scott
Hall	Collins
Meredith,	Waddell
A. Roy, sk.	Davidson, sk.

Tuesday, March 4th.
Ice No. 1.

Deane,	Rudkins
Hall	Collins
Kenner	Muiral
Stanger, sk.	Rutherford, sk
Ice No. 2.	
Scott,	Sub.
Salisbury	Sub.
W. Salisbury	Waddell
Parker, sk.	Kerr, sk.
Ice No. 3.	
Pringle,	McIntyre
McAllister,	Crane
Sub.	Meredith
Davidson, sk.	Knapman, sk.

Wednesday, March, 5th.
Ice No. 1.

McClelland,	Bradley
Matthew,	McAllister
Brightman	Dr. Neill
Rutherford, sk.	Stanger, sk
Ice No. 2.	
Lech	Robinson
Clarke	Stratton
Stevenson,	Pentland
Edwards, sk.	Brown, sk.
Ice No. 3.	
Tooley,	Sub.
Sub.	Crane
Munroe	Frost
Whiten, sk.	Knapman, sk.

March 6th as Feb. 24th; March 7th as Feb. 25th; March 8th as Feb. 26th; March 10th as Feb. 27th; March 11th as Feb. 28th.

Bonspiel for March 3rd postponed till further notice.

The Orillia News-Letter of this week says:—"Orillians were pleased to have the opportunity of shaking hands once more with a former esteemed townsman, Mr. George E. Whiten, who was here skipping one of the Peterborough rinks at the bonspiel. Mr. Whiten seems to have discovered the secret of perennial youth, as he looks younger than when he left here eight years ago."

BOWLING-ON-THE-GREEN.

As the curling season draws to a close the summer game of bowling-on-the-green again comes to the front, and one who is evidently a devotee of the sport drops the Examiner a line to suggest that it would be a good idea for the bowlers to organize early and take into consideration immediately the matter of getting the grounds into shape for the summer's play. In this connection it might be mentioned that the green was carefully looked after just before the snow fell. The bowls were also oiled and packed away for the winter. The annual meeting will probably be called towards the latter part of the month and just at the close of the curling season.

BASKET-BALL.

To-night at 8 and 9 o'clock there will be two good games at the Y. M.C.A. gymnasium. The Canadian General Electric Co. will play the Stitchers from the B. F. Ackerman Co., and the Business College will play the Night Owls. These games should be well patronised as the players are of some reputation and the admission free. The Business College claim that they can close their opponents' books with considerable ease, while the Electricians say they will shock the harness men with a heavy voltage. The public are invited to attend both games.

SOUL-INSPIRING.

Mr. Charles Nicholas Brown, the patient and long-suffering secretary of the Thistle Curling Club, has been in receipt lately of a number of anonymous communications. The appended poem is the latest which the mail has brought him and he threatens to set both his kittens and the Scotch terrier on the composer if he can find him:

To citizens both young and old,
A tale I will relate,
About the games that are often played
Down where the people skate.

The place is down on Charlotte street,
Not far from the Queen's hotel,
Although it is a yard or two,
And perhaps it's just as well.

The boys, they never take a drink
Until the game is done,
And then they wander down the street,
And Tooley has his fun.

There's doctors and there's lawyers,
They come from far and near,
But they don't curl any better
Than the man who sells the beer.

The boys are asked to play the turns,
The in-turns they like most,
For if they ask for the out-turn
They're sure to hit the post.

The games are called at eight o'clock,
And I wish you all to know
That the skip who gets the first choice
Has the better show.

There's every kind of tradesman
To the man that sells Brown's seed,
But the rink that's sure to win the game,
Has Tooley on for lead.

There's the man that keeps the greenhouse,
And grows the flowers so nice,
And I tell you he's a wonder
When you get him on the ice.

When it's come his turn to play,
With four stones in a row,
He puts his hat back on his head
And then he lets hea go.

There's the men that take the photos,
And the man that cut the clothes,
And the man that sells brass watches
That everybody knows.

And he who sells tobacco,
Is there to play the game,
And if the "Frost" hangs out that night
He gets there just the same.

There's merchants and there's bankers,
School teachers too, are there;
The way they try to play the game,
Would "Whiten" all your hair.

When the skip goes down the ice to play
Round the tee his players heap,
So when the stone she do run slow,
There's no one there to sweep.

And then the shoe-man, he is keen
To play this little game,
He thinks that he will win the spoon,
For he beats the man that's lame.

Now, if you want to see some fun,
Come in and take a peep,
And when you're coming in the door,
You'll hear Tom Brightman sweep.

Sam says if men won't take the broom
They cannot play the game,
But I think that he's mistaken
For they get there just the same.

If you leave your locker open,
Be it evening or at noon,
When you go there to play again
You'll find you have no broom.

There is some fine good curling
Sometimes down on the ice,
And then to watch the game
Is also very nice.

But the best of all the curling
Is done a little south,
When you see them sitting just inside
And curl there with their mouth.

Anon.

A TRYING SEASON.

Little Ones are Subject to Colds and the Result is Dangerous Unless Prompt Remedial Steps are Taken.

The little ones are apt to take cold, no matter how carefully a mother may try to prevent it. While colds may affect children in different ways the main symptoms usually are that the child grows cross, the skin hot, the appetite fickle, and the child quite feverish. Unless something is done at once to relieve a simple cold, the result is often very serious—so serious that many a child's life has been lost. There is no remedy that can equal Baby's Own Tablets in cases of this kind. These Tablets promptly break up colds and carry off the poisonous matter that has been retained in the system. By doing that they reduce the fever; the pulse becomes normal, the appetite is restored and the child is again well and happy.

Mrs. O. E. Earle, Brockville, Ont., says, — "I always use Baby's Own Tablets for both my children, aged three and five years, when they are at all unwell. When my little girl was a few months old she had a bad attack of whooping cough, and I found the Tablets very beneficial. Since that time I always keep them in the house ready for use. When the children are troubled with biliousness, any derangement of the stomach, are peevish, or fretful, or when they have a cold, I always use the tablets, and am always pleased with the results."

These Tablets are a certain cure for such troubles as colic, sour stomach, indigestion, diarrhoea, constipation, simple fever and colds. They prevent croup and allay the irritation accompanying the cutting of teeth. They are sold under an absolute guarantee to contain no opiate or other harmful drug. May be had from all druggists or will be sent postpaid at 25c a box, by addressing The Dr. Williams Medicine Company, Brockville, Ont.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

CHOICEST FLOWERS.

All the seasonable flowers can be relied on when purchased at the West End Greenhouses. Floral designs a speciality. Bouquets for the table, blooming and foliage plants, in pots, flowers for the sick, etc. A Blade, manager, 495 Park street, at residence of G. M. Roger. 'Phone, 218.

For twenty-four years Vapo-Cresolene has been extensively used for all forms of throat and bronchial troubles. All Druggists.

Hatters and Furriers, 413 George Street.

A MARE'S NEST.

Long Investigation Regarding a Government Cheek Reveals Nothing.

The Public Accounts Committee yesterday, spent a long time investigating the circumstances surrounding the granting of a check for $4,000 by the Government to the Dickson Lumber Company, of Peterborough, in connection with dams on the Stoney Creek. Several officers of the company were examined and no evidence adduced to show that the affair was other than an ordinary business transaction. In reply to Hon. Mr. Stratton, Manager J. C. Shook, and former president Richard Hall denied that the company, or themselves as individuals, had ever been asked to contribute, or had ever contributed, money for political purposes. James Eakins, the company's woods foreman, will be subpoenaed for Tuesday next. —Globe, Feb. 28th, 1902.

The Public Accounts Committee yesterday morning investigated the circumstances surrounding $4000 paid by the Government to the Dickson Lumber Company of Peterborough. Several witnesses were examined, but nothing was secured that would go to show that the company or anyone connected with it had been asked to contribute money for political purposes.—World, Feb. 28, 1902.

Valuable Advice to Rheumatics.

Eat meat sparingly and take very little sugar, avoid damp feet, and drink water abundantly, always rely on Polson's Nerviline as an absolute reliever of rheumatic pains. Being five times stronger than other remedies its power over pain is simply beyond belief. Buy a large 25 cent bottle to-day, test it, and see if this is not so. Polson's Nerviline always cures rheumatism.

LAST CHANCE.

Our sale of Suits, Overcoats, Reefers, Trousers, Rainproof Coats, Winter Underwear and Gents' Furnishings, in the T. O. Rush bankrupt stock, closes Saturday night, March 1st. Secure these snaps, bought at 64 1-2c. on the dollar, before moving out of store.

H. LeBRUN & CO.

1. Nine hours a day shall constitute a day's work for all building, out door and corporation work, and for all labourers employed at any work outside factories and foundries. This also to include teamsters.
2. Masons' and bricklayers' labourers wages not be less than 20c per hour.
3. All other labourers, including foundries and factories, not less than $1.50 per day.
4. Town Corporation Labourers, $1.50 per day of nine hours.
5. All teams, on whatever work, shall be paid not less than $3.25 for nine hours' work.

By Order,
W. HENRY, President. W. A. REDPERN, Secretary.
Peterborough, Feb. 10th, 1902.

W. SHERIN,
Notary Public and Conveyancer,
Issuer of Marriage Licenses. Agent for several first-class Insurance Companies. Money to loan
LAKEFIELD, ONT.

Get Rid of it.

If you have catarrh, why don't you try to get rid of it? The first thing you know it will go down into your lungs or stomach and cause serious trouble. You should use Vapo-Cresolene at once. The cure is so easy and so pleasant. You put some Cresolene in the vaporizer, light the lamp beneath and breathe-in the vapor while sleeping, that's all. The healing, soothing vapor, goes all up through the nose, quieting inflammation and restoring the parts to a healthy condition. Doctors prescribe it.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet e taining physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Dimieon, druggist.

MOUNT PLEASANT ONT

THE RUBBER LARYNX

FRENCHMAN CARRIES A STRANGE DEVICE IN HIS THROAT.

It Is Made of Vulcanized Rubber and Virtually Indestructible—It Vibrates in Monotone so Patient Speaks—Incident Recalls Strange Historical Parallels—Dr. Holinger Says French Sensation Is Related.

Paris has been much interested recently in a medical subject who was exhibited before the Academy of Medicine as the possessor of an artificial larynx, capable of speaking in monotone and of eating solid food. The apparatus, inserted above the trachea, is of vulcanized rubber, having a rubber diaphragm answering for the glottis, and vibrating in monotone as the patient speaks. A metallic grating prevents the ingress of food into the windpipe and such liquor as is swallowed falls into a funnel and drains to the esophagus.

According to Dr. F. Holinger, a Chicago authority on throat troubles, however, the whole French sensation is considerably belated and out of date.

"The artificial larynx is nothing new," he said, "and in the hands of a surgeon who knows his business

ARTIFICIAL LARYNX.

little danger or difficulty attends its use. It has been used since 1870 or earlier by Prof. Von Bruns and has been much improved. It is an appliance that can be bought in any well-regulated instrument store, but its use is confined to extreme cases only. Tuberculosis or cancer is the disease which makes it seemingly necessary, but even then the use of the artificial larynx is avoided through the great improvement in methods of diagnosis and treatment of cases by way of the mouth.

"Cases where the artificial larynx has been worn for years are not rare. One of the most remarkable on record is the case of a German officer, who wore one for 25 years, in this time giving instruction in horseback riding and yet making his commands understood above the noise of horses' hoofs in the ring.

"In the French case, an improvement seems to have been made in that the patient is able to swallow. But the great disadvantages of all these appliances are the consequences of the pressure they exert on the living tissue, which often lead to sores and scars that make prolonged use a bore and even a danger to the patient."

In brief, Dr. Holinger's idea is that in almost any case a patient would better lose his voice than risk an artificial larynx.

Anton A. Frank, a Chicago surgical instrument dealer, has an artificial larynx in stock, though he has never sold one. It is of solid silver, with a glottis of the same material inserted. The mechanism is nearly four inches long, weighs two ounces, and costs $20.

To wear this the throat is opened just above the Adam's apple, and the corrugated end of the larynx is grasped by the vocal chords. The glottis drops into the lower tube, which extends into the windpipe, downward. Breathing with such an appliance would be through an auxiliary tube and the patient to talk, would have to close this tube with his fingers. The worst feature of the appliance, to the eye, is that a loop from it projects through the neck above the pomum Adami, through which a lace must be passed for tying around the neck.

ONE TRIAL OF
Malt Breakfast Food
WILL SET YOU THINKING.

One trial of Malt Breakfast Food, delicious, appetising and stomach-comforting, will surely set you thinking in a way that will benefit yourself, family and friends.

In thinking over the matter you will regret that you have been so long a stranger to Malt Breakfast Food, and you will be pleased and willing to give up forever, your old dish of oatmeal or other grain foods with their starchy ingredients, their blood heating properties and their irritating tendencies, and you will never cease to recommend Malt Breakfast Food to your friends.

When you are making a morning meal of Malt Breakfast Food you go from strength to strength; your digestion becomes properly regulated; your blood is kept pure and cool, and the nerves firm and strong. Malt Breakfast Food is a perfect health food for all seasons; it is an especial blessing for old and young in the spring and summer seasons. All Grocers sell it.

Building Superstitions.

In remote times a sacrifice of some kind was always offered at the completion of a building, either public or private. Sacrifices were not only offered at the completion of structures of all kinds. The foundations themselves were usually laid in blood, whether the structure was a castle, bridge, cottage or church. Originally—tracing the subject back to heathenish times—the sacrifice was offered to the god under whose protection the building was placed. In Christian times the bloody rite was retained, but was given another significance. In those days it was generally believed that no edifice would stand unless the cornerstone was laid in mortar mixed with blood. Usually the blood was obtained by sacrificing a dog, a pig, a wolf, a black cock or a goat, and not unfrequently some malefactor's blood was poured out to make the ceremony more impressive.

Hope for Consumptives.

How the Ravages of This Scourge may be Stayed.

Statistics Prove That More Deaths Occur From Consumption Than From all Other Contagious Diseases Combined—How Best to Combat the Disease.

The ravages of consumption throughout Canada is something appalling. In the Province of Ontario, where statistics of death from all diseases are carefully kept, it is shown that 2,286 of the deaths occurring during the year 1901 were due to consumption, or about 40 per cent. more than the number of deaths occurring from all other contagious diseases combined. These figures are startling and show the urgent necessity for taking every available means for combatting a disease that yearly claims so many victims. The time to cure consumption is not after the lungs are hopelessly involved and the doctors have given up hope. Taken in its early stages, consumption is curable. Consumption is a wasting disease of the lungs and at the earliest symptom of lung trouble steps should be taken to arrest the waste and thus stop the disease. Consumption preys upon weakness. Strength is the best measure of safety. Dr. Williams' Pink Pills are the best tonic and strength builder know to medical science. The record of this medicine speaks for itself and proves conclusively that taken when the symptoms of consumption develop they build up, strengthen and invigorate the patient to a point where disease disappears. In proof of this take the case of Ildege St. George, of St. Jerome, Que., who says:—

"About a year ago I became greatly run down. I lost colour, suffered constantly from headaches and pains in the sides; my appetite left me, and I became very weak. Then I was attacked by a cough, and was told that I was in consumption. The doctors ordered me to the Laurentain Mountains in the hope that the change of air would benefit me. I remained there for some time, but did not improve, and returned home feeling that I had not much longer to live. I then decided to use Dr. Williams' Pink Pills. After using several bottles my appetite began to return, and this seemed to mark the change which brought about my recovery, for with the improved appetite came gradual but surely increasing strength. I continued the use of the pills, and daily felt the weakness that had threatened to end my life disappear, until finally I was again enjoying good health, and now, as those who know me can see, I show no trace of the illness I passed through. I believe Dr. Williams' Pink Pills saved my life, and I hope my statement will induce similar sufferers to try them."

These pills are also a certain cure for the after effects of la grippe and pneumonia, which frequently develops into consumption. Through their blood-renewing, strengthening qualities they also cure anaemia, heart troubles, neuralgia, rheumatism, stomach troubles, kidney and liver ailments and the functional weaknesses that make the lives of so many women a source of constant misery. There are many imitations of this medicine and the health-seeker should protect himself by seeing that the full name, "Dr. Williams' Pink Pills for Pale People," is on every box. Sold by all dealers in medicine or sent post paid at 50 cents a box or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Clark Russell's Start.

When a young man of one and twenty, Mr. Clark Russell, the well known novelist, was present at the trial of a dozen seamen who had mutinied because the food provided for them was of the most abominable description. He was disgusted to find that the mutineers were actually sentenced to several weeks' imprisonment for refusing to be poisoned with the provisions dealt out to them. From this sprang the idea of a story of mutiny caused entirely by the shipment of bad food for the crew. The result was "The Wreck of the Grosvenor," by which Mr. Clark Russell made his name.

A Corkscrew Steeple.

The steeple of the parish church at Chesterfield, England, is often called the "corkscrew" steeple, for it has got quite a big twist. This is due to the action of the sun on the wooden and iron materials, and the warping is more pronounced in the case of Chesterfield church than in any other church in England. Barnstable and Bristol and one or two other places have leaning steeples, but their tendency is decidedly to "lean" and not to "twist." The church at Chesterfield is the nearest rival in the United Kingdom to the leaning tower at Pisa.

What is Life to You?

If you are a victim of piles, as one person in every four is, you suffer keenly from one of the most torturing ailments known to man, and may wonder if life is really worth living. Certain relief and ultimate cure is awaiting you by means of Dr. Chase's Ointment. It has never failed to cure piles. Painlessly and naturally it allays the inflammation, heals the ulcers and thoroughly cures this wretched disease.

Soup by the Pound.

In China liquids are sold by weight and grain by measure. John buys soup by the pound and cloth by the foot. A Chinaman never puts his name outside his shop, but paints instead a motto or a list of his goods on his vertical signboard. Some reassuring remark is frequently added, such as "One word hall," "A child two feet high would not be cheated." Every single article has to be bargained for, and it is usual for the customer to take his own measure and scales with him.

The Heat of Australia.

Australia is the hottest country on record. I have ridden for miles astride the equator, but I have never found heat to compare with this. Out in the country in the dry times there appears to be little more than a sheet of brown paper between you and the lower regions, and the people facetiously say that they have to feed their hens on cracked ice to keep them from laying boiled eggs.—Sydney Telegraph.

If the child is restless at night, has coated tongue, sallow complexion, a dose of Miller's Worm Powders is what is required; pleasant, harmless. Sold by all druggists.

NOTHING SUCCEEDS LIKE SUCCESS.

Some Notable Instances in Which the Aphorism Proved True.

Nothing succeeds like success, writes Charles Raymond in The Toronto Star, and then he gives these instances:

"He is a stingy guy."

And when they saw it they pointed to a fellow who didn't treat, and wouldn't go out with the boys. They didn't know that the stingy guy had gone without an overcoat one winter to further his studies and form the nucleus of a library. His hobby was mechanics, and when the boss wanted a foreman he knew who to pick. The business grew, and when they needed a superintendent the firm picked again, and of course it was the stingy guy. Then there was an outburst of jealousy. "Oh, Jack's got a pull, he tries to stand in." The jealousy didn't diminish when the firm was recapitalized and Jack took stock in it. Nothing succeeds like success.

Two boys up on our street brought home their reports. One had a good report and the other a poor one.

"You can go to the rink, Arthur."

"Harold, you had better stay at home and sift the ashes."

So nothing succeeds like success, and even children know it. Nothing succeeds like success, make a hit and the job runs after you. Make a failure and you run after the job. Success is strong. The world admires the strong. "Everything he touches turns to money." They say that of Christian Kloepfer, ex-M.P.P., of Guelph. Mr. Kloepfer has under his control over 500 men in his places of business in Toronto, Guelph and Ottawa. In relating his experience once he told me that his start, and not so long ago either, was $4 a week clerking in a store.

Joseph Cook, Inland Revenue officer of this city, was speaking of the Guthrie boys. Mr. Cook was formerly principal of the Central school, Guelph, and the three passed through that school. They are all under thirty-five to-day. Donald left a small church in Walkerton and went to Richmond, Virginia, and receives $5,000 a year preaching to a leading church there. He is now being mentioned as successor to a New York minister, where the salary is half as much as that of the President of the United States. Hugh is now an M.P., and one of the younger Liberal orators of Ontario. Norman headed his class in the recent Osgoode law exams. "Good luck, Norman," said a school mate. Luck, nothing. His landlady probably kicked on the gas bill.

Quite a few years ago a young man walked the streets of Kingston peddling. He was a good peddler, and his business was remarved as a small but successful one. Soon, instead of only selling goods, people came to him and wanted him to buy. His was the success of success. The other day we heard of Sir William Macdonald giving a small fortune to the Ontario Agricultural College. He was the peddler. Nothing succeeds like success.

March is a Favourite Month for Home Dyeing.

In all well regulated homes in city or country, the work of home dyeing is largely done in March. The dresses skirts, capes, jackets, blouses and other articles of wearing apparel used and worn a year ago, but now dingy and faded, will be brought out, carefully looked over, and re-dyed with some new and stylish colour for this season's wear.

With such aids as the popular Diamond Dyes it is folly to spend money for new materials and garments. The Diamond Dyes always make old and faded things look as good as new. The best as well as the humblest families use the Diamond Dyes successfully and profitably every spring.

Have you decided to make us a pretty and stylish mat or rug from your rags and waste materials? There is a pleasure in being able to point to your own home-made mats and rugs. Send your address to the Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P. Q., and you will receive sheets of designs for your inspection.

His Ideal.

"Gracious! You don't mean to say you are going to move out to Bogville?"

"Indeed I am. I consider it an ideal place."

"Huh! You ought to read the papers. There's more sickness there than in any other town in this vicinity."

"I know it. I'm a physician."

Never Say Die.

You may be weak, miserable, nervous, sleepless, your digestion may be poor, and you despair. Never say die until you have used Ferrozone, the most wonderful blood maker, strengthener, and brain invigorator. It tones up the whole system. You can eat anything and digest it if you use Ferrozone. You sleep well; you make blood quickly; strength increases daily, and in a short time you are well. Try Ferrozone, which you can obtain at Ormond & Walsh's drugstore.

THUMB RINGS.

Men's thumb rings are no rarities to collectors. Some of the Roman specimens must have been cumbrous wear, one in the Montfaucon collection bearing the bust of Trajan's consort, Plotina, measuring over three inches across. Mediaeval churchmen of high degree did not allow "the largest, first and shortest of the fingers" to go unadorned. A massive gold ring was found upon the thumb of the supposed skeleton of Hilary, bishop of Chichester, who died in 1169, and the recumbent effigy of Bishop Oldham in Exeter cathedral is remarkable for the pressed together thumbs being inclosed by a single ring.

When the shrine of St. Thomas a Becket was robbed of its treasures, the famous archbishop's thumb ring, given to him by the king of France, graced with a ruby the size of a hen's egg, found its way to the thumb of bluff King Hal, and as the humor of the king is always voted just the thing we may be sure the royal hand was not the only one so decked at court. Mayors and aldermen imitated their betters. "When I was about thy years, Hal," says the fat knight, "I was not an eagle's talon in the waist. I could have crept into an alderman's thumb ring."

"I WAS ON THE BRINK OF INSANITY."

"I am now in Perfect Health Through no Other Agency Than PAINE'S CELERY COMPOUND

Earnest and Candid Statements Made by a Postmaster in Prince Edward Island.

The absolute need of an honest and genuine invigorator and health-giver in the spring season is deeply impressed on the mind of every thinking and intelligent man and woman.

The happy and permanent cure of Mr. P. J. Kilbride, Postmaster, of Inverness, P.E.I., through the use of Paine's Celery Compound, created widespread astonishment amongst people in Canada, Newfoundland and the United States who were acquainted with Mr. Kilbride.

The best medical treatment failed even to give Mr. Kilbride a few days of relief from his agonies and tortures of mind and body. At last Paine's Celery Compound saved him from a terrible end and planted his feet firmly on the rock of health.

Read Mr. Kilbride's letter of testimony dear reader, and if you remain obdurate and unbelieving after such an earnest, pathetic and convincing confession of cure, nothing but a direct act of Providence can snatch you from the dangers and perils of your position. Mr. Kilbride says:

"To-day I feel myself a new man. Six months ago I was on the brink of insanity; my nervous system was completely broken down; I could not sleep more than one or two hours at night, and often did not sleep for four nights in succession. 'Oh! I never can describe the agony I suffered. I was almost reduced to a skeleton; could only work an hour, when I was so fatigued I would be obliged to lie down and rest before I could resume work.

"The use of your Compound has given me rest and sweet sleep, and I can now work all day. To tell the honest, candid truth, I have not felt so well for fourteen years. When I commenced taking Paine's Celery Compound my weight was 144 lbs., now I weigh 168 lbs. I am gaining in flesh every day; my friends are all surprised at my wonderful cure and changed appearance. Oh! if I had only known of this life-saving remedy years ago, I would have escaped many days and nights of terrible pain and agony. Thank God the terrible times have passed, I hope never to return. How I wish I could reach the ear of every man in Canada — those who are suffering as I once suffered — how I would plead with them —yes, on my knees I would ask them to give Paine's Celery Compound a fair trial; and I feel confident they would bless me afterwards for my recommendation.

"Young men take my truthful and candid advice: If you are suffering from a broken down nervous system, use Paine's Celery Compound; it will thoroughly restore you physically and otherwise.

"I am now in perfect health through no other agency than Paine's Celery Compound. You may use this statement as you choose."

Making Fondant.

An experienced candy maker advises that there should be nothing boiling on the stove to throw off steam while sugar is cooking for fondant and that in the summer season a damp, rainy day should not be selected for the work.

Uncooked fondant is much easier to make than the cooked, but needs to be used at once to be satisfactory. Measure out water equal to the whites of two unbeaten eggs. Beat the eggs to a froth, add the water and gradually beat in confectioners' sugar until there is a paste that can be handled. This fondant makes the base for unlimited combinations of sweets.

Squandered a Fortune.

How often we hear the expression, notwithstanding the fact that those who use it are perhaps spending their money foolishly in medicines which only give relief without removing the cause. Merrill's System Tonic cures heart, stomach, kidney, nerve and liver troubles—because by purifying the blood, regulating the bowels and toning each of these organs the cause of disease is removed. Price 50 cts. per bottle at Ormond & Walsh's drug store.

Considerate.

Young Husband—Don't you think, darling, that it would spoil the curtains if I should smoke?

Young Wife—You are the best and most considerate husband that ever lived, dear. Of course it would.

Young Husband—Well, then, you'd better take them down.

A dose of Miller's Worm Powders occasionally will keep the children healthy. Sold by all druggists.

IT JUST SUITS JAPAN TEA DRINKERS

"SALADA"

Ceylon GREEN Tea is of the same flavour as Japan, but is far more healthful in use because of its absolute purity. Sold in the same form as the celebrated "SALADA" black tea. In sealed lead packets only.

COSTIGAN THE RENEGADE

By Ewan Macpherson

COPYRIGHT, 1901, BY EWAN MACPHERSON

"Of all the cowardly desertions of principle I ever heard of in my life, Costigan"—

"Oh, you don't know what you're talking about, man," Costigan retorted, jamming his foot hard against the edge of the window sill and using the leverage of it to tilt his chair back on its hind legs. "Just you wait."

Costigan was really taking the "calling down" of his friend very patiently for a man with the reputation of a quick temper. You might account for this patience, if you chose, by the intimacy between the two that had grown up in nearly three years of common detestation of the average boarding house, in dining together seven days every week at restaurants chosen by common consent, and in the occupation of furnished rooms in the same house, where they contended with the landlord as one man.

Lastly—here was the most important bond of union between Costigan and Muller—they had long since talked over together the great question of woman's proper place in the order of things and had cordially agreed that it was nowhere. Naturally, Muller felt aggrieved when he caught Costigan twice strolling in shady places with a blooming, brown haired young member of the reprobated sex, whose eyes had a dangerous way of smiling at one without losing a certain suggestion of sadness.

Muller waited a minute to ruminate on the possible hidden meanings of his friend's last saying. Then he veered around and with more asperity of tone and manner said: "If I don't know what I'm talking about, why in thunder don't you put me right? Is she a typewriter?"

"I regret to notice in you of late, Muller, an unpleasant use of vulgar slang. No, you did not get it from me. I avoid all—all such marks of—of toughness."

"That is, you have been trying to for the last three weeks—since you got stuck on this typewriter."

"'Typewriter' is not a description of any class of woman. It is the name of a machine. The lady you refer to is a typester. I met her—found her in a large insurance office down town."

"And after all you have said about women and marrying and all that sort of thing you went and fell in love with her, and— Oh, Costigan!"

"I repeat, Muller, that you don't know what you are talking about. Fate brought us together."

"Whew!" Muller whistled aloud in consternation at these last words, as if to say, "Is it as bad as that?" And then, picking up the evening paper he had brought into Costigan's room, he retreated to his own.

But man is at best a plaything of fate. Muller, the morning after this conversation, was troubled and distrait. His fellow clerk at the office remarked that he looked "dopy." The senior office boy and factotum, who had his own way of interpreting signs, grinned and whispered that Mr. Muller must have fallen in love, and he even succeeded in spreading that view of the situation. And when Muller went out to "get a bite" he picked things up from the lunch counter in an indiscriminate way that made the attendants stare at him. At last he turned away from the counter blindly and ran into the person who happened to be standing next behind him; and, lo, it was a woman!

"I—I beg your pardon," he began, inexpressibly humiliated by the necessity of apologizing to one of that sex. He took refuge in a stooping attitude, collecting sandwiches from off the tiled floor.

The inopportune female was down there just as fast as he was, only she was laughing. "Don't mention it"—laugh—"accidents can't always be"—more laughing—"I believe you've taken my sandwich by mistake. Mine was bee—bee"— The rest was lost in a hopeless outburst.

With about fifteen people waiting to get at that particular part of the counter which they were obstructing, and several dozens more watching and thoroughly enjoying the proceedings, Muller felt that he could not bear to remain on that tiled spot crawling about in search of demoralized sandwiches. He got up and faced the enemy. He recognized her. She was "the woman"—she who had entrapped Costigan—Costigan's "typester."

"Really, I'm extremely sorry for having got in your way, Mr. Muller."

She had his name pat. That renegade Costigan must have told her all about him. It was a splendid opportunity for Muller to display the courage of his convictions. The convictions were there, but the courage was not to be found. He could only stammer:

"Oh, not at all. All my fault. You must let me get you some more beef—was it beef sandwiches you said?" Then he said within his heart that he was a liar and a hypocrite and that his moral degradation had begun as soon as he had run into this woman.

For her part, she actually seemed to enjoy the adventure, which struck Muller as downright brazen. "You see, I happen to be in a laughing mood today," she had the impudence to say, and she went on to ask him a dozen questions about his acquaintance with Costigan—how long it had lasted, and whether they had ever met before Mr. Costigan came to New York.

"No," he said; "we only met by chance about three years ago. We thought we had ideas in common."

There was a strong emphasis on the word "thought," which Muller meant to be very impressive.

He made a poor pretense of eating, but the same cowardly regard for conventionalities which had forced him to apologise for upsetting her sandwiches drove him on to offer to walk with her in the direction of her office. And that was how it came to pass that the head office boy saw them and made unusual haste to get back to the office to tell that he had seen her. "Yep. She's a peach, I tell you. They come all the way from Tabster's together."

Nor was the head office boy the only person who saw Muller in that short transit. When he entered the office, his desk mate was there to receive him.

"Muller, I want to beg your pardon for saying you were dopy this morning. I see it was something more respectable, by a long shot."

"I don't know what you mean," said Muller, in a tone that seemed to bode war.

But hostilities were prevented by the arrival of a caller for Mr. Muller. Muller went out from the inner office in a mood to make a most unfavorable impression on any chance visitor. It was Costigan.

"Oh, I saw you," said Costigan. "Now what have you got to say?"

"You saw us, did you? Well, what I have to say is that this young person got up so close behind me that I couldn't move without spilling a pint of coffee over her."

"Yes; but it was all your fault, you know, Muller. You said so yourself. Never mind, old man. You're forgiven. When I passed you, you two looked so affectionate that it seemed a pity to interrupt." Just then the first assistant office boy came out with his ears pricked and caught a few words, which were duly reported a minute later. "I was coming, anyhow, to ask you a favor."

"A favor," replied Muller, fearing the worst.

"Yes. I told you you didn't know what you were talking about. Why didn't you wait and let me tell you last night? Do you know what made me join you in your hostility to the sex? Come over here and listen. My wife—yes, I thought you would start—my wife and I quarreled four years ago. We were divorced, and I was afterward told she had married another man, who—who isn't worth talking about. Now, don't you understand? Why, she has been here in New York, typing, for months and months. I found her by a mere accident—just like your running into her. She never married anybody else, and never would. She's going to marry me again, and you are going to be my best man."

Muller went back into the inner office smiling so sweetly that he was saluted with a general grin, but he held his peace. When he went to "the old man" to see about getting away early, he was met with: "Certainly, Mr. Muller. But why this suddenness? Why couldn't you have let it out sooner?"

It was very embarrassing to him to have to explain that he was going to be groomsman, not groom—this time.

Blood Disorders

are simply kidney disorders. The kidneys filter the blood of all that shouldn't be there. The blood passes through the kidneys every three minutes. If the kidneys do their work no impurity or cause of disorder can remain in the circulation longer than that time. Therefore if your blood is out of order your kidneys have failed in their work. They are in need of stimulation, strengthening or doctoring. One medicine will do all three, the finest and most imitated blood medicine there is

A BREATHING SPELL.

If the consumptive could only keep from getting worse it would be some encouragement.

Scott's Emulsion at least gives tired nature a breathing spell. The nourishment and strength obtained from Scott's Emulsion are a great relief to the exhausted system.

This treatment alone often enables the consumptive to gather force enough to throw off the disease altogether.

Scott's Emulsion brings strength to the lungs and flesh to the body.

Send for Free Sample.

GET UP!

That's the morning call of Chanticleer. It's a welcome cry to a well man. But to a man whose sleep seems to have been only an unrefreshing stupor; who wakes with burning eyes, throbbing head, and a bad taste in the mouth, it means only a new day's misery.

In such a physical condition health is most surely and swiftly restored by the use of Doctor Pierce's Golden Medical Discovery. It cures diseases of the stomach and organs of digestion and nutrition, and it cures through the stomach diseases of liver, lungs, kidneys, etc., which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition. It increases the activity of the blood-making glands, and every organ is benefited by the resulting increase of rich, pure blood.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and other narcotics.

"Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me," writes (Prof. Pierpont A. Oliver, of Viola, Fulton Co., Ark. "Before I used the [illegible] my sleep was not sound; digestion bad; a continual feeling of misery, I now feel like a new man. Any one in need of medical treatment for nasal catarrh could do no better than to take treatment of Dr. R. V. Pierce. I know his medicines are all right in this class of diseases."

The Common Sense Medical Adviser, cloth binding, sent free by the author, on receipt of 50 one-cent stamps, to pay expense of customs and mailing *only*. In paper covers 21 one-cent stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Red Hunting Coat.

It is said that one of the early Henrys was so enamored of the sport of fox hunting as to ordain it to be a royal sport, and the red coat was worn in consequence. This, however, has been pointed at as absurd, as in those days scarlet was not a royal livery at all. One thing there can be no doubt about, and that is the scarlet coat is very popular for those who hunt regularly, and it must be confessed that it adds picturesqueness to the scene.

The question of color seems to be very much a matter of taste. It is looked upon as an indication of social position. In the abstract any one can don the pink if so desired, but it is considered out of taste to adopt that color if one does not liberally subscribe to the hunt fund. The black coat is considered out of taste to adopt that color and the ordinary mufti garment for those whose subscription is very small indeed.—London Standard.

A Scientific Voice Improver.

Because of its strengthening influence upon the vocal chords, Catarrhozone cannot be too highly recommended as a wonderful voice improver. It almost instantly removes huskiness or hoarseness, thus insuring clearness and brilliancy of tone. Catarrhozone keeps the mucous surfaces in perfect condition, and its regular use absolutely prevents colds and throat irritation, thereby removing the singer's greatest source of anxiety, *unfitness of voice*. The most eminent speakers and Prima Donas would not be without Catarrhozone and credit in no small degree their uniform strength and brilliancy of tone to its influence. The hard rubber inhaler fits conveniently into a purse or vest pocket, and may be used in the church, theatre, any place or time. Complete outfit $1. Small sizes 25c. Druggists or Polson & Co., Kingston, Ont.

Gum Gathering.

In Yucatan the gathering of the famous chicle chewing gum is an occupation apparently full of romance, not unattended with considerable danger. Bands of men, known as "chicleros," go into the deep forests, under experienced leaders, armed with heavy knives of special make, pails and ladles for the sap, and each provided with a strong rope more than eighty feet long to be used in climbing the lofty sapota trees from which the gum is procured. The sap flows from gashes cut in the bark. A camp of chicleros where the sap is boiled resembles in some respects an American maple sugar camp. After months of work the chicleros return from the forests laden with brickliko blocks of aromatic gum. The finest gum, known as "sicte," is collected from the fruit of the sapota, mostly by the native women, and is seldom exported because it is too well liked at home.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of nervous exhaustion and Debility. You can be thoroughly and gradually cured of sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in Nature's way, by creating new nerve cells and restoring lost vitality.

Undignified.

The teaching of cookery in the English board schools is sometimes not appreciated by those who would be most benefited by it. The teacher of one of these schools recently received the following letter of protest: "My Mary Ann is not going to be a servant. I wants her to be a lady, and the less she knows of how to cook victuals the better. When I sent my gal to the board school, I did not expect she was going to be taught undignified things like that."

Whistling.

As a method of prolonging life and strengthening the human frame against sickness whistling is said to be beyond compare. Development of chest and neck muscles is one of the special advantages claimed for the exercise. Long, deep breathing is an essential for a good whistler, as it is not permissible to draw in the breath except during the intervals of the sound production.

CURE SICK HEADACHE.

Convenience Stamps.

The postoffice department has a "conscience fund" of its own. Not at all unusual is it for people to use a poorly canceled stamp and then to regret cheating the government out of 2 cents. In order to secure peace of mind the 2 cent culprit will send a good stamp to the department with an anonymous explanation. This stamp is turned over to an official of the files and mails division, who pastes it on a large card and draws a couple of pen marks across it. The effect would be just as good if the repentant canceled the stamp himself.

The Nantucket Dialect.

A family circle in Nantucket was once discussing the use of nautical phrases when the mother said, "Girls, I never use them."

"Yes, thee does, mother."

"Well, watch me and see if I do."

Shortly after she said to one of the children, "There, take this and carry it to Cousin Phoebe and tell her that this squares the yards with us, and thee must scud, for it is almost schooltime."

Water, Crackers and Gruel.

is the usual dyspeptic bill of fare. There are no sausages, no banquets, no little suppers and no fun. Take Merrill's System Tonic and get a healthy stomach, lots of vigour and then eat mince pie and cabbage with the rest of us. System Tonic is par excellence the most perfect tonic cathartic known, 50 pleasant-to-take doses 50c. Sold by Ormond and Walsh, druggists.

Petulant Tennyson.

Tennyson was one of the most fortunate of poets, in that he was rarely criticised adversely, yet Mr. Bram Stoker, who saw him often while his plays were in course of production at the Lyceum, said that he used constantly to complain of "the attacks made on him." He actually wound up one day by declaring that he often wished he had never written a line.

His Limit.

Wife—How did you get along while I was away?

Husband—I kept house for about ten days, and then I went boarding.

Wife—Boarding! Why didn't you go on keeping house?

Husband—Couldn't. All the dishes were dirty.

IT COST MONEY.

Many a man has spent all his earnings in trying to get rid of rheumatism. It cost Mr. James Davison, Oconto, Ont., between $1,000 and $2,000 before he tried Dr. Hall's Rheumatic Cure. He was a helpless invalid for six years but suffered from sciatica in his hip joint for ten years. Six bottles cured him completely and he is now working his farm. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

CHURCH'S ALABASTINE

Is a wall coating made from alabaster rock.
Is not a kalsomine, but a cement that hardens with age.
Is made in twenty beautiful tints and white.
Anyone can brush it on—no one can rub it off.
Ask any Hardware or Paint Dealer for tint card.
ALABASTINE is never sold in bulk.
Write for book of instructions, sent free, and learn how to "Make Home Beautiful."
Painters, send for our offer, "Two Good Things."

More Home Knitters Wanted

THE HOME MONEY MAKER

Machine weighs 17 pounds. It is more convenient than a sewing machine, and no trouble, and higher speed.

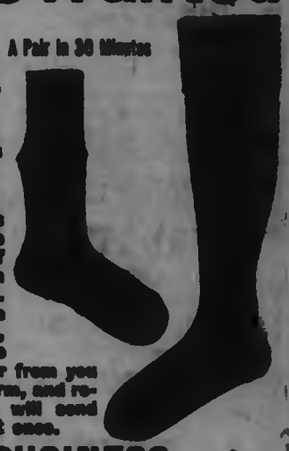
To Work at Their Homes Under the Direction of

The GLASGOW WOOLLEN CO.

37 MELINDA ST., TORONTO,

To Fill Large Contracts—Good Wages Easily Earned.

A Pair in 30 Minutes



We want a few more workers in this locality, at once, and in order to secure your co-operation without the delay of correspondence, we herewith explain our full plan in this advertisement. The work is simple, and the Machine is easily operated, and with the Guide, requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with the Contract Order Form, and remittance, as a guarantee, and we will send machine and outfit to begin work at once.

OUR METHOD OF DOING BUSINESS

We wish to secure the services of families to do knitting for us in their homes. Our method is the same as adopted in England. We are the introducers of this plan and the largest knitting concern in Canada.

After long experience, we have been able to produce an Automatic Machine by which all kinds of seamless knitting is now done by our Family Machine, thereby enabling anyone of ordinary intelligence to quickly learn to do the work from the Instruction Guide. All we require is that you use the machine according to directions. The Machine being made expressly for this purpose, and the operation so simple, it cannot possibly make a mistake in its work.

The great demand now is for Bicycle Stockings, Woodmen's Socks, and Motormen's Mittens, and as we are unable to supply the demand, have taken this method of advertising for more help.

The large export trade to the North-west Territories, British Columbia, and the British Colonies, furnishes an unlimited demand for our goods, and, with the combined cooperation of the many families we are employing, together with the large amount of knitting we are able to turn out, by which we save rents, insurance, interest, on capital, etc., enables us to undersell any manufacturers of this class of goods, and we have sale for all the knitting we can have turned out.

The price we pay for finished bicycle stockings is $10.80 per hundred, or at the rate of 10c per pair; woodmen's socks, 5c. and motormen's mittens, 12c a pair. All other work in proportion to size.

The machine can be operated by any one of a family, and at our prices any energetic family should be able to sustain themselves comfortably, and in time be a source of independent comfort.

Our plan is to send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine ready to be continued, and also enough yarn to knit one pair of sample socks or stockings and a simple and complete Instruction Guide, showing how [illegible] to be done. When [illegible] returned to us satisfactory, we send a quantity of yarn, which you knit and return, therefor when finished. We prepay charges on all work one way, and our workers pay return charges. The work, as we have stated, is simple and rapidly done, the machine having a capacity of ten thousand stitches a minute. We have many persons now in our employ who can knit from [illegible] pairs of socks or stockings a day, and where the time of a family is devoted to the work, [illegible] can readily see that $25.00 or $30.00 per week can be easily earned.

We furnish our workers all the materials, yarn, etc., free, and everything that is necessary for the work. We are furnishing the machines only for the exclusive use of those desiring to take employment with us who must, in order to secure [illegible] send us this Contract Order Form, properly signed by them, and at least one good reference, and remittance accordingly, to give us the necessary assurance that the quantities of valuable yarn we may send from time to time will not be wasted or misappropriated. Our interests are mutual, and this confidence must be established if we are to succeed. We guarantee fair dealing and prompt payment for work, so do not ask us to deviate from our terms, as we cannot make a distinction with one and not another; besides, we are doing an extensive business, and must be governed by business principles.

The manufactured price of the machine is $35, and positively will not be sold to any others than those who will agree to do knitting for us.

If at any time after you commence, and have done an amount of work equal to the purchase price, and wish to discontinue, we will take back machine and refund the amount paid for same, after deducting cost of our expense only.

There is a Large Demand by the Trade for this class of work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfactorily for us and return it promptly. We entrust our workers with large quantities of valuable yarn, and as we give references as to our honesty and integrity, we must ask you to do the same, in order that we may know with whom we are dealing.

We have, in as brief a manner as possible, endeavored to show you what our work is, and we simply say as to the machine, it is just what we represent it to be, and will positively do everything we claim for it, or refund the money. Each machine, securely packed with an outfit, is set up for work, thoroughly tested, and a sock or stocking partially knitted before boxing and shipping. Should you decide to engage with us, it will be necessary to send us Cash Contract Order Form, properly signed by you, and at least one good reference, together with the remittance, accordingly, upon receipt of which we will forward machine and outfit ready to commence.

Respectfully yours,

GLASGOW WOOLLEN CO., 37 Melinda Street, Toronto

Our References—Express Companies, Banks, or Toronto Business Houses.

If you wish to examine the machine and see the material before undertaking the work, you can do so by sending $2.00 as a guarantee of good faith, and to defray expense of shipping, and we will send everything to your nearest express company, leaving a balance of twelve dollars to pay the agent and 25 cents for the return charges on the money to us.

We are so frequently and unnecessarily asked if one can learn to knit without a teacher. We say, Yes; it requires no teacher; any person of ordinary intelligence who can read the Instruction Guide can learn to knit at once.

ORDER FORM

$15.00 Cash Contract Order Form.

To the Glasgow Woolen Co., 37 Melinda St., Toronto.

Gentlemen,—I desire to do the work as described in this advertisement, and enclose $2.00 to pay for one Automatic Family Machine, together with material, instructions, and everything necessary for the work, the same to be sent to me by Express, CHARGES PREPAID.

It is understood and agreed that any time after I have done an amount of work equal to the purchase price, $15, and wish to discontinue, that the Glasgow Woolen Co. will take back the machine and outfit, and after deducting their expense, refund me the amount paid for same.

Sender or head of family (if possible) must sign here:

Continued from last Saturday.

CHAPTER XXIII.

The first thing I looked for when the atmosphere became clear, was Cronje's white horse. This charger was one of the most interesting exhibits at the camp, and he was so terribly emaciated I feared he had been carried out to sea by the storm, but he was there in his accustomed place as unconcerned as you please, evidently having witnessed such sudden climate fluctuations before. Over at the road between the two divisions, were five guns—four small field pieces and a maxim—being a portion of the spoils of Paardeberg. They were somewhat battered, and the splinters chipped out of the fellow and spokes of the wheels; the punctures in the maxim shields, and several other abrasions, furnished ample evidence to show there was a time when these silent old warriors were in the thickest of the fight. Nobody knows how many sons of Britain were laid low by the fire of these grim prisoners of war. Our boys, to the number of one hundred and fifty, acted as a mounted escort for one thousand of Cronje's prisoners a few days before, when they were embarking on the Milwaukee for St. Helena, but these pieces of ordnance were left behind as relics or memories of Cronje's crushing defeat at "Stinkhoutsfontein"—so named by the Royal Canadians on account of the number of dead horses in a state of putrescence in that locality during the nine days' engagement. Paardeburg means horse hills or mountains, parrde being the Boer word for horse.

Our sojourn at the Cape was nearing a close, and preparatory to our advance up country, our kit bags were all conveyed down town and stored in the fort till our return. We all had saddle-valises in addition to our canvas kits, but then there is a vast difference in opinion as to what were the necessaries.

Everything in readiness, we moved out from Green Point on Wednesday afternoon, the 4th of April, at 2 o'clock p.m. I was still on the transport, and had to assist in packing our baggage on the wagons, and by dint of hard labour, we soon had our load securely fastened on with the few ropes at our disposal, and awaited orders to advance. We soon got orders, but they were to put on as much more baggage. These, as usual, came at the very last minute, and everybody had to hustle to be ready at the appointed time. We managed to get it all piled on, but all the tie-ropes we had would scarcely go around the bundles once. When ready to move off, our lead team—we had a four-in-hand on our wagon—balked, and nothing would induce them to move, so we had to change teams. This was no improvement, for the span on the lead then wouldn't work together, and as a last resort we changed horses with another teamster, which removed the difficulty, and off we started. Our load wasn't bound at all, I might say, and every few hundred yards we went, we had to stop and adjust some portion of it. Tent pegs, picket pins, etc., were scattered all along the road, but we were so vexed, we went on and left them there. Things were gradually going from bad to worse, and when on the main street, in the presence of hundreds, the climax came, and about one-third of the load tumbled off in the street; Then there was a hullabaloo. The heat was intense, and our anger the same. It wasn't enough for us to work like slaves putting on that baggage again, but the very individuals who were to blame for the whole misfortune, made themselves as disagreeable as they possibly could—and that means a good deal, by impertinently repeating unnecessary orders, principally profanity, for no other purpose than to aggravate us or relieve themselves. I never was so exasperated in my life before, and not being allowed to return the sauce, I, with the rest, was receiving, to display my Irish and bitter resentment, I jumped onto the heap and flung kit-bags, tents, ropes, and everything else that came within reach, as far as I could in all directions. If I had been as strong as Sampson, it would have taken a fatigue party the remainder of the day to collect them again. By-and-by, (we had it jumbled on again, and proceeded on again. I was that completely fagged out, I believe I would have stumbled over a straw. That night we halted at a small village called Richmond, about fifteen or twenty miles from Cape Town. It was considerable after dark, and we decided not to pitch tents, but sleep in the open. The boys, relieved from duty, made a sortie on a general store near by, to purchase some dainty morsel for the evening meal. The prices rose according to the demand, and were simply extortionate. The little shop was completely jammed with eager customers, who rudely jostled each other about to place their orders, and made no hesitation in paying the modest sum of 25c for a two-pound loaf of bread, 36c for a pound of cheese; 24c for a pound of soda biscuits; 90c for a pound of butter; 25c for a pound of sugar and 90c for a dozen of hen eggs. If a person could have followed the contingent with a full supply of eatables, he could have dined in independent fortune, for if we wanted a thing, and could get it, we would have it, if money could buy it.

This was our first experience without the shelter of tents, and, while I can't say how it affected the boys in general, so far as I was personally concerned, it was quite agreeable, and from an indolent point of view, was preferable.

In the early morning we arose, had our whole equipment on the transports, and were moving out by daylight. The dew that had formed during the night was so copious, the water dripped off the satin surfaced leaves, and the galvanized eaves of the settlers' dwellings, so you would imagine a light sunshower had passed over. These heavy dews are the life of vegetation, and were it not for them, during the dry season, everything would be parched and withered by the tropical sun. Every depression in the waterproof tarpaulins of the transport was partially filled, and if small, completely so. Our woollen blankets absorbed all that fell upon them, and were packed in the bales in this wet condition. You can imagine what a pleasant odour they and our rubber sheets emitted, after being bleached all day by the red-hot rays of an African sun. They were rank and filthy, a menace to health.

We experienced no trouble with our baggage this time, because we knew how much we were obliged to carry, and fastened it all on properly. At eleven o'clock we halted for breakfast, which consisted of hard-tack and bully beef. There was no liquid accompaniment except water, and even this was issued sparingly. It was the first time I ever saw a tank of water guarded by two men with fixed bayonets, and could scarcely realize what it meant. Had it been lager bear, I should have conjectured at once, it was for the officers. These tanks were about the size of an ordinary coal-oil barrel, laid flat on a two wheeled carriage, and drawn by two mules. One of these water carts accompanied each regiment, but they were only supposed to carry water for cooking purposes, unless in stringent cases, the water bottle of the soldier being supposed to contain an abundance—one quart—for the individual. Each man was given a certain amount, often inadequate to slake his thirst, and ten times the quantity would have been enough to soften a biscuit of hard-tack. What is this hard-tack, did you ask? Well now you have me. I can't just give you the original recipe, but the following will be pretty nearly correct, and might be tried in the culinary department of every home. Put a quantity of wheat flour in a deep vessel, and pour in just enough water to make a thick, tough, leathery paste. Then add a little bran—if you haven't bran, oatmalls or other chaff will do equally as well—and mix thoroughly. If you have enough dough to make a biscuit about three and a half inches square, and one-quarter inch thick, after being pressed, it will do, if not, add more flour and water. When you have the exact proportions, submit the whole to a forty ton pressure, and bake in a kiln for forty-eight hours. Examine it then, and if not perfectly impervious, return for twelve hours longer. They are delicious for five o'clock tea, served with bully beef and muddy water.

There is no shortening used, I think, but if there is, a small piece the size of a pea, put in lengthise, will be sufficient. Miss Fannigan's recipe will answer as well, and will be more authentic, if you can get it, for her biscuits have an enviable reputation for durability. This young lady had a tea party once, so the story goes, and did all the cooking herself. She excelled in this particular breach of the culinary art, and, pleased with her success, she besought her guests to try her lovely biscuits. The first young man who endeavoured to dissect one with his teeth broke a rule in etiquette, and his jaw as well. Another, who had an inveterate grudge against his neighbour, put a few in his pocket, and when on the way home, to have revenge, he struck his enemy's cow with a biscuit, and killed her. The cracker was none the worse for cracking the cow's cranium, so he returned it to his pocket, and went on his way. Being a disappointed officeseaker with the government, he swore vengeance, and hurling the biscuit at the Custom's House dome, knocked a big hole in the side of it, that cost five hundred and twenty dollars to repair. Miss Fannigan's fame went abroad throughout the nation, and she received an order for a large consignment of her "lovely biscuits" to pave the principal streets of the city. The War Office, hearing of this, paid a large sum for the recipe, and now manufacturers them for the troops on active service. If we could have replaced them by any other eatables, we would have paved the road from Cape Town to Pretoria with hard-tack. This diet, notwithstanding its rigidity, was quite wholesome, even if not particularly palatable, and the result was gout and all kindred infirmities, caused by high living, were unknown in the army. Another thing in their favour in their immunity to effects of dampness. A hard-tack biscuit immersed in cold water will not soften in twelve hours. Sometimes, if plentiful, we received five of these crackers as our rations for the day, if a little scarce, there was our allowance, and I have seen us down to half-rations—one and a-half for twenty-four hours. He was a hustler who could masticate five in a day.

"77"

(Special cable from London.)

London, Saturday.—"London, and, in fact, many parts of England, are again in the grip of influenza. Medical observers say this influenza epidemic, like the first one, originated in Southern Russia, travelling across Europe and leaving a terrible record of death or disablement in its train."

All serious epidemics of Grip have travelled rapidly eastward, and this epidemic can be expected here before the first of March. Prepare yourself by carrying in your pocket a bottle of "77"—Dr. Humphreys' Celebrated Grip and Cold Cure. Taken early, cuts it short promptly. "77" breaks up stubborn Colds that hang on, and prevents Pneumonia. At druggists, 25c, or mailed.

Humphreys' Med. Co., 61 John st. N.Y.

GRIP

TORONTO SAVINGS AND LOAN CO

REPORT OF ANNUAL MEETING.

The seventeenth annual meeting of the Shareholders of the Toronto Savings and Loan Company, was held at the head office of the Company, No. 437 George street, Peterborough, on Tuesday, the 25th day of Feb. 1902, at 2 o'clock p.m.

The President, Hon. Geo. A. Cox, having taken the chair, the Manager, Mr. W. G. Morrow, was requested to act as Secretary to the meeting.

After reading the notice convening the meeting, the Secretary read the seventeenth annual report and the accompanying financial statement.

The Directors submit herewith their seventeenth annual report showing the result of the business for the past year, accompanied by the balance sheet to the 31st. of December, 1901.

The gross earnings for the year are the largest in the history of the Company, amounting to $114,287.39, and after the payment of interest on deposits and debentures and all expenses of management, there remained a net profit of $58,665.07. To this amount has been added $2,591.20, the amount carried forward from last year, which makes a total sum of $61,256.27 for distribution. This amount has been disposed of in the following manner:

(1) By payment of two half yearly dividends of 3 per cent. each, equal to 6 per cent. for the year and amounting to...	$36,000 00
(2) By addition to the Reserve Fund	18,000 00
(3) By amount carried forward to Profit and Loss account	7,256 27

The above addition to the Reserve Fund increases same to $153,000.00, a fraction over 25 per cent. of the paid up capital.

The payments maturing during the year on the Company's investments, have been satisfactorily met.

The books, accounts and securities of the Company, have been carefully examined by the Auditors, and their report is appended to the financial statement.

Respectfully submitted.

GEO. A. COX, President.

AUDITORS' CERTIFICATE.

We hereby certify that we have carefully audited the books and accounts of the Toronto Savings and Loan Company for the year ending 31st of December, 1901. All disbursements have been properly vouched for, and the postings and balances of the Company's ledgers have been checked and found correct. The above statement of Assets and Liabilities shows the position of the Company on the 31st Dec., 1901, and the profit and loss account is a correct showing of the operations of the Company for the year ending on that day. We have also examined the securities and find everything in order.

JAMES A. HALL, F. W. BAILLIE, Auditors.

Peterborough, January 22nd, 1902.

The chairman, in moving the adoption of the report, said:

Gentlemen,—It affords me very great pleasure to submit for your approval the Seventeenth Annual Report of the Company, which, I believe, will be read with satisfaction by every Shareholder and Director of this Institution. You will observe by the statement, that the gross earnings for the year are the largest in the history of the Company, a very gratifying feature indeed, demonstrating the activity and satisfactory character of the Company's business during the year.

The net earnings, having deducted payments of interest on deposits and debentures, and all expenses of management, amount to $58,665.07, representing an earning power of somewhat over 9 1-2 per cent. upon its paid up Capital of $600,000.00, and after the payment of the usual 6 per cent. dividend to the Shareholders, your Directors have felt warranted in making the substantial addition of $18,000.00 to the Reserve Fund, increasing the same to $153,000.00, (a fraction over 25 per cent. of the paid up capital), thus further strengthening the already ample security offered to our depositors and debenture holders, who entrust their funds to the company's care.

The securities of the Company have been scrutinized with the utmost care and are all in a healthy condition.

Since our last Annual Meeting we have been called upon to mourn the death of our esteemed friend and colleague, Mr. William Cluxton, who had been one of the incorporators of the Company, and who was, until the time of his decease, one of our most useful, influential and highly valued Directors.

The regular Audit of the books has been made, and the correctness of the accounts, etc., is duly vouched for by the auditors.

The officers of the Company are deserving of your thanks for their usual energetic and courteous attention to the business of the Company.

I will now move, seconded by Mr. Richard Hall, the Vice-President, the adoption of the Report, and the Statement herewith submitted, and that they be printed for distribution amongst the Shareholders, Depositors and Debenture Holders of the Company.

Mr. Richard Hall, in seconding the resolution for the adoption of the report, said:

I have a very agreeable duty to perform in seconding the resolution for the adoption of the Report.

The Statement before you, and what has already been said in moving the resolution, renders further remarks from me unnecessary. I would, however, like to add how very gratifying it is to me to see such clear indications of progress and prosperity as the statement of the earnings of the Company so emphatically proclaims.

The report of the operations of the Company is all that could be desired, and I venture to hope that with the present appearances of a growing time in our midst, we have every cause to look forward to a year of even greater prosperity. The extensive and successful operations of the town's existing manufactories and the establishment here of two more very important concerns, now nearing completion, assures us of the increased growth and development of the town. This is important in its relations to the Company, inasmuch as it means enhanced values and increased revenues from the Company's properties, also improved security for investments in the town and neighbourhood.

I have much pleasure in seconding the resolution for the adoption of the report.

The report was unanimously adopted.

Messrs. Jas. A. Hall and F. W. Baillie were appointed Auditors for the year 1902.

A bylaw passed on the 6th of December, 1901, increasing the number of Directors from nine to ten was approved.

The election of Directors was then proceeded with, and the following gentlemen were declared elected for the ensuing year: Hon. George A. Cox, Richard Hall, Peter Hamilton, A. L. Davis, H. J. LeFevre, H. C. Cox, D. W. Dumble, A. A. Cox, Jas. Stevenson and W. G. Morrow.

At a subsequent meeting of the Directors, Hon. George A. Cox was re-elected President, and Messrs. Richard Hall and A. A. Cox, Vice-Presidents.

FURS and HATS

YOUR SPRING HAT IS HERE!

Your Spring Hat is here. This is our advanced Spring Hat opening, For the last week we have been piling in Hats by the waggon load, and although they are not all in, still every reputable maker in the world is represented in a very large way:

CHRISTY'S TRESS
COOTE LOBBS
WOODROW'S COCKBURN'S

From England.

MALLORY'S HAWES'
ARGYLE STETSON'S

and all the other most fashionable American makers have their new designs on exhibition.

By these points you will know a new fashion. Silk Hats from a side view are slightly more tapered, and more of a bell design from the front. Derby Hats are lower and taper somewhat. Alpines have a more decided curl in the brim.

COME IN AND SEE THEM!

JUST COMMON SENSE

Claims This Merit For His Abandonment of Home Rule.

MR H. H. ASQUITH ON OLD POLICY

Says He Is Not an Apostate, Because the Reconciliation of Ireland Is Only Attainable With British Sympathy—British Opinion Must First Be Conciliated—Mr. Gladstone's Work.

London, March 3.—H. H. Asquith has prepared a manifesto which will be published to-day, setting forth his reasons for withdrawing from the official Liberal party and abandoning the policy of Irish Home Rule, in company with Lord Rosebery. The chief interest in his paper will be his declaration on the Irish problem. He says:

"In 1886, when I first entered Parliament, Home Rule was the dividing line between parties and the governing issue of the general election in that year. Looking back to the years which followed I may fairly claim to have done what in me lay, both to Parliament and outside, for the promotion of that cause, and it will always be to me a cherished memory that I had the honor of being associated with Mr. Gladstone, the most illustrious Liberal of the nineteenth century, in his last attempt to bring loyalty and contentment to Ireland.

"Why did that attempt fail? It failed because of the rooted repugnance of a large majority of the electorate of Great Britain to the creation of a legislative body in Dublin, a repugnance which not even Mr. Gladstone's magnificent courage, unrivaled authority and unquenchable enthusiasm were able to overcome. The eight years which have elapsed since have done nothing to conciliate and not a little to harden and stiffen the adverse judgment of the British electorate. A great deal of loose rhetoric is current on the subject. But if we were honest we must ask ourselves this practical question: 'Is it to be part of the policy and program of our party if returned to power that it will introduce into the House of Commons a bill for Irish Home Rule?' The answer in my judgment is 'No.' And why so? Because the history of these years has made it plain that the reconciliation of Ireland to the empire can only be attained by methods which will carry, step by step, the sanction and sympathy of the British opinion. To recognize facts like these and to act accordingly is not apostasy. It is common sense."

THE GOOD-BY.

Registered Attendance of Volunteer Students at the Mission Convention in Toronto—Closing Exercises on Sunday.

Toronto, March 3.—An immense audience in Massey Hall witnessed the closing exercises of the Student Volunteer convention Sunday evening. John R. Mott, presided, and gave a telling address upon the power of prayer, pointing out that prayer was the one great method by which they could accomplish their glorious object.

Prof. Stevenson followed and spoke on behalf of the visiting delegates, stating that they had enjoyed their stay in Toronto, and would take away with them lasting impressions of the meetings.

Mr. S. J. Moore of the general local committee spoke on behalf of Toronto.

Mr. Mitchemer, the statistician, submitted the figures on attendance and on the countries and institutions represented. It was shown that 22 countries and 465 institutions were represented, and that 2,955 delegates were registered. Of the institutions there were 857 colleges represented by 1,668 regular delegates and 121 faculty delegates; 51 medical colleges, with 150 student delegates, and 26 student faculty delegates; 57 theological seminaries, with 475 student delegates and 65 faculty delegates; professors, 212; members and secretaries of S.V.M., 13; secretaries for boards and societies, 82; speakers not counted, 5; editors of religious papers, 28; returned missionaries, 107; secretaries Y.M.C.A.'s, 70; secretaries Y.W.C.A.'s, 28; representatives of Y.P.S., 15; graduated volunteers, 42, and not classified, 57.

An impressive feature of the evening was a general procession by those who intend leaving for the mission fields within the next twelve months. They numbered about 182, and were mostly young men and young women. On the instance of the chairman they arose, and each mentioned briefly the country in which they intended laboring and the reasons which prompted them to go into the work. At the conclusion the great audience bowed in prayer for the success of the intending missionaries.

FRENCH PREMIER INJURED.

President Calls at Home, But Not Permitted to See Him.

Paris, March 3.—The Premier, M. Waldeck-Rousseau, whose carriage was overturned in a collision with a street car Saturday night, resulting in the Premier and his nephew, who accompanied him, sustaining severe contusions, passed a feverish night. He complained yesterday morning of great pain in the shoulder, and preparations are being made to examine it with Roentgen rays. President Loubet called at the Premier's residence yesterday, but the physician in attendance forbade his admission to the room in which the injured man is lying.

London at Its Mercy.

London, March 3.—Influenza has London at its mercy. Half a dozen members of the Government, including A. J. Balfour, the Government leader in the House of Commons, and Lord Salisbury, are laid up. Sir Thomas Lipton, Lord Roberts and about thirty members of the House of Commons are other notable sufferers whose condition is reported daily in the newspapers.

THE MILL-END STORE!

Fed with these Mill "Feints" or Ends by the largest Canadian and foreign manufacturers. We don't wish to mislead the people and have them think that this store has only Mill Ends—for there is no better assorted Dry Goods stock in Canada, considering the size. Most Domestic made, and Some Foreign. Goods are "made up" into stipulated lengths for convenience of handling and reckoning. In consequence of this, if the yarn on the loom is more than enough to weave this certain yardage, the extra piece is cut off, and constitutes a "Mill Feint."

These Feints or Ends run usually from 1 yard to 10 yards in length, and are sold to us in bulk. The preparation of getting these ready for sale means much work, yet when we can save our customers from 25 per cent to 50 per cent. on useful and usually staple goods, we are only too glad of this labour.

This store always has something or other in this way, and Tuesday you can see represented here an object lesson of the above talk, when we will sell—

50 BRITISH KILLED.

Over 100 Were Wounded in Convoy Disaster.

BOERS WERE VERY HARD HIT

Losses 800 Men in Recent Operations—Fifty Killed, Ten Wounded and 750 Prisoners—British Loss One Officer Killed and Four Men Wounded Apart From Now Surrenders—One Hundred Rescued.

London, March 3.—An apparently incomplete list of the casualties sustained by the British when the Boers attacked and captured the convoy of a train of empty wagons at 4/en Donop, southwest of Klerksdorp, Feb. 24, published last evening, says five officers and 45 men were killed and six officers and 116 men were wounded.

Fate of the Captured.

London, March 3.—In response to an enquiry made by the Government as to the fate of the escort of a convoy of empty wagons, which, according to a despatch from Lord Kitchener, made public Feb. 26, was attacked and captured by the Boers southwest of Klerksdorp, Transvaal Colony, Feb. 24, Lord Kitchener has cabled the following: "A report has just been received that 16 officers and 451 men were taken prisoners. Of these one officer and 105 men have been released. Col. Anderson of the Imperial Yeomanry, who commanded, is still a prisoner. Major Enderby, who commanded the infantry, was wounded; hence the delay in obtaining definite information."

Eight Hundred Casualties.

London, March 3.—Lord Kitchener reports Saturday that the Boer casualties during the recent operations amounted to 800 men, killed or captured. General Dewet's son, who is among the prisoners, was his father's secretary.

In detail, the Boer losses were 50 men killed, 10 men wounded and 759 unwounded men made prisoners.

In addition to these Lord Kitchener says it is reported that more than 100 Boers, killed or wounded, were carried off after the attack on the blockhouse line, Feb. 24. These figures, however, cannot be verified, so they are not included in the above totals. Apart from the losses of the New Zealanders, the other British casualties were only one officer killed and four men wounded.

Casualties to Canadians.

Ottawa, March 3.—A number of delayed reports of casualties to Canadians serving in the South African Constabulary have just been received by cable by His Excellency the Governor-General.

At Muzarab, Feb. 1, A. Minsin, son of Donald Minsin of Dunleith, N. W. T., was reported "dangerously ill of pneumonia."

R. Burton Jackson, son of Mrs. Jackson, Halifax, N.S., was reported dangerously ill at Elandsfontein, of enteric fever.

At Muzarab, Theodore Goodman was reported dangerously ill of enteric. His sister, Mrs. Doherty, lives in Winnipeg.

Another Canadian of the South African Constabulary, Albert Watson Stanfer, of Edmonton, N.W.T., was reported dangerously ill of enteric, Feb. 22.

A cablegram to His Excellency from the Casualty Department at Cape Town, dated Feb. 28, announces the death on Feb. 27, at Springfontein, of Charles Cameron of the Canadian Scouts. His next of kin is his cousin, R. G. Foster of 52 St. Patrick street, Montreal.

ALMOST A TRAGEDY.

Young Woman at the Soo Shot Her Husband in the Cheek.

Sault Ste. Marie, Ont., March 3.—Mrs. Theresa Hunt, wife of J. A. Hunt, a barber of this city, is in jail charged with shooting her husband with intent to kill. The affair was the climax of frequent quarrels. A week ago Hunt was ordered to pay $2 a week for his wife's maintenance, and on Friday he secured a writ of replevin, which authorized a bailiff to remove his household goods from the room the pair had occupied. While this was going on Mrs. Hunt pulled a 22 calibre revolver and shot her husband in the cheek. The wound is slight. Mrs. Hunt, who is 20 years of age, says she meant to kill herself, and not her husband.

MESSRS. DOLAN & McCABE.

The Name of a New Firm That is now Doing Business Here.

The tobacco store at No. 339 George street, lately under the management of Mr. James Dolan has changed hands, the name of the new firm being Messrs. Dolan & McCabe. They have also taken over the billiard and pool and bowling alley business adjoining, formerly carried on by Mr. Dan McCabe.

The members of the new firm are Mr. E. K. Dolan, formerly of town and more recently of Montreal, and Mr. Dan McCabe, who has so successfully conducted the pool, billiard and bowling alley business. The firm name will be Dolan & McCabe. They will carry a complete stock of cigars, pipes and tobaccos, and their billiard, pool and bowling alley departments will be carefully looked after. Both gentlemen are very popular amongst the boys all of whom will wish them every success.

WORKING RULES
OF THE
PETERBOROUGH FEDERAL UNION NUMBER 9240.

All persons concerned are hereby notified that the following Working Rules have been adopted by the Peterborough Federal Union No. 9240;—

1. Nine hours a day shall constitute a day's work for all building, out door and corporation work, and for all labourers employed at any work outside factories and foundries. This also to include teamsters.
2. Masons' and bricklayers' labourers wages not be less than 20c per hour.
3. All other labourers, including foundries and factories, not less than $1.50 per day.
4. Town Corporation Labourers, $1.50 per day of nine hours.
5. All teams, on whatever work, shall be paid not less than $3.25 for nine hours' work.

By Order,

W. HENRY, President. W. A. REDFERN, Secretary.

Peterborough, Feb. 18th, 1902.

MONDAY, MARCH 3, 1902.

STAND BY THE PUBLIC SCHOOLS

Close followers of the doings of the Legislature will observe as one particular feature of the debates, that whenever Mr. Whitney, the leader of the Opposition, speaks upon a Bill before the House, he is usually commented upon by the Toronto press. On Thursday the member for West York, Mr. Hill, introduced a Bill to admit of Public School Inspectors inspecting private schools. This was the thin edge of the wedge for making a raid on public funds for the benefit of these institutions. Speaking on this subject the Toronto Evening Telegram says-

"Ontario law compels the general ratepayer to bear the burden of taxation upon the most valuable property which can be occupied by any institution calling itself a private school.

"The law subsidizes private schools with an exemption from taxation, and this privilege is enough without the further concessions demanded by W. J. Hill, M.P.P., and Mr. Whitney.

"Recognition in the form of official inspection of private schools, as demanded by Mr. Hill and supported by Mr. Whitney would be the first step to a raid on the public funds for the benefit of these institutions.

"If voluntary schools were put on the same footing as Public Schools in regard to inspection their promoters would soon claim the same right as the Public Schools in regard to payments out of the public treasury. Hon. Richard Harcourt and the Ontario Governments wisely snuffed out Mr. Hill's attack on the Public School system. The attack did not deserve a good word from Mr. Whitney."

PREACHERENDUM VS. ROSSERENDUM.

Toronto Saturday Night, of Feb. 22nd, says:

There are some of us who, when we advocate anything, invariably expect to be denied the thing for which we ask, because it might not be good for us to become possessed of what seems to us desirable. We have to toil along year after year until the public clamour for the reform advocated becomes so overwhelming that it can be no longer resisted. We learn never to expect to obtain anything, no matter how disinterested our motives, or howe vident it seems to us that the change proposed would be beneficial to everyone concerned, without educating the public up to the point of making an overwhelming demand. On the other hand there is a section of the community which believes that a minority sanctified by the approval of the pulpit should receive legislative and other concessions simply because those making the demand do it in God's name, and for the good of humanity. In the eyes of the civil law all men are supposed to be equal, whether they are Prohibitionists, Preachers, Publicans, Politicians, or belong to the Press. The judge on the bench is not supposed to be a respecter of persons, or to designate as a felon or outcast anyone who has outraged no statute, broken no law, nor exceeded those perogatives that belong to free citizenship. For anyone of these influential sections of the community to endeavour offhand to dispose of the rights of the other, or to criticise as unfit to survive a communal fraction with which it is in disagreement, or to ask for the passage of a law which financially or as to the freedom of action will be ruinous or oppressive, must be considered as advocating an action of such grave import that the foundation for it must be shown to be so secure and far-reaching as to be recognized by the whole social structure as necessary to its permanency and well being.

For instance, if the Press were to calmly demand the prohibition of preaching, would it not be instantly recognized that a bare majority of those voting for and absorbed in some other issue should not decide the matter? Yet there have been times when kings, prelates and pontiffs, who thought themselves ordained of God, have seen fit to prohibit what they saw fit to term seditious, heretical and soul-damning utterances. Again, if the Prohibitionists were to demand the wiping out of secular politicians, as those claiming to be clad with divine authority have before now attempted, would a decree endorsed by a mere majority of those in attendance at an arena where an athletic or political or religious contest was in progress, be deemed sufficient, or the occasion be held as a proper one for the taking of so singular a vote? If the Politicians invited the Prohibitionists, the Preachers and the Publicans to join in the suppression of newspapers, as newspapers before now have been suppressed, would the editors admit that a mere majority of those gathered together to decide whether there shall be a new church, a new public house, or a new political office created, be sufficient to silence the Press and to throw out of business all those connected with making paper, setting type and disposing of the product?

When the Prohibitionists demand the abolition of the business of the Publican, is it not fair that the Press and the Politicians should demand a fair field and no favour for the fight between the two contestants? If Premier Ross' bill submitting the matter to a referendum to be held at a time when there are no side issues, no matters of greater importance to many of the community, at issue, no political prize fights going on, no municipal mix-ups to be explained, no civic or private complications involved, does not fill the bill as to fairness and impartiality, I do not know what better could be done. If a Prohibition Bill without any reference to the people were passed in the Legislature, it would be a case of the Politicians conspiring with the Prohibitionists, and a certain section of the Press, to suppress the Publicans without an appeal to the sovereign people. If the appeal were made when political passions, private friendships and animosities for or against the candidates, or other extraneous matters, obscured the issue, it would not be fair.

In an appeal to the people to decide a question there must be a definite limit fixed. That limit might be fixed as one vote more than half the number of votes on the lists, as a majority, however, would be academic, for it would be impossible to tell how many names are duplicated or how many of the owners of the names in the course of a year have died or become incapacitated for going to the polling-booths. The best means of arriving at what is really a majority of the voters alive, both physically and with regard to the issues before the country, is certainly to take one more than half of the number of the votes polled at the most recent Parliamentary election. Presumably everybody who votes in June will be able to vote in October, excepting, of course, such a small percentage as may die in the interval. There is nothing unfair about this, and the Prohibitionists themselves, using the figures of the plebiscites and previous elections, have been unable to show that they will need to poll more than thirty-seven per cent. of the voters on the lists in order to win the battle. If they cannot poll this percentage—in Manitoba they must poll over forty per cent. to bring what is a law already, into force—they certainly should not be permitted to bring into force a law which will not only deprive the Publicans of their livelihood, but fetter all the voters who do not vote for prohibition, and may be considered as either opposed or indifferent to it, in a matter which, however dangerous economically and socially, cannot be considered a crime. In the City Council this week the Mayor declared lost a motion to purchase the Gas Company's stock, though fourteen aldermen favoured it and only nine opposed.

Taking everything into consideration, I consider the Ross Referendum Bill as nearly the fair thing as the most ingenious and disinterested mind could devise. The majority of its critics seem to be afraid of it because they think it is complicated and cunning. A watch is complicated, and the man who invented it must have had a wonderful brain, yet it keeps time and is the machine by which we all arrange our public incomings and outgoings. Probably it is the very simplicity and the absolute fairness of Mr. Ross' bill which has staggered those who were looking for a heavy handicap being put upon either one contesteant or the other.

Prohibitionists consider it unfair that they shall have the work of getting out a certain vote in order to win the day, while the Publicans are let off with no heavier task than to try to keep the people at home. Who should do the work, pray, in an issue of this sort, but those who demand that the task shall be undertaken? The Prohibitionists would be no better off if the Publicans were set driving wagons furiously on election day to haul men to the polls. If there is not thirty-seven per cent. of the voting population sufficiently anxious to have this limited measure of prohibition enacted, no one can affirm, no matter how fanatical a Prohibitionist he may be, that the measure would stand any chance of enforcement. It is childish for those who have undertaken a task to demand that the other fellows shall be made work and spend money as well as they.

Furthermore, it is said that the referendum is un-British and unconstitutional, and out of harmony with our system of responsible government. This sort of jabber is unworthy of a reasonably educated and self-reliant people. Protection as a National Policy was un-British, yet it was adopted by Canada to the great benefit of the Dominion. The B.N.A. Act, which is our constitution, is the faultiest kind of a document, noted for its omissions and contradictions. And what, may I ask, is responsible government but a government responsible to the people? The Ross Government will be doing its duty if it puts the act on the statute book, and at the general elections will be responsible to the people for having done so—a greater responsibility than many may think, for it may cause their defeat. The responsibility of bringing the law into motion is left to the people. What greater measure of directly responsible government has ever before been seen in this somewhat crude country of ours? It seems to me that the chief sins of responsible government are the efforts of administrations to do things which the people do not want done. No one acquainted with Canadian legislation but could name a dozen acts passed by governments against the interest and will of the majority, responsibility for which has been evaded by making the issue on election day turn on some entirely different and perhaps still more important or engrossing subject. Had a direct appeal to the people been made in any one of these instances in the manner proposed by the Ross Referendum it might have been decided in a manner absolutely contrary to the decision arrived at by Parliament.

It is not contended that everything is a proper subject for the referendum. Technical and commercial matters, those of diplomacy, those which involve sectional or racial differences which have to be harmonized, are proper matters of Parliamentary compromise; but in a matter which appeals solely to a man's moral sense, which affects his personal liberty, and in which he must be guided by his individual sense of responsibility to his neighbours and to his God, it is eminently proper that he should speak for himself, not through a representative in Parliament.

The Prohibitionists, Politicians, Publicans and members of the Press who are denouncing the Ross referendum as unfair are evidently doing it from personal motives, coloured by their contacts, political, social, religious or financial. The newspapers which denounce it either want to see a fight in which some of the money of the Publicans will come their way, or because they are afraid, as in the case of some denominational papers, lest they will be held as looking for the mammon of unrighteousness rather than the safety of souls, or because for political reasons they would like to see a general turmoil, a free fight, a general hair-pulling and up-tipping of the whole community. A single glance at the circumstances and alliances of those complaining of the referendum should satisfy any unprejudiced person that either self-interest, some sinister motive or a fanatical belief that the minority should rule, is the cause of the outcry. Do these people desire to see a fair fight? The Publicans do not, because they want no fight at all; it has been forced upon them. The Prohibitionists are not noted for the fairness of their tactics, and it may be said that their chief men belong to a class which has so long been regarded as superior to the rest of the community that they have become intolerant of opposition and bitterly resentful of receiving no more consideration than common man. Preachers, good and amiable men as they are, too frequently expect ten per cent. off regular prices in the stores, feel hurt if they do not get half rates on the railways, a reduction in newspaper offices and a very pretty slice taken off their hotel bills. When they go up against the Legislature asking for a prohibition bill they seem to expect the usual favours shown to them elsewhere. While fifty per cent. of the voters on the list should constitute the least majority recognizable in so important a matter, they are not content with being asked to poll what they themselves reckon will not amount to more than thirty-seven per cent. They have already got their customary discount of ten per cent., and much more, yet some of them shout "Unfair! Unfair! The referendum is loaded!" No matter what the Premier had given them, they would still clamour for ten per cent. off!

However, if the Premier sticks to his guns and acts as fairly as referee between the Publicans and the Prohibitionists as he has done so far, he may be sure of the support of the average man. The "average man" is a pretty safe person; in politics he gets overheated and sometimes acts foolishly, but in a domestic or business matter he can be trusted to behave himself fairly well. If there were some big question agitating the country, the average man might vote against Ross, while approving his action in the prohibition issue, but nothing very attractive in either the leaders or principles of the Opposition appears at present to be of sufficient weight to pull him off his feet. Premier Ross is taking the usual chances of defeat at the present election, and no more. If his record as an administrator does not carry him through, it will not be because his opponents offer anything better, and neither the Publicans nor the Prohibitionists will save or defeat him. Neither of them has formulated a better or fairer looking scheme, and I do not believe that the Prohibitionists will stay away from the political polls in order to reduce the number necessary in the Fall, nor do I believe that they will act in any considerable numbers or in any degree differently from what has been their habit. In fact, I think the whole issue will wear itself out and the temperance vote polled will be considerably smaller than that of either the previous plebiscites. Prohibitionists are not being asked to do what would be impossible if public sentiment were with them. But I do not believe that it is with them; and no matter how they may tinker up the referendum if they were permitted, I do not believe that they could get an endorsation which any Legislature in Canada would consider sufficient.

Does Not Believe in Drugs.

Mrs. Lansdale, of London, Ont., Underwent Treatment at West Croyden Hospital, England, Without Results—Cured By the New No-Drug System.

Moved by feelings of gratitude for the wonderful change that has been wrought in me by Ozone, I send you for publication this brief account of my distressing case.

Eleven years ago I was the subject of severe inward trouble, which caused me great suffering, and, as medical skill in America failed to bring permanent relief, my friends advised me to go to England and consult physicians there. I did so, and spent seven years in that country, being operated on in the West, Croyden Hospital. Though much better on my return to America, years of intense suffering left its perpetual traces, and I failed to regain the strength and vigor of other days that I had hoped for.

Six years ago a complication of liver, kidney and nervous trouble, together with rheumatism made itself painfully manifest, and since then my life has been one of suffering. During this time I tried everything in the form of drugs I could think or hear of, together with medical skill, in vain efforts to obtain permanent relief.

About four months ago I was taken with an attack of erysipelas in the face. I was removed to the hospital in this city, where I remained nearly three weeks, and this trouble still clung to me when again in my own home, and altogether I was considered a wreck.

Toward the end of April, having heard of Ozone, I determined to give it a trial. The second bottle made me sickish, but those who had used the Ozone and knew something of its action, told me not to be alarmed as this was the natural consequences of taking condensed oxygen into the system, and a sure indication that the preparation was effecting a cure; so I persevered, and glad I am that I did. In about two weeks the sickness began to pass away, and I improved rapidly. I have taken five bottles, and now, thanks to my Heavenly Father, am better than I have been in many years.

Hoping thousands everywhere may be blessed as I have been, I am very truly yours. Signed, Mrs. M. Lansdale, 190 Hamilton Rd., London, Ont.

We hear constantly of cases like that of Mrs. Lansdale, and we know that Powley's Liquified Ozone is of remarkable power from these actual results. It increases the oxygen-carrying power of the blood, destroys the germs of disease and eliminates all poisons from the system in a natural, healthy way. It will pay you to try a bottle. You can obtain it at your druggists for 50 cents and $1.

A GREAT, GRAND GENERAL CLEAN-UP

At this season of the year—just before the Spring Goods arrive—a clearance must be made. This week we concentrate all small lots and discontinued patterns of our Wall Paper Department. Also many lines in other departments, which we mark at prices simply irresistible. A few examples follow:—

800 Rolls Tapestry Wall Papers, with perfect match borders and ceilings in deep Red, Blue, Green, Brown for halls, dining rooms, library, etc, regular 25c, clearing at	7c
300 Rolls Ingrain Wall Paper, regular 15c per roll, 2 good colourings, this week	8c
18 inch Friezes to match, regular 15c, this week, per yard	7c
160 Window Shades, which cannot be bought in the regular way for less than from 60 to 85c, clearing at	49c
80 Dozen Tea Spoons, fancy handle, quality A1 and will not tarnish, good value at 100. Price this week, per dozen	69c
40 Table and Dessert Spoons, your choice, each	4c
75 Butter Knives, each	3c
17 only Butter Knives, quality guaranteed, regular 50c, for	25c
30 Dozen Silver Steel Tea and Dinner Knives, reg. $1 doz., for, each	10c
10 Dinner and Tea Sets, which were marked down to $10, full 97 pieces, gilt edges, 3 patterns, choice	7.98
30 White Ewers for chamber sets, regular 50c, clearing at	39c
50 dozen Cups and Saucers, coloured band, red, green and pink, regular 35c per dozen, take what you want at, each	3c
30 Glass Table Sets, consisting of sugar bowl, cream, pitcher, spoon holder and butter dish, complete set for	39c
30 dozen Bottles Sewing Machine Oil, large bottle, best quality, bottle	5c
10 dozen Castor Oil, regular 10c, for	5c
50 dozen Genuine Vaseline, 3 bottles	10c

We have many other lines worth mentioning, which you ought to know about. Limited space shuts us off. We invite inspection at

GRANTED A DIVORCE.

Wife of George R. Grey Successful in Her Suit Against Him.

Buffalo, March 3.—An absolute divorce, upon statutory grounds, has been granted to Mrs. George R. Gray, from her husband, George R. Gray of Toronto. Twenty-six hundred dollars per annum alimony was allowed her. The decree was signed on Frederick W. Kruse, Justice of the Supreme Court of New York. Mrs. Gray may assume her maiden name.

George R. Gray is a native of Coldwater, Ontario, and is the champion shot-putter of the world. Mrs. Gray is a resident of Toronto.

Lieut.-Gov. Forget Dying.

Montreal, March 3.—Alarming news has been received here regarding the health of Lieutenant-Governor Forget of the Northwest Territories. He has been very sick for some time past, but His Honor's case is now so much worse that his sisters, Madames Mount and E. R. Frechet, left Saturday for Regina. It is feared, in fact, that the case is a hopeless one.

TO REGULATE RATES

Hon. Mr. Fitzpatrick's Telegraph and Telephone Bill.

SUMMARY OF TERMS OF THE BILL

Provisions Largely Founded Upon or Adopted From Clauses in the Railway or Telegraph Acts—Provides Against Any Increase in Telephone or Telegraph Rates and Against Discrimination of Persons.

Ottawa, March 3.—The bill of which the Minister of Justice has given notice in regard to telegraphs and telephones is to be known as the telegraph and telephone act. The provisions of the measure are largely founded upon or adopted from clauses in the railway and telegraph acts. The bill provides against any increase in telegraph or telephone rates, and gives the Railway Committee of the Privy Council power to inquire into and determine complaints or disputes respecting tolls charged or demanded or charges of unjust preference or extortion.

Terms of the Bill.

Mr. Fitzpatrick's bill gives telegraph and telephone companies the right to construct lines on roads and highways, provided the public use of such roads and highways is not incommoded, or free access to any house or building shut off. Subject to the provisions contained in this act, or in the special act, a telegraph or telephone company is authorized to fix by bylaw the tolls to be taken for messages or services. The tolls may be fixed for the whole or any particular portion of the company's lines, but they are to be charged equally to all persons, and no reduction is to be made either directly or indirectly in favor or against a particular company or persons. The works of all telegraph and telephone companies incorporated under provincial laws are declared to be works for the general benefit of Canada. The bill will fix a period after the passage of the act within which telegraph and telephone companies must submit their bylaws fixing tolls to the Governor in Council, through the Public Works Department, for approval. The Government is given power at any time to assume temporary or permanent possession of any telegraph or telephone line, and the rights and privileges of any such company are then vested in the Crown. In the event of difference between a company and the Crown as to the compensation to be paid, reference will be had to arbitration. The clauses relating to Government ownership are taken bodily from the present telegraph act. Upon the application of any person to a telephone company, and tender by him of the lawful amount of toll, the company is required with all reasonable despatch to install telephones upon such person's premises, situated within any city, town, village or territory within which a general service is given by the company, and adjoining or within 150 feet of any highway or street upon which the company has a main or branch line, and to make the necessary connections with its system. Except as otherwise provided in the bill, no higher tolls than those usually collected in any place within which a telephone company has a general service are to be asked, to be chargeable, payable, or recoverable. Any sum paid in excess after the act comes into force may be recovered in an action at law or deducted from any tolls unpaid. Every bylaw fixing and regulating tolls is made subject to revision by the Governor in Council. In case of an order in Council altering the tolls, the revised rates are to prevail so long as the order in Council remains unrevoked.

No Discrimination.

"No such company," the bill declares "in fixing any toll shall under like conditions and circumstances make an unjust or partial discrimination between localities and persons." The provision from the railway act against the granting to any person of any secret special toll, rebate, drawback or concession is embodied in the present bill. Authority is conferred upon the directors of any telegraph of telephone company to enter into arrangements with any other similar company for the regulation and interchange of messages or services, and for the working of the lines for a maximum term of 21 years, subject to the approval of the Governor in Council. The provisions of the present bill are not to apply to existing contracts. The Railway Committee of the Privy Council is given power to inquire into, hear and determine any application, complaint or dispute respecting (1) tolls charged or demanded by any telegraph or telephone company, (2) unjust preference, discrimination or extortion by any such company, (3) any matter, act or thing which by this act or the special act is sanctioned, required to be done or prohibited. Finally the electric telegraph companies act is repealed.

TO BEGIN CONSTRUCTION.

Messrs. Mackenzie & Mann at Pacific End of C.N.R.

Victoria, B.C., March 3.—A wire received here Saturday says that Messrs. Mackenzie & Mann, who are building the Canadian Northern Railway through Manitoba and the Northwest Territories, have signed the contract submitted to them by the British Columbia Government, to commence work on the Pacific coast end of the line from Butte Inlet immediately. It is understood that the road, which has been under construction from the east for several years, and several hundred miles of which has already been built, will cross Seymour Narrows and come down the island to Victoria.

POPE LEO'S 92ND BIRTHDAY.

Pontifical Jubilee Celebration at the Vatican—Many Pilgrims in Rome.

Rome, March 3.—The sacred college yesterday presented to Pope Leo its congratulations upon the attainment of his 92nd birthday. Cardinal Oreglia, the dean of the sacred college, read a long speech, to which the Pontiff formally replied. To-day will mark the 24th anniversary of his coronation as Pope.

On the occasion of Leo XIII's Pontifical Jubilee, which was celebrated yesterday, and will be continued to-day, Cardinal Respighi, the Pope's Vicar-General, and president of the international committee for the jubilee festivities, presented His Holiness with a precious triregno (triple crown) made of gold, encrusted with diamonds and rubies, the value of which exceeds 1,000,000 lire ($200,000). The Pope will wear this triregno on Easter Sunday during the solemn ceremony of thanksgiving to be celebrated in St. Peter's.

For the jubilee celebration hundreds of pilgrims from all parts of the Catholic world came to Rome.

The Pope looked remarkably well for a man of his extreme age, and the venerable Pontiff's truly marvelous vitality and unimpaired memory occasion remark by all who see him.

Lieutenant Drew His Sword.

Vancouver, B.C., March 3.—Col. Holmes, district officer commanding, British Columbia Military District, was in Rossland yesterday, investigating serious charges against Lt. Kenneth L. Burnet, the officer commanding Rossland Co. of Rocky Mountain Rangers, who has demanded a trial by courtmartial or civil. The trouble arose out of a recent minstrel performance given by a militia social organization, and in a melee over seats, Burnet drew his sword to emphasize his remarks. As he was in uniform, this constitutes a serious breach of regulations. The specifications filed against Burnet are conduct unbecoming an officer and a gentleman.

Want Him Arrested.

Port Huron, Mich., March 3.—There is a movement on foot to secure the arrest of C. D. Thompson, the defaulting finance keeper of the Supreme Tent, K.O.T.M., although under no circumstances will the Supreme Tent officials ask for a warrant. The expert employed to look into Thompson's accounts has found a deficiency of $24,000, while Thompson has confessed to a deficit of $57,000.

A SOCIALIST CRISIS.

The Plans and Organization of a Year in Italy Overthrown by Too Hasty Action at Turin.

London, March 3.—The world at large has been kept in ignorance of the fact that a civil war—possibly a successful revolution—in Italy has been escaped by the narrowest margin in the last few days. The only news sent abroad has been of the mobilization of nearly 200,000 troops, and the Government assumption of control on all the railroads in order to avert a national strike of railroad employes.

Italy is in the presence of a Socialist plot of enormous proportions. The Socialist leaders have within a year organized all the popular forces of the country, while the Government, strangely enough, has not attempted any interference, being apparently ignorant of the real objects of the movement. A chamber of labor was created in every town and a great number of leagues of resistance. Each class of workmen has its league, and each league obeys the local chamber. Nearly all the workmen in Italy and a large proportion of the agriculturists were gradually enrolled until the leagues themselves numbered 10,000 and the total membership more than 1,000,000. The whole of this organization is under the control of a central committee in Rome, which is actually the parliamentary Socialist body. This group gained such strength that it was within its power to send 1,000,000 men into open revolt and to paralyze in 24 hours the industrial, commercial and agricultural life of the country.

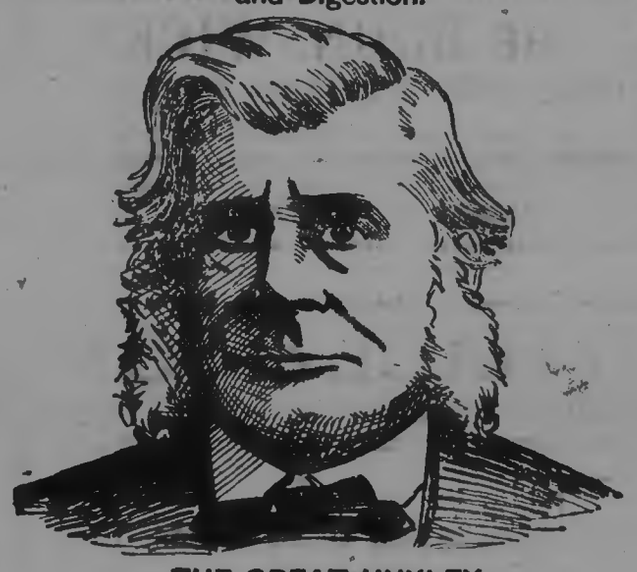
A correspondent who in defiance of the warning of the authorities, sent a telegram from the Swiss frontier last night, says:

"The central committee was to have given the word for action on Friday, when a general strike on all the Italian railways was to be begun. The revolutionary plans were upset by the stupid haste of Signor Morgani, the Socialist deputy for Turin, who, six days before the appointed date, ordered a general strike in that city. This opened the eyes of the Government and by the prompt mobilization of the entire personnel of the railway system of the country, 110,000 men, and the calling to the colors of the reservists of the class of 1878, numbering 90,000 men, two formidable blows were dealt at the revolutionists, under which they are still staggering. The Government next by decree dissolved all the chambers of labor and all the leagues of resistance; and to-day the plotters are reduced to what the Government hopes may prove to be permanent inaction."

At Turin the cavalry made many wild charges upon the mob of 20,000, and 200 rioters were badly hurt, and at least 1,000 persons arrested, most of whom are still in prison.

A Law Unto Himself.

Every Man Must be That, to Retain His Health and Digestion.



THE GREAT HUXLEY.

There are thousands of people in this world who eat no meat from one year's end to another, and certain savage tribes in Africa and Polynasia are almost exclusively meat eaters; but while there are thousands of these there are millions who live on a mixed diet of meat, vegetables and grains and if numbers is a criterion it would seem that a mixed diet is the best for the human family.

The fact that you will find many vegetarians who appear healthy and vigorous and meat eaters equally so, and any number of robust specimens who eat both meat and vegetables and anything else that comes their way all goes to show that the old saw is a true one, that every man must be a law to himself as to what he shall eat and drink.

To repair the waste of tissue in brain workers, as well as to replace the muscle and sinew of the labourer, can only be done through the process of digestion.

Every nerve, muscle, sinew, every drop of blood is extracted from the food we eat and digest.

In these days of hustle and worry, and artificial habits of life, scarcely one person in a thousand can lay claim to a perfect digestion; dyspepsia is a national affliction and Stuart's Dyspepsia Tablets is a national blessing.

Most cases of poor digestion are caused by failure of the stomach to secrete sufficient gastric juice, or too little Hydrochloric acid and lack of pepsiones and all of these important essentials to perfect digestion are found in Stuart's Dyspepsia Tablets in convenient palatable form.

The great English Scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly because they lack the the proper quantity of digestive acids (lactic and hydrochloric) and pepsiogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

One or two of these tablets taken after meals, insure perfect digestion and assimilation of the food.

Cathartic pills and laxative medicines have no effect whatever in digesting food, and to call such remedies a cure for dyspepsia is far fetched and absurd.

Stuart's Dyspepsia Tablets contain pepsin free from animal matter, diastase annd other digestives, and not only digest all wholesome food but tend to increase the flow of gastric juices and by giving the weak stomach a much needed rest, bring about a healthy condition of the digestive organs and a normal appetite.

Nervous, thin blooded, run-down people should bear in mind, that drugs and stimulants cannot furnish good blood, strong muscles and steady nerves; these come only from wholesome food, thoroughly digested; a fifty cent box of Stuart's Tablets taken after meals for a few weeks will do you more real good than drugs, stimulants and dieting combined.

Henry Kirkpatrick, of Lawrence, Mass., says: "Men and women whose occupation precludes an active out door life should make it a daily practice to use Stuart's Dyspepsia Tablets after meals, I have done so myself and I know positively that I owe my present health and vigour to their daily use.

"From the time I was 22 when I graduated from school with broken health from overwork until I was 34, I scarcely knew what it was to be free from stomach weakness, I had no appetite whatever for breakfast and very little for any other meal.

I had acidity and heartburn nearly every day and sometimes was alarmed by irregularity and palpitation of the heart, but all this gradually disappeared after I began using Stuart's Dyspepsia Tablets and I can eat my meals with relish and satisfaction which I had not known since I was a growing boy."

Mrs. Jas. Barton, of Toronto, Canada, writes: "For eighteen months I suffered from what I supposed was bladder and kidney trouble, and took medicine from three different doctors without any sign of cure. I felt so ill at last I was hardly able to do my work.

"I thought I would try a box of Stuart's Dyspepsia Tablets and see if they would make me feel better; never really thinking I had dyspepsia but after only three or four tablets had been taken all the said trouble disappeared and then I discovered I had had acid dyspepsia, while the doctors had been treating me for kidney and bladder trouble, and one of them treated me for rheumatism.

"My digestion is fine, my complexion clear, and I am able to do my work and low spirits are unknown to me.

"I am so thankful for finding a cure so good and so pleasant to take as Stuart's Dyspepsia Tablets. I am surprised at the change they have made in me."

Mr. Thomas Seale, Mayfield, Calif., says: "Have used and recommended Stuart's Tablets because there is nothing like them to keep the stomach right."

Mr. E. H. Davis, of Hampton, Va., says: "I doctored five years for dyspepsia, but in two months I got more benefit from Stuart's Dyspepsia Tablets than in five years of the doctors' treatment."

Stuart's Dyspepsia Tablets is probably the safest, most popular and successful digestive on the market, and sold by druggists everywhere in the United States, Canada and Great Britain.

A WISE DOCTOR.

He Recognizes the Serious Condition of a Patient and in the Extremity Prescribes the Remedy that Never Fails.

Can anyone read this story and fail to be convinced that as a remedy for all forms of Stomach Troubles, Dodd's Dyspepsia Tablets are without an equal:

Mr. Louis Boudreau, of St. Paul il aux Noix, Quebec, writes:

"For twelve years I had been feeling a dull pain in my right side in the region of the liver.

"I had a yellow complexion. The white of my eyes was yellowish. I could not eat anything without the most distressing after effects.

"I was attended by two doctors and their medicine would sometimes give me relief for a few days, but I would always have a relapse which would leave me worse than I was before.

"I kept on getting worse and till one day I was very bad and called in one of my doctors again, in the hope that he might be able to give me at least a little temporary relief, for I was suffering terribly.

"He told me that he had decided to give me an entirely new treatment, and left me a box of Dodd's Dyspepsia Tablets, instructing me to follow the directions carefully.

"I improved rapidly, and he made me take a second box and then a third one, which with one other box that I sent for myself, made four in all that I used.

"To-day, thanks to Dodd's Dyspepsia Tablets, I am well; I sleep well, a thing I had not been able to do for years. I can eat anything I like without any pain or unpleasant after-effects whatever, and my general health is very much better than it has been for years.

'For what Dodd's Dyspepsia Tablets have done forme I shall always praise them."

Fill the New Page With Good.

The improvement to come in any life from the "turning of a new leaf" is not to be based upon the turning of the leaf so much as upon the constant and resolute filling of the new page by diat of unremitting and often strenuous effort. An evil habit is not changed in a moment, but is supplanted by the good which is cultivated into a habit.

German Dolls.

It takes eighty men to make a German doll. Each man makes a small portion of the doll, but it is the same bit all the time, and 1,000 dozen dolls can be made in a day in some of the big factories. After the men finish the body portion of the doll the women's work begins. They paint, dress the dolls and pack them for the market.

JOHN LEE'S FEAR

Was averted by the timely use of South American Nervine—Doctors did their best but were powerless.

Mr. John Lee, of Pembroke, says:—"I had indigestion. I had lost my appetite. I was run down in flesh. I was so sick that I feared fatal results, and was almost in despair because my physician seemed powerless to cope with the disease. I was induced to try South American Nervine. I received so much benefit from one bottle that I persevered in the treatment, and to-day I am a new man and am cured completely. 66

Sporting Goods Catalogue

We send our 200 page—Illustrated catalogue free on receipt of 2c. stamp to help pay postage. No matter what your sport is you should have a copy.

The Nantucket Dialect.

A family circle in Nantucket was once discussing the use of nautical phrases when the mother said, "Girls, I never use them."

"Yes, thee does, mother."

"Well, watch me and see if I do."

Shortly after she said to one of the children, "There, take this and carry it to Cousin Phœbe and tell her that this squares the yards with us, and thee must send, for it is almost schooltime."

The Falls Claims Another Victim.

Many times has this statement been published. But if Niagara has claimed its thousands, neglected coughs and colds have claimed their tens of thousands. You can't stop the falls but you can stop the cough or cold in two days by taking a 25c bottle of Four T's, the great guaranteed cough and cold cure. Sold by Ormond & Walsh.

All Doubts Removed.

She—And you will always love me, even when I am old and ugly?

He—But you never can grow any older or any uglier in my eyes, darling. —Pall Mall Gazette.

DON'T DO IT.

Don't present your wife, your sweetheart, or your friend with a worthless box of Bon Bons. Give them the best only. To do this, the Bon Bons must be McKenzie's—the only place in Eastern Ontario where satin finished Bon Bons can be procured. Every one who receives a box of our goods are always more than pleased. Examine them before buying elsewhere. A glance at our window will convince you of their high standard. Manufactured and sold only at

THE STORE THAT NEVER DISAPPOINTS

THE GLASS OF FASHION AND THE ATTRACTION OF LOW PRICES

Is none too strong a phrase to apply to our showing of **New Dress Goods Materials** and **New Wash Stuffs**. The caprices of Dame Fashion are bewildering, but our customers know they may rely upon the **up-to-dateness** of our offerings. Our counters have seldom presented a more interesting sight than now. Summer features were never more luxuriously tasty than this season. We invite your attention to this advertisement, feeling sure it has news of many things that will interest you. Our showing of natty American Wash Stuffs personally selected in the American markets is the most comprehensiye ever shown in town.

Silks and Stuff Goods From Canada, England, Germany, France and United States. We have Gathered the Choicest Selections Of Strictly New Dress Materials.

OUT-OF-THE ORDINARY NOVELTIES

LAST QUARTER OF EVENING CLASSES AT THE PETERBOROUGH BUSINESS COLLEGE
Anyone wishing to join these classes this season, should do so at once.
WM. PRINGLE, Principal.
Peterborough, Ont.

Daily Examiner.

MONDAY, MARCH 3, 1902.

Something Choice.

The largest and finest Pineapples we have ever seen have just arrived; also fine, ripe tomatoes, bananas, cocoanuts, lettuce, onions, parsley, and celery. S. A. OKE, 376 George street. Telephone, 18.

Baptist Women's Mission Circle.

The annual meeting of the Women's Mission Circle of the Murray street Baptist church will be held to-morrow, (Tuesday) evening, at eight o'clock. All women interested in missions are cordially invited to attend.

They Were Thanked.

At George street Methodist Sunday School yesterday Mr. Jeffries in a well worded speech moved a vote of thanks to Mr. Glidden and Mr. Mulligan for the very excellent music which they provided for the Sunday School Anniversary services. Mr. Mulligan trained a chorus of 600 voices or more while Mr. Glidden has brought the Sunday School orchestra to a high degree of efficiency. The motion was seconded by Mr. Dixon and carried amid much enthusiasm.

Moving the Stock.

Mr. H. LeBrun & Co. are engaged to-day in removing the balance of the stock of the T. O. Rush Company from the premises of the T. O. Rush Co., to the vacant store on George street just south of the Bank of Toronto. It is understood that Messrs. Pete Simons & Co. have leased the premises that Messrs. LeBrun are to-day vacating and an announcement of their opening will appear in a day or two.

The Paper You Like.

We wish to introduce two of our leading lines of note papers with envelopes to match. They are known as "Sylvia Grey," being a beautiful London Grey shade of note paper, done up in neat packages of 125 sheets and envelopes in boxes of 100. This week the price will be 25c per package, and and 25c for the envelopes. Our "Adriatic Parchment" paper is a pure vellum white note, a beautiful surface to write on—in packages of 125 sheets for 25c., envelopes in boxes of 125, for 25c. Just received, "The Right of Way," by Gilbert Parker, latest copyright, at 75c. each. A. H. Stratton & Co., 417 George street.

THE PRIZE WINNERS.

Those Who Will Receive Prizes From the W. C. T. U.

At the Y.M.C.A. to-morrow night there will take place the annual distribution of cash prizes donated by the W.C.T.U. to the pupils of the town schools who obtained the highest number of marks in the study of scientific temperance. There are three prize winners, two of whom are Separate School pupils. The winners of the prizes are John Corkery, who obtained 83 per cent., and Fred Pepe and E. Crossley, who were were equal, each obtaining 79 per cent. The two former pupils attended the Separate Schools of the town.

LABOUR UNION!
SPECIAL MEETING!

A special meeting of Peterborough Federal Union No. 9240, will be held this evening in the Foresters' Hall, Simcoe street, at 8 o'clock. All members are requested to be present.
W. HENRY, President.

St. Luke's Church.

Rev. Canon McNab of St. Alban's Cathedral, Toronto, will give a lecture, illustrated by limelight views, in the school house of St. Luke's church to-morrow evening, (Tuesday) at 8 o'clock. The subject will be "Events in the History of the Bible." Admission, 10c; two children, 15c. 1d

For the Members Only.

A social for all the senior members of the Y.M.C.A. will be held in the parlours on Thursday evening at 8 p.m. This will include both limited and full members and all in either of these classes who do not receive notice otherwise will consider this notice sufficient. It will be under the auspices of the Social Committee and A.H.M. Club. A good programme will be provided and oysters will be served. The annual sale of Magazines will be conducted at the close.

The New Electrical Firm.

The new firm of McPherson & Aldridge, electricians, have just finished wiring the Convent de Notre Dame for electric lighting, and installing twenty-five new electric lights throughout the building. The work has proven very satisfactory to all concerned, and has passed the inspection of an electrical expert. Mr. Aldridge, the electrician of the new firm, was the late superintendent of the Cobourg electrical plant, and possesses valuable testimonials of his skill as a practical worker with electricity. The new firm is doing well, and have quite a number of orders ahead. Mr. McPherson, the business member of the firm, is well known in town through his bicycle connection, having been actively engaged for a number of years in that business, at No. 403 George street, where the electrical business will also be carried on in connection with his bicycle livery.

WANT THE CHILDREN

To Compete for Prizes at the Annual Horticultural Show.

The members of the Horticultural Society are entering upon their season's work in real earnest, and the public may look forward to one of the best Horticultural Exhibitions that has ever been held in the town. The Prize List Committee held a meeting last Tuesday evening and revised the prize list, increasing the cash value of a great many of the prizes, and adding a large number of entries to Class 3, making it open for market gardeners only. They have also added Class 4 to the list. This class will be open to children only, of 15 years and under. The society will also give away ten packages of seeds to each and every child who will by paying 25c., become a member of the Society. Applications for seeds should be made to the Secretary of the Society, Mr. H. L. Beal, any time up to March 15th. In making application the following rules will have to be complied with:

"Peterborough and Ashburnham Horticultural Society; Children's applications for Seeds:

"I hereby apply for seeds marked below, and agree to grow therefrom and to exhibit at the next Horticultural Show: Asters, Balsams, Dianthus, Marigolds, Pansies, Sweet Peas, Poppies, Stocks and Zinnias."

Arrangements have been made with the florists so that they will exhibit at the exhibition as usual but will not compete for prizes, thus giving the amateurs a far better chance to secure prizes.

By making the above changes, the Society hopes that the flower-loving public will take a greater interest in the organization. The prize lists are now in the hands of the printer and will be ready for distribution in the course of a few days. In all probability the exhibition will be kept open for two days instead of one, as formerly.

UNDER NEW MANAGEMENT.

Messrs. Tully and Merrell Assume the Management of Gough Bros.' Peterborough Store.

Attention is directed to Gough Bros.' large half-page advertisement in to-day's Examiner, announcing the transfer of the management of their Peterborough Store to Messrs. Jas. Tully and Wm. Merrall on March 1st.

Full particulars of this contemplated re-organization was given in the Examiner in January. It only remains to be said that the arrangements have now been satisfactory accomplished, which gives to the two members of the firm, Messrs. R. P. and A. J. Gough, fuller scope to attend personally to the general interests of their confederation of stores.

Mr. James A. Tully, is a young man whose steady habits and business tact has made him many warm friends during his past sixteen years of faithful service with Gough Bros. He first entered the employ of the firm in March, 1886, when the store was only half its present size, and three-quarters its present depth. The customers took to him on sight, and felt such confidence in their dealings with them that goods were often sold solely on "Jimmy's" recommendation. Mr. Tully gradually rose in the estimation of his employers until he soon occupied a leading position in the store, and for the past eight years he has been recognized as head salesman in the ready-made clothing department and as assistant manager. Mr. Tully has a first-class knowledge of the many varied lines of goods specially required for Gough Bros.' trade, and is a shrewd and sagacious buyer. Socially, Mr. Tully has many warm friends, who will be pleased to learn of his present advancement. He is an enthusiastic member of the Independent Order of Oddfellows, and has been honoured with the highest offices in the gift of his local lodge. He is known by customers of the firm from one end of the county to the other, and scarcely needs this introduction which is cheerfully accorded him.

Mr. William S. Merrell, who has enjoyed the confidence of the firm of Gough Bros. for the past fifteen years fully merits the trust that has been imposed on him as one of the managers of their Peterborough business. It was in "Jubilee year" that Mr. Merrell was first assigned a position with the firm. He had previously enjoyed a practical experience in the clothing and furnishing trade in Brantford, where he served his apprenticeship. He then went west to Portage la Prairie, where he held a responsible position with Garland & Co., at that time one of the largest concerns in the Northwest. Mr Merrell had a hand in some of the largest "turn-overs" in business that was known during the boom in the West. From Portage la Prairie Mr. Merrell went to Brandon, and while there gained an intimate knowledge of the territory by travelling all through the country three times a year as representative of a large jobbing house. It was with such a varied and practical experience as this that Mr. Merrell entered Gough Bros store. His ability as a good, all-round salesman was soon recognized. He made a point of keeping au fait with the latest styles and fabrics for men, and particularly the popular hat styles, and furnishing novelties, which he had at his fingers' ends. He soon was assigned to the position of head salesman in the hat and furnishings departments, and at the same time his talent for window dressing was developed. The large show windows of Gough Bros. have often given ample evidence of his expertness in putting them in an effective "trim." Mr Merrell is an intelligent buyer, and his knowledge has been utilized by the firm in the selection of the varied lines suitable for their trade. He knows Goughs' business "from the ground up," and now that he is in business for himself his friends will give him the glad hand and their substantial encouragement as well.

Personally, and as citizens, these two gentlemen who compose the new agement of Gough Bros.' local store, stand well in the estimation of the people of, Peterborough, and of the surrounding country. Both are the same age, within a few months, and as a team that has been practising together for fifteen years in the same field, they ought to put up good combination work. Let them be as diligent in business as managers as they were as clerks, and the hope is expressed that they will give a good account of themselves.

LABOUR MATTERS.

Important Visit of Two Official Labour Representatives to Peterborough.

The great importance at present attaching to the labour movement in Peterborough, has justified the visit of two of the best informed Canadian labour representatives to town to confer with the Federal Labour Union, whose membership has grown to such a phenomenal extent. Mr. R. Glockling, secretary of the Ontario Labour Bureau, and Mr. J. A. Flett, Vice-president of the Trades and Labour Congress, of Canada, arrived in town yesterday morning and are stopping at the National Hotel. Mr. Flett has cancelled a number of previous engagements to consult with the officers of the Peterborough Union on matters affecting the welfare of the organization here. Mr. Glockling is particularly interesting in explaining the operations of the new Bill passed by the Ontario Legislature for the conciliation of industrial disputes and other allied matters.

Apart from the local interest which these two gentlemen may be expected to create among the local unions, their visit will serve the purpose of contributing intelligent information on the current labour movement of the day.

It is expected that both Mr. Flett and Mr. Glockling will address a meeting this evening, the particular nature of which has not been made public.

Announcement is made in another column of a special meeting to be held in the Foresters' Hall, Simcoe street, this evening of Peterborough Federal Union, No. 9240.

LATE ROBERT F. CAREW.

His Death Occurred on Board the Cruiser San Francisco.

Mrs. Margaret O'Mara, Waterford street, has received the sad intelligence of the death of her grandson, Robert F. Carew, who passed away on board the Cruiser San Francisco, after a short illness of peritonitas. The deceased, who died on February 19th, and was the sole surviving son of Mr. E. J. Carew, of Bradford, Pa., and formerly of Peterborough. He was a member of the United States marines, and his burial took place in the cemetery of the Brooklyn navy yards, under military honours. The deceased had frequently visited his grandmother in Peterborough, and and made many friends here, all of whom will regret exceedingly to learn of his early demise.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

PETERBOROUGH'S MODERN STORE.

EVERY .... DEPARTMENT

Has its share of the New Goods now. **New Dress Goods, New Silks, New Cottons, New Linens, New Whitewear, New Corsets, New Carpets, New Suits, New Millinery.**

It's decidedly spring-like at this store. We are always pleased to show our Goods whether you buy or not. So come right along and see them.

BEAUTIFUL VEILS!

The rough weather of late winter and early spring makes it necessary for women to wear veils. Here are some special Veils that protect the face without being an injury to the eyesight. They are beautiful and are sure to be immensely popular with the ladies of Peterborough.

STREET SKIRTS!

The Short Skirt came into favour when bicycling was at its height. Now it remains in favour because it permits easy walking with freedom from bedraggled skirts and wet ankles. We are showing a nice lot of attractive materials for short skirts in a variety of colours and qualities, and prices that will be sure to please.

PRETTY SKIRTS!

In the providing of a wardrobe you must have plenty of underskirts. This spring we carry a larger range than usual, and this spring we have a better quality than usual. We can fit you with Skirts, Drawers, Corset Covers or whatever you may need. Quality of material and workmanship warranted all right. Prices are what you would expect to pay for the materials without any charge for the making.

We would like if you would take a look at our Novelties in Dress Goods before they get picked over. March is here! We have had a taste of spring already. The Millinery Openings are only two weeks hence. Easter will be here before you realize it : : : : : : : : : :

MINISTERIAL ASSO.

New Arrangements for the Visitation of the Hospital and Home.

At the monthly meeting of the Peterborough Ministerial Association this morning, an arrangement was made whereby Rev. Messrs. Bennett and Kilgour will visit the Nicholls Hospital and Peterborough Protestant Home each week, instead of this duty being taken by all the clergymen alternately. The other divines are now free to give closer attention to the schools.

Rev. Jonathan Beatow gave a most interesting address on "The Reading of the Bible in Places of Public Worship."

Fragrant and Fresh.

When you order your flowers from Cobb's you are assured of good quality. Carnations, violets, lilies, begonias, ferns, palms, etc., fragrant, hardy and fresh, at dwarfed prices. Aylmer street Greenhouses. Phone No. 122.

IN LATEST SPORTING CIRCLES.

Games That Will be Played This Season.

Some Notes on Curling, Lacrosse, etc.—Other Items of Interest.

HOCKEY.

There is no one in town more interested in the success of the Peterborough hockey team than Mr. Angus McIntosh, the rink superintendent. His efforts to have ice for the boys to practice on during the soft spell have been strenuous. There were several inches of water at the rink but by boring holes through the ice and the flooring this has all been drained off and the ice was in good shape for last night's frost to make an impression. The team will be out for a hard practice at the usual hour this evening.

Cold weather is upon us once again and the remaining matches in the O.H.A., and Trent Valley League will likely be played within the next 8 days. Collingwood and Galt will play a sudden death game in Toronto on Tuesday night and it is not unlikely that the winners of Galt and Collingwood will play their first game in Peterborough on Friday night.

The final match in the Trent Valley League between Fenelon Falls and Norwood will be played on Thursday night, at Norwood. The northern men have a lead of three goals, just enough to make matters interesting.

The Toronto Star remarks that—Newmarket hockeyists are satisfied that they were beaten on their merits by Peterborough, and that its queer for anyone to find satisfaction in a defeat.

Codling, Galt's point player, has gone to Port Arthur and will not be on the team for the remainder of the season.

The Globe's Walter Phelan, the ex-Peterborough player, captain of the All-star Team, of Pittsburg, Pa., has challenged the Keystones, winners of the Western Pennsylvania League championship, for a series. Phelan thinks that his aggregation can beat the new champions.

CURLIANA.

The annual match between the North and South of Scotland was played at Carsebeck on Feb. 11th, under the auspices of the Royal Calendonian Curling Club, and resulted in a win for the South by 638 shots. The first match was played in 1847, and of the 24 which been played, the South has won 20. In all 295 rinks entered on the 11th and 240 rinks took part.

BASKET-BALL.

On Saturday evening at the Y.M.C.A. gymnasium there were at least 300 people present to witness the two games of basketball between local teams. The prognostioator who chose the winners in Saturday's issue, must have some compunctions about meeting the losers. He was certainly away off in both games as the score indicated. In the first game the contentants were the Electricians from the south end and the stitchers from the harness factory of B. F. Ackerman & Co. The confidence of the winners cannot be estimated. They even went so far as to bring the president of the firm to witness the contest so he may know what material he has to work on. However, the Electricians need no minimizing, as they were just undergoing "a night off," and their man to do the shooting was doing business with Dobbin, and consequently Miller had to be satisfied with scoring fouls. The score was 13-3. In the second game—and it was swift indeed—there were many sensational events to keep one watching all that was going. The Night Owls and the Business College students were the disagreeing parties this time and from our knowledge of this bird they seek their prey at night when their sight is the best. They must also be very fond of "foul" if our recollections are right as Robertson is carrying the wishbones of no less than eight. There were a pair of sky scrapers at centre and it was a case of a die who could get the ball first. Smith and Merrell are certainly well matched but Merrell sees well at night and Smith has decided to get a pair of 60 c.p. glasses if his sight fails him again. The score ended 15-9. Robertson played in two games and had 16 points to his credit. The officials for the games, Messrs. Merrell, Laing, Richardson and Maguire gave entire satisfaction.

RUGBY.

Vancouver Rugbyists believe that a picked team from British Columbia can trim anything in Ontario and Quebec, and a fifteen may come east next autumn to play Argonauts, Varsity, Ottawa, Peterborough and other crack teams. The length of the proposed tour makes it appear that the Westerners expect to take a fall out of all the kickers down here. Peterborough will be ready for them.

LACROSSE.

Here is what the Toronto Telegram says—"Spring is near at hand, which causes the Peterborough Examiner to exhort all good citizens to be up and doing in lacrosse, interest in which has not been so intense since the day Lionel King and the populace chased Boulton R. Kean to the railroad station."

The report that the Toronto Lacrosse Club will move their headquarters this season is no ferry tale. They have made arrangements with the Toronto Ferry Company to play at the Island.

As there is no chance for the Tecumsehs coming to life in lacrosse, it is proposed to take up ping pong this summer.

The contemplated American tour of the Dufferin Lacrosse team of Orangeville is an assured project now. New York and Boston are included in the trip. This will be a capital advertisement for the town of Orangeville and will give the boys a fine trip.

The annual meeting of the Canadian Lacrosse Association will be held in Toronto on Good Friday. Peterborough should be represented at the meeting if the town intends putting a team in the Association.

GOUGH'S CONFEDERATION.

PETERBOROUGH BRANCH:

Messrs. Tully and Merrell, Managers.

Pursuant to the announcement made by the firm in January, Messrs. James A. Tully and William S. Merrell, our two oldest employees, took charge of the management of our Peterborough business on March 1st. The reasons which justified their being entrusted with this responsibility, and the ample confidence which we repose in their business ability and integrity, have already been fully explained to our patrons and the public.

This Re-Organizing of our Peterborough business does not make "Gough's Store" any less Gough's. It will continue to be "Gough's Store," with the same old policy and the same old predominance that has marked its career during the past sixteen years. **GOUGH BROS. GIANT CONFEDERATION** sweeps into another epoch of its history with greater strength—its position fortified by past successes—and the path cleared for still more wonderful achievements. Our Confederation of Branch Stores faces, triumphant, the dawning of a new season, and challenges the entire market to meet it on the field of competition.

We Are On The Threshold of The Greatest Season's Business We Have Ever Had

And this has stirred us to supreme efforts in placing our New Spring Stocks for 1902 beyond the reach of competition We have confidence in the people of Peterborough, and the wonderful growth of our business is evidence that the people of Peterborough have confidence in us.

Messrs. Tully and Merrell are here to get your trade and keep it—to safeguard your interests as well as our own. We and they, and the united co-operation of our Confederation of Stores, will do all in our power to retain your patronage. The steady hold-on of the old customers, and the continued addition of new, will always be the focus of this business. We respectfully solicit a continuance of your patronage under the new management.

OUR MAMMOTH COLLECTION OF NEW SPRING HIGH-CLASS CLOTHING, BOOTS AND SHOES, HATS AND CAPS, AND GENTLEMEN'S FURNISHINGS, FOR THE SEASON 1902

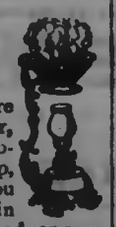
Stands as an example of selected excellence, and overshadows, beyond comparison, any other showing in the Dominion of Canada.

5-8 QUEEN STREET WEST, TORONTO.

GOUGH BROS.

375-379 GEORGE STREET, PETERBORO.

Look At It.



We mean our little picture here. There's a vaporizer, you put some Vapo-Cresolene in it; there's a lamp, you light it. Then you just naturally breathe-in the vapor. You can read, or sew, or study, the cure goes right on all the time. Now you see why the doctors all speak so highly of Vapo-Cresolene for throat troubles. It takes the medicine just where it's most needed, and it is a perfect cure for whooping-cough. 25

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE CO., [illegible], U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

RING UP 'PHONE 388.

When any accident to your steam, water or gas pipes arises or when your furnaces or boilers need repairs, or closets, tanks, baths or other sanitary appliances get out of order, I will promptly attend to all orders, having on hand a full supply of plumbers' and steamfitters' requisites. I am prepared to meet every want, possessing a practical knowledge of the trade. I am enabled to detect at once the defects and causes, and remedy them at very low charges. I am ready to furnish estimates for all kinds of heating, public buildings, churches, etc. Iron pumps, points and pipe furnished and wells driven.

BRANT-SERO IN TROUBLE.

Held in His Own Bail For a Month at Liverpool, England—A Terrible Explosion of Gas at Carberry, Man.

The fight with Cervera's squadron cost the United States Government in ammunition expended, $84,864.

The Union Loan Building, 28 Toronto street, was partially destroyed by fire late Sunday night. The loss will total about $60,000.

The 4-year-old daughter of Mr. and Mrs. James Mitchell of Vancouver, B.C., was fatally burned while playing with a fire Saturday.

Satisfactory arrangements have been made for the next general meeting of the Royal Society of Canada in Toronto during the last week of May.

Four men were drowned at Colt's Neck, near Freehold, N.Y., on Saturday, while at work trying to save a dam on the Neshanic River from being washed away.

Emperor William has issued an order directing that the commander of the German squadron in American waters shall henceforth be styled commodore. The commodore's ship shall hoist a special flag.

An explosion of gas in the furnace of the public acetylene gas building at Carberry, Man., caused a blaze Saturday night, resulting in total destruction of the plant and building. The loss is about $8,000.

While in a state of mental aberration, T. Girouard, a well-to-do farmer of St. Barnabe, P.Q., Saturday committed suicide by cutting his throat from one ear to the other with a razor. Financial troubles the chief cause.

The Toronto 48th Highlanders have been directed by the militia authorities to furnish a detail of forty non-commissioned officers and men and fifteen pipers to take part in the military tournament at New York City, on March 25 to 29.

Martin Mose fell while at work on Saturday morning in Seamen, Kent & Co's. blind manufactory, 1,139 West King street, Toronto, and sustained such serious injuries that death resulted about 14 hours later. Deceased was 41 years old.

There is a probability that Sir Liang Chen Tung will succeed Wu Ting Fang as the Chinese Minister at Washington. Sir Liang Chen Tung is now the first secretary of the Chinese Embassy which is to attend the coronation of King Edward.

The scavengers of Glasgow, 1,200 in number, have struck for higher wages. The streets of the city are littered with refuse matter, and ashes and garbage remain unremoved. Several collisions have occurred between the police and the strikers.

Mr. F. H. McGuigan, the superintendent, has been appointed manager of the Grand Trunk Railway System, and will have charge of the maintenance of way and transportation department. Mr. McGuigan will report direct to General Manager Hays.

John Ojijatekt Brant-Sero (late of Hamilton, Ont.)' giving an address in Liverpool, Eng., and describing himself as an anthropologist, was charged with neglecting to pay £76 due for maintenance of his child. He has been held in his own bail for a month.

According to advices from Caracas, the Mochist leader, Garbira, with a thousand men, nearly all of them Colombians, attempted a new invasion of Venezuela near La Frias, Feb. 24. After a bloody fight at Las Cumbres, the insurgents were completely routed.

Rupert Greville Williams, the inventor of a telo-pantograph, or system for sending copies of drawings by electric wire, has been found fatally shot in the greenhouse of his residence at Heywood, near Manchester, Eng. There is no doubt that Mr. Williams committed suicide.

John McKenna and Robert Ingle, employes of the C.P.R. freight sheds, Toronto, were nearly killed on Saturday night. While loading machinery, a ponderous weight, in being lifted by about half a dozen men, fell, and pinned McKenna and Ingle to the ground. They may recover.

A story comes by way of Chicago that when War Secretary Brodrick announced in the Commons Saturday that Gen. Dewet's son had been captured, he failed to impart to the legislators that the famous General Louis Botha had also been made prisoner—and had got away again. There is no confirmation of the tale.

About 10 o'clock on Saturday morning David W. Speedie, a Grand Trunk Railway car examiner, had his life crushed out under a freight train at the foot of Bathurst St., Toronto, The Hamilton train, under which he went when it came in, suddenly started. Death was instantaneous, as the wheels crushed his head.

Lieut.-Col. John Gray, ex-M.P.P., has announced himself as an independent candidate in West York in the coming provincial elections. He is opposed to the Ross Government and the referendum, and in favor of Government control of the liquor business, with fair compensation for those who are deprived of their licenses.

Water, Crackers and Gruel.

is the usual dyspeptic bill of fare. There are no sausages, no banquets, no little suppers and no fun. Take Merrill's System Tonic and get a healthy stomach, lots of vigour and then eat mince pie and cabbage with the rest of us. System Tonic is par excellence the most perfect tonic cathartic known. 50 pleasant-to-take doses 50c. Sold by Ormond and Walsh, druggists.

To Beautify the City.

"Mrs. Dash, what is your club doing to help beautify the city?"

"Oh, we are working hard to get the clothing houses to use the word 'trousers' instead of 'pants' in their advertisements!"

Like milk, eggs are a perfect food, containing all the constituents of nourishment.

Never Say Die.

You may be weak, miserable, nervous, sleepless, your digestion may be poor, and you despair. Never say die until you have used Ferrozone, the most wonderful blood maker, strengthener, and brain invigorator. It tones up the whole system. You can eat anything and digest it if you use Ferrozone. You sleep well; you make blood quickly; strength increases daily, and in a short time you are well. Try Ferrozone, which you can obtain at Ormond & Walsh's druggstore.

Three Hard Words.

There are three short and simple words, the hardest to pronounce in any language (and I suspect they were no easier before the confusion of tongues), but which no man or nation that cannot utter can claim to have arrived at manhood. These words are, "I was wrong."—Lowell.

The Fly in the Ointment.

Probably the worst thing about marrying a widow is the fact that somewhere in her cupboards and boxes she keeps her widow's veil to be in readiness in case she needs it a second time.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 cents. tu-th

THE POLICE CAPTAIN.

The police captain in New York is the czar of his precinct, and public virtue or vice prevails in his district in proportion as he is vigilant or lax in the enforcement of law. A police captain very quickly acquires a reputation among the criminal element in the city. If he is known to be easy going or crooked or a condoner of evil, if his own private life, represented by his talk, by his lax conduct off duty, shows him to be a man without high principle, the criminal element will flock to his precinct. On the other hand, the people of the rogues' gallery will naturally avoid the precinct of a vigilant and high minded police captain in the same way as the rats will scamper into their dark holes when a flood of sunlight is thrown in on them.

The proper estimate has not been placed, in my judgment, on the position and office of the precinct commanders. None but the best equipped men morally and otherwise should be chosen for this responsible position. Their salary should be made so large as to place them above temptation, and a strict account of their stewardship should be demanded.—Rev. A. P. Doyle in Outlook.

Not Ended.

"Ah," sighed he would be suicide, "here is where all my troubles come to an end!" And he sprang into the deep waters of the bay.

He was mistaken.

For the life preserver hit him in the neck, and he saw a million stars. The deckhand made a pass at him with a boathook and ripped a small sized crevasse from his waistband to his collar bone. Then they hauled him in, thumped him, doped him, rolled him over a barrel for half an hour and bustled him to the harbor hospital, after which he was arrested, fined $10 and roasted by the judge and kicked along the corridor toward the door. A dog bit him as he departed.

"Alas," he sobbed, "it is more trouble to die than to live!"

Is Not This Stealing?

Are not Imitators who Live on the Reputation of the Article They Imitate Thieves?

In Spite of at Least Half a Dozen Imitators, Dr. Chase's Syrup of Linseed and Turpentine has More Than Three Times the Sale of any Remedy Recommended for Throat and Lung Troubles.

Have you ever been imposed upon when asking for Dr. Chase's Syrup Linseed and Turpentine by being offered an imitation? Many have been and we know of some who have changed their druggist as a result. It is not safe to deal with a druggist who offers imitations and substitutes. An honest druggist will not offend his customers by such questionable methods.

The use of Dr. Chase's Syrup of Linseed and Turpentine has become so universal that on all sides are springing up preparations of turpentine and seed put up in packages similar to Dr. Chase's, with the object of making sales on the reputation of this famous remedy. Is not this dishonourable? Is it not stealing, or even worse? For beside the injury done to the proprietors of Dr. Chase's Syrup of Linseed and Turpentine, the people are being deceived. In some cases no doubt, even life is lost as a result.

Are you being deceived? Have you asked for Dr. Chase's Syrup of Linseed and Turpentine and been given an imitation or substitute? There is no doubt about the virtue of this great throat and lung remedy It is too well known as a thorough cure for bronchitis, coughs and colds, to need further words of commendation. What we want to do is to warn you against imitations. To be certain that you are getting the genuine be sure that Dr. Chase's portrait and signature are on the wrapper.

Dr. Chase's Syrup of Linseed and Turpentine has reached phenomenal sales, because it cures when other remedies fail. It is far-reaching in its effects, curing the cold as well as the cough, and uprooting the most serious forms of bronchitis, asthma, and similar throat and lung diseases. Tenty-five cents a bottle. Family size, three times as much, 60 cents. At all dealers, or Edmanson, Bates & Company, Toronto. 2

Repartee in the Classroom.

A member of the Harvard class of 1900 is responsible for the following:

The elucidator of the mysteries of chemistry was then Professor Job Cook, a very sedate man and never intentionally guilty of a joke.

One day in a recitation he said to a student, "Mr. Slack, how do you slack lime?"

The student, supposing the pun upon his name to be intentional, answered quick as a flash, "Cook it, sir."

Of course the class roared, but instead of enjoying the apt repartee the professor took it as a personal affront and reported Mr. Slack for a reprimand.

Squandered a Fortune.

How often we hear the expression, notwithstanding the fact that those who use it are perhaps spending their money foolishly in medicines which only give relief without removing the cause. Merrill's System Tonic cures heart, stomach, kidney, nerve and liver troubles—because by purifying the blood, regulating the bowels and toning each of these organs the cause of disease is removed. Price 50 cts. per bottle at Ormond & Walsh's drug store.

Why He Never Tired.

He had taken pains when he applied for work to assure the farmer that he never got tired. When his new employer went to the field where he had put the man at work, he found him lolling on his back under a tree.

"What does this mean?" asked the farmer. "I thought you were a man who never got tired?"

"I don't," said the hired man calmly. "This doesn't tire me."

DOANS KIDNEY PILLS CURE BACKACHE LAME BACK RHEUMATISM DIABETES Bright's Disease DIZZINESS AND ALL KIDNEY & URINARY DISEASES ARE CURED BY DOAN'S KIDNEY PILLS

Mrs. I. Steeves, Edgett's Landing, N.B., writes on Jan. 18, 1901: "In the fall of 1899 I was troubled with a severe pain in the back. I could scarcely get up out of a chair and it gave me great pain to move about. I took one box of Doan's Kidney Pills and was completely cured. I have not been troubled with it since."

HONOR TO THE QUEEN.

Late Lord Dufferin's Tribute to His Sovereign That Is Peculiarly Interesting Now Both Are No More.

Leaving Toronto Lord Dufferin proceeded to Montreal, where a series of public functions awaited him. Not the least interesting of these was the unveiling of the Queen Victoria monument in Victoria Square. Here his lordship delivered an oration upon the Queen, which, now that Her Majesty has left us, carries with it added interest. He spoke of the statue as "this breathing representation of that grace and dignity, that frank and open countenance, that imperial majesty of aspect which in her lifetime rendered the presence of the Queen of England more august than that of any contemporary Sovereign." "To you," he said, "I lay the charge of preserving for yourselves and the thousands that come after you this fair image of your Queen, this gracious impersonation of the majesty of Britain, this stately type and pledge of our imperial unity, this crowned and sceptred symbol of those glorious institutions which we have found so conducive to the maintenance of individual liberty and of constitutional freedom." Then followed a personal appreciation of the Queen:

"It was my good fortune in early life to be allowed to serve near the person of the Sovereign. At that time no domestic calamity had thrown its ineffaceable shadow across the threshold of her home. It was then, as a spectator of her daily life, its pure joys, its refined and noble occupations, its duties never neglected, but their burdens shared by the tenderest of husbands and the most sagacious of friends, it was then that I learned the secret of that hold which Her Majesty possesses over the hearts of her subjects in every part of her extensive Empire. And in later days when death had forever shattered the visions of her early happiness and left her to discharge alone and unaided, during the long years of widowhood, in the isolation of an empty palace, the weighty and oppressive functions of her loyal station, renewed opportunities were afforded one of observing with what patience, patriotism, and devotion to the public service her brave and noble nature bore each burden and discharged each daily task. From gaieties, from the distraction of society, the widowed Sovereign may have shrunk, but from duty never. When, therefore, you cast your eyes up to this work of art, let the image of the woman, as well as of the Queen, be enshrined in your recollection, and let each citizen remember that in her whose sculptured lineaments he now regards he has an example of prosperity borne with meekness, of adversity with patience, of the path of duty unfalteringly followed, and of a blamelessness of existence which has been a source of pride to every English heart, and has shed its holy light upon a thousand British homes."

A Riddle Making Epoch.

There have been epochs at which riddle making has been more especially in vogue, and such epochs would appear to occur at seasons of fresh intellectual awakening. Such an epoch there was at the first glimmering of new intellectual light in the second half of the seventh century. This was the age of Aldhelm, bishop of Sherborne, the first in the roll of Anglo-Latin poets. He left a considerable number of enigmas in Latin hexameters, and they have been repeatedly printed.

Aldhelm died in 1709. Before his time there was a collection of Latin riddles that bore the name of Symphosius. Of this work the date is unknown. We only know that Aldhelm used it, and we may infer that it was then a recent product. The riddles of Symphosius were uniform in shape, consisting each of three hexameter lines.

Dumas, Father and Son.

A story is told about the two Dumases, father and son, which illustrates the pleasant relations between the two. The son had written his first successful novel, and the father wrote him a letter of congratulation, which he began in the formal manner of "Dear Sir." This letter throughout read as though addressed to a total stranger and merely thanked the author for the pleasure the book had given him. Dumas fils answered in this manner:

Sir—I thank you most heartily for your kind letter. Praise from you is especially appreciated by me, as I have always heard of you as the most enthusiastic admirer of my father, who also makes some pretension of being a novelist.

The Highest Balloon Altitude.

Dr. Berson and Dr. Suring of the Berlin Meteorological institute reached in a balloon ascent the highest altitude on record. They first went up to the height of 30,000 feet, losing consciousness for brief intervals. In spite of the risk they continued to ascend to 33,700 feet, when one of them became completely unconscious and could not be aroused. The other aeronaut, after making a great effort in opening the valve to descend, also became insensible, and neither of them recovered till the balloon dropped to 16,000 feet, at the end of an hour's time.

Marriage in Arabia.

With the Arab a first cousin of the gentler sex holds an option on the young man, and if he desires to wed outside of the family he must first renounce her and secure his release. The next in line is his deceased brother's widow. As Arabia and Turkey are polygamous countries there is often a chance to provide for several who may have first claims on the bridegroom.—Woman's Home Companion.

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—

What Makes the Home?

Not the house, however fine it may be; not its furniture, pictures and appointments. The wife and mother makes the home, and to speak of going home means to go back into the shelter of the mother's love and care.

And when womanly ills sap the mother's strength, the home-life suffers. The food is not cooked as she cooks it. Everywhere the lack of wifely supervision and motherly thoughtfulness is apparent.

What a change, then, when this wife and mother comes back to take her old place in the family. Thousands of women who, because of womanly ills, had been shut out of home life and home happiness, have been enabled to once more take their place in the family after being cured by Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"I commenced taking your 'Favorite Prescription' and 'Golden Medical Discovery' about the 10th of last December, one year ago," writes Mrs. Eliza Wright, of Mountainview, Howell Co., Missouri. "I have been very slow about writing to you, although I am thankful I am here to-day and have the privilege of saying I thank you a thousand times for your kind advice. I can truthfully say that it was through your kind advice and your medicine and the will of the Lord that I am living to-day; I am in better health than I have been for three years. I have taken one-half dozen bottles of each medicine. I am able to do my washing for four in family, and all my housework, cooking and milking. In fact, I feel like a new woman."

Dr. Pierce's Pleasant Pellets cure constipation and its almost countless consequences. They do not react on the system nor beget the pill habit.

THE SLAIN.

Partners in uncommemorative doom,
Peers in oblivion's commonalty merged;
Unto like deeds by different mandates urged,
And equalled in the irrespective tomb;
Leal or perfidious, cruel or tender, whom
Precipitate faith hath of your frailities purged;
Whom duly the same visiting winds have dirged,
In autumn or the glorying vernal bloom;
Already is your strife become as nought,
Idle your cannon's fire and bayonet's thrust,
And ye placated that so fiercely fought;
Your feud left for a little loam to adjust;
All to this parity of ashes brought,
And cold adjudication of the dust.
—William Watson, in The Speaker.

What the Indian Eats.

The typical Indian home of today consists of a mud chinked log shack, a tepee or two, usually a hay barn and sometimes a corral. As a general rule, they live in squalor, yet many Indians possess nice homes and enjoy well cooked meals from neatly set tables. But the ordinary Indian eats meats largely of questionable character. He delights in dog stew and other savory dishes. He has excellent teeth and an envied digestion.

Indian children are shy and close mouthed to strangers, but the squaws are often loquacious. Their doors are always open to visitors. The red man has an aversion for soldiers and frankly tells them that he does not fear them. Although he possesses an excellent constitution, disease finds in the Indian an easy victim.

Whitman's Little Jokes.

One Sunday morning Whitman came out to see me on Prospect hill, in Somerville, where I was then living, says J. T. Trowbridge in The Atlantic. Of much of that day's talk I have a vivid recollection, even of its trivialities. He was not a loud laugher and rarely made a joke, but he greatly enjoyed the pleasantries of others. He enjoyed especially any allusion, serious or jocular, to his poems.

When at dinner, preparing my dish of salad, I remarked that I was employed as his critics would be when his new edition was out, he queried, "Devouring 'Leaves of Grass?'" "No," I said; "cutting up 'Leaves of Grass,'" which amused him more, I fancy, than the cutting up did, which came later.

As the afternoon waned and he spoke of leaving us somebody placed a book before the face of the clock. I said, "Put 'Leaves of Grass' there; nobody can see through that." "Not even the author?" he said, with a whimsical lifting of the brows.

The Romans Did Not Use Soap.

The Romans were not acquainted with the use of regular soap, but they employed an alkali, with which the greasy dirt was dissolved out of their clothes. This alkali, called nitrum, is referred to by Pliny, but the cheapest solvent was urine, which was mostly used. The clothes were put in this, mixed with water and then stamped upon with the feet. This process was performed by old people, while boys lifted the clothes out of the tubs. The white garments, after being washed, were subjected to the vapor of sulphur, being stretched on a frame and the sulphur burned beneath. Poor people in Rome cleansed their bodies with meal of lupins, called lomentum, which, with common meal, is still used in some places for that purpose.

Worse Than That.

"I am told, sir, that you spoke of me as a common liar."

"Whoever told you that, sir, must have been trying to break it to you gently. I said you were a whole bureau of statistics."

Good Hearted Busybodies.

There are thousands of good people in this world who, having very little trouble in managing their own affairs, spend their leisure hours in making plans for their neighbors and constitute themselves self appointed general managers of other men's lives.

Anything more positively aggravating than the disclosures of these schemes can hardly be conceived when they are made to reticent, thinking persons who are using every effort to control the circumstances which surround them to the best advantage. To have concentrated every energy to the amendment of adverse influences and then have some eager, energetic friend come upon you suddenly and ask you, much as if waking you from a lethargy, "Why don't you do thus and so?" is a severe test of your temper and your affection for the speaker.

But, after all, it was kindly meant, and these good hearted busybodies, whose "fad" is the regulating of their friends' families, meant to lend you a helping hand. We are taking away what stands to them in the place of a full purse and the use of an uplifting lever when we refuse to listen.

A Scientific Voice Improver.

Because of its strengthening influence upon the vocal chords, Catarrhozone cannot be too highly recommended as a wonderful voice improver. It almost instantly removes huskiness or hoarseness, thus insuring clearness and brilliancy of tone. Catarrhozone keeps the mucous surfaces in perfect condition, and its regular use absolutely prevents colds and throat irritation, thereby removing the singer's greatest source of anxiety, unfitness of voice. The most eminent speakers and Prima Donas would not be without Catarrhozone and credit in no small degree their uniform strength and brilliancy of tone to its influence. The hard rubber inhaler fits conveniently into a purse or vest pocket, and may be used in the church, theatre, any place or time. Complete outfit $1. Small sizes 25c. Druggists or Polson & Co., Kingston, Ont.

How She Knew.

A young lady has just finished playing a selection from "Faust."

Old Lady—How nice! I always did like "Home, Sweet Home."

Young Lady (with a start)—"Home, Sweet Home?"

Old Lady—Yes. Minnie plays it. I can always tell it when she crosses her hands.

His Start.

Ascum—What's that boy of yours doing now?

Poppers—He's got a job in the bank, and he's going to be president of that bank some day.

Ascum—Bright, eh?

Poppers—Well, sir, he can sign his name so nobody on earth can make it out.

The Agony of Sleeplessness.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of nervous exhaustion and Debility. You can be thoroughly and gradually cured of sleeplessness by the upbuilding influence of Dr. Chase's Nerve Food. It cures in Nature's way, by creating new nerve cells and restoring lost vitality.

Censure and Criticism.

Censure and criticism never hurt anybody. If false, they cannot hurt you unless you are wanting in manly character, and if true they show a man his weak points and forewarn him against failure and trouble.

Consoling the Old Lady.

Old Lady (despondently)—Well, I shall not be a nuisance to you much longer.

Nephew (reassuringly)—Don't talk like that, aunt. You know you will!—Punch.

How He Spelled It.

He—I thought you looked charming last night.

She—Oh, now, did you really?

He—Yes. Why, I could hardly believe it was you.

The Height of Politeness.

Cleverton—Since you have been calling on Miss Pinkerly how have her father and mother treated you?

Dashaway—Splendidly. I haven't often met them.—Judge.

349 George St., Peterborough.

PRESENTATION OF PRIZES

To Pupils who Have Won the Awards Offered by the W. C. T. U.

The cash prizes donated by W.C. T. U., for the pupils who obtained the highest number of marks in the study of scientific temperance in the public schools during 1901, will be presented at a public meeting to be held at the Y.M.C.A. hall on Tuesday evening, March 4th, beginning at 8 o'clock.

The clergymen of the town and other leading citizens have been invited to take part.

Short addresses will be given and good music may be expected. An urgent invitation is extended to parents and teachers to be present. A collection will be taken up at the close of meeting.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

T. A. S. NOTES.

Temperance Topics That Treat of Total Abstinence Work.

A total abstinence society has been inaugurated in Ennismore with a splendid membership.

The membership of St. Peter's T. A. S. is increasing with leaps and bounds.

Great activity prevails among the members of the athletic section of the Society. Indications point to the fact of their being a first-class base ball nine and a lacrosse twelve organized this season.

Workmen are at present engaged in fitting up a new reception room in the apartments of the Society. When the alterations are completed the Society will possess model quarters for the reception of visitors.

St. Peter's T.A.S. is out after the magnificent banner to be awarded at the next convention to be held in Dubuque, Iowa, to the Society having the largest membership. St. Peter's T.A.S. and the Cathedral branch in Dubuque are now neck and neck in the race. The St. Peter's T. A. S. slogan is:—"Capture the banner, Dubuque, 1902."

The new lecture hall of the Society, when completed, promises to be the finest in town. Carpenters are at present engaged in finishing up the alterations and when completed further reference will be made to the improvements. The work being done in connection with the hall, will not, however, interfere with Rev. Dr. O'Brien's illustrated lecture on "The Churches of Italy," this evening. A canvas has been placed in position, and Mr. R. M. Roy will manipulate the stereopticon machine. A good programme it is understood has been prepared.

The dramatic section of the T.A.S. has at last got down to hard plugging on the comedy-drama, "Kathleen Mavourneen," which will be produced in Bradburn's opera house on St. Patrick's night. The members of the caste have been handicapped, in regard to quarters for rehearsing, owing to the extensive improvements being made in the rooms of the Society, and are at present endeavouring to make up for lost time.

PROHIBITION.

God gave the garden of Eden, He gave one evil tree,
From this tree you were forbidden, all other things were free.
Adam and Eve eat of the tree, so now in sin are we.
Prohibition will act the same, as far as I can see.

We can't prohibit anything, in this sinful world here,
But we can make the prices cheap or make them very dear,
Of all the evils choose the least, let prohibition be,
Make alcholics very dear, so let them go Scott free.

God gave you all things for your use, He gave the devil too,
If you should use them to seduce, its all the worse for you.
He gave the devil for your use, to make you better men,
Then guard your souls from all abuse, until the end, Amen.

JOHN BELL.

Peterborough, Feb. 25th, 1902.

CHURCH CHIMES.

ST. PAUL'S.

At St. Paul's church yesterday Miss Clara Belleghem sang very sweetly, the selection, "Beyond the Gates."

A quartette, consisting of Messrs. Crane, Milne, Dawson and Mein rendered a number very acceptably.

Rev. Mr. Wilson, of Knox College, occupied the pulpit in St. Paul's yesterday.

CHARLOTTE STREET CHURCH.

Rev. D. O. Crossley's monthly song sermons have become very popular in Peterborough as evidenced by the very large congregations which attend on such occasions. His address last evening on "Save the Boy" was of absorbing interest and a synopsis of it will be published in to-morrow's issue.

ALL SAINTS' CHURCH.

The Vestry and congregation of All Saints will meet this evening at 7.30, for the purpose of selecting a representative to the Nicholls Hospital Board.

Canon McNabb will give an illustrated lecture in the church this evening.

That beautiful anthem, "But the Lord is Mindful," was given by the choir last evening during the offertory.

Rev. W. L. Armitage, continuing his series of sermons from the words on the Cross, spoke last evening on "My God, My God, why hast Thou forsaken Me?" His very eloquent address was listened to by a congregation which crowded the church to the doors.

ST. LUKE'S CHURCH.

In spite of the inclement weather large congregations were present both morning and evening. The singing and responding were hearty, as it is always at St. Luke's.

In the morning the Rector preached on "Tears of Love," the continuance of his course of sermons on "What the Tears Speak."

In the evening the subject was "Home Influence." The homes of many so-called Christians came in for severe criticism. The speaker pointed out what the homes of Christians ought to be as contrasted with what they are. Because of the mother idling away her morning hours, as in many cases, with gossiping, and spending the afternoons with "society calls," rushing from one amusement to another, and leaving to others what she ought to do herself, the home becomes uninviting and dull, and the husband and sons thereby are driven to the street, the public house or the club. Mr. Langfeldt also dwelt on the unhappy relationship existing between master and mistress and their servants. If the employers would only consider the feelings and personal individuality of their servants, the home life would be infinitely superior to its present standard. But all home-omissions are due to the absence of prayer in the homes. Each room ought to be a little sanctuary, the Shechinah, the family altar, would soon give to our homes the presence and life of the Lord Jesus Christ. But while people are inconsistent at home, while they refuse to honour God at home, it is no wonder that they are inconsistent in public.

Baby's cold may be cured in a night by using Vapo-Cresolene, which has been extensively in use for twenty-four years. All druggists.

You Taste With Your Throat.

The idea that the sense of taste has any connection with the throat appears peculiar at first thought. We have been possessed with the notion that the sense of taste lies in the tongue and the palate. We all speak of a fine palate, and many persons express astonishment that they can enjoy a delicacy as well after having had a plate fitted to their mouths by a dentist as they could before they paid a visit to that clever gentleman.

The sense of taste is not confined to the tongue and the palate, but is more widely distributed. You taste also with the epiglottis, that little valve at the base of the tongue, and the larynx, to which the epiglottis acts as an assistant, also takes part in the process. Concerning the palate, it is noteworthy that we taste with the soft part, which is at the back of the mouth, but not with the hard or front palate. That explains the mystery of the dental plate. The tonsils do nothing for the sense of taste, nor does the uvula.

His Position.

An exchange tells of a godfather who when asked in the course of the service if he believed what all Christians hold as the essentials of the faith answered with emphasis, "I renounce them all," to the consternation of the parson and all the witnesses.

REMNANTS OF TWEEDS.

H. LeBrun & Co. have just received another large consignment of Remnants of Tweeds direct from the Mill, which they secured at mill-end prices. These Remnants come in three-quarter yard to suit lengths, and will be sold at less than half the regular web prices. No better chance was ever offered so near the spring season to buy a whole suit, or part of a suit, at a bargain. Mothers will find what they want for Suits, or parts, for their boys at lowest prices.

A number of applications for remission of taxes for various reasons were discussed.

Upon motion of Councillor Johnston seconded by Councillor Sheridan, the following remissions were made:—Messrs. John Rice, dog tax; George Stethem, dog tax.; Messrs. J. McClintock, T. Robinson and Robert Routley, poll tax; John and Mary Kelly, their taxes for 1901; Cereal Co., an overcharge of $2.

Messrs. W. H. Meldrum and W. G. Ferguson, of the Otonabee Power Company, appeared before the Council to ask that their Company be allowed to place a line of poles along Douro street to Driscoll Terrace, down Driscoll street to Elizabeth street and along Elizabeth street to the bridge. They stated that the Company would assume all responsibility arising from accidents, etc., and would pay the usual rental.

The matter was disposed of by the following motion, which was moved by Councillor Johnston, seconded by Councillor Sheridan:—That the Company be allowed to erect a pole line along the streets mentioned under the following conditions,—The poles to be of uniform size and height, and to be placed along one side of the street. The poles to remain as long as they are required for power and light purposes. The Street Inspector and the chairman of the Road and Bridge Committee appointed to lay out the route. The Company to pay a rental of one dollar per pole per annum. The Village Solicitor is hereby instructed to draw up an agreement giving this the power of a bylaw."—Carried.

Messrs. Adam Hall and R. R. Hall addressed the Council regarding the objects of the Trent Water Conservation. They asked that the Council send a delegation to Ottawa in conjunction with the Town Council to interview the Minister of Railways and Canals, regarding the advantages to be derived by the taking over of certain dams by the Government.

Upon motion of Mr. Sheridan, seconded by Mr. Pollock, Mr. Johnston was appointed a representative from the Ashburnham Council on the delegation that will go down to Ottawa in the interests of the Trent Water Conservation Association.

Council then adjourned.

LABOUR UNION.

Special Meeting of Peterborough Federal Union No. 6268.

Notwithstanding the very short notice given of the special meeting of Peterborough Federal Union No. 6268 in the Foresters' Hall, Simcoe street, last night, the members rallied to the call in large numbers.

President Henry opened the proceedings shortly after 8 o'clock, and briefly explained the nature of the meeting and the causes for calling it so hurriedly. He said he was anxious to take advantage of the presence in town of two of the oldest and best informed exponents of the labour movement, Mr. J. A. Flett, organizer for the American Federation of Labour, and Mr. R. Glockling, secretary of the Ontario Bureau of Labour, in order to have the benefit of their advice regarding various matters affecting the welfare of the union. He was glad to say that since these gentlemen arrived in town, matters had been adjusted that had caused some anxiety a few days before, and he hoped everything would now go on smoothly in future. He then called on Mr. Flett to address the meeting.

Mr. J. A. Flett gave the members a lot of good information and advice regarding the best policy to be pursued on vital questions that might arise from time to time in the union. He congratulated them on the remarkable growth of their membership, and suggested the best means to be adopted in order to overcome the danger of becoming too large or unwilling to be properly handled by one set of officers.

Mr. R. Glockling also gave some valuable preauutionary advice along the same lines.

He urged upon them the necessity of studying the labour movement quite closely and intelligently, so as to deal with matters as they arise, but what justice would approve between man and man.

Mr. Flett also read and explained the provisions of the Preston Conciliation Bill now before the Ontario Legislature. He pointed out that this bill would be a great advantage in preventing strikes. As it provided for a Board of Arbitration to endeavour to adjust questions in dispute before a lock-out or a strike could be declared. This Bill was receiving the strong endorsation of the various Trade and Labour Councils in the Province, and he thought this Union should pass a resolution approving of the measure.

It was then moved by Mr. Gunn, seconded by Mr. Gibson, "That this Union heartily endorses the provisions of the Conciliation Bill now before the Ontario House, and that the secretary be instructed to forward a copy of this resolution to Mr. Preston, the promoter of the Bill." —Carried.

At the suggestion of Mr. Flett, the teamsters and carters belonging to the Federal Union have organized into a separate Union of their own. About forty names were enrolled on the spot. Mr. George Brisbin was elected president, and Mr. Thos. Williams, secretary.

Mr. Flett remained in town to-day to complete other organizations that require his assistance.

THE MILL-END STORE!

Fed with these Mill "Feints" or Ends by the largest Canadian and foreign manufacturers. We don't wish to mislead the people and have them think that this store has only Mill Ends—for there is no better assorted Dry Goods stock in Canada, considering the size. Most Domestic made, and Some Foreign. Goods are "made up" into stipulated lengths for convenience of handling and reckoning. In consequence of this, if the yarn on the loom is more than enough to weave this certain yardage, the extra piece is cut off, and constitutes a "Mill Feint."

These Feints or Ends run usually from 1 yard to 10 yards in length, and are sold to us in bulk. The preparation of getting these ready for sale means much work, yet when we can save our customers from 25 per cent to 50 per cent. on useful and usually staple goods, we are only too glad of this labour.

This store always has something or other in this way, and Wednesday you can see represented here an object lesson of the above talk, when we will sell—

NEW POWER HOUSE.

The Canadian General Electric Company now Supplying its own Power.

The first electric current to be transmitted from the Canadian General Electric Company's new, power house at Nassau, to their works in town, was generated yesterday. Only one water wheel was set in motion, the second wheel not yet being in running order. There was about 250 horse power transmitted over the wires although it was possible to transmit about three times that amount. The power station with all its equipment will be in full running order in the course of a few days.

The Canadian General Electric Co. can pride themselves on having an up-to-date plant in every particular. It was under great difficulties that the power house was built, owing to the peculiar location. However, under Contractor Wood's supervision the work has gone rapidly on of late, and the company has reason to feel proud of their new plant.

THE MACCABEES

Held a Special Evening Last Night—Dr. Mallory was Here.

Peterborough Tent, No. 69, Knights of the Maccabees, gave a very enjoyable entertainment in their rooms last night. There was a large attendance and a delightful programme of songs, recitations, etc., was rendered. However, the feature of the evening was the short address on the merits of the Order by Dr. Mallory, of Port Colborne, the Supreme Physician for Ontario.

The following ladies and gentlemen contributed to the programme: Miss Dunlop, Miss Long, Miss M. Titterson, and Mr. Jas. Browne. Miss L. A. Irwin, the Lady Organizer, who has been in Peterborough in the interests of the Order during the past week, gave an interesting address. She has been successful in adding 18 new members to the membership of the Peterborough Tent.

The entertainment concluded last night with a successful informal dance.

THE CHURCHES OF ROME.

Illustrated Lecture by Rev. Dr. O'Brien Last Evening.

The new lecture room of St. Peter's T.A.S. was crowded to its fullest capacity last night with an audience that went away thoroughly delighted with the evening's treat.

The illustrated lecture by Rev. Dr. O'Brien was entitled "The Churches of Rome," and when the fact is taken into consideration that there are over four hundred sacred edifices in the Eternal City, an idea can be obtained of the nature of the lecture, and of the beauty of the views of the different churches in that famed city.

Mr. R. H. Roy handled the stereopticon last evening and for over two hours the reverend doctor held the undivided attention of his hearers, as he started on his visit and description of the many beautiful churches, beginning first with the Vatican. The new hall is excellently adapted for an illustrated lecture, and so vivid was the description and so realistic and natural the views, that one almost fancied themselves walking through the Eternal City. Excellent views of the great Coliseum were also shown and a history of this great structure was graphically given. Together with these life-like views of our Redeemer and His Blessed Mother, from paintings of Raphael, were shown on the canvas, as were also His Holiness the Pope, Cardinal Rampolla, his Secretary, His Lordship Bishop O'Connor, and Rev. Father McColl, the Canadian College, the College of the Propaganda, the Quirnal, etc.

Mr. Fred Deropher occupied the chair during the evening, and the views were interspersed with a choice programme, consisting of a vocal duet by Mr. and Mrs. Geo. Ball, vocal solo by Miss Annie Simons, recitation by Miss Carrie White, and vocal solo by Mr. Joe Beyett. Miss Maggie Doherty was the accompanist of the evening.

Rev. Father McColl at the conclusion of the lecture, thanked Rev. Dr. O'Brien for the treat provided, and congratulated the society upon the success it was achieving.

New Postmaster.

Mr. John Pearson has been appointed postmaster at Selwyn in the room and stead of Mr. Jas. Bell, resigned.

ORMOND & WALSH
DRUG STORE.

One of our best medicines, which is prescribed by physicians is

EMULSION OF COD LIVER OIL

GOOD FOR EVERY DAY!

(Successor to Ormond & Walsh.)
Corner Simcoe and George Streets.

DON'T DO IT.

Don't present your wife, your sweetheart, or your friend with a worthless box of Bon Bons. Give them the best only. To do this, the Bon Bons must be McKenzie's—the only place in Eastern Ontario where satin finished Bon Bons can be procured. Every one who receives a box of our goods are always more than pleased. Examine them before buying elsewhere. A glance at our window will convince you of their high standard. Manufactured and sold only at

McKENZIE'S
Peterborough's Modern Confectionery Store, Grand Central Block.

Daily Examiner.

London (England) office—168 Fleet street, E. C., Central Press Agency Limited, Special Agents.

TUESDAY, MARCH 4, 1902.

EDITORIAL NOTES.

Like the snake, the Mail and Empire has just performed the feat of swallowing itself, and comes out strongly against party politics being introduced into municipal affairs. The Conservative organ says: "So long as the people place the city before party, we must continue to progress in good government. We hope the time will never come when there shall be such a declension of municipal loyalty that a majority of Tories or a majority of Grits in the Council can make that body a mere wheel in a party machine. The city is big enough to develop lines of its own on which the citizens may divide." It is now up to the Review to turn a somersault and get into line with the senior organ.

Wouldn't it be as well for the Tory press to hear the opinion of the delegation from New Ontario before pronouncing against the increased representations given to that portion of the Province. The members of this delegation which is now in Toronto, state that the Government has given them exactly what they asked for in regard to the manner in which the district should be divided to give proper representation. In connection with the cry raised against the increased representation granted the London News, (Con.-Ind.), says: — "Supposing representation were to be absolutely governed by population, what would be the result? In a section like Northern Ontario, one man would be compelled to represent practically the whole territory, and this would neither be fair to the representative nor to the constituency. Premier Ross, like all Governmental leaders, may be looking after his own interests in giving New Ontario four new members, but he is quite justified in what he has done. New Ontario is rapidly assuming importance, and that it should be adequately represented in Parliament no sensible man will deny."

CRITICIZING THE LABOUR GAZETTE.

When the estimate of $13,450 for the Department of Labour came up in the Commons on Thursday, Messrs. Brock, Ingram, and Casgrain, Conservative M.P's., took exception to the conduct and cost of the Labour Gazette. Mr. Brock contended that only the labour side was presented in its columns, Mr. Ingram said that the manufacturers were dissatisfied and had declared by resolution that the Gazette was not a particle of use to the manufacturing interests, as they were not permitted access to its columns, while Mr. Casgrain considered the amount paid to correspondents—$100 a year—altogether too high, and critised the salary of the deputy head, Mr. King.

Mr. Mulock replied that the item disputed covered all the Labour department's work, including the administration of the alien labour law, the fair wages clause, and the conciliation work. The intention in establishing the Labour Gazette was to follow the precedent set by The Labour Gazette of Great Britain, that it should not be the organ of any person; but confine itself strictly to statistics and facts, thus making it as valuable to one class as to the other. As to Mr. King he was a valuable officer, who was making a personal sacrifice to serve Canada, as he had received tempting offers to go to the States, one offer being to take the chair of political science at Harvard University. Mr. Puttee also stoutly defended The Labour Gazette, and thought a paid subscription list of 4,000, considering that it was a Government publication, was a remarkable record. Probably one of the best compliments paid to The Gazette was the resolution of the Manufacturers' Association, which had been quoted. Some of the manufacturers had openly stated that they consigned all communication from The Labour Gazette to the waste paper basket, and if The Gazette treated their communications in a similar way there would, of course, be a deadlock. Some fault had been found with The Gazette because of the colourless nature of its articles, but there was a good deal to be said, perhaps, for the argument offered by the Minister of Labour as to the proper function for it to fulfill, Mr. Puttee concluded. The item passed.

It seems rather a remarkable exhibition of unfriendliness to the labour cause that a small item like $13,450, specially for the labour interests of the country, should have such critism, while much larger expenditures and favours for the benefit of other interests pass comparatively unchanged.

TANKAGE AS A FOOD FOR PIGS.

In view of the rapid extension of growing, and the consequent establishment establishment of pork-packing houses in all parts of the country, a recent bulletin (No. 98) of the Indiana Experiments Station, regarding the value as a food for swine, of the packing-house bye-product, known as tankage, may be of interest. According to the above bulletin, tankage offers considerable advantage as a feeding material for pigs. It contains a high per cent. of protein, and an amount of phosporic acid that materially excels that found in any grain or bye-product of mills. The phosphoric acid for pigs is useful in building up bone structure, and this is an important feature with our pigs to-day, while the protein has a value universally recognized by feeders.

An extensive breeder of swine in Indiana thus describes the character of this product,—

"Especially with young pigs; one finds some feed of great advantage that is rich in all the nutrients required, that is easily digested, and especially palatable.....A years experience with tankage shows it the ideal feed for this purpose. Blood, lungs, etc., are cooked together in tanks at the large packing-houses. The fat is drawn off, and the residue is dried and ground for hog feed. It costs about $25 per ton laid down at my home, contains about double the protein found in oil meal, and is a very much better food for pigs. It seems to be a perfect substitute for milk, a pound of the tankage costing less than a cent and a quarter, and having a feeding value equal to about three gallons of skimmed milk. A mixture of thirty pounds of corn to 10 pounds each of wheat middlings and tankage, makes a very well balanced ration for pigs up to four months old. A very good ration for older pigs or hogs may be made by reducing the middlings and the tankage fully one-half in proportion to amount of corn. Tankage dissolves almost immediately when put in water, and should be fed in slop. Pigs fed upon tankage show great muscular and bone development, have ravenous appetites, and are especially free from gouty and rheumatic troubles. Tankage is so dry that there is no danger from worms or from decomposition, and has been so thoroughly cooked that one takes no risk from contracting disease in his herd from feeding it."

A quantity of tankage was supplied the Station at the requuest of the Director, by Swift and Co., of Chicago, for feeding swine. This tankage was especially prepared for the purpose, being made from bones and meat, taken from the cutting room, tanked immediately, and pressed and dried. A representative of the above firm wrote that "If tankage can be used at all for swine feeding, it must be specially prepared. The writer's opinion is that no tankage that contains any part of the intestines, etc., should be used for this purpose." A sample of this tankage showed the following composition,—

Moisture, ...	8.53 per cent.
Protein	49.81 per cent.
Ether Etract	16.78 per cent.
Crude Fiber	4.78 per cent.
Nitrogen, free extract	5.06 per cent.
Ash	15.04 per cent.
Total	100 per cent.

To determine something of the value of tankage in a swine feeding ration, an experiment with a fairly uniform lot of pigs was begun and continued for 127 days. The animals fed consisted of 16 head of young pigs, divided into lots of four each. These were all pure bred animals, and averaged about sixty pounds each at the beginning of the test. The foods used were as follows;

Lot No. 1.—10 parts of pure corn meal and one part tankage.

Lot No. 2—5 parts of pure corn meal, and one part tankage.

Lot No. 3—Pure corn meal only.

Lot No. 4—10 parts of a mixture, in equal proportion of pure corn meal and shorts, and one part tankage.

The food was weighed out at feeding time, and mixed with water, forming a medium thin slop, about two parts of water to one part grain being used. The grain was not cooked, but the chill was removed from the water before mixing to make the slop. The grain and tankage were thrown together in dry form, and the water then added. The average daily gain as made by each lot was as follows;—

	Daily Gain.	Cost Per 100.
Lot No. 1—	4.63 lbs.	3.80
Lot No. 2—	4.81 lbs.	4.00
Lot No. 3—	3.68 lbs.	5.30
Lot No. 4—	4.95 lbs.	3.60

The above results show that the influence of the tankage in supplying protein, to what would have been otherwise a very carbonaceous ration, was extremely beneficial in the growth of pigs, as well as in financial results. With Lot No. 4 there is a difference of nearly two cents between cost of feed per pound of grain, and in the price received per pound live weight, while the difference in this respect with Lot No. 3, corn fed, is very slight indeed.

The firmness of the flesh of Lot No. 3, was not quite as good as that of the tankage fed lots. This was fairly noticeable.

The condition of these experimental fed pigs during the feeding was of much interest. Those of Lots No. 1, 2 and 4, where tankage was fed, had noticeably silkier coats of hair, and the appearance of the skin was fresher and more mellow than that of the corn fed lot. The corn fed animals did not eat with a keen relish after the experiment was fairly started, while the other pigs always did, and therein a marked difference was to be seen. The corn fed pigs developed into very poor feeders, and this was due to the feed.

The conditions of the stomachs of the corn fed pigs was of unusual interest. These contained sour, offensive smelling corn meal only, which seemed a sodden mass. Certainly the contents of the corn fed stomachs was inferior in a noticeable way, when compared with the others.

In conclusion, this experiment strongly emphasizes the weakness of using corn meal in feeding growing, fattening pigs, and indicates the great value of adding a feed rich in protein to the corn, thus producing a better balanced ration, and securing more desirable results in both health and growth.

F. W. HODSON,
Live Stock Commissioner

THE BROTHERHOOD CHURCH.

Community in Norfolk Opposed to Further Peopling of the World—Count Tolstoi's Rules.

London, March 4.—Count Tolstoi's illness calls to notice a small community of professed disciples in a Norfolk village styling themselves the Brotherhood Church. The members are forbidden to give or to receive money. They work for a living, but accept payment only in kind. All property is held in common. They are opposed to matrimony and the further peopling of the world. The community numbers about 120 persons, and has been in existence five years. Though some members have fallen away, it attracts new members and maintains a strong vitality.

Tolstoi's Rules.

These are the marriage rules of Count Tolstoi, upon which the society is founded:

1. Those who are firm and strong enough to overcome temptation and weakness should not marry at all, but remain absolutely chaste.

2. Those who cannot live up to this rule of Christian conduct should marry and be as chaste as possible—have few children, live with their wives not as lovers, but as brothers with sisters; and they should educate their children, discouraging marriage and training them for celibacy.

3. The married should regard themselves as sinners, but as sinners whose fall is not irremediable, and who are still able to promote the Christian ideal within their marriage relation.

Malt Breakfast Food

Is the Ideal Breakfast Cereal for Old and Young in Springtime.

Now that spring is coming, sensible men and women will naturally give full attention to health building as far as proper dieting will conduce to the desired end.

If you are a user of oatmeal, grits, hominy or cracked wheat, you should give them up and use Malt Breakfast Food, a perfect health food, free from indigestible ingredients and the stomach-irritating properties peculiar to other grain foods.

Users of Malt Breakfast Food are notably free from skin diseases, eruptions and blood troubles which invariably afflict thousands who use oatmeal in spring and summer. Malt Breakfast Food conduces to pure blood, good digestion, increased strength and general physical happiness. It is the ideal morning food for old and young in springtime. Ask your grocer for it.

Woodstock Engineer Dead.

Woodstock, March 4.—The death occurred yesterday afternoon of Charles Lockey Beard, who was the oldest and last of a family well-known here for several generations. Deceased was 81 years of age, and the son of the late Chas. Beard, who came to Woodstock 60 years ago. For some time deceased was engaged as engineer on the construction of the Great Western Railway. In 1865 he was made secretary-treasurer of the Oxford Permanent Loan Co., and held that position until two years ago, when he retired. He is survived by a widow and two children.

Germany Is Not Concerned.

Berlin, March 4.—In the Reichstag yesterday, the Imperial Chancellor, Count Von Buelow, said that Germany had only economic and not territorial interests in China and Corea, and would not interfere in the quarrels of others. So far as Germany knew, the only effect of the Anglo-Japanese convention was to maintain the status quo. Therefore it did not prejudice German interests, and did not affect the Anglo-German Yangtse Valley agreement. Germany only desired the open door.

The Majority of Homes and Families Have Heard the Joyful News That Paine's Celery Compound Makes Sick People Well and Strong.

A House-to-House Canvass would Show That Thousands are Being Cured.

The people who have not heard in some way of Paine's Celery Compound and its wonderful triumphs over the diseases and ailments of life, cannot be counted as newspaper or magazine readers, nor are they amongst those who are in touch with the medical progressiveness of the times.

A house-to-house canvass (if that were possible) of families where Paine's Celery Compound is being used during these early spring days, would disclose an overwhelming amount of evidence regarding the implicit confidence that is placed in this greatest of all spring medicines. It would show the enormous number of people who are being cured of some form of nervousness, sleeplessness, dyspepsia, indigestion, neuralgia, rheumatism, headaches, kidney and liver diseases.

Now is the time that Paine's Celery Compound can show astonishing and happy results to the sick. Now that spring is with us, giving a promise of fine weather and new beauties, it should lend encouragement to the work of getting well and strong.

The use of Paine's Celery Compound for a few weeks will truly astonish every debilitated, weak and sickly man and woman. The change from a muddy and sallow complexion to a fresh, healthy colour, with bright, sparkling eyes, unclouded brain, the enjoyment of refreshing sleep, clear, fresh blood coursing through the body, will be the sure reward of every user of Paine's Celery Compound. Accept no substitute or imitation. See that the name PAINE'S is on wrapper and bottle.

A GREAT, GRAND GENERAL CLEAN-UP

At this season of the year—just before the Spring Goods arrive—a clearance must be made. This week we concentrate all small lots and discontinued patterns of our Wall Paper Department. Also many lines in other departments, which we mark at prices simply irresistible. A few examples follow :—

800 Rolls Tapestry Wall Papers, with perfect match borders and ceilings in deep Red, Pink, Green, Brown for halls, dining rooms, library, etc, regular 25c, clearing at	7c
300 Rolls Ingrain Wall Paper, regular 15c per roll, 2 good colourings, this week	8c
19 inch Frieze to match, regular 15c, this week, per yard	7c
160 Window Shades, which cannot be bought in the regular way for less than from 60 to 85c, clearing at	40c
36 Dozen Tea Spoons, fancy handle, quality A1 and will not tarnish, good value at 160. Price this week, per dozen	89c
40 Table and Dessert Spoons, your choice, each	4c
75 Butter Knives, each	3c
17 only Butter Knives, quality guaranteed, regular 35c, for	25c
30 Dozen Silver Steel Tea and Dinner Knives, reg. $1 doz., for, each	10c
16 Dinner and Tea Sets, which were marked down to $10, full 97 pieces, gilt edges, 3 patterns, choice	7.98
30 White Ewers for chamber sets, regular 50c, clearing at	39c
50 dozen Cups and Saucers, coloured band, red, green and pink, regular 35c per dozen, take what you want at, each	3c
39 Glass Table Sets, consisting of sugar bowl, cream, pitcher, spoon holder and butter dish, complete set for	29c
30 dozen Bottles Sewing Machine Oil, large bottle, best quality, bottle	3c
10 dozen Castor Oil, regular 10c, for	5c
40 dozen Genuine Vaseline, 3 bottles	10c

We have many other lines worth mentioning, which you ought to know about. Limited space shuts us off. We invite inspection at

ROUTLEY'S PETERBOROUGH and TORONTO STORES. Phone 268.

CAN YOU BEAT IT?

Well, very seldom, if ever. Any man with one of LeGros' Imported Havana Cigars in his mouth for his own delectation, and a few in his pockets for his friends, is to be accounted one of the blest. Resort, therefore, all ye who are fond of a good smoke, to the cigar and tobacco emporium, the sign above whose door is

ALIVE C. LeGROS'

Cigar Store and Tony Tonsorial Parlours, George Street, Opposite Market Building.

DOURO COUNCIL.

Council met at a call from the Reeve on Monday, February 17th, 1902, all the members present. The minutes of the previous meeting were read and confirmed. Moved by Mr. Sullivan, seconded by Mr. Allan, that the Auditors' statement of the receipts and expenditures be received and adopted, that the Treasurer's and Collector's accounts be allowed, and that the clerk get the abstract statement advertised, and 200 copies of the report printed in pamphlet form for distribution.

Orders on Treasurer—Maurice Condon, salary as auditor, $3.63; George Brooks, Salary as auditor, $3.00; Pat. Davey, charity, $7.00; Clerk, six copies of Municipal World, $5.00.

Applications—From John Shea, to have the E. half of lot 4 and the S. half of lot 3 detached from S. Section No. 11, and attached to S. Section No. 3, for school purposes. From John White, to have the E. half of lot 9, con. 5, detached from S. S. No. 5, and attached to S. S. No. 7, for school purposes. From Thom. E. Iory, to have W. J. Bullock appointed arbitrator re the alteration of S. Sections Nos. 6 and 10, and the formation of a new school section in the vicinity of Pine Grove cheese factory. On motion of Mr. Sullivan and Allen, the clerk was instructed to give notice to all persons concerned, that it is the intention of this Council to pass the necessary By-laws on the 7th day of April next, giving effect to the above applications. Moved by Mr. Sullivan and Allen, that W. J. Bullock be appointed an Arbitrator, re the alteration of S. S. Nos. 6 and 10, and the formation of a new section. Moved by Mr. Condon and Sullivan, that the Collector be authorized to accept the sum of $8.63 in full of taxes charged against Dennis McMahon on the roll of 1901, also from W. H. Moore the sum of $4.08, being one-half the amount of arrears of taxes charged against the said Dennis McMahon in 1901, and that the Treasurer credit the Collector with the same when the roll is being returned.

Pound-Keepers—John Moore, William Dixson, Geo. Curtis, David Forsythe, N. T. Smith, John Burke, Herbert Abbott, Wm. Manley, Edward Allen, J. R. Allen, M. D. Sullivan.

Fence Viewers—Con. O'Brien, D. O'Grady, W. O'Connor, Daniel Maloney, John Quinn, Stewart Brown, H.E. Chamberlin, James Watson, James Hetherington, William Frankiah, Geo. Hamilton, Wm. Barry, Jas. Leahy, Wm. Maher, sr., Lewis Hunter, R. Sheehan.

Overseers of Highways—David Forsythe, John Anderson, Albert Dunsford, R. Kavanagh, P. Healey, James Mahoney, Stewart Miller, John McMurray, Geo. Hamilton, P. Heggerman, R. Sheehan, John R. Condon, Thos. Miller, D. O'Grady, Geo. Russell, Jer. Hayes, D. O'Brien, Tim. Garvey, B. Condon, Pet. Farelly, R. Darling, Jas. Mohar, N. Down, Geo. Hamilton, John Leahy, L. Hunter, M. Barry, James Leahy, Thos. Nolan, Jas. Walton, Jer. Allen, Thomas McGarity, M. Ryan, John Coughlin, G. Curtis, B. Leahy, Henry Sage, L. H. Campbell, A. Millage, Albert Nolan, T. Dixon, William Gamble, James Leahy, L. Sullivan, L. H. Smith, Con. O'Brien, R. Ledford, P. O'Brien, Wm. Tasker, John O'Brien, M. Torpes, John Connors, Hugh O'Connor, Jas. Curtis, John Tobin, Wm. Hockadon, Geo. Wately, Isaac Garbutt, James Hatson, W. Charlton, James Buckley, Fred Armstrong, P. McMurray, R. Bradden, W. H. Allen, W. Barry, Maurice Weyhes, M. O'Toole, James Jenkins, W. Towns, R. Carveth, Ed. Nean, John Leslie, John Towns, W. L. Dunsford, Joseph Sedgewick.

Council adjourned till the 7th day of April next.

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

His Hope.

"I hope," said the serious man, "that you haven't been betting on the races."

"I hope so, too," said the young man with the red necktie and the restless eye. "I hope I will wake up tomorrow and find out that the whole thing was a wild dream. But there's no use hoping."

FATHER HAPPY! SON RECLAIMED!

Past in the meshes of dread Rheumatism and life despaired of, but South American Rheumatic Cure freed him—A cure that never fails.

"My son was so bad with rheumatism that we thought he would die, so great were his sufferings. We tried many remedies but they all failed, and not until we procured South American Rheumatic Cure was there a sign of relief. Three bottles of this grandest of medicines made a new man of him."—Wm. H. Winslow, Sr., St. Henri, Que. It relieves in six hours. 66

Blood Bitters has the most natural action on the stomach, liver, bowels and blood of any medicine known, hence its effects are prompt and lasting. It cures, without fail, all such diseases as Dyspepsia, Constipation, Biliousness, Bad

Blood

Spit, Headache, Boils, Pimples, Tumors, Scrofula, Kidney Complaints, Jaundice, Coated Tongue, Loss of Appetite and General Debility. The fact that it is guaranteed to cure if used according to directions warrants any sufferer in giving a fair trial to Burdock Blood

Bitters.

WILL WELCOME PRINCE.

An Address to Prince Henry of Prussia Passed by the Legislature—Prohibition Bill on Wednesday Next.

Toronto, March 3.—This afternoon in the Legislative Assembly the following bills were read a third time: To amend the act incorporating the Woodstock, Thames Valley & Ingersoll Electric Railway Co., Mr. Pattullo: respecting the Town of Peterborough, Mr. Blezard; to incorporate the Peterborough Radial Railway Co., Mr. Blezard; to legalize bylaws in aid of the Lake Erie & Detroit River Railway Co., Mr. McKee; respecting the Town of Collingwood, and the Collingwood Shipbuilding Co., Limited, Mr. Duff; respecting the Fort Erie Ferry Railway Co. Mr. Gross.

Hon. G. W. Ross moved the presentation of the following address to Prince Henry of Germany upon his arrival at Niagara Falls and that a deputation comfiosed of Messrs. Harcourt, Breithaupt, Gross, Bowman, Eilber, Kribs and Carscallen be appointed to present the same:

"To His Royal Highness Prince Henry of Prussia:

"May it please Your Royal Highness, we, the legislative assembly of the Province of Ontario, in parliament assembled, be leave to approach Your Royal Highness for the purpose of presenting to you the congratulations of the legislative assembly on the occasion of your visit to this province.

"We hail with joy the presence on our soil of so distinguished a descendant of our late beloved Queen, and we assure Your Royal Highness that in no part of the British empire are the cordial relations which exist between the various branches of the Teutonic races regarded with more satisfaction than they are in Canada.

"We have in this province many thousands of citizens who regard with praiseworthy affection the German empire as their fatherland, and we have pleasure in assuring Your Royal Highness that they exemplify in this comparatively new country those virtues of frugality, industry and respect for law and order which are characteristic of the people to which they belong.

"As Canadians, irrespective of nationality, Your Royal Highness will be pleased to know that the regions in the achievements of German leadership in science and research, that we appreciate those elements of national character to which the German empire owes in a large measure its material prosperity, and we are glad to believe that the influence of the empire in the councils of the nations tends to the advancement of the highest civilization and the liberty of the human race.

"We regret that Your Royal Highness' official arrangements will not allow you to make an extended tour of this country. We trust, however, that another occasion may be found for becoming acquainted with the natural resources and political institutions of a country to which we will be glad to welcome your fellow subjects who for any reason might wish to make Canada their future home.

"Respectfully submitted on behalf of the legislative assembly of the Province of Ontario."

In moving the resolution the Premier alluded to the pleasure that would be felt in welcoming the Prince on account of his relationship to the royal family. He only regretted that he would not have an opportunity of seeing more of the country. His brother, the Emperor, had taken a place among the first statesmen of Europe, and the Prince himself had given much attention to the improvement of the resources of Germany, and in particular to the development of her naval supremacy. He alluded to the valuable qualities of the Germans as settlers, owing to their industry and frugality. The world owed much to the leadership of the Germans in science and research. German thought directed the investigation of chemical science and the province owed much of its educational standing to the advances which Germany had made in the system of public institutions.

Mr. Whitney briefly seconded the motion, which was supported by Mr Breithaupt, who regretted that the Prince could not pay a visit to Berlin during his stay, and Mr. Gross, who pointed out that the German-Canadians formed a considerable and progressive factor of the population of the province and continued to take a pride in the country of their origin.

A number of private bills were adopted in committee and the following were read a second time: To incorporate the New Ontario Railway Co., Mr. Conmee; to incorporate the Middlesex & Elgin Inter-Urban Railway Co., Mr. Robson; to incorporate the Southwestern Traction Co., Mr. Robson; respecting the Town of Wiarton, Mr. Bowman.

Hon. E. J. Davis, in answer to Mr. Duff, stated that the attention of the Government had been called to the fact that a large immigration from Great Britain was expected and that they were arranging with the Department of the Interior at Ottawa to secure a share for this province. In reply, to Mr. Whitney he said that three agreements had been entered into since last session covering concessions of pulpwood territory which would be submitted to the House and one was now under negotiation.

Mr. Whitney enquired when the Government would move the second reading of the Liquor Bill.

Hon. G. W. Ross replied that they would be prepared to proceed with that measure on Wednesday next.

Several important changes have been made in the agreements between the Government and the Blanche River Pulp and Paper Company; Nepigon Pulp, Paper and Manufacturing Company, and the Sturgeon Falls Pulp Company. The provision is made in the case of the first two companies, that in the development of water power and the construction of mills and works, they shall, as far as possible, use Canadian cement and machinery. The Blanche River Company proposes to spend $7,500,000 by Oct. 14, 1905; $500,000 of which sum must be spent by Oct. 14 of this year. They must also employ 200 hands and produce 100 tons of pulp a day. The Nepigon Company will spend $250,000 by April 18, 1904. In the case of the Sturgeon Falls Company it is stipulated that $300,000 shall be spent by July 1, 1903, and $1,000,000 by July 1, 1904. Already the company has spent $100,000.

PARTIZAN OFFICIALS

Government Will Investigate Any Charges Brought.

MANY QUESTIONS ANSWERED

Bills Introduced—Private Members' Day in the House of Commons—Prof. Prince's Denial—Utterances Wrongfully Attributed to Him—Number of Dominion Notes Issued—Telephone Bill.

Ottawa, March 4.—Yesterday was private members' day, and the sitting of the House was a brief one, owing partly to the fact that private legislation is in a somewhat backward state. Sir Hibbert Tupper heralded his arrival for the session by an enquiry which elicited from the Premier a confirmation of the announcement that Mr. Gordon Hunter, K.C., had been appointed Chief Justice of British Columbia. Numerous enquiries of the Ministry elicited a considerable amount of information upon various matters of public interest, and Mr. Cowan's bill respecting drainage across railway lines was sent to the Committee on Railways and Canals.

Mr. Carroll's Introduction.

Hon. H. G. Carroll, upon his reelection after accepting the office of Solicitor-General, was formally introduced by Sir Wilfrid Laurier and Hon. Charles Fitzpatrick, amid cheers from the Government benches.

The Speaker announced that he had given instructions to the Clerk of the Crown in Chancery to issue the writ for Beauharnois.

The following private bills were introduced and read a first time:

Respecting the Port Dover, Brantford Goderich Railway Co.— Mr. Heyd.

To incorporate the Battleford and Lake Lenon Railway Co.—Mr. Calvert.

Mr. Carroll, the new Solicitor-General, was introduced, and took his seat amidst applause.

Questions and Answers.

On the orders of the day being called, Sir Charles Hibbert Tupper arose and asked if the report were true that Mr. Gordon Hunter, K. C., had been appointed chief justice of British Columbia.

The Premier replied that the report was true, the appointment having been made.

Replying to a question by Mr. E. F. Clarke, the Minister of Agriculture said that $948,410 has been paid out to date in connection with the taking of the census.

Mr. Alcorn was informed by Mr. Mulock that David Clinton, postmaster at Clinton, Ont., was dismissed because he allowed the postoffice to be used as a Conservative committee room, and allowed political posters to be exhibited there during the election.

Mr. Puttee was informed that there are 785 men employed in the Government railway work shops in Moncton and 79 in Charlottetown, P.E.I. Ten hours is the working day in these shops.

Mr. Brock was informed by the Postmaster-General that no record was kept of the quantity of samples coming into Canada, and the postage is all paid into the country of origin, so Canada gets nothing unless postage is under paid.

Mr. Kemp was informed that there was no regular trade treaty in force between Great Britain and Germany, but that pending the result of negotiations Great Britain and the colonies, excepting Canada and the Barbadoes, were enjoying the advantage of the German minimum tariff.

Replying to a question by Mr. Leonard (Conservative' Laval) the Premier said that the cases of public employes taking part in Federal elections would be dealt with as outlined by him in his speech in 1897, namely, that the charges would be investigated, and each case dealt with according to the evidence.

Mr. Sutherland answered Mr. Beland's question in regard to the statement attributed by The Victoria Colonist to Prof. Prince, Dominion Commissioner of Fisheries, to the effect that Prof. Prince had said: "The Government have not had a Minister who could form a resolution and act upon it since the days of Sir Hibbert Tupper." The answer was in the form of a letter from Prof. Prince, in which he said: "It is absolutely without foundation."

Replying to the inquiry by Dr. Sproule, Mr. Fielding submitted a statement of the number of Dominion notes of $1, $2 and $4 denominations issued each year from 1892 to 1901 inclusive. The issues of $1 notes, which in 1891 amounted to 1,452,000, had increased in 1896 to 1,784,000, and last year amounted to $2,760,000. The number of $2 notes issued in 1891 was 816,000; in 1896, 1,008,000, and in 1901, 1,616,000. The number of notes of the denomination of $4 issued in 1891 was 304,000; in 1896 it was 176,000, and in 1901, 816,000.

Mr. Wilson's question relative to the interview of Charles R. Devlin, Canadian Immigration Agent in Ireland, was answered by Mr. Fielding in Mr. Sifton's absence. The effect of the reply was that Mr. Devlin denied the accuracy of the interview as published.

When Mr. Maclean's bill respecting telephone companies was reached the Premier asked that it stand, as the Government intended to introduce a somewhat similar bill on Wednesday.

Mr. Cowan's bill respecting drainage across railways was read a second time and referred to the Railway Committee, and the House adjourned at 5.15 p.m.

A Cause of Headache

One Very Common Cause, Generally Overlooked.

Headache is a Common and Distressing Affliction and May Be Due to a Number of Causes.—The Principal Cause of Frontal Headache is Here Pointed Out.

Headache is a symptom, an indication of derangment or disease in some organ, and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses, all produce headaches, and if we could always locate the organ which is at fault, the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the headache is located in back of head and neck it is often caused from catarrh of the stomach or liver.

At any rate, catarrh is the most common cause of such headaches, and the cure of the catarrh causes a prompt disappearance of the headaches.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics, like eucalyptol, guaiacol and blood root, which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches, and eulogizes Stuart's Catarrh Tablets as a cure for them. She says: "I suffered daily from severe frontal headaches and pain in the back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from catarrh, more or less, for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case, because the headaches were always worse whenever I had a cold or fresh attack of catarrh.

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure, and after using a few 50c boxes, which I procured from my druggists, I was surprised and delighted to find that both the catarrh and headaches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, under the guarantee of the proprietors that they contain absolutely no cocaine (found in so many catarrh cures), no opium (so common in cheap cough cures) nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

An Interesting Experiment.

Hundreds of Boxes of Dr. Chase's Nerve Food Given Away in Order That all may Test and Prove its Merits.

Druggists Everywhere Report a Greatly Increased Demand for This Great Food Cure—Many who did not get to the Distribution Bought From Their Dealer to Make the Test.

We have always been willing to have Dr. Chase's remedies put to the test and time and again we have given away samples of Dr. Chase's Kidney-Liver Pills and Dr. Chase's Ointment, until millions of samples have been passed out to the public, and nearly every man and woman in Canada is convinced of the merit of these reliable remedies.

Dr. Chase's Kidney-Liver Pills have come to be so universally used that if you ask a neighbour what to use when suffering from headache, backache, kidney pains, sluggish liver, biliousness or constipation, nine times out of ten you will be advised to use this preparation.

Dr. Chase's Ointment is the standard the world over as a cure for eczema, salt rheum, and all forms of itching skin disease and skin eruptions, and is we believe, the only actual cure for itching, bleeding and protruding piles. There is enough evidence in the form of letters on file in these offices to convince even the most doubting that Dr. Chase's Ointment is a positive cure for piles.

Dr. Chase's Syrup of Linseed and Turpentine has won its way to the front in spite of the enormous variety of remedies for coughs and colds that is offered to the Canadian public. It gains confidence because of its far-reaching effects. Unlike ordinary cough remedies it removes the cold, while affording relief from coughing, and thoroughly cures bronchitis, whooping cough and asthma. The sales of this great remedy are at least triple that of any similar preparation.

Dr. Chase's Catarrh Cure is also relied on by people who would not think of using cocaine medicines to sooth and destroy the nervous system. It is harmless, and at the same time, powerful in its influence over catarrh of the head, nose and throat.

We want you to know that Dr. Chase's Nerve Food is just as good as a blood builder and nerve restorative as his Kidney-Liver Pills are for Kidney disease, or his Ointment is for eczema and piles. For this reason we have given away full sized boxes of Dr. Chase's Nerve Food. If you were not fortunate enough to secure a sample box buy a box from your dealer and test this great food cure. Fifty cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Hard on the Lawyers.

A rich citizen of a nearby town was on terms of deadly hatred with two local lawyers, whom he accused of having robbed him in a law suit, says The Sidney Bulletin. He took sick, was given up by his doctors. At once he sent word to the lawyers, asking them to come to his bedside. They hurried to the house and when in the room were motioned to sit one on each side of the bed. He then took a hand of each. "My friends," he gasped; "you wonder what I want with you to-day. Perhaps you think I have brought you here for reconciliation. But no, that is not so. I merely want to die like our blessed Lord—between two thieves." And then he died happy.

Highest-Rated English Town.

The highest rated town is said to be that of Grays, Essex, England, where the rates stand at 11s. in the £, the Urban District Council rate standing at 5s. 6d., the poor rate of 4s., and the water rate at 1s. 6d.

Found America.

A London letter says that the man who drew the original map of America, giving it its name, was Martin Waldseemuller of the Town of St. Die, in the Vosges in 1507.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Poison's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

The variety is large and beauty of designs very striking. They run from 25c and up.

We have all the evening shades in Pink, Pale Blue, Cream, etc., etc., in Cotton, Cashmere, Silk, etc., etc., at all prices.

PORT HOPE KNITTING WORKS

Daily Examiner.

TUESDAY, MARCH 4, 1902.

Lace and Muslin Curtains Laundried.
Having removed from 559 Aylmer street, to 392 Aylmer, south of Hunter, I am prepared to launder all kinds of lace and muslin curtains, at the latter place. Mrs. Weatherhead, 392 Aylmer street, south of Hunter.

George Street League.

The George street Epworth League have arranged for their next Literary Meeting, a debate which promises to be of unusual interest and merit. The subject, "Resolved that Canada would be benefitted by the bestowal on women of the franchise, and representation in Parliament," is in the hands of two ladies and two gentlemen, and a most interesting discussion is anticipated. The League extends a cordial invitation to the public to be present.

Late Mrs. Manning.

The funeral of the late Mrs. Samuel Manning took place yesterday afternoon from her late residence, McDonel street, to Little Lake Cemetery. The services at the house were conducted by Pastor Fisher, of Toronto, assisted by Rev. J. P. Wilson, of George street Methodist church. The pall bearers were Messrs. W.C., J.C. and W.H. Manning, sons of the deceased, and Messrs F. J. Bell, J. W. Martyn and M. Hall.

PERSONALS.

Mr. A. E. Tudhope of Orillia, is in town, and is registered at the Oriental Hotel.

Mrs. J. R. Stratton left this afternoon for Toronto to attend the Paderewski recital.

Mrs. Ellis, of Toronto, is visiting Mrs. E. C. Complin, McDonel street, for a few days.

Mr. Bert Bryant is able to be out again after a sickness of eleven weeks duration.

Miss Mamie Matchett, of town, has returned home after spending the past week in Toronto.

Mr. Harry Layburne of Toronto, is the guest of Mr. and Mrs. R. A. Hamilton for a few days.

Mr. Fred Roy's condition has greatly improved since his entrance into the Nicholls Hospital.

Lindsay Post: Mr. Percy McLean, of the Geo. Matthews Co., Peterborough, was in town to-day on business.

Mr. Court Poussette, formerly of the Bank of Toronto, has entered the service of the Sovereign Bank of Canada.

Mr. Bert Thompson, of Montreal, is in town on business for a few days and is being warmly welcomed by his many friends.

Mrs. Mowat, organist of the George street Methodist church, has gone to Toronto to hear Paderewski, the celebrated pianist.

The Lindsay Warder last week contained an excellent photo-gravure of of Ven. Archdeacon Casey, in connection with the publication of a sketch of his career in the church.

The Montreal Star of Saturday states that Rev. Orr Bennet, B.A., of Queen's College, a graduate of 1899, has received a call to Almonte. The congregation is a large one and Rev. Mr. Bennet is to be congratulated on securing a call to so progressive a town.

Delegates to Meet.

A meeting of the Brotherhood of Painters, Decorators and Paperhangers will be held to-morrow evening at 8 o'clock in the C.P.R. Hotel parlours, Simcoe street. All interested are requested to attend. By order,

J. J. PATTERSON,
Rec Sec.

The Paper You Like.

We wish to introduce two of our leading lines of note papers with envelopes to match. They are known as "Sylvia Grey," being a beautiful London Grey shade of note paper, done up in neat packages of 125 sheets and envelopes in boxes of 100. This week the price will be 25c per package, and and 25c for the envelopes. Our "Adriatic Parchment" paper is a pure vellum white note, a beautiful surface to write on—in packages of 125 sheets for 25c., envelopes in boxes of 125, for 25c. Just received, "The Right of Way," by Gilbert Parker, latest copyright, at 75c. each. A. H. Stratton & Co., 417 George street.

TOWN COUNCIL'S REGULAR MEETING.

A Lot of Business Cleared off the File Last Night.

STREET LINE TO BE OPENED

Along the West Side of the River—Matter of Stringing Wires Over the Hunter Street Bridge Discussed.

The monthly meeting of the Town Council was held last evening, with Mayor Dunne presiding and the following members present,—Aldermen Best, Corkery, Batten, Clinkskill, Morrison, McGregor, Rush, Boyer, Shortly and Edgcumbe.

Dr. Gray, coroner, was heard in reference to providing for the payment of a clerk to take down the evidence at inquests.

A deputation from the Horticultural Society was in attendance.

Mr. Adam Hall was the first speaker. He asked that an increase of $100 be made in the annual grant to the organization, raising the sum to $600. He drew attention to the large amount of work which had been done on Central Park during the year and the consequent improvement in the appearance of that square. It had been estimated that only $125 would be spent on Central Park but the sum of $200 had been expended and the Society had to go into debt to the amount of $80. Victoria Park, all would acknowledge, was prettier than ever by reason of the care which had been given it during the past season. The members of the Society gave their time and labour free. Mr. Hall then went on to speak of the need of the appointment of Park Commissioners. The Horticultural Society as at present constituted could not act in the case of vandals destroying plants, etc., but if Commissioners were appointed offenders could be brought before the magistrate.

Mr. D. W. Dumble expressed the opinion that the expenditure last year was a wise one. Central Park had been a "shabby place," but by the cutting out of old dead trees and the planting of new ones together with a liberal application of water, the park had been converted into a really beautiful spot. All strangers were impressed with the beauty of Victoria Park and it was a drawing card for the town. Central Park could be improved in the same manner.

The Mayor, in replying to the deputation, stated that he had no doubt but that the Council would deal as generously as it was able with the Society when the estimates were being struck.

Mr. Dumble thought the Council should make arrangements for providing public play grounds for the children in convenient places. Millions of money had been spent in this manner in Europe and in New York city.

Ald. Shortly and McGregor moved that the matter of appointing Park Commissioners be referred to the Town Solicitor with instructions to report at the next meeting of the Council.—Carried.

Replying to a question of Ald. Best, Mr. Hall stated that the amount of the grant would be expended on Victoria Park and Central Park. The Society could not undertake to look after the smaller squares in the town.

COMMUNICATIONS

were received and dealt with as follows:

From the Salvation Army Band, asking a grant of $100, and stating that $100 had been spent in the purchase of new instruments during the year, and a further amount of $175 would have to be expended in the near future for the same purpose. — Referred to the Finance Committee.

From Jas. A. Hall and A. N. Clark, town auditors, stating that all books and accounts had been examined and found correct.—Received.

From F. W. Miller, relief officer, applying for an increase of salary.—Referred to the Finance Committee.

From George Emmerson, Wm. Corbet, Mrs. Wm. Morris, A. E. Rundle, Peter Simons, Edw. Ferguson, and A. J. McClellan, asking remission of dog tax.—Referred to the Court of Revision.

From W. L. Taylor, objecting to paying taxes assessed to him on Water street, and stating that he had no property at that time.—Referred to the Court of Revision.

From Jas. McWilliams, No. 202 Edinburgh street, stating that his premises are flooded by reason of the railway drain being too small to carry off the water and asking that some action be taken.—Referred to the Works.

From the Chief of Police, asking for new closets to be placed in the cells.—Referred to the Property Committee.

From Dennistoun, Peck & Stevenson, in reference to the closing of Mercer avenue.—Referred to the Legal Committee.

From Town Solicitor Hall, in reference to the above and asking that the matter be brought before the council. —Referred to the Legal Committee.

From the Otonabee Power Co., regarding the streets upon which their pole line is to be placed. — Received.

From A. Stevenson, secretary, of the Trent Water Conservation Association, stating that an interview with Hon. A. G. Blair has been arranged for Wednesday next, and asking the town as an interested party to send representatives. A return fare of $7.50 has been arranged with the C.P.R.—Referred to the Manufacturers Committee.

From R. H. Forrye, asking remission of statute labour tax. — Referred to the Court of Revision.

From the Federation of Labour, giving notice that on and after April 1st the wages of the corporation labourers will have to be $1.50 per day of nine hours, and all teams to be paid $3.25 per day.—Referred to the Board of Works.

From C.P.R. Solicitor McMurchy, enclosing deed from the town to the company of the right of way across the island in the river, and asking

(Continued on 8th Page)

NEWS NUGGETS.

—St. Paul's church choir will practice this evening instead of Thursday night.

—There will be a lecture illustrated with limelight views at St. Luke's this evening.

—The Water Commissioners met yesterday afternoon, and passed a number of accounts.

—Workmen are engaged in repairing the house lately occupied by Mr. McF. Wilson on McDonel street, which has been purchased by Mr. R. H. Leary.

—The first drill of the spring season took place last night, when the members of No. 6 Company of the 57th Regiment turned out in large numbers.

—A number of ladies from the Murray street Baptist church, are engaged in sewing garments of various kinds at the Children's Shelter this afternoon.

—Instead of the regular mid-week service at St. John's to-morrow night Rev. Canon McNabb will give an illustrated lecture on "Scenes from the History of the Church of England."

All the latest styles in photos and mounts at Whiten's. Have Whiten make your large crayon work for you. Have Whiten frame your pictures for you. Studio, 158 Hunter street west.

—The Irish "at home," under the auspices of Mrs. Waddell's class, of St. Andrew's church, which proved so successful last year, will be repeated on the 17th of March, with an entirely new programme.

—The Jory case, which has been in progress for several days before Police Magistrate Edmison, concluded last night. About twenty-five witnesses in all were examined during the progress of the trial. Judgment was reserved.

—Mr. Harold Snowden, who had the misfortune to lose almost his entire stock of fancy poultry, is having his pens stocked again with an up-to-date class of birds. Mr. Snowden is in correspondence with a number of prominent poultry raisers with a view of securing the very best varieties.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

BIRTH.

WOOD. — On Saturday, March 1st, 1902, at 26 Bedford Road, Toronto, the wife of Mr. E. R. Wood, of a daughter.

LAST QUARTER OF EVENING CLASSES AT THE PETERBOROUGH BUSINESS COLLEGE

Anyone wishing to join these classes this season, should do so at once.

WM. PRINGLE,
Peterborough, Ont. Principal.

RICHARD HALL & SON

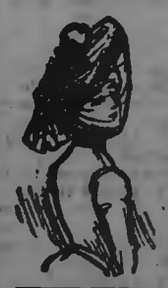
PETERBOROUGH'S MODERN STORE.

EVERY .... DEPARTMENT

Has its share of the New Goods now. **New Dress Goods, New Silks, New Cottons, New Linens, New Whitewear, New Corsets, New Carpets, New Suits, New Millinery.**

It's decidedly spring-like at this store. We are always pleased to show our Goods whether you buy or not. So come right along and see them.

BEAUTIFUL VEILS!



The rough weather of late winter and early spring makes it necessary for women to wear veils. Here are some special Veils that protect the face without being an injury to the eyesight. They are beautiful and are sure to be immensely popular with the ladies of Peterborough.

STREET SKIRTS!

The Short Skirt came into favour when bicycling was at its height. Now it remains in favour because it permits easy walking with freedom from bedraggled skirts and wet ankles. We are showing a nice lot of attractive materials for short skirts in a variety of colours and qualities, and prices that will be sure to please.

PRETTY SKIRTS!

In the providing of a wardrobe you must have plenty of underskirts. This spring we carry a larger range than usual, and this spring we have a better quality than usual. We can fit you with Skirts, Drawers, Corset Covers or whatever you may need. Quality of material and workmanship warranted all right. Prices are what you would expect to pay for the materials without any charge for the making.

We would like if you would take a look at our Novelties in Dress Goods before they get picked over. March is here! We have had a taste of spring already. The Millinery Openings are only two weeks hence. Easter will be here before you realize it : : : : : : : : : :

IN LATEST SPORTING CIRCLES.

Peterborough Ladies Will Play Cobourg To-night.

The Next Intermediate Game Here on Friday The Locals are Keeping in Good Form.

HOCKEY.

The Peterborough ladies' hockey team left at noon to-day for Cobourg, where they will play the ladies of that town a friendly game this evening. Much interest is being centred in the event, and the Cobourg stick-handlers and the ladies of Cobourg, outside the team, have promised the locals a very entertaining stay in the Summer Town. The Peterborough team is composed of Miss Jennie Scott, Miss Florence Scott, Miss Lulu Scott, Miss Gwendoline Hall, Miss Pearl Fitzgerald Miss V. Hunter and Miss Alice Scott. Miss Helen Hall accompanies the team as umpire and Miss Helen Stetham will officiate as time-keeper.

The girls are being chaperoned by Mrs. Austin. There was a fair sized crowd at the Grand Trunk station to give the girls an enthusiastic send-off, and the Peterborough colours were in evidence in profusion.

The Business College boys wish to challenge a team from the Collegiate Institute for a game of hockey.

The hockey fraternity of Peterborough, has received a valuable acquisition in the person of Mr. Hughes-Charles, the newly-appointed manager of the local branch of the Canadian Bank of Commerce. Mr. Hughes-Charles, up to his leaving Galt, was the president of the club of that town, and took a deep interest in the affairs of the club. He will very likely have an opportunity of seeing his team play here before the season closes. Galt is picked to win against Collingwood.

The team was on the ice for a practice, last evening, and their short cessation from work seems to have done them good, as it was the "gingeriest" practice seen at the rink this year. The boys waded in as though it was a scheduled game they were playing and the work-out did them a lot of good.

It looks very much as if Upper Canada College would win out the Junior O.H.A. championship. Last night at Stratford the Toronto Students managed to hold the Midgets down to a tie and it is likely that in their own city they will be able to capture the championship. It is a noteworthy fact that the Midgets have been in the junior finals for three consecutive years. Four years ago they fell by the wayside, but the year before that they were in the finals, losing to the U. C. C. in a hotly contested game played in the Waterloo Rink. In 1900 they landed the championship, defeating the Peterborough Colts. Last year the Colts got their revenge, winning out from the little Indians by a margin of five goals on the two games.

The Galt and Collingwood hockey teams will play a sudden death game in Toronto this evening and the winner will play Peterborough for the championship. The first game in the home and home matches will very likely be played in Peterborough on Friday night. In fact this fixture is a sure thing. This will be the last match of the season in Peterborough and it should draw the largest attendance yet. The locals will practice to-night and the team will be picked to-morrow night.

The Wellingtons won the senior championship last night having defeated the Cornwall seven by a score of 8 to 3.

LAID AT REST.

Funeral of the Late Mr. John Porter was Largely Attended.

The funeral of the late John Porter took place from the family residence, at Auburn, yesterday afternoon, at half past two o'clock. The late Mr. Porter's condition was so critical that an operation was performed as a last resort towards saving his life. However this did not have the desired result, and he passed away on March 1st. He suffered much but bore it with Christian fortitude.

The deceased was born at Auburn 67 years ago, and for a number of years was engaged in farming in Douro. He removed to Auburn last March, where for one short year he has resided with his family. He was married to Miss Jessie Forsyth, the third daughter of the late Andrew Forsyth, of Keene, who together with six of a family survive him. They are Misses Minnie, Amy, Alice, and Lillian, and Messrs. Wm., and John, all of town. Mr. Thos. Porter, of Sault Ste. Marie, and Mr. David Porter of Toronto, are brothers of the deceased. The many friends who came to look for the last time upon the face of him who was everyone's friend, and the numerous bouquets and floral emblems testified the esteem and respect his friends had for him.

The family desire to thank those who in sympathy donated the many handsome floral offerings. They were a fitting emblem of him who fell asleep in Jesus. Mr. Porter was a life long member of St. Paul's Presbyterian church. Dr. Torrance conducted the service at the house, and Rev. Mr. Potter officiated at the grave. Among the relatives in attendance at the funeral were his brother, David Porter, and wife, of Toronto, his brother-in-law, Mr. Robt. Evans, and his nephews, Andrew and Herbert, and Mrs. Herbert Evans, of Otonabee, and his nephew, Mr. Hardy Forsyth, of Melita, Manitoba.

WAS MOST INTERESTING.

Rev. Canon McNab's illustrated lecture last evening in All Saint's church was largely attended, and proved to be of great interest. The subject was practically the life of our Lord, and views were given of the principal events in His life, illustrating the teaching of the parables, etc.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

Ladies Auxiliary.

The monthly meeting of the Ladies' Auxiliary of the Y.M.C.A. will be held on Thursday afternoon, March 6, at 3.30 p.m. All members of the same are requested to be present.

To Y. M. C. A. Members.

The social evening for senior Y.M.C.A. members to be held on Thursday evening, March 6th, at 8 p.m., premises to be well attended. The programme will be out of the ordinary. In addition to good music, Mr. Sorasleil will give his interesting talk on the "Philosophy of Brass Buttons." The annual sale of magazines will also take place.

A Favourite and Popular Work in Canadian Homes.

The introduction of the popular Diamond Dye Mat and Rug Patterns has done much for the adorning and beautifying of the homes of Canada. Our women and girls find time to make up pretty door mats and elegant floor rugs that compare favourably with imported goods at fancy prices.

The Diamond Dye Mat and Rug Patterns are easily and quickly made up. The full and complete pattern on heavy Scotch Hessian is richly coloured and ready for use. If you are a stranger to this work, and have not yet seen this season's new designs, send your full address to The Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P.Q., and they will mail you free of cost sheets of designs, with various sizes and prices.

GOUGH'S CONFEDERATION.

PETERBOROUGH BRANCH:

Messrs. Tully and Merrell, Managers.

Pursuant to the announcement made by the firm in January, Messrs. James A. Tully and William S. Merrell, our two oldest employees, took charge of the management of our Peterborough business on March 1st. The reasons which justified their being entrusted with this responsibility, and the ample confidence which we repose in their business ability and integrity, have already been fully explained to our patrons and the public.

This Re-Organizing of our Peterborough business does not make "Gough's Store" any less Gough's. It will continue to be "Gough's Store," with the same old policy and the same old predominance that has marked its career during the past sixteen years. **GOUGH BROS. GIANT CONFEDERATION** sweeps into another epoch of its history with greater strength—its position fortified by past successes—and the path cleared for still more wonderful achievements. Our Confederation of Branch Stores faces, triumphant, the dawning of a new season, and challenges the entire market to meet it on the field of competition.

We Are On The Threshold of The Greatest Season's Business We Have Ever Had

And this has stirred us to supreme efforts in placing our New Spring Stocks for 1902 beyond the reach of competition We have confidence in the people of Peterborough, and the wonderful growth of our business is evidence that the people of Peterborough have confidence in us.

Messrs. Tully and Merrell are here to get your trade and keep it—to safeguard your interests as well as our own. We and they, and the united co-operation of our Confederation of Stores, will do all in our power to retain your patronage. The steady hold-on of the old customers, and the continued addition of new, will always be the focus of this business. We respectfully solicit a continuance of your patronage under the new management.

OUR MAMMOTH COLLECTION OF NEW SPRING HIGH-CLASS CLOTHING, BOOTS AND SHOES, HATS AND CAPS, AND GENTLEMEN'S FURNISHINGS, FOR THE SEASON 1902

Stands as an example of selected excellence, and overshadows, beyond comparison, any other showing in the Dominion of Canada.

5-8 QUEEN STREET WEST, TORONTO.

GOUGH BROS.

375-379 GEORGE STREET, PETERBORO.

Look At It.

We mean our little picture here. There's a vaporizer, you put some Vapo-Cresolene in it; there's a lamp, you light it. Then you just naturally breathe-in the vapor. You can read, or sew, or study, the cure goes right on all the time. Now you see why the doctors all speak so highly of Vapo-Cresolene for throat troubles. It takes the medicine just where it's most needed, and it is a perfect cure for whooping-cough.

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., U.S.A.

Recommended and sold in Peterborough by H. H. Edmisch, druggist.

RING UP 'PHONE 388.

Purser, Eliza M. Purser and A. Sidney Dickenson, of the Township of Smith, in the County of Peterborough, aforesaid.

DENISTOUN, PECK & STEVENSON,
Solicitors for the Applicants.

Dated this 10th day of February, 1902. 2613

MARCONI'S VINDICATION.

On Board Ship He Receives Connected Message From Station 1,500 Miles Away—Now in New York.

New York, March 3.—William Marconi, who returned from England Saturday on the American liner Philadelphia, broke all records of wireless telegraphy during the voyage from Southampton. A complete connected message of four words was received from the Marconi station at Poldhu, Cornwall, near the Lizard, when the ship was 1,551½ miles from that point. Furthermore, signals were taken by the instrument on the Philadelphia, which were sent from the station at a distance of 2,099 miles. With a station on this side equal in transmitting force to that at the Poldhu he could have maintained constant, effective communication ashore during the entire voyage.

Mr. Marconi was accompanied on the trip by H. S. Saunders, one of the directors of the Marconi Company, and two engineers, T. Vyvian and J. D. Taylor. The four men spent most of their time in the Island House of the ship, where the Marconi instruments were set up, and from the time they left the Lizard until the last faint signals were taken at a distance of more than two thousand miles, they were constantly talking back and forth with the Poldhu station relative to the experiments they were making.

To obviate any chance for the sceptical to dispute the genuineness of the result, every message was taken on tape, and four of these were received in the presence of the captain and chief officers of the ship, who certified to them in writing as soon as the instrument had ticked them off.

In addition to this, the captain, A. R. Mills, marked off on a chart the several points on the trip at which six of these messages were received.

Mr. Saunders, the Marconi director, was enthusiastic over the success of their experiments on the trip.

"It is a grand triumph for the Marconi System," he said. "We go from here to Canada in a few days, to arrange for the putting up of a permanent station at Cape Breton. There will be many strides forward made in the next few months."

Speaking of the achievement, Mr. Marconi said: "This time there can, indeed, be no error. Captain Mills and Chief Officer Marsden signed each message received as witnesses. Fifteen hundred miles at sea regular messages were received from the Cornwall station, and ticks were recorded at a distance of 2,000 miles. It had been said that my Newfoundland messages were due to my imagination and to atmospheric currents, so I requested the captain's signature to bear me out.

"I am not going to establish any wireless system between Cuba and the United States, as had been reported, nor have I any intention of establishing a line across the English Channel."

ONLY ONE ESCAPE.

A man may break away from prison but he cannot get away from the torture of rheumatism until he takes Dr. Hall's Rheumatic Cure. It is the only reliable remedy on the market. Mr. Charles H. Clarke, Kingston, Ont., who for fifteen years in succession held the civic street watering contract could not put on his boots or walk for several weeks. He tried Dr. Hall's Rheumatic Cure, and three bottles, with the Climax Iron Tonic Pills, completely cured him. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

MARKET REPORTS.

A Lower Close in Prices of Wheat, Corn and Oats at Chicago—The Latest Quotations.

Monday Evening, March 3.

Liverpool wheat futures to-day were ½d to ¾d lower than Saturday, and corn futures ¼d lower.

Chicago markets were quiet and easy again to-day. May wheat lost ½c from Saturday; May corn ⅛c. and May oats 1⅛c.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 298,000 bushels; corn decreased 456,000 bushels, and oats have increased 182,000 bushels.

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 95,538,000 bushels, against 95,105,000 bushels a week ago, and 56,066,000 bushels a year ago.

Sheep, choice handy wethers, $5.25 to $5.50; common to extra, mixed, $4.50 to $5.15; culls and common, $3.50 to $4.25; mixed export ewes and wethers, $5 to $5.25; yearlings, good to choice, all wethers, $5.70 to $5.80.

NEW YORK LIVE STOCK.

New York, March 3.—Beeves—Receipts, 3742; market active and 10c to 25c higher; all sold early; steers, $5.10 to $5.50; bulls, $3.60 to $4.50; cows, $2.50 to $4.25. Exports to-day, none; to-morrow, 1095 cattle and 3000 quarters of beef.

Calves—Receipts, 308 head; market 50c higher on light supply. Veals, $4 to $6.90; barnyard calves, $3.75 to $3.90; Southern calves, $3; city dressed veals, 8c to 11½c per lb.

Sheep and Lambs—Receipts, 4884; market 50c to 40c higher; two cars held over; sheep, $4.50 to $5.90; choice, $6; lambs, $6.87½ to $7.

Hogs—Receipts, 5125; state hogs, $6.80; feeling steady.

Specialists' Ideas Adopted.

When originating his celebrated Four T's Merrill, the Brantford Druggist, added to drugs of many generations' usefulness some of the latest drugs used by lung and throat specialists. The result, naturally, is that Four T's is an unexcelled compound and never fails to cure a cough in 24 hours and the worst cold in two days. Large bottles 25c. at Ormond & Walsh's drug store.

Feeding the Cobras.

The keepers of the big cobras in the Central park menagerie and the New York zoological garden do not find it easy to supply their venomous charges with the kind of food that they specially prefer. In their native land cobras live chiefly on smaller and less dangerous and objectionable snakes, but although every effort is made to collect harmless snakes to satisfy the appetite of the imprisoned cobras at some seasons they have to be content with rats and mice, which they do not particularly like. Other varieties of captive snakes are fed mainly on toads, mice and rabbits. English sparrows are also purchased for them.

For whooping cough and croup, Vapo-Cresolene is a simple and perfect remedy.

MR. McPHAIL'S EVIDENCE.

A Toronto Citizen to Whom Dr. Pitcher the Famous Kidney Specialist has Brought the Sunshine of Good Health.

Toronto citizens have long since got tired of slow-acting, ineffectual remedies for kidney complaints.

Since Dr. Pitcher's Backache Kidney Tablets have been introduced they have entirely superseded the pills and potions of former days.

They contain specific kidney remedies unknown to anyone outside of Dr. Pitcher.

W. G. McPHAIL.

Just read what Mr. W. G. McPhail, 22 Mutual street, Toronto, has to say about them.

"I have been feeling very weak and sick for some time past and came to the conclusion that my kidneys were out of order as I was troubled with a pain across my back in the kidney region.

"I tried a great many different kinds of medicine but did not seem to get any better.

"I heard of the good Dr. Pitcher's Backache Kidney Tablets were doing and decided to try them. They have taken the pain out of my back, and improved my health greatly in a very short time and I can with confidence recommend these Tablets as being an excellent remedy for Kidney Troubles.

Dr. Pitcher's Backache Kidney Tablets are fifty cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto.

A WISE DOCTOR.

He Recognises the Serious Condition of a Patient and in the Extremity Prescribes the Remedy that Never Fails.

Can anyone read this story and fail to be convinced that as a remedy for all forms of Stomach Troubles, Dodd's Dyspepsia Tablets are without an equal:

Mr. Louis Boudreau, of St. Paul il aux Noix, Quebec, writes:

"For twelve years I had been feeling a dull pain in my right side in the region of the liver.

"I had a yellow complexion. The white of my eyes was yellowish. I could not eat anything without the most distressing after effects.

"I was attended by two doctors and their medicine would sometimes give me relief for a few days, but I would always have a relapse which would leave me worse than I was before.

"I kept on getting worse till one day I was very bad and called in one of my doctors again, in the hope that he might be able to give me at least a little temporary relief, for I was suffering terribly.

"He told me that he had decided to give me an entirely new treatment, and left me a box of Dodd's Dyspepsia Tablets, instructing me to follow the directions carefully.

"I improved rapidly, and he made me take a second box and then a third one, which with one other box that I sent for myself, made four in all that I used.

"To-day, thanks to Dodd's Dyspepsia Tablets, I am well; I sleep well, a thing I had not been able to do for years. I can eat anything I like without any pain or unpleasant after-effects whatever, and my general health is very much better than it has been for years.

'For what Dodd's Dyspepsia Tablets have done for me I shall always praise them."

Not Satisfied With Her.

Mrs. Benham—You used to say that I was your wife.

Benham—Well, I'm not the only man who has wished that life had been different.

Micro spectroscope analysis of chimney soot has shown that it contains iron, calcium, nickel, manganese, copper and silver.

Kentucky negroes consider that the caterpillar brings fever.

HERE'S A HEART POINTER

He boasting about the bush for Aaron Nichols—he believes Dr. Agnew's Cure for the Heart cured his wife, and he says so straight.

"This is to certify that I bought two bottles of Dr. Agnew's Cure for the heart for my wife who has been for twenty years a great sufferer from Heart Disease. She had more benefit from it than from all the doctors that have attended her, and I am pleased to give this certificate of its wonderful curative powers."

Aaron Nichols, Peterboro P.O., Ont.

It relieves in thirty minutes. 57

BEAUTIFUL HOME FOR KING.

Riviera Palace Where He Will Pass the Spring Season.

Among the many estates offered him, King Edward has finally fixed his choice on the Chateau de Thoreno, at Cannes, for his residence during his stay on the Riviera in March. It belongs to Lord Rendel, and is considered the most beautiful demesne on all the azure coast—leaving in the shade even the great estates of the Grand Dukes of Russia.

Lord Rendel has been in the board of management of the famous Armstrong firm, and has a fortune estimated at over $50,000,000. From 1892 to 1895 he was Civil Lord of the Admiralty.

While Prince of Wales King Edward was several times a guest at Thoreno. A few years ago it was rumored in the English circles at Cannes that he had offered to buy the place, but that Lord Rendel refusing to take money and insisting on making a present of it, the then Prince had given up the idea.

The 125-acre park surrounding the castle is entirely shut in by stone walls clad in ivy and honey suckle. The avenues and lanes aggregate 12 miles.

When in England Lord Rendel lives in another suburb country place, Hotchlands, at Guilford. He spends five or six months a year at Cannes, and has another fine residence at Posilippo, near Naples.

Lady Rendel has long been renowned for her exacting fastidiousness as regards the keeping of her gardens. At Thoreno she has 20 men doing nothing but looking after them, besides a head gardener, two foremen and a squad of experts for the greenhouses. The avenues alone provide work for several hands every minute of the day—not a fallen leaf, burnt match or footprint is allowed to remain on the sand.

As the park lies on a hillside, the aged Lady Rendel never strolls through it, except in a tiny chaise, drawn by two white donkeys, and two men with rakes follow at a distance to efface the traces of the wheels at once.

What has attracted the King to the Chateau de Thoreno more than anything else, is the wonderful collection of exotic plants and flowers. In the grounds the flower beds are never permitted to contain anything but plants in bloom. As soon as those are on the point of fading the whole bed is spaded up during the night and reset with flowers about to open, which have been kept in reserve in remote fields or special forcing houses. From many lofty points the promenader discovers enthralling views of land and sea.

Lord Rendel's daughter, Maud, married Herbert Gladstone, and besides other curiosities, Thoreno Castle possesses the room the great Gladstone himself used to occupy there for a month almost every winter. In a particularly picturesque nook facing the south and the sea, there is a clump of olive trees set out by the Prince of Wales with his own hands more than 15 years ago. They are doubtless the only trees he ever planted, and he shows an interest in their welfare and growth every time he returns.

HUNTING THE BEAR.

An Incident in the Career of Alexander Tremblay—Famous Hunter Was Fooled by His First Bear.

The life of the professional hunter and trapper, while naturally attended by a certain amount of danger and hardship, is not utterly devoid of amusement. It is, perhaps, true that such men are more easily amused than the jaded brain-worker and mechanic in our modern centres of civilization, and what affords entertainment to one might not appeal to the other. For instance, Mr. Alexander Tremblay, the well-known hunter and trapper of the Parry Sound district, would sooner spend twenty-four hours in the woods than the same length of time in a theatre, though the latter might offer a bill to which even the heart of a callous first-nighter would respond with something akin to enthusiasm. Tremblay, on a recent visit to Toronto, went to see a performance which had been received with favor by the critics and the public. It wearied him; the crowds bothered him; the artificial light and the close atmosphere were not to his liking. The only incident in the whole show that gave him any pleasure was a clever act by a number of trained dogs, and that only because he was confident that some of the canines would have made good hunting dogs had they been trained from their puppyhood to "the great game."

"Peepul, peepul," he said in his quaint broken English, when speaking of his visit, "nothing but peepul, an' stone an' brick, an' coal smoke. No tree, an' all the street so straight they run, one's head go swim. For me the woods, the lak', my gun an' pip'. What more'n dat to satisfy?"

Fooled by His First Bear.

And some of those that heard sympathized because they understood, and those who did not quite catch his meaning joined with the others in demanding just "one more story." He told more, and was persuaded to tell still another, pieced out at times by the comments and interjections of several who had witnessed with him some of the incidents he related. His first bear, "bea's verry fa't," fooled him, he says, with a merry twinkle of his deep-set eyes. It occurred when he was wandering through the northern wilds of Quebec with the Indians who had adopted him, or whom he had adopted, "just w'at you lik'." He was at this time about thirteen years of age, and the proud possessor of a musket, the first firearm with which he had been entrusted. Behold, then, not much taller than his weapon, and eager for adventure, setting off on his first lonely hunt. With every nerve strained he walked along, scanning the ground and brushwood for a trail. At last he found it—that of a fair-sized bear. With heart beating high he followed it, until at last he found the animal, a bear of the male persuasion, vigorously tearing at a rotten log. Child as he was, the inherited instinct of the hunter came to his aid and checked a sudden desire to give vent to a vigorous whoop. Carefully he aimed and fired, and the shot found its home in bruin's shoulder. Maddened with pain, the animal threshed wildly with its forepaws for a few moments and then started to run. Tremblay reloaded and followed. The blood-spattered trail was easily read for a considerable distance, and then hard and broken ground was reached; the signs grew fainter, and at last were altogether lost. For two or three hours the lad searched, keen disappointment and hope alternately in his heart, until at last his perseverance was rewarded and he found the bear lying close to a fallen tree. There flashed through his mind stories of the cunning of wounded animals, and he approached cautiously, halting to fire another shot at the prostrate body. Not yet satisfied he fled again. Both shots found a mark near the bear's shoulder, and the animal made no sign. Tremblay's imagination, however, was in full working order, and he was confident that bruin had moved a paw and blinked an eye. He waited for stronger signs of vitality, and then, in order to make assurance doubly sure, threw some stones at the animal's head. Still the bear lay low, and at last young Tremblay walked boldly forward and laid a hand on bruin's side. "Heem's near cold quite," he says when telling the story, "an' heem's die of the first shot. W'at's dat for hee's (I) been fool?" Tired as he was he covered the animal with the heaviest stones he could lift, and returned triumphant, but with aching limbs, to the tent of his Indian friend, Bokko. In the morning the whole family moved to the spot where the carcase lay, and did not leave it until the last edible morsel of bear had been disposed of. It would be a very Solomon of bears that could fool Alexander Tremblay now.

Lord Dufferin Was Competent.

One of the first duties undertaken by Lord Dufferin was a tour of Canada as it then was (1872-78). He visited the principal cities of Quebec and paid the same honor to those of Ontario. Everywhere he and his charming escort were received with manifestations of delight. While in Toronto Lord Dufferin honored all of the various institutions of learning with his presence. His speeches at each indicated his thorough training. He had spoken in French in Quebec, in Latin at Laval, in Greek at McGill. But in Toronto he employed English. His remarks sounded a patriotic and hopeful note. The inspiring addresses to the students were supplemented by charming tributes to the labors of the respective churches, representatives of which tendered to His Excellency their renewed tokens of loyalty to the Sovereign and the Throne.

The Telephone.

The first telephone wire in the United States was stretched between Boston and Somerville, a distance of three miles, in 1877.

Sir Andrew Clark was accustomed to define old age as the period of life at which a man no longer adjusted himself to his environment.

There is no beautifier of complexion or form or behavior like the wish to scatter joy and not pain around you.

Dodd's Kidney Pills

are the only medicine that will cure Diabetes. Like Bright's Disease this disease was incurable until Dodd's Kidney Pills cured it. Doctors themselves confess that without Dodd's Kidney Pills they are powerless against Diabetes. Dodd's Kidney Pills are the first medicine that ever cured Diabetes. Imitations—box, name and pill, are advertised to do so, but the medicine that *does* cure

Diabetes

is Dodd's Kidney Pills. Dodd's Kidney Pills are fifty cents a box at all druggists.

Can You Blame Her

If at last she tires of the fault finding of a dyspeptic husband and leaves him? The worst of the dyspeptic is that he does not realize his own meanness. His world is entirely out of perspective.

Dyspepsia and other diseases of the stomach and organs of digestion and nutrition are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the worst forms of the disease. It cures when all other medicines have failed to benefit.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is no other medicine for the stomach, blood and lungs, which can show so wide and wonderful a record of cures. It always helps. It almost always cures.

"I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease," writes Mr. W. H. Braswell, of McAdenville, Gaston Co., North Carolina. "My health is worth all the world to me. I will praise you as long as I live."

Dr. Pierce's Medical Adviser, in paper binding, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*, or if cloth-bound volume is desired send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

THAT CHAPTER.

A Chapter on Scott's Emulsion often holds a prominent position in the histories of weak children.

The gist of that chapter usually reads like this:

"Child weak and thin—began with small doses of Scott's Emulsion three times a day—after a week appetite improved—soon a little stronger—child more lively—weighs more".

And so it goes till the child is reported well and strong.

Send for Free Sample.

UWANTA M'F'G CO., Ltd., Ottawa, Ont.

GETTING EVEN.

In the crowd that filled a Mulberry street auction room were two Italians who watched the sale with interest and enjoyed the badinage for which the auctioneer is noted. One of the Italians bid on some household article, and it was instantly accepted.

"What's the name?" asked the auctioneer as he opened the salesbook.

"Pietro Dionosella," answered the buyer.

"Oh, that's too much! I'll put down 'Peanuts, 50 cents.' You're on," said the auctioneer as he rattled off the next article. The other Italian bid enough to secure the article, and his name was requested.

"Patricka O'Sullivana," quickly answered the Italian.

"Well," mused the auctioneer, "that's a good old name for a dago. Come, that's not yours, though."

"You beta it isa nota mine," was the quick reply, "but ita is agooda as Peanuta. You maka de fun witha 'taliano name; I maka fun wida Irish."—Newark Call.

For Art's Sake.

Mr. Boughton, the English artist, while sketching in the Alps, was one day in search of a suitable background of dark pines for a picture he had planned. He found at last the precise situation he was seeking, and best of all, says Tit-Bits, there happened to be a pretty detail in the figure of an old woman in the foreground.

"I asked the old lady," said Mr. Boughton, "to remain seated until I had made a sketch of her. She assented, but in a few minutes asked me how long I should be. 'Only about a quarter of an hour,' I answered reassuringly.

"Three minutes or so later she again asked me—this time with manifest anxiety—if I should be much longer.

"'Oh, not long!' I answered. 'But why do you ask so anxiously?'

"'Oh, it's nothing,' she sadly answered, 'only I'm sitting on an ant hill.'"

A Puzzler.

The child was four years old, logical, persistent and curious. The mother endeavored in all possible conscientiousness never to depart from any statement once made the child as fact. One afternoon this conversation occurred:

"Mother, where is your grandmother?"

"In heaven, dear."

"Oh!"

Silence and apparent absorption in toys for a full hour, then:

"Mother, didn't I come from heaven?"

"Of course."

"Well, mother, it's awfully funny that I doesn't remember meeting your grandmother there."

A Strong Hint.

A little girl went into a neighbor's house one day, and some apple parings lay on a plate on the table. After sitting awhile she said, "I smell apples."

"Yes," the woman replied, "I guess you smell these apple parings on the plate."

"No, no," said she, "'taint them I smell. I smell whole apples."

BROWNING'S FAMILY DEVOTION

People who praised or loved or noticed Browning's only child found the direct road to his heart. Even those who only spoke with him of "Pen" were at once his friends and worthy of attention and interest. He said to me many years ago while awaiting anxiously the result of his son's earnest art studies:

"Do you know, dear friend, if the thing were possible, I would renounce all personal ambition and would destroy every line I ever wrote if by so doing I could see fame and honor heaped on my Robert's head."

What a proof are these words of an intense nature devoid of all egotism! In his boy he saw the image of the wife whom he adored, literally adored, for, as I felt, the thought of her as an angel in heaven was never out of his mind. He wore a small gold ring on his watch chain. "This was hers," he said. "Can you fancy that tiny finger? Can you believe that a woman could wear such a circlet as this? It is a child's."

The only other souvenir on his chain was a coin placed there years ago, the date 1848, a piece of the first money struck by Manin in Venice to record the freedom from Austrian dominion. "I love this coin," he said, "as she would have loved it. You know what she felt and wrote about united Italy."—The Late Mrs. Arthur Bronson in Century Magazine.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

A Story of Gladstone.

Once in Gladstone's later life when a question of great delicacy and difficulty was coming on in the house of commons and everybody expected to see him watchful and alert and perhaps fidgety over it he deliberately composed himself to sleep on the treasury bench and enjoyed a refreshing nap till the time came for him to speak, when, with no apparent effort, he awoke, delivered a speech in which he said exactly what was needed and not a word more and sat down, leaving his opponents so puzzled by the safe and guarded generalities in which he had half expressed and half reserved his views that the subject dropped in a short time because no one could find in his words anything to lay hold of. It was often remarked that the greater the emergency the more composed and the more completely equal to it did he seem.

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

Japanese Festivals.

The Japanese festivals are easily remembered: First of first month, the new year; third of third month, feast of dolls, for girls; fifth of fifth month, feast of flags, for boys; seventh of seventh month, the day for the god and goddess of love, Tonabota; ninth of ninth month, the "escape to the mountain," the feast of chrysanthemums. The latter is not now generally observed.

Anniversary Thoughts.

"Hubby, dear, do you know that we will have been married ten years next Tuesday?"

"Yes; I realize that we are getting along and should begin to economize for the needs of the future."

"It is not the future that I am thinking about, but the present."

TOWN COUNCIL'S ANNUAL MEETING.

(Continued from 5th Page.)

that the same be executed by the town.—Referred to the Legal Committee.

From Hon. J. R. Stratton, acknowledging the receipt of the town's memorial asking that if the Bill authorizing Toronto to purchase and dispose of electricity be passed, it will be made to apply to all municipalities.—Received.

From the Water Commissioners, asking the Council to name a date for a conference re the rate to be paid by the town for the present year.—Referred to the Fire, Water and Light Committee.

From the Fire Hall Drivers, asking an increase in wages to the amount of $1.50 per day.—Referred to the Fire, Water and Light Committee.

From D. W. Dumble, Police Magistrate, stating that hereafter he will committ no infirm or aged person to gaol as a vagrant and that the Town will have to make other provision for them.—Referred to the Joint Committee.

From the Water Commissioners, asking that the map prepared by W. L. Innis, of the town, be purchased.—Referred to the Finance Committee.

From the Canadian Manufacturer's Association, asking that the Town join in memoralizing the Legislature to repeal that portion of the Municipal Act requiring a two-thirds vote of the ratepayers before exemption can be granted to manufacturers, and asking that a two-thirds majority of the Council be sufficient.—Received

From the Bradburn Estate, asking a rebate in the ground rent for their buildings on George and Simcoe streets, which were destroyed by fire last year.—Referred to the Property Committee.

On motion of Ald. Roger and Rush, the Crown Lands Department will be asked, through Hon. J. R. Stratton, for a copy of the certified plan of the waterfront privileges recently obtained by the Town from the Provincial Government.

The Council is considering opening up the street which runs along the river bank on the west side between Hunter and Charlotte streets.

THE LICENSE COMMITTEE

reported through its chairman, Ald. McGregor, as subjoined:

1. That William Taylor be given a refund of $20 on account of the pedler's license fee paid by him.

2. That D. McCabe be given a bowling alley license for 1902 for 50c.

3. That a fee of $10 paid by Mr. T. A. Redner for a second hand license be returned to him on Mr. Redner giving up the license.

All of which is respectfully submitted.

R. McGREGOR, Chairman.

The report was adopted.

Moved by Ald. McGregor and Morrison that the acting-chairman be authorized to purchase the dog tags for 1902.—Carried.

THE FINANCE COMMITTEE,

through its chairman, Ald. Roger, reported as follows;

1. That your committee has asked for offers for the Waterworks Debentures to be received up to March 27th inst. Advertisements have been sent to papers in New York, Toronto, Montreal and Peterborough, and a large number of circulars have been sent to brokers, bankers, insurance and other financial companies in Canada and the United States.

2. We recommend that the following accounts be paid:

H S Macdonald	3 60

All of which is respectfully submitted.

G. M. ROGER, Chairman.

The report was adopted.

THE BOARD OF WORKS,

reported as appended through its chairman, Ald. Best:

1. That the Auburn Power Co. be permitted to place poles for power purposes on the north side of Dalhousie street from Bethune street to Aylmer street, filing a plan shewing the location of the poles and the locations to be approved of by the Town Engineer.

2. That the request of the Peterborough Light and Power Company and the Bell Telephone Co., to be permitted to move a pole on Hunter street near Queen street, and to put up a new pole at the crossing, be granted, subject to the approval of the Town Engineer.

All of which is respectfully submitted.

H. BEST, Chairman.

The report was adopted.

OTONABEE POWER COMPANY.

A bylaw was introduced by Ald. Best slightly changing the route of the Otonabee Power Company's pole line. It received its first reading and the Council went into Committee of the Whole with Ald. Roger in the chair.

Ald. Morrison inquired if proper precautions had been taken to insulate the wires crossing the Hunter street bridge. He thought the pedestians should be protected fully.

Ald. Roger suggested that a provision in the bylaw be made so that the poles would be suspended in such a manner that if any wires broke they would fall into the water instead of on the bridge.

Mayor Denne thought the difficulty could be overcome by inserting a clause in the bylaw making provision for the wires to be strung to the approval of an electrical engineer. He deprecated a further delay in passing the bylaw.

Ald. Roger asked that the bylaw be referred back, urging that the matter was one which should have further consideration.

The Committee rose and reported, asking leave to sit again.

A long discussion ensued on electrical matters in general.

The bylaw was referred to the Board of Works.

SOME RESOLUTIONS.

Ald. McGregor and Morrison moved that the Market Committee be authorized to dispose of the market tolls and charges for the year beginning on April 1st, next, by auction, and to take such steps as may be necessary to carry out the sale.—Carried.

It was moved by Ald. Roger and Rush, that the sum of $25.00 each be allowed to any of the volunteers of Peterborough who went out with the last contingent to South Africa, to be paid to their parents or to some other party approved by the Mayor.—Carried.

Moved by Ald. Clinkscale and Batten, that the Mayor and Clerk be authorized to sign and attach the corporate seal to a contract in duplicate for the purchase of 400 feet of Paragon fire hose from the Gutta Percha and Rubber Co. at 90 cents per foot, the contract to be in form produced to the Council.—Carried.

Ald. Best in referring to the communication received from the Federation of Labour, stated that the wages asked by the union meant an advance of fully 20 per cent. He inquired if this demand was to apply to all labourers in the town.

Ald. McGregor—That is the minimum wage. The men are at liberty to get as much more as they can.

Ald. Best said that if the union demanded $1.50 per day for any and all classes of labourers it was most unjust and would prevent much capital being invested in the town. Such a matter should be left to the employer to adjust. He would pay what a man was worth.

On motion of Ald. Best and McGregor, the Council will meet in Committee to discuss the matter.

Ald. McGregor explained later that he did not think the demand applied to men over sixty years of age. Men over that age would be allowed by the union to make the best bargain that they could. He knew this was the case in the Carpenter's Union.

Ald. Corkery read a letter from the Ontario Beet Sugar Association, asking him to arrange for the Council to impress on the Provincial Government the advisability of making a grant to assist in defraying the expenses of the recent deputation to the Provincial Legislature in this behalf.

The matter was left in the hands of Ald. Corkery and Ald. Edgcumbe.

The Council then adjourned.

REMNANTS OF TWEEDS.

H. LeBrun & Co. have just received another large consignment of Remnants of Tweeds direct from the Mill, which they secured at mill-end prices. These Remnants come in three-quarter yard to suit lengths, and will be sold at less than half the regular web prices. No better chance was ever offered so near the spring season to buy a whole suit, or part of a suit, at a bargain. Mothers will find what they want for Suits, or parts, for their boys at lowest prices.

H. LeBRUN & CO.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Man at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

If it is asthma, bronchitis, croup, or any such trouble, use Vapo-Cresolene. All Druggists.

Furs Must Go Now!

A Grand March Finish

DETERMINED ATTACK

Third Boer Charge Was Delivered From Various Points.

MALTREATMENT OF WOUNDED

British Held Out For Two Hours But Were Overwhelmed After They Divided — Northumberland Fusiliers Fought Until They Were Overpowered—An Awful Scene of Indescribable Confusion.

London, March 5.—Telegrams received here from Klerksdorp describing the attack upon and capture by the Boers, Feb. 24, at a point southwest of Klerksdorp, of 467 British soldiers, who were acting as convoy to an empty wagon train, show that Gen. Delarey laid his plans with consummate care and precise knowledge of the ground.

The third Boer attack on the convoy was delivered from various points and was most determined. For two hours the British held out. They then divided and were overwhelmed. A few minutes of confused fighting and all was over. The Boers galloped along the line, firing at every man who showed the slightest tendency to resist, until they reached and captured the guns. In the extreme rear the Northumberland Fusiliers, who had been cut off, succeeded in fighting their way out for some distance. When their ammunition became exhausted they charged with bayonets, but were speedily overpowered.

By 7 in the morning all resistance was at an end. The dead and wounded were scattered all over the field. Broken wagons and panic-stricken horses and mules made a scene of indescribable confusion. Not until Gen. Delarey came in person was anything like order restored. He stopped the Boers engaged in stripping the British wounded by the free use of the sjambok, but they continued the work of despoiling directly his back was turned.

Dewet Shot in the Arm.

London, March 5.—A despatch from Harrisburg, Orange River Colony, says that Boer prisoners report that Gen. Dewet was shot in the arm during the recent attempt to break through the blockhouse line.

BOTHA'S PLANS.

Boer General Will Cross the Vaal to Meet Steyn and Dewet.

London, March 5.—The Times' correspondent with Gen. Bruce sends a despatch from Amersford, in the Southern Transvaal, which says that captured Boers report that Gen. Botha intends to cross the Orange River Colony to meet Steyn and Dewet. Schalkberger is also to be present. The correspondent says that Gen. Botha recently withdrew from the Vryheid District, Southeastern Transvaal, because of hustling experienced by the British on the high veldt, and has issued orders to his commanders to follow him. Schalkberger has moved with headquarters at Poossenekal. He says that Gen. Botha sought the low country because of the approach of winter. Col. Plumer took 12 prisoners near Standerton on Friday, intercepting despatches from Britz to Gen. Botha.

Canadian Remounts Compared.

London, March 5.—In his report on army remounts, just issued, Lieut.-Col. Birkbeck, assistant inspector, says that re the merits and demerits of animals he would compare the Canadians. Many were regular berouche horses, high on the leg, slack, corn-made beasts, though with some quality. He remembered being quite at a loss how to class many of the horses of a big Canadian shipload at Port Elizabeth. They were too slack to carry a man, yet too light for general draught purposes. His regret was that he could not afford to keep them to sell in Johannesburg to Rand magnates, as carriage horses.

Transvaal Services Recognized.

Ottawa, March 5.—Militia general orders to be gazetted this week contain the following: Brevet rank is bestowed as follows:

To be lieutenant-colonel, captain and brevet, Major S. J. A. Denison, C.M.G. Royal Canadian Regiment, ment, in recognition of his services in South Africa, 1899-1901.

To be major: Capt. J. Cooper Mason, D.S.O., 10th Regiment, R. G.S., in recognition of services in South Africa, 1899-1900.

The board of officers, to consider claims for decorations and medals generally, has been formed and constituted as follows: President, Col., the Right Hon. Lord Aylmer, adjutant-general; members, Lieut.-Col. H. Smith, reserve of officers; Lieut.-Col. V. B. Rivers, intelligence staff officer, and Major E. H. T. Heward, A.D.C., unattached list.

Hears to See Secretary Hay.

Washington, March 5.—Messrs. Wessels and Wolmarans, accompanied by Montague White, Consul-General for the South African republics, at New York, who have been in Washington for several days past, have arranged for a reception by Secretary Hay. This reception will be purely unofficial.

Guest of Milwaukee.

Milwaukee, Wis., March 5.—Milwaukee was host to Prince Henry for six hours last evening, and gave him a reception that was highly enthusiastic. His special train came at four o'clock, and at ten o'clock was away on the long run to Niagara Falls. The train is due to reach Niagara Falls at 3.45 p.m. to-morrow, when an address will be presented to Prince Henry by the Ontario Government.

Lord Minto will be represented by Major Maude, but there will be no military reception.

To Fly at the Coronation.

London, March 5.—M. Santos-Dumont, the aeronaut, arrived in this city yesterday. During the course of an interview he said he hoped to add to the attractions of the coronation festivities by making ascents here. If possible he will make a tour of St. Paul's Cathedral, as he did of the Eiffel Tower. Santos-Dumont will afterwards go to New York, where he will give exhibitions.

THE MILL-END STORE!

Fed with these Mill "Feints" or Ends by the largest Canadian and foreign manufacturers. We don't wish to mislead the people and have them think that this store has only Mill Ends—for there is no better assorted Dry Goods stock in Canada, considering the size. Most Domestic made, and Some Foreign. Goods are "made up" into stipulated lengths for convenience of handling and reckoning. In consequence of this, if the yarn on the loom is more than enough to weave this certain yardage, the extra piece is cut off, and constitutes a "Mill Feint."

These Feints or Ends run usually from 1 yard to 10 yards in length, and are sold to us in bulk. The preparation of getting these ready for sale means much work, yet when we can save our customers from 25 per cent to 50 per cent. on useful and usually staple goods, we are only too glad of this labour.

This store always has something or other in this way, and this week you can see represented here an object lesson of the above talk, when we will sell—

MILL ENDS OF LININGS AT MORE THAN 1-3 OFF

SILESIANS and JEANS, blacks, browns, whites and greys, worth 10c to 12c, for..... 7c

WAIST LININGS, blacks, browns and greys, in Surah twills, nice soft finish, worth 15c, 18c and 20c, for..... 11c

THE TWENTIETH DRY GOODS — UNIFORMLY RIGHT PRICES.

TOMMY ATKINS' PAY

Mr. Brodrick Announces Its Increase With His Estimates.

OTHER REFORMS MENTIONED

Alteration in the Terms of Enlistment—Pay to Be a Shilling a Day Clear—War Office Defended—Improvements in Administration — Indian Garrison to Be Increased—The Volunteers.

London, March 5.—In introducing the army estimates of £29,310,000 in the House of Commons yesterday War Secretary Brodrick entered into a long defence of the War Office, which, he contended, had done its work well, considering that a war had never been before waged on such a scale as the South African war. The War Office to-day was feeding 300,000 men and 246,000 horses in South Africa, and there was no complaints on that score.

The experiences of the past year had confirmed the necessity for changes in the army administration, in decentralization, etc., as outlined by the Government last year. Military officers and clerks were being rapidly substituted in the War Office for civil officers and clerks.

In regard to recruiting, Mr. Brodrick believed the limit had been reached. No reduction in the strength of the army could be expected, and, probably, the Indian garrison must be increased.

The country had already enough experience of allowing the colonial garrisons to sink below their proper limits.

With a view of giving a fillip to recruiting, Mr. Brodrick said the Government proposed to allow enlistment for three years, with nine years in the reserve, and, with the object of inducing men to enlist for India and elsewhere abroad, it was proposed to give every one a clear shilling per day. If, after two years, the soldier decided to serve eight years with the colors and four years in the reserve, he would be paid an extra sixpence daily. Mr. Brodrick said this would result in enlisting a better class of men.

In regard to the much-discussed question of volunteers, Mr. Brodrick declared that if the volunteers were to be a bar to conscription they must make themselves efficient. It was proposed to establish a volunteer reserve of men over 40 years of age who were unable to comply with the ordinary regulations, and establish during the present year a military reserve of 50,000 men. The education of all officers would be vigorously prosecuted, and the expenses of every young officer would be lightened.

WORD FROM THE ETRURIA.

Making For Fayal in the Azores in Tow of the Wm. Cliff—Passengers Are Well—Propeller Broken.

London, March 5.—The British steamer Ottawa, from Philadelphia for London, has arrived at Fayal, Azore Islands, and reports having sighted the Cunard line steamer Etruria in tow of the British steamer William Cliff, 400 miles west of Fayal. The Etruria had lost her propeller. The Etruria would probably reach the Azores last night or this morning. Arrangements are being made to send tugs to tow her home.

Torontonians on the Etruria.

Toronto, March 5.—Yesterday Mr. Joseph Heighington of this city cabled from Horta: "Proceeding by way of Azores to England. Don't worry. All well."

These Canadians are also on board the disabled steamer: C. W. Dunning of 76 Brunswick avenue, and W. A. Denton of 21 Berden street, buyers for John Macdonald & Co., Toronto; Frederick Trebilcock, 1,609 East Queen street, buyer for Wyld-Darling Co., Toronto; J. D. Allan, 84 Willcocks street, Toronto; E. A. Bridges, Montreal, G. Campbell, Toronto; A. H. Chitty, Sault Ste. Marie; L. D. Merrick, Ontario; J. H. McDonald, Toronto; W. O. Murray, Canada; F. L. Ordway, London; C. Pettibone, Toronto; D. A. E. Rees, London.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, make them active, vigorous, and thoroughly cure these ailments. One 25c box of this great Kidney medicine will do you a world of good.

The Paper You Like.

We wish to introduce two of our leading lines of note papers with envelopes to match. They are known as "Sylvia Grey," being a beautiful London Grey shade of note paper, done up in neat packages of 125 sheets and envelopes in boxes of 100. This week the price will be 25c per package, and and 25c for the envelopes. Our "Adriatic Parchment" paper is a pure vellum white note, a beautiful surface to write on—in packages of 125 sheets for 25c., envelopes in boxes of 125, for 25c. Just received, "The Right of Way," by Gilbert Parker, latest copyright, at 75c. each. A. H. Stratton & Co., 417 George street.

Baby's cold may be cured in a night by using Vapo-Cresolene, which has been extensively in use for twenty-four years. All druggists.

KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well.

MRS. LOUISE M. GIBSON.

"**Lydia E. Pinkham's Vegetable Compound** cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty."—MRS. LOUISE GIBSON, 4813 Langley Ave., Chicago, Ill.—*$5000 forfeit if above testimonial is not genuine.*

"If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. **Lydia E. Pinkham's Vegetable Compound** has cured and is curing thousands of cases of female trouble.

DON'T DO IT.

Don't present your wife, your sweetheart, or your friend with a worthless box of Bon Bons. Give them the best only. To do this, the Bon Bons must be McKenzie's—the only place in Eastern Ontario where satin finished Bon Bons can be procured. Every one who receives a box of our goods are always more than pleased. Examine them before buying elsewhere. A glance at our window will convince you of their high standard. Manufactured and sold only at

WEDNESDAY, MARCH 5, 1902.

GOVERNMENT OWNERSHIP AND DISTRIBUTION OF POWER.

Under the above heading the Toronto News prints the following article:

It may be assumed that one plank of the platform upon which Mr. Whitney will appeal to the electors of Ontario was intimated in the resolution of Mr. Miscampbell calling for the development of electrical power by the Provincial Government, and the sale of energy to municipal corporations at cost price.

If would be difficult to conceive how any urban constituency could fail to respond to an appeal for support made upon that line. Cheap electric power will do more for industrial development and domestic comfort of town or city than any other single agency, and to get this under Government auspices is something that every community should urgently desire.

Ontario has been handicapped in several lines of industry by the cheap labour to be obtained in the Province of Quebec. Unfortunately for the citizen of this province, his French-Canadian fellow-citizen is content to adopt a lower standard of living than he is accustomed to, and demands. Consequently some important enterprises which naturally belong to this province, have been established in, or removed to, the Eastern Province.

If the Provincial Government could supply our manufacturers with power at a lower rate this would be a set-off to the cheap labour of the neighbouring province, and without lowering the standard of living which obtains among us now, would make it more profitable for large employers of labour to locate in Ontario than in Quebec. We hope never to see the day when the standard of living which prevails among the operatives in the Lower Provinces will be adopted in Ontario, and if, while maintaining the British-Canadian standard we can adopt such measures as will counteract the influence of the low-priced labour of the sister province, we will have achieved a notable victory in the industrial field.

To every manufacturer in Western Ontario Mr. Whitney's policy should appeal with especial force, and while it would naturally mean more to the urban community than to the rural constituency, even the farmers would reap their full share of advantage from the adoption of this new plank in the platform of the Opposition. When electricity is conveyed from a great central water power like Niagara Falls to a dozen towns and cities, it will be but one more step in the development of the service to enable farmers along the route of the trunk lines to get a supply of electricity for any purpose for which it could be economically used upon the farm. There is probably sufficient energy going to waste at the great cataract to light the house of every farmer in Western Ontario, and to give him a supply of power for which he might need it.

The proposal, therefore, is one that ought to appeal to every class of citizen, to the city dweller, and to the agriculturist also, and this might all be accomplished, not only without the expenditure of a dollar of provincial revenue, but rather to the strengthening of the credit and standing of the Government.

It is however a policy which must be carried out in spite of, and against the most strenuous opposition of the great electrical companies which now exist in the various parts of the province. These seem to have sufficient influence with the Government to secure the defeat of Mr. Miscampell's amendment. We may be sure, from the stand Mr. Whitney has taken in the Legislature, if he should obtain power he will not listen to the protests of entrenched monopolies when the interests of the people are in the balance.

The junior Conservative organ does a deal of generalising to get at a veiled advocacy of the Government development of water powers to generate electricity to supply the city of Toronto. All the cheap philanthropy displayed towards the manufacturers of Western Ontario is but a sprat thrown out to catch a whale for Toronto. The persistence with which this sectional idea is dealt upon shows that the care and centre of the Conservative leader's little late adopted "policy" is the development of Niagara Falls power for sectional and local benefits. Where does Eastern Ontario come in for a share of the benefits to be derived from the expenditure of millions of the people's money for the benefit of the city of Toronto? We have not the slightest objection to Toronto having all the power, all the cheap power, she needs, but we do object to her getting power by the expenditure of the money of the people at large who will be called upon to contribute to the cost without sharing the advantages. If Toronto wants cheap power let her do as Peterborough does. Let her have citizens with enough enterprise to invest capital and develop cheap power for the use of manufacturing concerns. How do the people of Peterborough whose good money is turning round water wheels and turning out power, relish the idea of contributing millions, through the Provincial exchequer, to create power to be furnished at cost to two or three favoured cities and to a favoured section? While state and municipal ownership and exploitation of public utilities have their claims to consideration, such claims only have weight and value to the extent that sound and practical business principles, and great dealings as between the different sections of the Province warrant. If the public resources are to be used and the public credit pledged to the development of electrical power, it must be done under conditions that will permit of a distribution of benefits as general as the distribution of the burden of costs of production. If the whole Province is generally taxed to produce power the Province must generally enjoy the advantages, and the benefits must not be confined to Toronto or any other particular section. The News is quite consistent when in Mr. Whitney's political interest it varies its race assault, by degrading our French Canadian fellow citizens to the level of Chinese—Chinese cheap labour—in order to justify a plea for robbing one section of the Province for the benefit of another.

Your Faith

will be as strong as ours if you try

Shiloh's Consumption Cure

and ours is so strong we guarantee a cure or refund money, and we send you free trial bottle if you write for it. SHILOH'S costs 25 cents, and will cure Consumption, Pneumonia, Bronchitis and all Lung Troubles. Will cure a Cough or Cold in a day, and thus prevent serious results. It has been doing these things for 50 years.

MEN OF JUDGEMENT.

When Rev. A. C. Courtice stood forth recently at the mass meeting of prohibitionists and said he was a moderate man he was quickly given to understand that moderation was not what his audience desired. In the clamour of tongues Rev. J. E. Starr found it necessary to ask if the assembly was a meeting of the Dominion Alliance. It was, indeed, the Dominion Alliance, supposedly met to deliberate on a serious question. But the discord was not suggestive of alliance, the noise was not conductive to deliberation, nor were the multiplicity of resolutions battling for supremacy indicative of that oneness of view which would warrant the assembly in thinking that it could reach a wiser conclusion as to what should be done than the Ontario Legislature was capable of. These people were all prohibitionists—these people who tried twenty at a time, to make speeches, to read resolutions, to refer these to a committee or to drag them back again, lest somebody should mend or end them. All kinds of contrary opinions met in the shock of conflict, and the scene should have convinced many who were present that the issue is not quite as simple as they would have us believe.

The moderate man had no place in that gathering. It was the immoderate man—the wild-eyed haranguer—who won the applause. There is a type of man who, when he sees an audience, craves its applause as the drunkard yearns for strong drink. This acquired appetite for acclaim hopelessly masters the weak man, makes of him an intellectual debauchee, and causes him to plunge into whatever excesses of speech will wring from his audience the approval his appetite demands. He cannot bear to speak views that will be received coldly. He must have on all sides of him the cheers and the warm contact of the crowd. The platform of yesterday's convention was the place for such men, rather than for moderate men.

Yet it is worth nothing that in the steady grind of life within the churches and in the broad work of moral advancement, it is the moderate men who wear best and accomplish most. He who addresses the judgment of his fellow-men may not for the moment be able to vie with the one who appeals to their emotions, but good judgment finally proves that it is good. It is therefore a fact of the highest significence at this time that all the leaders of all denominational Churches, with the exception of one man, are withholding their names and their support from this present clamour against the referendum, and are known advocates of the belief that prohibition could not safely be applied unless demanded by some such emphatic request on the part of the people as that provided for by the Ross bill. The one man who is an exception is Rev. Dr. Carman, and his exceptional position was to be expected. In the Methodist Church are Rev. Dr. Potts and Rev. Dr. Briggs and Chancellor Burwash; in the Presbyterian Church, Rev. Dr. Warden, Principal Caven and Principal Grant; in the Baptist Church, Chancellor Wallace; in the Evangelical English Church, Principal Sheraton — these and others, including the editors of the Church papers, are all deeply impressed with the serious nature of the proposal that temperance legislation shall end forthwith in a prohibitory law. They all admit that the preparation of the country for so great a change must be conclusively shown in advance of such a law. Unless the real public opinion of the Province wants the law passed, and would want it enforced and maintained continuously, nothing can come of it but failure, and therefore the far-seeing men of the Churches are as desirous of having the test vote made searching and conclusive as are those opposed to such an enactment. It is all very well for men of the "small-pot soon hot" variety to throw such considerations aside, but men, who through the excellence of their judgment have reached the highest places in all the Churches, are perhaps not showing less than their usual judgment when they feel that these considerations cannot be thrown aside by them.

Most of these men have for a generation been the strong men of their Churches. Are they weak now? Or will the outcome prove that they never were stronger than now, when they stand in an unpopular place, bearing with misrepresentation and waiting for time to vindicate the soundness of their views? It is not noise that counts eventually, nor whether a man wins applause. That which will count in the end is whether a man was right or wrong — whether he forsaw or did not forsee which of many perplexing roads was the right course to pursue.—Toronto Star.

ONLY A SUGGESTION.

But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest, and that food should be albuminous or flesh-forming food, like eggs, beefsteak and cereals; in other words, the kind of food that make flesh are the foods which form the greater part of our daily bill of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh-forming beefsteak and eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking, after each meal, one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to regain its natural tone and vigour.

Stuart's Dyspepsia Tablets digest every form of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful ingredient.

Stuart's Dyspepsia Tablets is the most successful and most widely known of any remedy for stomach troubles because it is the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as in Great Britain, at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people strong, plump and well.

A GREAT, GRAND GENERAL CLEAN-UP

At this season of the year—just before the Spring Goods arrive—a clearance must be made. This week we concentrate all small lots and discontinued patterns of our Wall Paper Department. Also many lines in other departments, which we mark at prices simply irresistible. A few examples follow:—

500 Rolls Tapestry Wall Papers, with perfect match borders and ceilings in deep Red, Blue, Green, Brown for halls, dining rooms, library, etc, regular 25c, clearing at	9c
300 Rolls Ingrain Wall Paper, regular 15c per roll, 2 good colourings, this week	8c
18 inch Friezes to match, regularlie, this week, per yard	7c
160 Window Shades, which cannot be bought in the regular way for less than from 60 to 85c, clearing at	49c
30 Dozen Tea Spoons, fancy handle, quality A1 and will not tarnish, good value at 10c. Price this week, per dozen	8c
40 Table and Dessert Spoons, your choice, each	4c
75 Butter Knives, each	5c
17 only Butter Knives, quality guaranteed, regular 50c, for	25c
30 Dozen Silver Steel Tea and Dinner Knives, reg. $1 doz., for, each	10c
10 Dinner and Tea Sets, which were marked down to $16, full 97 pieces, gilt edges, 3 patterns, choice	7.98
30 White Ewers for chamber sets, regular 50c, clearing at	29c
50 dozen Cups and Saucers, coloured band, red, green and pink, regular 35c per dozen, take what you want at, each	5c
20 Glass Table Sets, consisting of sugar bowl, cream, pitcher, spoon holder and butter dish, complete set for	29c
30 dozen Bottles Sewing Machine Oil, large bottle, best quality, bottle	5c
10 dozen Castor Oil, regular 10c, for	5c
50 dozen Genuine Vaseline, 3 bottles	10c

We have many other lines worth mentioning, which you ought to know about. Limited space shuts us off. We invite inspection at

GOUGH'S CONFEDERATION.

PETERBOROUGH BRANCH:

Messrs. Tully and Merrell, Managers.

Pursuant to the announcement made by the firm in January, Messrs. James A. Tully and William S. Merrell, our two oldest employees, took charge of the management of our Peterborough business on March 1st. The reasons which justified their being entrusted with this responsibility, and the ample confidence which we repose in their business ability and integrity, have already been fully explained to our patrons and the public.

This Re-Organizing of our Peterborough business does not make "Gough's Store" any less Gough's. It will continue to be "Gough's Store," with the same old policy and the same old predominance that has marked its career during the past sixteen years. **GOUGH BROS. GIANT CONFEDERATION** sweeps into another epoch of its history with greater strength—its position, fortified by past successes—and the path cleared for still more wonderful achievements. Our Confederation of Branch Stores faces, triumphant, the dawning of a new season, and challenges the entire market to meet it on the field of competition.

We Are On The Threshold of The Greatest Season's Business We Have Ever Had

And this has stirred us to supreme efforts in placing our New Spring Stocks for 1902 beyond the reach of competition We have confidence in the people of Peterborough, and the wonderful growth of our business is evidence that the people of Peterborough have confidence in us.

Messrs. Tully and Merrell are here to get your trade and keep it—to safeguard your interests as well as our own. We and they, and the united co-operation of our Confederation of Stores, will do all in our power to retain your patronage. The steady hold-on of the old customers, and the continued addition of new, will always be the focus of this business. We respectfully solicit a continuance of your patronage under the new management.

OUR MAMMOTH COLLECTION OF NEW SPRING HIGH-CLASS CLOTHING, BOOTS AND SHOES, HATS AND CAPS, AND GENTLEMEN'S FURNISHINGS, FOR THE SEASON 1902

Stands as an example of selected excellence, and overshadows, beyond comparison, any other shewing in the Dominion of Canada.

5-8 QUEEN STREET WEST, TORONTO.

RAILWAY COMMITTEE

Ontario Legislature Asked to Sanction a Provincial Body.

ELECTRIC LINES IN PROVINCE

Would Settle Disputes With the Municipalities—Also Regulates Road Rights—Redistribution Bill Given Its Second Reading—Supplementary Estimates and Railway Subsidies to be Brought Down Today.

Toronto, March 4.—In the Legislative Assembly this afternoon Hon. G. W. Ross introduced a bill respecting electric railways, giving the Railway Committee of the Executive Council of Ontario jurisdiction over railways, electric railways and street railways, subject to the legislative jurisdiction of the province. The Railway Committee is to consist of the Commissioner of Public Works, who shall be chairman; the Attorney-General and Commissioner of Crown Lands, and any other members of the Executive Council who may be appointed thereto. Electric and street railways are given the right to connect with other lines. The Railway Committee have power to determine all questions as to the respective rights of companies.

When the bill to amend the act incorporating the Ontario Ship Railway Co. came up for a third reading on the motion of its promoter, Mr. Conmee, it was referred back to Committee of the Whole and on the suggestion of Mr. Whitney amended so as to change the name of the road to the Great Lakes Railway. It was provided that the charter should lapse unless $50,000 were expended within one year, and also unless a single track over the line were constructed within three years. The bill as thus amended passed its third reading.

Hon. J. M. Gibson's bill to amend the Jurors' Act was amended in committee so that it does not apply in counties in which cities are situated and read a third time.

The following bills were read a third time: To amend the Agriculture and Arts' Act, Mr. Dryden; to incorporate the Huronian Company, Limited, Mr. Charlton; respecting the Nepigon Railway Co., Mr. Conmee; respecting the County of York, Mr. Hill; to incorporate the Lake Superior, Long Lake & Albany River Railway Co., Mr. Hill; to incorporate the Canada Western Railway Co., Mr. Conmee; respecting a bylaw of the Town of Sarnia, Mr. Pardee.

Hon. J. R. Stratton presented the annual reports of the Board of Health and the Bureau of Mines.

Mr. Harcourt moved that the House ratify an Order in Council appropriating out of the endowment of the University of Toronto $125,000 for the erection of a building to be used for the purposes of the Medical Faculty and Department of Physiology. He explained that the amount was to be advanced as a loan, bearing interest at the rate of 4 per cent. and enlarged on the advantages which would accrue from the construction of the proposed building which would afford accommodation that was now badly needed.

Mr. Jessop asked whether some arrangement could not be made to secure graduates of the University the advantages of a post-graduate course, owing to the lack of which many young Canadians went abroad to complete their education.

Mr. Harcourt did not think that any advantages the Government could offer would prevent young men from going abroad to study, and he did not know that it was a bad thing that they should do so. Some Canadians had attained an eminence in connection with science which it was doubtful if they would ever have reached had they remained at home.

The motion was adopted.

Hon. Mr. Harcourt's bill respecting the University of Toronto and University College, and Hon. F Latchford's bill to provide for the removal of abstructions in rivers and streams, were read a second time.

Hon. John Dryden moved the second reading of his bill to amend the Ontario Factories Act. Mr. Whitney said there had been great and frequent complaints as to the unsatisfactory wording of the act. People asserted that the inspectors were not doing their duty. Mr. Dryden said that the inspectors had very onerous duties to perform. They were instructed to carry out the law strictly, but some people thought that it would be a difficult matter to do this unless they had an inspector in every city or large town. But of course the Opposition would object to any increase in the number of officials. The bill was read a second time.

Hon. J. M. Gibson in moving the second reading of his bill to amend the Statute Law, explained that among other provisions it increased the emoluments of sheriffs in cases where the income fell short of $1,000, and also provided that the sum of $1,000 now paid towards the salaries of Supreme Court Judges should not cease in case the Dominion Government should increase their salaries. The bill received a second reading.

Hon. J. M. Gibson moved the second reading of the bill to amend the act respecting the Representation of the People in the Legislative Assembly, giving New Ontario 4 additional representatives. He urged that New Ontario was not sufficiently represented. Owing to the large extent of the existing constituencies members were not sufficiently familiar with their local conditions prevalent in all sections of their constituencies. The differences in the population of the different constituencies were not sufficiently great to form the ground of an objection to the measure.

Mr. Whitney agreed as to the need of giving New Ontario larger representation. He criticized some of the details of the divisions of the constituencies. Port Arthur was situated to the north of Fort William, yet it was included in the Southern Division, while Fort William was in the northern.

The bill received a second reading.

Hon. G. W. Ross, in moving the adjournment of the House, announced that the supplementary estimates would be brought down to-morrow and the railway subsidies as early as possible.

"Scrap Iron" Assessment.

At the Municipal Committee yesterday, four bills on the assessment question were considered. Three of them were snowed under, and the principle of Dr. Pyne's bill, which recommended that the plants be assessed at their fair value to the owner for the purpose for which they are being used by him, was accepted, but with the Attorney-General's amendment that provided for assessment on a basis "of actual each value, as the same would be appraised upon a sale by the company to another company possessing similar powers, rights and franchises."

The Bonus System.

The committee endorsed the principle of Mr. Pattullo's bill respecting bonuses, providing that one municipality may not lure an established industry from another municipality by means of a bonus, even though the company change its name. On Hon. Mr. Gibson's suggestion it was decided that the clause be redrawn.

FRENCH SUPPORT REVOLT.

Rebellion in China Aims to Overthrow Present Dynasty.

Hong Kong, March 4.—The rebellion in Kwan Si Province is spreading rapidly. Signs of unrest are already Apparent at Kwe Lin and Nas Ning, the newly-opened river treaty ports. The rebel propaganda, which has spread far and wide, includes the overthrow of the Manchu dynasty, the founding of a Chinese dynasty, and helping the oppressed and needy Chinese. The French are said to be secretly supporting the rebels.

They Want Their Money.

Pekin, March 4.—The Government has ordered Marshal Su to resume command of the rebellious soldiers in Kwang Si Province. It is doubtful if he will be able to control them, as it is necessary first to pay them their overdue wages.

The French legation here has received a telegram saying that the rebels have killed a French offices near Tonquin border.

I Will Cure You of Rheumatism

No pay until you know it.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever.

I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles of Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month, and if it does what I claim, pay your druggist $5.50 for it. If it doesn't, I will pay him myself.

I have no samples. Any medicine that can effect Rheumatism with but a few doses must be drugged to the verge of danger. I use no such drugs. It is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk. I have cured tens of thousands of cases in this way, and my records show that 39 out of every 40 who get those six bottles pay, and pay gladly. I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. Let me send you an order for the medicine. Take it for a month, for it won't harm you anyway. If it cures, pay $5.50. I leave that entirely to you. I will mail you a book that tells how I do it.

Simply state name of your dealer and address Dr. Shoop, Box 41, Racine, Wis.

Drugs Couldn't Cure Her.

Lydia Lepard, of Holt, Ont., Tries the New System of Curing People With Marvelous Success.

I have been a sufferer for about five years from stomach trouble. My stomach was so weak that I could not eat enough to keep my strength up, and at last got so weak that I had to take to bed. I was treated by three of the best doctors, but could get no relief. I had taken all kinds of patent medicine and drugs, but couldn't get relief that way. I commenced taking Ozone because I believed that drugs couldn't cure me, and I wanted to try this natural method. I must say it has worked wonders in my case. I can eat a hearty meal, and now I feel brighter and better than I have done for years. I am completely cured.

I also suffered from rheumatism in my side and arm, and the Ozone has completely cured that trouble. Signed Lydia Lepard, Holt, Ont.

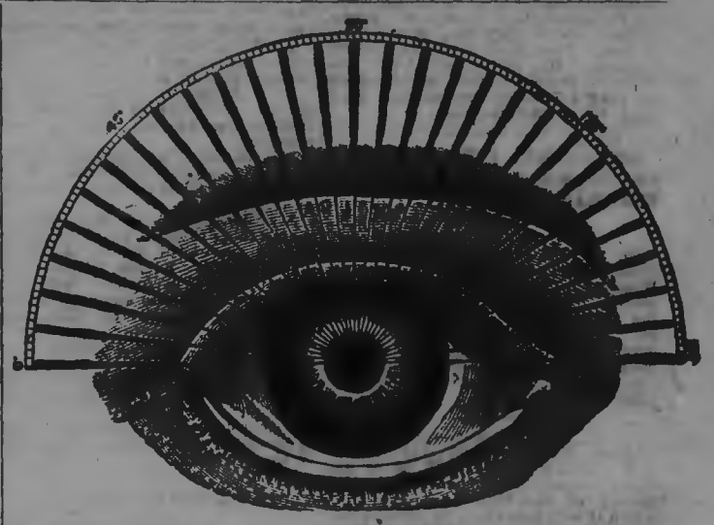
A great many people think it is necessary to take a pill to make their bowels move, a tablet to give them a good digestion, and a powder to make them sleep. They wouldn't require these drugs if they were to keep their systems healthy in a natural way by using Fowley's Liquified Ozone. People with sedentary occupations find that by taking Ozone it has the same effect as exercise or a good long walk. Their blood obtains its required amount of oxygen and they enjoy robust health. You can do likewise. This new discovery is for sale at all druggists for 50 cents and $1 a bottle.

Two Hundred Drowned.

Victoria, March 5.—The Kobe Herald is authority for the statement that 200 fishermen from the Village of Wugo were drowned in a storm off the coast of Mitji Kan. The boats had gone a long way out, and, being overtaken by the storm, were lost. This was on Feb. 17.

Stops the Cough and Works off the Cold.

Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25c. m-w-f



THE GLARE OF THE SUN AND SNOW

is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

Daily Examiner.

WEDNESDAY, MARCH 5, 1902.

Labour Meeting at Lakefield.

A deputation from Peterborough Federal Union, No. 9240, will go to Lakefield to-night for the purpose of assisting in organizing a labour union in that village. Mr. J. M. Flett, organizer of the American Federation of Labour, will accompany the deputation.

Horses Wanted.

Mr. James Taylor, of Smith, who recently sold his farm in Smith, wishes to purchase a team of young horses, about 1400 lbs., mares preferred. They must be sound in every respect. Mr. Taylor will be at the Morgan House at noon on Saturday to take a look at any animals that may be offered for sale.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

I. O. O. F. "At Home."

On Friday evening, March 7th, Pontypool Lodge will hold an "At Home." An enjoyable time is expected. As the Peterborough brethren are invited, no doubt several will go. If ten or more can go the party may return to Peterborough on the midnight train. All who go are requested to be at the station not later than half-past four.

St. John's To-night.

Canon McNab's illustrated lecture at St. John's to-night will be of peculiar interest to all concerned in the history of the Church of England, which it will help them to understand in a pleasant and pictorial fashion in two hours as much as by a course of reading. A collection will be taken from all at the door, which, it is hoped, will be liberal. The public are invited. To begin promptly at 8 p.m.

BAND CONCERT
THURSDAY EVENING
MARKET HALL
ENTIRE CHANGE
OF PROGRAMME.

NEWS NUGGETS.

—All Saints' choir will practice this evening at 7.30 o'clock.

—The Y.M.C.A. Ladies' Auxiliary meets Thursday at 3.30 p.m.

—An address upon the Missionary Convention lately held in Toronto, will be given to-night at the prayer meeting in St. Paul's church.

—Attention is directed to R. McWhinnie's advertisement announcing a grand opening of new spring footwear, at special prices for two weeks.

PERSONALS.

Rev. Mr. Warren will preach at St. Luke's church to-night at 8 o'clock.

Mr. Duncan Cameron has returned to his home in Cadis, Ohio, after a few day's visit to his mother, Mrs. Cameron, 19 Elm street.

Mr. Williamson, of the Y.M.C.A., paid a visit to the Y.M.C.A. Bible Club in Campbellford last evening, as delegate from the Provincial Committee.

Messrs. Rolly Griffin, C. Grillos and Z. White, jr., of the back lakes were in town yesterday looking over the City of Peterborough with a view of getting some pointers on up-to-date steam boat machinery.

GONE TO OTTAWA.

A Large Deputation Went Down Last Night—Their Object.

A large deputation went down to Ottawa last night to interview the Dominion Government regarding the taking over of the control of certain dams and lakes in the northern portions of the county in order that water might be conserved and allowed to pass down into the Otonabee River at a minimum flow, thereby increasing the power available the year round.

The deputation was made up of representatives from the various towns and villages along the route, and representatives from a number of the users of power.

The Town Council was represented as follows: His Worship Mayor Denne, and Aldermen Corkery, Batten, Clinkscale, Rush, Shortly and Edgcumbe. Mr. Felix Brownscombe, town treasurer, accompanied the deputation, as well as representatives of the local press.

PRIZES AWARDED

By the W. C. T. U. Last Night at the Y. M. C. A.—The Winners.

There was a good attendance at the Y.M.C.A. last night, when the annual distribution of prizes to the pupils obtaining the highest marks in Scientific Temperance at the local schools were presented.

The chair was occupied by Mrs. James Kendry, president of the W. C. T. U., under whose auspices the [illegible] and the proceedings were opened by the singing of the "Maple Leaf." Miss Kendrey rendered a vocal solo entitled "May Time," which was followed by a recitation by Mrs. Moore.

Rev. J. Bastow made a few remarks, after which Mrs. Daly delighted the meeting with a vocal selection.

Mrs. Kendrey at this juncture extended a hearty invitation to all those who wished to become members of the W.C.T.U.

Mr. J. W. Garvin was asked to make the presentation of the prizes to the successful pupils, in the absence of Rev. Father O'Brien, who was to have performed that ceremony, but who was unable to attend.

The pupils receiving the prizes were:—

John Corkery, jr., obtained 83 per cent., prize, $5.00.

Fred Pope, 79 per cent.; prize $3.00.

Edith Crossley, 79 per cent.; prize, $3.00.

The two first mentioned pupils are in attendance at the Separate Schools of the town.

AT MURRAY STREET.

Baptist Church Missionary Society Held its Annual Meeting—The Officers.

The annual meeting of the Women's Mission Circle of the Murray street Baptist church, was held on Tuesday evening. There was a good attendance. Mrs. Dr. Scott presided. A Bible reading was given by Mrs. H. P. Kennedy.

The secretary's report was presented by Miss M. A. Nicholls. Mrs. Bastow read the treasurer's reports, and Miss Ada Bradshaw reported for the Mission Ban. The Grande Lingne report was presented by Miss Roberts. Mrs. Sharp, a missionary among the Indians on St. Peter's reserve in the Northwest, gave an interesting account of work among the Indians in the far west. The work in India was outlined by Mrs. Hunter.

Greetings were conveyed from St. St. Paul's, St. Andrew's, St. John's, Park street and Gilmour Memorial.

The financial statement was presented as follows:

Amt. raised for Foreign Missions	$161 83
Amt. raised for Home Missions	81 71
For Northwest Indians	6 36
Monthly Collections	6 48
Amt. raised by Mission Band	43 00
	$346 38

The following officers were elected:

Pres. — Mrs. (Dr.) Scott, re-elected.

1st Vice-Pres. — Mrs. Bastow, re-elected.

2nd Vice-Pres. — Mrs. J. Wood.

Sec. — Miss M. A. Nicholls.

Treas. Foreign Missions — Mrs. G. Matthews.

Treas. Home Missions — Miss Aldridge.

Collectors — Mrs. R. Matthews, Mrs. J. Montgomery, Mrs. W. Montgomery, Mrs. Hutchinson, Miss Cockrane.

IN LATEST SPORTING CIRCLES

Peterborough Ladies Won in Cobourg Last Night.

The Galt Team Will Play Here on Friday Night—Colts' Cricket Club to Organize—Other Notes.

HOCKEY.

By the defeat of the Collingwood team in Toronto, last night, by the Galt aggregation, it is now definitely known that the Galt seven will be the team that will play here on Friday night. The Galt hockey team has been picked as the winners for some weeks past. In fact such has been the case from the beginning of the season. Whether they are going to win out the series, however, will be better known after the game on Friday night. The Peterborough seven are remaining quiet. They are doing no loud talking, but are prepared to put up the game of their lives. They will do their best.

In order to facilitate matters, tickets for the final game with Galt here will be on sale at Ormond & Walsh's, and at the rink, and the doors will not be open until 7.15 p.m. The game is called for 8.30 sharp, and the local executive will not be at fault if it does not start sharply on time. The game is under the control of the O.H.A., who arrange for the rink, and pay all expenses, and consequently the admission is 25 cents to all — adults or children, ticket holders or otherwise.

The final practice of the team will be held to-night at the usual hour. All the players are asked to turn out for a time.

The Peterborough young ladies succeeded in defeating the Cobourg young ladies in the latter town last night by a score of 1 to 0. No particulars of the game are yet to hand but it must have been an exceptionally close and exciting game, judging by the score. The Peterborough young ladies will arrive home at 5.30 o'clock this evening. They are being royally entertained in Cobourg to-day. A despatch says:

Cobourg, March 4. — Before one of the largest local crowds of the season the Peterborough Ladies' Hockey Club defeated the home ladies' team to-night by a score of one to nothing. The goal was scored early in the first half by the visitors. The young ladies played clean fast hockey, and several times were applauded for their brilliant playing. The players:

Peterborough — Goal, Miss Scott; point, Miss Hunter; cover point, Miss Scott; forwards, Misses Hall, Scott, Fitzgerald and Scott.

Cobourg — Goal, Miss Hewson; point, Miss McCallum; cover point, Miss McNachtan; forwards, Misses Thompson, Skill, Crowther and Osler.

Fenelon Falls, March 4 — A game of hockey was played between the Lindsay and Fenelon Falls teams on the latter's ice this evening. The game was rough from start to finish. The score at half-time stood 4 to 4, and at full time 9 to 8 in favour of Fenelon Falls. A special train brought up about 250 spectators from Lindsay. The following composed the teams:

Lindsay—Goal, Gross; point, Spragg; cover point, Callachan; forwards, Taylor, Dennistoun, Parkins and Shannon.

Fenelon Falls — Goal, Gould; point, P. Deyman; cover point, Burgess; forwards, Beteau, C. Deyman, Sandford and Patterson.

Referee, O'Neil, of Lindsay; timekeepers, Preston and Junkin; goal umpires, Dr. Walters and J. Jones.

Had Collingwood won from Galt last night, there would not have been any more games here this season. Here is what the Toronto Telegram of last night said:—"If Collingwood wins from Galt to-night they will play a sudden death game in Toronto against Peterborough on Friday night for the championship. This arrangement has been made owing to the difficulty of either team reaching the other town. If Galt wins, home and home games will be played on Friday and Monday nights between Galt and Peterborough in the finals."

The Belleville Ontario says:—"The complimentary banquet given by Mr. W. B. Deegan to the members of the Belleville Hockey Club and their friends on Monday evening, was a splendid success in every way. There was a good turnout of the boys and all thoroughly enjoyed themselves. The menu provided by Mine Host Wallace was an elaborate one, and all did ample justice at the festive board. The interior of the dining hall was prettily decorated with flags, bunting, flowers and the colours of the Belleville Hockey Club."

The sporting fraternity of Port Hope, but more particularly the lacrosse and hockey teams of that town, have lost a valuable man in the person of Mr. C. C. Colman, who will leave on Monday morning next for Winnipeg, where he will reside in the future. Mr. Colman has for some years been the leading spirit in hockey and lacrosse circles in Port Hope and has been captain of the teams representing these two lines of sport. He has, therefore, had the opportunity of meeting the people of Peterborough in many ways, and they have had the pleasure of his acquaintance and an opportunity of forming some idea as to his record in the athletic world. It is safe to say that if the people of Port Hope would only follow the good example that Mr. Colman has set them regarding gentlemanly play and kindly feelings between the clubs of this district, not even Cobourg could say a word against the conduct of the Port Hope people in sporting circles. Mr. Colman's departure will be regretted, not only in Port Hope, but in every town in this district where he has visited with his team, and Peterborough people join with Port Hope in wishing the ex-captain success in his new home. Mr. Colman was given an enthusiastic send-off by the fellow employees in the office of the Port Hope Guide, where he has been employed for some time.

A despatch from Pittsburg, in referring to a certain hockey match, says: "The hockey referee, like the baseball umpire, can make or unmake a game. If he is too lenient with the players they will take all liberties and run the game. The work of the different referees, with a few exceptions, at Duquesne Gardens this year, has been satisfactory, especially that of Dr. King."

Mr. James McCabe will referee the Trent Valley game in Norwood to-morrow night between Fenelon and Norwood.

The Montreal Victorias are protesting the result of their last match in which they were defeated on the ground that the puck used was smaller than the regulation size. Press critics are severe on the Vic's for protesting on such grounds, but if the Vic's didn't know that the puck was lighter than usual it would make all the difference in the world in their shooting on goal, and would be a decided disadvantage particularly if their opponents were accustomed to using such a puck, which appears to be the case. If the Vic's played with the smaller puck knowingly the fault would be their own.

The Cobourg World, in referring to a match between Port Hope and Cobourg, and the report of the same as published in the Guide, says:

"They forgot to mention that their own team played the dirtiest and the meanest game ever seen here. McMillan attempted to put Jake Brown out, the same as Colman did to H. Armstrong of Peterborough. How could Port Hope expect to win when Cobourg played the best game, while the referee allowed the visitors to play too much shinny, and should have had them on the fence. Rorabeck and Jake Brown seemed to be the particular ones to play the dirt with as they were hardly able to walk after the game. The Cobourg team played a great game and deserve credit for defeating them. Port Hope is still 'sore' at Cobourg for cheering 'for Peterborough. Our boys checked close and hard and won because they were the best team. Mr. McCallum refereed honourably and gave Port Hope the best of it. It was a poor excuse that the Guide offered for their team being defeated when the President of the Ontarios congratulated Cobourg and said he was disgusted with the way his team had played."

The Port Hope Guide is kind enough to make the following statement:—"Why Mr. Examiner, is it only now that you are finding out the good will of Port Hope towards the Peterborough boys? Despite several rumors about the Ontarios giving Kingston pointers as to how Armstrong boys could be "laid out," which were current in Peterborough some time ago, the sports of Port Hope are, and have been looking upon the Electric Town boys' success with pleasure, and next to the "Ontarios" the Peterborough players will always be considered, so long as they display the present spirit of true sports."

CRICKET.

There is reason to believe that cricket will flourish in Peterborough this year. The Peterborough Colts, who organized last season, and played several matches, are already becoming active. A meeting of the Colts' Club will be held on Friday night, 14th March, in the Y.M.C.A., when officers will be elected for the ensuing year, and a general talk will take place regarding the prospects for the coming season. All the young cricket enthusiasts of the town are asked to bear the date in mind, and to be on hand on Friday night of next week.

LACROSSE.

Mr. J. A. Curry, County Crown Attorney, of Toronto, who is a prominent member of the Toronto Lacrosse Club, is a well-known and enthusiastic follower of Canada's National Game. Up until twelve years ago Mr. Curry was a resident of Millbrook, where he practised his profession with much success but always took time to assist in the management of the lacrosse team of the village, which in those days had more than a local reputation. Mr. Curry will accompany the Toronto lacrosse team to the Old Country, when they leave this month.

THE KENNEL.

Mr. Dixon Jewett, who some time ago lost by poisoning his valuable spaniel, "Sport," who was known far and wide as a [illegible] dog, has [illegible] his place with a fine mouse-eared puppy. Under Mr. Jewett has his dog trained in many ways and it will not be long before he will be able to compare favourably with the wonderful feats of old "Sport."

RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

EVERY .... DEPARTMENT

Has its share of the New Goods now. New Dress Goods, New Silks, New Cottons, New Linens, New Whitewear, New Corsets, New Carpets, New Suits, New Millinery.

It's decidedly spring-like at this store. We are always pleased to show our Goods whether you buy or not. So come right along and see them.

BEAUTIFUL VEILS!

The rough weather of late winter and early spring makes it necessary for women to wear veils. Here are some special Veils that protect the face without being an injury to the eyesight. They are beautiful and are sure to be immensely popular with the ladies of Peterborough.

STREET SKIRTS!

The Short Skirt came into favour when bicycling was at its height. Now it remains in favour because it permits easy walking with freedom from bedraggled skirts and wet ankles. We are showing a nice lot of attractive materials for short skirts in a variety of colours and qualities, and prices that will be sure to please.

PRETTY SKIRTS!

In the providing of a wardrobe you must have plenty of underskirts. This spring we carry a larger range than usual, and this spring we have a better quality than usual. We can fit you with Skirts, Drawers, Corset Covers or whatever you may need. Quality of material and workmanship warranted all right. Prices are what you would expect to pay for the materials without any charge for the making.

We would like if you would take a look at our Novelties in Dress Goods before they get picked over. March is here! We have had a taste of spring already. The Millinery Openings are only two weeks hence. Easter will be here before you realize it : : : : : : : : : :

PORT HOPE KNITTING WORKS

ASHBURNHAM PUBLIC SCHOOL.

The Regular Monthly Meeting was Held Last Night—The Attendances.

The regular meeting of the Board was held last night.

Present—Mr. H. W. Morgan in the chair, and Messrs. Garvin, Rogers and Peck.

The minutes of the last meeting were read and confirmed, and the following accounts were presented and ordered to be paid: E. Bradley, ink, 60 cents; Peterborough Review, $6.75.

The head master's report for Feb. was then read and considered. The attendance for the month was shown as follows:

Class.	On Roll.	Av.	Per Ct.
Miss Beattie's	34	27	81
Miss Erskine's	44	36	83
Miss Wood's	36	32	88
M. W. Matchett's	42	40	95
	156	135	87

The reports show the total receipts at the school concert to be $31.30, and expenses $11.30, leaving a net balance of $20.00, which has been applied on account of the purchase of an organ.

Reference was also made to the entertainments which had been furnished to the children by Mr. Rogers, and it was stated that another one would be held on Saturday the 8th inst., to which the Trustees were invited.

It was moved by Mr. Garvin and seconded by Mr. Peck, that the Board engage the town hall for the course of school "At Homes," and that the council be requested to have the wires for electric lighting brought into the hall.—Carried.

It was moved by Mr. Peck and seconded by Mr. Rogers, that Messrs. Garvin and Rogers be the representatives of the Board to attend the meeting of the Ontario Educational Association to be held in Toronto on the 1st, 2nd and 3rd days of April.—Carried.

The subject of teaching domestic science in the school was introduced. It was determined to ascertain if the Peterborough School Board would cooperate in providing an instructor, and the following resolution was adopted:—That the School Management Committee be a Committee to act with one appointed by the Peterborough School Board to enquire and report upon the advisibility of introducing domestic science in the Peterborough and Ashburnham schools and that a copy of this resolution be forwarded to the Peterborough School Board.

A proposal to introduce the teaching of music in the school caused considerable discussion. The Board favouring the proposal if a suitable teacher could be procured. The matter was finally left in the hands of the chairman of the Managing Committee to look into, and report at the next meeting of the Board.

The salary of Miss Williamson, the Kindergarten Instructor, was placed at $290.00 for the present year.

The meeting then adjourned.

WHAT SOLDIERS USE IN AFRICA

Kennington Pk., London, Eng., Dec. 1, 1900.

Gentlemen:—

I have great pleasure in testifying to the excellence of your remedy Kelpion, as I found it of great use while on active service in South Africa, and I believe it has no equal as a cure for saddle chafes, sore feet and skin diseases of every kind.

(Signed) Private M. Hanlon, No. 720, C.I.V.

At all druggists 25c.

37 Balfour Road, South Norwood.

I have been troubled for some time with eczema in two parts of the body, and although I have tried several supposed cures, and even had medical advice, I was afforded no relief. After rubbing Kelpion twice into the affected parts, however, I must acknowledge myself surprised, though naturally pleased, to find that the Eczema had disappeared.

H. A. Collins.

SHORTHAND IN LOCAL SCHOOLS.

Advisability of its Introduction Discussed.

JANITOR W. WOOD RESIGNS.

The Reports of Standing Committees at Last Night's Meeting of the Board of Education.

The regular monthly meeting of the Board of Education was held last night. There were present Messrs. Jas. Stevenson, W. G. Ferguson, Dr. Caldwell, Wm. Langford, J. J. Hartley, W. H. Wrighton, F. J. Jamison, J. J. McBain, Dr. Burnham, L. M. Hayes, Peter Hamilton and W. B. Bamford.

In the absence of the chairman, Mr. W. H. Hill, Dr. Burnham was, on motion, asked to take the chair.

The minutes of the last meeting were read and, on motion, adopted.

COMMUNICATIONS

were received and disposed of as follows:

From Walter Wood, resigning his position as janitor of the Collegiate Institute, on the ground that the duties attached to the position were injurious to his health.—Accepted.

From Miss Bertha Might, resigning her position on the teaching staff of the Public School, the same to take effect on April 1st.—Accepted.

From Mrs. Hoodless, regarding the teaching of manual training in the Public Schools.—Received.

From Public School Inspector Walker, regarding the manner he had made provision for carrying on the work of teachers who had been granted leave of absence. Miss Annie Patterson will take charge of Miss Pakenham's class, and Mr. E. R. Miller, a student of Toronto University, will take charge of Mr. J. C. Smith's class.

From James Russell, asking for increase of salary as janitor of George street school.—Received.

From the secretary of the Provincial Trustees Association, asking that two representatives be sent to the convention to be held in Toronto.—Received.

ACCOUNTS.

were received and referred to the Finance Committee as follows:—

Kindergarten	47	32
	1334	1166

APPOINTMENTS.

The Committee on Appointments, through its chairman, Mr. W. G. Ferguson, recommended the appointment of Miss Bertha Thompson on the staff of the Public Schools. The report was adopted.

SUPERVISION COMMITTEE.

The Supervision Committee, through its chairman, Mr. J. J. McBain, reported as follows:

To the chairman and members of the Board of Education:

Gentlemen,—Your Supervision Committee beg leave to report that, according to the usual custom we advertised for tenders for the supply of stationary and chemicals necessary for the Collegiate Institute and Public Schools, for the ensuing year.

We recommend that the tender of Messrs. Ormond & Walsh for the supply of chemicals, and the tender of A. H. Stratton & Co. for stationary be accepted, they being the lowest in each case.

All of which is respectfully submitted.

J. J. McBAIN, Chairman.

FINANCE COMMITTEE.

The Finance Committee reported as follows:

To the Chairman and Members of the Board of Education,—

Gentlemen, — Your Finance Committee beg leave to report and recommend the payment of the following accounts:

Wm. Blackwell	$ 24 40
J. D. Craig	1 00
Miss A. Patterson	16 25
Miss Grace Brown	20 00
Miss Clara Martin	6 20
Allison Cameron	6 25
Crowell Apparatus Co.	15 23
A. H. Stratton & Co.	26 41

We recommend that the Chairman be paid $15 petty accounts.

W. B. BAMFORD, Chairman.

Mr. W. H. Wrighton, in the absence of the chairman of the Property Committee, reported that a slight fire had occurred some weeks ago in the boiler room of the Central School. The damage was slight and the insurance companies had repaired the same.

Mr. Hayes moved that Messrs. Ferguson and Langford be representatives to the convention of school trustees in Toronto.

Mr. Wrighton moved in amendment that no representative be sent.

Mr. Eastwood moved an amendment to the amendment that Messrs. Hartley and Stevenson be the representatives.

The amendment to the amendment was lost. The amendment was lost as well and the original motion was carried.

Mr. Eastwood brought up the matter of teaching stenography in the local schools. He advanced several reasons why he thought such a course should be taken up. At the present time the boys leave school early in life to take a course at the Business College. Why not have this done at the public schools?

Mr. Hayes supported Mr. Eastwood's proposition and said that at the present time when a boy leaves the High School he was unable to accept very few office positions in town.

Mr. Wrighton asked Inspector Walker if it was according to the High School Act to teach stenography and typewriting.

Mr. Walker explained that it was a matter to be taken up at the High School. He did not feel himself at liberty to express himself.

Mr. Ferguson moved, seconded by Mr. Stevenson, that the matter be referred to the Supervision Committee with instructions to gather information as to the possibility of carrying out such an undertaking.

Mr. Bamford could not see what use there was in introducing such a system. We had a good Business College in town, which is capable of training the boys in commercial life.

Mr. Hartley thought that at present there were so many subjects now being taught in our Collegiate Institute that it is impossible for the staff to handle any more. He said that more attention should be paid to writing, spelling, and reading, and less attention paid to languages, etc. Not one-third of those who studied these higher subjects ever used them.

After some further discussion in which all the members took part, the meeting adjourned.

DIED IN PORT HOPE.

The Late Mr. Wm. L. Brown, Father of Mr. Caleb Brown of Town.

(Port Hope Guide.)

Wm. L. Brown, one of our oldest inhabitants, passed suddenly away to his eternal home on Monday evening last. Mr. Brown was born in the State of New York on the 23rd of October, 1834; came to Canada in 1858; was married 41 years ago to Mary, daughter of the late Henry Hewson, who with seven sons and three daughters mourn his departure. The sons are F. H. Brown, grocer; William, foreman of Southorp's machine works; Edgar, Robert, Fletcher and Albert at home, and Caleb, in Peterborough; the daughters are Mrs. John McMahon, Lindsay; Annie and Laura at home. Mr. Brown was a carriage maker and was in the employ of Robert Chalk & Sons for over thirty years. He was a man highly respected in a large circle of acquaintances. In religion a Methodist, and in politics a Conservative. The funeral takes place to-morrow afternoon at 3 o'clock.

All Y.M.C.A. senior members invited to oyster social Thursday, March 6th, at 8 p.m. Unique programme.

The T. O. Rush Co. Bankrupt Stock

IS REMOVED

TO THE STORE SOUTH OF THE BANK OF TORONTO AND NEXT TO ED. BROWN'S GROCERY.

We had no room in the City Clothing Store for this stock, and have decided to slaughter the remainder in the above premises in a hurry.

Remember the T. O. Rush Co's Stock was bought at **64 1-2c** on the Dollar, and as we have already made profit enough out of the big sales, we can afford to let the rest go at almost your own bid. Positively no reserve. Mr. Fred Allison and Mr. Jos. Picard will continue to rush out this stock until everything is cleared.

H. Le Brun & Co.

THE NICHOLLS HOSPITAL.

A few weeks ago a nurse in training at the Nicholls Hospital was suspended from duty by the lady superintendent, on the ground that she was incompetent. The young lady believing that she was unjustly treated appealed to the Trustee Board of the hospital. In view of the fact that the nurse in question had been in training for the past two years in the hospital, it was felt by the Board that her suspension at this period of her training was an exceptional case, and the request for an investigation into the facts was immediately granted. After several meetings of the Board in which the matter was fully looked into, it was decided that the young lady should be allowed an additional probation of two months, and if at the end of that time the lady superintendent considers the young lady still incompetent the matter will be dealt with further. This is a true abstract statement of the case as far as can be obtained from the Board in the absence of the chairman, Mr. Richard Hall. It is not yet known whether the young lady intends complying with the regulations of the Board in this regard.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Why Rheumatism is Like Catarrh.

Both are inflamations. The former of the muscle tissues, the latter of the muscous membrane. The only way to cure either is by a course of blood purifying and blood enriching treatment. Merrill's System Tonic is the most thorough blood purifier, and at the same time the most rapid blood-making remedy known. Fifty pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

Dated this 10th day of February, 1902. 20d2t

SOME AUSTRALIANS,

For Taking Vengeance for Ill-Treatment by Boers,

WERE SENTENCED TO BE SHOT

The Convoy Mystery Cleared Up by Col. Anderson's Account of the Klerksdorp Disaster—Boers Were Two to One and the Fighting Lasted Two Hours—Boers Were Twice Driven Off.

London, March 4.—A strange story is exciting much discussion among military men, although it has been kept out of both press and Parliament. It relates to alleged reprisals taken by Australian troops for Boer outrages in firing upon wounded, and the Draconian measures adopted by Lord Kitchener for enforcing discipline. It is stated that the Australian officers and men who took the lex talionis into their own hands were tried by court martial and some of them were sentenced to be shot. The story, as I hear it, is told with precision and full details, but the censorship has excluded it from ordinary despatches, and official explanations cannot be obtained from Pall Mall.

BOERS' ATTACK WAS BOLD.

Charged Again and Again—Over Twelve Hundred Burst on the Convoy's Escort.

London, March 8.—In a despatch from Pretoria dated yesterday Lord Kitchener sends details of the disaster to the escort of the convoy of empty wagons at Vondonop, south-west of Klerksdorp, Transvaal Colony. The British calualties in killed, wounded and men made prisoners, reach the total of 632. In addition the Boers captured two guns.

Lieutenant-Col. Anderson, who commanded the British force, and who returned to Kraaipan, Cape Bolony, with nine officers and 245 men, reports that when his advance guard was within ten miles of Klerksdorp, during the morning of February 25, the Boers opened a heavy rifle fire on the troops from the scrub. The burghers were driven off and the convoy resumed its march when a more determined attack was made on the convoy's left flank, the Boers getting within a hundred yards and stampeding the mules harnessed to a number of wagons. The attackers were again driven off.

At about 6.30 in the morning the rear guard was attacked by a strong force of Boers, and simultaneously another body of Boers boldly charged the centre of the convoy and stampeded the mules in all directions, throwing the escort into confusion during which the Boers charged and re-charged, riding down the separated British units.

The fighting lasted for two hours, during which the two British guns and a pom-pom almost exhausted their ammunition. A detachment of two hundred mounted infantry from Klerksdorp attempted to reinforce the British, but were held in check by the Boers.

Lieutenant-Colonel Anderson adds that the strength of the Boers was estimated at from 1,200 to 1,700. Commandants Delarey, Kemps, Colliers, Lemmer, Wolmarans and Potgieter were all present. Commandant Lemmer is said to have been killed.

Judge Kock Captured.

Graaf Reinet, Cape Colony, March 3.—An important discovery has just been made. A month ago a body of the District Mounted Troops captured some Boers, one of whom stated that his name was Morrees and that he was a Free State burgher.

These statements were disbelieved, however, and a diligent search was instituted, with the result that Morrees was found to be no other than Judge Kock, who presided at the trial of the policeman, Jones, for the murder of Mr. Edgar at Johannesburg.

The person now admits his identity with Judge Kock and says that he landed at Port Elizabeth from Europe in the latter end of September. He adds that he was a second-class passenger on the Scot, on board of which he went under the name of Polensky. He is the son of General Kock, who was killed at Elandslaagte. Judge "Tony" Kock, flouting General Botha's express orders, he personally led a body of Irish adventurers bent on the destruction of the mines the day Lord Roberts entered Johannesburg.

Germany Will Not Interfere.

Berlin, March 4.—Count Von Buelow assured the Reichstag in a somewhat lengthy speech yesterday that there was not the slightest likelihood nor desirability of Germany taking any steps to interfere in the course of affairs in South Africa. Such a course, said the speaker, was not in accord with German interests and policy.

ONLY ONE ESCAPE.

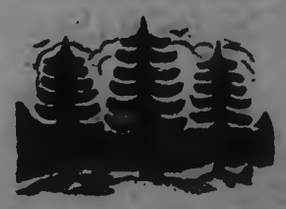
A man may break away from prison but he cannot get away from the torture of rheumatism until he takes Dr. Hall's Rheumatic Cure. It is the only reliable remedy on the market. Mr. Charles H. Clarke, Kingston, Ont., who for fifteen years in succession held the civic street watering contract could not put on his boots or walk for several weeks. He tried Dr. Hall's Rheumatic Cure, and three bottles, with the Climax Iron Tonic Pills, completely cured him. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

Be Sure You're Right.

While it is true that there comes a tide in the affairs of men which, etc., there are so many people every year left stranded high and dry that some caution would seem to be needed about picking out your particular tide.

Iron in the blood is necessary. Miller's Compound Iron Pills contain that element in the most assimilable form. Sold by all druggists.

DR. WOOD'S.



NORWAY PINE SYRUP.

A positive cure for all Throat, Lung and Bronchial diseases.

Healing and Soothing in its action.

Pleasant to take, prompt and effectual in its results.

Mr. Chas. Johnson, Bear River, N.S., writes: "I was troubled with hoarseness and sore throat, which the doctor pronounced Bronchitis and recommended me to try Dr. Wood's Norway Pine Syrup. I did so, and after using three bottles I was entirely cured."

Price 25c. and 50c. a bottle. All medicine dealers.

POPE'S 24TH ANNIVERSARY.

Principal Ceremony in the Celebration of the Jubilee Carried Out.

Rome, March 4.—The principal ceremony in the celebrations of the pontificial jubilee in honor of the twenty-fourth anniversary of the Pope's Chapel," was carried out in the Basillica of the St. Peter's yesterday morning with extraordinary pomp, in the presence of the pontiff and an assemblage estimated to have numbered fully 50,000 persons. The Pope, who left his apartments at 10.30 a.m., was borne in the sedia Gastatoria, preceded by the pontificial court and surrounded by nobles to the throne, amidst the acclamations of the vast assemblage. Cardinal Vanputelli intoned the mass, the pontificial choir chanted the Te Deum, and His Holiness pronounced the papal benediction, bevond which he did not participate in the service.

A Sufferer From Backache.

Several Years of Kidney Disease—A Prominent Merchant Cured by.

Dr. Chase's Kidney-Liver Pills.

Every day adds scores of names to the long list of persons who have been cured by Dr. Chase's Kidney-Liver Pills, and among those who are now enthusiastic of this great medicine is Mr. W. Gilroy, the well-known merchant of Blenheim, Ont.

Like many others, Mr. Gilroy now wonders why he did not use Dr. Chase's Kidney-Liver Pills in the first place, instead of experimenting with new-fangled and untried remedies. There is no doubt about the exceptional virtues of Dr. Chase's Kidney-Liver Pills. They act directly on the kidneys, liver, and bowels, and thoroughly cure complicated ailments which cannot be reached by ordinary remedies.

Mr. W. Gilroy, general merchant, Blenheim, Ont., states:—"I am rather enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills, and believe I have good reason to be. For several years I was a great sufferer from kidney disease, and had pains in my back almost constantly. I tried a great many remedies, but did not succeed in obtaining more than slight temporary relief.

"A friend of mine advised me to try Dr. Chase's Kidney-Liver Pills, and I did so, with great satisfaction. I had not taken half a box before I began to feel better, and now realize that I have entirely recovered. I often wonder now why people go after new-fangled remedies when this tried and proven medicine is so easily obtained, and so certain to cure."

Dr. Chase's Kidney-Liver Pills have the hearty endorsement of good citizens in nearly every city, town, and village in Canada. They are probably the most popular remedy that was ever introduced into this country, and their enormous sales are due to the fact that they radically cure serious and chronic diseases. One pill a dose; 25 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto. 3

Living One Day at a Time.

A certain lady met with a serious accident, which necessitated a very painful operation and many months' confinement to her bed, says one of our exchanges. When the physician had finished his work and was about taking his leave, the patient asked, "Doctor, how long shall I have to lie here helpless?"

"Oh, only a day at a time," was the cheery answer. And the poor sufferer was not only comforted for the moment, but many times through the succeeding weary weeks did the thought, "Only a day at a time," come back with its quieting influence.

Early Printing and Illustrating.

The first printing press in the United States began its civilizing work at Cambridge, Mass., in Harvard university in 1639. The first American made illustration, it is still believed, is in Tully's Almanac of Boston in 1686. The first American copperplate portrait published in this country was in Increase Mather's "Ichabod," published in 1703. The first three engravers were Paul Revere, Benjamin Franklin and Isaiah Thomas, who distinguished himself at the battle of Lexington.

Specialists' Ideas Adopted.

When originating his celebrated Four T's Merrill, the Brantford Druggist, added to drugs of many generations' usefulness some of the latest drugs used by lung and throat specialists. The result, naturally, is that Four T's is an unexcelled compound and never fails to cure a cough in 24 hours and the worst cold in two days. Large bottles 25c. at Ormond & Walsh's drug store.

MARKET REPORTS.

Grain Prices Are Firmer—May Wheat Closed Higher at Chicago—The Latest Quotations.

Tuesday Evening, March 4.

Liverpool wheat futures were ½d higher to-day, and corn futures unchanged to ½d lower.

At Paris wheat was quoted 5 centimes higher to-day.

Chicago markets exhibited slightly more strength to-day on adverse crop rumors. May wheat closed ½c higher. May corn ⅛c higher, and May oats ⅛c higher.

TORONTO LIVE STOCK.

The deliveries of live stock at the Cattle Market were large—71 carloads, composed of 1330 cattle, 200 hogs, 285 sheep and lambs and 23 calves.

Export Cattle—Choice lots of heavy exporters sold at $5.40 to $5.50; medium exporters, $4.75 to $5; rough, unfinished exporters, $4.40 to $4.70; light green exporters, $4.25 to $4.60, and the better class of butchers' cattle, 1100 to 1200 lbs. each, for export, sold at $4.60 to $4.80 per cwt.

Export Bulls—Choice heavy export bulls sold at $4 to $4.25; light export bulls sold at $3.40 to $3.85 per cwt.

Export Cows—Export cows sold at $3.85 to $4 per cwt.

Butchers' Cattle—Choice picked lots of butchers' cattle, 1000 to 1050 lbs. each, sold at $4.35 to $4.50 per cwt.; loads of exporters' and butchers' cattle, mixed, sold at $4.25 to $4.40 per cwt.; loads of good butchers' sold at $4 to $4.25 per cwt.; loads of medium butchers' sold at $3.50 to $3.90 per cwt.; common to medium sold at $3.25 to $3.50 per cwt.; inferior butchers' sold at $2.75 to $3.20 per cwt.

Heavy Feeders—Heavy short-keep feeders, 1100 to 1200 lbs. each, are worth $4.50 to $4.75; feeders weighing from 900 to 1050 lbs., of good quality, are worth $3.75 to $4.40 per cwt.

Stockers—Yearling steers, 500 to 800 lbs. each, sold at $3.30 to $3.60 per cwt.; off-colors, with poor breeding qualities, are sold at $2.75 to $3.15 each.

Milch Cows—Twelve cows and springers sold at $25 to $48 each.

Calves—Calves were sold at $4.50 to $5 per cwt. for good to choice.

Sheep—Deliveries, 285; prices firm at $3.50 to $3.75 per cwt. for ewes, and $2.50 to $3 for bucks.

Lambs—Prices steady at $3.75 to $4.25 each, and $4.50 to $5.25 per cwt.

Hogs—Best select bacon hogs, not less than 160 lbs., nor more than 200 lbs. each, off cars, sold at $6 per cwt.; lights at $5.75, and fats at $5.75 per cwt.

EAST BUFFALO CATTLE MARKET.

East Buffalo, March 4.—Cattle—Receipts, 600 head; active demand and 10c to 15c higher for fat butchers' and good shipping cattle. Veals, tops, $7.50 to $7.75; bulk of sales, $6.75 to $7.25.

Hogs—Offerings, 5600 head; fairly active and about 5c higher for all but pigs and light Yorkers; Yorkers, $6.30 to $6.35; light do., $6.15 to $6.20; mixed packers, $6.40 to $6.50; choice, heavy, $6.50 to $6.55; pigs, $5.70 to $5.75; roughs, $5.75 to $6; stags, $4.25 to $4.75.

Sheep and Lambs—Offerings, 2000 head; fairly good demand; sheep steady; lambs stronger; choice lambs, $6.50 to $6.55; good to choice, $6.35 to $6.45; culls to fair, $5.40 to $6.30. Sheep, choice handy wethers, $5.25 to $5.65; common to extra mixed, $4.60 to $5.25; culls and common, $3.50 to $4.50; mixed export ewes and wethers, $5 to $5.25; yearlings, good to choice, all wethers, $5.70 to $5.80.

NEW YORK LIVE STOCK.

New York, March 4.—Beeves—Receipts, 587; all consigned direct; a few bulls sold at $3 to $4.25; a few dry cows at $2.50.

Calves—Receipts, 144. With delayed stock beginning to arrive, prices tumbled 50c to 75c from yesterday, and in some instances the decline was even greater. The close was dull, with about 300 head to carry over. Extreme range for veals, $4 to $6; general sales, $4.50 to $7.00.

Sheep and Lambs—Receipts, 1000; general tone weak. Market predicted to break badly shortly when delayed stock arrives. Sales of desirable weight sheep and lambs steady. Sheep sold at $4 to $4.50; lambs at $6.00 to $7.

Hogs—Receipts, 1358; prices steady, but undercurrent of weakness. Sales of Western hogs at $6.30; of Western pigs at $6.30.

C.P.R. Earnings.

Montreal, March 4.—The C. P. R. traffic for the week ending Feb. 28 was $669,000; for the same week last year it was $542,000.

FOR BIG EATERS

Dr. Agnew's Liver Pills are a pleasant and safe Liver Regulator—They stimulate digestion, and counteract the too common error of over-eating

Take one after dinner—No inconvenience—They act pleasantly—40 doses in a vial, 10 cents.

Never have that tired feeling if you keep your liver active, and Dr. Agnew's Liver Pills are a liver specific. 25 cent vial contains 100 pills. 6

Professional Men.

It's the constant strain and worry under which the professional man labors, the irregularity of habits and loss of rest that makes him peculiarly susceptible to kidney troubles. First it's backache, then urinary difficulties, then—unless it's attended to—Bright's Disease and—death.

DOAN'S KIDNEY PILLS

Strengthen and invigorate the kidneys—never fail to give quick relief and cure the most obstinate cases.

Rev. M. P. Campbell, pastor of the Baptist Church, Essex, Ont., says: "From my personal use of Doan's Kidney Pills, which I got at Shearer's drug store, I can say they are a most excellent remedy for kidney troubles, and I recommend them to sufferers from such complaints."

THE TIBER WRECKED

Wreckage Found on the East Coast of Nova Scotia.

21 MEN PROBABLY PERISHED

Vessel Is Believed to Have Gone Ashore Near White Head—Carried a Cargo of Coal and Was Bound From Louisburg to Halifax, A Distance of Only 170 Miles—Due on Thursday.

Halifax, N.S., March 4.— The steamer Tiber, from Louisburg for Halifax with 1,925 tons of coal, is believed to have foundered during Sunday night's gale and that the captain and crew of 20 men have been lost. The Tiber left Louisburg last Wednesday afternoon, and should have arrived here on Thursday night, as the run is only 170 miles. The missing steamer was passed on Thurs missing steamer was passed on Thursday by the Coban, but nothing has been seen of her since.

Fishermen at White Head yesterday found part of a steamer's deck house on the shore with some deck planks attached. A sofa, lounge and some other wreckage was found on the beach at another point along the shore. A despatch was received here last night, stating that two life buoys with the name Tiber on them had been washed ashore at Goldboro, in Guysboro County.

Shipping men have now given up all hopes for the safety of the steamer and crew, as it is thought to have been impossible for them to have reached a place of safety during the gale. The steamer was commanded by Capt. Boulanger.

The Tiber was formerly on the route between Montreal, Charlottetown, Halifax and St. John, and has made many trips to this port. She was 1,114 ton, and was built at Govan 32 years ago. The steamer was valued at $50,000 and was uninsured. The steamer was owned by Charles Archibald of Halifax and Mr. Dobell of Quebec.

TRAINS ARE LOST.

Floods Across the Line Demoralize Railway Transportation.

New York, March 4.—Not a western train entered the Grand Central Station yesterday afternoon or evening. All were stalled somewhere along the line or delayed by the floods. Nothing came down the Hudson River division except the local trains. The Eastern Express, due at 8.45 o'clock last night, had not been heard from at 9, and the officials said they did not know where it was. The day express, due at 7, was not reported. The Chicago Limited, due at 6.30, and the Southwestern Limited, due at 6 o'clock, were some places the officials knew nothing about. There was no knowledge of where the New York and New England express, due at 2.55 o'clock in the afternoon, was. The Chicago express was due at 1.30 o'clock, but no report had been received. There was not a word received of the condition or situation of the Empire State express, due at 10 o'clock last night.

Passing Charm of Piccadilly.

Piccadilly, one of the most famous thoroughfares of the world, has arrived at the stage of its history when at least a part of its old-time individuality, the individuality that gives it its charm and fame, must go, perforce, the way of all things human. The congestion of traffic along its narrow way has become so great that nothing short of widening will reduce it. At the eleventh hour a plan to cut a road through the Green Park from Hyde Park Corner to Cleveland Row, which, by diverting all the eastbound traffic destined for Charing Cross way, would solve at least a part of the problem, is brought forward, but with results indecisive as yet. It would save Piccadilly, but at the expense of the park. Which way the balance will incline eventually remains to be seen. It is a dilemma not without its pathos for the lover of vanishing London.

Prince Henry at Chicago.

Chicago, March 4.—Prince Henry was given an enthusiastic welcome last night. Mayor Harrison and thousands of citizens made the welkin ring. At the armory 6,000 German citizens presented him with an address. Later he attended a ball at the Auditorium.

Buried at Woodstock.

Woodstock, March 4.—The remains of the late Mr. and Mrs. William John Barnhardt, who lost their lives in the Park Avenue Hotel fire on Friday night, Feb. 21, were laid to rest yesterday afternoon in the English Church cemetery here.

Probably Succeeded.

Montreal, Que., March 4.—Christopher Archibald, a driver in the employ of the Canadian Express Co., tried to commit suicide last evening by shooting himself through the head. He will probably die.

Play Was Fatal.

Woodstock, March 4.—Clarence Davy, the 9-year-old son of A. T. Davy, 225 Finkle street, died Friday night from inflammation of the brain, which followed an injury received in The Sentinal-Review office two weeks ago. Davy, who has been one of the newsboys, had climbed up onto the safe and was lying there when some of his chums came along and pushed him off. He fell to the floor, striking his head and receiving a painful wound.

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. NO SHADOW

Of outward misfortune can darken the smile of the loyal wife and loving mother. But when disease comes the smile slowly fades, and in its place comes the drawn face and tight closed lips which tell of the constant struggle with pain.

When the delicate womanly organism is diseased the whole body suffers; the form grows thin, and the complexion dull. The first step to sound health is to cure the diseases which undermine the womanly strength.

Dr. Pierce's Favorite Prescription establishes regularity, dries disagreeable drains, heals inflammation and ulceration and cures female weakness. The wonderful cures of womanly diseases effected by the use of "Favorite Prescription" place it at the front of all put-up medicines specially prepared for the use of women.

"I was troubled with female weakness for eight years, and suffered more than I can tell," writes Mrs. Gust. Moser, of Ovando, Deerlodge Co., Montana. "My disposition was affected to such an extent that to say a pleasant word to any one was almost an impossibility.

"I had two operations performed by one of the most skilled surgeons of the West, but did not get relief. Then, against my doctor's strict orders, I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and also followed the advice given in the Common Sense Medical Adviser.

"I continued this treatment for three months, and to-day am as healthy and well as a woman can be. I cannot thank Dr. Pierce enough for his kind letters to me."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Soft Harness.

You can make your harness as soft as a glove and as bright as new, by using EUREKA HARNESS OIL. It can even lengthen its life—make it last twice as long as it ordinarily would.

EUREKA Harness Oil

Makes a poor looking harness like new. Made of pure, heavy bodied oil, especially prepared to withstand the weather.

Sold everywhere in cans—all sizes.

Made by IMPERIAL OIL COMPANY.

RING UP 'PHONE 388.

When any accident to your steam, water or gas pipes arises or when your furnaces or boilers need repairs, or closets, tanks, baths or other sanitary appliances get out of order, I will promptly attend to all orders, having on hand a full supply of plumbers' and steamfitters' requisites. I am prepared to meet every want, possessing a practical knowledge of the trade. I am enabled to detect at once the defects and causes, and remedy them at very low charges. I am ready to furnish estimates for all kinds of heating, public buildings, churches, etc. Iron pumps, points and pipe furnished and wells driven.

Helps the Housekeeper

PREFERENTIAL DUTIES.

Official Announcement of the Proposed Discussion in June.

London, March 4.—Replying in the House of Commons yesterday to Col. Sir Howard Vincent (Conservative), who desired information concerning the United States Steel Corporation and the United States Ship Subsidy Bill, the Chancellor of the Exchequer, Sir Michael Hicks-Beach, said the Government possessed no information regarding the United States Steel Corporation which could be usefully published. In regard to the Ship Subsidy bill, papers would be laid before the proposed select committee on steamship subsidies.

Answering a question regarding the commercial relations of the empire, the Chancellor of the Exchequer said it was proposed to discuss the whole subject of preferential duties when the representatives of the self-governing colonies assembled in London at the time of King Edward's coronation.

Hodgins Killed Himself.

Waterloo, March 4.—W. S. Hodgins, whose death was announced on Saturday, committed suicide. On Friday night he went to the little triangle at the junction of Albert and Water streets, and removing his overcoat, cap and umbrella, fired two shots, one into the air and the other into his mouth. His head was terribly mutilated.

Jumped From Moving Train.

Toronto, March 4.—Thomas A. Leonard of Waiville, N.S., who was a delegate to the recent Student Volunteer Convention, is in the General Hospital suffering from a fracture of the skull, which may cause his death. He had tried to jump from a Grand Trunk train, which he had boarded in mistake, and in doing so fell.

Against Marconi System.

Berlin, March 4.—The United States Navy Department has ordered a complete outfit, for two stations, of the wireless telegraph system of Slaby and Arco, from the Allgemeine Electricitaets Gescellschaft of Berlin, for the purpose of experimenting against the Marconi system.

Americans Defeated.

Manila, March 4. — Twenty-five members of the constabulary of Morong, 10 miles from Manila, encountered 180 well armed insurgents yesterday. The former, after expending all their ammunition, fled. Eleven of the constabulary are unaccounted for, and it is believed they were killed or captured.

Mother Dies With Son.

Dunnville, March 4.—A very sad drowning accident occurred at Canboro, near Duanville on Saturday, when Mrs. George Brooks and her young son, were drowned in the Oswego Creek. All the details of the sad affair have not been ascertained, but it is believed that the mother met her death while attempting to save her son.

London Man Killed.

London, Ont., March 4.— Samuel Cochrane, 1,045 Francis street, an employe of ex-Ald. John Nutkins, was killed yesterday afternoon. He was employed in tearing down a brick wall on the Wellington road. The wall fell and he was crushed beneath the ruins.

No Montgomery Monument.

Montreal, Que., March 4.—A special from Boston says: "The Sons of the Revolution have decided to abandon the proposed erection of a monument to General Montgomery at Quebec.

GREATEST INVENTION OF THE AGE.

Why British Government Cannot Grant Marconi Licenses.

London, March 4.—Speaking of the attitude of the Government towards wireless telegraphy, in the House of Lords yesterday afternoon, the Marquis of Londonderry, the Postmaster-General, said that, while he personally, regarded the wireless system as the greatest invention of the age, he could not grant Marconi licenses to establish signal stations in the United Kingdom for fear of interrupting the extensive experimental work now being carried on by the Admiralty, from which the Government hoped to attain most important results.

Premier's Coronation Trip.

Ottawa, March 4.—Sir Wilfrid Laurier has engagements that will likely detain him in Ottawa after the House closes until June 18. As he desires to be in London by the 21st of that month it is therefore probable that he will cross the Atlantic by one of the New York lines.

U.S. Cannot Accept.

Washington, March 4.—The subcommittee of the Committee on Interoceanic Canals yesterday agreed to recommend to the full committee that the legal complications surrounding the Panama offer are such that the United States should not accept it.

Store Completely Burned.

Shoal Lake, Man., March 4.— The Hudson Bay Company's store here was completely destroyed by fire, with the contents. The origin of the fire is unknown.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

The Chaperon In Samoa.

The chaperon is an important person in Samoa. She is the constant companion of the taupou, or village guide, who is appointed to entertain strangers and show them the various sights. Each village in Samoa elects a girl for this office, and it is necessary that she should be the daughter of a chief. Her house is provided for her by the village, and she is surrounded by a court of native girls. No man who lives in the village is allowed to enter the sacred precincts, and the taupou goes nowhere without an elderly woman. If the taupou resigns her office, the chief can appoint another damsel of high degree.

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

Union Sentiment in Newfoundland.

Mr. P. T. McGrath, editor of The Evening Herald, St. John's, Newfoundland, recently said with respect to confederation with Canada that "While the question is not a live one at present, the sentiment in favor of union is steadily growing. The old-time unreasoning animosity to it has vanished, and it is being discussed now on practical lines. If union should come in the future it must be by liberal terms being granted to Newfoundland. The first consideration unquestionably in any scheme to bring about Confederation with the Dominion would be the assumption of the debt of the colony, which now amounts to about $17,000,000. One of the principal advantages to Canada of union with the colony, would be the improvement of the St. Lawrence route."

"SAVE THE BOY."

Rev. D. O. Crossley's Interesting Sermon on Sunday Night—Some Kindly Remarks.

Rev. D. O. Crossley in his sermon on the topic "Save the Boy" on Sunday evening spoke as appended in parts—

I suppose every one will agree that the boys are worth saving. The topic of the future is centred in the boys of to-day. Out of the ranks of the boys are to come men to fill every position in life, high or low, important or otherwise. Out of their ranks will come statesmen, lawyers, doctors, ministers, merchants, farmers, labourers, loafers, drunkards and scoundrels. There will be some whose lives will be beautiful in all the qualities of a noble and true manhood, who will take Christ into their lives and, with the Bible as their guide, will go forward to solve the problems of life and be useful in their day and generation.

Other boys with equal capacity and opportunities will take a lower plane in life and will drift hither and thither, sometimes doing better and sometimes worse, but seldom up to their possibilities. They will occupy this place in life for lack of having a high and definite purpose to control and inspire them, and because they are fickle and unstable in their ways.

Other boys will take a lower grade still in life and will constitute the lowest and most dangerous element in the community. They will be idlers and loafers, drunkards and law breakers, many of them will be in jail and in penitentiary and others will deserve to be. Why this class of people at all in the world? Where do they come from? From the ranks of the boys. Not one of them need belong to this class, but for lack of a right purpose, and of proper training and example in early life, they drift away from the right path and become criminals and outlaws.

Among which of these classes will the boys of this congregation be numbered when they are men?

I think I speak the sentiments of every father's and mother's heart when I say you would rather your boy, your lovely boy, would die in his innocence and infancy and go home to his God than that he should live and become a man of the third class mentioned.

One of the first symptoms of failing manhood is disregard of the counsel of father and mother. That path or companionship must be vicious which lessons the influence of parents upon their children, which makes of none effect a mother's prayers, and causes her to stand with anxious heart waiting and watching for his return, saying the while "will he never come back."

At this point in the service Mr. Crossley sang a solo entitled "Will he Never Come Back," the choir joining in full chorus.

Continuing the speaker said there are two questions in connection with the topic, "Save the Boy," which naturally suggest themselves. First, what do we want to save them from, and secondly how shall we save them?

I asked a mother what she wanted her boys saved from and she replied—from selfishness, profanity, falsehood, drunkenness, tobacco and sin of every form. A boy may live and do every one of these, but what kind of a boy will he be? Can we not easily see that love for her boys prompted the mother in each of this enumeration.

We want men in the future who are not slaves to tobacco or whiskey. Men who will not profane the name of God. Men whose better natures are not dried up by selfishness. In short we want that the next generation shall be better than this one and be on better terms with God, recognizing His claim and serving Him as all men ought to do. But, how shall we save the boys? By making them strong in their purpose of right doing—strong in their integrity, and strong in many and independent character.

They must be taught not to give way to every evil inclination or yield to every persuasion.

One of the hardest things for a boy to do is to say "No" to sin, and be willing to be laughed at by companions. May this power be given to all boys—may they not only say "No" to sin, but also say "Yes" to righteousness.

A solo by Mr. Hendron entitled "Have Courage, My Boy, to Say No," with full chorus, was sung at this point.

But there are great tides of moral evil which roll over our land, and which carry multitudes to disgrace and ruin.

You expect me to-night under the topic "Save the Boy," to speak of intemperance. And why should I not do so when intemperance is one of the great destroyers of boys?

"Weep for the fallen, hang your heads in sorrow,
And mournfully sing a requiem, sad and slow,
Thousands have perished by the fell destroyer,
O weep for youth and beauty in the grave laid low."

Those engaged in the liquor traffic say the churches are always saying mean things about them. I would not say a mean thing about one of them. But I would like to ask one question—How can the Church of God be on friendly terms with the saloon? The Church trying to lift men up to righteousness, and the saloon dragging them down to death.

One thing has always been a mystery to me, and that is, that when we look abroad and see the misery and wretchedness and woe, the sorrow and tears and poverty, and witness the overthrow of manhood as a direct result of the traffic in intoxicating liquors, that you could find a man in any civilized community who would demean himself by engaging in the business. A widow whose husband was destroyed by whiskey, attended a prayer meeting the second day after his funeral, and, engaging in prayer said, "Oh Lord, bless the temperance cause—it may be too late to save the men, but may it not be too late to save the boys.

A solo sung by Mr. Crossley was given at this point in the discourse.

In conclusion, the speaker said that to save the boys we needed more than precept—we needed example as well as precept. How are we to save the boys from intemperance, while so many men drink and are drunken, and while so many Christians vote against prohibition. We need men of clean hands and pure hearts to give advice,—men who, by example as well as precept, teach the boys how to live uprightly.

The service concluded by a solo rendered in splendid voice by Mr. Davis, entitled "Hold the Light up Higher."

YOUNG MEN'S GUILD.

The Regular Meeting was Held Last Night—The Programme.

The regular meeting of the Young Men's Guild of St. Andrew's Church was held last night. The chair was occupied by the President, Mr. Thos. Anderson, and there was an exceptionally large attendance.

After the regular business an informal programme was rendered. Messrs. Doidge, Turner, McGuire, and Thewlis, the George street League quartette, favoured the meeting with a selection or two which were very highly appreciated.

Impromptu speeches on various topics were delivered by the members.

Mr. Will Campbell gave a reading, after which refreshments were served. An enjoyable and profitable meeting was brought to a close in the regular manner.

A Terrible Disease That Comes Unsuspectingly, and When Unheeded it Drags its Victims to Death.

PAINE'S CELERY COMPOUND

Has Wrought Thousands of Cures After Failures of Physicians.

To-day kidney disease is as common as rheumatism. Thousands of men and women living in fancied security, have kidney trouble in some form that must develop from day to day and end in death unless unless wise and proper treatment is at once taken advantage of.

Have you any of the following symptoms: Backache, frequent urinating, fluttering of the heart, nausea, vomiting, a dry harsh skin, fever, coated tongue, extreme thirst, fickle appetite, bitter taste, deposit of mucus after urination, sour stomach, dropsical swelling, loss of memory, scalding sensations and constipation? If you experience any of these sensations, begin at once with Paine's Celery Compound, which will quickly put to flight all symptoms of disordered kidneys. It is nature's true remedy, the only one you can rely upon with certainty of cure. Mr. M. Maher, Hairdresser, of St. John's, Newfoundland, gratefully writes as follows:

"I suffered terribly for two years from kidney trouble and dyspepsia. I was completely run down and could not eat or sleep. One of the ablest city doctors attended to me but no good results followed his work. Happily a friend advised me to use Paine's Celery Compound. I procured a supply and the first dose relieved me. I have used eight bottles and now sleep well, appetite is good, and I am as strong as ever before. I recommend Paine's Celery Compound to all."

WOLVES ON THE RAMPAGE.

Herd of Moose Wiped out up North of Mattawa.

Ottawa Journal:—Wolves and a snowstorm combined to wipe out a herd of moose north of Mattawa in a recent snowstorm and Mr. Jas. Wright, a trader, who makes Mattawa his headquarters, tells the story. Mr. Wright saw the item in the Journal a few days ago about the alleged slaughter of moose near Mattawa and which Mr. N. E. Cormier, chief game warden for Quebec, is investigating.

The story by Mr. Wright came to him from a trapper who had been out in a big storm and who had to take shelter in a thick bush. A fine herd of moose, about seventeen in all, were going before the storm and the travelling was hard owing to the depth of the snow. Wolves in large numbers came after the moose and harried them for miles. The moose held together and ran on for miles until the baying of the wolves could no longer be heard. Two days later the bones of many moose were to be found lying across a wide plain. Little heaps near by indicated where the bones of other moose were piled. Apparently the whole herd was wiped out.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Man at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

Like Sunshine and Rain.

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. FURS and HATS

YOUR SPRING HAT IS HERE!

Your Spring Hat is here. This is our advanced Spring Hat opening, For the last week we have been piling in Hats by the waggon load, and although they are not all in, still every reputable maker in the world is represented in a very large way:

CHRISTY'S — TRESS
SCOTT — LOMAS
WOODROW'S — COOKSEY'S

From England.

MALLORY'S — HAWES'
ARGYLE — STETSON'S

and all the other most fashionable American makers have their new designs on exhibition.

By these points you will know a new fashion. Silk Hats from a side view are slightly more tapered, and more of a bell design from the front. Derby Hats are lower and taper somewhat. Alpines have a more decided curl in the brim.

COME IN AND SEE THEM!

The end of the chapter is FUR BARGAINS. A look at our windows will convince you of the slaughtering prices : : : : :

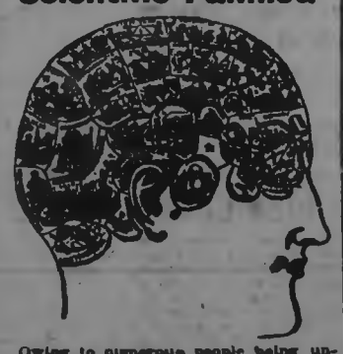
Canada's Greatest Phrenologist and the only recognized

Scientific Palmist.



Owing to numerous people being unable to consult Prof. O'Brien during his first visit in Peterborough, a few weeks ago, he has been prevailed upon to pay the town a return visit on his way east, and can now be consulted at his former private office, 283 Hunter street Terrace, from 10 a.m. to 10 p.m. As Professor O'Brien will only remain in town for a very short season, people wishing to consult him should call at once, as this is their last chance. A photo read free to patrons.

Prof. O'Brien has just concluded two most successful seasons in Lindsay and Cannington, and is urgently requested to pay both towns a return visit at an early date. 1dlw

DESIRABLE PROPERTIES

FOR SALE.

The Executors of the Estate of the late Thomas Henry offer for sale the following desirable properties, viz.,—

Parcel No. 1—No. 294 Sherbrooke street, the homestead, with half acre lot, good dwelling and in a desirable locality;

Parcel No. 2—No. 217 Charlotte street, a two story brick house, opposite the skating rink;

Parcel No. 3—No. 218 Charlotte street, opposite the Methodist church, a good comfortable brick house.

The above properties are all in good localities, centrally situated, and will be sold at moderate prices and on easy terms. For particulars, apply to Mrs. Thomas Henry, 294 Sherbrooke street, or to Myles Henry, at Henry & Co's. Grocery dwtf.

THE PROHIBITION BILL

Debate on the Second Reading Begun in the Legislature.

TWO POLICIES ON DRINK EVIL

The Opposition Takes Ground Against Prohibition—The Alternative—Reduction of Licenses and Improved Administration — The Premier's Speech—Attorney-General's Brilliant Argument.

Toronto, March 5.—In the Legislative Assembly to-day the galleries were crowded, and a large number were unable to obtain admission owing to the interest excited by the announcement that the Premier would move the second reading of the Prohibition Bill.

Among the bills introduced were measures to amend the Game Protection Act by Mr. Latchford, respecting the Barberry Shrub by Mr. Dryden, and to amend Ontario Election Act, Mr. Gibson.

The following bills were read a third time: To amend the Land Titles Act, Mr. Gibson, and respecting the Debenture Debt of the Town of Orillia, Mr. Mascampbell.

The Prohibition Bill.

Hon. G. W. Ross moved the second reading of the bill respecting the Sale of Intoxicating Liquors. He said there were three parties who had been heard from, the very earnest temperance man who demanded more heroic legislation. It was to be expected that some of them would be disappointed. There were also the men who were interested in the liquor traffic, who, of course, wanted no further restriction on their trade. There was also another class who wished to see some considerable restriction of the liquor traffic as far as public opinion would permit it, and he believed that the measure had the thorough approval of this class. He quoted The Montreal Witness, which had strongly declared in favor of the bill. Expression of opinion had been received from many hundreds of persons who were in favor of getting such a law as would be enforced by a preponderating public opinion. They did not want to repeat in connection with the law the mistakes which had previously been made in trying to enforce legislation which was not sustained by popular sentiment. There was no advantage in putting on the statute book a law which would be disregarded and scouted by the people. Sir William Meredith, when actively engaged in politics, had said that such a law should be submitted to the people. As to the basis of the vote, the best authorities were opposed to a bare majority vote, which might be an actual minority of the whole people. A law passed in such a manner would only exist for a short time, and then be cast aside. He defended the provision of the bill requiring the majority in favor of the bill to be also a majority of the vote cast at the provincial elections. In order to dispose of the objection that many might refrain from voting in order to make the total vote at the next election smaller, or on the other hand swell the vote in order to put difficulties in the way of prohibition, they proposed to take the vote polled in 1898 instead of that to be polled in the coming election. This vote amounted to 426,976. He did not believe that either side would refrain from voting as if the opponents of the law did so and only a few scattering votes were polled in its favor it would give the impression that the province was overwhelmingly in favor of the law. The date at first fixed for October 14th would be changed to some day early in November. In 1898 the Dominion Alliance had favored the submission of the issue of prohibition separate from all other questions of public policy and that could only be done by holding the elections on a separate day from political or municipal elections. Mr. Meredith in 1894 had on this ground opposed the submission of the Prohibition plebiscite to the electors on the day of the municipal elections. The vote at municipal elections was a comparatively small vote. It was not fair that men who took so little interest in the question that they needed some other inducement to bring them out, should be considered in the matter. If the prohibition question could not stand alone it could not stand at all. It was said that those who voted for prohibition would be marked men. He warmly denied that prohibitionists were such moral cowards as were implied by their argument. Great battles were not won in that way. If the temperance men were not prepared to stand up and be counted, if they must go to the ballot box with the excuse of voting for John Smith for alderman and incidentally smash in a ballot for prohibition, they did not show a spirit such as could ensure success. He did not believe that employers would coerce their working men or seek to deprive them of their legal rights as citizens. He concluded by moving the second reading.

The Conservative Position.

Mr. Whitney said that the Premier's note of cheerfulness showed him prepared to express sunbeams from cucumbers at the slightest warming. Despite the denunciation of both the prohibitionists and the liquor men he excepted Mark Tapley in being jolly under all circumstances. He charged that the Government had abrogated its functions by falling back upon the referendum. He reviewed the course of the Premier on the question, stating that in 1877 he, as a member of the Dominion Parliament, had voted against a prohibitory resolution moved by Dr. Schultz. In 1893 he had opposed a measure introduced by Mr. Marter to prohibit the retail sale of liquor and moved the six months' hoist. As a result of his action at that time the province had had the plebiscite, the Nemesis of which was now coming home to him with the referendum. The bill which Mr. Ross had just introduced was practically the same bill brought in in 1898 by Mr. Hardy, which he (Mr. Ross) had then attacked as a measure which would not prevent men buying liquor and drinking it at home. He had stood by the Manitoba Act because he was not able or willing to draft a measure of his own. Sir Oliver Mowat, in giving a pledge to introduce prohibition, had said nothing about a referendum, which was first heard of after the decision of the Privy Council. Not one statement made in the Premier's former speech as to the referendum was applicable to the present case. He had heard for the first time since he had sat in the House the Premier appealing to the authority of Sir William Meredith to enter to help the tottering and dying Liberal party. He denied, however, that Sir Wm. Meredith's words would bear the construction put upon them.

Mr. Whitney went on to analyze Sir John Bourinot's utterances, contending that they did not rule out the constitutionality of the referendum. The use of a referendum in the case of a deadlock between the Upper and Lower Houses to constitute was not a parallel case in any respect. He read a letter from Hon. Alex. Mackenzie Bowell denouncing the referendum as opposed to responsible Government, and presented several quotations from Prof. Goldwin Smith condemning a resort to the measure as a means of shirking a difficult question. In the case of constitutional amendments in the United States a two-thirds majority was required, but in connection with the submission of other questions a bare majority was required. He quoted many cases in which matters submitted to the people in the United States had been decided by a much smaller vote than that cast at general elections.

After Recess.

Mr. Whitney resumed his speech. Dealing with the question of compensation he held that the people should have the same opportunity to decide on this matter as on the other features of the measure. It was unfair that the Prohibitionists should be required to poll 40,000 votes more to carry Prohibition than they polled on the variation of the plebiscite. The change in the poll existing the vote at the general election in 1898 the basis of the referendum was the Government's retaliation on the Prohibitionists who threatened to remain away from the polls at the next election. It was the duty of the Cabinet under British constitutional principles to gauge the sentiment of the people and to decide what legislation was necessary and they had the right to shirk this responsibility. The referendum had no place in our system and its conditions were meant to kill the bill. The measure itself was not Prohibition which this province had no power to give. The wholesale traffic which would result would be demoralizing. It would be the Scott Act over again. The true remedy was a decrease in the number of licenses and the removal of license commissioners and inspectors from party influence.

Hon. J. M. Gibson said that the platform of Mr. Whitney with regard to temperance was the extreme of platitude. It was so vague and general that it meant nothing—just like his platform on education. He avoided anything specific. He strongly urged the need of a decided majority of the electorate in order to render it reasonably sure that the law would be enforced and not run the risk of being repealed shortly after its enactment. Nine years ago the Premier had written an article for The Canadian Magazine on the referendum, in which he expressed exactly the same views as those to which he now gave utterance, and which completely disposed of the absurd charge that he adopted the plan as a subterfuge to escape his responsibilities. Mr. Whitney, while he denounced the referendum as un-British, had no word of condemnation for the Conservative Government of Manitoba. The cry of "un-British and unconstitutional" had been raised at every stage of progress by the Tory party. It had been raised against the ballot, against manhood suffrage, against municipal institutions and against our federal system of Government. (Applause.) For years English writers had been pointing out that the referendum was a sound constitutional principle. It would be contrary to jurisprudence if the Legislature could delegate the power of the referendum if it did not itself possess it. He quoted from Prof. Dicey and other eminent British authorities in favor of the measure. In 1887 Prof. Goldwin Smith, in The Contemporary Review had declared that the submission of constitutional amendments to the people was a most important safeguard. In his later utterances he had urged that the referendum should be introduced as a system, but if the Legislature had the power to do this it had clearly the power to introduce it in a specific case. Prof. Bryce, the historian Lecky, were also on record in favor of the referendum. That measure was made a plank in the platform of the English Unionist party in 1895. Yet Mr. Whitney described it as un-British. He traced the history of its adoption in Australia, where the federal constitution provided that all cases of constitutional amendment should be subject to a referendum. The Attorney-General quoted a number of strong expressions of British public men in favor of the measure at the time of the passage of the Australian Commonwealth Act. In passing the bill subject to the approval of the people they were merely enacting conditional legislation for which numberless precedents could be found and which was entirely in accordance with the principles of responsible Government. (Applause.)

Mr. Marter (North Toronto) moved the adjournment of the debate

THE MILL-END STORE!

Red with these Mill "Feints" or Ends by the largest Canadian and foreign manufacturers. We don't wish to mislead the people and have them think that this store has only Mill Ends—for there is no better assorted Dry Goods stock in Canada, considering the size. Most Domestic made, and Some Foreign. Goods are "made up" into stipulated lengths for convenience of handling and reckoning. In consequence of this, if the yarn on the loom is more than enough to weave this certain yardage, the extra piece is cut off, and constitutes a "Mill Feint."

These Feints or Ends run usually from 1 yard to 10 yards in length, and are sold to us in bulk. The preparation of getting these ready for sale means much work, yet when we can save our customers from 25 per cent to 50 per cent. on useful and usually staple goods, we are only too glad of this labour.

This store always has something or other in this way, and this week you can see represented here an object lesson of the above talk, when we will sell—

MILL ENDS OF LININGS AT MORE THAN 1-3 OFF

SKIRTINGS and JEANS, blacks, browns, whites and greys, worth 10c to 12c, for..... 7c

WAIST LININGS, blacks, browns and greys, in Surah twills, nice soft finish, worth 15c, 18c and 20c, for..... 11c

TRUSTWORTHY DRY GOODS UNIFORMLY RIGHT PRICES.

ORMOND & WALSH
DRUG STORE

One of our best medicines, which is prescribed by physicians is

EMULSION OF COD LIVER OIL

GOOD FOR EVERY DAY!

DICKSON DAVIDSON
(Successor to Ormond & Walsh.)
Corner Simcoe and George Streets.

DON'T DO IT.

Don't present your wife, your sweetheart, or your friend with a worthless box of Bon Bons. Give them the best only. To do this, the Bon Bons must be McKenzie's—the only place in Eastern Ontario where satin finished Bon Bons can be procured. Every one who receives a box of our goods are always more than pleased. Examine them before buying elsewhere. A glance at our window will convince you of their high standard. Manufactured and sold only at

McKENZIE'S
Peterborough's Modern Confectionery Store, Grand Central Block.

THURSDAY, MARCH 6, 1902.

CROOKED "FACTS."

Those who take their politics from the Mail and Empire are to be pitied if the quality of the politics it provides is no better than its "facts." Here is a sample. The Mail says:

"A timber limit sold by the Ontario Government for $1,800, has just been sold again at Ottawa for $625,000. The original sale took place twenty years ago, and during that period the owners have realized $3,000,000 from the timber they have cut on the limit."

The main "facts" in the above paragraph are pure fiction, have not a word of truth in them. The timber limit referred to was put under license forty-eight years ago at 50 cents per square mile, when the Tache-Macdonald (Sir John) Government was in power. For the sake of making a point against the Ontario Government, the Mail deliberately and grossly mistakes the facts. This is not an isolated instance, but is simply of a piece with the practice of the organ in dealing with the Ontario Government. Anything to make a point, regardless of truth or decency. So confirmed has the Mail become in this pernicious habit that any statement made by the organ regarding the Government is to be doubted unless accompanied by a confirmatory affidavit. After this when you see anything in the Mail and Empire you may conclude it is false, or at least to be taken with a big handful of salt.

EDITORIAL NOTES.

"Don," in Saturday Night, remarks: "Politicians and political editors who are impatiently awaiting the eviction of Premier Ross, disporting themselves as touts and chore boys for Prohibition fanatics or fakirs, have given me a disgust of those who are at present pretending to run the badly led Conservative party, for which I have a genuine if not grateful affection, and this disgust I find I have failed to conceal. Moreover, self-certificated moralists who are using bum politicians and bum editors to coerce the Premier are probably a less significan and sickening sight than the use which is being made of temperance agitators by politicians and grafters of the 'World' type who would like a crack at the cash registers of the publicans in a furious faction fight which they will not get under the present referendum arrangement."

Toronto Saturday Night (independent) says:—"Mr. Whitney, it is said by the Mail and Empire, stated 'at the recent gathering in his honour,' in reply to the charge that the Conservative party had not money with which to carry the general election: 'I pretend to no more virtue than my friends, but I say, if the day ever comes when the Conservative party wants to succeed by means of corrupt practices, it must get another leader.' The M. and E., with that extraordinary absence of any sense of humour which makes it so funny, declares that 'this declaration, with all its deep meaning, stirred the audience to the highest pitch of enthusiasm.' No wonder! The joke was alike huge to those who knew how elections were carried in the brave days of old when when the bar'l never ran dry, to those who are trying to starve Mr. Whitney out of his job, and to those who recognize that neither money, 'corrupt practices' nor the present 'leader' was ever put in sight of success which has been the case of the Conservative party since Mr. Whitney became leader. Mr. Whitney is no better than most of the Conservative party who take no notice into account except 'how to get in.'"

THE NORWOOD BUDGET.

What is Going on in the Village to the East.

Mr. Dan McCarthy of Kingston, a former resident of Norwood, is in town calling on old friends.

Mr. F. Doughty is moving into the house owned by Mr. C. McDonald, on Queen street.

Mr. B. Gooderham, who has been bartender for Mr. Jas. McNichol, for some time past, leaves on Wednesday for Sault Ste. Marie.

Mrs. Thomas Fraser and Mrs. D. A. Fraser, have been confined to their homes with inflamation of the lungs, but their friends will be pleased to learn that they are now out of danger and on their way to recovery.

Mr. John McKelvie intends selling off his farm stock in a few days, and moving to the "Soo."

Rev. Mr. McKnight occupied the pulpit of the Presbyterian church on Sunday last and delivered two able addresses. Norwood people will have the pleasure of hearing him again next Sunday.

Mr. George Freeman has secured a position with Mr. Thos. Waller and intends learning the Barbers business.

The scholars of the High School will hold their annual at home in the High School, on Friday evening. The entertainment will take the nature of a promenade concert as usual. During the evening refreshments will be served and all who go may expect to have a first-rate time.

The village council met on March 3rd. Reeve John Finlay occupied the chair, and Councillors Cuffe, Robertson and Ackerman present.

The minutes of the last regular and adjourned meetings were read, and on motion confirmed.

The clerk handed in the resignation of F. Fry as councillor.

Moved by Councillors Robertson and Ackerman, that the council accept the resignation of F. Fry as councillor for 1902.—Carried.

The following accounts were then submitted to the council for payment: George Hatherley, shovelling snow, $1.00; D. Foster, shovelling snow, $1; Peter Kellett, opening ditch, $2.25.

Moved by Messrs. Robertson and Cuffe that the above accounts be paid.—Carried.

Moved by Messrs. Ackerman and Cuffe that the reeve issue his warrant to the clerk to call for nominations for councillor to fill the vacancy.—Councillors Cuffe and Robertson.

A CAUSE OF HEADACHE.

One Very Common Cause, Generally Over-looked.

Headache is a symptom, an indication of derangement or disease in some organ and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses, all produce headaches, and if we could always locate the organ which is at fault, the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache, called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the head-

ache is located in the back of head and neck it is often caused from catarrh of the stomach or liver.

At any rate catarrh is the most common cause of such headaches, and the cause of the catarrh causes a prompt disappearance of the headaches.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics, like eucalyptol, guaiacol and blood root, which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and eulogizes Stuart's Catarrh Tablets as a cure for them. She says, "I suffered daily from severe frontal headaches, and pain in the back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from Catarrh more or less for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case, because the headaches were always worse whenever I had a cold or a fresh attack of catarrh.

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure, and after using a few fifty-cent boxes which I procured from my druggists I was surprised and delighted to find that both the catarrh and headaches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at 50 cents per package under the guarantee of the proprietors, that they contain absolutely no cocaine (found in so many catarrh cures), no opium, (so common in cheap cough cures), nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

KEENE.

(From our own Correspondent.)

Miss Gillespie, of Peterborough, was visiting Miss M. Eason of the "High Lands," last week.

Rev. Mr. Hall, of Arthur, occupied the Presbyterian pulpit last Sunday.

The continued rain has made the roads almost impassable.

Mrs. (Rev.) J. Jeffray, of Ft. McLeod, N.W.T., spent a few days last week with her sister, Mrs. (Dr.) Shaw.

Mr. Will Laing, of Edmonton, N. W. T., has returned to his home after an extended visit with friends here.

A few of our citizens held a meeting one evening of last week for the purpose of forming a society with a view to improving the appearance of our pretty village. It was decided to call a public meeting in early spring to give all who have a pride in, or an admiration for the village of their home or adoption an opportunity to show it in some tangible way. The meeting will be held in the evening, that all may avail themselves of it. The date will be announced later.

The Keene Hockey Club fail to induce either Belleville, Lindsay or the Peterborough Colts to come here to play an exhibition game. What is the matter?

The Reese & Bell Comedy, with a strong company showed here Tuesday and Wednesday evenings to large and appreciative audiences. In the past the travelling companies that visited here were, unfortunately worthless, and people as a rule have ceased to patronize such, but strictly on its merits this show attracted full houses, especially on the second night. The comedy all through was strictly clean and moral. Miss Josie Blair sang several solos in a full, rich contralto voice, and graciously responded to vigorous encores. Mr. Harry Reese, as an Irish Comedian, has few equals, and is but to be seen to be appreciated. It is to be hoped that the company can see its way clear to visit us again.

MOUNT PLEASANT.

(From our own Correspondent.)

Mr. T. W. McLean left for the City of Toronto last week.

Owing to the bad state of the roads no mail was received on Friday, the 28th ult., and no mail left here on Saturday, March 1st. We received two days mail on the last mentioned day.

Mr. Isaiah Best, a former resident of Mount Pleasant, was renewing old acquaintances here. The state of the roads kept him here longer than he intended staying. Toronto being his home now, he did not like to be shut in for several days.

The new sawmill on the 14th con. east of the village is doing a good business. Farmers can bring their logs to the mill and take their lumber home with them.

Josiah Hayes has moved into town from Bobcaygeon. Formerly he was a resident of Cavan, but he has a great desire to live in a fishing and hunting ground. He can recount many scenes of pleasure and sadness. We hope that he will feel at home amongst his old friends; and in his new home he will make a first-class citizen.

We noticed in a late issue that there was no service in either of our churches for two Sabbaths following. Another Sabbath may be added to those mentioned above. No service was held in the churches on the 2nd inst.; the rain made the roads impassable.

There are many enquiries for farm help. It appears labouring men are scarce, and farmers find it difficult to get good men for hire.

During the last three weeks of stormy weather this town, along with others, found business very dull. The fine weather we are having now will make a revolution in business.

Mr. Greigg, the new blacksmith, is prepared for the rush of business following the season of depression. The farmers may expect their work done on short notice and to their entire satisfaction.

Mr. John Jamieson of this town, has been visiting his relatives in Port Hope.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

HONOUR ROLLS.

II.—Grattan Telford, Marcus Fowler, Harry McNern. Jr. Pt. II.—Bruce McNern, Vincent Elliott, Charlie Poulsome, Ethel Cromie. Pt. I.—Bruce Bell, Frank Nelson.

Honour Roll for attendance—Harry Edmison, Miss Edmison, Arthur Edmison, Iva Cromie, Grattan Telford, Massy Castle.

A GREAT, GRAND GENERAL CLEAN-UP

At this season of the year—just before the Spring Goods arrive—a clearance must be made. This week we concentrate all small lots and discontinued patterns of our Wall Paper Department. Also many lines in other departments, which we mark at prices simply irresistible. A few examples follow:—

800 Rolls Tapestry Wall Papers, with perfect match borders and ceilings to deep Red, Blue, Green, Browns for hall, dining rooms, library, etc. regular 12c, clearing at	9c
600 Rolls Ingrain Wall Paper, regular 10c per roll, 8 good colourings, this week	6c
18 inch Friezes to match, regular 10c, this week, per yard	7c
160 Window Shades, which cannot be bought in the regular way for less than 60 to 75c, clearing at	49c
30 Dozen Tea Spoons, fancy handle, quality A1 and will not tarnish, good value at 100. Price this week, per dozen	89c
40 Table and Dessert Spoons, your choice, each	4c
75 Butter Knives, each	3c
17 only Butter Knives, quality guaranteed, regular 85c, for	45c
20 Dozen Silver Steel Tea and Dinner Knives, regular 25c, for, each	10c
10 Dinner and Tea Sets, which were marked down to $10, full 97 pieces, gilt edges, 3 patterns, choice	7.98
20 White Ewers for chamber sets, regular 35c, clearing at	25c
50 dozen Cups and Saucers, coloured band, red, green and pink, regular 35c per dozen, take what you want at, each	3c
20 Glass Table Sets, consisting of sugar bowl, cream, pitcher, spoon holder and butter dish, complete set for	89c
20 dozen Bottles Sewing Machine Oil, large bottle, best quality, bottle	5c
12 dozen Castor Oil, regular 10c, for	5c
50 dozen Genuine Vaseline, 3 bottles	10c

We have many other lines worth mentioning, which you ought to know about. Limited space shuts us off. We invite inspection at

ROUTLEY'S PETERBOROUGH and TORONTO STORES. Phone 388.

GRAND OPENING OF

Spring Footwear

—AT—

ROBT. McWHINNIE'S

Central Boot and Shoe Store.

We will open the season with a grand display of new Spring Footwear for the whole household, commencing on Saturday, March 8th, and continue for two weeks. During this event we will hold a Special Sale each day at prices that will make our two weeks' opening particularly enlivening to early shoppers. Prices like these will prevail:—

SPECIAL FOR MEN

Men's Dongola Kalz, Goodyear Welt. Special $2.50
" " Congress " " Special 1.50

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

How About These?

"If you want to improve your mind," said the sage, "associate only with persons who know more than you do."

"But if they follow the same rule," said one of those who were learning wisdom at his feet, "what are we to do?"

For whooping cough and croup, Vapo-Cresolene is a simple and perfect remedy.

PRINCE HENRY IN CANADA.

Welcomed on Behalf of Dominion and Province of Ontario.

Toronto, March 6.—The Prince of Prussia came to Canada and left again yesterday afternoon. It was arranged that he should remain thirty minutes on the Canadian side of the great Niagara Falls, but the exact time fell short of that by five minutes.

Major Maude welcomed the Prince to Canada, on behalf of the Governor-General, the Government and the people of this country. In reply, the Prince thanked Major Maude for his kind words of welcome, and wished him to convey to the Government and Lord Minto his regret that the arrangements of his tour prevented a longer stay in Canada.

Hon. Richard Harcourt extended to the Prince a cordial welcome on behalf of the Government of Ontario, presenting him with a prepared address. His Highness also returned thanks for this, and the rest of the members of the Reception Committee were introduced personally to His Highness, each doffing his silk hat in the greeting.

Mr. Karll Mueller then presented a splendid portfolio of photographs to the Prince, on behalf of the citizens of Berlin, Ont., for which His Highness expressed his profound thanks.

The Prince and a procession of eight carriages following, in which were the suite and newspaper correspondents doing the tour with him, then hurried along the Table Rock, from where the Prince viewed the Horse Shoe.

On the way to Table Rock the Prince alighted from his carriage, and viewed the great gorge from the roadside. Arriving at the rock, he gazed in silent admiration for about five minutes upon the Falls. He then entered a special trolley, and was taken thenceforth back to the land of the Stars and Stripes.

Mr. Hespeller, the German Consul of Montreal, had a friendly chat with the Prince in his special trolley. He told Mr. Hespeller that the sight of the Falls had impressed him immensely. "It was grand and magnificent," said the Prince to him.

Diamond Dyes

Are the Strongest, Brightest and Richest and Excel all Other Home Dyes.

A few years ago it was the opinion of many that the dyers of oriental lands possessed the best colours in the world for the dyeing of all fabrics. To-day, this idea will not be entertained or supported for a moment. The introduction of the celebrated Diamond Dyes has given to the civilized world colours that are unequalled. Diamond Dyes are far more durable and much brighter and fuller than the dyes produced by Oriental or European dye manufacturers. Users of the Diamond Dyes at all times obtain as good results in the home as professional dyers can produce in the large city dye house.

Diamond Dye Mat and Rug Patterns are having a tremendous sale everywhere in Canada. If you would work one up in your home, send your address at once to The Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P.Q., and they will mail you free of cost sheets of the newest designs to select from.

Bishop Coadjutor Consecrated.

Montreal, March 6.—It is now Bishop Carmichael. By an overwhelming vote, which was subsequently made unanimous, the Very Rev. Dean Carmichael, D.D., D.C.L., was made Coadjutor-Bishop of the Diocese by the Synod yesterday. The Archbishop, in a few impressive words, expressed his gratification. His Lordship accepted in a graceful speech.

Helped Capture John Brown.

Baltimore, March 6.—Gen. Robert H. Carr, aged 80 years, died at his home here last night. Gen. Carr gained prominence through his active participation in the capture of John Brown at Harper's Ferry.

After a Hundred Years.

Cincinnati, Ohio, March 6.—The centennial of the incorporation of Cincinnati was celebrated yesterday with appropriate exercises.

Why Rheumatism is Like Catarrh.

Both are inflamations. The former of the muscle tissues, the latter of the muscous membrane. The only way to cure either is by a course of blood purifying and blood enriching treatment. Merrill's System Tonic is the most thorough blood purifier, and at the same time the most rapid blood-making remedy known. Fifty pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

THE TELEPHONE BILL

Mr. Fitzpatrick's Measure for the Control of Rates.

MAIN FEATURES OF THE BILL

Regulation of Telegraph and Telephone Rates the Object Aimed at—Returns of the Clayton-Bulwer Treaty Negotiations—The Motion Lost After an Explanation by Sir Wilfrid Laurier—Senate Proceedings.

Ottawa, March 6.—Mr. Fitzpatrick yesterday introduced his bill respecting telephone and telegraph companies, the purport of which, he explained, was to bring their rates under the control of the Governor-General in Council, and to extend certain provisions of the general railway act to them. The telephone companies are also subjected by the bill to the same regulations as the telegraph companies. Mr. Monk's motion for papers connected with the abrogation of the Clayton-Bulwer treaty was negatived, after Sir Wilfrid Laurier had repeated the explanation he gave when Mr. Bourassa submitted a similar resolution a few days since. The Premier said the correspondence was so closely connected and interwoven with that relating to the question of the Alaskan boundary, which is still pending, but which might be closed at any time, that it could not be separated, and, therefore, could not be brought down. Mr. Charlton's motion to have the Auditor-General's report published in parts, as prepared, was lost by a vote of 98 to 52. Mr. Fielding pointed out that when the report was ready as early as it was this session the motion was unnecessary.

The Telephone Bill.

In introducing the bill, Mr. Fitzpatrick said: "As declared by the title of this bill, it is applicable to telegraph and telephone companies. So far as the telegraph companies are concerned, it is a mere consolidation of the law now in force, with reference to these companies; and the only change with respect to telegraph companies is a provision for the control of the rates of telegraph companies by the Railway Committee of the Privy Council. This is a new feature in this bill. The bill, I may say, was prepared several months ago, by my predecessor, and the intention was to introduce it in the early days of this session; but, because of changes which took place it was necessary for me to have some consultation, in order finally to fix the form in which the bill is now introduced. In a word, the bill makes applicable several provisions of the Railway Act, to telephone and telegraph companies, and it also makes applicable to telephone companies certain provisions of the existing telegraph bill.

The main features of the bill are: Control by the Railway Committee or the Privy Council of the rates to be charged, both by telegraph and telephone companies, and, also, regulations for the exchange of business between the different companies. In order to make the bill of general application, it was necessary to make special reference to existing companies; that is to say, as the law now stands, there is but one telephone company in Canada, that is, at the present time, under the legislative jurisdiction of the Federal Parliament, that is the Bell Telephone Company. My desire is to make this law one of general application, applicable, as far as possible, to all telephone companies in Canada, and provision has been made in the bill for that purpose. The attempt which I have made to have the provisions of this bill applicable to all the telephone companies in this country is one that will necessarily deserve very serious consideration on the part of the House. Therefore, it it is my intention, when we reach the second reading of the bill to ask that it be referred to the Railway Committee of the House.

Mr. W. F. Maclean, who has a similar bill before the House, spoke briefly in support of the measure, but entered a strong plea for Government ownership.

Mr. R. L. Borden supplemented the statement made by the Minister of Justice to the effect that the Bell Telephone Company was the only one in Canada subject to the jurisdiction of Parliament. Mr. Borden turned up the statutes of 1888, and showed that the provincial charter of the Nova Scotia Telephone Company had been confirmed by act of Parliament, which also granted the company certain powers, which could be exercised anywhere in the Dominion.

Mr. Fitzpatrick replied that his information was gathered from the official in the department who was charged with the preparation of the bill, and who gave him the legislation in reference to it. The only company that he was aware the Dominion Parliament had granted a charter to was the Bell Telephone Company.

The bill was read a first time.

Mr. Monk's Motion.

Mr. Monk moved for copies of the correspondence between the Imperial and Canadian authorities on the subject of the abrogation of the Clayton-Bulwer treaty; also on the Alaska boundary negotiations since the Joint High Commission ceased to sit.

After discussion, the motion was declared lost on division.

Mr. Charlton moved a resolution to the effect that the auditor's report should be issued in parts from time to time during the recess, instead of waiting till Parliament meets. The Finance Minister opposed the suggestion and the House divided on the motion, with the result that it was defeated by 99 nays to 53 yeas.

The House adjourned at 8.15 p.m.

If it is asthma, bronchitis, croup, or any such trouble, use Vapo-Cresolene. All Druggists.

TOO GREAT EXPENSE

Not the Reason.

It is not because Pyramid Pile Cure is so expensive that many people decline to give it a trial, but because they find it too great a tax on their credulity to believe that the published letters bearing testimony to the merit of this remedy are genuine and bona fide; especially to those who have realized the suffering incident to piles is it incredible that anyone who has been afflicted twenty-five and thirty years with the worst forms of protruding and bleeding piles should be cured by the application of a simple remedy, when their physician has assured them that the only relief is in a surgical operation. This is rightfully viewed with dread by all those afflicted, as it means at the least a great shock to the nervous system, with more than a possibility of utter collapse and death; in the majority of cases, too, there is a return of the complaint, owing to the fact that the cause is not removed.

The proprietors of Pyramid Pile Cure agree to forfeit one thousand dollars to anyone who will show a single published testimonial to be not genuine and unsolicited; this latter feature is most gratifying, inasmuch as these letters are written solely out of gratitude, and with the hope that those who are afflicted as the writers have been may learn that relief is at hand, at a comparatively trifling expense. Pyramid Pile Cure is for sale by druggists at fifty cents a package, or will be mailed by the makers to any address upon receipt of price.

Mr. Wm. Lichtenwalter, head of the largest printing house in Canton, Ohio, says: "It is with the utmost pleasure and satisfaction that I can say I believe I am cured of protruding and bleeding piles, after suffering more than twenty-five years. I have been in bed for two weeks at a time. I have not suffered in the least for over a year, and I used only three fifty-cent boxes of Pyramid Pile Cure. I advise every person suffering with this distressing and painful complaint to give this remedy a trial. I have every confidence in it." Write the Pyramid Drug Co., Marshall, Mich., for their book on the causes and cure of piles.

VICTORY FOR FREE TRADE.

Conclusion of the Sugar Conference at Brussels.

Brussels, March 6.—The International Sugar Convention was signed yesterday.

London, March 6.—Mr. Gerald Balfour, speaking at the annual dinner of the Associated Chambers of Commerce last night, referred to the conclusion of the Brussels sugar convention. He claimed the result as a triumph for British diplomacy, and a victory for the principles of free trade.

Shot in the Tongue.

Toronto, March 6.—Fifteen-year-old Robert Rochrun of 136 Parliament street, was loading a shotgun yesterday afternoon, and while looking into the barrel of the weapon, it exploded, and the bullet lodged in his tongue. At the emergency Hospital the bullet was removed and Rochrun was able to go to his home.

Boers For Seychelles.

London, March 6.—It has been decided to send all Boer prisoners who are sentenced to terms of penal servitude out of South Africa to the Seychelles Islands. A new convict prison is to be constructed there for the purpose. Accommodation for 1,200 prisoners of war will be ready in Antigua by the middle of April.

A Yankee Report Denied.

London, March 6.—The British Admiralty officials deny the report, circulated in the United States, of the sinking of a torpedo boat destroyer in the English Channel.

Lloyd's connects the injury sustained by the Norwegian steamer Heim Reisesque (now at Maassluis, near Rotterdam, with her bows stove in), with the collision, March 3, between the British battleship Irresistible and a then unknown steamer.

TROUBLES THAT LEAD TO INSANITY AND SUICIDE.

They Result From a Diseased and Disorganized Nervous System.

PAINE'S CELERY COMPOUND

The Great Banisher of Nervousness in all its Forms.

Are you a victim of melancholia, and do you dread from day to day? Does the shriek of the steam whistle, the rattle of wheels or the clanger of bells cause you to start and shiver? If this is your condition be assured your case is extremely critical.

It is fitting that you should investigate your condition at once. If you are sleepless, depressed in spirits, if your mental movements are slow, if you are subject to terrifying hallucinations and an aversion to food we say with all earnestness, beware of insanity and suicide.

The science of medicine, has, thank Heaven, furnished a means for the banishment of all the troubles referred to. Paine's Celery Compound is the great restorer and builder of the weakened and shattered nervous system. This marvellous prescription of Professor Edward E. Phelps, M.D., LL.D., begins its work directly on the nerves by bracing them up; it also strengthens tissues and muscles; it causes pure, life-giving blood to flow freely to every part of the body, carrying health, vigour, joy and happiness into each hour of life. Beware of remedies that have no merit or reputation to commend them, they simply aggravate existing troubles. Ask your druggist for Paine's Celery Compound, the medicine that never disappoints.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

THE CANADA MILITIA

Intending Recruits Will Have to Show Shooting Aptitude.

A WARNING TO POOR SHOTS

Important Announcements at the D.R.A. Meeting by the Minister of Militia, Who Was Elected First Honorary President by a Standing Vote—Hon. Col. J. M. Gibson Re-Elected President.

Ottawa, March 6.—At the annual meeting of the Dominion Rifle Association yesterday, on motion of Col. Tilton, the Minister of Militia was elected first honorary president of the association by a standing vote, amidst great applause.

Col. Borden returned his thanks in suitable terms. Col. Borden spoke of what the department was doing for the establishment of ranges, and said he considered rifle shooting the backbone of the militia organization of this country. It was, therefore, the duty of the Government to do everything in its power to improve rifle shooting. He pointed out that the money ordinarily granted for annual drill was this year to be voted for "annual drill and musketry," so that the department would be able to spend such portion of the appropriation as it might see fit for the development and improvement of rifle associations. "More than that," said the minister, "the department proposes, with the entire concurrence of the Major-General Commanding, I might say, upon his advice, that in future no recruit will be regarded as accomplished as a military man, nor will it undertake to spend the good money of this country upon any man who does not show a remarkable aptitude before he becomes a military man, for learning the use of the rifle. Gen. O'Grady-Haly spoke briefly.

A resolution of regret at the death of Lord Dufferin was adopted in silence. On the motion of the chairman Col. Gibson was re-elected president; Lt.-Col. McKay, 5th Royal Scots, Montreal, was elected vice-president for Quebec in place of the late R. R. Dobell, and Lt.-Col. Tilton, vice-president for Quebec, in succession to Lt.-Col. Edwin B. Beer.

In reply to some remarks by Col. Tilton, the Minister of Militia stated that it was intended to issue the new rifle to the force, also Col. Borden announced that the Government had under consideration a proposal for the establishment of a small arms factory in Canada, which he thought was a most desirable thing to be done. The rifle which it was proposed to manufacture here differed slightly from the Lee-Enfield and was claimed by some to be an improvement. The question was submitted to a committee of Canadian military men, who reported in its favor after experimenting with it very carefully. The rifle in question was known as the Ross rifle.

NO VERIFICATION NEEDED AT HOME.

Everybody in Oshawa is Familiar With This Case.

Joe Brown's Wonderful Escape From Death is now an old and oft Told Story to the People of his own Town.

Oshawa, Ont., March 5, (Special) — While interest in Joe Brown's case has been revived by the crecent publication of the facts in so many papers Oshawa people are well acquainted with the whole circumstance. Mr. Brown's father-in-law, Mr. John Allin, whose place of business is right in the centre of the town, has, however, had to answer many questions recently, but as he was very close to Mr. Brown during the whole of his painful experiences in '97 and '98, he finds this an easy matter.

Mr. Allin is quite as enthusiastic as Mr. Brown himself, and never tires telling the story of how Dodd's Kidney Pills conquered disease, and saved Mr. Brown's life. He says:

"We didn't think he would ever live through it, let alone get strong and able to work, but the pills made him all right and well in a short time, and the best of it all is that the cure has stood the test of time. It must be three and a half years since and, as you know, he's strong and hearty today and has been ever since Dodd's Kidney Pills sent him back to the shop."

There are many others in town who have recently been reminded of this wonderful cure of a seemingly hopeless case, who find no trouble in calling up the facts, and none are slow to give all the credit to Dodd's Kidney Pills.

Telephones in Berlin.

Berlin, Ont., March 6.—The Town Council has decided to grant the Bell Telephone Company an exclusive franchise for five years, and receive $200 annually for it. The Mayor announces that the Bell Telephone Company has promised to reduce the price of residential telephones from $25 to $20 a year.

Windsor P.M. Suspended.

Windsor, Ont., March 6.—The people of Windsor and Alfred Wigle were greatly surprised Tuesday when Inspector Hopkirk notified Mr. Wigle that he was suspended as postmaster of Windsor, pending an official enquiry. W. R. Ecclestone of Hamilton is in charge.

Like Sunshine and Rain.

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. Don't neglect your lungs. Spend 25c for a bottle of Four T's at Ormond & Walsh's drug store and avoid congestion.

FOLLOW THE BARGAINS!

The T. O. Rush Co. Bankrupt Stock IS REMOVED

TO THE STORE SOUTH OF THE BANK OF TORONTO AND NEXT TO ED. BROWN'S GROCERY.

We had no room in the City Clothing Store for this stock, and have decided to slaughter the remainder in the above premises in a hurry.

Remember the T. O. Rush Co's Stock was bought at 64 1-2c on the Dollar, and as we have already made profit enough out of the big sales, we can afford to let the rest go at almost your own bid. Positively no reserve. Mr. Fred Allison and Mr. Jos. Picard will continue to rush out this stock until everything is cleared.

H. Le Brun & Co.

THE GLARE OF THE SUN AND SNOW

is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

THURSDAY, MARCH 6, 1902.

Lace and Muslin Curtains Laundried.

Having removed from 550 Aylmer street, to 392 Aylmer, south of Hunter, I am prepared to launder all kinds of lace and muslin curtains, at the latter place. Mrs. Weatherhead, 392 Aylmer street, south of Hunter.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpright, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

Opening March 8th.

Grand opening of Ladies' Household Companion, March 8th. Souvenirs will be given away to all the people who subscribe on that date. All are welcome. 623 George street. Open till 9.30 p.m. 3d1w

Return of Prof. O'Brien, the Palmist and Phrenologist.

It will be interesting news to many who were unable to consult with Prof. O'Brien, the Phrenologist and Scientific Palmist, during his visit to Peterborough about two months ago, that he is again in Peterborough making another short visit. The professor has been meeting with crowded audiences all along the line since leaving Peterborough, and his successes have been revelations to the people everywhere he went. See advertisement in another column.

BAND CONCERT THIS EVENING MARKET HALL ENTIRE CHANGE OF PROGRAMME.

Historical Society.

A general meeting of the Ontario Historical Society, will be held in conjunction with the Historical section of the Educational Association, on April 1st, 2nd and 3rd, in the Educational Department Buildings, Toronto. In the programme for the three days there are two addresses that will no doubt prove to be particularly interesting to the people of Peterborough. Mr. M. W. Matchett will give a talk on "The Present Public School Text Book on History," and Rev. Dr. Symonds will deliver an address on "Arnold of Rugby."

For the Members Only.

A social for all the senior members of the Y.M.C.A. will be held in the parlours on Thursday evening at 8 p.m. This will include both limited and full members and all in either of these classes who do not receive notice otherwise will consider this notice sufficient. It will be under the auspices of the Social Committee and A.H.M. Club. A good programme will be provided and oysters will be served. The annual sale of Magazines will be conducted at the close.

IN LATEST SPORTING CIRCLES

Galt and Peterborough Will Play To-morrow Night.

Cobourg Young Ladies Will Play Here on Monday Next—The Trent Valley Finals.

HOCKEY.

With light hearts and beaming faces and with the Peterborough colours flying profusely from each individual, the Peterborough Ladies' Hockey Team, arrived off the 5.30 G. T. R. train last night, after having defeated the Cobourg ladies on their own ice. The girls were warmly greeted by those who were at the depot, and it was some time before they were excused of the pleasant duty of receiving the congratulations of their host of friends.

The girls speak very enthusiastically of their trip, and of the manner in which they were entertained by the people of Cobourg. When they arrived in Cobourg in the afternoon Mrs. Crowther at once entertained the girls to an afternoon tea, after which they proceeded to the rink, where they spent a few minutes in sizing up the place and informing themselves in general. They then took a stroll around town till dinner time.

The game started at 8.15 o'clock before 600 spectators, and with Mr. Walker, of the Bank of Toronto, as referee, who throughout the game officiated in a manner that caused no complaint from either team. The play was fast from start to finish, and of course was free from anything bordering on roughness. Miss Vivian Crowther was by long odds the star on the Cobourg team, though she was the youngest and smallest of the home aggregation. Her playing was in fact brilliant, and had she received proper support the Peterborough team would have had to hustle a trifle more than they did. The Cobourg team is well trained and handle their sticks well but they are too timid—they lack confidence in themselves. Their attempt at combination play was good, but it was sadly demoralized by the aggressive work of the Peterborough girls, who were far superior skaters.

The Cobourg girls call themselves the "Happy-go-lucky Seven." Their trainer is Mr. Lount, Manager of the Bank of Toronto, and formerly of Peterborough. He deserves every credit for the excellent team he has gotten together. Mrs. Lount entertained both teams after the game. The incidents of the game were commented on quite freely and the Peterborough team was warmly congratulated on their victory, even though it was by only one goal. The Peterborough girls cannot speak too highly of the manner in which they were entertained by the Cobourg people, and hope to reciprocate their kind treatment when the Cobourg young ladies visit Peterborough on Monday night.

As to the Peterborough team, every man—or rather every lady played a winning game. The Misses Scott—four in number—made a great combination, and little Miss Lulu was one of the fastest players on the Peterborough forward line. Mrs. Austin chaperoned the party which consisted of, Miss Jennie Scott, Miss Florence Scott, Miss Alice Scott, Miss Lulu Scott, Miss V. Hunter, Miss Pearl Fitzgerald and Miss Gwen. Hall. Miss Helen Hall and Miss Helen Stethem accompanied the team. Miss Gwen Hall played one of the most brilliant games of the evening, and her work on the forward line was very effective.

The Galt Hockey Club will arrive here to-morrow evening to play the locals in the first of the home and home games for the intermediate championship of the O. H. A. The Galt team is confident of winning and the home team will endeavour to disappoint them. The result of these expectations should prove to be a very close and exciting match. The attendance should be the largest of the season.

The local club received word this afternoon that the Galt team will arrive here to-night on the midnight train. They intend keeping in condition evidently.

The Norwood hockey team and the Fenelon Falls seven will battle for supremacy in the eastern village to-night. The Fenelon team has a field of only three goals and Norwood feels certain that they can more than pull this down. The Fenelon team passed through town to-day at noon and appear to be a pretty likely lot of men. Mr. Jim McCabe, of town, will officiate as referee. Messrs. A. H. Stratton, and E. S. Clarry, Hon. President and Secretary, respectively, of the Trent Valley League will go down to see the match.

It will be welcome news to the people of town to know that they are to be given the privilege of witnessing a ladies' hockey match before the hockey season closes. The local ladies' team which played in Cobourg and came out victorious, have extended an invitation to the Cobourg girls to play a return match. The southern damsels have accepted the invitation and they will try conclusions with the Peterborough ladies at the rink on Monday night. This is the first opportunity that the citizens of the town have been given to witness a ladies' hockey match, with an out of town team and the attendance therefore should be exceptionally large. The Peterborough young ladies are determined to defeat the Cobourg girls a second time.

The hockey match in Fenelon Falls on Tuesday night between Lindsay and Fenelon resulted in a free fight. There is the same ill feeling springing up between these two towns that exists between Port Hope and Cobourg. When matters arrive at this stage they had better cease doing business with each other.

There will be large representations at to-morrow night's game from Norwood, Millbrook, Lakefield and other places. The Fenelon team which is playing in Norwood to-night will stop off in Peterborough on their way back, and see the Galt-Peterborough game.

The Port Hope Guide says: "Hurrah for the Peterborough lady hockeyists! They visited Cobourg last night and succeeded in making the 'dears' of the 'hollow' bite the ice to the tune of 1 to 0. The goal was scored in the first half. The Peterborough players were: Misses Jennie Scott, Florence Scott, Lulu Scott, Gwendoline Hall, Pearl Fitzgerald, V. Hunter, and Alice Scott. Great Scott! with the help of a few others, won the game. Miss H. Hall acted as umpire, and Miss Helen Stethem, timekeeper. Mrs. Austin went down with the girls as chaperon. Quite a number went down from here and cheered for the Peterborough girls, which no doubt gave them the required courage to tackle anybody in Cobourg. The team passed through here to-day flying the Peterborough colours and feeling very happy over their success. Many a congratulatory glance was cast at the visitors by the citizens of Port Hope in general, and every girl in town would have given lots to extend the 'glad hand.'"

LACROSSE.

A meeting of the Victoria Lacrosse Club and all others who are interested in lacrosse is called for at 8 o'clock this evening in the parlours of the Oriental Hotel. There are two very important items of business to be taken up, the first of which is the election of officers and the second the matter of entering a team in the O.H.A. There is no reason why Peterborough should not have a good swift team in the Association and it will not be the fault of the Victorias if such is not the case. Let there be a good attendance at to-night's meeting.

THE GRANT FOR STONY CREEK DAM.

The Matter of the Grant Investigated Before the Public Accounts Committee.

Hearsay Evidence of Alleged Irregularity Flatly Contradicted.

In the Public Accounts Committee of the Ontario Legislature the enquiry has been continued into the circumstances in connection with the Government grant of $4,000 to the Dickson Company, to assist in the construction of the Stony Creek dams, now in use for the public convenience and by any person or firm who wishes to make use of them.

An attempt, which utterly failed, was made by the Opposition to show that a portion of the grant — $2,000 — had been devoted to political purposes.

Mr. John Duignan, formerly an employee, swore that he was in the employ of the Dickson Company from about 1880 to January 23rd, 1901. The Dickson Company were operating on Stony Creek, and that he understood that a grant was to be secured from the Government in connection with the work. In December, 1900, Mr. W. A. Stratton, called at the office of the company and asked the company to prepare their accounts for the Public Works Department in order to secure the grant before the end of the year. Mr. Hall at this time was discharged from the management of the company, although he retained a financial interest in it through his family. On January 22nd, 1901, a cheque for $4,000 arrived through the mail from the Government. Mr. Duignan stated he opened the envelope containing the cheque and handed it to Mr. Walden, the bookkeeper and cashier of the Company. On receiving the cheque Walden went to the telephone and had some conversation with Mr. Richard Hall. At its conclusion he took up the cheque book, made out a cheque for $2,000 payable to Mr. McGill and took it to the president of the Company to get it signed. Mr. Walden remarked that it was good to be McGill. The witness remarked that he supposed the cheque was for travelling expenses. Walden said they did not owe anything to McGill on that score and remarked "Its for Stratton, and it's a crooked piece of business." The following day the witness left the employ of the Company.

Hon. Mr. Stratton asked, "Do you know of any crooked transaction in which I have taken part at any time?" The witness replied, "No, as first, second or third party, I do not."

Mr. Walden, the bookkeeper and cashier of the Company, positively denied having made any such statement as Mr. Duignan said he made. He emphatically declared that Mr. Hall never gave him any such instructions, that he had never 'phoned Mr. Hall upon the subject, that he went to his store to see him upon the receipt of the cheque and found him in the Ontario Bank when he asked him to what account he would place the cheque, and Mr. Hall said in the general cash account. He declared that no moneys of the Company had passed through his hands for political purposes, or for any purpose not directly connected with the business of the Company. No money had been paid by him or from the Company's funds for any purpose not authorized by Mr. Dickson. No cheque had been issued to Mr. McGill, nor had any cheque been paid by the bank. No moneys could leave the company without his knowledge, and as a matter of fact no moneys, for any purpose, went to Mr. Stratton or Mr. McGill. On cross-examination he stated that the books of the company were kept by him, cash received and cash paid.

Mr. J. C. Shook, Manager of the company, swore that no money had been paid out by him, either directly or indirectly, since he was manager either to Mr. Stratton or to any other person for political purposes, that no money of the company had ever been applied for any such purpose, that the company had never been asked for any contribution for political purposes, had never volunteered any, and had never given any. The statement was false in every particular.

Mr. Richard Hall, former President and Manager of the company, testified that in the summer of 1900 he had applied to the Government for a grant to assist in the construction of certain works that would be useful for public purposes on Stony Creek. He asked for a grant of $5,000. It was estimated that the works would cost at that time from $8,000 to $10,000. The works had cost over $8,000, and the grant from the Government was $4,000. He had neither promised nor given anything on behalf of the company for political purposes. Mr. Stratton had never suggested it, nor had he ever volunteered any contribution. None had been promised, and none was paid. He never had any conversation with Mr. Eakins or Mr. Duignan upon the subject. He could not have any conversation with him as there was nothing in it. He, as president of the Company, had asked Mr. W. A. Stratton, barrister, to prepare the papers for the Company for the Public Works Department, not knowing how to do it.

Mr. William Eakins swore that he was woods foreman of the Company, that all the moneys received by him had been devoted directly to the woods work, that he had never spoken to Mr. Stratton upon the subject of a contribution nor had Mr. Stratton spoken to him. Nor to Mr. Duignan.

Mr. Linton swore that the moneys of the Company had been used by him in the shanties for the payment of the men and the ordinary accounts, for which he produced the books of the Company to show.

Mr. McGill, General Manager of the Ontario Bank, swore that he had an account against the Dickson Company in the neighbourhood of $3,000, that there was a contra account between himself and the Dickson Company, that there was a balance due him of over $2,000 that he had been unable to get a settlement with the late general manager, Mr. Hazlitt, and the account was still standing due him. He said that he had received no cheque such as Mr. Duignan had spoken of, no cheque had been used, nor no moneys had been paid to him for any political purposes or for Mr. Stratton and he had contributed none. He had never heard of the matter until it was brought up in the committee. The Dickson Company owed him over $2,000 of a balance. The Cheque may have been for that purpose but he had never received it.

When Buying Bulbs from Cobb's you are assured of good quality. Carnations, violets, lilies, begonias, ferns, palms, etc., fragrant, hardy and fresh, at dwarfed prices. Aylmer street Greenhouses. Phone No. 122.

RICHARD HALL & SON

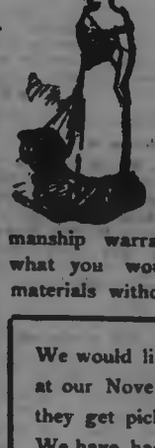
PETERBOROUGH'S MODERN STORE.

EVERY.... DEPARTMENT

Has its share of the New Goods now. **New Dress Goods, New Silks, New Cottons, New Linens, New Whitewear, New Corsets, New Carpets, New Suits, New Millinery.**

It's decidedly spring-like at this store. We are always pleased to show our Goods whether you buy or not. So come right along and see them.

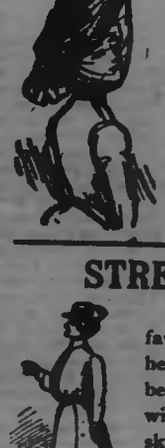
PRETTY SKIRTS!



In the providing of a wardrobe you must have plenty of underskirts. This spring we carry a larger range than usual, and this spring we have a better quality than usual. We can fit you with Skirts, Drawers, Corset Covers or whatever you may need. Quality of material and workmanship warranted all right. Prices are what you would expect to pay for the materials without any charge for the making.

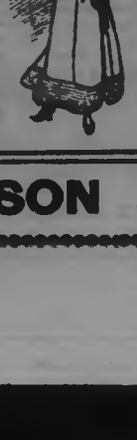
We would like if you would take a look at our Novelties in Dress Goods before they get picked over. March is here! We have had a taste of spring already. The Millinery Openings are only two weeks hence. Easter will be here before you realize it : : : : : : : : :

BEAUTIFUL VEILS!



The rough weather of late winter and early spring makes it necessary for women to wear veils. Here are some special Veils that protect the face without being an injury to the eyesight. They are beautiful and are sure to be immensely popular with the ladies of Peterborough.

STREET SKIRTS!



The Short Skirt came into favour when bicycling was at its height. Now it remains in favour because it permits easy walking with freedom from bedraggled skirts and wet ankles. We are showing a nice lot of attractive materials for short skirts in a variety of colours and qualities, and prices that will be sure to please.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

PETERBOROUGH BOOKSTORE

SEASONABLE NEWS IN

WALL PAPERS

We offer you a stock of over 200,000 Rolls of New Wall Papers from which to choose. The reduced prices below indicate what you may expect to pay. You may as well have artistic effects as not, when they cost you no more at the Peterborough Bookstore. Your selections and our suggestions will

SAVE YOU

20 TO 33 1-3 PER CENT.

on your purchase for any room in the house.

We have all the evening shades in Pink, Pale Blue, Cream, etc., etc., in Cotton, Cashmere, Silk, etc., etc., at all prices.

PORT HOPE KNITTING WORKS

MILL OPENING.

Yesterday's Supper at the Central Milling Co'n Plant.

The formal opening of the Central Milling Company's new mill at the C.P.R. station took place yesterday, when a large number of farmers who are stock holders in the concern, met at the new plant and enjoyed the hospitality of the Directors. There was a slight disappointment, however. It had been expected that the mill would be in running order, but owing to the fact that the motor was not yet in position the share holders were not privileged to witness the first operation.

Speeches were made by Messrs. Carlow, Mulhern, Hewson, Ward, Lucas, Smithson, Martin and others.

Mr. Mulhern is the manager of the mill which cost $15,000.00.

A further adjournment of the share holders took place for two weeks.

County Alliance.

The Executive of the Peterborough County Alliance met last night to perfect arrangements for their meeting to be held in the Y.M.C.A. Hall at 2 p.m., and at the opera house at 8 p.m., on Thursday the 13th inst. Mr. W. W. Buchanan will be at both meetings, and it was decided to invite all the ministers of the different churches. A large crowd is expected especially at the evening meeting.

BODY WILL BE EXHUMED.

Post Mortem on Remains of David Valentine

Will be Made To-day—Instructions Received From Attorney-General's Department.

(St. Thomas Journal.)

County Crown Attorney Donahue yesterday received instructions from the Attorney-General's department to have the body of David Valentine exhumed and a post mortem examination made. The body will be exhumed by Undertaker Williams and a post mortem held to-morrow morning by Drs. Gustin and Lawrence.

It will be remembered that the deceased left the city some months ago for Burleigh Falls, near Peterborough, and was staying with his brother-in-law, W. J. Hicks.

On the night of February 8th he went to Peterborough. He started on his return journey, stopped for a time at Lakefield and started for his brother-in-law's, a mile and a half distant. But there he never reached, being found dead in the snow, the body being frozen stiff. The remains were brought here and interred. A daughter of deceased and Mr. Botwright visited the locality, and after making inquiries the daughter made the necessary declaration that her father had met with foul play and asked for an investigation. It was said that the deceased's nose was injured, that there was a dent in the back of his head, that there was blood from the mouth and nose, and that $17 he was known to have on his person was missing. Detective Greer was sent by the criminal investigation department to look into the case, and as a result a post mortem examination has been ordered. Should it disclose anything, of course, an inquest will follow.

GOLF CLUB DANCE.

It Will Take Place Immediately After Lent—Toronto Music.

The Executive Committee of the Golf Club met last night and discussed the advisability of giving a dance after Easter. It was finally decided that the Club would give a dance, the same to take place very likely on the first Monday after Lent. The affair will take place in the opera house and the music will be provided by a Toronto orchestra. There is also some talk of deviating from the regular style of dances and the event this year may be what is known as a "Calico Ball."

A DEPUTATION TO OTTAWA.

The Mayor and Town Council Interviewed Hon. Mr. Blair

CONCERNING WATER POWER.

The Matter of Conserving the Water in the Back Lakes Urged on the Government.

A large deputation, representing the interests of the Trent Water Conservation Association, waited on Hon. A. G. Blair, Minister of Railways and Canals, in Ottawa yesterday.

The Town Council was present in a body, and prior to meeting the Minister, it was decided that the speakers would be Messrs. D. W. Dumble, Mr. Gilmour, of Trenton, Mr. German, M. P., Mr. Jas. Kendry, M.P., Mr. J. H. McClellan, and Mayor Donne.

The appointment for the interview was made for four o'clock, and the deputation was introduced by Mr. Kendry, Hon. Wm. Mulock and Hon. Jas. Sutherland, being also present.

Mr. Dumble was the first speaker. He spoke chiefly in the interests of the manufacturers doing business along the line of the Trent waters, pointing out how necessary it was to have the even flow of the waters preserved. He drew attention to the recent great increase in manufacturing done in Peterborough, speaking of the Cereal Works, which were expected to employ a thousand men, and also the Canadian Cordage Works. He showed pictures of the buildings already under way by the former company, and stated, as an evidence of the magnitude of the industry, that it was expected that seventy-five cars a day would be required to handle the output. These works had been brought to Peterborough through the town possessing a good water power for the purpose of generating electricity. Referring to the great progress made by Peterborough in recent years Mr. Dumble pointed out that the customs duties had increased from $85,000 in 1891, to $130,000 in 1900. The aim of the Trent Water Conservation Association, he stated, was to secure what was absolutely essential in the interests of the manufacturers—an equal flow of the water. At present there were over thirty dams on the waters. The lumbermen would not take the trouble to replace the stop logs after their drives passed through and great quantities of water went to waste in consequence. The management of this water, he held, should be vested in the Government. He asked that the Dominion Government join with the Ontario Government in regulating the flow. The Otonabee was an easy river to control. The water could be reservoired in Eel's Lake and Jack's lake until needed.

Hon. Mr. Blair inquired into the question of what damages would be incurred.

Mr. Dumble replied that this would be a very small matter. There were only two dams to be taken over and the shores of these lakes were high and rocky, and there would be no flooding of land to any extent. It was only a matter of putting in a few stop logs in the spring and removing them when the water was required. The question of the low water interfering with navigation was also important.

Hon. Mr. Blair then asked Mr. Dumble to state just what the association asked.

Mr. Dumble stated that he thought that the Ontario Government would freely give over the control of the waters, and the Dominion Government could then appoint an official to let off the waters from the lakes to supplement the flow of the river in the dry season.

Hon. Mr. Blair then inquired how these two dams on Eels and Jack's Lakes were to be paid for.

Mr. Dumble thought that the dams would pay for themselves by the increased revenue which would accrue to the Government in connection with the returns from the sale of power along the river.

Mayor Donne then urged the necessity of putting the waters under the control of some one official. He spoke of the water having been shut off from Peterborough for two days when the mains were almost empty and in case a fire had broken out the town would have been destroyed. This fact was what had led up to the formation of the Association, and the town was very deeply interested in the matter.

Mr. J. H. McClellan stated that the Otonabee at present fell fully three feet in the summer months, and the only remedy lay in conserving the water. The two dams on the small lakes mentioned had been built by the lumbermen and were no longer of use since the timber had been cut off the district. The dams were therefore available and should be secured. He thought the Government should be interested, with the manufacturers, in keeping the flow of the water at a normal level. As the Government took the water from the river to use in the canal they should now assist in the matter of conserving it. Two rivers had been made instead of one by the construction of the canal. Where it had formerly cost forty-five and fifty dollars a bore-power for power, Peterborough was now able to get it at $15 a horse-power through the construction of dams on the river.

Mr. German stated that all of the dams in the head waters of the Trent had been constructed by the Gilmour Company, and he was certain that by the construction of a proper series of dams the river could be so managed that not only Peterborough but all the industries along the line to Trenton could have sufficient water for their needs.

Mr. R. R. Hall stated that if the water was properly conserved the minimum flow of the river would never be less than 120,000 cubic feet a minute. As things were at present the boats constantly struck on the bottom during the summer months. An official to take the management of affairs was badly needed.

Hon. Mr. Mulock asked if any scheme had yet been devised as to the payment of such an official.

Mr. Hall replied that the matter had not been considered yet.

Hon. Mr. Blair stated that the matter of navigation was the primary consideration and if the power in the river was increased for the manufacturers it should be done, in his opinion, at the cost of those who were to get the benefit of it.

Mr. Hall suggested that the two Governments confer and decide if the water power owners should contribute towards the defraying of the expense which was incurred. He thought it was a matter which the Governments might reasonably look into and investigate in order that the water might not be wasted but be used to better advantage.

Mr. James Kendry, M. P., called attention to the great danger which existed in regards to the boats when the water was low at certain seasons of the year. The present case was not one which interested manufacturers alone, but it was even more important in the interests of navigation that the even flow of the river be preserved. If the water could be kept in Jack's and Eels' Lakes it would increase the flow of the river in the fall by 10,000 cubic feet per minute. When the canal was finished it would take away a certain proportion of power from the river, and the Government should therefore reserve the water to assist in remedying such a state of affairs.

Hon. Mr. Blair stated that he would take great pleasure in considering the matter in connection with his colleagues. Any question of navigation was one which it was in the interests of the Government of Canada to keep in mind. It could hardly be said to concern a Government whether the flow of a river suited or did not suit certain industries. Perhaps very few towns were as favourably situated as Peterborough in regard to power and the Government took a great interest in the Canal. He thought the Government should meet the Ontario Government and consult so that they could work in co-operation, and the rights of navigation not be imperilled. In referring to the scope of the Association, Mr. Blair expressed the view that he did not know of any more useful body which could contribute to making an amicable arrangement between the two Governments.

The deputation then withdrew, after Mr. Kendry had expressed his appreciation of the cordial hearing which had been extended.

Those in attendance were: Messrs. T. H. G. Denne, Mayor; and Aldermen Corkery, Batten, Clinkscale, Rush, Shortly and Edgcumbe; Mr. Ferris, of Campbellford; Mr. Gilmour, Mayor Funnell, and Councillors Dickie and Matthews, of Trenton; Mr. J. C. Shook, Mr. R. R. Hall, Mr. Arthur Stevenson, Mr. A. H. Stratton, Mr. W. G. Ferguson, Mr. W. A. Sanderson, Mr. D. W. Dumble, Mr. Felix Brownscombe, of Peterborough; Mr. Steers, of Lindsay; Mr. David Graham, ex-M.P., North Ontario; Mr. Jas. Kendry, M.P., Mr. J. Harris McClellan, and Mr. German, M.P.

MASONIC FRATERNITY.

Peterborough is invaded to-day by Freemasons from all parts of the district, who are attending the District Lodge of Instruction. It is expected that there will be over one hundred representatives present. Judge Harding of Lindsay, Grand Master, is amongst the prominent members of the Order, who are in town. The Lodge of Instruction will be in session all afternoon and this evening the formal opening of the new Masonic Hall will take place.

E. COURTNEY

Maker and fitter of Shop and Office Fittings. Hardwood Floors laid. Shop over Chinkscale's Factory, Peterborough. P. O. Box 56.

Blacksmith's Backache.

Swinging heavy hammers, frequent stooping over shoeing horses, getting a wrench once in a while from a refractory horse, bending at all sorts of odd jobs that the average blacksmith does—any wonder that in time the strongest man begins to find his back give out and his kidneys trouble him.

The progress of medical science has produced nothing that is a greater boon to the blacksmiths throughout this country than Dr. Pitcher's Backache Kidney Tablets. They get at the origin of the backache in the kidneys and make a thorough and radical cure.

THE RESULT OF A STRAIN.

A. Soper, blacksmith, John Street South, Aylmer, states his cases as follows: "A blacksmith's work is always hard and mine is no exception. I strained my back some time ago, and the trouble settled in the small of my back and kidneys, laying me up. I have been subject in times past to an attack of backache, and took different kidney pills, but got little relief after long use. This time I got a bottle of Dr. Pitcher's Backache Kidney Tablets and they stopped the attack in a hurry. They acted far differently and away quicker than anything I ever took. I am pleased with them, and consider them satisfactory in every way."

Price 50c. a box, at all druggists or by mail. THE DR. ZIRA PITCHER CO., Toronto.

PUBLIC WORKS ESTIMATES.

Items For Public Buildings From the Atlantic Coast to Ontario Passed—

Railway Employes' Injuries.

Ottawa, March 5.—The House yesterday disposed of the Public Works estimates for public buildings from the Atlantic coast to Ontario. The greater part of the day was devoted to discussion of the contract and day labor systems.

Mr. M. K. Cowan introduced a bill to incorporate the Windsor & Detroit Union Bridge Company.

Mr. D. C. Fraser introduced a bill to incorporate the board of the Presbyterian College, Halifax.

Railway Employes' Claims.

Mr. Hugh Guthrie moved the first reading of a bill to further amend the railway acts. He explained that its object was, if not to prohibit, at least to very greatly limit the power of a railway company under a Dominion charter to contract itself out of its common law or statutory liability in case of injury to employes, resulting from the negligence of the company or its servants. While it was general in its terms it really concerned at present only the Grand Trunk Railway. This company by several acts of special legislation had established a superannuation and provident society which all its employes were obliged to join. To this the railway granted $12,500 a year, about 50 cents for each of its employes. The employes were compelled to pay into the society $6 apiece. By one clause of the bylaws of the society the employes agree that in consideration of the grant of the Grand Trunk to the society no employe of the railway nor his representatives shall have any claim against the Grand Trunk on account of injury or death from accident. The present bill was founded on clause 10 of the Ontario Employers' Liability Act.

The House then went into Committee of Supply on the Public Works estimates.

Several items were passed, the committee rose and the House adjourned at midnight.

The Commercial Shee Anchor.

London, March 5.—In his presidential address at the annual meeting of the Association of Chambers of Commerce of the United Kingdom, yesterday, Lord Avebury, better known as Sir John Lubbock, admitted there were disquieting features, but, he said, there was no necessity for despondency in regard to British commerce.

In the speaker's opinion the best thing the British Government could do for commerce was to let it alone. The sheet anchor of the commercial world was the favored clause, and he trusted the Government would hold fast to the policy of the open door, and, in the case of North China, urge the United States, Japan and other nations to join hands with Britain in insisting on fair play for the commerce of the world.

Wireless Telephony.

New York, March 5.—E. Ducretet, a French engineer, claims to have invented wireless telegraphy. He says: "When the instruments are put down deep in the earth messages can be transmitted over enormous distances. Forests, rivers, mountains, may separate armies, yet they can communicate with each other through the earth by wireless telegraphy.

"Wireless telephone messages can be transmitted through sea from shore to shore or between ships. The voices are transmitted without the least difficulty, and the most delicate articulations reach the ear."

Nfld Population of 220,249.

St. John's, Nfld., March 5.— The census returns for 1901, presented to the Legislature yesterday, show a total population for the colony of 220,249, of which Newfoundland has 216,615 and Labrador 3,634. In 1891 Newfoundland had 197,980 inhabitants, while Labrador had 4,106. Denominationally, the chief creeds are Catholics, 76,259; Anglicans, 72,650; Methodists, 60,812. Members of the Salvation Army number 6,500.

Big Salmon Cannery Combine.

Vancouver, B.C., March 5.—It is understood that a new salmon cannery combine, taking in at least forty-five of the largest cannery plants in British Columbia, has been completed. The combine is on the line of that on the Columbia River. Americans, it is reported, are backing the deal, with a capital, it is said, of $4,000,000. H. Doyle & Co. of Vancouver have arranged the deal.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

The St. Lawrence Route.

Ottawa, March 5.—A deputation representing the shipping interests of Montreal had a conference lasting for over four hours with Hon. James Sutherland Monday evening upon the question of providing additional aids to navigation on the St. Lawrence. The deputation made a number of suggestions as to building new fog alarms and improving those now existing.

Ruby Lips and a Clear Skin.

are guaranteed to any woman who takes Merrill's System Tonic. This marvellous medicine is especially adapted for women, because it supplies iron for the blood, cures constipation, strengthens the nerves and by its blood purifying and muscle-toning properties, quickly cures all female ills. 50 pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

STRIKERS SHOT IN SPAIN.

Were Under Arrest For Participation in the Recent Riots.

London, March 5.—It was announced yesterday afternoon in a special despatch from Madrid that a number of strikers arrested for participation in the recent riots at Barcelona were shot at Fort Montjuich in the morning.

A brother of Gen. Moore, the Carlist leader, has been arrested for complicity in the Barcelona riots, and will be tried by court-martial.

Papers seized at the houses of Anarchists in Barcelona indicate that a widespread plot existed.

Strikes were declared yesterday at Cadiz and Ferrol, Spain.

For a Monster Demonstration.

St. Petersburg, March 2.—(Sunday.)—The students and workingmen here are secretly preparing for a monster demonstration, to take place March 7, in front of the Kazan Cathedral. They hope to get 20,000 men through the military cordons and reach the centre of the city.

Have You Made This Test.

Have You Used Dr. Chase's Nerve Food and Kept a Record of Your Increase in Weight From Week to Week?

Since the Great Free Distribution Hundreds of Citizens are Putting This Preparation to This Severe Test.

It is easy enough to imagine that you are being benefitted by some particular medicine or treatment, and this is where Christian Science, faith cures and all sorts of new-fangled doctrines and remedies get their hold on the people. Why not demand some more visible and substantial proof? Why not apply some test that cannot be disputed, even by doubting ones?

We know that Dr. Chase's Nerve Food increases the amount of rich, red blood in the system, and the result is strength to the nerves, the formation of new tissues in the body and an increase in flesh and weight. To prove that to persons who have not yet used this great food cure, we have given away hundreds of free samples in this city, and ask you to make the following test:

Before beginning to use Dr. Chase's Nerve Food, make a note of your weight, and keep a record each week of the increase. This, we believe, is the most severe test that any restorative preparation was ever put to, and we know that Dr. Chase's Nerve Food will stand this test by the experiences of scores and hundreds who it may be were just as sceptical as you are when beginning to use it.

If you are weak and run down; if your nervous system is exhausted and your blood thin and watery; if you feel tired on slight exertion, and lack vim, energy and ambition; if you would like to put on flesh and round out your form, use Dr. Chase's Nerve Food regularly and persistently, and you will be rewarded with new health, strength and vigour, and an increase of flesh and weight.

Dr. Chase's Nerve Food is not a faith cure or wonder-worker, but it will form new, red corpuscles in the blood, and create new nerve force. If you did not get a free sample, go to your druggist and buy a box and make this test, the result will surprise you. Fifty cents a box, at all dealers, or Edmanson, Bates & Company, Toronto.

Melvin Hall Gives Up.

Ogdensburg, N. Y., March 5.—Melvin Hall notified his lawyers yesterday that he would no longer fight the extradition proceedings brought by the Dominion Government to take him to Canada to answer for a long list of crimes charged against him. Hall is the alleged leader of a band that operated for years along the frontier, stealing and robbing.

Death on Coughs.

Don't let a new cough grow old! Kill it while it's young, or it may kill you. Scott's Emulsion can't hurt you, but it's death on coughs—new or old.

Old Moon Beliefs.

The health, growth and development of children and animals were years ago supposed to be influenced by the moon. If the sign was right at the time of birth, they would be well formed and intellectual, but if it was wrong there was no telling what sort of creatures they would become. Every worthless fellow, every dog, rooting hog, fence jumping cow or kicking horse was believed to have been born under an unfavorable phase of the queen of night. Queer people or those who were of hateful disposition were children of the dark moon, with the sign below the heart.

Looking For Wreckage.

Halifax, N. S., March 5.—Fishermen have been on the lookout along the coast yesterday for any bodies that might come ashore from the wrecked Tiber, but none were found. A despatch from Whitehead last evening says that a board with a piece of leather wrapped around it was picked up on the beach yesterday. When the leather was removed an envelope was found with a lock of hair in it. The address on the envelope was "Capt. John Delisle, Sorel, P.Q." Part of a steamer's boat with the name Montreal on it was also picked up.

Missionaries Massacred.

Victoria, B.C., March 5.—Reports of two massacres of missionaries in China were received by the steamer Empress this afternoon. In Kansu, Fathers Van Mirbaeghe and Bougaerts were murdered by a band of Chinese, including soldiers, who attacked their mission.

The other massacre took place in Kang Shi, Father Julien being attacked while he slept and cruelly murdered. His body was mutilated, both hands being cut off. His two servants were also killed. The viceroy has sent a troop to hunt for the murderers.

IT COST MONEY.

Many a man has spent all his earnings in trying to get rid of rheumatism. It cost Mr. James Davison, Oconto, Ont., between $1,000 and $2,000 before he tried Dr. Hall's Rheumatic Cure. He was a helpless invalid for six years but suffered from sciatica in his hip joint for ten years. Six bottles cured him completely and he is now working his farm. This great blood purifier is put up in bottles containing ten days' treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

A Fisher's Sad Fate.

St. John, N.B., March 5.— Two brothers, Townsend and Rudolph Logan, the former 32 and the latter a little older, left their homes yesterday morning for the Kennebec river to fish. They hauled a flat bottomed boat across the ice, launching it where open water was met. They had made good progress and were in the boat, when two huge pieces of ice bore down upon them. Seeing their boat was doomed, they jumped. Townsend could not swim, and was drowned. Rudolph, after a terrible experience, reached land, a mile away, where he was cared for and brought home.

Canadian Murdered.

Mobile, Ala., March 5.—John Tucker, a Canadian, was murdered Monday at Hamilton's Bluff by an unknown negro. Tucker, who has relatives in Detroit and Montreal, was engaged in farming on a large scale.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

Millions on Canals.

Albany, N.Y., March 5.—Senator Davis of the Senate Committee on Canals, yesterday reported favorably to the Senate the Canal Bill, proposing an appropriation of $31,800,000 for the improvement and enlargement of the Erie Canal and the improvement of the Champlain Canal.

Accident Was Fatal.

Ottawa, March 5.—Albina Bertrand, a young girl, who was accidentally shot by her brother last Thursday at her home back of Thirty-one Mile Lake, died yesterday at the Water Street Hospital from blood-poisoning.

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

Dominion Board of Trade.

Ottawa, March 5.—The Dominion Board of Trade, which for several years had been defunct, was resuscitated yesterday afternoon at a meeting held in the Ottawa Board of Trade rooms, and attended by representatives of boards in different parts of Canada. The Toronto and Montreal boards refused to join in the movement.

James Colville Instantly Killed.

Durham, March 5.—James Colville, miller, in Mr. McGowan's mill of this place, was killed Monday by one of the plates of the chopper bursting, striking him in the face. Death was almost instantaneous. A widow, three sons and three daughters survive him.

Billy Rice, the veteran minstrel, died at Hot Springs, Ark., Saturday afternoon of dropsy.

KIDNEY "SIGNALS"

Nature posts her signals all along the line. If the kidneys are faulty she gives the sufferer the sign—and it's an unmistakable one always.

The world owes loyalty to the science which points at life's gravest dangers—and tells her to avert them. South American Kidney Cure is a certain preventative and an unfailing cure for any and all forms of Kidney disease from the most incipient to the most stubborn and deep-seated cases—a liquid specific that never fails. It relieves in six hours. 70

Kills Germs.

That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubles of the throat and bronchial tubes.

16

Vapo-Cresolene is sold by druggists everywhere. Vapo-Cresolene outfit, including the Vaporizer and lamp, which should last a lifetime, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Hamilton, druggist.

SENSITIVE TO SOUND

ACUTE POWERS OF HEARING WITH WHICH FISH ARE ENDOWED

Some Interesting Experiments That Were Made to Determine Just What Manner of Noises or Motions Would Startle Trout.

There are three phases of sense in fish particularly interesting to the angler—their exquisite powers of hearing, of seeing and their subtle, abnormal sensitiveness to atmospheric influence. With all our experience and study it is doubtful if we have arrived at anything like a full estimate of the acute sensitiveness with which fish are endowed. I devote this article to hearing. By hearing I must obviously be understood to mean their power of appreciating the vibration caused by sound, the conductor being either solid, aerial or liquid.

In man sound detonates the eardrum, and in that way when we are under water we discover little intelligible meaning from sounds. But the same vibrations are undoubtedly received by the exquisitely sensitive hearing intelligence of a fish, if I may use the term, in a different and far more impressive way. By intelligence I mean an instinctive recognition by their bodies of some disturbance, just as mad recognizes a passing breath of air. It takes the form of feeling.

I came to the conclusion that I would make a few experiments. Here are one or two facts: A friend entered into it with me, and we bethought ourselves of certain well known trout in our preserve which were "always there." Then we placed thatched hurdles a day or two beforehand so that the fish might get accustomed to them in such a way that we could approach close to their haunts without being seen and watch the unsuspecting trout through a small hole cut in the straw. When one was not at home, the other generally was. My friend undertook the noise making, I the observation.

From the sound of a gunshot 300 yards away, which made our trout distinctly start, to the breaking of a twig three yards from the fish, which did the same, we tried all kinds of sounds, shrill and dull and at varying distances, and the sum of our experiments convinced us of this: That our sensitively organized friends felt the displacements of molecules through ether, which we call sound, and the further vibrating disturbance through what we call water, which I verily believe conducts sensation to the fish as readily as glass permits the penetration of light to this paper, in proportion to the distances and the character of the sound, but that they did hear, or feel rather, and with incredible quickness, too, was conclusively demonstrated.

What they heard and were not alarmed at I cannot tell, but when they were alarmed it was evident enough by the same kind of start they give when their chief enemy suddenly peeps over the bank. In only two cases could I discover actual fright, the fright that sends them down—a gunshot behind the hurdle and a heavy stamp of the foot near by. It is noteworthy that the shrill sounds seemed to startle them most. For instance, a policeman's whistle at ten yards sent one out into the stream as if looking about for some source of danger, whereas a shout at the same distance caused no detected movement. Their way of shifting a little farther from the bank when they have an inkling of danger is a very pretty side movement, well known no doubt. It seems for the purpose of watching the bank at a better angle.

The common manner of showing their alarm was by a sudden quiver, sometimes followed by a sinking down an inch or two, as much as to say, "What's up?" I very much doubt if I ever crept up to my peephole without being detected, and yet I was careful, for, if you notice, a trout once on the qui vive gives no sign of alarm at a second movement or noise. Once prepared he is immovable till he suddenly darts off. You may throw your great coat at him, and he either braves it stolidly or bolts clean away. Five minutes' perfect stillness and they settle back to confidence, and then they were again easily startled. I fancy the laws of refraction had something to do with it and that even from the sky they sometimes perceived my movements. I had often suspected this before.

Another conclusion: I believe they heard much they appeared not to. A sudden smack of the hands together, and there was a decided quiver, but a bird rattle, began very softly and gradually brought up to its very loudest, and no notice seemed to be taken. But doubtless, like ourselves, however loud the noise, the gradient robs it of its startle. However fanciful it may sound, of this I am thoroughly convinced—that water is such an immediate transmitter of vibration to fish that they recognize sound from the air nearly as quickly as man. It is no argument to say we do not when in it. We have no need. Fish have. And because they have they are providentially endowed with supersensitiveness to that particular nervous influence among others.—London Field.

Two Crops.

"Funny about young Spendtt, wasn't it?" said the observing man.

"Was it?" asked the man of an inquiring mind.

"Yes; he lost his money raising Cain in Europe and then made another fortune raising cane in Louisiana."

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. The original and only genuine cure for Bright's Disease is

DODD'S KIDNEY PILLS

Dodd's Kidney Pills are fifty cents a box at all druggists.

Carling's Porter

is the kind the doctor ordered.

He knows that he can rely upon the purity and thorough age of every bottle.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, make them active, vigorous, and thoroughly cure these ailments. One 25c box of this great Kidney medicine will do you a world of good.

The Condor's Boom Found.

Victoria, B. C., March 6.—The steamer Queen City, which returned last evening from a trip along the west coast of Vancouver Island, brings reports that more than one vessel met with disaster during the recent gales. In the finding of the boom of the ill-fated sloop of war Condor on Long Beach further evidence is produced to show that the vessel went to the bottom in the December storm, which carried down the collier Mattewan and her crew, making a death list for that one blow off Cape Flattery of 140 persons.

Specialists' Ideas Adopted.

When originating his celebrated Four T's Merrill, the Brantford Druggist, added to drugs of many generations' usefulness some of the latest drugs used by lung and throat specialists. The result, naturally, is that Four T's is an unexcelled compound and never fails to cure a cough in 24 hours and the worst cold in two days. Large bottles 25c. at Ormond & Walsh's drug store.

Attempt Nipped in Bud.

Belgrade, Servia, March 6.—An extraordinary attempt to start a revolution was made yesterday morning at the frontier town of Shabatz (a town on the Save, 56 miles west of Belgrade), by a raid, under the leadership of Alavantics, a relative of Prince Karageorgevich, the pretender to the Servian throne. The only result was that Alavantics was killed and his confederates arrested.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Polson's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

Fire at Frankford.

Frantford, Ont., March 6.— In Frankford at 6 o'clock last night fire completely destroyed the drug store owned by B. B. Ostrom; contents partly saved; damage $4,000.

Rykard Accepts.

Bowmanville, March 6.— William Rykard, Newcastle, last night accepted the Liberal nomination for the Local House for West Durham.

Canada's Bisley Team.

Ottawa, March 6.—The Bisley team will leave for England on June 14. The annual matches begin Aug. 25.

Cough, Cough,

Night and day, until the strength is entirely exhausted, and that dreaded word "*Consumption*" begins to be whispered among friends. That's a common story, familiar to the people of every town and village.

There's another story which ought to be as widely known as the story of disease, and that is the story of the cures effected by the use of Dr. Pierce's Golden Medical Discovery. Bronchitis, asthma, obstinate, deep-seated coughs, bleeding of the lungs, and other forms of disease which affect the respiratory organs, are permanently cured by the use of "Golden Medical Discovery."

"Only for Dr. Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Moses Miles, of Hilliard, Uinta Co., Wyoming. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both night and day. My friends all thought I had consumption. My wife insisted on my trying Dr. Pierce's Golden Medical Discovery—which I did. I have taken four bottles and am now a well man, weighing 185 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for book in paper covers or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

NEWS NUGGETS.

—St John's choir will not practice this evening.

—An Orange Lodge has been organized in Hastings.

—There will be a cottage meeting at Auburn this evening.

—Remember the band concert in the market hall this evening.

—R. Tice was sentenced at the police court this morning to three months in jail for vagrancy.

—The Separate School Board did not meet last night. The Board will meet on Tuesday of next week.

—The service in All Saint's church will be conducted by the Rev. J. C. Davidson at 8 o'clock, to-night.

—The "Temple of Fame" will be given by the ladies of the Presbyterian church, Lakefield, in the town hall on Tuesday night, March 11th, at 7.30.

Whiten makes no common photos; all the newest styles at Whiten's. Have the children photographed at Whiten's studio, 158 Hunter street, west.

—Mr. R. H. Leary, the enterprising agent for the McLaughlin Carriage Company, of Oshawa, has just received a carload of vehicles for the spring trade.

—At the last meeting of the Lindsay School Board the matter of erecting a new school for the North Ward was discussed at some length. Finally Messrs. Pivelle, Pilkie, Anderson and Chairman Stewart were appointed a committee to gather information to be submitted to the Council and ratepayers.

The Paper You Like.

We wish to introduce two of our leading lines of note papers with envelopes to match. They are known as "Sylvia Grey," being a beautiful London Grey shade of note paper, done up in neat packages of 125 sheets and envelopes in boxes of 100. This week the price will be 25c per package, and and 25c for the envelopes. Our "Adriatic Parchment" paper is a pure vellum white note, a beautiful surface to write on—in packages of 125 sheets for 25c., envelopes in boxes of 125, for 25c. Just received, "The Right of Way," by Gilbert Parker, latest copyright, at 75c. each. A. H. Stratton & Co., 417 George street.

A PROGRESSIVE FIRM.

The Peter Hamilton Mfg. Company has Passed the 43rd Milestone in its Business Career.

An exceedingly neat catalogue has just been issued from the Examiner electric presses for the Peter Hamilton Mfg. Co., (Limited), makers of farming implements. The catalogue is profusely illustrated with cuts of the different machines made by the company, and in a number of instances illustrations are given of the more intricate parts in the manufacture of which the company claims superiority over competing firms. Amongst the machines of which particular mention is made are steel self-binders, mowers, sulky hay rakes, cultivators, seeders, root pulpers, harrows, ploughs, and feed cutters. With justifiable pride the company draws attention to the fact that it has been in business for over half a century, and during this period the patronage enjoyed has increased every year, which circumstance is certainly to be regarded as the best possible tribute to the practical value of the machines which have been turned out. The catalogue is between covers of most neat design, the front one being embellished with a beautifully coloured representation of the Goddess of Invention bending low over her work.

PERSONALS.

Messrs. J. A. Corry and E. G. Laverdure, of Ottawa, arrived in Peterborough from Ottawa last night.

Mr. W. Cassidy, a former resident of Peterborough, but now travelling for a Toronto firm, was in town on Tuesday on business.....Mrs. Morris and little daughter, Ola, of Peterborough, are visiting Mrs. W. S. Wright, Cambridge St.—Lindsay Post

Mr. T. Marshall Ostrom, Canadian Manager for the National Life, spent a couple of days in town on his way east from London, where he has been for some time and where he was most cordially welcomed by many old friends. He had the pleasure of attending a charming reception given at their home by Mr. and Mrs. Harry Hyman, M.P., on their return from Ottawa. Mr. Ostrom was formerly a resident of London.

NO INTERFERENCE.

To the Editor of the Examiner.

Dear sir,—Yesterday the Chairman of the Board of Works was hiring men to work for the Corporation, usurping the prerogative and power of the City Engineer.

Aldermanic interference of this kind is bound to lead into complications with the responsible head of the department,—the man who should answer to the City Council for the proper running of his department, and to whom the citizens look for practical advice and management, and who was selected because of his fitness for the position and his engineering experience. He must now take a back seat and allow a shop keeper to fill his place. Sooner or later this state of affairs is going to result in a tangle.

Let there be no aldermanic interference in the proper discharge of the duties of officials around the City Hall. Who would be responsible if any trouble arose, Ald. Best or the Engineer? The Chairman may know something about keeping shop, but what does he know about engineering?

Yours, etc.,

CITIZEN

LABOUR UNION.

One was Organized in Lakefield Last Night—Its Membership.

A deputation from the Federal Union of Peterborough visited Lakefield last night for the purpose of forming a Union in that village.

Mr. Flett, the official organizer of the American Federation of Labour, accompanied the Peterborough deputation. The meeting was held in the Sons of England Hall. Over fifty workingmen were present.

Mr. Flett explained fully the objects of the movement and made a very favourable impression on the men. He raised the interest of his hearers by the reasonableness of his statements, and closed a half hour's address by asking the men to manifest by a show of hands if they were desirous of forming a Union. Almost every hand in the hall was held up. A membership roll was then opened and largely signed by those present.

A Provisional Committee was elected by the members to carry on the movement in the meantime. This committee consisted of, Messrs. A. Northey, C. Burgess, and W. Hunter. Contributions more than sufficient to procure the charter, books, etc., for the new union were readily subscribed, and the meeting adjourned until Saturday night at 8 o'clock.

CANADIAN IMMIGRATION.

Ald. J. J. Turner Writes a Letter to the Daily Chronicle.

Mr. J. J. Turner, who is at present in England, writes to the Daily Chronicle, London, as follows:

To the Editor of the Daily Chronicle,—Sir,—I was very pleased to read the letter of R. Baxton in your issue of February 19th, as every word he speaks in that letter is true, and I would also say that there is room for tens of thousands of men and women of the right kind, but we do not want any loafers in Canada. The kind of people mostly needed in Canada are farmers, or men that understand farming, and the demand is unlimited. A great many people also think that you cannot work outside in winter. In reply to that I might say that in the town where I live, Peterborough, Ontario, there was a very large factory being built when I left on January 15th. The wages being paid were $2.50, $3.75 and $4.00 per day to bricklayers and stonecutters. The dollar is 4s. and 8d., so you will see, taking even the lowest rate, it means 14s. 8d. per day. Industrious men ought to get along on that. At the present time there is a great boom in Canada in the building line, and Peterborough, Ontario, is getting a large share. We have several large factories in Peterborough. Both the Canadian Pacific Railway and the Grand Trunk run into it. We also have a number of good steamboats running on our lakes and rivers. I would advise anyone who is not doing well in England, Ireland, Scotland or Wales to go to Canada, and to go by the Canadian route. I would like to distinctly state that I would not advise anyone to give up a good position to go to Canada, but anyone who is not getting along here, then I say, go to Canada.

J. J. TURNER.

SOCIAL PURITY AGENT.

The Amherstburg Echo contains the following item concerning Mr. A. W. Beall, brother of Mrs. C. Lyle, of town:—

"Our town was favoured this week with a visit of A. W. Beall, M. A., social purity agent for the W.C.T.U. Sunday he addressed a large and appreciative audience in Wesley church on "The White Life." Monday forenoon he spoke to the boys of King street school and in the afternoon the senior boys of Richmond street school. Both addresses were attentively received and were full of wise counsel for the 'coming men,' of Amherstburg. Chairman Colin Wigle, Frank Falls, Rev. W. E. Kerr and Principal McMaster also spoke briefly to the boys emphasizing the importance of the lessons Mr. Beall had presented. Monday evening Mr. Beall delivered an address on Christian Citizenship before an open meeting of 'Home Guard' lodge of Good Templars. The lecture was full of helpful information and was much appreciated. Mr. Beall's visit should be productive of much good and should he visit Amherstburg again he will be accorded a hearty reception."

A Few Strong Reasons Why You Should Use

Malt Breakfast Food

First:—Because it is the most delicious and most palatable of all grain foods.

Second:—Because it perfectly satisfies the appetite of weak as well as strong people and is relished at all times.

Third:—It contains no insoluble starch, therefore aids digestion.

Fourth:—It is the most noted flesh, bone and muscle builder.

Fifth:—Because it is a brain strengthening food and contains all the important elements needed for the nutrition of the whole body.

Sixth:—Because it is indorsed by physicians and government food experts as far as purity of manufacture is concerned.

Malt Breakfast Food is economical to use; one package makes from twenty-five to thirty meals. All grocers.

Something Choice.

The largest and finest Pineapples we have ever seen have just arrived; also fine, ripe tomatoes, bananas, cocoanuts, lettuce, onions, parsley, and celery. S. A. OKE, 376 George street. Telephone, 18.

END OF THE WORLD

1,000 Men and Boys Strike at Natalie Colliery, Shamokin, Pa.

8-HOURS MINES BILL REJECTED

Mormon Missionaries Very Bold in Denmark—Died in His 103rd Year—Cameron Pasha, Son of Famous Kurdish Chief, Sentenced—Dense Fogs in British Channels Causing Numerous Mishaps.

Jacob Shoemaker, aged 102, 8 months and 9 days, died at Berlin, Ont., Thursday.

Thursday James Lane of Toronto, a seller of lead pencils, walked in front of a train and was killed at Chatham.

Lacroix, the Montebello murderer, who is to be hanged in Hull on the 21st inst., says he is tired waiting for the day of execution.

The British House of Commons Thursday rejected the second reading of the eight hours mines bill by a vote of 206 to 207.

Premier Ross entertained the members of the press gallery to luncheon Thursday afternoon in the Speaker's chambers. The affair was very much enjoyed.

An explosion in the Catsburg Mine of the Monogahela, Pa., River Consolidated Coal and Coke Company Thursday resulted in the death of five men and serious injury of several others, two fatally.

One thousand men and boys went on strike Thursday at the Natalie colliery, operated by the Shamokin, Pa., Coal Company, because of the bi-monthly payment law not being strictly observed.

Dense fogs in the British channels are causing numerous minor mishaps to shipping. A Holyhead steamer grounded Thursday, and her passengers were landed in the vessel's boats. Railroad and street traffic is suspended.

J. J. McCusick, aged 29, was instantly killed Thursday night while talking on the telephone at Duluth. The telephone wire was crossed with an electric light wire. One of the victim's feet was on an iron register when he received the shock.

Prince Henry of Prussia was the guest of Boston Thursday. During the day he went to Cambridge to deliver to the German museum the gifts of his brother, the Kaiser Wilhelm, and to receive from Harvard the honorary degree of Doctor of Laws.

Osman Pasha, a son of the famous Kurdish chief, Bedrahaun Pasha, whose trial on the charge of high treason began at Constantinople Feb. 20, behind closed doors, has been sentenced to death, but the sentence will be commuted to perpetual imprisonment.

Seventh Day Adventists at Niles, Mich., are all wrought up and declare that the end of the world is near at hand, firmly believing that the warning has been conveyed to them by the appearance of a black horse on the ruins of Kellogg's Sanitarium at Battle Creek.

LEGISLATIVE ASSEMBLY.

The Prohibition Bill Read a Second Time, the Government's Majority Being 13—Mr. Marter Votes Yea.

Toronto, March 6.—In the Legislative Assembly this afternoon Mr. Lucas secured an order for a return of correspondence with respect to the prosecution of Wildfong and Cummings reported for corrupt practices.

Hon. J. M. Gibson moved the third reading of the bill to amend the Devolution of Estates Act. Mr. Joynt moved a reference back to committee to strike out the third section. He said that previous to 1886 there was no Devolution of Estates Act. This bill was intended to force estates into the Surrogate Court in cases in which such a proceeding was unnecessary. The Attorney-General said the provision was necessary in order to prevent estates slipping away from the control of executors and being available for the payment of liabilities and carrying out the provisions of wills. The amendment was lost on division, and the bill read a third time.

The following bills were read a third time: To amend the Marriage Act, Mr. Gibson; to amend the Separate Schools Act, Mr. Harcourt; respecting the Ontario, Hudson Bay and Western Railway Co., Mr. Farwell.

The Prohibition Debate.

Mr. Marter resumed the debate on the motion for the second reading of the bill respecting the sale of intoxicating liquor. He said that he spoke for himself alone and did not wish the party with which he had acted to be held in any way responsible for his utterances. He had always held that the licensing of the sale of liquor was wrong and regarded the moral issue involved in the prohibition question as far more important than any party issue. He quoted from a large number of authorities, religious and secular, as to the evil effects of the liquor traffic. Great good had been effected by the closing of the bars on Sundays. He was in favor of closing them altogether. It had been said that you could not make men sober by act of Parliament. But you could make men drunkards by legislation and that was done by licensing the sale of liquor. It was urged that the Legislature had no right to interfere with personal liberty. But that was equally an objection to the present law, for it interfered with the liberty of all who wished to sell drink and could not procure licenses. The sooner the State washed its hands of the partnership with the liquor dealers the better. He reviewed the action of the Government in taking the plebiscite. The people had expressed themselves in favor of prohibition, but their mandate had been evaded. He claimed that a large number of temperance men had supported the Government on account of their promises to give prohibition. He objected strongly to the referendum as unfair to the prohibitionists, and contended that if the Government were defeated the referendum was not binding on their successors. It was nonsense to say that it was necessary to have public sentiment in its favor in order to enforce the act. It was the Government alone who enforced the license act. The general public did not come to their help to any extent. He would have heartily supported a good prohibition bill brought in by the Government, but this bill was no good, and to carry it was an impossible task. He would vote for the second reading of the bill just to show that he put his prohibition principles before party, but during its further stages he would press for such amendments as would tend to improve and perfect it and prevent the injustice embodied in the referendum provision.

Need of Public Sentiment.

Hon. E. J. Davis said that the Opposition, from a party standpoint, were very much more anxious for the defeat of the Government than they were about prohibition. He was glad to pay a tribute to the sincerity of the last speaker. When the Marter bill was submitted the jurisdiction of the Legislature was in dispute. Had it been passed there would practically have been free trade in liquor before a decision of the Privy Council as to the constitutionality of the measure could be reached. The administration had fulfilled its pledges on the very first opportunity after their jurisdiction had been defined. He could quote the authority of leading temperance men by the score to show that in their opinion it was necessary to have a strong public sentiment in favor of a prohibitory law in order to secure its satisfactory enforcement. He strongly denied that the existing license law had not public opinion behind it. Many prohibitionists heartily supported it in preference to having free trade in liquor. The Premier had been charged by the leader of the Opposition with being afraid to stand by his guns. But his record was clear and consistent. He had always been ready to go as far as public sentiment and the interests of temperance would permit. No man in public life had been more courageous than the leader of the House, who had always shown himself able to grapple with big questions and handle them successfully. The question as to the constitutionality of the referendum had been fully and completely settled by the citations of his colleagues, so he would not dwell on that phase of the subject. In the last analysis the people were sovereign and in this great change the Legislature should be guided by the people themselves. Mr. Whitney had spoken of the administration as a "dying Government," yet he had argued that it should pass the bill on its own responsibility without consulting the people. In the light of the speech of last night he could not see why any temperance man should support Mr. Whitney. Neither at Ottawa nor by the Ontario Conservatives had anything been done to advance their cause. He traced the history of the bill and pointed out that as it had received the sanction of the Privy Council as being constitutional it would be very risky to change any of its details. The basis of the referendum was a reasonable one. It was not unfair to ask for a majority of the votes polled at a general election. If the bill should be enacted and then not supported by public sentiment it would set back the cause of temperance for many years. Mr. Whitney's policy of a diminution of the number of licenses had been going steadily forward for many years. The license system of Ontario compared very favorably with that of the United States. He (Mr. Whitney) spoke of removing the license officials from political and party influence. He could not imagine the Conservatives removing anything from political or party influence. Mr. Whitney had no policy on this or any other question.

After Notice.

Mr. Foy said that the bill was not a prohibition bill but one that removed the drinking from the bar-room to the private home. It did not interfere with the manufacture or importation of liquor and under its provisions just as much would be used as ever. A law might not be good or be beyond the power of the House to pass, but it might be unconstitutional as being opposed to the spirit of the British constitution. He argued at some length that the present referendum came within this category, quoting several authorities in support of this view. He denied that the referendum in case of a deadlock between the Upper and Lower House had been embodied in the new Australian constitution. If it was desired to adopt this principle the Government should have brought in a bill to amend the constitution so as to legalize the referendum.

A Divided Opposition.

Mr. Graham commented upon the peculiar position occupied by the Opposition. While the leader had committed himself against the bill Mr. Marter had signified his intention of supporting the second reading. How did they expect the country to decide between them. The Premier stood where he had always stood, doing the best he could in the interests of the temperance party. He had to consider the views of the large class who were not extremists on either side of the question. What had Mr. Foster done for prohibition during 18 years? The Province of Ontario had a splendid record for the steady improvement of the license laws and the consequent decrease of intemperance and vice. One great thing which the Government had done for temperance was the teaching of temperance in the public schools. Mr. Whitney's speech was a strong and forcible one and if the campaign funds in Manitoba would allow it it would pay the Liberals of that province to procure its delivery there to secure the defeat of the Roblin Government, for it was a severe and caustic criticism of their referendum policy. Mr. Marter, he held, occupied a highly illogical position in condemning the bill and promising to vote for the second reading for fear he might be misunderstood. If the Government were to be charged with cowardice was not he open to the same accusation. He contended that the principle of the referendum had all along been recognized in connection with temperance legislation. Such legislation should be, in the words of Tennyson, "broad-based upon the people's will." The referendum existed under our municipal law in connection with a large class of by-laws. He quoted the practice of church organizations to show the prevalence of the referendum principle and the requirement of more than a bare majority.

Mr. Hoyle (North Ontario) was opposed to the loaded referendum, to the basis of the vote, to the bill itself, and although he was taking his political life in his hands, for the electors of his riding were wedded to a prohibitory law, yet he would vote against the bill, believing that in doing so he was doing what was best.

Mr. Pardee (West Lambton) strongly supported the Government's position on the whole question.

Mr. Crawford (West Toronto) said the bill was an insult to the prohibitionists of the province, and he, as a temperance man, would not lift his finger to carry out such a loaded down proposal, which the temperance people should repudiate. He expressed his determination to vote against the bill.

Mr. Lucas (Centre Grey) proposed to vote against the bill because he was opposed to the Government shirking its responsibility. He did not wish to be understood as being opposed to the general principle of prohibition.

The vote was then taken. It was a straight party division, except that

(Continued on 3rd page.)

A BIT STUCK FOR ROOM

For the new Goods have been tumbling in on us every day. Seems as though they'd never quit coming. Yet these vast quantities of new, novel and desirable merchandise will find easy "slipping out," owing to their uniqueness in make, their suitability in weave and Sutcliffe & Sons' uniformly right prices. Peterborough people look to us for nice things modestly priced, and we try to keep meriting this reputation.

Spring Goods of every sort we carry, are awaiting your cold criticism. Judge them closely—even harshly, and we think they will appeal to you.

We have still some of those "mill feints" in Linings, which appealed to the good buying sense of numerous buyers this week.

FRIDAY, MARCH 7, 1902.

MAY LEAVE TOWN.

We learn that Mr. E. G. Patterson, General Superintendent of the Canadian General Electric Company, was called to Toronto yesterday to discuss with the management the advisability of removing the lamp department from Peterborough to Toronto. As this action would involve a loss to the town of nearly one hundred hands it is to be hoped that the Company may alter their present intentions. This is a subject that the Mayor, Manufacturer's Committee, and the Board of Trade should look into at once, and if possible prevent the contemplated changes being carried out.

ADVANTAGES OF NEW ONTARIO.

The excellent pamphlet issued to enforce the advantages of New Ontario as a field of colonization, puts the claim strongly. One of the most important of these considerations is the diversity of industries established or in the course of establishment. Although, as has been stated, parts of the country are unsuitable for agriculture, its mineral wealth is destined to be one of the great sources of its future prosperity and development. Gold has been discovered in paying quantities in the Rainy River district at the extreme west of the territory, where a number of mines are in active operation. Copper, silver and iron ore are found along the north shore of Lake Superior, and extensive works for the reduction of these ores and the carrying on of a group of industries, for which the mineral and timber resources of the of the country furnish the raw material, have been established at Sault Ste. Marie, which is rapidly becoming a flourishing manufacturing city likely in a few years to rival in importance many long-established eastern industrial centres. At Sudbury and farther to the east in the district of Nipissing are found the largest nickel deposits in the world, which are being extensively worked, and here also large reduction works are established. The growing demand for nickel for a variety of purposes, more especially for ammour plating, and the scarcity with which this metal is distributed in the few countries where it has so far been discovered, is causing a very rapid development of the localities where it is produced, and furnishes an increasing source of employment to those who may settle in the neighbourhood of the mines and smelting works. There is only one other extensive deposit of nickel now known, that of New Caledonia.

Many parts of the country are rich in timber, and the growing demand throughout the world for paper renders extremely valuable the spruce forests with which large areas are covered. The spruce and other pulpwood timber growing on the portion of the territory explored in 1900 was estimated by the exploration parties at 288,000,000 cords. For the purpose of utilizing this timber to the best advantage in the manufacture of pulp and paper, mills have been started at several points distributed throughout the region, each of which gives employment to a large number of people, whose presence creates a demand for all manner of supplies, and stimulates the growth of subsidiary industries.

The building of railroads and wagon roads as an aid to settlement is being actively carried on, creating a demand for well-paid labour and the special attention to the supply of timber and woods of the [illegible] other portions of the province and the United States. In the latter a steadily increasing demand, renders lumbering operations in the new districts continually active and profitable.

All these varied industries make the conditions of life for the agricultural settler considerably easier than is usually the case in a new country, certainly much more so than in the early days of settlement in Ontario. Hitherto almost the only opportunity presented to the settler in the backwoods of obtaining any employment whereby he could subsist until his farm became productive, was that offered by the lumber camps. In localities where no work of this nature was in progress the man who took up land was obliged to provide in advance for the maintenance of himself and family during the time he was occupied in clearing sufficient land to produce a crop, and waiting for it to mature. Few industries of any kind made their appearance until the country was well settled, and the pioneers had to look to agriculture alone as a means of support. In many localities of new Ontario these conditions are reversed, and the mechanical industries are the first to occupy the ground. Everyone familiar with the difficulties of colonizing a new country can realize what a great advantage this is to a settler without capital or the man of limited means. Many labourers, who under ordinary circumstances would have had no opportunity of acquiring a homestead, simply because they could not afford to wait for a crop and leave their families lacking bread can obtain work in connection with some of the numerous industrial enterprises for a longer or shorter term, and take up a farm in the neighbourhood as soon as they have saved sufficient money to live on until they can depend on their produce. The growing settlements afford them a steady and remunerative market, not merely for their crops, live stock, and farm produce, but for the timber such as in former days was burned off in order to clear the land.

As compared with the prairie lands of the West the balance is altogether in favour of the well-timbered farms of New Ontario, although the prairie settler has not the labour of clearing his land, he is under the serious disability of having to pay high prices for building materials, fencing and fuel, which in Ontario are all to be had for the cutting, and he lacks the shelter afforded by the surrounding woods to growing crops.

NO VERIFICATION NEEDED AT HOME.

Everybody in Oshawa is Familiar With This Case.

Joe Brown's Wonderful Escape From Death is now an old and oft Told Story to the People of his own Town.

Oshawa, Ont., March 5, (Special) — While interest in Joe Brown's case has been revived by the recent publication of the facts in so many papers Oshawa people are well acquainted with the whole circumstance. Mr. Brown's father-in-law, Mr. John Allin, whose place of business is right in the centre of the town, has, however, had to answer many questions recently, but as he was very close to Mr. Brown during the whole of his painful experiences in '97 and '98, he finds this an easy matter.

Mr. Allin is quite as enthusiastic as Mr. Brown himself, and never tires telling the story of how Dodd's Kidney Pills conquered disease, and saved Mr. Brown's life. He says:

"We didn't think he would ever live through it, let alone get strong and able to work, but the pills made him all right and well in a short time, and the best of it all is that the cure has stood the test of time. It must be three and a half years since and, as you know, he's strong and hearty today and has been ever since Dodd's Kidney Pills sent him back to the shop."

There are many others in town who have recently been reminded of this wonderful cure of a seemingly hopeless case, who find no trouble in calling up the facts, and none are slow to give all the credit to Dodd's Kidney Pills.

YOUNG'S POINT.

(From Our Own Correspondent.)

Mr. W. Young of Peterborough, paid a visit to his home here this week.

Miss Josie Phelan of Lakefield, is visiting her sister, Mrs. J. E. Kearney.

Rev. Mr. Cresswick has gone to Toronto again to see Mrs. Cresswick, who is ill there.

Mrs. J. A. Washburn, a daughter of Mrs. Peter Phelan, of Lakefield, paid a short visit to her old home last week. The family reunion was a very happy one. Mrs. Washburn has been for the past fourteen years in the theatrical business. At present she is with the Chauncy Olcott Co., one of the leading companies in New York. Mrs. Washburn's visit was a limited one as she assumes one of the principal parts, and was obliged to be at her post in Buffalo on Monday evening.

Rev. Mr. Creighton, of Bobcaygeon, held service in the English church here on Sunday.

Miss Mollie Young is visiting with friends in Selwyn.

Like Sunshine and Rain.

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. Don't neglect your lungs. Spend 25c for a bottle of Four T's at Ormond & Walsh's drug store and avoid congestion.

LAKEFIELD.

(From our own Correspondent.)

Mr. Rolph Griffin, of Beaverton, was in town a couple of days early in the week to see his brother, Mr. E. Griffin, who is at present confined to his bed with lung trouble.

Miss Sherin, who has been visiting in Peterborough, for the last three weeks, has returned home.

The many friends of Miss Anna Young will be pleased to hear that she has recovered her health sufficiently to resume her duties in the office of the Lakefield Portland Cement Company.

The regular monthly meeting of Clementi Lodge, A.F. and A.M. was held on Tuesday evening in their lodge rooms.

A very successful concert in aid of the Piano Fund was held in the town hall on Friday evening.

Mr. Bertram Butler left last week for Calgary, N.W.T., where he intends going into partnership with Mr. Herbert McIlmoyl of that place for the purpose of starting a ranch.

The Craig House has been undergoing improvements in the form of metalic covering for the walls which give a very pleasing appearance as well as the advantage of being fire proof.

Mr. Gordon Hendren, who has secured employment with the Canadian General Electric Co., left last week for Peterborough.

Mr. T. G. Webster having purchased one of the "Three Islands" is engaged in taking the timber off it. Mr. Webster is also building a steam boat for the purpose of supplying groceries and bread to the campers at Stony Lake in the summer season.

Miss Florence Fairbairn, who has been visiting in Port Perry, has returned home.

The ladies of the Presbyterian church are very interested in the preparation for the presentation of "The Temple of Fame," which is to be held in the town hall on Tuesday evening, March 11th.

Imitations and Substitutes are Dangers to You and Your Friends,

Paine's Celery Compound

Is What You Need for the Banishment of Your Troubles.

See that you make no mistake or take no false step when you begin efforts to regain lost health. At this particular time, care and vigilance will add greatly to your success.

Your case demands the use of the best medicine that science has produced. The acknowledged triumph of medical skill is Paine's Celery Compound, the only sure and permanent cure for all nervous diseases, dyspepsia, insomnia, rheumatism, neuralgia, liver and kidney complaints and blood diseases.

An error made at this time by the use of substitutes or imitations may lead to a complication of ailments fatal to life.

Tens of thousands in the land are throwing off the shackles of disease and suffering by the use of Paine's Celey Compound. Its powers and virtues will do the same good work for you, dear reader. No experimenting with Paine's Celery Compound; there can be no disappointment or failure to crush your hope.

See that you get the genuine Paine's Celery Compound with the name PAINE'S on wrapper and bottle; other celery concoctions are deceptions and frauds.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

Eating an Orange.

When oranges are cut across and eaten with a spoon somewhat of their naturalness seems gone. It is an artificial way of eating this fruit, but often proves the most convenient. The way in which the juice flies is one of the drawbacks to this method. By taking a knife and cutting a little circle around the core in the center this tendency of the juice to fly is largely counteracted. Some fastidious people never cut their oranges across and never use a spoon, but instead cut them in eighths with the skin on and sip the juice from these little portions.

SAYS THEY'RE HEAVEN-BORN

A lady in writing of her faith in Dr Von Stan's Pineapple Tablets calls them "A HEAVEN-BORN HEALER." Chronic Dyspepsia was her "cross," and they cured her.

Dr. Von Stan's Pineapple Tablets is not a long tedious treatment. They work in nature's way—quickly, effectively and harmlessly. They're handy to carry. Take one or two after eating, they prevent stomach distress, cure the worst cases of Indigestion and Dyspepsia, keep the nerve centres well in hand, and they're pleasant to take. Try a box—you'll prove them "a heaven-born healer" too. 60 tablets, 35c. 78

A GREAT, GRAND GENERAL CLEAN-UP

At this season of the year—just before the Spring Goods arrive—a clearance must be made. This week we concentrate all small lots and discontinued patterns of our Wall Paper Department. Also many lines in other departments, which we mark at prices simply irresistible. A few examples follow:—

LAXA LIVER PILLS

Those who have used Laxa-Liver Pills say they have no equal for relieving and curing Constipation, Sick Headache, Biliousness, Dyspepsia, Sour Stomach, Heartburn, Dizziness, Coated Tongue, Pain in the Side, and all symptoms of disorder of the stomach, liver or bowels.

Mrs. George Williams, Fairfield Plains, Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am particular to get the genuine, as they far surpass anything else for regulating the bowels and correcting stomach disorders."

Laxa-Liver Pills are purely vegetable; neither gripe, weaken nor sicken, are easy to take and prompt to act.

LEGISLATIVE ASSEMBLY.

(Continued From 1st Page.)

Mr. Marter voted with the Government.

The division was 48 in favor of the motion that the bill be read a second time and 35 against, a Government majority of 13.

The House adjourned at 11.40 p. m.

THE RAILWAY SUBSIDIES.

Legislature Is Asked to Vote $613,000 For This Service.

The railway subsidies were laid on the table. The total amount the Legislature is asked to vote is $613,000, which is considerably larger than last year. The various amounts are as follows:

The Pembroke Southern Railway, from Pembroke to a point in the Township of Ross, fifteen miles, $3,000 a mile, $45,000.

The Bay of Quinte Railway (formerly the Kingston, Napance & Western Railway), for extensions northerly from Tweed, 50 miles, and to connect with the iron ore deposits north of Tweed, in renewal and extension of grant to the posits north of Tweed, in renewal way in 1898, $3,000 a mile, $150,000. Revote $90,000.

The Irondale, Bancroft & Ottawa Railway Company, from Kinmount Junction to Irondale, ten miles, and from a point thirty-five miles from Irondale, easterly, ten miles, also from Palmer Rapids to Renfrew, about fifty miles; in all a distance of seventy miles, $3,000 a mile; revote $30,000; total $210,000.

To a railway from Dinorwic Station, Algoma, northerly, to Lake Minnetakie, fifteen miles, $3,000 a mile, $45,000.

The James' Bay Railway, from a point on the Canada Atlantic Railway near Rose Point to Parry Sound, a distance not exceeding five miles, and from a point on the main line of the James' Bay Railway at or near Parry Sound, to a point on the Canadian Pacific Railway at or near Sudbury, a distance not exceeding 90 miles (in all 95 miles), in addition to subsidies previously granted, a cash subsidy of $1,000 a mile, $95,000.

The Lindsay, Bobcaygeon & Pontypool Railway, from the Village of Bobcaygeon to the Town of Lindsay, sixteen miles, $3,000 a mile, $48,000.

The Thunder Bay, Nepigon & St. Joe Railway, from a point thirty miles east of Port Arthur, a distance of ten miles, a cash subsidy of $2,000 a mile, in addition to 5,000 acres of land per mile, $20,000.

The Supplementary Estimates.

The supplementary estimates were also presented to the House, and they total $181,947. Of this sum $45,000 the largest item, is for taking the referendum. Among the other items are $2,000 for the analysis of sewage impregnated with noxious chemicals, $200 for the Eastern Ontario Good Roads Association; $500 for the Salvation Army Prison Gate Work; $200 for the Infants' Home and Infirmary; $1,500 to pay Pan-American Exposition accounts; $5,000 for the Board of Trade, to assist manufacturers of Ontario to make their products better known in the markets of Great Britain; $500 towards monument at Kingston, to the late Sir George Kirkpatrick; $3,650 for civil Government, including $3,000 for extra help, etc., in the military land grants; $1,467 for administration of justice; $5,500 for education, including $3,000 for technical education; $500 for public institutions' maintenance; $16,350 for agriculture, including $5,000 to enlarge the Winter Fair buildings at Guelph; $3,000 for the Eastern Fair at Ottawa; $4,000 for special dairy instruction; $1,500 for the Agricultural College library; $200 for the Sugar Beet Association; $1,000 for sugar beet experiments.

Under public buildings the vote is $36,949, including $6,000 for improvements at London Asylum; $900 for improvements at Osgoode Hall; $7,500 for site of Macdonald Building at O.A.C., Guelph; $2,199 for improvements at Mercer Reformatory and payment to city re King street sewer; $9,000 for duplicate electric lighting plant; $2,500 for pavilion for stock judging; $1,400 for laboratory apparatus at O.A.C., Guelph; $2,500 for Rainy River docks; $24,400 for colonization roads; charges on Crown Lands $6,500.

Stops the Cough and Works off the Cold.

Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25c. m-w-f

THE MAJORITY IS 51

Motion for Anglo-German Treaty Papers Voted Down.

NEGOTIATIONS STILL PENDING

The Premier's Reason for Refusing the Request—In the Correspondence Brought Down in British House Canadian References Were Erased, as Correspondence Was Not Yet Closed—The Division.

Ottawa, March 7.—Another party division took place yesterday afternoon, the Government having a majority of 51. The vote was taken upon a motion for the production of the correspondence relating to the Anglo-German trade agreement, introduced by Mr. Monk, who accused the Government of neglecting the interests of the Dominion in connection with the negotiations. Sir Wilfrid Laurier refused to comply with the request, pointing out that negotiations were still pending, the last communication from this Government not having yet been answered. Incidentally the Premier, replying to Opposition criticism, stated that in the correspondence relating to the Clayton-Bulwer treaty, brought down in the British Parliament, all reference to the representations made by Canada respecting the Alaskan boundary was eliminated.

Petition Presented.

Among the petitions presented to the House yesterday asking for bills of incorporation, was that of Hon. George E. Foster, Toronto; F. A. Knapp, Prescott; Dr. Frank Buller, Montreal, and others, desiring to be incorporated as the Knapp Tubular Steamship Company, to build roller boats, with a capital of $3,000,000.

The time for receiving petitions for private bills was extended to Friday, March 28, and the time for presenting private bills to Friday, April 4.

A number of private bills were introduced and read a first time:

Ministers Give Information.

Replying to a question by Mr. Sproule, the Minister of Customs gave the following as the amount of grain shipped through the lake ports mentioned during 1901: Depot Harbor, 17,524,407 bushels of grain and 143,262 barrels of flour; Midland, 7,840,446 bushels; Collingwood, 222,000 bushels; Meaford, 1,447,222 bushels; Owen Sound, 1,567,527 bushels and 13,968 barrels of flour; Sarnia, 5,624,520 bushels and 297,669 barrels of flour; Goderich, 2,665,420 bushels of grain.

Mr. Kemp was informed by the Minister of Justice that the disallowance of the Prince Edward Island commercial travelers' tax was under consideration by Council.

The Solicitor-General replied to Mr. Puttee that the Government has received a petition from the Manitoba Prohibition Alliance urging, on constitutional grounds, disallowance of the Referendum Act of 1902, but, he said, no decision had been arrived at yet on the matter.

Mr. Kemp was informed that the Intercolonial rates between Sydney and Montreal are $2.95 per ton on pig iron and $2.55 per ton on coal.

In reply to Mr. Monet, Sir Wilfrid Laurier said: "No communication of any kind, with regard to the military defences to be applied to the empire, has been received by us, and I think that when the exact words of Mr. Brodrick are brought to our attention, it will be found that he has been misrepresented." As to the intention said to have been indicated by Mr. Brodrick, of taking up this matter of Imperial defence for discussion at the conference which is to take place next summer, the correspondence which will be brought down in a few days will show the attitude of the Government on that question.

Mr. Maclean's Telephone Bill.

Mr. W. F. Maclean moved the second reading of his telephone bill. He again explained its objects, and suggested that instead of as in the bill of the Minister of Justice, the control of the telephone companies should be vested in the Postmaster-General, as in England.

Mr. Fitzpatrick doubted if Mr. Maclean's bill would attain the object in view, and pointed out that in England, where the Postmaster-General has control of telephone companies, telegraph and telephone lines are under his control. He agreed to Mr Maclean's suggestion to allow the bill to pass its second reading and be discussed in the Railway Committee concurrently with the Government bill. The bill was then read a second time.

The Anglo-German Treaty.

Mr. Monk, in moving for the correspondence between the British and Canadian Governments, relating to the Anglo-German agreement of 1898, said that if the correspondence were refused the inference would be that either the representations against Canada being discriminated against were wrongly made or that no representations were made at all. He pointed to the withholding from the House of information in regard to the Clayton-Bulwer treaty, which had been given to members of the British House, as significant of very backward methods. Mr. Monk protested that there could be no valid argument against bringing down the correspondence.

The Premier ridiculed the idea that the rights of the people in Parliament were in any way connected with the production of papers. As with the Alaska boundary, so with the German trade arrangement, negotiations were still pending.

Mr. Borden said that in view of the language of the Finance Minister in the House last session, when he practically justified the action of Germany, it was important the House should be informed with regard to the matter.

Mr. Maclean said that it was quite certain now that the Government have not protected the interests of Canada in connection with this matter.

Mr. Kemp said this German discrimination had been going on for four or five years, and the Government did not appear to have done anything to relieve the situation. The Government had frequently been urged to take action.

Mr. Brock said the papers should be brought down, and Canada should set about passing a tariff policy to remedy this state of affairs in regard to Germany and other nations from whom we could not get justice by dealing through England. Germany was the most bitterly hostile to the empire of all European nations, and so Canada owed her no special favors on that score.

The House then divided on Mr. Monk's motion for the production of papers, which was defeated by 107 to 56.

Supplementary Estimates.

Supplementary estimates for the current year were tabled yesterday, aggregating $1,358,683.

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

ANDREE KILLED BY ESKIMOS.

Messengers of Hudson Bay Company Confirm the Story.

Winnipeg, Man., March 7.— News that Andree was killed by Eskimos in the Far North is confirmed by Hudson Bay Company's messengers.

Shiloh's Consumption Cure

Write to S. C. WELLS & Co., Toronto, Can., for free trial bottle.

Karl's Clover Root Tea corrects the Stomach

ONLY A SUGGESTION.

But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest, and that food should be albuminous or flesh-forming food, like eggs, beefsteak and cereals; in other words, the kind of food that make flesh are the foods which form the greater part of our daily bill of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh-forming beefsteak and eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking, after each meal, one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to regain its natural tone and vigour.

Stuart's Dyspepsia Tablets digest every form of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful ingredient.

Stuart's Dyspepsia Tablets is the most successful and most widely known of any remedy for stomach troubles because it is the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as in Great Britain, at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people strong, plump and well.

THE WAESLAND SUNK

Dutch Steamer Harmonides Strikes the American Liner in a Fog—Saved All Passengers and Crew But Two.

London, March 7.—The American Line steamer Waesland, Captain Atfeld, from Liverpool, March 5, for Philadelphia, and the British steamship Harmonides, Captain Pentin, from Para, Feb. 13, for Liverpool, met in collision last night off Holyhead, Wales.

The Waesland sank. Her passengers and crew were saved.

The Harmonides rescued the passengers and crew of the Waesland and is bringing them to Liverpool.

Tugs have been sent from Liverpool to meet the Harmonides.

The Waesland carried 32 cabin and 82 steerage passengers.

The loss of the Waesland was due to the dense fog, which enveloped the Irish Channel during the entire day, seriously delaying all vessels.

Two Passengers Dead.

Liverpool, March 7. — Fifty-three passengers and crew of the Waesland arrived at Liverpool on board the Harmonides at 8.33 o'clock this morning. The collision occurred in a thick fog at 11.30 Wednesday night. Unfortunately, two lives were lost. The dead are a steerage passenger named Dangerfield and a child named Elsie Lamott, the daughter of a cabin passenger.

Malt Breakfast Food

Has Become The Standard Breakfast Cereal.

Cereal breakfast foods that have not the proper proportion of mineral salts, are not up to the standard established by food experts for the aid of digestion and for the work of keeping the blood pure

Eminent analytical chemists assert that Malt Breakfast Food is complete in all the points that go to make a perfect health food. It is rich in malt, gluten and phosphates; a perfect food for body and brain. The trial of one package has proved sufficient to convince tens of thousands of the superior qualities of Malt Breakfast Food. Put your stomach-irritating oatmeal, hominy, grits and cracked wheat aside and try Malt Breakfast Food. All grocers.

Origin of the Word "Cuba."

Cuba is the name by which the island was originally known to the Lucayan Indians, who were with Columbus when he discovered it. One of its villages or cities was called by them Cubanacan, and it is reported that from the similarity of sounds Columbus, still supposing himself to be on the coast of Asia, imagined that this must be a city of Kublai Khan, the Tartar sovereign celebrated by Marco Polo. The survival of the original name for Cuba is a remarkable instance of persistence, as the island has been baptised and rebaptised many times since its European discovery. Columbus first called it Juana in honor of Prince John, the son of Ferdinand and Isabella. After Ferdinand's death it was called in his memory Fernandina. Subsequently this name was changed to Santiago, after St. James, the patron saint of Spain. Still later it was named Ave Maria, in honor of the Virgin Mary. But none of these names held, and the Indian name is still preserved.

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

He Cornered Tilden.

Samuel J. Tilden had a touch of humor, at times querulous in its tone, and at other times he could be funny without meaning to be. He was an expert judge of wines, and his cellar was choicely stocked. When dining out, however, he had a little way of measuring by the taste of his guest and ordering accordingly. Colonel John R. Fellows noted this trait and once when dining with Mr. Tilden saw that, as usual, the Sage of Greystone had ordered a small bottle of an ordinary brand for his plate and a very choice vintage for himself. Mr. Tilden was called away from the table for a moment, and the colonel deftly shifted the bottles. When Tilden lifted his pint to pour out the wine, his eye quickly noted the difference, but he got out of the difficulty nicely. "Here, waiter," he said, "you have made a mistake in my wine. I want the same kind Colonel Fellows has."

Ruby Lips and a Clear Skin.

are guaranteed to any woman who takes Merrill's System Tonic. This marvellous medicine is especially adapted for women, because it supplies iron for the blood, cures constipation, strengthens the nerves and by its blood purifying and muscle-toning properties, quickly cures all female ills. 50 pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

They Wanted a Rest.

A Scottish congregation presented their minister with a sum of money and sent him off to the continent for a holiday.

A gentleman just come from the continent met a prominent member of the church and said to him:

"Oh, by the bye, I met your minister in Germany. He was looking very well—he didn't look as if he needed a rest."

"No," said the church member very calmly; "it was na' him; it was the congregation that was needin' a rest."

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

FOLLOW THE BARGAINS!

The T. O. Rush Co. Bankrupt Stock IS REMOVED

TO THE STORE SOUTH OF THE BANK OF TORONTO AND NEXT TO ED. BROWN'S GROCERY.

We had no room in the City Clothing Store for this stock, and have decided to slaughter the remainder in the above premises in a hurry.

Remember the T. O. Rush Co's Stock was bought at 34 1-2c on the Dollar, and as we have already made profit enough out of the big sales, we can afford to let the rest go at almost your own bid. Positively no reserve. Mr. Fred Allison and Mr. Jos. Picard will continue to rush out this stock until everything is cleared.

H. Les Brun & Co

THE GLARE OF THE SUN AND SNOW

is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

Daily Examiner.

FRIDAY, MARCH 7, 1902.

Dog Poisoned.

Mrs. Everett's valuable coach dog "Ted" was poisoned a few days ago. The dog was a very rare one and should it be learned who was the cause of his destruction there will be trouble.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Opening March 8th.

Grand opening of Ladies' Household Companion, March 8th. Souvenirs will be given away to all the people who subscribe on that date. All are welcome. 423 George street. Open till 9.30 p.m. 3d1w

New Delicacies.

We offer the following fresh arrivals, which are all extra choice: Large Florida pineapples, ripe bananas, new cauliflowers, crisp, white celery, new rhubarb, radish, lettuce, onions, parsley, etc. S. A. Oke, No. 376 George street. Telephone 18.

The Band Concert.

There was a fair attendance at the band concert last night in the market hall, when the band of the 57th Regiment, under the leadership of Prof. Gliddon, rendered one of their usual excellent programmes. The features of the evening were the cornet solo by Mr. Huges, "Don't be Cross," and the euphenium solo by Mr. Crank, "Rocked in the Cradle of the Deep."

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

Crystal Block.

The Toronto Savings and Loan Company intend commencing in the course of a few days to rebuild the Crystal Block, which was destroyed by fire some weeks ago. The work of fitting up the structure into stores will be pushed forward as rapidly as possible. It is understood that instead of two large stores on the ground floor the structure may be divided into three or more smaller appartments.

In a Prosperous Condition.

Charlotte street church work is moving on apace. The Sunday school room has become much too small, and several classes have to be held in the church. A fund for the enlargement of the Sunday school room has been inaugurated by the Executive. Last Sunday there were three hundred and seventy-two present. In the church proper the same condition exists, every desirable pew has been appropriated, and the pew steward finds it impossible to satisfy the demand.

"EVANGELINE."

An evening with America's greatest Poet. Recitations and stereoptican views from this charming poem. Charlotte street Sunday School Hall Monday, March 10th. Admission 10c.

PERSONALS.

Miss Mabel Bradburn, Toronto, is in town for a few days, the guest of Miss Isabella Hay.

Miss Dorothy Dunbar, head milliner with Greasman & Co., has returned to town after a brief holiday.

Mrs. Adam Davidson of Antrim street, is convalescing after a severe illness of six months' duration.

The Misses Gould of Uxbridge, are in town visiting Mrs. J. S. Knapman. They are on their way home from Ottawa.

Miss Dollie Hopkins of town, has taken honours in the Junior Vocal Examinations at the Toronto Conservatory of Music.

Mr. W. H. Collins, formerly of the local staff of the Canadian Bank of Commerce, who has been in the Montreal service of the bank, has been transferred to the New York branch of the same institution.

Mr. Williamson, of Peterborough, Y.M.C.A. Secretary of this district, paid a visit to the Y.M.C.A. of Campbellford, on Tuesday, and was entertained by its members in the Royal Templars' hall in the evening.—Herald.

New Maple Syrup 30c. quart. Fresh caught Haddock and Whitefish. R. A. DUTTON, 418 George street. 'Phone 304.

Fragrant and Fresh.

When you order your flowers from Cobb's you are assured of good quality. Carnations, violets, lilies, begonias, ferns, palms, etc., fragrant, hardy and fresh, at dwarfed prices. Aylmer street Greenhouses. Phone No. 182.

The Paper You Like.

We wish to introduce two of our leading lines of note papers with envelopes to match. They are known as "Sylvia Grey," being a beautiful London Grey shade of note paper, done up in neat packages of 125 sheets and envelopes in boxes of 100. This week the price will be 25c per package, and and 25c for the envelopes. Our "Adriatic Parchment" paper is a pure vellum white note, a beautiful surface to write on—in packages of 125 sheets for 25c., envelopes in boxes of 125, for 25c. Just received, "The Right of Way," by Gilbert Parker, latest copyright, at 75c. each. A. H. Stratton & Co., 417 George street.

Canadian Society of Authors.

The annual meeting of the Canadian Society of Authors was held at Victoria University on Friday, February 14th. The following officers were appointed for 1902,—Hon. Pres., Prof. Goldwin Smith, LL.D.; Pres., Hon. G. W. Ross, LL.D.; Vice-Presidents, Dr. Bryce, of Winnipeg, Dr. Drummond of Montreal; Dr. Frechette, of Montreal, Hon. J. W. Longley, of Halifax, Duncan Campbell Scott, of Ottawa; Secretary, Prof. Pelham Edgar, Treasurer, John A. Cooper, B. A.; Executive Committee, Messrs. Jas. Bain, Jr., Castell Hopkins, B. E. Walker, Bernard McEvoy, Macdonald Oxley, Mayor Howland, J. S. Willison, Prof. Jefroy, Prof. Mavor, Prof. Davidson. A bibliography of the contributions of the members to current literature will be soon ready for distribution in the society.

The Craig House, Lakefield.

Visitors to Lakefield are praising the swell appearance that the Craig House, has lately been assuming, and speak in complimentary terms of the many improvements just completed in the interior of the house. The ceilings of the main dining room, hall, office, bridal room and buffet have all been handsomely decorated with metallic sheeting of a pretty design, tinted in a delicate light blue. The walls of the bar room are similarly treated and painted in a dark green, marked with gold. The doors and wood work have been artistically grained in light oak and finished in varnish. A number of the rooms have been covered with the newest shades of ingrain wall paper and effective borders. Other furnishings and decorations are of the newest quality and harmonious in their arrangement and colouring. Mr. Craig is always aiming to improve his popular hostelery, and these new improvements will add increased pleasure to his guests. Mr. W. J. Craig, is an obliging wine clerk, and knows how to cater to the wants of the most exacting guests. The work in connection with these improvements was done by Mr. J. Haggart, who had charge of the metallic covering, and Mr. J. Heslip, who did the paper hanging, graining and painting.

MEMBERS SOCIAL

At the Y. M. C. A. Last Night was a Great Success.

"How I would like to have our subscribers see this scene to-night. I believe if those who support the work knew the extent to which the young men make use of the building, many of them would double up on their contributions." This was the opening sentence of Finance Minister Knapman's speech as he made his bow before a large audience of young men which crowded the parlours of the Y.M.C.A. last evening. It was an affair confined to the senior membership, a kind of family gathering at which all gave expression of being much at home.

Mr. Rowley Merrell, Chairman of the Social Committee, ably conducted the proceedings, he was assisted by a strong committee which includes Messrs. W. S. Robinson, G. L. Galley, G. Robertson, R. E. Harding, C. Seymour and W. D. Campbell.

The musical part of the programme was very much enjoyed. Mr. J. Laing presided at the piano in his usual capable way. Mr. J. Gerrard made his first appearance in the Association as a soloist and was well received.

A splendid instrumental aggregation comprising two guitars, a flute and mouthorgan was supported by by Messrs. Finney, Pearson, Doidge and Hendron. An encore was all that would satisfy the fellows after this number.

Mr. W. W. Daly and Mr. Watson were greeted with hearty applause each time they sang. Their solos were of a patriotic character.

The central feature of the programme was Mr. M. A. Sorsdeil's excellent lecture on The Philosophy of Brass Buttons. He gave it in three parts, nicely sandwiched in between the songs. Many a man has paid a half a dollar for a lecture which was less enjoyable. Any kind of a report of it would fail to do justice to its author. It was humourous, dramatic, patriotic and at times pathetic.

It was a most realistic series of pictures from life. Word pictures by an apt artist.

Mr. Knapman conducted the auction sale in a most capable and remunerative manner.

An adjournment was made to the bicycle room in the basement where the tables were spread in a tasteful style. Mr. D. Baptie an expert cook presided over the main feature here, to the delight of the company.

The oysters were enjoyed by the men who crowded the tables. Mr. Williamson made a few closing remarks and urged the members to assist in the spring canvas for members which is now on. The aim is to secure one hundred new men.

STRAYED FROM HOME.

The Cobourg Chief Wants John Mc Mahon of That Town.

The Chief has received the following communication:

"John McMahon, deaf and dumb mute; height, about 5 feet 6 inches; aged, about 25 years; wore a blue peaked cap, black scarf, square sack coat and light brown pants; walks with a short quick step and has a fashion of looking behind when walking. If found hold and wire. J. C. Ruse, Chief Constable, Cobourg."

Whiten makes the best crayon work in town; when you want large work done, take your small pictures to Whiten. He will make work to suit you.

WAS FROZEN TO DEATH.

How David Valentine Came to His Death.

Post Mortem was Held Thursday Morning in the old City Hall by Dr. Gustin and Dr. Lawrence—No Unusual Marks Found.

(From the St. Thomas Times.)

The post mortem examination on the body of the late David Valentine, who was frozen to death near Peterborough, was held in the old city hall this morning. It will be remembered that the body was brought here for interment and then ordered by the Attorney General's department in Toronto to have the remains disinterred, and a post mortem held. This was subsequently done by Dr. Gustin and Dr. Lawrence. They made a complete post mortem and put the stomach in a vessel containing alcohol and sealed it, so that in the event of it being necessary it can be sent to Toronto. The result of the post mortem in a few words is "that the doctors are of the opinion that he was not foully dealt with." The remains will be reinterred in the St. Thomas cemetery by undertaker P. R. Williams.

THE LATE MR. JAMES COE.

A Prominent Cavan Farmer Was Well Known in Peterborough.

Millbrook Reporter.

Our readers, near and far will join with us in sincere regrets that one so generally known and respected as James Coe, of Cavanville, has been called from the activities of this world. "Jim," as he was familiarly called, was known to every man, woman and child in the township, and much respected for his kindly, wholesouled traits of character. Strong of constitution, and in the prime of manhood, who would have thought that sickness could have preyed upon him and death selected him as the object of his deadly shaft. But such has been the sad circumstance, and hereafter his cheerful voice shall no longer be heard and those who met him oftenest and knew him best around Cavanville will realise his absence while his genial presence remains only in their memories. James Coe's heart was large indeed, and his good will towards all was proverbial. Imbued with that hospitable nature for which his late lamented mother was so noted, theirs was always a pleasurable gathering place for their many friends. Since last summer he had been unwell but three weeks ago he improved apparently so much that he went out considerably, visiting his sister in Cobourg, but a week or more ago he began to decline, and the end came very suddenly.

The funeral took place on Monday, to the family "rest of the sleeping," in St. John's Cemetery. Revs. Mountcer, W. O. Allen and Kilgour, of Peterborough, a former pastor and intimate friend of the deceased, being present to tender their words of sympathy. To his bereaved sisters at home and the whole family the sincerest condolence of the community will be extended.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 cents. tu-th

HALL DEDICATED.

The Fraternities of this Town Met in Gathering Yesterday—Many From a Distance.

There was a great gathering of Masons in Peterborough yesterday, when the District Lodge of Instruction met and the formal dedication of the new Masonic Hall took place.

The proceedings in the afternoon were taken up by the Lodge of Instruction, when two degrees were worked. The first degree was worked by Clementi Lodge, Lindsay, and the second degree by the Oshawa brethren.

In the evening the proceedings consisted of the dedication of the new Masonic Hall. There were between two hundred and fifty and three hundred Freemasons present, including of course many prominent members from out of town. The ceremony was conducted by Most Worshipful Bro. Judge Harding, of Lindsay, Acting Grand-Master. Right Wor. Bro. B. E. Wood, Deputy Grandmaster, assisted. The 3rd degree was worked by Faithful Brethren Lodge of Lindsay, after which an enjoyable banquet was held and was presided over by Director of Ceremonies Right Wor. R. M. Denistoun. The speech-making included replys to toasts to the King, the Craft, the Grand Lodge, visiting Brethren, etc.

Vocal selections were rendered by Mr. Graham, of Lakefield, and Messrs. Alex. Gibson and John Crane of town

NEWS NUGGETS.

—The members of All Saints' confirmation Class will meet this evening at 8 o'clock.

There will be a special practice of St. Andrew's choir at eight o'clock on Saturday evening. Full attendance is requested. No singing class this week.

—This evening the students of the Norwood High School intend holding their annual "At Home" and Re-union. The proceeds will be used to aid in purchasing uniforms for the Cadet Corps.

—The members of the Y.W.C.A. and friends are invited to spend a social evening at the Association Rooms, George street, to-morrow, (Saturday) evening. Refreshments will be served.

—The traffic on George street was blocked for a while to-day while the employees of the Golden Lion were engaged in elevating the second shipment of English linoleums to the fourth story of their establishment.

—Mr. Robert Leary, the jostling agent of the McLaughlin Carriage Company, is sending around to his patrons a very handsome calender that has been issued by the McLaughlin firm of Oshawa. It is very handsomely designed, it is large and useful and is in keeping with the enterprising spirit of the McLaughlin Co.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the stiff limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, [illegible] and thoroughly cure the [illegible]. One pill a dose. Fifty cents a box. Dodd's Kidney Pills will do you a world of good.

Infants too young to take medicine may be cured of croup, whooping cough and colds by using Vapo-Cresolene—they breathe it.

RICHARD HALL & SON

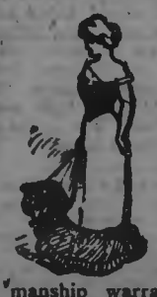
PETERBOROUGH'S MODERN STORE.

EVERY . . . . DEPARTMENT

Has its share of the New Goods now. **New Dress Goods, New Silks, New Cottons, New Linens, New Whitewear, New Corsets, New Carpets, New Suits, New Millinery.**

It's decidedly spring-like at this store. We are always pleased to show our Goods whether you buy or not. So come right along and see them.

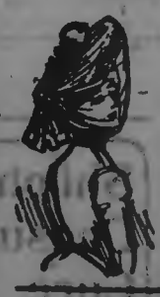
PRETTY SKIRTS!



In the providing of a wardrobe you must have plenty of underskirts. This spring we carry a larger range than usual, and this spring we have a better quality than usual. We can fit you with Skirts, Drawers, Corset Covers or whatever you may need. Quality of material and workmanship warranted all right. Prices are what you would expect to pay for the materials without any charge for the making.

We would like if you would take a look at our Novelties in Dress Goods before they get picked over. March is here! We have had a taste of spring already. The Millinery Openings are only two weeks hence. Easter will be here before you realize it : : : : : : : : :

BEAUTIFUL VEILS!



The rough weather of late winter and early spring makes it necessary for women to wear veils. Here are some special Veils that protect the face without being an injury to the eyesight. They are beautiful and are sure to be immensely popular with the ladies of Peterborough.

STREET SKIRTS!

The Short Skirt came into favour when bicycling was at its height. Now it remains in favour because it permits easy walking with freedom from bedraggled skirts and wet ankles. We are showing a nice lot of attractive materials for short skirts in a variety of colours and qualities, and prices that will be sure to please.

PORT HOPE KNITTING WORKS

IN LATEST SPORTING CIRCLES.

Galt and Peterborough Will Play This Evening.

Fenelon Falls Won the Trent Valley League Championship—Lacrosse Men Held a Meeting—Rugby News.

HOCKEY.

There is a great gathering of hockeyists in town to-day and the Oriental, the Mecca of the sporting fraternity, is exceptionally busy. There are two hockey teams stopping at the Oriental for the day, both of which are sporting the same colours. They are the Galt representatives and the Fenelon Falls team, who arrived from Norwood this morning fresh with the laurels of victory upon them and wearing the proud distinction of being champions of the Trent Valley League.

The Galt team, and about a dozen supporters, arrived on the midnight last night, and after being given a cordial reception, retired at once, and had a good night's rest. To-day they are around town, but are not inclined to talk much of the game. They are a pretty sturdy looking lot of men, and should give a good account of themselves. They have made arrangements to have the report of the game forwarded to Galt at intervals of 15 minutes. Interest in the match to-night is becoming intense and should the ice keep in shape a fine exhibition of the game should be dished up. The locals all retired early last night and are now in the pink of condition. The ice is a little soft, but it is hoped that by this evening it will be in fair condition. The Peterborough team for to-night will be: Wasson, goal; Glover, point; Harold Armstrong, cover point; Morgan, centre; Roy Armstrong, right wing; Graham, left wing; Whitcroft, rover. The game is called for 8.30 and the doors will not be opened until 7.15 o'clock.

The colours of the Galt and Peterborough teams are conspicuously displayed in windows and on awnings throughout the town. Any person who is not sporting colours to-day is supposed to be decidedly behind the times.

There is sorrow in Norwood. The sporting fraternity of the East Riding Capital has gone into deep mourning, and President Cameron and Secretary Anderson salute each other on the street with a grave look on their faces and a slight quiver in their voices. They can't help it, the blow last night was too much for them, for right on their own elegant rink—the pride of the village—the sturdy men from the north played Norwood to a standstill and won the championship of the Trent Valley Hockey League and the Stratton Cup for the second year in succession. The Fenelon team are a fast little aggregation and there was not any doubt as to the superiority over their opponents last night. They defeated Norwood on Norwood's ice by a score of 9 to 7, while at Fenelon the eastern team were defeated by only 3 goals. The attendance at the match last night was the largest that was ever seen at a hockey match in Norwood. Amongst the spectators were many from Havelock, Campbellford, Hastings and Trent Bridge, whilst even Peterborough sent down a delegation. Mr. Jim McCabe, who has always been a very keen observer of how hockey should be played, although he has not performed the duties of referee to any very great extent of late, officiated in a faultless manner. There was plenty of excitement at the start. Norwood dashed on the ice with a determination to pull down the three goals of a lead that the men of the north had, and win out the series. Norwood's team were slightly the heavier of the two. They were decked out in a very natty uniform of red and white striped sweaters and caps and were continually bombarded with encouraging shouts from the small boy on the beam or the older ones at the sides and the ladies in the gallery. It was no use, however, they had apparently made up their minds to lose and they carried out their intentions very beautifully. Particularly in the second half the home team showed a desire to leaf and had it not been for the excellent work of Miller and McNichol their defeat would have been more disastrous. The score at half time was 3-3. When the teams entered the struggle for the second half, Fenelon Falls went in with renewed energy and played rings around their opponents.

The teams were—

Fenelon Falls—Goal, Gould; point, H. Deyman; cover point, Burgess; forwards, C. Deyman, Beteau, Sanford, Petterson.

Norwood—Goal, Robinson; point, Pearce; cover point, McNichol; forwards, E. Pearce, Rothwell, Miller, Kemp.

Umpires — Knox, Norwood; Dr. Aldrus, Fenelon Falls.

The Fenelon team was handsomely entertained at the conclusion of the game. The two teams and the officials of the game together with the representatives of the league sat down to an oyster supper. Speech-making followed the supper. The health of the various officials of the clubs and the league were heartily drunk and briefly responded to. Altogether the game last night was a great success but more particularly will the Fenelon Falls players concede this fact.

The young ladies had a splendid practice last night and are "keeping in condition" for their game on Monday night against the Cobourg young ladies. The indications are that there will be a very large attendances and the girls are earnestly hoping that the weather will not get any softer. The Peterborough young ladies have been the recipients of many congratulatory references since that game in Cobourg, and they are determined to keep the lead against the southern beauties.

The Kingston Whig says: "Frontenacs are quite satisfied with their first season in senior hockey ranks, and are confident of doing bigger things next winter. Already a perfect defence is assured, and a fast line of forwards will be forthcoming, as several of the best players have signified their intention to join Frontenac ranks and aid in winning the O.H.A. senior championship for Kingston. It is intended to have the Frontenac manager backed by a strong and influential executive. Then the players will be put in charge of trainer Page several weeks before the hockey season opens.

There are many people wondering, no doubt, what the promoters of the new skating rink are about these days. It might be stated however, that the arrangements are proceeding quietly and something definite as to the location will be announced in the course of a few days. The amount of stock already subscribed is about $2,500, but the canvas has not been carried on to any extent. There is no trouble anticipated by the promoters. They are at present determining as to where the rink shall be built.

At Toronto last night the Stratford Midgets were defeated by the Upper Canada team by a score of 6 to 7. The Upper Canada boys have captured the O.H.A. Junior Championship.

Hugh Porter, an Atwood, Ont., hockey player, lost the sight of an eye receiving a terrible blow across the bridge of the nose and the right eye from a hockey stick. The other eye is inflamed, and may go too.

LACROSSE.

The meeting which was held in the Oriental Hotel last night for the purpose of discussing the lacrosse outlook in Peterborough for the coming season, was fairly well attended, notwithstanding the fact that only one day's notice of the meeting had been given. The meeting was called by the Vaticans, although there were a number of others present who have been identified with no particular club of their own. The chair was occupied Capt. Anglesyo, of the Vaticans, who expressed a hope that a strong effort would be made to form a representative town team and have it entered in the O.H.A. After a very careful study of the situation last night, it was decided to adjourn the meeting for one week when officers will be elected and other important business will be disposed of.

The general impression appears to be that an amalgamation will be effected between the Y.M.C.A. and the Vatican teams. Messrs. R. F. McWilliams and Horace Ayers of the Y.M.C.A. Athletic Association, who were present, promised the meeting every support that lay in their power to give Messrs. Ed. Dillon and R. F. McWilliams were appointed a committee to obtain information as to grounds, etc., and to report at the meeting on Thursday night of next week.

It will be a source of great pleasure to the lovers of Canada's national game to know that the game is likely to flourish once more in Peterborough. It is desirable that all possible information should be obtained concerning the prospects for lacrosse in town, and a good attendance is asked for at the meeting on Thursday night of next week.

RUGBY.

Everything is no warranged for an all-Canada Rugby team to make a tour of England, Ireland and Scotland. The only thing left to do is to pick the team, and that is a difficulty which will require the most careful handling. However, there is no apparent reason why Peterborough should not be represented. Peterborough holds a prominent place in Rugby circles in Canada, being for the second time in three years Intermediate champions. The local Executive will therefore inquire into the matter, and if any of the Peterborough players desire to go on the proposed trip an effort will be made to place at least one of them. As before stated, the picking of the team is a difficult matter.

The trip will take about six weeks of playing, which means departure from Canada to return roughly in about two months. The team will leave at the end of November when the men are all in shape. The guarantees which Mr. McClure has received from the above teams will almost cover expenses, and their is every probability that the teams across the water can be induced to increase them slightly so as to cover all expenses.

For example no later than yesterday, Mr. McClure, of Montreal, who arranged with the British clubs for dates and guarantees, received a letter from Vancouver in which the opinion is expressed that their team should be represented. However, there is just the difficulty. There can't very well be more than twenty men on the team. The away team in Canada can't be represented. The choice of the team will be held over till another point is arranged —that is, for some organization to take up the scheme and lend its name to it. may be said that an announcement in this line may be expected in a day or two now. The teams the Canadians will meet will be Belfast, Dublin, Glasgow, Edinburgh, Howick, Ox-University, Cambridge University, London Scottish, Black Heath, Swansea.

The Montreal Herald man gets off the following:—"No wonder some people prefer the English game of Rugby to all others. The teams are on an equality as far as the number of "tails" is concerned, but look at this calculation:

English game—
Two quarters and four three-quarters $3.50
Canadian game—
One quarter and three halves ... 1.75
American game —
One quarter and two halves 1.25

BASEBALL.

The Black Diamond Baseball Club of Port Hope, was organized on Tuesday night at their headquarters on Cavan street. The following officers were elected:

Hon. President—Dr. L. B. Powers.
President—F. Outram.
Vice-Pres.—N. Oliver.
Manager—S. Hayden.
Secretary—L. Boney.
Treasurer—V. George.
Captain—W. Vandette.
Executive Committee—Messrs. H. Sherry, C. Benniger, W. Vandette, Ed. Hansman.

The Diamonds have some good material and intend squaring accounts with Millbrook.

CRICKET.

An executive meeting of the Colt's Cricket Club will be held in the Y.M.C.A. on Friday night, of next week, when arrangements will be made for the holding of the annual meeting of the Club.

WHIST.

Among experts refusing to win a certain trick, says the Detroit Free Press, is by no means an infrequent occurrence. When a long established suit is declared against you and you hold the last trump, do not take a force unless you possess an established suit or your partner has shown one, when by allowing one trick to pass you may exhaust one adversary in the suit possessed and prevent his leading it again to holder. For example, North and South hold a strong spade suit; North has shown it by his discard, and South is leading his best spade to him. East or West holding the last trump, must not win the second round of the suit, or any round, until he is morally certain that South is leading his last card in that suit. Then, unless North has re-entry in another suit, he can never make his long cards. If there is a card of re-entry in the player's hand who holds numerical strength, he will bring in his suit anyway, whether the second round is trumped or not.

PING-PONG.

The ping-pong tournament just finished at Burton-on-Trent, states a correspondent of an English paper, the ball at one time was sent 527 times over the net in succession before one of the players failed to return it. This, he thinks, must be very nearly a record, but it sounds like a Yankee fairy tale.

HORSE RACING.

Death is the most talked of race horse of the winter campaigns. Few race horses have had such an unusual history. He is seven years old, and had raced before, yet he never attracted any attention until the meeting began in New Orleans last November. Then he suddenly blossomed out as a stake horse and in a few weeks his value increased from three or four hundred dollars to as many thousands. He is now the property of H. Robinson, who has raced on the Chicago track for several seasons. Death has started twenty-three times at New Orleans, has won ten races, finished second eight times, third once, and has been unplaced only four times. He has in all his later races conceded all sorts of weights to his opponents and has been racing at all kinds of distances.

Woman is as Old as She Looks.

It is not age but disease, weakness and ill-health that makes women look old, care-worn and wrinkled. You cannot look your best unless you feel well, strong and vigourous, with pure, rich blood and steady nerves. Dr. Chase's Nerve Food makes good looks because it makes good health, restores the healthful glow to the complexion, rounds out the form and gives elasticity to every motion of the body.

GRAND OPENING OF

NOTES FROM THE WIRES.

Wm. Davis of Hamilton accidentally shot himself at the residence of his brother-in-law in Grantham Township on Thursday while engaged shooting rats which were stealing Mr. Furminger's golden pheasants. The top of his head was blown off. He leaves a wife and two children.

At Copenhagen the Mormon missionaries propaganda has become so active that they are distributing literature even within the Danish churches, urging young girls to attend Mormon meetings. Statistics show that one out of every twenty-two Danish emigrants to the United States becomes a Mormon.

Rev. Father Ryan, Dean of St. Michael's Cathedral, Toronto, lies at the point of death in St. Michael's Hospital; Rev. Septimus Jones, the venerable rector of the Church of the Redeemer, Toronto, is in a critical condition, and grave doubts are entertained for his recovery; Rev. Henry Bath Osler, canon of St. Alban's Cathedral, is lying critically ill at his residence in Eglinton.

For twenty-four years Vapo-Cresolene has been extensively used for all forms of throat and bronchial troubles. All Druggists.

Music in a Barber's Shop.

If we go from the gentleman's parlor to the barber's shop of the sixteenth century, we find unmistakable evidences of the popularity of music. People would seem to have had more time in those days than now and do not appear to have minded waiting as much as briskier moderns, and so the barber provided stools at strategic points who were waiting their turn. For this purpose he had the virginals in one corner, the virginal being a straight instrument, the precursor of our piano, in which by pressing keys like our piano keys the strings were struck not by a hammer, as in our piano, but by a quill or elastic piece of wood, of leather or of metal. A virginal of Elizabeth's time is still preserved in the South Kensington museum in England.—Lippincott's.

Strong Enough for Cancers.

Cancers are caused by poisonous humors in the blood. The only non-surgical treatment known is Merrill's System Tonic. This is a powerful blood purifier and at the same time blood builder. It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.

THE BEEHIVE

Kills Germs.

That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubles of the throat and bronchial tubes.

Vapo-Cresolene is sold by druggists everywhere. 6 Vapo-Cresolene outfits, including the Vaporizer and lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials sent upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

A PARTNER OF DEWET

HAS A GLOWING OPINION OF THE FUTURE OF SOUTH AFRICA.

The Mineral Wealth Has Only Been Nibbled At—Interview With R. R. Brown, a Business Partner of Gen. Dewet, in Toronto—He Defended President Kruger in the Courts.

Before the South African war, when the diplomatic contest between President Kruger and Mr. Chamberlain was engaging the attention of the world, the Boer executive, as everyone will remember, tried to evade the consequences of a suit for 1,200 mining claims, valued at $5,000,000, brought by an American engineer, Mr. R. R. Brown, by forcing through the Volksraad a bill to override the judiciary, and this particular case arrayed the judiciary of the Transvaal against the executive and legislative branches. The finality was that President Kruger dismissed Chief Justice Kotze, stating that the judiciary was a subsidiary and not a co-ordinate branch of Government. The case is closely interwoven with those disputes which led to the cause of the war. Mr. Brown is now a guest in Toronto, and on Saturday told much that was interesting about the Transvaal, its past, its possibilities of its people. To tell anything interesting about a country that for two years has been the subject of newspaper enterprise may seem a difficult task, but it is rendered easy because of Mr. Brown's unique experience and his intimate association with what was a very large factor in the causes of the war. Mr. Brown went to the Transvaal in 1892, and remained there as a mine manager and consulting engineer until the outbreak of hostilities, was the American commissioner during the Jameson raid, had many interviews with Mr. Kruger, knew General Botha very well, and was the friend and business partner of the illusive Dewet. Of the Transvaal and its possibilities of development he talks freely out of a strong faith in the country's resources.

The wealth of the Transvaal, he says, is simply incalculable. Only the Rand, a stretch of gold-bearing rock, fifty miles long by two broad, a mere spot as compared with the whole country, has been opened for development. At the time when the war broke out the Rand was producing a hundred million in gold annually, and that would have to be kept for a hundred years to exhaust the ore now in sight. This development of the Rand, Mr. Brown asserts, has gone on in the face of difficulties that would have been insuperable to a country less rich, and had increased the cost of production by a third. The dynamite monopoly and the monopoly enjoyed by the Netherlands Railway laid a heavy burden upon the mine owners. Another drawback had been the lack of police protection to prevent thieving from the mines, through which the losses to the mine owners were enormous. The methods of the Boers for repressing the black population, which greatly hampered the labor market, was another source of trouble, and it was accentuated by the liquor laws, which encouraged the sale to the blacks of a vile liquor known as "Cape smoke." Then back of everything else was the dogged opposition of the Boer to the progress of the Outlander.

After ten years only five per cent. of the Rand, Mr. Brown stated, had been worked out, so that that immense deposit, which is but a tithe of the mineral wealth of the country, has as yet been only nibbled at. Before the war 36,000 stamps were running there continuously. The works stretched for thirty miles in a straight line, and at night throughout the whole length of the mines the Rand was a blaze of electric light, brighter than any street in Toronto. With the war over the Transvaal, Mr. Brown believes, will quickly become the greatest gold-producing country in the world.

Mr. Brown spoke very highly of General Dewet. If the General walked into Toronto, he said, he would probably be taken for a successful Manitoba farmer. He was a very pleasant man to meet, shrewd and farseeing in business affairs. He and Mr. Brown had been and were still partners in a ranch. Mr. Brown believed that Generals Dewet and Botha would yet come in, and they, with the other Boers, would take an important part in the politics of the new colony. Mr. Brown evidently believes in the policy of conciliation. The Boer character he analyses as a mixture of Huguenot and fanaticism, Dutch stubbornness and Scotch canniness and shrewdness. The Boers of Scotch lineage, he says, are their best fighters. Mr. Brown considers himself a pretty good wing shot, but a Boer, he said, could see a duck's head when it was at a distance where he could not see its whole body.

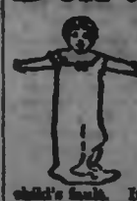
Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

Exactly Described It.

A Soho parish magazine has an amusing, if slightly indigestible, Christmas story. Towards the end of the mince-pie stage, Willie put down his spoon, and pushed away his unfinished trifle. "Why, Willie," said his father, "what's the matter? You look quite mournful!" "Yes," replied Willie, "that's just it, I'm moren' full." And the innocent child wondered why everybody laughed.—London Globe.

Don't Chide the Children.



Don't scold the little ones if the bed is wet in the morning. It isn't the child's fault. It is suffering from a weakness of the kidneys and bladder, and weak kidneys need strengthening—that's all. You can't afford to risk delay. Neglect may entail a lifetime of suffering and misery.

DOAN'S KIDNEY PILLS

strengthen the kidneys and bladder, then all trouble is at an end.

Mrs. E. Kidner, a London, Ont., mother, living at 469 Grey St., says:

"My little daughter, six years old, has had weak kidneys since birth. Last February I got a box of Doan's Kidney Pills at Strong's drug store. Since taking them she has had no more kidney trouble of any kind. I gladly make this statement because of the benefit my child has received from this medicine."

PRINCE OF WALES AT BRISTOL.

Avonmouth Dock to Recover Bristol's Position as a Leading Port.

London, March 6.—The Prince of Wales yesterday afternoon turned the first sod of the new dock at Avonmouth, Gloucestershire, on which the sum of £2,000,000 is about to be spent, and by which it is hoped to recover a portion of the American traffic, formerly enjoyed by the port of Bristol. At the luncheon which followed the ceremony, the Prince of Wales, in a speech, said the great enterprise started will have the effect of strengthening the grip of hands across the sea. It would tend to increase the community of interest, mutual trust and sense of kinship, all of which would help to strengthen the Empire.

Is Not This Stealing?

Are not Imitators who Live on the Reputation of the Article They Imitate Thieves?

In Spite of at Least Half a Dozen Imitators, Dr. Chase's Syrup of Linseed and Turpentine has More Than Three Times the Sale of any Remedy Recommended for Throat and Lung Troubles.

Have you ever been imposed upon when asking for Dr. Chase's Syrup of Linseed and Turpentine by being offered an imitation? Many have been and we know of some who have changed their druggist as a result. It is not safe to deal with a druggist who offers imitations and substitutes. An honest druggist will not offend his customers by such questionable methods.

The use of Dr. Chase's Syrup of Linseed and Turpentine has become so universal that on all sides are springing up preparations of turpentine and seed put up in packages similar to Dr. Chase's, with the object of making sales on the reputation of this famous remedy. Is not this dishonourable? Is it not stealing, or even worse? For beside the injury done to the proprietors of Dr. Chase's Syrup of Linseed and Turpentine, the people are being deceived. In some cases no doubt, even life is lost as a result.

Are you being deceived? Have you asked for Dr. Chase's Syrup of Linseed and Turpentine and been given an imitation or substitute? There is no doubt about the virtue of this great throat and lung remedy. It is too well known as a thorough cure for bronchitis, coughs and colds, to need further words of commendation. What we want to do is to warn you against imitations. To be certain that you are getting the genuine be sure that Dr. Chase's portrait and signature are on the wrapper.

Dr. Chase's Syrup of Linseed and Turpentine has reached phenomenal sales, because it cures when other remedies fail. It is far-reaching in its effects, curing the cold as well as the cough, and uprooting the most serious forms of bronchitis, asthma, and similar throat and lung diseases. Twenty-five cents a bottle. Family size, three times as much, 60 cents. At all dealers, or Edmanson, Bates & Company, Toronto. 2

Dominion Appointments.

Ottawa, Ont., March 6.—J. H. Kenning, collector of inland revenue at Windsor, has been appointed inspector for that district in place of the late Mr. Gow, and James McGovern of the Inland Revenue Department in London gets Kenning's place. Mr. Thrasher of Chatham takes McGovern's position. H. B. Murray becomes deputy collector in Windsor, which has also been vacant for some time.

No American Intervention.

Washington, March 6.—Boer Delegates Wolmarans and Wessels saw President Roosevelt yesterday for 25 minutes at the White House. He informed them that the United States cannot and will not interfere in the struggle in South Africa.

Prices Will Go Up.

Toronto, March 6.—The Ontario Harness Makers' Association yesterday decided to advance the prices of their goods throughout the country owing to an increase in the price of hides, and a decided stiffening of wages.

CURES ECZEMA!

Dr. Agnew's Ointment can count its cured patients by the thousands.

But in no one skin disease has it so many almost marvellous cures as in cases of Eczema—this tenacious skin disorder which has baffled many a physician in seeking after a cure. One application puts out the fire, takes away the itching, stinging sensation, and after a few applications the eruptions begin to dry up, diminish, and eventually disappear entirely. The beauty of the treatment is, it leaves no scar or trace of the trouble—but a skin as soft as baby's. Cures piles in four to six nights. 35 cts. 71

MARKET REPORTS.

Grain Markets Are Quiet—Values Practically Steady at Chicago—The Latest Quotations.

Sheep and Lambs—Offerings, 3600 head; sheep scarce and full steady; lambs steady; choice lambs, $6.10 to $6.20; good to choice, $6.40 to $6.45; culls to fair, $5.90 to $6.35. Sheep, choice, handy wethers, $5.50 to $5.75; common to extra, mixed, $4.50 to $5.25; culls and common, $3.50 to $4.50; choice to extra export wethers, $5.40 to $5.60; yearlings, good to choice, all wethers $5.25 to $5.

BRITISH CATTLE MARKETS.

London, March 6.—Prices steady; live cattle, 12¾c to 13¼c, dressed weight; refrigerator beef, 10c to 10½c per lb.

Why Rheumatism is Like Catarrh.

Both are inflamations. The former of the muscle tissues, the latter of the mucous membrane. The only way to cure either is by a course of blood purifying and blood enriching treatment. Merrill's System Tonic is the most thorough blood purifier, and at the same time the most rapid blood-making remedy known. Fifty pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

His Talk.

"What will I talk about?" remarked a man who had been called on unexpectedly at a banquet and mentally groped for something to say.

"Talk about a minute!" was the rejoinder that came from a nimble witted chap at the other side of the dining room.

Horses and Color.

As regards color, gray horses live longest, roan horses nearly as long. Cream colored horses are deficient in staying power, especially in summer weather. Bays, on an average, are the best. Horses with black hoofs are stronger and tougher than others.

Death on Coughs.

Don't let a new cough grow old! Kill it while it's young, or it may kill you. Scott's Emulsion can't hurt you, but it's death on coughs—new or old.

VIN MARIANI
Safe And Reliable Tonic

VIN MARIANI is a perfectly safe and reliable diffusible tonic and stimulant. Never has anything received such high recognition by the Medical Profession. It is specially recommended by Physicians as the only tonic-stimulant which never produces any unpleasant reaction. This is guaranteed after continued experience by the medical profession throughout the world.

NOTE—Vin Mariani can be taken with perfect safety, as it contains no harmful or injurious ingredients.

FLOATING ISLANDS.

One Island, Covering Two Acres, Seen in the Gulf Stream.

Of all passengers carried by ocean currents floating islands are the most interesting. Many of them have been found voyaging on the Atlantic. These islands were originally parts of low lying river banks which broke away under stress of storm or flood and floated out to sea. The Orinoco, the Amazon, the La Plata and other tropical rivers often send forth such pieces of their shores. Some of the bits of land are of large size and carry animals, insects and vegetation, even at times including trees, the roots of which serve to hold the land intact, while their branches and leaves serve as sails for the wind. Generally the waves break up these islands shortly after they put to sea, but sometimes, under favorable conditions, they travel long distances.

The longest voyage of a floating island, according to government records, took place in 1892. This island was first seen off Florida, and apparently it had an area of two acres. It bore no trees, but it was thickly covered with bushes, and in one place it was thirty feet high above the sea level. It was in the gulf stream, traveling slowly and with occasional undulations to show where the ground swell was working beneath it. Probably it got away from its river anchorage in the spring of the year, for toward the latter part of July it had reached the latitude of Washington, D.C.

No large animal life had been seen on it, though there must have been myriads of the small creeping things which abound in the tropics. By the end of August it had passed Cape Cod and was veering toward the Grand banks. It followed the steamer lane routes quite accurately, and several vessels reported it. One month later it was in midocean northwest of the Azores, and its voyage evidently was beginning to tell on it. It was much smaller and less compact. It was not seen again, and probably it met destruction in the October gales. But it had traveled at least 1,000 miles, and if, as was thought, it came from the Orinoco, it must have covered twice that distance.

It is quite possible that floating islands larger than this one, under more favoring circumstances, might during past ages have made the complete journey from America to Europe or Africa and so brought about a distribution of animal species. Of course it is not absolutely certain that this island went to pieces in October. It might, though this is not probable, have floated down into the region of calms and seaweed, where it would be longer preserved.—Theodore Waters in Atlantic's.

The English Pheasant.

The pheasant in England, if not exactly indigenous, is certainly effectually naturalized and, though originally from the Caucasus, may after a thousand or so years of acclimatization be looked upon as truly British. Tradition has it that the pheasant was brought into Europe by the Argonauts. It was probably introduced into England by the Romans. It certainly preceded the Normans. "Pesant hen and pesant cock" appeared in King Harold's bill of fare. Thomas a Becket is popularly supposed to have dined off a pheasant the day he was murdered.

In the time of Edward I. the price of a pheasant was fourpence, while woodcock (it makes one's mouth water) were but 3 farthings a pair. Two hundred years later pheasants had risen to twelvepence apiece and woodcocks to a penny, while snipes could still be had at threepence a dozen.

As long ago as the time of Henry VIII. the pheasant, as it still does, apparently lost to a "dip," though on a somewhat lower scale than now. "Rewardes for bryngyng of p'sents" appears in L'Estrange's "Household Book:" "It'm to Mr. Asheley svnt for bryngyng of a femaunt eocke and iiij. woodcocks ye XVIIJth daye of Octobre, in reward iiijd."

Japanese Porcelain Repairs.

In the manner of repairs those wonderful followers of principle and truth in art, the Japanese, have a lesson to teach us. When a Japanese connoisseur breaks some precious piece of pottery or porcelain, he does not throw it away with disdain, neither does he try to deceive the casual observer into the belief that it is unbroken. Instead, he has it joined together, generally with gold lacquer, in such a fashion that the fracture is boldly shown and commented on, as it were, by the frank exposition of the method by which it is made good. Curious enough, a distinctly new and charmingly decorative effect is in most cases added by these irregular gold lines, while the sense of craftsmanship is tickled by the marvelous skill exhibited by the repairer in thus welding together the two dissimilar materials. Truth is preserved at no loss of artistic beauty. Indeed, once more it is made clear that the two may always walk hand in hand.

A Warning.

Whatever be your talents, whatever be your prospects, never speculate away on a chance of a palace that which you may need as a provision against the workhouse.—Bulwer.

Russian census returns reveal the presence of 640,000 idolators in a population of 125,668,000, among which for every 121 men there are a hundred women.

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. The original and only genuine cure for Bright's Disease is

THE FIRST STEP

to baby's health must be taken before baby's birth. The child can have no more health than the mother gives it. A healthy mother, strong of body and cheerful of mind, will endow the child with her own physical health and cheerful disposition. Many a wife who had dreaded motherhood because of past experiences of prenatal misery of mind and body has found a new era open to her with the use of Dr. Pierce's Favorite Prescription. It gives physical strength, soothes the nerves, and induces refreshing sleep. It gives vigor and elasticity to the organs of maternity, so that the birth hour is practically without pain or suffering. It enables the mother to provide a plentiful supply of healthful nourishment for the healthy child. It makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription" and it is absolutely free from opium, cocaine, and all other narcotics.

Sick women are invited to consult Dr. Pierce by letter free of charge. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I gladly recommend Dr. Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, Mills, Northumberland Co., Virginia. "Before my third little boy was born I took six bottles. He is the finest child and has been from birth, and I suffered very much less than I did before in confinement. I unhesitatingly advise expectant mothers to use the 'Favorite Prescription.'"

Dr. Pierce's Pleasant Pellets are a pleasant and effective laxative medicine,

RING UP 'PHONE 388.

When any accident to your steam, water or gas pipes arises or when your furnaces or boilers need repairs, or closets, tanks, baths or other sanitary appliances get out of order, I will promptly attend to all orders, having on hand a full supply of plumbers' and steamfitters' requisites. I am prepared to meet every want, possessing a practical knowledge of the trade. I am enabled to detect at once the defects and causes, and remedy them at very low charges. I am ready to furnish estimates for all kinds of heating, public buildings, churches, etc. Iron pumps, points and pipe furnished and wells driven.

E. J. G. SUTHERLAND,
238 George Street, Peterborough

GREWSOME RELICS.

Pathetic Memorials of the Ill Fated City of Pompeii.

In the museum at Pompeii are preserved the most horrid and pathetic relics of the last days of the ill fated city. Early in 1863 the workmen who were helping to unearth an immense palace struck into a cavity in the lava, the nature of which, of course, was a mystery. Without breaking further into it they poured plaster of paris down the crevices that were already opened, and as soon as the plaster had hardened the crust of lava was carefully removed, and, lo, the form of a human being in his last struggles was revealed! The outlines and form of the person were perfectly preserved, showing plainly that he had been hurled in boiling lava, which had hardened about him. The intervening 1,800 years and the heat of the lava besides had reduced the body to a handful of dust, but the lava had left a cast natural as life.

Since that time several bodies have been reproduced, one of them with the features so perfectly preserved as to show the expression of the face. In some of the plaster casts parts of the skeleton are imbedded. Two female casts which are clasped in each other's arms have been called "The Mother and Daughter." Persons who have seen this group say that there is nothing in all Pompeii more touching than the utter despair depicted upon the face of the "mother."

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

Truth Will Out.

Sunday School Teacher—I was very sorry to hear, Sandy, that you went fishing last Sunday. You should certainly set a better example than that. Now, here's a little boy (turning to newcomer) who doesn't go fishing on the Lord's day. Do you, little boy?

Newcomer—No, sir.

Sunday School Teacher — Ah, I thought as much. One look in that innocent face was convincing. And why don't you go fishing on Sunday, my little man?

Newcomer—'Cause there ain't no fishing where I live.

After the Consultation.

In describing his early struggles to establish a practice the doctor had just said:

"I used to sit in my office day after day waiting for patients. In fact, I used to sit like 'Patience on a Monument.'"

"And now," remarked his associate, "I suppose you are accustomed to have monuments sit on your patients."—New York Times.

Pure Accident.

Flanagan—Hivins, man, phwat's the natther wid yer face?

Hanagan—Faith, 'twas an accident. The ould woman throwed a plate at me.

Flanagan—An' d'ye call that an accident?

Hanagan—Av coorse! Didn't she hit phwat she aimed at?

From a Scotchman's Sermon.

We are told to love our enemies, but we are not told to like them. I don't like my enemies. I dislike them very much. But (this with a baleful glance) I love them, and I shall ever be ready to show my love to them by trying to get them severely punished that they may be led to repent of their behavior toward me.

Sincere Praise Is Good Form.

It is not considered bad form to praise a dish or to compliment the artistic table arrangement, remembering always that there is a vast difference between sincere admiration and flattery that embarrasses instead of pleases a hostess.—Woman's Home Companion.

THE GOLDEN RULE.

The Golden Rule is worldwide and is variously voiced as follows:

Do as you would be done by.—Persian.

Do not that to a neighbor which you would take ill from him.—Grecian.

What you would not wish done to yourself do not unto others.—Chinese.

One should seek for others the happiness one desires for oneself.—Buddhist.

He sought for others the good he desired for himself. Let him pass on.—Egyptian.

All things whatsoever ye would that men should do to you, do ye even so to them.—Christian.

Let none of you treat his brother in a way he himself would dislike to be treated.—Mohammedan.

The true rule in business is to guard and do by the things of others as they do by their own.—Hindoo.

The law imprinted on the hearts of all men is to love the members of society as themselves.—Roman.

Whatsoever you do not wish your neighbor to do to you do not unto him. This is the whole law. The rest is a mere exposition of it.

Specialists' Ideas Adopted.

When originating his celebrated Four T's Merrill, the Brantford Druggist, added to drugs of many generations' usefulness some of the latest drugs used by lung and throat specialists. The result, naturally, is that Four T's is an unexcelled compound and never fails to cure a cough in 24 hours and the worst cold in two days. Large bottles 25c. at Ormond & Walsh's drug store.

Do Something.

The Countess of Warwick said the other day to a correspondent: "Every woman should do some work. If it is unnecessary for her to work for herself, she ought to do something for others. Then, there would be fewer headaches and fewer heartaches. The sum of human happiness can be enlarged by women, if they would undertake it. Grumbling never increases our happiness nor adds to our length of life. The woman, who thinks she makes people better by a perpetual whine mistakes the situation."

ONLY ONE ESCAPE.

A man may break away from prison but he cannot get away from the torture of rheumatism until he takes Dr. Hall's Rheumatic Cure. It is the only reliable remedy on the market. Mr. Charles H. Clarke, Kingston, Ont., who for fifteen years in succession held the civic street watering contract could not put on his boots or walk for several weeks. He tried Dr. Hall's Rheumatic Cure, and three bottles, with the Climax Iron Tonic Pills, completely cured him. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents; at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

The Phenix of Arabia.

In olden times a bird called a "phenix" was thought to live in the deserts of Arabia. His lease of life was said to be 500 years, at the end of which time he built a nest of spices and fanned it into a flame with his wings. The flame reduced the bird to ashes, out of which he sprung to live another 500 years. Richardson says that he had fifty orifices in his beak, through which he sung melodious airs.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Polson's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

Henry Was Black.

Henry III. of Germany had a complexion so dark that he might easily have been mistaken for a negro.

Australian Opals.

Formerly most opals came from Hungary and more recently from Mexico. In 1889 an Australian hunter, while pursuing a wounded kangaroo, found an opal. Since that time Australia has yielded nearly $2,000,000 worth of opals.

Onions.

Onions are regarded as an excellent nerve tonic, but some other peculiarities connected with them are prejudicial to their use even for this purpose.

OBSERVATIONS ON HOCKEY.

Secretary of O. H. A. Writes an Interesting Article.

HE REVIEWS ITS HISTORY.

Tells of the Wellingtons' Trip to Winnipeg—Some Very Valuable Information Given.

Mr. A. H. Beaton, secretary of the Ontario Hockey Association, contributes the following very interesting item on hockey to the March number of the Canadian Magazine:

The growth and development of hockey have been so recent and rapid that it is unnecessary to give even a brief resume of what is common knowledge to all Canadians. Suffice it to say that within the comparatively short period of 28 years there has been created one of the most graceful and scientific winter sports. During fully half of this period, however, all knowledge of the game was limited to a few enthusiasts in three or four centres, so that within less than ten years the game has been introduced to and taken a firm hold of the people generally until now its popularity is unsurpassed by that of any other pastime. The average Canadian's athletic is not jaded, neither is he looking for new sensations nor unduly addicted to hobbies so that it is safe to say that since he has pronounced in unmistakable terms in favour of hockey as the national winter sport, he means it, and the game is here to stay.

It is only within the last seven or eight years that the game has been played generally throughout the whole country. Prior to that time such places as Quebec, Montreal, Ottawa, Kingston, Toronto, and of course Winnipeg, were the chief exponents of hockey, but since then the popularity of the game has become so universal that there is scarcely a village in Canada where a hockey club of some sort does not flourish. The Montreal and Winnipeg clubs for some years were acknowledged to excel all other hockeyists in Canada, but with the rapid introduction of the game throughout Ontario and other parts of the Dominion there has been developed a much finer quality of hockey than existed when the game was confined to the few centres above mentioned. No team from the Maritime Provinces has recently visited Montreal or Toronto, but the game has always been popular there.

Although the features of the game are familiar to all one or two may be worthy of mention and are suggested by contrasting the present scientific development of hockey with the crude beginning of a few years ago. By the enforcement of the most rigid rules much of the roughness which was inseparable from the earlier game and was the chief characteristic of its forerunner, shinny, has now quite disappeared, but it has taken some years to bring this about, some people thinking that the rules were being enforced too rigidly, and the game was being spoiled. The complaint is frequently heard that the referee is too strict and will not allow even a heavy body check; however, this is the safer side on which to err, and it cannot be disputed that the elimination of everything approaching roughness has had a tendency to improve the game in every respect. In hockey, as in all out-door sports, the player who does not indulge in rough and unfair tactics is seldom injured, and his work invariably excels that of the man who thinks his weight should be used to the disadvantage of his opponent at every opportunity. The man who "plays the puck" always does more effective work for his team than the one who "plays the man."

The Ontario Hockey Association, formed in 1890, has done much to improve and refine the game, and always kept a keen watch over the interests of its clubs, the result being that the playing rules are now much more perfect than ever before, and the entire sport has been elevated to a standard not approached by many other games. In the past two or three years the quality of hockey played in Toronto and Western Ontario has undergone great improvement and the east can no longer claim to have a monopoly of first class hockey. A few years ago hockey of the highest grade was not found west of Queen's University, but for the past two seasons the crack team of that institution has been defeated in the finals by the Wellingtons, of Toronto, the present Senior Champions of Ontario. It is worthy of remark that since 1890 the Queen's University Club has been represented in the finals every year except that of 1892.

Prior to 1893 there was no trophy to represent the championship of all Canada, so in that year Lord Stanley (now Earl of Derby) presented a cup for competition between the champions of the various hockey associations throughout Canada, the holder of which must always defend the trophy whenever challenged, provided the trustees consider such challenges reasonable. During the nine years since the donation of the cup the trophy has been held principally by Montreal clubs, although the Winnipeg Victorias (the present holders of the cup), have been frequent and persistent challengers, and occasionally with success. On only three occasions previous to the present season has an Ontario team made an effort to obtain the Championship, Ottawa having tried unsuccessfully once, and Queen's University twice to lift the Cup.

Some six or seven years ago a few youngsters in the vicinity of Jarvis street, in Toronto, formed a juvenile club called the Wellingtons, and soon entered the Junior Series of the O. H. A., where they made a reputation for themselves, eventually winning the Championship of Ontario in that class. They ambitiously stepped up to the Intermediate Series, and although their age and weight were much less than those of most Intermediate Teams, they played fast hockey and here also showed themselves the best in Ontario, securing the Intermediate Championship. Having played together so successfully they determined to try their fortunes in the Senior Series, and their prowess was rewarded by the championship of Ontario in 1900, when they defeated Queen's University in the finals. They repeated their performance in the following year.

In the beginning of the present season, wishing to avail themselves of the privilege of Provincial Champions the Wellingtons challenged for the Stanley Cup, and with most commendable pluck, but rather indifferent support from a doubting public, made the trip to Winnipeg, and competed with the Victorias of that city for the much coveted honour. Of the games played in this competition it is only necessary to say that the Wellingtons surprised their most enthusiastic admirers at the same time causing the friends of the Winnipeg Victorias many anxious moments, for all recognized that the cup had had a very narrow escape. Although the Toronto teams were handicapped by the absence of one "forward," and their reliable "cover point," whose places had to be filled by juniors, together with the fact that the Winnipeg players had been practising for nearly two months, whereas there had been very little ice in Toronto prior to their trip, the Wellingtons played two very close matches, the result of each being in doubt until the referee's whistle sounded for the expiration of time. At no stage in either match was it possible to make much choice between the two teams, the score alternating in favour of each throughout the hour's play, so that it was close till the finish, the score in each match being Winnipeg Victorias 5, Wellingtons 4. Seldom has an athletic contest in Canada aroused more universal interest than was the case in the Stanley Cup competition, a remarkable feature being that almost as much credit was given the defeated team as went to the victors. The contest demonstrates beyond all doubt that the game played by the Wellingtons is as fast as that of any team in Canada and this notwithstanding the more favourable conditions under which the game flourishes in Quebec and Manitoba, where the weather is more certain and steady than in Ontario. In Winnipeg and Montreal the rinks excel those of Ontario by so much that it must occasion surprise that the hockeyists of the latter province have attained such a degree of excellence, considering the difficulties with which they have to contend.

There can be no doubt that in Toronto at least [illegible] is room for an arena plant, and if some public-spirited capitalist would make the move the necessary amount to build the same would quickly be subscribed and the dividends would be sure.

Her Advantage.

"Papa," said a Hyde Park preacher's little daughter the other day, "when I grow up I'm never going to marry either a minister or a doctor that gives people medicine."

"Why, dear?" he asked. "Don't you like preachers and doctors? You know preachers and doctors ought to be the most useful men there are. Doctors try to save people in this world, and preachers do their best to save them in the next. Isn't that pretty good handicap?"

"Yes," replied little Caroline, "but Dr. Pelletier's wife was here calling on mamma today, and they got to talking about things, and Mrs. Pelletier said when she was sick it was always just terrible to think of taking any of her husband's medicine, and then mamma said: 'Oh, but you're an awfully great deal more lucky than if you were a preacher's wife. You only have to refuse to take the medicine when you're sick, but a preacher preaches every Sunday.'"

The Eye's Blind Spot.

The blind spot in the eye is where the optic nerve comes through the retina about one-tenth of an inch nearer the nose than the center. To test it close your fists with your thumbs outside and held against each other. Extend your arms. Shut your left eye and look fixedly with your right eye at your left thumb. Separate your hands, and when they are about six inches apart the right thumb will go out of business temporarily, for its picture will fall upon the blind spot. Now, here's the curious part of it: Though men have tried all sorts of experiments on themselves for unknown thousands of years, this phenomenon was not discovered until the time of Charles II. of England. The blind spot leaves no hole in the picture of the outside world, but, there being no stimulation on that spot, there is not consciousness of a hole, but a lack of consciousness.—Harvey Sutherland in Ainslee's.

He Was Deaf.

At a marriage service performed a few days ago in a little country church in England, when the minister said in a solemn tone, "Will thou have this man to be thy wedded husband?" instead of the woman answering for herself a gruff man's voice answered:

"Oi will."

The minister looked up, very much perplexed, and repeated. He repeated the sentence, and again the same gruff voice answered:

"Oi will."

Again the minister looked up, surprised, not knowing what to make of it, when one of the groomsmen at the end of the row said:

"'Er be deaf. Oi be answerin' for 'er."

FURS and HATS

YOUR SPRING HAT IS HERE!

Your Spring Hat is here. This is our advanced Spring Hat opening. For the last week we have been piling in Hats by the waggon load, and although they are not all in, still every reputable maker in the world is represented in a very large way:

CHRISTY'S TRESS
DUNN LOCKE
WOODROW'S COOPER'S

From England.

BALLOU'S HAWES'
ARGYLE STETSON'S

and all the other most fashionable American makers have their new designs on exhibition.

By these points you will know a new fashion. Silk Hats from a side view are slightly more tapered, and more of a bell design from the front. Derby Hats are lower and taper somewhat. Alpines have a more decided curl in the brim.

COME IN AND SEE THEM!

The end of the chapter is FUR BARGAINS. A look at our windows will convince you of this slaughtering prices

THOS. BARRIE

Manufacturing Furrier.

An Early Press Agent.

Though absurd wagers, often inconveniencing other people, are now sometimes made, they are not so prevalent as in the eighteenth and early part of the nineteenth centuries. The absurdity of a wager made by some persons in 1749 is only equaled by the credulity of the multitude. On Jan. 16 of that year, according to widespread announcements, a person would play on a walking case at the Haymarket theater the parts of every intoxicant, put into a quart bottle and while there sing several songs, in the short time permitting any spectator to handle the bottle. The theater could hold, but a small proportion of the immense crowd, but the performer did not appear. Some person behind the curtain announced that if the audience would remain there until the next morning instead of going into a quart bottle he would get into a pint one. But, though the multitude had faith in the quart, the pint bottle was too much. A riot ensued, and the interior of the theater was destroyed.—London

RETURN VISIT

—OF—

Professor O'Brien

Canada's Greatest Phrenologist and the only recognized

Scientific Palmist.

Owing to numerous people being unable to consult Prof. O'Brien during his first visit in Peterborough, a few weeks ago, he has been prevailed upon to pay the town a return visit on his way east, and can now be consulted at his former private office, 263 Hunter street Terrace, from 10 a.m. to 10 p.m. As Professor O'Brien will only remain in town for a very short season, people wishing to consult him should call at once, as this is their last chance. A photo read free to patrons.

Prof. O'Brien has just concluded two most successful seasons in Lindsay and Cannington, and is urgently requested to pay both towns a return visit at an early date. dtf

WORKING RULES

OF THE

PETERBOROUGH FEDERAL UNION NUMBER 9240.

All persons concerned are hereby notified that the following Working Rules have been adopted by the Peterborough Federal Union No. 9240;—

1. Nine hours a day shall constitute a day's work for all building, out door and corporation work, and for all labourers employed at any work outside factories and foundries. This also to include teamsters.

2. Masons' and bricklayers' labourers wages not be less than 20c per hour.

3. All other labourers, including foundries and factories, not less than $1.50 per day.

4. Town Corporation Labourers, $1.60 per day of nine hours.

5. All teams, on whatever work, shall be paid not less than $3.25 for nine hours' work.

By Order,

W. HENRY, President. W. A. REDFERN, Secretary.

Peterborough, Feb. 10th, 1902.

Reliable Watchmaker and Jeweller, 391 George St.

KING EDWARD TAKEN TO TASK.

Rev. Dr. Parker of London, Objects to His Majesty Going to Sunday Concerts and Brewing Beer.

London, March 8.—There was a striking scene in the City Temple Thursday when, during the course of his sermon, the Rev. Joseph Parker, D.D., the minister, administered a pointed rebuke to King Edward, which was loudly applauded by the congregation. Having alluded to public houses as trap-doors of hell," Dr. Parker referred to the King's recent brewing of beer while visiting Lord Burton:

"Pray for me," said the divine, "that I may speak delicately, loyally. If the King brews beer, what can be wrong in the subject drinking it? What the King does is likely to be imitated by others. His Majesty is more than a man, and must regard all questions from a kingly viewpoint. If the King goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The King cannot attend a Nonconformist place of worship, but he can go to a Sunday concert."

This remark called forth cries of "Shame!" Dr. Parker continued: "If the King, who is the head of the Church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum in gold than appear to be disloyal; but I cannot be disloyal to Christ, and it is better that these things should be said."

Dr Borden to Go.

Ottawa, March 8.—The Hon. Dr. Borden Minister of Militia, will attend the big military tournament to be held in New York, about the end of the month and will review the troops. The 48th Highlanders from Toronto are to attend. The troops will be reviewed on different days by General Miles, Commander-in-Chief; Major-General Brooks, Commander of the Department of the West; Admiral Dewey, Secretary or War Root, and by Dr. Borden, Minister of Militia.

A BIT STUCK FOR ROOM

For the new Goods have been tumbling in on us every day. Seems as though they'd never quit coming. Yet these vast quantities of new, novel and desirable merchandise will find easy "slipping out," owing to their uniqueness in make, their suitability in weave and Sutcliffe & Sons' uniformly right prices. Peterborough people look to us for nice things modestly priced, and we try to keep meriting this reputation.

Spring Goods of every sort we carry, are awaiting your cold criticism. Judge them closely—even harshly, and we think they will appeal to you.

We have still some of those "mill feints" in Linings, which appealed to the good buying sense of numerous buyers this week.

A GROWING REVENUE

Receipts and Expenditures For Past Eight Months.

MR. BOURASSA'S EXPLANATION

Sir Louis Davies' Denial Before the House —Press Despatches Mr. Bourassa's Only Authority For Statement— The Premier's View of the Whole Matter—The House in Supply.

Ottawa, March 8.—The revenue of Canada still continues to grow. The receipts on consolidated revenue account for the eight months ending February 28 amounted to $36,563,-797, which is $7,509,730 more than the expenditure for the same period, and larger by $2,948,303 than the revenue for the first eight months of the previous year. Against the apparent large surplus of receipts, however, must be placed a capital expenditure of $8,354,872. The expenditure for the past eight months was $29,057,076, which is $2,402,221 more than it was a year ago. For the month of February the revenue was $4,021,311 and the expenditure $2,784,913, an increase of $236,398 on the right side. For February, 1901, the revenue was $3,754,195, and the expenditure $2,487,688.

The capital expenditure for the past eight months shows an increase of $2,229,286, which is chiefly due to public works. There are small increases in the expenditure connected with Dominion lands, militia and railway subsidies. The expenditure for the South African contingents dropped from $682,428 to $177,866. The sum of $364,000 was paid out in the form of bounty on iron and steel.

MR. BOURASSA'S EXPLANATION.

Sir Louis Davies Enters an Emphatic Denial of His Statements.

Ottawa, March 8.—In the House yesterday Mr. Bourassa made his promised explanation of his statements concerning the cause of Sir Louis Davies' prolonged visit to England after the adjournment of the Joint High Commission. He read a letter from Sir Louis Davies, emphatically denying that he had given any interviews to the press upon the subject in question, but Mr. Bourassa exhibited a disinclination to accept the denial, and criticized Sir Louis for not having earlier denied the accuracy of the press despatches upon which he had based his utterances. Sir Wilfrid insisted that Mr. Bourassa was bound to accept the denial of Sir Louis Davies, and should not have attempted to justify his previous statements in face of that denial. Mr. Haggart took Mr. Bourassa to task for disclosing the secrets of the commission, of which he was secretary. Mr. Charlton entered a vigorous defence of the Imperial Government against the charge of sacrificing Canadian interests, and justified the abrogation of the Clayton-Bulwer treaty. In supply a number of items were passed.

Mr. Bourassa's Explanation.

Mr. Bourassa read a letter from Sir Louis Davies, denying statements which he (Mr. Bourassa) had attributed to the ex-Minister of Marine, to the effect that while in England it took all his time to prevent the Imperial statesmen from giving away Canada's case as against the United States. Mr. Bourassa further contended that if Sir Louis Davies really wished to deny the accuracy of the interview he should have made immediate contradiction and not have waited until the matter was brought up in the House two years afterwards.

Sir Wilfrid Laurier said he was surprised at Mr. Bourassa's remarks, declaring that it would have been more in accordance with parliamentary courtesy if the member for Labelle had accepted Sir Louis Davies' denial without comment. It was most unfair, the Premier thought, to persist in attributing to Sir Louis Davies a statement which he denied having ever made. The Premier concluded with an eulogy of Lord Herschell, whose attitude towards Canada during the deliberations of the Joint High Commission had been unfairly called into question.

Mr. Haggart alluded to Mr. Bourassa's statement in the House the other day, to the effect that the Imperial Government had sacrificed the interests of Canada during the meetings of the Joint High Commission. The action of Mr. Bourassa in discussing these questions while he was still a secretary of the commission was, Mr. Haggart declared, most extraordinary.

"My connection with the commission," interrupted Mr. Bourassa, "ceased on the day on which it last met in Washington, namely, in February, 1899."

Canada's Rights Conserved.

Mr. Charlton said the impression prevailed in Canada that Great Britain had not sufficiently protected Canadian interests, but he could contradict that statement. The statement had often been made that Great Britain had been outwitted by Yankee diplomacy, but it should be remembered that Britain's interests were world-wide and they all had to be considered. In olden times the American cry was "54; 40 or fight," yet the boundary was fixed at the 49th parallel. So, too, when the Ashburton treaty was concluded, it was contended that Canadian interests were sacrificed in the fixing of the Maine boundary, but the fact was forgotten that the American claim was for a boundary along the St. Lawrence River, so that all through British diplomacy had not done so badly by her colony of Canada after all. The Government was quite justified in holding the correspondence until the whole matter was finally settled.

This concluded the discussion and the House went into Committee of Supply.

Bills Read.

After recess the following bills were read a second time:

Respecting the Manitoba and Northwestern Railway Company of Canada.—Mr. Douglas.

To incorporate the Battleford and Lake Lenore Railway Company.—Mr. Calvert.

Respecting the Port Dover, Brantford, Berlin and Goderich Railway Company, and to change its name to "The Grand Valley Traction."—Mr. Heyd.

To incorporate the Board of the Presbyterian College, Halifax.—Mr. Fraser.

Respecting the Ontario, Hudson Bay and Western Railway Company.—Mr. Dymont.

Respecting the Windsor and Detroit Union Bridge Company.—Mr. Cowan.

After passing several items of the militia estimates, the House rose at 10.50.

THE KAISER'S DESIGN

Germany to Maintain a Large West India Squadron.

COL. TURNER, V.C., GETS O.S.O.

George Mann of Blandford, Reported to Be Fatally Injured—Cholera Among Mohammedan Pilgrims at Medina—A Boston Councillor Sued by a Boston Editor—French Ship Bounty Mill Passed.

At Port Arthur the C.N.R. elevator was opened Friday by General Superintendent Hanna.

Cholera has broken out among the pilgrims at Medina. One hundred and ten deaths from the disease have occurred.

William Rathbone, the well-known Liverpool ship owner and philanthropist, died at Liverpool Thursday evening, aged 82.

Mr. Marconi will leave New York for Canada to-day to supervise the arrangements for a permanent wireless station at Cape Breton.

The Union Station at Toronto was a busy thoroughfare Friday, over 1,200 immigrants passing through en route to the Western States.

The Ottawa fund for the erection of distinctive memorials in South Africa upon the graves of deceased Canadian soldiers amounts to $591.

The French Senate Friday passed the ship bounty bill with a few changes in the text as previously adopted by the Chamber of Deputies.

The tug Rivet Queen of Detroit opened navigation at St. Mary's River by making the first run of the season into Lake Huron on Friday.

Telegrams received at London from Cape Town represent the condition of Cecil Rhodes as most grave. Mr. Rhodes is suffering from acangina pectoris.

James Dick, the largest English importer of gutta percha, manufacturer of submarine cables, and philanthropist, died Friday at his home in Glasgow.

The Canadian Pacific has decided to increase its elevator capacity at Fort William from 5,500,000 bushels capacity to eight or nine million bushels.

The insignia of the distinguished service order was conferred on Lt.-Col. Turner, V.C., by His Honor the Lieutenant-Governor, Sir Louis Jette, in the Quebec Drill Hall Friday night.

John D. Sharman, ex-deputy postmaster of London, Ont., who was superannuated recently, after 42 years' service, was Friday afternoon presented with a gold-headed cane and an address.

George Mann of the 5th concession of Blandford Thursday fell from the loft in the barn to the floor below, striking on the side of his head and shoulder. He had not regained consciousness late Friday night.

Councillor H. B. Hunt of Beeton, Ont., has been served with a writ for $8,000 damages, issued at the instance of Editor J. W. Boyle of The Beeton World. Hunt assaulted Boyle one evening about three weeks ago and inflicted severe bodily injuries.

Voting on the bylaw aiding the Dominion Harness Company by way of loan and bonus to the extent of $10,000 for the purpose of establishing their new factory at Port Elgin, resulted in a majority Friday for the bylaw of 260, only 7 votes being recorded against it.

The Berlin correspondent of the New York Herald says the object of Prince Henry's visit is to bring about an agreement by which Germany will be permitted to maintain a large fleet in Caribbean waters to protect German settlers during revolutions in South American republics.

Midland District Conservatives, in the opera house at Belleville on Friday night presented Mr. Harry Corby, formerly member for West Hastings, with an address and a magnificent portrait of himself. Sir Mackenzie Bowell presided and Messrs. Borden and Whitney, Opposition leaders for the Dominion and Ontario respectively, made speeches.

Alice Must Stay Home.

Washington, March 8.—Miss Alice Roosevelt will not attend the coronation of King Edward VII. While the White House officials decline to discuss the matter it was stated by those in a position to know that the President had decided that she should not go.

New Delicacies.

We offer the following fresh arrivals, which are all extra choice: Large Florida pineapples, ripe bananas, new cauliflowers, crisp, white celery, new rhubarb, radish, lettuce, onions, parsley, etc. S. A. Oke, No. 276 George street. Telephone 18.

LOCAL MILITARY CIRCLES.

Spring Drill Will Soon be at Hand.

Some of Interesting and Unusual Gossip Among the Large Service Element.

The disappearance of snow from the streets of Peterboro and from the parade grounds of the 57th Regiment on Central Park, reminds the local Tommy Atkins to become impatient. Only a few more weeks and the gallant boys of the town will be doing the goose step in real earnest, and the clash of musketry and the tramp of armed men will resound throughout the vicinity of the drill shed [illegible] Tuesday evening as in days gone by. A noticeable feature in military circles during the past winter, and which is only an evidence of the interest that is being taken in the regiment and local military matters in general, is the enthusiasm displayed by the members of Sergt. Major Brittain's Class of Instruction, and the splendid attendance at the same during the past winter.

There are many reasons why young men might grow luke warm in their enthusiasm for soldiering during the winter and there are not a few discouraging features that the lead Tommy Atkins has to deal with. For instance the present drill shed is not a very inviting place for any young man to attend even once a week; it is cold and cheerless and offers very few inducements in the way of comfort or convenience. Again, to get young men to drill during the winter months, every Tuesday night, when there are very often other attractions on, is not the slightest [illegible] think, an easy matter. Notwithstanding these and other difficulties the attendance at Sergt.-Major Brittain's class has been most gratifying to that gentleman and to the officers of the regiment as well. The examinations will come off in the course of a few weeks, and the regiment will start the season's drill with a splendid list of qualified non-commissioned officers.

The military men of Peterborough will join in congratulating Capt. Richard Birdsall upon his promotion to the rank of Major in the Regiment, vice Major W. Fowler, deceased. Major Birdsall has been acting Adjutant of the 57th Regiment for a year or more and is a capable and popular officer. He was attached with the 57th Regiment during their trip to Toronto last fall.

The staff sergeants of the 3rd Dragoons will hold their annual meeting some evening during next week, when they will also have their annual dinner.

Lieut. Al. Shaw, of "B" (Millbrook) squadron, is at present taking a special course at the R.M.C., Kingston.

If the local military men intend inviting any outside regiments to Peterborough for May 24th, it is about time that something was being done in the matter. Nearly every city regiment has been invited somewhere already for the coming 24th of May.

Major Galloway of the 14th P.W.O.R. Regiment, who is well known to military men of this district, and the recipient of a long service medal, this week of which he is very proud. Every soldier who serves twenty years in the militia is entitled to a medal. Major Galloway received his [illegible] July, 1877, so that he has served about twenty-four years. The medal is in the shape of a silver band, surmounted with a gold crown. The letters V.R.I. are inside the band and are of gold. On the silver band are the words, "Colonial Auxiliary Force." The medal is attached to a dark green ribbon, which is secured by a silver bar. On the back of the medal is engraved, "Major James Galloway, 14th Regiment." Quite a number of Peterborough soldiers are entitled to the long service medal.

HOW ANDREE FELL.

Murder by Eskimos of Famous Arctic Explorer Is Confirmed.

Winnipeg, March 8.—A report sent out from the Hudson Bay post at Fort Churchill, about two and a half years ago that Andree, the Swedish aeronaut, and his assistants had been killed by Eskimos, is confirmed by advices received at the head office of the company here.

Alston Churchill, factor at Churchill, which is the company's most northerly point on the west coast of Hudson Bay, has written that after about two years search the men sent out by him returned with a report similar to the one first published. Traces of the daring balloonist and his assistants were followed for hundreds of miles, but it was impossible to locate the tribe which caused their deaths. The story of the searchers is that Arctic Eskimos saw "Oknaak" (one of their largest boats) floating in the air. When it settled to the ground three white men, strangely dressed, came out with guns, which they indiscreetly fired. Andree and his assistants were killed with huskee bows and everything of value taken.

The searchers found knives, tobacco and cartridges, supposed to have belonged to Andree, in possession of the most northern tribes, but could get no further information.

KRITZINGER REPRIEVED.

Sentence of Death Is Commuted to Banishment For Life.

Berlin, March 8.—Extra editions of last evening newspapers here publish a report that Commandant Kritzinger (who was captured by Gen. French in December last) was, after being tried by court-martial, condemned to death, but that his sentence was commuted to banishment for life.

Another Canadian Ill.

Ottawa, March 8.—Hon. Joseph Chamberlain has cabled Lord Minto to the effect that Clarence Ridout of the [illegible] Artillery is dangerously ill with enteric fever at Elandsfontein, South Africa. He is F. Ridout, [illegible] Canada, New Brunswick.

NERVOUS PROSTRATION.

Miss W. Childs-Blackburn, Secretary of the Rock Island Literary and Art Society,

Writes a Special Letter to Mrs. Pinkham Telling How She Was Cured.

The relation of woman's nerves and generative organs is very close; consequently nine tenths of the nervous prostration, nervous despondency and nervous irritability of women arise from some derangement of the organism which makes her a woman. Herein we prove conclusively that Lydia E. Pinkham's Vegetable Compound will quickly relieve all this trouble.

MISS W. CHILDS-BLACKBURN.

"DEAR MRS. PINKHAM:—I take pleasure in acknowledging the effects of Lydia E. Pinkham's Vegetable Compound. In my estimation there is no female remedy to equal it. Weakness not properly attended to, together with the close confinement at my desk brought on nervous prostration, so much so that for a year I doctored continually. I tried different remedies which only succeeded in poisoning my system, and my stomach refused food. A neighbor who had suffered with ovarian troubles and was perfectly cured, called my attention to your Vegetable Compound, and I made up my mind to give it a two months' fair trial. However, before one month had passed I was like a new woman, and after six weeks faithful use of the Compound I was in perfect health. It certainly is of great benefit to women, and I wish every poor suffering woman could have a chance to try it. Yours very truly, MISS W. CHILDS-BLACKBURN, 2922 Fifth Ave., Rock Island, Ill."

Nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound; it soothes, strengthens, heals and tones up the delicate female organism. It is a positive cure for all kinds of female complaints; that bearing down feeling, backache, displacement of the womb, inflammation of the ovaries and is invaluable during the change of life.

How Mrs. Pinkham helped Mrs. Borst.

"DEAR MRS. PINKHAM:—When I wrote to you some time ago for advice I really thought my days were numbered. I was so ill that I could not stand on my feet for fifteen minutes at a time. I had female troubles in many of their worst forms; inflammation and ulceration of the womb; leucorrhœa; bearing down pains; headache and backache; nervous prostration. My kidneys were out of order and blood in a bad condition. Everyone, and even my doctor thought I was going into consumption. I followed your advice faithfully for six months with the result that I became a well woman, and it cost me much less than a doctor's bill. I feel that Lydia E. Pinkham's Vegetable Compound saved my life."—MRS. SAMUEL BORST, 7 Cozy Ave., Oneonta, N. Y.

The above letter shows how unerring is the advice which Mrs. Pinkham gives to women who write her about their sickness; as the advice is free and always helpful it is not strange that she advises more than one hundred thousand sick women every year. Her address is Lynn, Mass.

$5000 REWARD.—We have deposited with the National City Bank of Lynn, $5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Daily Examiner.

London (England) office—168 Fleet street, E. C., Central Press Agency Limited, Special Agents.

SATURDAY, MARCH 8, 1902.

WELL-MANAGED INSTITUTIONS.

The Province of Ontario has reason to pride itself on the manner in which its public institutions are managed. A visit to any one of them could not fail to make an excellent impression on the mind of the visitor and they have all borne for many years a high reputation for efficiency and economical management. No better way of demonstrating the care which has been exercised in securing the best possible results for the moneys expended can be had than in presenting the following statement of the cost per pupil per annum.

Three Michigan asylums, 1898 to 1900	$178
Six New York asylums, 1898 to 1900	209
Two Indiana asylums, 1900	136
Eight Massachusetts asylums, 1898	160
One Illinois asylum, 1898	151
One Ohio asylum, 1899	141
One Maine asylum, 1899	256
One Pennsylvania asylum, 1900	208
Two Wisconsin asylums, 1900	224
One Washington City asylum, 1900	230
Twenty-nine English county and borough asylums, 1900 and 1901	158
Eight New Zealand asylums, 1901	134
One Montreal asylum, 1899 and 1900	205
One Nova Scotia asylum, 1899	171
One Manitoba asylum, 1898	175
One British Columbia asylum, 1899	247
Average of American asylums	188
Average of Canadian asylums, exclusive of Ontario	199
General average of all asylums, English, American, Australian and Canadian, exclusive of Ontario	176
Seven Ontario asylums, average from 1898 to 1901 inclusive	122

It will be seen that the comparison given above is immensely favourable to the public institutions of the province, and that the average cost per patient in Ontario is $54 per annum less than the general average of the cost of asylums elsewhere.

As a matter of interest we extend the comparison so as to apply to the cost of institutions for the care of the blind, and just here let us add that institutions for the blind for reasons which need not be here specified, are more expensive to maintain than institutions for the care of the unfortunates of any other class. The figures are as follows:

	Cost per patient per annum.
New York State	$288
New York City	291
Maryland	294
Illinois	284
Michigan	264
Boston	337
Pennsylvania	255
Ontario	252

The comparisons could be multiplied, but sufficient has been shown to explain to the thinking reader why it is that the opponents of the present Government have such a hard time of it when they attempt to criticise the manner in which our provincial funds are expended.

"77"

Dr. Humphreys' "77" prevents Pneumonia and breaks up hard Colds that hang on—

GRIP

18 DEAD, 31 INJURED

Broken Rail Causes an Awful Railway Wreck in Texas.

San Antonio, Texas, March 8.—A broken rail caused a frightful wreck on the Southern Pacific Railway, near Maxon Station, 25 miles west of Sanderson, at 3 o'clock yesterday morning. From the latest accounts received here 18 people were killed outright and 31 were more or less injured.

The train left San Antonio at noon Thursday, two and a half hours late, and at the time of the accident was running at a high rate of speed in order to make up time. The train was going at such a rate of speed that the tender and engine landed 75 feet from where they left the rails. The cars behind piled up against the engine, caught fire and all were consumed except the sleepers. All the dead in the coaches just behind the express and baggage cars were cremated. All the injured who were in condition to be moved were sent to El Paso, where they are receiving careful attention.

Killed by a Horse.

Brockville, March 8.—Alfred Whelan died yesterday at the General Hospital, where he had been lying for two weeks in an unconscious condition. About the middle of December he was kicked in the head by a horse, his skull being fractured. He was a resident of Bedford Mills, and was 36 years of age. He leaves a widow and four children.

PETER AT THE GATE.

Peter sat at the golden gate,
His book in front of him,
And many souls all in a state,
Came to the door and knocked there,
Applied for admission, then came and stood
Before St. Peter, so great and good,
In hopes the City of Peace to win
And asked St. Peter to let them in.

The woman was tall, and lank, and thin,
The man was short, and thick and stout,
His stomach was built so it rounded out,
His face was pleasant, and all the while
He wore a kindly and genial smile,
The chbirs in the distance the echoes woke,
And the man kept still while the woman spoke.

"O, thou who guardest the gate," said she,
"We two come hither beseeching thee
To let us enter the heavenly land,
And play our harps with the angel band;
Of me, St. Peter, there is no doubt
There's nothing from heaven to bar me out,
I've been to meeting three times a week,
And almost always I'd rise to speak.

I've told the sinners about the day,
When they'd repent of their evil way,
I've told my neighbours—I've told them all—
'Bout Adam and Eve and the Primal Fall,
I've showed them all what they'd have to do
If they'd pass in with the chosen few,
I've marked their path of duty clear—
Laid out the plan for their whole career.

I've talked and talked to 'em loud and long,
For my lungs are good and my voice is strong.
So, St. Peter, you will clearly see
The gate of heaven is open for me.
But my old man, I regret, to say,
Hasn't walked in exactly the narrow way.
He smokes and he swears, and grave faults he's got,
And I don't know whether he'll pass or not.

"He never would pray with an earnest vim,
Or go to revival, or join in a hymn.
So I had to leave him in sorrow there
While I, with the chosen, united in prayer.
He ate what the pantry chanced to afford,
While I, in my purity, sang to the Lord,
And if cucumbers were all he got
It's a chance if he merited them or not.

"But O, St. Peter, I love him so,
To the pleasures of heaven please let him go!
I've done enough—a saint I've been,
Won't that atone? Can't you let him in?
By my grim gospel I know 'tis so
That the unrepentant must fry below,
But isn't there some way you can see
That he may enter who's dear to me?

"It's a narrow gospel by which I pray,
But the chosen expect to find some way
Of coaxing, or fooling, or bribing you
So that their relations can amble through;
And say, St. Peter, it seems to me,
This gate isn't kept as it ought to be.
You ought to sit right by the opening there
And never sit down in that easy chair.

"And say, St. Peter, my sight is dimmed,
But I don't like the way your whiskers are trimmed.
They're cut too wide, and outward toss;
They'd look better narrow, cut straight across.
Well, we must be going, our crown to win,
So open, St. Peter, and we'll pass in."

St. Peter sat quiet and stroked his staff,
But, spite of his office, he had to laugh;
Then said with a fiery gleam in his eye,
"Who's tending this gateway — you or I?"
And then he arose, in his stature tall,
And pressed a button upon the wall,
And said to the imp who answered the bell,
"Escort this lady down to hell."

The man stood still as a piece of stone—
Stood sadly, gloomily there alone.
A life-long, settled idea he had
That his wife was good and he was bad.
He thought if the woman went down below,
That he would certainly have to go—
That if she went to the regions dim
There wasn't a ghost of a show for him.

Slowly he turned, by habit bent,
To follow wherever the woman went.
St. Peter, standing on duty there,
Observed that the top of his head was bare.
He called the gentleman back and said,
"Friend, how long have you been wed?"
"Thirty years," (with a weary sigh)
And then he thoughtfully added
"Why?"

St. Peter was silent. With head bent down
He raised his hand and scratched his crown,
Then, seeming a different thought to take,
Slowly, half to himself, he spake,
"Thirty years with that woman there?
No wonder the man hasn't any hair!
Swearing is wicked. Smoke's not good.
He smoked and swore—I should think he would!

Thirty years with that tongue so sharp?
Ho Angel Gabriel! Give him a harp!
A jeweled harp with a golden string!
Good air, pass in where the angels sing!
Gabriel, give him a seat alone—
One with a cushion — up near the throne!
Call up some angels to play their best,
Let him enjoy the music and rest!
See that on finest ambrosia he feeds,
He's had about all the hell he needs.
It isn't just hardly the thing to do
To roast him on earth, and the future too."

They gave him a harp with golden strings,
A glittering robe and a pair of wings
And he said as he entered the Realm of Day,
"Well, this beats cucumbers anyway!"
And so the Scripture had come to pass
That "The last shall be first, and the first shall be last."

—Joseph Bert Smiley.

From the Child of a Year to the Man or Woman of Fourscore.

Malt Breakfast Food provides in a way that no other can do for the health and vigour of young and old —from the child of a year to the man or woman of four score years. It is the food triumph of the age for the bestowal of physical strength and general good health.

Malt Breakfast Food is easily recognized by its delicious taste, its appetizing and satisfying qualities, and its energy producing powers. Ordinary grain foods have many poor points. Malt Breakfast Food has not a single bad point that can be named by food critics. It is free from all starchy substances, it is partially cooked and pre-digested, easy to digest, most nutritious and healthy. Malt Breakfast Food is the only grain food that furnishes the benefits and virtues of pure health-giving Malt that enriches the blood and builds up the system. Get a package from your grocer; it will please you.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

NO PREFERENCE TO COLONIES.

Great Britain Adheres to the International Sugar Convention.

London, March 8.—According to the text of the International Sugar Convention, issued last night by the Foreign Office, Great Britain agrees during the continuance of the convention to refrain from paying bounties directly or indirectly on sugar grown in crown colonies and not to give preferential treatment to colonial sugar against sugar imported from foreign countries. The International Sugar Convention was signed at Brussels Thursday.

Jamaica Legislature Asks Home Government to Avert Trade Collapse.

Kingston, Jamaica, March 8.—The Legislature yesterday passed a resolution requesting the British Government to take steps to avert a further collapse of the Jamaica sugar industry, pending the operation of the bounties expenditure.

Sir Alfred Jones, president of the Liverpool Chamber of Commerce, who has been visiting Jamaica, before sailing for home announced that a plan is being considered to make Jamaica a big coaling station.

A CAUSE OF HEADACHE.

One Very Common Cause, Generally Over-Looked.

Headache is a symptom, an indication of derangement or disease in some organ and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses, all produce headaches, and if we could always locate the organ which is at fault, the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache, called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the head-

ache is located in the back of head and neck it is often caused from catarrh of the stomach or liver.

At any rate catarrh is the most common cause of such headaches, and the cause of the catarrh causes a prompt disappearance of the headaches.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics, like eucalyptol, guaiacol and blood root, which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and eulogizes Stuart's Catarrh Tablets as a cure for them. She says, "I suffered daily from severe frontal headaches, and pain in the back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from Catarrh more or less for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case, because the headaches were always worse whenever I had a cold or a fresh attack of catarrh.

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure, and after using a few fifty-cent boxes which I procured from my druggists I was surprised and delighted to find that both the catarrh and headaches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at 50 cents per package under the guarantee of the proprietors, that they contain absolutely no cocaine (found in so many catarrh cures), no opium, (so common in cheap cough cures), nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.

RUSSIAN REVOLUTION BEGUN.

Movement Against the Czar Spreading and Is Becoming Serious.

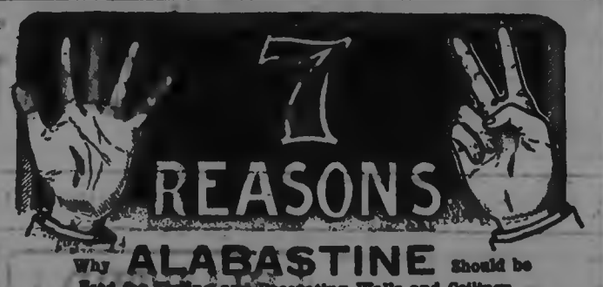
London, March 8.—A correspondent of The Daily News, wiring from Copenhagen, says authentic reports have reached here from St. Petersburg, saying that the revolutionary movement is spreading in all directions and assuming serious proportions.

The unrest has reached many parts of Siberia. The Governor of Tomsk has issued an order prohibiting meetings of citizens in the towns and villages throughout the province.

Troubles are reported at many places in Siberia, including Nevonikolaievsk, Bisk, Marinsk and Barnaoul.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state, that a single trial is sure to result in permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.



7 REASONS

Why ALABASTINE Should be Used for Tinting and Decorating Walls and Ceilings.

1. IT IS SANITARY. Physicians say "the walls appear to be healthy once brighter." Alabastine being a positive coating, prevents the free growth of germs.
2. IT IS PERMANENT, and therefore cost less, entirely different from kalsomine preparations.
3. EASILY APPLIED. Anyone can brush it on—no one can rub it off.
4. CONVENIENT, as it is ready for use by the addition of cold water.
5. IT IS ECONOMICAL, costing for material less than one cent per square yard for plain tinting.
6. LABOR SAVING, as it admits of re-coating from time to time as is necessary to renew, doing away with the nasty mess of washing off kalsomines and scraping off wall paper.
7. HANDY TO GET, as it is for sale by hardware and paint dealers everywhere. Never sold in bulk.

Painters, write for our free offer "Two Good Things" and book of instructions how to use ALABASTINE. Address

THE ALABASTINE CO. Limited - Paris, Ont.

A GREAT, GRAND GENERAL CLEAN-UP

At this season of the year—just before the Spring Goods arrive—a clearance must be made. This week we concentrate all small lots and discontinued patterns of our Wall Paper Department. Also many lines in other departments, which we mark at prices simply irresistible. A few examples follow:—

CHILDREN'S GOODS in endless variety of kinds and prices, commencing as low as 20c

Watch our Windows for Special Styles and Prices.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are cassamers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

Satisfactory Catering

Afternoon and Evening Entertainments successfully Catered for. New Neapolitan Fruit Ice Creams with Water Ices. All other delicacies suitable for special occasions.

LONG BROS.

Special attention given to Diseases of Women and Surgery.

OFFICE AND RESIDENCE—Corner of Brock and Water streets, Peterborough. Telephone 233

Will You Spend a Penny

For a Sick Friend?

Here is my proposition. If I have written the six books shown below, I want no money. I simply desire the privilege of sending the book needed to some one who is not well; I will do more; to prove my faith in my newly found principles of curing the sick, I'll send you an order on your nearest druggist for six bottles of Dr. Shoop's Restorative. I will let you or your friend take it for a month; and if it succeeds he will charge you $5.50 for it. If it fails, your druggist will send the bill to me. I will tell him to trust to your honesty, leaving the decision to you. You will know then what my Restorative can do. My Restorative will gain your good will and endorsement under such a trial.

No physician ever has nor ever will, I believe, make an offer like this—my remedy is the only prescription yet found to stand a test like this.

And I do exactly as here stated. No catch. No deceit. You deal with your own druggist, who may be your neighbor, and a stranger to me. The plan protects you absolutely.

You will see this offer published in every high-class magazine and widely circulated paper in America, and here lies the proof of my success. My records show that 39 out of each 40 who accepted the six bottles, paid for them. They paid because they were cured—there are 39 chances in 40 that I can cure you. Is not this a remarkable offer? Is not the record of cures even more than remarkable? I fail sometimes, but not often. A few of these diseases arise from causes like cancer, for which, as yet, no man knows a cure.

And how do I accomplish this? I will tell you. I have found a way to strengthen the inside nerves—the only way yet known. These nerves alone opperate each vital organ. The Heart, Stomach, Kidneys, etc., each have their nerve branch. The power that makes each organ do its duty is the inside nerve power—nothing else. I know how to restore that power. No matter which organ is weak, this *nerve system operates* them all. Nerve strength or weakness extends to all.

My Restorative goes directly to this cause—these nerves. That is the secret of my success. Don't let prejudice keep you from learning what my book will tell you. They are practical books written for intelligent people. I am not appealing to ignorance, and I wish to discourage prejudice. No matter what your doubts, remember I have spent a lifetime on my method, and it is unknown to you. I cannot call personally upon seventy-six million of people. Then I must tell you of my offer through the papers you read.

The telephone, the telegraph, the wonders of electricity have been solved by man. May I not have found a way to do as much for human ills?

Thousands who are sick will read this—who are discouraged because of others' failures to cure them. That is no reason why they should not get my book. You cannot know too much about ways to get well, when such ways can be tried at my risk. This offer is too fair to need argument. Won't you spend a penny for a sick friend? Write a postal to-day for the book he needs. Your reward will come in knowing you opened the way to a cure.

Simply state which book you want, and address to Dr. Shoop, Box 47, Racine, Wis.

Book No. 1. on Dyspepsia
Book No. 2. on the Heart
Book No. 3. on the Kidneys
Book No. 4. for Women
Book No. 5. for Men (Sealed)
Book No. 6. on Rheumatism

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

MARKET REPORTS.

BRITISH CATTLE MARKET.

London, March 7.—Prices lower; live cattle, 12c to 12½c, dressed weight; refrigerator beef, 10c to 10¼c per lb.

Seal Fisheries Open Monday.

St. John's, Nfld., March 8.—The annual seal fishery will open next Monday. Along the Labrador and North Atlantic Coast the fisher folk are already killing hundreds of seals on the ice floes. The sealing fleet will sail for the ice fields next Monday.

Keep Out of Politics.

Montreal, March 8.—Hon Mr. Fitzpatrick, Minister of Justice, has addressed a letter to the warden of the St. Vincent de Paul Penitentiary warning the employes of that institution against taking any part in election campaigns, and threatening with immediate dismissal any one disobeying that order. The warden read this letter to all the members of his staff.

Postpone the Strike.

Calais, Department of Gard, France, March 8.—The National Congress of French Miners yesterday, by a vote of 105 to 98, adopted a resolution to postpone a general strike.

Bodies Found Lashed to Schooner.

Vancouver, March 8.—A small schooner-rigged vessel was towed into Vancouver harbor last night with the bodies of two men lashed to it. The vessel had been overcursed by the storm Monday night, and was picked up early yesterday in the gulf. The names of the dead men are not known.

THE "DROP-OFF" HEART

Doctors didn't give Mrs. James long to live—but Dr. Agnew's Cure for the Heart foiled them and cured her.

For fifteen years Mrs. John A. James, of Wiarton, Ont., was a great sufferer from Heart Disease. For days at a time she was confined to bed, and it seemed as though every breath might be her last. Her physicians said that she might "drop off" any minute. With woman's tenacity in suffering, and believing that "while there's life there's hope," she started using Dr. Agnew's Cure for the Heart. Three bottles cured her.

This remedy relieves in thirty minutes. 75

OPEN MOOSE SEASON

Important Game Law Amendments in the Legislature.

THE TEMISKAMING RAILWAY

Fees Fixed For the Commissioners at $1,000 Each—Measure For the Destruction of the Barberry Shrub—Mr. Carscallen's Bill to Amend the Factories' Act Lost on Division—Second Readings.

Toronto, March 7.—In the Legislative Assembly this afternoon bills were introduced by Hon. R. Harcourt to amend the High Schools Act and by Hon. John Dryden to protect the owners of stallions.

The House went into committee on the resolutions respecting Temiskaming Railway construction. Hon. Mr. Latchford explained that the honorarium of the commissioners had been fixed at $1,000 each. They would have to devote a considerable portion of their time to the work, but they would be able to get men of position who would be willing to do this. The resolutions were adopted. Resolutions fixing the fee allowances and disbursements in connection with the referendum on the Liquor Act; respecting the income of sheriffs and the allowances to Supreme Court judges in accordance with the provisions of the bills on these respective subjects were also adopted in committee.

The bill to amend the Manhood Suffrage Registration Act was taken up in committee. A discussion arose over the modification of the oath to be put to voters, which was made considerably briefer and less cumbrous. Mr. Wardell urged the retention of the old form on the ground that it was necessary as a safeguard against fraud. The Attorney-General suggested that the clauses referring to the oath should be allowed to stand. This was done and the committee reported progress.

Barberry Shrub.

Mr. Dryden moved the second reading of the bill to amend the act respecting the barberry shrub. He spoke of the injurious effects of the shrub in causing rust among the wheat and urged the necessity of stringent legislation for its suppression. It had been known to affect the wheat many miles away. Mr. Jessop said that the shrub was extensively grown in Lincoln County, and its injurious effects had not been apparent. Mr. Dryden said the evidence was convincing to the effect that the shrub was the cause of black rust in wheat. Mr. Duff corroborated this statement, stating that in his constituency cases had occurred showing where rust had followed the introduction of the barberry. He was glad that stringent measures were being adopted with regard to this shrub. Mr. Barr thought that if the Agricultural Committee had done nothing more than promote this bill they had done a good thing for the province. The bill was read a second time.

Game Protection.

Hon. Mr. Latchford moved the second reading of the bill to amend the Game Protection Act. He explained that there would be an open season for a full month, from Oct. 15th to Nov. 15th, for moose and caribou. The length of the season would attract large numbers of sportsmen. It was proposed to allow the killing of quail during the month of November. It was provided that cottontail rabbits could be shot at any time when doing any actual damage. The bill was read a second time.

Second Readings.

The following bills received a second reading:

Respecting the Algoma Steel Company, Limited, Mr. Farwell.

To incorporate the Northern Power Company, Mr. Conmee.

To confirm certain bylaws of the Township of Cornwall, Mr. McLaughlin.

To incorporate the Huron and Bruce Railway Company, Mr. Farwell.

To incorporate the Canada Central Railway Company, Mr. Conmee.

To change the name of the Town of Tilsonburg to the Town of Tillsonburg, Mr. McKay.

Respecting the Algoma Tube Works, Limited, Mr. Farwell.

Respecting the estate of William John Moore, deceased, Mr. Truax.

Respecting the Township of Etobicoke, Mr. Hill.

To amend the Workingmen's Compensation Act, Mr. Conmee.

Hon. E. J. Davis in reply to Mr. Powell stated that the amount of the collections of the Crown Timber agent at Ottawa last year was $211,312. Replying to Mr. Morrison he stated that the exports of pulpwood during 1901 amounted to 10,000 cords shipped by the North Shore Timber Co.

Hon. Mr. Stratton, replying to Mr. Carscallen, said that there was at present 2 contracts between the Government and others for the manufacture of goods at the Central Prison, one in relation to brooms, dated June 1, 1900, and the other dated October 28, 1900, for the manufacture of cordage. The cost per diem of the care and maintenance of prisoners during 1901, was 46.47 cents.

Mr. Carnegie obtained an order for a return of correspondence concerning the using of any patent ballot box in the provincial elections.

Factory Inspection.

Mr. Carscallen moved the second reading of his bill to amend the Factories Act. He urged that all reports of inspectors should be in writing, and stated that there had been great complaints of the unsatisfactory working and non-enforcement of the act. Hon. John Dryden said that in many cases this would needlessly take up the time of inspectors. Where a manufacturer was willing to comply with the law there was no need why the inspector should make a written report. To do the work suggested would require a large addition to the staff of inspectors, and he thought that many of these complaints as to the unsatisfactory working of the act were prompted by men who wanted a job. Hon. G. W. Ross said that so long as the department was kept informed of what the inspector was doing, and were satisfied that a thorough inspection was being kept up he thought every purpose was being served. Mr. Crawford supported the bill as a business way of dealing with the matter. They should visit all factories twice, or at least once a year. Hon. J. M. Gibson said that such a regulation would mean an increase in the number of inspectors and the outlay for traveling expenses. The bill was lost on division.

ASSEMBLY NOTES.

Yesterday afternoon the survey of the route of the projected Temiskaming Railway was laid on the table. The line, according to the information presented to the House, will start at North Bay, thence northward through the Townships of Widdifield, Mulock, Merrick, Stewart, Osborne and Hammell. At a point near Red Water Lake the line crosses the proposed Nipissing and James Bay Railway, and it then touches the northeastern arm of Lake Tamagamingue. Then it runs through the Tamagaminque forest reserve, and Bucke Township to the north of it, to Thornloe, Dymond Township, which is on Wabis' Bay, an inlet of Lake Temiskaming.

Mr. T. L. Pardo, M.P.P. for West Kent, and Mrs. Pardo are both very ill at their home at Cedar Springs. They were stricken with malignant pneumonia as the result of nursing Mr. and Mrs. Goulette, two of their neighbors, who had the disease, which is said to be very infectious, and which has since resulted fatally in their case. A telegram received in the city last night stated that both Mr and Mrs. Pardo were very ill, and grave fears are entertained for their recovery. It is said that Mr. and Mrs. Pardo frequently sacrifice themselves in their kindliness toward the sick, and all the more sympathy is felt for them on this account.

Would Launch Third Party.

Rev. Dr. Hunter, Rev. J. E. Starr, Grand Councillor Austin of the Royal Templars, W. W. Buchanan, W. Munns, George Wrigley and others decided yesterday, in view of Mr. Whitney's announcement of opposition to prohibition, urged political independent action at a meeting of the Ontario Prohibition Campaign Committee on Friday, and it was decided to meet on Monday to determine whether a prohibition convention with such an end in view would be called.

Ruby Lips and a Clear Skin.

are guaranteed to any woman who takes Merrill's System Tonic. This marvellous medicine is especially adapted for women, because it supplies iron for the blood, cures constipation, strengthens the nerves and by its blood purifying and musicle-toning properties, quickly cures all female ills. 50 pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

John Haggart, Auctioneer.

Like Sunshine and Rain.

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. Don't neglect your lungs. Spend 25c for a bottle of Four T's at Ormond & Walsh's drug store and avoid congestion.

TOO GREAT EXPENSE

Not the Reason.

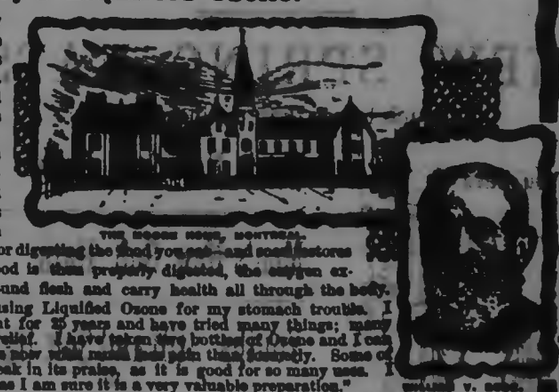
It is not because Pyramid Pile Cure is so expensive that many people decline to give it a trial, but because they find it too great a tax on their credulity to believe that the published letters bearing testimony to the merit of this remedy are genuine and bona fide; especially to those who have realized the suffering incident to piles is it incredible that anyone who has been afflicted twenty-five and thirty years with the worst forms of protruding and bleeding piles should be cured by the application of a simple remedy, when their physician has assured them that the only relief is in a surgical operation. This is rightfully viewed with dread by all those afflicted, as it means at the least a great shock to the nervous system, with more than a possibility of utter collapse and death; in the majority of cases, too, there is a return of the complaint, owing to the fact that the cause is not removed.

The proprietors of Pyramid Pile Cure agree to forfeit one thousand dollars to anyone who will show a single published testimonial to be not genuine and unsolicited; this latter feature is most gratifying, inasmuch as these letters are written solely out of gratitude, and with the hope that those who are afflicted as the writers have been may learn that relief is at hand, at a comparatively trifling expense. Pyramid Pile Cure is for sale by druggists at fifty cents a package, or will be mailed by the makers to any address upon receipt of price.

Mr. Wm. Liebenswalter, head of the largest printing house in Canton, Ohio, says: "It is with the utmost pleasure and satisfaction that I can say I believe I am cured of protruding and bleeding piles, after suffering more than twenty-five years. I have been in bed for two weeks at a time. I have not suffered in the least for over a year, and I used only three fifty-cent boxes of Pyramid Pile Cure. I advise every person suffering with this distressing and painful complaint to give this remedy a trial. I have every confidence in it." Write the Pyramid Drug Co., Marshall, Mich., for their book on the causes and cure of piles.

From The Moore Home.

Wm. V. Rose, of Montreal, Cured of Stomach Trouble by Powley's Liquified Ozone.



THE MOORE HOME, MONTREAL.

Every tissue, every fibre of your body must receive its nourishment in the form of oxygen from the blood, else it will go on strike and neglect its work. If the stomach is not well supplied with the gastric juices, resolvent acids and peptones, your food won't digest—you might as well eat sawdust. Powley's Liquified Ozone increases the oxygen-carrying power of the blood. The blood in turn carries its precious nourishment to the organs of digestion, helps form the gastric juices—the other essential for digesting the food you eat—and soon restores the stomach to perfect health. The food is then properly digested, the oxygen extracted and fed the blood to form sound flesh and carry health all through the body.

"I am pleased to state I have been using Liquified Ozone for my stomach trouble. I have been troubled with the complaint for 25 years and have tried many things; many giving me slight but not permanent relief. I have taken five bottles of Ozone and I can say it has cured me. I can get up to-day now with much less pain than formerly. Some of my friends are using it and they all speak in its praise, as it is good for so many ums. I shall always speak a good word for it as I am sure it is a very valuable preparation."

(Signed) WILLIAM V. ROSE,
Maisonneuve, Montreal, P. Q., Box 21; The Moore Home for the Aged, Notre Dame St.

You will assist the powers of curing very greatly if you pay attention to your eating and use only food that is easily digested. We will supply you with a diet list, giving a list of such foods together with those you should avoid, free of charge. Write for it. Powley's Liquified Ozone has the same action as oxygen in condensed form—blood food. Each testimonial we publish is absolutely genuine. We want you to write any one whose case interests you—they are all in Canada—and obtain fuller details.

50c. and $1.00 at all Druggists. THE OZONE CO. of TORONTO, Limited, TORONTO and CHICAGO.

FOUGHT TO A STAND STILL.

B.C. Premier Dunsmuir Charged With a Serious Offence.

Victoria, B. C., March 8.—The Opposition fought the Government last night, the Premier being accused of selling his Comox & Cape Scott charter to Mackenzie & Mann. The Government adjourned till Tuesday, refusing to bring down the telegrams and other documents connected with the negotiations with Mr. Greenshields.

NO VERIFICATION NEEDED AT HOME.

Everybody in Oshawa is Familiar With This Case.

Joe Brown's Wonderful Escape From Death is now an old and oft Told Story to the People of his own Town.

Oshawa, Ont., March 5, (Special) — While interest in Joe Brown's case has been revived by the recent publication of the facts in so many papers Oshawa people are well acquainted with the whole circumstance. Mr. Brown's father-in-law, Mr. John Allin, whose place of business is right in the centre of the town, has, however, had to answer many questions recently, but as he was very close to Mr. Brown during the whole of his painful experiences in '97 and '98, he finds this an easy matter.

Mr. Allin is quite as enthusiastic as Mr. Brown himself, and never tires telling the story of how Dodd's Kidney Pills conquered disease, and saved Mr. Brown's life. He says:

"We didn't think he would ever live through it, let alone get strong and able to work, but the pills made him all right and well in a short time, and the best of it all is that the cure has stood the test of time. It must be three and a half years since and, as you know, he's strong and hearty to-day and has been ever since Dodd's Kidney Pills sent him back to the shop."

There are many others in town who have recently been reminded of this wonderful cure of a seemingly hopeless case, who find no trouble in calling up the facts, and none are slow to give all the credit to Dodd's Kidney Pills.

Morning services at 10.30 o'clock; evening services at 7 o'clock. They will also hold special services every night during the week beginning at 8 o'clock. Free seats; all are welcome.

A New Lumber Mill.

The Lakefield News says: "Messrs. J. F. Lillicrap and E. R. Tate have purchased from Mr. J. P. Strickland five acres of land contiguous to the river and Grand Trunk Railway on the north side of the village for the purpose of erecting a mill for custom and export lumber. The present idea is to erect a mill with a capacity of 20,000 feet per diem. Should this project be entered into it will undoubtedly be a good thing for the village. Mr. Lillicrap has had, as everyone knows, a large experience in lumbering and he and Mr. Tate are gentlemen who are both highly respected in the community.

This Morning's Glove Sale.

Before eight o'clock this morning the sidewalk in front of R. Fair & Co's store was crowded with ladies waiting for the doors to open. The announcement by the firm that a special sale of French Kid gloves would start at eight o'clock was the cause of the eager crowd of unusually early lady shoppers. Sharp on time the doors of the Golden Lion were thrown wide open and the rush was almost a repetition of the crush that was made to see the hockey match last night. It was an evidence that the ladies appreciate these periodical glove sales of the Golden Lion, and have confidence in the unusual values offered.

PERSONALS.

Mr. William Steers, Lindsay, is in town.

Mr. B. McAlpine, of Lindsay, was in town to-day.

Rev. Father Kiedty was in from Douro this afternoon.

Miss Gertrude Clarry, Millbrook, is in town for a day or two.

Mrs. E. C. Camplin has been spending the last day or so in Toronto.

Mr. J. W. Smith, bursar of the Cobourg asylum, was in town to-day.

Mrs. J. R. Stratton and Miss Alberta Gooding have returned from Toronto.

Mr. F. H. Pope of the Ontario Bank inspecting staff, is in town on business.

Mr. L. F. Clarry, barrister, Hastings, was in town to-day on business.

Mr. Jack Nattrass, of Millbrook, was in town last night for the hockey match.

Mrs. A. B. Spellman, of Hastings, is at present the guest of her sister, Mrs. W. Hill, Union street.

Mrs. (Rev. Dr.) Burns, of London, Eng., and Mrs. Troope, of Halifax, were in town yesterday the guests of Mr. and Mrs. R. Gliddes.

Mr. Charles A. Kelly, Toronto Junction, father of Mrs. M. L. Henry, came down to be at the hockey match last night, and returned again this morning. Mr. Kelly will also go to Galt to see the finish.

NEWS NUGGETS.

—The Central Charity Board will meet on Monday evening.

—The Separate School Board will meet on Tuesday evening.

—There will be temperance sermons in the various churches of the town to-morrow.

—There is a lady's rubber which was lost just outside the rink last night awaiting an owner at the police station.

—The exceptionally bad condition of the roads was no doubt accountable for the rather dull market this morning. There has been very little doing all week.

—The regular monthly meeting of the Board of Directors of the Young Women's Christian Association, will be held on Monday afternoon, March 10th at 3.30 o'clock. A full attendance of members is requested.

—The Trusts and Guarantee Company, Limited, 14 King street west, Toronto, has been appointed administrator of the estate of John Hewitt, late of the township of Puslinch, Wellington county, who died in September 1890, leaving a widow and six children. The estate amounts to about four thousand dollars ($4,000), and consists principally of farm property.

SPORTING PASTIMES.

HOCKEY.

The young ladies of the town are hoping very earnestly for cold weather. Their game with Cobourg takes place on Monday night and should the weather prove favourable there should be a large attendance. The bills are out announcing the game and everything is in readiness. The Cobourg girls, it is said, will be handsomely entertained while here.

Arrangements have been made whereby the returns of the Galt-Peterborough match will be announced at the rink here during the Cobourg-Peterborough ladies' match on Monday night.

The Fenelon Falls team spent yesterday in town on their way from Norwood. They witnessed the Galt-Peterborough game last night. When in town yesterday the Fenelon team were well looked after by Mr. A. H. Stratton, the Hon. President of the Trent Valley League.

CURLIANA.

Two rinks of curlers from Galt accompanied the hockey boys to town but the ice was so soft that only one rink was available. Skip Dickson Davidson picked up a few of the boys and polished off the visitors by 15 to 6. The rinks were composed as follows:

Galt.	Peterborough.
A. Baker,	R. Neil,
G. V. Moore,	J. S. Knapman,
T. T. Aitkin,	C. N. Brown,
Geo. Goldie, sk...6	D. Davidson, sk...15

Flowers and Fresh.

When you order your flowers from Cobb's you are assured of good quality. Carnations, violets, lilies, begonias, ferns, palms, etc., fragrant, hardy and fresh, at dwarfed prices. Aylmer street Greenhouses. Phone No. 132.

ANOTHER WIN FOR PETERBOROUGH.

The Galt Team Beaten by a Close Margin Last Night.

AN ADVANTAGE OF 1 GOAL.

This was the First of Home and Home Games for the Intermediate O. H. A. Championship.

The biggest crowd which ever assembled in the Charlotte street rink gathered there last evening to witness the first of two games between Galt and the home team to decide the championship of the Intermediate Series of the Ontario Hockey Association. There were over eighteen hundred present, and this is a record breaker for Peterborough. Those present were mightily pleased with the game which was played by the home team, for although the match was only won by one point, still the dash and gaminess of the home team was such that but for hard luck they would certainly have outscored their opponents by a far greater degree. Though the return game will be played in Galt, the supporters of the Peterboroughs will see their pets go up to Western Ontario full of confidence that they can hold their lead.

Unfortunately the ice was in very bad shape for the light Peterborough team, as the mild weather resulted in a great deal of water accumulating on the rink and the handicap was a big one on the home seven. Anything resembling fast combination work was out of the question, and as this is just where the strength of the Peterboroughs centres, the boys were under a great disadvantage and scores of pretty plays were marred and spoiled almost in their inception through the sluggish manner in which the puck moved through the slush.

The two teams appeared to be very evenly matched, but the Peterboroughs did far more shooting on the net. It was a night off, however, for the boys in this respect, and the famous "Dutchy" Morrison did not have a great many hard ones to handle, although those that came within a foot or so of the goal posts on either side far outnumbered those that the Galt forwards lifted in around Wasson's fort. Of the three which got past Ernie he should really be held responsible for only one, as the other two glanced in from the sticks of Armstrong and Glover. The latter player put up the best game which he has ever done, by reason probably of being pressed harder. His lifts were exceptionally accurate. Harold Armstrong was watched very closely and got very few chances to make many of his famous rushes. Had the ice been keener he would doubtless have been too quick for the Galt boys to handle but on the heavy ice he stood no show to handle the puck with his accustomed ease and speed. By the time he got under way there would always be a couple of men right on top of him, but he was a dangerous factor, in the game at all times. The local forwards appeared to stand the hard going better than the visitors and were sharper in following up. The fact of their being a bit off in shooting on goal may be attributed to the slush and if there is keen ice at Galt, those who witness the game will have to concede that the Peterborough forwards are the hardest shooting bunch in the whole intermediate series. Morgan scored all of the goals taking the puck from passes in from the side or else being upon Morrison too quick for the latter to be able to clear his goal.

The principal difference in the style of play adopted by the two teams lay in the fact that Galt played largely on the defensive, using Percy Dietrich, their rover, as a second cover point. He broke away at times for a rush and showed that he was a very clever puck handler, but he was generally to be found playing between the cover point and the other forwards. Twaits at cover played well back on the goal, whilst on the other hand Harold Armstrong hovered continually just behind the Peterborough forward line. No cleaner game was ever played on the local ice, only one man, Lane, being ruled off during the entire game.

The match started at twenty minutes to nine o'clock with that incomparable referee, Mr. Schooley, officiating. He found the teams composed as follows:

Galt—Goal, Morrison; point, R. Lane; cover point, W. Twaits; forwards, C. Dietrich, P. Dietrich, H. Deeton and M. Hay; umpire, T. T. Aitkins; timekeeper, J. F. Macgregor.

Peterborough—Goal, E. Wasson; point, R. Glover; cover point, H. Armstrong; forwards, R. Armstrong; H. Morgan, F. Whitcroft and C. Graham; umpire, H. Rose, Toronto; timekeeper, Alex Gibson.

The game started off with a rush into Peterborough territory and Glover was called on to relieve twice. H. Armstrong and Morgan then got away with the puck and the latter got a chance to shoot twice on the Galt goal, but both shots were blocked. Then Graham and Roy Armstrong tried to get through the visitors' defence but were foiled. Harold next tried an individual rush, but was stopped by Lane. Back came the puck to Glover who exchanged a number of long lifts with Dietrich. Wasson was pressed but came out of his goal with the puck and tried a rush on his own account. He lost the puck but Harold Armstrong got it and kept the Galt defence busy for a minute or two. A counter rush was started by Galt and Wasson was called on to make a difficult stop. Whitcroft then broke away with the puck, and Morgan scored first blood on the pass. Time 10 minutes.

The high lifting, which was one of the features of the game resulted in Lane smashing a globe on one of the arc lights, which caused considerable delay while repairs were being made. On resuming play Armstrong tried some brilliant rushing and missed the goal by a narrow margin. Morgan scored again, this time on a pass from Chris Graham. Time, 5 minutes.

The third game was inaugurated by a most determined effort on the part of the Peterboroughs to score another goal, but it seemed impossible for the boys to find the nets. Then there was a counter rush, on the Peterborough flags, which Harold Armstrong all but foiled. The puck, however, slipped off the end of his stick, and Deeton was on it like a flash and got it past Wasson. Score 2—1. Time, 3 minutes.

A very peculiar circumstances occurred just at the outset of the fourth game, when Glover lifted the puck into one of the arc globes, where it remained. This game was won by Galt, as the result of a very pretty three man combination. Score, 2—1. Time, 1 minute.

There was no more tallying in the first half, although the Peterboroughs seemed to have all the best of the play and be pressing the Galt men hard.

The second half began with an incursion in the direction of the local goal but the whole Peterborough forward line came out together with the puck and Morgan scored on a pass from Roy Armstrong. Time 1 minute. This placed Peterborough in the lead again and the crowd was jubilant but unfortunately a shot from Hay glanced off Glover's stick and rolled into the net without having the speed to even carry it to the back end. The teams were once more tied and the struggle for supremacy was a grand one to watch. The play was faster than at any time during the evening and although the Peterboroughs appeared to have the best of the play, it seemed impossible for them to score. Shots were sent in on the goal by the dozen but none could find the right place. The pace was too hot to last, but as soon as the Peterboroughs slackened the visitors endeavoured to make things lively at the other end of the rink and Wasson had to make two wonderful stops before his goal was relieved. There was an exchange of long lifts between the defence men and the Peterborough forwards followed up like whirlwinds but the distance to be covered was too great for them to be able to check before a return was made. Just two minutes before time was up Chris Graham made a nice run down the side of the rink and sent in one to Morrison's pads. He blocked successfully but Harry Morgan was on top of him like a flash and shoved the puck in before the goalkeeper could make an effort to get rid of it. This put the Peterboroughs in the lead by one goal and the boys made desperate efforts to secure another before the bell rang, keeping the puck on the Galt flags continually, but time was called all too soon and the players were called off the ice leaving the score 4 to 3 in favour of the home team.

Both teams are satisfied with the result of the game. The Peterboroughs are confident of being able to retain their lead in Galt if the ice is keen and the Galt boys think that they can reverse the score. Quite a few will go up to witness the return game.

Mr. W. A. Buchanan was down from Toronto representing the O.H.A. and took charge of the gate receipts of which, after the expenses are paid, one third each will go to the Association, to Galt and Peterborough.

The visiting team was dined at McCallum's after the game.

The team will go to Galt per G.T.R. A return rate of $5.40 has been obtained.

FOR MUSICAL PEOPLE—MARCH 21ST.

Mr. J. Crane begs to announce that he has arranged for a concert here by Mr. Hirwen Jones, tenor of England. This artist has taken the tenor solo work in all the great festivals in England for the past two years, and is admitted the peer of tenors that have visited us for some time. Mr. Jones will be assisted by Miss Hilda Richardson, 'cellist, Mr. Owen Smiley, reader, and Miss Constance Veitch, pianist. These four artists will give a programme of great merit.

As it will be impossible for Mr. Crane to call on all the music lovers, he desires to state that the subscription list will be at Ormond & Walsh's on Monday next. Subscribers will be accorded first choice of seats. The plan will be open on Monday, the 17th inst., at 9 a.m.

MUTUAL BENEFIT ASS'N

May be Established in Connection With the Canadian General Electric Co.

At various times during the past few years the matter of establishing a mutual benefit fund amongst the employees of the Canadian General Electric Company has been discussed by a number of the men who have been the longest in the service of the company but nothing definite was done in regard to the matter. Now, however, there is reason to believe that the scheme will become an established fact. Mr. Frederick Nicholls with his usual generosity of spirit and as characteristic of the keen interest he has always personally taken in the employees of his Company, has offered to give $1,000 to establish such a fund on a sound basis, providing that 75 per cent. of the employees join the Association. The need of such a fund has been made apparent on more than one occasion and it is to be hoped that the employees will take advantage of Mr. Nicholls' liberal offer.

HOUSES SCARCE.

Local Real Estate Agents Cannot Supply the Demand.

The indications are that considerable building operations will be going on this summer. This is the belief of real estate agents, and others who are in a position to form some idea. If there is not a move made upon the part of the landowners or capitalists to place a number of houses at the disposal of the tenants of the town, there is going to be a house famine. It need not be inferred from this that there is going to be any panic in real estate in Peterborough. The fact merely is that the demand for small houses, such as are generally rented by workingmen, is greatly in excess of those available. There is a number of houses available that rent from $15 to $20 per month, but the smaller sized houses, the houses that rent for about half the above sum, are in great demand.

A local real estate agent in speaking of the situation yesterday, said that some years ago, at the time the Canadian General Electric Company were locating here, there was a sort of panic in real estate, and more houses were erected than were required. This surplus has just now become exhausted and a gradual increase in the number of smaller houses rented followed.

However, with the location in Peterborough of several important new industries during the past year, there is reason to believe that there will be many new families in town, who will require houses of the smaller variety, as well as a proportionate number of larger ones.

WEDDING BELLS.

A Peterborough Citizen Wins a Bride in Cobourg.

A quiet, but pretty wedding was solemnized in the Methodist Church, Cobourg, on Wednesday, March 5th, when Mr. Harry A. Aldrich, of Peterborough, was united in marriage to Miss Ethel L. Payne, of Cobourg. The bride was gowned in a travelling suit of grey Venetian cloth, with silk blouse of a pretty shade of ashes of roses, with a Tricone hat to match, and was attended by her sister, Miss Blanche Payne. Mr. Clifford Payne assisted the groom. After the ceremony the bridal party proceeded to "Homewood," the residence of the bride's father, where a dainty dinner was served. Mr. and Mrs. Aldrich left on the 2.57 train for points west. Rev. Dr. Saunders, pastor of the church, officiated. Mr. Aldrich is a member of the electrical firm of McPherson & Aldrich.

New life for a quarter. Miller's Compound Iron Pills. Sold by all druggists.

WEST PETERBOROUGH.

Notices have been issued calling a mass meeting of the supporters in West Peterborough of the Ross Government, to nominate a candidate to contest the representation of the West Riding in the Ontario Legislature in the coming Parliament.

The term of the present Legislature, unless it is previously dissolved, expires by effluxion of time on March 29th inst., and the general elections will be necessary to elect a new parliament. The mass meeting to select a candidate for West Peterborough will convene in Bradburn's Opera House on Saturday, March 22nd, and in connection with the nomination of a candidate, addresses will be delivered by Hon. J. R. Stratton, the present representative, and member of the Government for this constituency, Hon. Senator Cox, Hon. Senator McHugh, Mr. John Lang, M.P., and Mr. Blezard, M.P.P. Provincial issues, upon which the people will be called to pronounce in the coming election, will be fully dealt with and the undoubted claims of the Ross Government to a renewal of the popular confidence will be set forth. Considering the importance of the Provincial issues to be decided, and considering the interests of West Peterborough in the matter of securing the best possible representation, it is desirable that there be a large attendance at the mass meeting on March 22nd, so that the candidate chosen may enter the contest selected and endorsed by as large a representation as possible of the electors in sympathy with the Government, all supporters of which are, the gathering being a mass meeting, therefore invited to be present. Make a memorandum of the date, Opera House, Peterborough, Saturday, March 22nd, 1902. On account of the number of speakers it is necessary that the proceedings begin at an early hour. The chair will therefore be taken promptly at 1.30 p.m.

Get Your Sunday Reading To-night.

It is our constant aim to supply the popular demand, so that the best literature published is always on call at the Peterborough Bookstore. The new books of interest to all classes and tastes will be found here, as well as the latest daily, weekly and monthly papers and magazines. Call in to-night and look over the interesting collection. A. H. Stratton & Co.

THE MARB'S NEST.

Poor Political Fishing in Stony Creek Waters.

Nothing Irregular Shown in Connection With $4000 Grant to Dickson Company.

Hon. J. R. Stratton, Provincial Secretary, volunteered evidence before the Public Accounts Committee of the Legislature on Thursday morning in continuation of the investigation in connection with the Government grant of $4,000 to Stony Creek dam.

Mr. Stratton stated that early in the summer of 1899, prior to his becoming a member of the Government, Mr. Richard Hall, then President and Manager of the Dickson Company, accompanied by Mr. Jas. Eakins, woods foreman, called upon him at his office in Peterborough, soliciting his assistance to procure from the Government, a grant to assist in the construction of certain improvements upon Stony Creek, that would be advantageous to the public and their company. It was estimated at the time that the improvements would cost from $10,000 to $12,000. They desired that the Government should assist them to the extent of one-half the estimated amount, which would be about $5,000, conditional upon the public being allowed to use the improvements. He contended that the Province was equally interested with the company in the construction of the works, which would be works of public utility. After a little discussion of the matter, Mr. Stratton stated that he would be glad to assist them in the direction indicated, but suggested that they interview the Commissioner of Public Works, then Hon. Mr. Harty, and the Premier, then Hon. A. S. Hardy.

In October Mr. Stratton became Provincial Secretary, and Mr. Hall pressed the matter of Government aid for the improvements, showing that the cost was great, and that the province would reap great indirect advantages in the dues obtainable from the timber in the locality which could only be moved by the conveniences represented by the works for which the application was made. Hon. Mr. Latchford, who succeeded Mr. Harty, as Commissioner of Public Public Works, instructed Mr. McCallum, the engineer of the Department, to visit the locality and report. His report showed that the expenditure would reach a considerable sum. The matter was discussed by the Government and some assistance was decided upon, but the extent of the assistance was not specified. The company were to go on and do the work, and the Government would consider the application when the estimates were being prepared. When the main estimates were under consideration the matter was overlooked, and it was discussed by the Government for the supplementary estimates. The work was then nearing completion, and it was found that the cost would not be as great as had been first anticipated, and it was decided that a grant of $4,000 would be placed in the supplementary estimates, which was done.

Mr. Stratton said that he heard nothing further about the matter until the fall of 1900, when Mr. Hall again spoke to him with reference to the payment being made to the Company under the appropriation. He replied that he would speak to the Commissioner of Public Works upon the subject which he did. Hon. Mr. Latchford stated that he would attend to the matter. Mr. Hall was communicated with by the Public Works Department, and asked to a statement of the cost of the work. This statement was prepared, at Mr. Hall's request, he understood, by his solicitor, Mr. W. A. Stratton, and transmitted for the Dickson Company to the Government, and upon the report of the engineer and the recommendation of the Commissioner of Public Works, an Order-in-Council was passed for the grant of $4,000, and a cheque was forwarded to the Dickson Company in the usual way.

These are the actual circumstances connected with the transaction. Mr. Hall neither suggested, intimated nor offered anything in connection with any contribution for political purposes by himself or by the Company, nor was there any discussion then nor at any time relating to any such contribution, nor at any time since has Mr. Hall, or any member of the Company, or anyone on behalf of the Company, suggested to Mr. Stratton, or to anyone on his behalf, the payment of any contribution to any political fund or for any political purpose.

In reply to Hon. Mr. Latchford, Mr. Stratton further explained that the first time that he had heard anything about this later phase of the matter, was during last summer when a gentleman, to whom Mr. Duignan had made the statement that Mr. McGill had obtained a cheque for $2,000 from the Company for political purposes, came to him and told him what Mr. Duignan was saying. He replied then that it did not make any difference what Mr. Duignan said; there was not an atom of truth in the implied charge, or a shadow of foundation for the insinuation. He had thought so little of the matter that he did not think it worth his while to speak to Mr. Duignan about it.

It had been shown by the Company's books that no payment had been made of the character implied. It had been sworn to by every witness examined except Duignan—by Miss Dickson, Mr. Hall, Mr. Shook, Mr. McGill, Mr. Eakins, Mr. Walden and Mr. Linton, all directly connected with the business transactions of the Company, that no moneys had passed through their hands for any political purposes and that no moneys of the Company could have been paid out without their knowledge.

This closed the investigation, no questions being asked or suggested by the Opposition.

MR. WHITNEY'S POSITION ON PROHIBITION.

The nonsensical buncombe the Review evolves in respect of the "declaration" of Mr. Whitney in regard to the prohibition issue now before the country, is such as perhaps only that journal is capable of. The prominance given to Mr. Whitney's alleged position only serves to show the people more fully where the leader of the Opposition really stands in regard to perhaps the most important and far-reaching proposition that has ever confronted the public of this province. The people now know where he stands; they know that he is opposed to prohibition and know that he is opposed to any means of securing an effective expression of popular opinion on a subject which affects every class of the community in one way or another. They know that he is opposed to the only measure of prohibition, which, the province can give—an Act based on the Manitoba Bill, endorsed by the Privy Council, and such an Act as the temperance people of this province desired the Ontario Government to enact.

In view of this position it is impossible to conceive how any Conservative temperance man can, with any show of consistency, give his support to Mr. Whitney, a pronounced opponent of the moral reform, represented by a prohibitory enactment.

The Review insists upon Mr. Whitney's "honesty" in reference to prohibition, with all the unction of a new discovery. His alleged honesty and manly stand must be considered and weighed in the light of his taking the position which, to his mind, would yield the most party advantage, thus importing into the question a political element, something the Government, in dealing with the matter, has been anxious, and have expressly provided, to avoid. With Mr. Whitney it looks as if "honesty is the best policy" only when it is the best political policy; and to gain party advantage he does not hesitate to make a political football of a question which, above all others, should be dealt with on its merits apart from party or political animus.

Why should Mr. Whitney, or any person, oppose the people expressing their opinion upon a prohibitory measure? What harm can come from such a vote? Why should the people be prevented from giving concrete expression to their views? The people are the court of last resort, and it would seem right to any fair-minded man to permit them to give their views upon a matter of great importance, as they are allowed to do in minor matters. Mr. Whitney has placed his friends in difficult position. He may be opposed to prohibition, and enjoy his opinion in a personal capacity, but the Opposition he leads has no right to say that the people shall be deprived of an opportunity to give their views upon a subject that concerns them much more than it does politicians in search of party capital.

The people know that only those Conservatives who are temperance men for political purposes can give their support to Mr. Whitney. If such Conservative temperance men support Mr. Whitney, in his declared attitude they cannot lay claim to any pretence of honest interest in the cause of temperance—they must necessarily label themselves as politicians first and temperance men secondarily. On the question of temperance reform, Mr. Whitney has taken many positions, but he has shown no more inconsistency than the average "temperance" Conservative.

Our contemporary asks with an innocence as "child-like and bland" as that of Bret Harte's "Heathen Chinee," what Mr. Stratton's position on the prohibition issue is. Our contemporary is not possibly so ignorant of constitutional usage as not to know that Mr. Stratton's position is precisely that of the Government of which he is a member, and with whose policy he is in complete accord, upon this, and upon every other question. There is therefore no doubt of his position. Being a member of the Government, and in harmony with its policy, his position upon the subject in question must necessarily be, as a matter of fact it is, that of the Government, and there is no doubt of the Government's position.

What is the position of the Government? The Government has submitted a bill on the precise lines of the Manitoba Bill, which the Privy Council declared was within the competency of Provincial Legislatures to enact — such a bill as the best temperance sentiment of the country demanded. In this the Government has fulfilled his promise to the people of Ontario. And the Government takes the full responsibility of requiring that there must be polled a popular majority in favour of the bill, and that the vote must exceed one-half of the total votes polled in the general elections of 1898, before it can become law. The Government believes with all thoughtful men that a prohibitory measure would be impossible of effective enforcement unless there was such reasonable public sentiment behind it as would assist the Government in discharging the responsibility, which it assumes, of the enforcement of the Act.

The Government also takes the responsibility of fixing a day upon which the vote shall be taken—a day distinct and separate from any municipal, political or other issue which would prevent a vote being taken upon the merits of the question, aside from any other consideration, a provision which will permit of the vote cast being regarded as a fair measure of public sentiment in relation to the Act.

In the position Mr. Whitney takes in regard to the Liquor Act under consideration, he is consistent with his inconsistency. In speaking on the Bill last Wednesday he declared himself in opposition to prohibition. He said, according to the report printed by the Review:—"We cannot have prohibition in a province, therefore it is idle to discuss that remedy." Then to show his consistency, after rejecting prohibition, he steals the platform upon which the Government has acted for years, and which Mr. Whitney has obstructed and opposed. He says:—

"I am prepared to support, and to introduce and pass, should the opportunity offer, legislation to—
(1) Decrease the number of licenses;
(2) Maintain intact and allow no relaxation of the restrictions;
(3) Remove the commissioners and inspectors from political and party influences; and,
(4) Enforce the license law honestly and with the whole power of the Government."

This is what the Government has been doing for a quarter of a century. Under the license law passed by the Government the decrease of licenses has been over 50 per cent. In 1874-5 the year before the Crook's Act was passed, the number of licenses issued was 6,185. There was a steady lessening of the number of licenses till in 1899-00 they had dropped to 2,950, and concurrently there was a great diminution in the drinking habits of the people, less drunkenness, less crime due to drink, and a general enhancement of the temperate habits of the people. The second proposition of Mr. Whitney:—

"Maintain intact and allow no relaxation of the restrictions"

is, to imitate the style of Mr. Whitney, the acme of monumental hypocricy. If space permitted a review of his attitude towards liquor license legislation would show that he has been generally and often specifically hostile to restrictive legislation. A single specific example. In 1897 Mr. Whitney led the opposition that defeated in committee a government proposal to provide for restricting the hours during which bars should be allowed open, and afterwards taunted Mr. Hardy because he did not resign as defeated on a straight anti-temperance vote.

Mr. Whitney would remove commissioners and inspectors from political and party influences."

This can only mean a return to the system of placing the licensing of hotels under municipal control, something which those, who remember the evil conditions that prevailed under that system, regard with horror. Yet it is a retrograde step quite in line with Mr. Whitney's attitude of hostility to temperance reform. Then Mr. Whitney would

"Enforce the license law honestly and with the whole power of the Government."

From what has been shown, and can be shown, and is known of Mr. Whitney's relation to license reform, one can imagine what a license law would be created, and how it would be enforced if he had the power.

Mr. Whitney does the "straddle" act effectively. To please the anti-prohibitionists, he declares against prohibition; to even up matters he declares to the temperance people that he favours restrictive legislation, though he has opposed in large part that which is now the law of the land.

In a word, Mr. Whitney's "honesty" on the temperance question commends itself only to those Conservatives who place party before temperance and to those who find profitable employment in mercenary advocacy of opposition to the Government's proposed legislation.

The Late Mr. Joseph Adams.

The death occurred in Asphodel yesterday of Joseph Adams, brother of Police Constable Adams. The late Mr. Adams was a man of about sixty years of age, and was married. Police Constable Adams is at the deceased's home in Asphodel but no particulars are to hand as to the cause of his brother's death.

To be strong you must have good appetite, good digestion, and good assimilation. Miller's Compound Iron Pills bring all these. Sold by all druggists.

FEDERAL LABOUR UNION.

Continued Growth of the Union—Organiser Flett Takes a Hand—New Central Labour Hall, etc.

The regular meeting of the Federal Labour Union was held last night in the Forester's Hall, Simcoe street. There was another large attendance of members, who showed continued interest in the movement. The President, W. Henry, called the meeting to order, and after expressing his pleasure at having their organizer, Wm. Flett, with them, he asked that gentleman to take the chair, and preside over the meeting for the evening.

Mr. Flett said that he had decided to remain in Peterborough for a longer time than contemplated, on account of the increasing interest taken in labour matters, in the town. He wanted to give them all the help he could, to perfect their organization and systematize their work.

Routine business was then taken up, and dispatched with unusual promptness and dispatch. Applications were received from over forty new members, who were accepted and initiated.

Reports from the Committees on the bonding of officers, and the procuring of a new hall were presented. The President reported that the committee had secured a lease of the large premises over Stevenson's coal office for a central Labour Hall, and they were making arrangements for seating, lighting and furnishing the same. The committee was instructed to complete their work as rapidly as possible.

A number of other important matters were introduced and discussed.

THE WANDERING JEW RETOLD.

A Great Work Welcomed With Unstinted Praise.

An old book resuscitated is sometimes as good as a new one, and in the republication of Croly's "Tarry Thou Till I Come," we have in new dress a really valuable production of a thoughtful writer, which was well received half a century ago, and is now repeating its popularity. It is a powerfully imaginative story of a man doomed to immortality from the time of the crucifixion of Christ, and gives in another form the ever-popular legend of the Wandering Jew. For dramatic forcefulness, patriotic and religious fervor, true romance and thrilling adventure, this novel has seldom been equalled. The life of the Holy Land breathes through it, and the sins and virtues of the Jewish people are made to stand out in relief against the sensuousness and injustice of the Romans. Nero, the tyrant, is drawn with a cleverness that intensifies his royal villainy, and the events that led up to the fall of Rome and the destruction of Jerusalem are told with the vividness almost of an eye-witness. Jewish character is faithfully depicted. The Jewish women particularly are shown to have been possessed of an intense love for home and friends, the more delightful because of its Oriental expression. And the book is also a marvel of psychological analysis. Salathiel, the immortal wanderer, goes out from his Judean home to other lands, outliving all his kinsmen, with the burden of his guilt and the consciousness of his punishment ever before him. In the opening chapter there is the anguish of a smitten heart as nowhere else described in literature. The story proper closes with the fall of Jerusalem, and leaves the immortal Jew still a wanderer.

It is a long story, and a serious one—therefore the better worth reading. George Croly, the author, was an Irish clergyman of remarkable ability, and this was his best piece of work. For those who appreciate historical novels dealing with the most tragic times in the history of the world, and the world's religions, there is a feast provided within the handsome covers of this re-created book.

The story has evoked strong words of praise from the critics. Hubert H. Bancroft, the historian, remarks: "It is sublime. It occupies a unique place; there is nothing else like it in literature. Such a book elevates and ennobles the whole realm of fiction." Prof. Theo. W. Hunt, LL.D., declares: "Parts of it remind me of the graphic pages of Victo Hugo in his 'Les Miserables,' and 'Ninety-Three,' and parts of it of the scenic chapters of Sienkiewicz in his 'Quo Vadis.'" Carroll D. Wright says: "It is one of the noblest romances I have ever read, and must stand with the very best literature that has ever been given to the world." Watchword and Truth (Boston), says: "Its description of the life of Palestine up to the time when Jerusalem was destroyed, is without a parallel in literature."

In the United States no less than seventeen editions, each of 10,000 copies, have been issued to meet the demand, and the publishers say they expect an even greater demand this year. In Canada a new edition has just been placed on the market by William Briggs, who reports a sustained interest in the book quite exceptional. It looks as though "Tarry Thou Till I Come" were destined to a permanent place in literature. For sale at the Peterborough Book Store.

Woman is as Old as She Looks.

It is not age but disease, weakness and ill-health that makes women look old, care-worn and wrinkled. You cannot look your best unless you feel well, strong and vigourous, with pure, rich blood and steady nerves. Dr. Chase's Nerve Food makes good looks because it makes good health, restores the healthful glow to the complexion, rounds out the form and gives elasticity to every motion of the body.

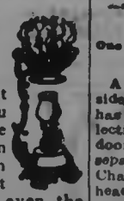
Kills Germs.



That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubled of the throat and bronchial tubes.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A. Recommended and sold in Peterborough by H. H. Hamilson, druggist.

The Death-Knell of Grippe

The death-knell of Grippe is sounded—medical science has given us the secret for dealing this "grimmest" of ailments a blow that will effectively and permanently expel it from the system—and prevent the dire distress that follows in its wake.

Uwanta GRIPPE Capsule

is not a violent treatment, but if you are a victim to Grippe or subject to colds and coughs, it will cure you as certainly as night follows day.—Just one thousand testimonials to prove the truth of it—and you can verify any or all of them by writing.

All druggists sell Uwanta Capsule—or you can order direct by enclosing 25 cents to

FAMOUS HISTORIC DOORS.

One Priceless Relic Was to Have Been Used on a Pigsty.

A certain wealthy banker, who resides near Pontefract, in Yorkshire, has gradually acquired quite a collection of interesting and historic doors. Amongst them is one which separated that ill-starred monarch, Charles I., from relentless Roundhead pursuers when he was sorely pressed.

Another is reminiscent of the Pretender's famous raid into England in the year 1745. To its stout resistence several of his prominent partizans owed their lives, for the door still shows the deep indentations made by a battering ram that was used against it at that time.

Three or four years ago the banker, while in Paris, offered $5,000 for a door that had figured in the French Revolution. Though it had passed such famous folk as Marie Antoinette, Charlotte Corday, Danton, and Robespierre. Truly a door to which some awful memories cling. The collection comprises doors from various ancient halls and castles, each of more or less historic value.

The authorities of the Carnavalot Museum, in Paris, have in their possession a door of the old Bastile. When the Prison of Mazas was demolished they thought of purchasing one of its doors, but for some reason or other changed their minds.

These relics were, however, eagerly bid for, and our purchaser, a latter-day Samson, actually carried his bargain home on his back. The 1,200 keys of the prison were disposed of at the same time, but brought exceedingly poor prices. Even the most interesting of them were sold at the low price of five francs, or a trifle less than four shillings each.

When that celebrated old hostelry, the Crab Tree, at Fulham, England, was about to be altered, Mr. W. A. White particularly requested that the door should be carefully preserved. This was a very famous portal, with quite a unique history, running back to the time when Good Queen Bess left her black-letter Bible in the bar parlor as she fled from an unexpected police raid.

Unfortunately, owing to some misunderstanding, the door, with contained the names of landlords and other notabilities with their own autographs, was completely destroyed.

Although Mr. White offered a considerable sum for half or even a quarter of the valued door, not even this much was forthcoming. All that the workmen could bring him was a barrowful of bits, on which not a name or a mark could be made out.

All possibility for preserving an extremely interesting relic had vanished forever, much to the disappointment of Mr. White, who regarded the door as one of the most precious features of his property.

Seven years ago the people of Stratford-on-Avon waxed highly indignant on learning that one of the church wardens had sold as old lumber the ancient carved oak and panelled doors of the north porch of the church celebrated as the burial-place of Shakespeare.

The doors were erected a century before Shakespeare's time, weighed half a ton, and were in perfect condition. They had just been temporarily removed to bring to light some old carving and a peculiar holy water stoup in the porch. The purchaser intended using them in the construction of a pigsty! The inhabitants had some difficulty in getting the doors returned and restored to their proper purpose.

Apply This Test To Your Nerves.

If You Have These Symptons Your Nerves are Weak and Exhausted—You can get Well by Using

Dr. Chase's Nerve Food.

Nervous diseases are little understood. They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis or locomotor ataxia think that they are merely not very well, and will soon be urguad again—so insidious is the approach of nervous diseases and nervous collapse.

Study those symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerkings of the limbs; dizziness and flashes of light before the eyes; irritability and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerve force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. Nervous diseases do not right themselves. They come on gradually as nerve force becomes exhausted, and can only be cured when the nerve force is restored.

No treatment for nervous diseases has ever received such universal endorsement by both physicians and people as has Dr. Chase's Nerve Food.

Mrs Crapper, 37 Salem avenue, Toronto, says:—

"For the last two years I have been a great sufferer from paralysis of the right side, which has confined me to the house. On recommendation of friends I began the use of Dr Chase's Nerve Food, and can say that this treatment has proven of very great benefit to me. I realize that my ailment will not disappear in a few weeks, but I have improved so much already that I believe a continuation of this medicine will entirely cure me."

In the press of Canada you will find hundreds of earnest letters telling of the wonderful benefits derived from Chase's Nerve Food; 50c a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 4

NEW FORCE IN AFRICA.

The British Government Has Decided to Create a Native Army.

The British Government has decided to create a native army in its various protectorates on the eastern coast of Africa. Somaliland, East Africa, Uganda and Central Africa. Somaliland was created a protectorate in 1884, East Africa in 1895, Uganda in 1894, and Central Africa in 1891. In both of these districts the ruling powers have erected and maintained forces composed of natives, officered by British, and serving solely under the authority of the Resident or Commissioner.

The new order combines these separate organizations into "The King's African Rifles," under a brigadier-general, whose headquarters will be Entebbe, Uganda. He will be under the supervision of the British Foreign Office, and will spend a part of each year in England, advising the Foreign Secretary. The resultant army is described as the nucleus of a new native army for colonial defence, but is really the first step in the direction of making colonies out of the titular protectorates, which in two cases have come under British supervision by way of "chartered companies." It will not be long, probably, before the Residents or Commissioners are succeeded by Governors, and the protectorates become colonies in name as well as in fact.

The natives have shown themselves to be excellent soldiers; they have been put to severe tests in several expeditionary movements, and have left little to be desired. Detachments from two battalions of the Central Africa Rifles visited England a year ago, and made a good impression; and the new force can probably be filled several times over from natives who apply for enlistment. Six battalions—regiments in everything but name—are to be created—two Central Africa and two Uganda battalions and one East Africa and one Somaliland battalion. These will be permanent organizations, officered by officers detached from their regular command. In view of the successful development of the native Indian troops, which have a certain percentage of which officers appointed permanently, it is possible a similar system may be introduced in the King's African Rifles.

It has been proposed that the provisional Puerto Rico regiment of infantry and the Philippine scouts be incorporated in the permanent establishment of the United States army. The success of the Puerto Rico regiment, composed of natives officered from the "Mainland," is an argument for such incorporation, and the success of the British in India with their native regiments, and in Africa and elsewhere, is still another argument.

New Testament in Braid Scots.

"The New Testament in Braid Scots," rendered by Rev. William Wye Smith of St. Catharines, Paisley, 1901. This is a very curious and interesting undertaking, and one not very easy of accomplishment, writes Prof. Clark, of Toronto; for, although it may be contended that broad Scotch is not properly described as a dialect of English, it can hardly be said, with strict accuracy, that it is a language in the sense that English was a language before it became the received speech of the people in a number of dialects. Hence it is that any rendering of a book into broad Scotch must be only partially satisfactory to Scotch readers. "Johnnie Gibb," for example, written in the dialect of Aberdeen, would be almost unintelligible to a native of Ayrshire. The translator of the volume before us has selected what we might call the common Scotch dialect—that is to say, a language not spoken in any part of Scotland, and yet in another sense, spoken and understood throughout the whole country. Indeed, if we were to imagine a classical Scotch language being formed, we imagine that it would be very much the language that Mr. Wye Smith has adopted. It is obvious, therefore, that if this work was worth doing, the translator has done it in the best possible lines. With regard to the intrinsic qualities of the translator we have nothing but good to say. The translator has very properly availed himself of many of the renderings of the revised version, and generally we agree with him in his choice. We can quite imagine that a version like this, read by a judicious friend, may afford much comfort to some aged Scottish immigrant, who would rejoice to hear sacred truth enunciated in the language of his childhood.

Story of the Late General Wauchope.

Here is an amusing story about General Wauchope as a soldier and a politician. When in command of the Black Watch, the famous Highland regiment, he was said to have attempted to address the men after parade at Maryhill Barracks, Glasgow. From the demeanor of the colonel the regiment anticipated an eloquent address, but it is stated that the genial Andrew only got the length of:

"Men of the gallant 42nd," when his tongue seemed to cleave to the roof of his mouth.

Thrice did he make the attempt, and thrice did he fail to make progress, until, exasperated with himself, he suddenly exclaimed, to the astonishment of the regiment: "Men of the gallant 42nd, right-about wheel!"

Originator of "Breaking the Line."

Admiral Rodney, the originator of the distinctively British naval manoeuvre of "breaking the line," was born February 19, 1719. A veteran of the French wars, he had had a brilliant share in Hawke's victory of October 14, 1747, had served under Boscawen at Louisburg in 1758, and commanded a squadron which in 1759 bombarded Havre and destroyed a flotilla intended for use in an invasion of England, had in 1762 captured a number of West Indian Islands, had in 1780 heavily defeated a Spanish squadron off Cape St Vincent, and had in the same year fought three decisive actions with a French fleet. Then, on April 12, 1782, when he was an old man of 63, at a moment when the Revolutionary war was drawing to its inglorious conclusion and gloom had settled upon the nation, his opportunity came. His battle with Count de Grasse began in the old formal line against line formation, but when the ships were cannonading at close quarters and all was smoke and din, an accidental gap in the French line furnished the opportunity for the inspiration of a moment. In a few moments the French order was dislocated and several of the French ships idle, while the British squadron was concentrated upon and destroying the remainder. The opposing commander-in-chief and seven ships were the trophies of a manoeuvre which Nelson afterwards improved upon and put to such brilliant use.

A MARVELLOUS SPRING HEALTH GIVER AND INVIGORATOR.

Paine's Celery Compound

Purifies the Blood as Nothing Else can do.

It Nourishes the Tired Brain and Braces the Weak Nerves.

Paine's Celery Compound purifies the blood as nothing else will do; it is nature's food; it builds up weak and shattered nerves; it is the world's best and surest health-giver.

Paine's Celery Compound, taken during the opening of spring, has a remarkable efficacy in making sick people well and strong. It makes short work of debility and nervous exhaustion. It quickly drives out neuralgia, sleeplessness, and dyspepsia from the system. Its virtues promptly banish kidney disease and liver troubles. It enables all weak and rundown men and women to cast off their besetting troubles and gives them a happy and vigorous life. Mr. Charles E. Beck, Goderich, Ont., whose life was directly saved by the use of Paine's Celery Compound, after other medicines had failed to do any good work, writes as follows:

"I am a Tanner by trade, and about thirteen years ago had an attack of rheumatic fever. While recovering I took a cold and had a relapse which ended in inflamatory rheumatism, and I was laid up for years. I was also afflicted with sleeplessness and my doctor said that I would not live to see my thirtieth year. While almost giving up in despair your Paine's Celery Compound was recommended to me. I bought a bottle and used it, and to my surprise it gave me natural sleep and rest. After using six bottles I am entirely cured. My wife also used your medicine for insomnia, and before she used one whole bottle she was entirely cured."

Mr. Jas. Wilson, a prominent Goderich druggist, says: "I know Mr. Beck intimately, and can vouch for what he says about Paine's Celery Compound."

PARAGONS OF DUTY.

Droll Legends of Filial Piety as Practiced in Japan.

The Japanese make much of the duty of children to parents. In some of their popular stories they exaggerate the wholesome virtue until it becomes absurd. There is a group of such tales called "The Four and Twenty Paragons of Filial Piety," some of which Mr. Basil Hall Chamberlain collects in "Things Japanese."

One is the story of the paragon whose cruel stepmother was very fond of fish. In spite of her harsh treatment he lay naked on a frozen lake until his body melted a hole in the ice. He caught two fish that came up to breathe and set them before his stepmother. Another paragon lay uncovered at night in order that the mosquitoes should fasten on him alone and allow his parents to slumber undisturbed.

Still another, who was extremely poor, determined to sacrifice his own child in order to save food to support his aged mother. He was rewarded by heaven with the discovery of a vessel filled with gold, on which the whole family lived happily ever after. A fourth gave her father a chance to escape while she clung to the jaws of the tiger which was about to devour him.

The drollest story of all is of Rovashi. This paragon, although seventy years old, used to dress in baby's clothes and sprawl about the floor. His object was piously to delude his parents, who were more than ninety years of age, into the idea that they could not be so very old after all, seeing that they had an infant son.

The Bank Messenger.

"Hello, Willie!" exclaimed the messenger boy as he met his old time friend in Nassau street the other day. "Who yer workin' fer now, Willie?"

"Workin' for a bank," replied Willie. "Got a good job."

"Watcher got in the satchel?" asked the messenger boy, scrutinising a little handbag that Willie carried.

"Hist! Don't say a word! I'm scared to death."

"What is it—dynamite?" asked the messenger boy in alarm.

"Naw; it's money."

"Gee! Money! How much?"

"Two thou. I'm carryin' it down to another bank, and I'm scared."

"Say, how does a feller feel when he has so much money?"

"Scared," whispered the bank messenger, and he continued on his way.

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

Kidney Troubles of Women.

Dr. Pitcher's Backache Kidney Tablets the Most Successful Treatment of Kidney Ailments That Cause Women Untold Suffering.

There are so many women suffering from backache, headache, dragging pain in the loins, and weary, worn-out feelings, who attribute all their troubles to some form of "female complaint." Nine cases out of ten the kidneys are at fault,

and the poisons which these organs should filter out of the blood are circulating through the system and making havoc with the health.

No woman can enjoy good health and be free from pain whose kidneys are not acting properly.

No woman whose kidneys are out of order can afford to delay one day in procuring Dr. Pitcher's Backache Kidney Tablets.

No other medicine ever received such overwhelming endorsation from the women of Canada.

AS A LAST RESORT.

Mrs. May Goddard, 220 Adelaide Street West, Toronto, whose portrait appears on the opposite column, speaks in the following terms:

"After enjoying the most perfect health for many years it was a sore trial for me to realize that my health was failing. I had, in the first place, acute pains in the small of my back, and was losing flesh rapidly. Then other complications arose, which so weakened me that it was only with the greatest amount of determination that I could attend to my work. I tried a number of remedies and consulted several physicians without obtaining more than temporary relief, and as a last resort I thought I would try Dr. Pitcher's Backache Kidney Tablets. Their beneficial action was almost instantaneous, and the results highly gratifying. The pain in my back disappeared in a short time, and my general health improved greatly. I am now feeling fine, and am glad to have this opportunity of expressing my appreciation of so valuable a remedy."

BACKACHE AND HEADACHE.

Mrs. A. Craigie, Lighthouse Street, Goderich, Ont., relates her experience:

"For some time I suffered with a good deal of backache and kidney trouble, and with a severe headache which continued to grow worse. I heard of the many cures Dr. Pitcher's Backache Kidney Tablets were making and determined to try them. I procured a bottle from our druggist, Mrs. P. M. Dunham, and they acted splendidly, stopping the backache and headache and curing the kidney complaint. I strongly recommend these Tablets to any one suffering as I did."

Mrs. John Wigsman, Woodham Street, St. Mary's, Ont., says: "During a recent sharp attack of lumbago, due to exposure to cold, I used Dr. Pitcher's Backache Kidney Tablets with complete relief. I did not use the entire bottle, which speaks well for their ability to cure backache kidney troubles."

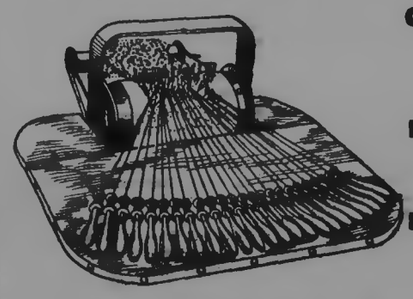
Home Work for Ladies



CONGENIAL WORK. Lace making is a fascinating employment of absorbing interest, and with our Lace Loom the finest grade of Torchon and Valenciennes Laces (hitherto almost exclusively made by the women of Germany and Sweden) can be made at home in the evenings or other spare time.

EASY TO LEARN. Our Lace Loom, though ingenious in construction, is easy to operate without a teacher as the illustrated book of instructions accompanying each machine is full and complete, and patterns are furnished free by us.

PROFITABLE. In European countries where these laces are made it forms the chief industry of the women, who make them in their own homes. By working for us in their spare time ladies can add considerably to their income or by giving more time to it can make an independent living for themselves.

THE NOTTINGHAM LACE CO., TORONTO, CANADA

WANT TO ENGAGE A FEW MORE LADIES IN ANY PART OF CANADA TO WORK FOR THE COMPANY AT THEIR OWN HOMES

Our plan is simple and is here fully explained. The work is also simple and easily performed on the Lace Loom furnished by us. With each Loom is furnished an Instruction Book with which the different kinds of lace can be made without a teacher. If you wish to make an independent living, or if you wish to add to your income by lace making in your spare time, write to us promptly, enclosing Contract Order Form given below, with remittance, and we will send the Lace Loom and outfit to begin work at once.

The market for Laces of all kinds is so large, and increasing so rapidly, that we can sell practically unlimited quantities, and we are anxious to get as many new workers as possible.

Our plan of buying material in very large quantities and employing people at their own homes working on their own Looms saves us many business expenses and, with the Customs duties, enables us to undersell foreign manufacturers.

The prices we pay our workers for making the ordinary kinds of lace that we sell, range from 3 cents per yard for the narrowest and easiest made upwards to 20 cents. With practice, very fine and beautiful laces can be made for which we pay very much higher prices.

The Loom accommodates work of from half an inch to eight inches in width, and with the number of bobbins used an immense variety of patterns can be worked. The accuracy and ease with which the work can be turned out is marvellous, and yet all the grace and beauty of handwork is retained. Lace of the most delicate and intricate texture as well as the more simple though pretty patterns can be made. The work is easily and rapidly done. You will be surprised at the speed with which the roll of finished lace grows on the Receiving Spool. As the art becomes more familiar it is done almost automatically, although the great number of beautiful patterns supplied free by us gives the work a constant variety and makes it of absorbing interest. We cannot lay too much stress upon the fact that the products of this Loom are not cheap imitations of lace, but genuine fine laces, such as are made by hand (as the machine is so constructed that one's own handiwork enters into it), and they are of the same quality as the most high class imported handmade laces which sell at the highest prices.

We supply all material, patterns, etc., free of charge, commencing with enough for the first samples to be made by beginners. When these samples have been made satisfactorily and returned to us, we send a quantity of material and patterns at our own expense for lace to be made for us to sell and we pay promptly for the making. We pay the cost of sending everything to the worker and they pay the cost of sending the finished work back to us. The cost of sending back the lace to us is very little, as many yards of lace can be sent from any distance by post for a mere trifle. The work is very simple, and rapidly done. Everything necessary for the work except the Loom is furnished free to our workers. The manufactured price of the Loom is $10, and those desiring to work for us must sign the Contract Order Form in this advertisement and send the remittance of $10 for the Loom. This is necessary to give us confidence that you mean business. Our interests are the same, and there must be mutual confidence in order that your business with us will be successful. We are in a large way of business and have a regular system from which we cannot deviate. We guarantee fair dealing and prompt payment for work. Indeed we could not remain in business otherwise than on the foregoing principles.

The Loom and all patterns and material to begin are all absolutely your own property to do what you like with after you have paid the $10; but after you have sent in your first sample satisfactorily, we send you more material for making fine laces for us to sell and for making which we pay you; these last materials will belong to us and must be returned to us when made into lace. If at any time after you commence working for us you wish to discontinue we will buy back the Loom and refund the $10 less costs of our expense, expressage, etc.

If you engage with us we will keep you supplied with work as long as you do it satisfactorily. Our workers are engaged summer and winter (whole or spare time whichever they wish), year after year. We entrust them with large quantities of valuable material, and though they may make lace for themselves or their neighbors (as the Loom and pattern and outfit are their own property), yet we expect them to take good care of the material we send them to be worked up for us, and for this work we pay well and pay promptly.

We have here stated, as briefly as possible, just what our method is, and we simply say as to the Loom, it is just what we represent it to be, and will positively do everything we claim for it, or we will refund the money.

CONTRACT ORDER FORM

To the Nottingham Lace Co., McKinnon Bld'g., Toronto, Canada:—

GENTLEMEN,—I desire to do the work as described in this advertisement and enclose $10 to pay for one Lace Loom together with patterns, instructions and everything necessary for the work. The same to be sent to me by express, charges prepaid.

It is understood and agreed that any time I wish to discontinue working for you that you will take back the machine and outfit and and refund to me the $10 less your expenses, expressage, etc.

State how much time you can devote to the work and also how you wish to be paid, weekly, monthly, or as you send in the work. Send your remittance by Express Money Order, Registered Letter, or Post Office Money Order, and we will be responsible for its safe passage to us.

OHIO VOODOO RITES

WEIRD AND BRUTAL NEGRO ORGIES REVIVED IN THAT STATE.

One Woman Killed—Robert Louis Stevenson's Vivid Description of Voodoo or Voodoo Rites as Found in the "Fair Cubans," One of the Stories in His "Dynamiter."

Voodoo or hoodoo, those weird and bestial orgies sometimes practiced by negroes and which had their origin in the dark past in Africa, have recently been resumed in the levee district of Springfield, O. For many years this section was rendered notorious by the heathen practices, but for some time they have been extinct. Now comes the news that they have been revived in all their old time horror.

Charles Benton, chief of the negro dancers, has been arrested for slashing Annie Powell with a razor. He says he committed the crime to remove the hoodoo spell the woman had cast on him.

The best description ever written of the hoodoo or voodoo rites is found in the "Fair Cuban," one of the stories in Robert Louis Stevenson's "Dynamiter." Stevenson says:

"I scarce know upon what grounds I acted, but I shaped my steps in the direction of the sound and in a quarter of an hour came unperceived to the margin of an open glade. It was lighted by the strong moon and by the flames of a fire. In the midst there stood a little low and rude building surmounted by a cross—a chapel, as I then remembered to have heard, long since desecrated and given over to the rites of the hoodoo.

"Hard by the steps of the entrance was a black mass continually agitated and stirring to and fro as if with inarticulate life, and this I presently perceived to be a heap of cocks, hares, dogs and other ani-

WEIRD HOODOO RITES.

mals still struggling, but helplessly tethered and cruelly tossed one upon another. Both the site and the chapel were surrounded by a ring of kneeling Africans, both men and women. Now they would raise their palms half closed to Heaven, with a passionate gesture of supplication; now they would bow their heads and spread their hands before them on the ground. As the double movement passed and repassed along the line the heads kept rising and falling like waves upon the sea, and still, as if in time to these gesticulations, the hurried chant continued. I stood spell-bound, knowing that my life depended by a hair, knowing that I had stumbled on a celebration of the rites of hoodoo.

"Presently the door of the chapel opened, and there came forth a tall negro, entirely nude and bearing in his hand the sacrificial knife. He was followed by an apparation still more strange and shocking—Mme. Mendizabal, naked also and carrying in both hands and raised to the level of her face an open basket of wicker. It was filled with coiling snakes, and these, as she stood there with the uplifted basket, shot through the ozier grating and coiled around her arms.

"At the sight of this the fervor of the crowd seemed to swell suddenly higher, and the chant rose in pitch and grew more irregular in time and accent. Then, at a sigh from the tall negro, where he stood motionless and smiling in the moon and firelight, the singing died away, and there began the second stage of this barbarous celebration.

"From different parts of the ring, one after another, man or woman ran forth into the midst, ducked, with that same gesture of the thrown up hand before the priestess and her snakes, and, with various adjurations, uttered aloud the blackest wishes of the heart. Death and diseases were the favors usually invoked—the death or disease of enemies or rivals—some calling down these plagues upon the rest of their own blood and one, to whom I swear I had never been less than kind, invoking them upon myself.

"At each petition the tall negro, still smiling, picked up some bird or animal from the heaping mass upon his left, slew it with the knife, and tossed the body upon the ground. At length it seemed it reached the turn of the high priestess. She sat down the basket on the steps, moved into the centre of the ring, groveled in the dust before the reptiles and, still groveling, lifted up her voice, between speech and singing, and with so great, so insane fervor of excitement as struck a sort of horror through my blood.

"'Power,' she began, 'whose name we do not utter; power that is neither good nor evil, but below them both; stronger than good, greater than evil, all my life long I have adored and served thee! Who has shed blood upon thine altars? Whose voice is broken with the singing of thy praises? Whose limbs are faint before their age with leaping in thy revels? Who has slain the child of her body?

"'I,' she cried, 'I, Ma Gamnbogu! By my own name I name myself. I tear away the veil. I would be served or perish. Hear me, slime of the fat swamp, blackness of the thunder, venom of a serpent's udder—hear or slay me. I would have two things, O shapeless one, O horror of emptiness, two things or die, the blood of my white faced husband. On give me that! He is the enemy of hoodoo. Give me his blood. And yet another, O racer of the blind winds, O germinator in the ruins of the dead, O root of life, root of corruption! I grow old, I grow hideous, I am known, I am hunted for my life. Let the servant than lay by this outworn body; let the chief priestess turn again to the blossom of her days and be a girl once more and be the desired of all men, even as in the past! And then, O lord and master, as I here ask a marvel not yet wrought since we were torn from the old land, have I not prepared the sacrifice in which thy soul delighteth, the kid without the horns?'

"Even as she uttered the words there was a great rumor of joy through all the circle of the worshipers. It rose and fell and rose again and swelled at last into rapture when the tall negro, who had stepped an instant into the chapel, reappeared before the door, carrying in his arms the body of the slave girl Cora. I know not if I saw what followed. When next my mind awoke to a clear knowledge, Cora was laid upon the steps before the serpents, the negro with the knife stood over her, the knife rose, and at this I screamed out in my great horror, bidding them in God's name to end."

BRIGHT'S DISEASE

is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—pill box and name—but imitations are dangerous. The original and only genuine cure for Bright's Diseases

DODD'S KIDNEY PILLS

Dodd's Kidney Pills are fifty cents a box at all druggists.

DON'T DO IT.

Don't present your wife, your sweetheart, or your friend with a worthless box of Bon Bons. Give them the best only. To do this, the Bon Bons must be McKenzie's—the only place in Eastern Ontario where satin finished Bon Bons can be procured. Every one who receives a box of our goods are always more than pleased. Examine them before buying elsewhere. A glance at our window will convince you of their high standard. Manufactured and sold only at

OLD PEOPLE

Have a charm of their own when they are not weak and feeble, but hale and hearty, enjoying the sports and pleasures of youth though they cannot participate in them. The whole secret of a sturdy old age is this: Keep the stomach and organs of digestion and nutrition in perfect order. The young man who does not think of his stomach will be made to think of it as he grows old. It is the "weak" stomach, incapable of supplying the adequate nutrition for the body, which causes the weakness and feebleness of old age.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and so enables the body to be fully nourished and strengthened by the food which is eaten.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helpless to the floor. Two years ago I commenced taking Doctor Pierce's Golden Medical Discovery and little 'Pellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I felt now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

A STUBBORN COLD OR BRONCHITIS.

yields more readily to Scott's Emulsion of cod-liver oil than to anything that you can take; and if persistently used a few days, will break up the cold.

When you awake in the night choked up and coughing hard, take a dose of the Emulsion, and you will get immediate relief, where no cough medicine will give you relief. It has a soothing and healing effect upon the throat and bronchial tubes.

Send for Free Sample.

SCOTT & BOWNE, Chemists, Toronto

RING UP 'PHONE 388.

When any accident to your steam, water or gas pipes arises or when your furnaces or boilers need repairs, or closets, tanks, baths or other sanitary appliances get out of order, I will promptly attend to all orders, having on hand a full supply of plumbers' and steamfitters' requisites. I am prepared to meet every want, possessing a practical knowledge of the trade. I am enabled to detect at once the defects and causes, and remedy them at very low charges. I am ready to furnish estimates for all kinds of heating, public buildings, churches, etc. Iron pumps, points and pipe furnished and wells driven.

BE CAREFUL

Who you employ to do your plumbing, or heating; be sure he is a sanitary plumber, and understands his business, for improperly done plumbing is sure to lead to trouble. I guarantee all my work to be first-class—try me. Iron pumps repaired, wells driven and repairs of all kinds promptly attended to. Estimates cheerfully given for plumbing or heating all kinds of buildings.

JAMES NOBLE,

Practical Plumber, Steam, Hot Water and Gas Fitter, 174 and 176 Hunter street, opposite Oriental Hotel.

A Reproof.

"Pa," said Willie, "what does it mean to say a man is 'one of nature's noblemen?'"

"'One of nature's noblemen,' my son," replied the old gentleman, with a significant look at his better half, "is a man who smiles when he gets some ridiculous cheap gift for his birthday and exclaims: 'How nice! Just what I wanted!'"—Catholic Standard and Times.

The Gums.

Is there a blue line on your gums near the teeth? Perhaps you are suffering from lead poisoning, so attend to the water pipes, or, if you are a painter, carefully wash your hands and clean your nails before eating.

Is there a red line on your gums? Go to a sanitarium for consumptives or at least take cod liver oil, open your windows night and day and consult a doctor.

Their Limited Circle.

Crawford—Have they enlarged their circle of acquaintances since they moved into their big house?

Crabshaw—Oh, no! Since they became rich they don't know half as many people as they used to.—Judge

In the Streets of Cairo.

One of the most picturesque places in the world is undoubtedly the Egyptian city of Cairo, and not the least of its attractions are the varied and often musical street cries which assail the ears on all sides. Not only the street musicians who tap their tambourines to the admiring "Allahs" of the crowd, but the merchants and peddlers, contribute to the chorus.

A fruit seller, basket on head, with grapes and figs, will saunter by singing in a quaint minor: "Oh, grapes, oh, sweet grapes, that are larger than doves' eggs and sweeter than new cream! Oh, angels' food, delicious figs, bursting with honey, restorers of health!"

Another street cry which may be heard in the main street of Abbassieh, a suburb, contains the following enticing announcement: "Tomorrow, O people, I am going to kill a camel. The doctor says it is young and healthy. Oh, its flesh will be tender as the quail and juicy as lamb. Its price is but 1½ piasters (7½ cents) the pound. Do you love the sweet flesh of a camel? Then come early and be satisfied!"

Not the least picturesque figures in the streets are the city police in their neat white and red uniforms in summer and blue serge in winter.

The Women of Canada are Becoming Proficient in the Work of Mat and Rug Making.

The city and town Fairs and Exhibitions held last autumn in the various provinces of our Dominion, have fully demonstrated the fact that the women of Canada are rapidly becoming proficient in the art of making mats and rugs.

In the sections of Canada's fairs devoted to woman's work, the display of mats and rugs made from the Diamond Dye Mat and Rug Patterns was most varied and attractive, and claimed the attention of tens of thousands. The prize winners (who used the Diamond Dyes to colour their rags and other materials from which the rugs were made) all agreed that the Diamond Dye Mat and Rug Patterns were the best and easiest to work up.

If you would like to make up a choice mat or rug, send your address to The Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P. Q., and you will receive full range of new designs.

Willing to Help.

"John," she whispered, "there's a burglar in the parlor. He just bumped against the piano and struck several keys."

"You don't say! I'll go right down," said he.

"Oh, John, don't do anything rash!"

"Rash? Why, I'm going to help him. You don't suppose he can remove that piano from the house without assistance, do you?"

The Rudeness of George.

"George can be very rude at times. He interrupted me just as I was going to speak last evening."

"How did it happen?"

"Why, he asked me if he couldn't kiss me, and just as I was about to demonstrate he stopped me."

"How did he stop you?"

"The usual way."

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

Guerrilla Warfare.

The word guerrilla is Spanish and first came into common use in this country during the time of the peninsular war; but Spain throughout her long history has always been recognised as the country most ideally suited for guerrilla tactics. There is no region in Europe in which it is more difficult to wage successful war. "If the army of invasion is small, it is defeated; if it is large, it starves."

Not Worth Mentioning.

Financier—Putting through that rail road deal netted me $200,000.

Wife—Your friend lost by it, didn't he?

"All he had. But, then, he only had $25,000."

Savages, so far as known, are exempt from cancer.

CURE SICK HEADACHE.

SHROVE TUESDAY JOKES.

Peculiar Ideas of Humor Possessed by Two French Kings.

In all countries where Lent is kept—except in Russia, where Ash Wednesday is not observed—Shrove Tuesday, the last day before the beginning of the penitential season, has been given over to mummings, sports and practical jokes. In both England and Scotland, in which latter place the day is known as Fastens een, it was in times past a great holiday for the apprentices and working classes generally.

A grewsome joke was played by Louis XI. one Shrove Tuesday when at night he ordered his guards to rouse the sleeping villagers near and bring them to the castle. From almost every tree in the surrounding wood, it is said, a dead body dangled, and to the music of his fiddlers Louis compelled the villagers to take a gibbeted corpse for partner and dance before it till morning. Those who had husbands, sweethearts or relatives among the dead were forced to have them for partners.

Later Charles IX. enjoyed a practical joke at Shrovetide that was less grim in its character, secretly giving ten of the most skillful pickpockets in Paris full leave to steal whatever they could without being found out at the carnival ball. Louis himself enjoyed their dexterity and the dismay of those who missed their jewels, swords, girdles and other valuables.

Specialists' Ideas Adopted.

When originating his celebrated Four T's Merrill, the Bramford Druggist, added to drugs of many generations' usefulness some of the latest drugs used by lung and throat specialists. The result, naturally, is that Four T's is an unexcelled compound and never fails to cure a cough in 24 hours and the worst cold in two days. Large bottles 25c. at Ormond & Walsh's drug store.

At the Throttle.

Far, far down the track is a dark spot, over which hovers a great cloud. The engineer sees it, hauls out his watch, glances at it, then resumes the business of looking out of the window. He was to meet an eastbound freight at that point. He did not know if the switches were in place; he did not know but the passenger train would dash into that freight and the death of many people follow. There was no way for him to know except that it was the duty of his fellow employees to see that the switches were right. He did not slacken his speed. Rapidly the huge mogul on the sidetrack loomed up. A roar and a dash, and No. 57 flew past the waiting freight, passing within three feet.

ONLY ONE ESCAPE.

A man may break away from prison but he cannot get away from the torture of rheumatism until he takes Dr. Hall's Rheumatic Cure. It is the only reliable remedy on the market. Mr. Charles H. Clarke, Kingston, Ont., who for fifteen years in succession held the civic street watering contract could not put on his boots or walk for several weeks. He tried Dr. Hall's Rheumatic Cure, and three bottles, with the Climax Iron Tonic Pills, completely cured him. This great blood purifier is put up in bottles containing ten days treatment. Price 50 cents at all drug stores or The Dr. Hall Medicine Co., Kingston, Ont.

Glacier Ice.

Glacier ice is not like the solid blue ice on the surface of the water, but consists of grannies joined together by an intricate network of capillary water filled fissures. In exposed sections and upon the surface of the ice can be observed "veined" or "banded" structure veins of a denser blue color alternating with those of a lighter shade containing air bubbles. The cause of this peculiar structure has been the subject of much theorising among investigators, but hitherto the greatest authorities consider that the explanation of the phenomenon is yet wanting.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Polson's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

Scorpions in Jamaica.

In Jamaica the negroes believe that scorpions know their name, so they never call out, "See, a scorpion!" when they meet with one on the ground or wall for fear of his escaping. They thus indirectly recognize the scorpion's delicate appreciation of sound. But if you wish to stop a scorpion in his flight blow air on him from the mouth, and he at once coils himself up. I have repeatedly done this, but with a spider it has a contrary effect.—London Spectator.

Iron in the blood is necessary. Miller's Compound Iron Pills contain that element in the most assimilable form. Sold by all druggists.

Government Clocks.

Scattered throughout the various Washington departments are hundreds of clocks and chronometers, which cost the government annually thousands of dollars. The chronometers are the most expensive clocks in existence, and they are to be found on board every warship of the United States. These timepieces cost $400 each. The ones most consulted are those in the marble room of the senate and in the speaker's lobby of the house. Hundreds of people daily correct their watches by them.

IT MEANS OSTRACISM

Foul breath and disgusting discharges, due to Catarrh, make thousands of people objects of aversion—Dr. Agnew's Catarrhal Powder Relieves in 10 minutes and Cures

Hon. George James, of Scranton, Pa., says: "I have been a martyr to Catarrh for twenty years, constant hawking and dropping in the throat and pain in the head, very offensive breath. I tried Dr. Agnew's Catarrhal Powder. The first application gave instant relief. After using a few boxes I was cured." 72

DO YOU KNOW

That for strength, flavour and all-round goodness there is no Japan tea that can compare with

"SALADA"

Ceylon GREEN Tea? The tea that is "Pure." It is sold only in sealed lead packets just like the famous "SALADA" black tea. 25c and 40c per lb. Never in bulk.

SOME DOTS FROM A DIARY

Or, to the Orient and Back in Khaki.

An Interesting Account of a Local Volunteer's Experience on the 2nd. Canadian Contingent—The Impressions he Gained.

(Lt. Robert Johnston, 46th Regiment)

Continued from last Saturday.

CHAPTER XXIV.

We tarried at this place for possibly an hour and a half or two hours, when we again moved on, for we had a long distance to go on a strange road. The scenery in Cape Colony is superb. The road we followed was like an Indian trail, winding around the hills and the mountains, through green valleys, and over arid plains. These slate-covered mountains, devoid of verdure, were ever in view, and the clouds often hung lazily beneath their majestic summits. The soil, in this district, seemed to be fertile enough to produce an abundance of fruits and vegetables, but grains would not be profitable, nor easily harvested. Our brave lads would occasionally dash into a melon patch and commandeer some, but they were absolutely no use, possessing neither taste nor smell. From external appearance, you would suppose you had a veritable treasure but, when dissected, it was a large, dry mass, of pure white material, like that of a citron.

At four o'clock, or thereabout, we passed through the Town of Stellenbosch, remarkable for being the most notoriously pro-Boer settlement in Cape Colony. There were numerous disloyal demonstrations within its limits, but, so far as we were concerned, the citizens treated us with uncommon respect lavishly showering upon us pomegranates, quinces, apples and several other varieties of fruit, which were very acceptable. This was the only time I remember of seeing apples in South Africa, and they were small, inferior samples, half baked in the sun, but had a very pleasant, delicate flavour. Apples do not attain maturity, the sun ripening them too rapidly to admit of proper developement. As we proceeded along the highway beyond the town we overtook a Mohommedan with a small, two-wheeled rig, who had evidently been to market with his goods, which consisted of a quantity of fruits. I asked him if he had any quinces, and he said the boys had bought him out, but he searched the rig, and discovered one solitary individual left, which he gave me, refusing to accept any stipend. There may be many reasons for lauding the boys of the Contingent, but what I give them most credit for was their polite, gentlemanly behavior at all times, and under all circumstances. I don't wish my readers to call me an egotist, or a blowhard, nor think me blarneying, although I have said I could do a little at that too, in a pinch. No, not at all, but leave me in the back-ground altogether, and I can truthfully say the Royal Canadian Dragoons was a model corps, worthy of imitation by the best militia corps in Canada, or any other country. They were an ideal regiment. I have seen the boys living for weeks on biscuits as hard as flint, and with a filthy beverage, and fairly yearning for a change of diet, even if it be nothing but the driest, and stalest crust of bread. Even under these trying circumstances, when a native or Boer should happen to come into camp with provisions, we treated them with civility, waited our turn and paid for what we got. Of course, there may have been some instances where the latter was not done, but these were the exceptions to the rule. There were no wild, crazy, mob-like raids, made upon some poor, helpless individual, sometimes seen in camps at home, appropriating his goods without compensation. The boys may call this sport if they wish, but it is nothing only robbery and might be excusable in wild barbarians or cheerful idiots, but a disgrace to His Majesty's uniform, and to the individual, in an enlightened country like Canada. If men were famine stricken, we could pardon them for such heinous conduct, but men under such dire conditions rarely indulge in such fiendishly wicked "sport." There is no sport in a whole cowardly mob pouncing upon a single individual, like a pack of starving wolves upon an innocent doe, and purloining his little stock as spoils. If there is any crime in the army that should be punishable with many stripes, this is that one. We treated our enemies with courtesy, but some boys at home delight to most inhumously maltreat the quiet, unobtrusive fellow citizen. Shame! boys. Shame! There is nothing soldierly or manly in it.

For my own reputation's sake, perhaps it would be as well for me not to eulogize the boys too much for their many virtues, but I feel as though it would be doing them an injustice to pass on without making a few more pertinent remarks, which I will do with your kind permission.

In the first place, on active service, the novelty or play-activity of soldiering gradually dwindles away, and is soon lost entirely. The members of a regiment form an independent colony, as it were, and each individual soldier learns to respect his comrade-in-arms, not on account of his nobility of character altogether, but partly due to the possibility of this compatriot, some day, acting the part of the good Samaritan, or extricating him from the clutch of impending danger. There is a greater feeling of dependence, and as a natural consequence, a warmer, deeper, and more profuse sympathy. Active service means something more than beer and skittles, and quarrelling, even petty wrangles, are of rare occurrence. Remember, I am judging the army of South Africa by the record of an ideal corps, but if there is any place where the real man will manifest itself, it is in the army at the front. I have seen thousands of soldiers in camps at home, in the garrisons of Great Britain, and in the theatre of war, and without fear of contradiction I can conscientiously say, that a more orderly, affectionate, and if true manliness is essential to make a soldier, and I think it certainly is, a more soldierly corps than the R. C. D's. never marched to the scene of action. Soldiering under such conditions certainly has a serious side to it, but it has a humerous side as well, and I don't know but I have had quite as much real innocent enjoyment in the camps of South Africa, as in those at home. It would never do for all to grow serious, looking on the gloomy side of things, for, being isolated from all the world, we must amuse ourselves, and, in the words of the poet,—

"——needs must be,
Each other's own best company."

We scarcely ever knew where we were, in what direction we were travelling, or what progress the army was making in the field, unless when near the railroad. In this case we could read the name of the station as we passed, and, if time permitted, could also glean a few facts rom the despatches on the bulletin-boards, but the latter was seldom our good fortune.

Possibly I have dwelt long enough on this phase of the subject, for notwithstanding all I have said, we were familiarly known as the "Thousand Light Fingered Gentlemen from America." The propensity of the Royal Canadians for purloining was more generally known and recognized by the commanding officers than was ours. For instance, on one occasion, so the story goes, Gen. Smith-Dorien's Brigade desired to obtain possession of a certain kopje, and an assault upon it would certainly entail the loss of many lives. The loss would be greater than the gain, even if successful, so the Brigade staff decided the whole thing was a straight impossibility. A few minutes latter a staff-officer rode up to the general and remarked, "Sir! I fear we cannot capture that bloody kopje. The enemy holds a strong position, and their numbers are much in excess of ours. What are we going to do about it?" "Don't trouble yourself about that," said the General, as he blew a whiff of smoke from his pipe, "we'll get it allright. Just leave it till after dark, and the Royal Canadians will steal it."

General Smith-Dorien had every confidence in our gallant boys, and why shouldn't he? I fear you will be thinking I have lost the thread of my discourse, so I must return to a further description of our second day's march.

It was sunset when we reached our destination, but some of our transport teams didn't come up till midnight or early next morning. One of the transport horses died in the harness, on the march, through sheer abuse and exhaustion, but neither the loss of a horse or a man is of much concern on active service, and I don't think there was any enquiry made about it. The name of the place was "Remount Camp," and is quite significant. There wasn't a solitary human habitation to be seen in any direction, not even a kaffir bungalow. To the north of us was a gentle slope, where, it is said, two thousand horses and mules were buried, and this number was being daily augmented. On the south side of our lines was a beautiful pine grove, through which flowed a little brook. The cuckoos, as they flitted from bough to bough, kept up a merry conversation in their own way in the early morning and cool of the evening. There is no gloaming in South Africa. A few minutes after sunset it is dark, and remains so till the sun rises again in the morning. The cooing of the doves is not remarkable for its mellowness, but the braying of the mules and asses, apparently on a thousand hills, filled the night air with terribly awe-inspiring notes, that would lead to believe the creatures were being strangled. These silky animals, like geese, if they get ten yards apart, think they are lost, and set up a most unearthly din, which is extremely difficult for the uninitiated to endure, and prevents many from enjoying a night's repose. The water of the little stream was pronounced unfit for drinking purposes, for some reason unknown to me, and in fact I was not even aware of it being thus forbidden till I sauntered up to the horses' troughs to get a drink. The kaffirs working the pumps, but a gun-shot distant, screeched and screamed, made wild gesticulations, and were greatly alarmed at my strange actions. I distinctly heard one of them say "Don't drink there!" but I merely thought he wanted me to go to some other part of the camp, and with a deaf ear to his entreaties, I stooped down and drank heartily, although not exactly appreciating the flavour. When satisfied, I went down to where they were pumping the water, through pipes to the troughs, and had mine been a delicate stomach, one of those easily made roll and tumble in a state of estuation, I might have lost my refreshing draught after all. One of them informed me the water had been condemned by the surgeon, but had I seen before I drank what I witnessed afterward I would have placed it under a ban myself, even if the medical officer officer hadn't done so, for about a dozen samples of this most filthy species of the human race were washing their polluted garments and bathing in the stream above the pumps. However, when the worst had taken place, I experienced no trouble in retaining my hearty drink of the crystal waters of the brook, but may kind heaven forbid that such shall ever occur again. Being naturally a little bashful, when they laughed at me, I blushed and blushed again, as I discretly withdrew from their presence.

We remained at this station for five days, during which all horses temporarily unfit for service were turned over to the imperial authorities, and others substituted in their place. The transport horses, wagons and full equipment were also turned in, and thenceforth those who had been identified with this branch of the service, rejoined their respective troops, leaving the kaffirs to perform what was heretofore their duty. It was reported, and may have been true, that a pro-Boer shot a sentry at his post, in this camp, shortly before our arrival, but I scarcely credit the story, and believe it to have been a clever ruse on the part of our officers, to waken up the sentries and have them on the qui vive. Be it truth or fiction, it caused a nervous tremor in the sentinels placed beside the grove, and it was certainly an excellent place to do some "sniping." Perhaps I shouldn't relate the following story, but it is really too good to keep.

(To be continued.)

23 The Grove, Camberwell, July 21st, 1899.

Having given a fair trial to your specific, I gladly inform you that we have found great relief from using Kelpion, not only for bunions and piles, but also for wounds.

S. J. FIELD (An Old Athlete.)

WHAT SOLDIERS USE IN AFRICA.

H. B. Mollett, of Imperial Volunteers, writes to the South London (England) Press,—

"We had some Kelpion placed in our kits before leaving England. It is splendid stuff; we use it for every pain, wound or disease, in fact, for everything, and the doctors and men simply swear by it."

73 Theobalds' Road, London, W.C.

I had a most irritating rash on my body and could get no rest, but after using Kelpion ointment for one week it was completely cured.

KATE SEARLE.

At all druggists, for 25c.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

SECOND ANNUAL MEETING

Of the Ontario Library Association in Toronto, March 21st.

The second annual meeting of the Ontario Library Association will be held in Castle Memorial Hall, McMaster University, Monday and Tuesday, March 31 and April 1. Papers will be read on the following subjects: "Library Buildings," "Some Difficulties Met in a Small Library," "How to Secure the Passage of a Free Public Library Bylaw," "Canadian Fiction," "Canadian Periodicals," "Useful Methods in a Small Public Library," "The Training of Librarians," "The Public Documents of Canada and the Province of Ontario," "The Value of a Public Library to a Community," "Vicissitudes of a Public Library During Fifty Years." Everyone interested in library work is invited to attend. The secretary, Mr. E. A. Hardy, Lindsay, will be glad to furnish information to anyone on application, and especially requests that any librarian or member of a library board failing to receive a printed announcement will write for the same.

Strong Enough for Cancers.

Cancers are caused by poisonous humors in the blood. The only non-surgical treatment known is Merrill's System Tonic. This is a powerful blood purifier and at the same time blood builder. It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.

NOTHING BUT WATCHES . . .

Doing nothing else but repairing Watches for many years is the reason why we are so successful in getting the best results. Bring your Watch to us and you will run no risk in having it repaired and adjusted properly at a reasonable cost.

FROST'S
JEWELLERS AND OPTICIANS,
349 George St., Peterborough.

The White Pine.

The white pine is distinctively a northern tree. The native distribution of the tree was from Newfoundland on the east to Lake Winnipeg on the west and thence to the southern boundaries of Wisconsin, Michigan, Pennsylvania, New Jersey and Connecticut. The white pine belt also followed the Appalachian range as far to the south as Georgia. The best growth of the tree was in Maine and the British territory east of the state, along the St. Lawrence river, in New Hampshire, Vermont, northern New York, Michigan, Wisconsin, Minnesota and central Pennsylvania.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

Baby's Own Soap

is a guard against all skin troubles in children. It cleanses, softens, soothes and prevents chafing and sores.

IT IS AS GOOD FOR THE OLD AS THE YOUNG.

DESIRABLE PROPERTIES FOR SALE.

The Executors of the Estate of the late Thomas Henry offer for sale the following desirable properties, viz.:—

Parcel No. 1—No. 224 Sherbrooke street, the homestead, with half acre lot, good dwelling and in a desirable locality;

Parcel No. 2—No. 217 Charlotte street, a two story brick house, opposite the skating rink;

Parcel No. 3—No. 213 Charlotte street, opposite the Methodist church, a good comfortable brick house.

The above properties are all in good localities, centrally situated, and will be sold at moderate prices and on easy terms. For particulars, apply to Mrs. Thomas Henry, 224 Sherbrooke street, or to Myles Henry, at Henry & Co's. Grocery. dwtf.

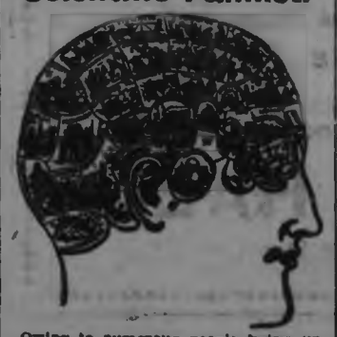
RETURN VISIT

—OF—

Professor O'Brien

Canada's Greatest Phrenologist and the only recognized

Scientific Palmist.



Owing to numerous people being unable to consult Prof. O'Brien during his first visit in Peterborough, a few weeks ago, he has been prevailed upon to pay the town a return visit on his way east, and can now be consulted at his former private office, 288 Hunter street Terrace, from 10 a.m. to 10 p.m. As Professor O'Brien will only remain in town for a very short season, people wishing to consult him should call at once, as this is their last chance. A photo read free to patrons.

Prof. O'Brien has just concluded two most successful seasons in Lindsay and Cannington, and is urgently requested to pay both towns a return visit at an early date. dtf

SERMONS ON TEMPERANCE.

Several of the Local Divines Speak on Prohibition.

THE ONTARIO BILL APPROVED

Many of the Ministers Endorse the Method the Ross Government is Adopting — The Sermons Which Were Given.

The Ministerial Association arranged, at its last meeting, for temperance sermons to be preached in the various churches of the town, last evening. A brief synopsis of the sermons preached is appended:—

MURRAY STREET CHURCH.

The sermon of Rev. J. Eastow, delivered at the Murray street Baptist church, on Sunday evening, March 9, upon the Ross Prohibition Bill, was based on the text I. Chron. xii, 32, "The children of Issachar which were men, had understanding of the times and knew what Israel ought to do."

Mr. Eastow, after giving the historical setting of the text, said: God reveals Himself to man in His providence as truly as in the Bible. Spurgeon said that he studied the newspaper to learn what God was doing in the world so should we. At the present time, and probably for the next year, God is urging us into an effort to banish drunkenness from our midst. There has been considerable quiet seed sowing, and that must go on for months to come. But soon we must put in the sickle and reap the harvest, and woe be to us if we let the harvest pass without the most diligent reaping.

It is for the prohibition in the traffic in liquor that we ask the vote. This is the goal that lovers of mankind and earnest temperance workers have for a long time desired to reach. But in most places this has seemed so far away from where the people have actually been, that something short of this has been aimed at first as a means of reaching this final goal. But now Ontario seems to be within one step of the final goal itself. This is delightful and inspiring and is worthy of all the effort that we can put forth to reach it. How horses strain every nerve when they get within a few steps of the goal! Let the race horses teach us a lesson of earnest effort now.

I must confess that I was very favourably impressed with the Prohibitory Bill of Premier Ross and with the speech he delivered in connection with it to commend it to the people. I was proud to have so manly, frank, and able a Christian statesman over me. I must frankly confess that I looked carefully for signs of the devices of the politicians so very commonly employed by legislators in connection with moral reforms, and intended to please but to blind the public, and to defeat the very end professedly sought, but I did not find them. His long, carefully considered speech seemed to me clear, frank, candid, and entitled from first to last and worthy of the hearty support of all the good people of the land. There seems to me no signs of the politician but every indication of an all-round, well-trained Christian statesman, who wants to use his high place and great talents in the Government to serve the best interests of the people in the province. This pre-eminently pleasing and needed when legislating upon great moral questions, and yet it is the place where usually it is the most lacking.

As to the referendum I do not see how it can be objected. If the people were not stirred up afresh and compelled to study the Bill and take a deep interest in it, and give their pledges to the Government that they would stand by it, and support it in its enforcement, the law would inevitably become a dead letter on the statute book.

The liquor business is an immense business; a large number of people are engaged in it. There are vast money-eyed interests behind it. Even although it is a wicked business and does immense harm, and they know it, still they are not going to lie down and give up the fight without a desperate struggle. Somebody has got to do the fighting to enforce the law after it has passed the Legislative Hall. I do not believe that the officers who are appointed to enforce the law can do it unless they have back of them in every community the judgment, conscience and co-operation of the people there.

The Canadian Government is a democracy of a first class type. That is it is a Government of the people by the people, and for the people. We can have any kind of a Government that the people want and are willing to support. If we want to drive the devil and the devil into the sea and have them as completely and forever buried out of sight as Pharaoh's chosen were buried in the Red Sea, we can do it. The Legislators and officers of the Government can do anything when the people back them and nothing without them. These men in high places are merely the servants of the people. All therefore they must every now and then appeal to the people and must compel them to think long and carefully and deeply. They must confer freely with one another, and then they must speak out plainly and loudly and tell the Government what they want and charge that they will help them to secure it. There is not a democratic Government in the world that can long survive that turns a deaf ear to the people. So you see that the Government and the people must act together. And they must therefore appeal to each other and speak to one another, that they may know each other's minds and thus intelligently and faithfully serve one another. Now this is all as I understand it that the referendum means. To me it seems indispensable with the passing of so important a law as the prohibition of the liquor traffic, and especially as the public pulse has not been felt upon this subject for a considerable time. I know, of course that the referendum must cost much money and time and hard labour. But I feel sure that the educative results especially the aroused conscience and determination to enforce the law when it has passed will more than outweigh all the cost. As to the time when the voting shall be done I do feel that the temperance people have a right to ask that it shall be done at a time when it will best suit their convenience, and when their enemies the liquor men, can do them the least harm, by spotting and boycotting them.

But the question with many still is, — "Is prohibition desirable, and if so on what ground?" That is certainly a vital question and will and ought to be freely and fully discussed. The reasons for prohibition, it seems to me, are very strong. In this brief discourse it is not possible to discuss this matter fully, but the question may be classed under the following heads:—

1. The liquor traffic is a stupendous injury to society and the government, and a great menace to both.

2. The second reason I name why the liquor business should be prohibited is that the liquor traffic is becoming a very great and dangerous power. The capital it commands is enormous. The organization is perfect. They are unscrupulous in their methods and are determined to have their way at any cost. No other organization is so lawless as they are and none have such immense means at hand to corrupt the very fountains of law as they have.

3. The third reason why we want prohibition is because of the means that have been employed hitherto, whether high license or low license or no license, to remove the evil or even to curtail it have thus far failed.

4. A fourth reason why we ought to have prohibition is that we may protect the interests of the wives, and sisters, and mothers, and children, who suffer so much from the drink evil, but who have no voice at the polls, and whose pleadings therefore are not heard in the political arena, nor in the halls of legislature.

Then we Christians need to lead the way, because through us the Christian spirit should be introduced and kept in the work of the whole campaign. The Christian spirit should regulate the whole movement. If it does not, we shall not succeed. We have a Christian Premier. Thus far he has nobly led the way. His whole speech breathed a Christian spirit. Let us follow that phase of his leadership.

The men who are in the liquor business are doing the devil's work. He must be wonderfully pleased with their means and methods. I cannot think of any other way in which they could serve him better. When the battle begins it will be a fight between God and the devil, between light and darkness, between sobriety and drunkenness, between purity and impurity. On which side are you? Let every man stand forth and show his colours.

AT ST. PAUL'S.

At St. Paul's last night, Rev. Dr. Torrance preached an admirable temperance sermon, taking his text from Isaiah xxviii, 7, "But they also have erred through wine, and through strong drink are out of the way; the priest and the prophet have erred through strong drink, they are swallowed up of wine, they are out of the way."

After speaking of the evils of intemperance from the light of reason, its injury upon the body and mind, the reverend Doctor continued as follows:

It is undoubtedly the case that the greater part of the crime committed in our land is the direct result of intemperance. Were it not for this evil, our gaols would have few inmates.

But its effects upon the moral nature are seen not only in the crimes which are made public, but in the offences which never come to light.

Many a broken-hearted wife knows the effect of this sin upon the moral nature of her husband. There is one who looks back upon the time when her husband plighted his troth to her, and led her to the altar. How happy were those early days of married life! No cloud was upon the horizon; with what joy did that mother look upon the face of her babe as she held him in her arms. But her husband took to drink. Then followed loss of self-respect, alienation of affection, unkindness in the home, so that all happiness vanished away. Some years ago a young man married into one of the wealthiest families in the Dominion. He took to drink. In a fit of delirium he pointed his pistol at his wife, intending to kill her. She said, "Shoot! nothing could be worse than my life with you!"

Let us look at the sin of intemperance in the Scriptures. There are [illegible] that the Scriptures positively forbids the use of fermented wine, and that so take it, even in moderation, is sinful. But we find that there are two different kinds of wine spoken of in Scriptures, that whereof is spoken of with approval; it is with reference to unfermented wine; and that in other cases the reference is to fermented wines. Thus, when it is said, "Melchisedec brought forth bread and wine;" "God causes the grass to grow for the cattle..... and wine that maketh glad the heart of man," "Wisdom hath killed her beasts, she hath mingled her wine," all the reference is to unfermented wine.

We do not believe that these persons have made out their case. The most competent scholars do not hold this view. Harm has been done to the temperance cause by insisting upon it.

There are two points which we may gather from Scripture. 1st, Intemperance is condemned; 2nd, that abstinence is recommended as a matter of expediency.

There are many places in Scripture in which intemperance is condemned. There are such passages as these:—"Woe unto them that rise up early in the morning that they may follow strong drink; that continue until night, till wine inflame them. Woe unto them that are mighty to drink wine, and men of strength to mingle strong drink." "But they also have erred through wine and through strong drink are out of the way." "Wine is a mocker, strong drink is raging, and whosoever is deceived thereby is not wise." "Hear thou, my son, and be wise and guide thine heart in the way. Be not among wine bibbers; among riotious eaters of flesh. For the drunkard and the glutton shall come to poverty." "Who hath woe? who hath sorrow? Who hath contentions? Who hath babbling? Who hath wounds without cause? Who hath redness of eyes? They that tarry long at the wine; they that go to seek mixed wine."

These are a few out of many passages, in which Scripture strongly denounces the sin of intemperance.

Total abstinence is recommended as a matter of expediency.

In the 14th chapter of the Epistle to the Romans, and in the 8th chapter of the 1st Epistle to the Corinthians, the Apostle speaks about the attitude of the Christian toward things which are morally indifferent. As to the eating of meats and the observance of days, the practice of different Christians was not the same. The Apostle warns them against allowing their differences to lead to harsh judgments of each other. He says: "Let not him that eateth despise him that eateth not; and let not him which eateth not judge him that eateth, for God hath received him." "Let us not therefore judge one another, but judge this rather that no man put a stumbling block or an occasion to fall in his brother's way." "It is good neither to eat flesh nor to drink wine, nor anything whereby thy brother stumbleth or is offended or is made weak." There is nothing sinful in taking wine and we may possibly take it without any danger to ourselves, but wine is certainly something, whereby one's brother may stumble or be offended or be made weak.

Think of the effect which our example may have upon others. It may teach them to take wine, who cannot do so without injuring their conscience and involving themselves in danger. "Destroy not him with thy meat for whom Christ died."

While there has been much fluctuation in public opinion, during the last 25 years, with regard to the best kind of temperance legislation the cause of temperance has been making steady progress. Look at a community like our own. It is not many years ago that liquor was freely distributed when farmers gathered at their neighbours' farm to take part in thrashing or in raising a barn. We believe that such a thing is now history. Nor is it many years ago that wine was regularly offered on the occasion of the social visit on a New Year's Day. Tea or coffee is what is offered at the present time.

Still the evils in connection with

WORKING RULES
OF THE PETERBOROUGH FEDERAL UNION NUMBER 9240.

All persons concerned are hereby notified that the following Working Rules have been adopted by the Peterborough Federal Union No. 9240;—

1. Nine hours a day shall constitute a day's work for all building, out door and corporation work, and for all labourers employed at any work outside factories and foundries. This also to include teamsters.
2. Masons' and bricklayers' labourers wages not be less than 20c per hour.
3. All other labourers, including foundries and factories, not less than $1.50 per day.
4. Town Corporation Labourers, $1.50 per day of nine hours.
5. All teams, on whatever work, shall be paid not less than $2.25 for nine hours' work.

By Order,

W. HENRY, President. W. A. REDFERN, Secretary.

Peterborough, Feb. 19th, 1902.

Daily Examiner.

London (England) office—142 Fleet street, E. C., Central Press Agency Limited, Special Agents.

MONDAY, MARCH 10, 1902.

THREE THOUSAND ON STRIKE.

Newfoundland Crews Demand $4 Per Cwt, For Seal ing Catch.

St. John's, Nfld., March 10.— The crews of the sealing fleet, numbering about 3,000 men, went on strike Saturday morning, demanding a higher price for the catch than is now paid. The present rate is $3 per hundredweight. The men paraded the streets with flags, and proceeded to Government House, to lay their case before the Governor, Sir Cavendish Boyle. The demonstration was orderly, but the ships will be unable to sail this morning unless an adjustment is effected before that time. The fishing season opens to-day.

The sealing merchants have declined to accede to any of the terms submitted by the men. The merchants intimated that the price for seals would be at least $3.20 per cwt., the same as last year, but declined to indicate whether any advance was likely. The authorities say that the condition of the foreign markets renders an advance improbable. Regarding the other claims presented by the men for better accommodations and other minor concessions, it is understood the merchants are willing to make reforms next year, but decline to alter existing conditions under threat of strike. The matter is now at a deadlock, and both sides are working hard to score a victory.

Covets Little Holland

London, March 10.—Considerable attention throughout Europe is being directed to a book just published in Berlin by Prof. Von Halle, urging Germany to press, and if necessary, to force Holland and her colonies to enter the German empire. The significance of the brochure lies partly in the fact that that is a recognized means of forming German opinion and foreshadowing national policy.

Crucial Day For Italy.

London, March 10.—The grave situation in Italy reaches a critical point to-day. This is the postponed date for the general railway strike and also for the decision of the fate of the Government in the Chamber of Deputies. The question of confidence will be put to the vote to-day, and without Socialist support the Cabinet must finally retire. No compromise has yet been arranged.

Navigation Opens Early.

Chicago, March 10.—The earliest opening of navigation on the Great Lakes since the Straits of Mackinaw became a factor in the commerce of the country, seems to be at hand. A resumption of business by April 1 on all the upper lakes two weeks earlier than usual is now predicted by vessel owners. At Sault Ste. Marie the channel is open, and the ferries are being in commission.

Ruby Lips and a Clear Skin.

are guaranteed to any woman who takes Merrill's System Tonic. This marvellous medicine is especially adapted for woman, because it supplies iron for the blood, cures constipation, strengthens the nerves and by its blood purifying and muscle-toning properties, quickly cures all female ills. 50 pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

DUNSMUIR CHARGES

Reception Passed at the S. C. Opposition Meeting.

EXCITED MEETINGS AT VICTORIA

The Premier Accused of Selling Part of His Own Railway System to Mackenzie & Mann—Mr. Smith Curtis Will Move For a Commission of Investigation—Premier's Life Threatened.

Victoria, B.C., March 10.—As election day approaches political excitement here is becoming intense. Mr. W. W. B. McInnes held forth to labor men on Friday evening, supporting Premier Dunsmuir. A strong anti-Dunsmuir element of labor men was present, and several free fights took place in the body of the hall as well as on the platform.

Col. Prior held a meeting, at which he declared that as a result of the arrival of Mr. Greenshields that evening from the east, clause 18 of the contract, which allowed the company to drop the agreement if so disposed within six months, had been eliminated.

It is also stated that negotiations with Mackenzie & Mann for taking over the E. & N. Railway are almost complete and will be finished immediately.

At the Opposition meeting on Saturday a resolution was passed condemning the Government, and particularly Premier Dunsmuir, for acting in the negotiations in a manner subversive of clean and honest government. The charge is made that the Premier was selling part of his own railway system to the contractors, that the agent for the Government is also the agent for Mackenzie & Mann, and closes by asking the Governor to dismiss the Government.

Copies of the resolution were sent to Sir Wilfrid Laurier.

Mr. Smith Curtis, on the House resuming on Tuesday, will move for a commission of the House to investigate the conduct of the Premier in using his office as Premier to sell his own railway as part of the Canadian Northern, and practically charge him with malversation of office as Premier.

LIFE IS THREATENED.

Premier Dunsmuir Receives Threatening Letters—Hot Campaign.

Victoria, B.C., March 10.—The election campaign in this city between Col. Prior and Bodwell is becoming fierce. Threatening letters have been sent to Premier Dunsmuir, declaring that an attempt will be made to kill him. Conservatives are highly wrought up over the matter, and it is feared that serious trouble may yet ensue.

Mrs. Dunsmuir, wife of Premier Dunsmuir, yesterday received a letter from an anonymous writer, warning her that if she did not keep her husband at home he would be shot. The Premier handed the letter to the police, but took no other notice.

Canadians and Divorces.

Ottawa, March 10.—According to the latest census bulletin there are 661 divorced persons in the Dominion. Of these 229 reside in Ontario, 58 in Quebec, 91 in Nova Scotia, 89 in British Columbia, 80 in New Brunswick, 36 in the Yukon, 35 in Manitoba, 19 in the Northwest Territories, 14 in Prince Edward Island and 10 in the unorganized territories.

According to the Dominion Statistican there have been granted in Canada by Parliament and by the courts 281 divorces, since confederation.

In Canada divorces are granted by Parliament for Ontario, Quebec, the Territories and Manitoba. In Nova Scotia, New Brunswick, British Columbia and Prince Edward Island parties, either by parliament or court. Yet the census shows 14 divorced persons living in that province.

FUTURE PROVISION.

There are two periods in a man's life, when in the natural course of things, he is unable to take care of himself—his childhood and his old age. During the whole of our lives we are consumers; during middle life only we are producers. It is therefore the aim of every man to put by enough during middle age, so that he will have an independent income for his old age. But, under ordinary circumstances this is often a hard thing to do. Men at that time of life generally find themselves with a family to provide for; perhaps their whole income is required to meet the household expenses, and it is impossible to find a remunerative investment for their small annual savings.

An Imperial endowment policy, as issued by the Imperial Life Assurance Company of Canada, Toronto, is an ideal investment for a man in this position. Should he die at any time the insurance will provide for his family and leave them in an independent position. At the same time he is providing an income for his old age, which will enable him to end his days in comfort. With an "Imperial Endowment Policy" a man need have no fear for his own future, or the future of his wife and family.

One Hundred and Fifty Lost.

Hong Kong, March 9.—It is reported from Canton that a river steamer, plying on the Canton River, ran down a native passenger boat and that 150 persons were drowned.

Killed Three Men.

New Brunswick, N.J., March 10.—The fast freight between Trenton and here yesterday killed three men at intervals of half an hour.

Rhodes Is Better.

Cape Town, March 10.—Cecil Rhodes, who is suffering from angina pectoria, is better to-day.

HURRICANE CAUSES ANXIETY.

Partially Allayed by Arrival of a Steamer at Partridge Bay—The Etruria Safe at Horta, Azores.

St. John, N. B., March 10.—Great anxiety and fear are now being felt at the continued absence of the Allan Liner Huronian, which left Glasgow for this port Feb. 11 to load hay and freight for South Africa. Strange to say, the big steamer, which was light, had not been reported by any craft. Some are of the opinion that the Huronian is lost, but the Allan people think she is disabled only.

Arrived Below Partridge Island.

St. John, N. B., March 10.—1.15 a.m.: A steamer arrived this morning and anchored below Partridge Island. It is thought probable it is the Allan Liner Huronian, which is long overdue. The only other steamer expected is the Parthenia, from Glasgow, Feb. 26.

The Etruria Is Safe.

Horta, Azores, March 10.— The Cunard Liner Etruria arrived here yesterday (a tow). The Etruria anchored at 6 o'clock last evening. All on board are well. She had a comparatively uneventful passage, except for the breakdown, which occurred during the dinner hour of Feb. 26. When this occurred the Etruria had only just finished speaking by wireless telegraphy with the Cunard Liner Umbria. After the accident was discovered the Etruria called the Umbria wirelessly for one hour, but without success. Upon examination it was found that the ship's propeller had broken off outside the tube, and that the rudder had been carried away by the propeller.

The Etruria will wait here for the arrival of the royal mail steamer Elbe, which left Southampton for Horta Saturday. The Elbe will carry the Etruria's passengers to England. The Etruria will then be towed to Liverpool.

RUSSIAN GENERAL DISMISSED.

Held Responsible For Massacre of Five Thousand Chinese.

London, March 10.—A despatch to The Daily Chronicle from Berlin says that the Russian General, Gribski, who was responsible for the massacres at Blagevestchensk, has been dismissed from the army.

According to the reports of the Blagevestchensk massacre about 5,000 Chinese were driven by the Russians into the Amur River. Russian troops on the banks clubbed or shot any who attempted to land, and the river bank was strewn with corpses for miles.

WAR WITH JAPAN.

Merchants Ordered to Leave Port Arthur by Russia.

London, March 10.—In a despatch, dated Shanghai, the correspondent of The Standard says that Chinese merchants coming from Port Arthur declare they have been ordered to remove their families from Port Arthur, because preparations were being made there for a war with Japan.

GRATEFUL WORDS.

A Quebec Gentleman who Found in Dodd's Dyspepsia Tablets a Perfect Cure for his Dyspepsia.

One who has never had to endure the dreadful pain and depression of Dyspepsia, cannot understand the wonderful gratitude of the slave who has found freedom from the bonds of this torturing monster.

This feeling of gratitude is so overwhelming that its expression is often hard for those inexperienced ones to understand. It lends a colour to the letters received in praise of Dodd's Dyspepsia Tablets which make them seem almost overdone.

"I thank Providence for having been so good as to put Dodd's Dyspepsia Tablets in my way," is a sentence selected from a recent letter. This is a sample of what thousands say in different ways.

F. C. Hunt, the assistant Post Master at Opemican P.O., in Quebec, tells of his deliverance in this way.

"Dyspepsia had me for a victim for some time—I suffered very severely—I saw an advertisement of Dodd's Dyspepsia Tablets, and the cures they were making of very bad cases.

"I decided that if they could cure others so promptly and effectively they would be worth trying, and so I began to use them.

"From the very start I was benefited, and now I am completely cured.

"My thankfulness to Dodd's Dyspepsia Tablets is too great for words to express, but I will always recommend them to those who may be suffering with stomach trouble or dyspepsia."

Such warm expressions of gratitude are won by very few medicines, and testify in the most eloquent manner to the genuine curative qualities of Dodd's Dyspepsia Tablets.

There are many to-day enjoying the glad blessings of good health who but for Dodd's Dyspepsia Tablets would still be the melancholy and miserable victims of stomach troubles of one kind or another.

Is it any wonder then that strong language is used in expressing the thankfulness of these liberated captives.

70 Men Out of Work.

London, March 10.—At an early hour yesterday morning fire destroyed the Columbia Handle Company's factory, situated on the Grand Trunk Railway tracks in East London. The building is owned and was occupied for a number of years by the Grand Trunk as a car wheel factory, but for the last three years by the Columbia Handle Company. The place was completely gutted, the roof and part of the wall falling in. The loss will be very heavy, and it is said the amount of insurance carried will not cover it. Seventy men will be thrown out of work.

Like Sunshine and Rain.

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. Don't neglect your lungs. Spend 25c for a bottle of Four T's at Ormond & Walsh's drug store and avoid congestion.

Tired Stomachs

Show Little Evidence of Real Disease—They Have Simply Been Overworked and are Tired, Fagged, Played-Out, Exhausted.

Don't try to whip them to greater exertion with stimulants, condiments and spices. Such treatment will only leave them worse in the end.

The proper treatment is something to help digest the food and give the stomach needed rest And at the same time tone up and energize the exhausted organ.

There is one remedy that will do this. It is convenient, safe, cheap, reliable and satisfactory. Once used, the dyspeptic is its advocate and friend. It can be bought at any drug store for fifty cents a box; call for Stuart's Dyspepsia Tablets and you have it.

Mrs. G. H. Critsley, 828 Washington St., Hoboken, New Jersey, writes: "Stuart's Dyspepsia Tablets just fill the bill for children as well as for older folks. I've had the best of luck with them. My three-year-old girl takes them as readily as candy. I have only to say 'tablets' and she drops everything else and runs for them."

Miss Lelia Dively, 6227 Plummer St., Pittsburg, Pa., writes: "I wish everyone to know how grateful I am for Stuart's Dyspepsia Tablets. I suffered for a long time and did not know what ailed me. I lost flesh right along until one day I noticed an advertisement of these tablets and immediately bought a 50 cent box at the drug store. It was not on the second box that I was gaining in flesh and color. I have of course followed something that has reached my ailment."

From Mrs. Del. Eldred, Sun Prairie, Wis.: "I was taken dizzy very suddenly during the hot weather of the past summer. After ten days of constant dizziness I went to our local physician, who said my liver was torpid and I had over heated my blood; he doctored me for two weeks without much improvement; I finally thought of Stuart's Dyspepsia Tablets (which I had used long before for various bad feelings) and the first three tablets helped me.

They are easily the best all around family medicine I ever used."

Mr. N. J. Boober, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Send a postal card or letter to the F. A. Stuart Co., Marshall Mich., for their free book on Dyspepsia.

John Haggart, Auctioneer.

He Jumped Into the Bay.

Toronto, March 10.—Samuel Miller, 52 years of age, a retired farmer, formerly of Markdale, ended his life by leaping into the waters of the bay from the Bertram Engine Works Co.'s docks. The body was recovered and will be taken to Markdale to-day for interment. No reason is given for the man's deliberate suicide. Miller came to Toronto with his wife and daughter three months ago after selling his farm and homestead at a good figure.

Spree Ends in Suicide.

Toronto, March 10.—Mrs. Mary Ellen Purcell, 41 years of age, the wife of Francis Purcell, a laborer, died on Friday night at her home in the rear of 72 Albert street, from arsenic poisoning. It is stated that the woman had an appetite for liquor, and had been indulging in it to some extent.

FOLLOW THE BARGAINS!

The T. O. Rush Co. Bankrupt Stock IS REMOVED

TO THE STORE SOUTH OF THE BANK OF TORONTO AND NEXT TO ED. BROWN'S GROCERY.

We had no room in the City Clothing Store for this stock, and have decided to slaughter the remainder in the above premises in a hurry.

Remember the T. O. Rush Co's Stock was bought at **64 1-2c** on the Dollar, and as we have already made profit enough out of the big sales, we can afford to let the rest go at almost your own bid. Positively no reserve. Mr. Fred Allison and Mr. Jos. Picard will continue to rush out this stock until everything is cleared.

H. Le Brun & Co.

A DREADFUL TRAGEDY

A Mother and Nine Children Burned to Death.

CAUGHT IN BURNING HOUSE

The Mother Was Seen at the Window But Was Unable to Get Out—Mr. Arthur Bouchard, Demented With Grief, Cannot Give Very Clear Account — A Coroner's Inquest.

Matane, Que., March 10.—One of the most dreadful holocausts that has been known in this part of the country occurred here yesterday morning, resulting in the loss of ten lives.

About 6 o'clock a servant girl, returning home from a walk in the village, discovered the lower part of the house of Mr. Arthur Bouchard to be in flames. The lower part is used as a grocery store, and the upper part as a dwelling house. The girl managed to arouse the family.

Mr. Bouchard immediately jumped from an upper window and was about to be followed by his wife, but she was evidently overcome, as she failed in her attempt to escape and perished together with her nine children, six boys and three girls, the eldest being a boy of 14 years, and the other children as follows: Girl, 12 years; four boys, aged 10, 9, 8 and 7 years; two girls, 6 and 4, and a boy 2 years.

The house was a wooden building, and had just been newly painted, and fell an easy prey to the flames.

Mr. Bouchard, the only member of the family to escape, is almost demented with grief, and cannot give a very clear account of the catastrophe.

Bouchard arose about 5 o'clock and lighted a fire in the kitchen and then returned again to bed. It is thought the fire caught in the kitchen. A coroner's inquest will be held today. It is not known yet whether the children were awakened or perished while asleep.

Strong Enough for Cancers.

Cancers are caused by poisonous humors in the blood. The only non-surgical treatment known is Merrill's System Tonic. This is a powerful blood purifier and at the same time blood builder. It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.

Victoria Memorial.

London, March 10.—Brock's big statue of Queen Victoria and Aston Webb's terrace for it to stand on in front of Buckingham Palace are assured facts, and work will be begun on the site immediately after the coronation.

If You Could Look

into the future and see the condition to which your cough, if neglected, will bring you, you would seek relief at once—and that naturally would be through

Karl's Clover Root Tea purifies the Blood

FATE STILL A MYSTERY.

Reported Confirmation of Murder of Andree Is Now Denied.

Winnipeg, March 10.—Hudson Bay Company managers here deny the report sent out Saturday saying that advices had been received from the company's factor at Fort Churchill confirming previous reports that Andree and his associates had been murdered by Arctic Eskimos.

Andree, with three companions, started for the North Pole in a monster balloon in July, 1897. He took with him a number of carrier pigeons and specially sealed and prepared bottles for sending back messages. Since that time but one message has been received from the intrepid Swedish explorer. This was dated July 11, 1897, and was found in the latter part of 1901.

A Boulder Crushed Them.

Quebec, March 10.—A shocking accident occurred at Riviere a'Pierre, County of Portneuf, Friday morning through which two workmen of the place named Plamondon and Lacoste, will, it is feared, lose their lives, as both of them are now in a critical state. The men were constructing a small building and were rolling a heavy bowlder down a grade, when the huge stone became unmanageable, and before they could escape it passed over both. They were unconscious when carried to their homes. Both Plamondon's legs were broken, while Lacoste's injuries were about his chest, over which the stone rolled.

50 Indians Were Killed.

Austin, Tex., March 10.—A despatch from Oaxaca, Mex., says: Official advices received at military headquarters at Oaxaca state that a large force of Maya Indians made an attack on the Government troops commanded by Col. Flores, near Peten Cobad, in Yucatan, and that the battle which followed was the most desperately fought and bloodiest of the war. Eighty Indians were killed and nearly 200 wounded. No official information is given out as to the losses on the side of the Government, but they are reported to be heavy.

Marconi in Montreal.

Montreal, March 10.—Signor Marconi arrived in the city yesterday and announced that he will spend the week here and in Ottawa interviewing the Government and machinery dealers respecting his Sydney station.

"I intend," he added, "to devote ten hours to commercial business and the remaining 14 hours will be given to experiments, for we cannot do commercial work and experiment at the same time."

The Italian inventor will go to Sydney in about a week's time.

Melbourne's Plague Measures.

London, March 10.—Special precautions against the spread of the plague are being taken at Melbourne, says a despatch from that city to The Times. Dirty blocks are being cleaned, rats are being destroyed, and garbage is being burned. It is hoped that the disease will not spread.

A Sawmill Burned.

Owen Sound, March 10.—The sawmill, stave factory, engine and boiler house, together with a quantity of staves and headings at Murphy's siding, some miles from here, owned by J. E. Murphy of Hepworth, were destroyed by fire Friday night. Loss about $8,000; insured in Gore Mutual for $2,000.

Work of Scoundrels.

York, Pa., March 10.—Just before molten metal was about to be poured into a large mould in the foundry of the Pennsylvania Agricultural Works yesterday the foreman discovered nine rifle cartridges and a small quantity of dynamite imbedded in the moulds.

Sold Army Secrets.

Vienna, March 1.—Count Frizoroffski, a Russian, and Baron Robb, an Austrian, have been arrested for selling military secrets to Russia. Owing to the high position of both, the arrests have created a sensation here.

MAGAZINE IN A CAVE

Col. Ross Discovers a Storehouse of Boer Ammunition.

CANADIAN SCOUTS' GOOD SCORE

It Was Northeastward of Rietz, Orange River Colony, and Contained 310,000 Rounds of Rifle Ammunition, a Maxim and Other Warlike Supplies—Two British Irregulars Shot For Misconduct.

London, March 10.—Lord Kitchener, in a despatch from Pretoria, dated Saturday, reports the discovery of a Boer magazine in a cave northeastward of Rietz (Orange River Colony), containing 310,000 rounds of rifle ammunition, hundreds of shells and fuses, 200 pounds of powder, a Maxim gun, heliog, field telegraphs and quantities of stores. Thirty-five Boers have been captured in the same neighborhood since March 4. The magazine was discovered by Canadian scouts, commanded by Col. Ross.

This capture reminds a veteran army officer that its hiding place was closely indicated in a pamphlet published at the outbreak of the war. The writer of the pamphlet forecast with remarkable accuracy the nature and scope of the Boer operations, and assumed that for the final stage of the guerilla warfare a large supply station would be established in advance. The Canadian scouts have found the secret hiding-place of the reserves of Dewet's ammunition in the district to which his burghers have been returning constantly.

Shot For Killing Prisoners.

London, March 10.—Cabling from Johannesburg, the correspondent of The Daily Mail recites the first reported cases where British troopers have been shot for misconduct.

The correspondent says two irregulars who were convicted by a court-martial of shooting a Boer after he had surrendered, were shot last week at Pretoria.

Compulsory Force.

Pietermaritzburg, Natal, March 8.—The Natal Legislature has adopted a resolution in favor of compulsory military service.

WARSHIPS ALMOST COLLIDED.

Ill-Fated Camperdown Twice Nearly Sunk the Empress of India.

Queenstown, March 10.—During the trip of the Channel squadron from Berehaven to this port, the battleship Camperdown, which sunk the battleship Victoria in the Mediterranean June 22, 1893, drowning Vice-Admiral Sir George Tryon, 22 officers and 336 men, twice narrowly escaped sending the battleship Empress of India to the bottom.

There was a dense fog during the whole trip. Soon after starting, the Camperdown steamed within a few feet of her sister battleship, and only skillful manoeuvring prevented a collision.

Again, when off Kinsale Saturday, the Camperdown was almost in collision with the Empress of India, when shouts of "For God's sake, reverse" prevented a disaster.

IMPROVED VITALITY.

Increase the Oxygen-Carrying Power of the Blood and You'll Escape or Cure Disease—You Can't Do This by Taking Drugs—This Tells What Will Do It.

For years I have been a sufferer from dyspepsia. My food seemed to lie in a solid lump in my stomach, which gave me great distress. I felt weak and much debilitated all the time, and found it hard to attend to my business. I tried several good physicians, and also many of the drug preparations for my trouble, but I received no relief. I tried dieting carefully, but somehow the trouble continued.

Mr. John Wesley advised me to give up drugs and try Ozone, which I at last decided to do. In a very short time I began to notice an improvement. After taking three bottles I am pleased to say that I can now digest any food I eat. My vitality has *greatly increased*, and work is now a pleasure to me. I owe this wonderful relief and improvement to your no drug preparation, Ozone. I feel that this is a god-send in my case.

Any wishing to interview me may do so at any time.

I think you are to be complimented on discovering so effective a preparation for curing disease. Signed W. J. Adams, 428 Wellesley-street, Toronto, Canada.

If you suffer from any form of stomach disorder do not imagine your case is incurable until you have tried Dowley's Liquified Ozone. Give up drugs and look for a permanent cure—you may get it through your first bottle. All druggists carry it in stock for 50 cents and $1 a bottle.

Want to Dam the Niagara.

Washington, D.C., March 10.—Among the provisions of a bill to be reported to the House on Monday is one which relates to the building of a dam across the Niagara River at the outlet of Lake Erie. The bill also provides for the formation of an international commission to be composed of three members from the United States and three from the Government of Great Britain to represent the Dominion of Canada. The proposition is to raise the water two or three feet above the low water level of the [illegible]. That will give increased depth to all the ports of Lake Erie as far west, it is believed, as the Detroit River, without doing any damage, because it will merely raise the level of the lake to what it formerly was.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

For twenty-four years Vapo-Cresolene has been extensively used for all forms of throat and bronchial troubles. All Druggists.

BRITISH CATTLE MARKET.

London, March 8.—Prices steady; live cattle, 12c to 12½c; dressed weight; refrigerator beef, 10c to 10¾c per lb.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Polson's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

Send Note to Porte.

Constantinople, March 10.—The American Legation here yesterday presented to the Porte the second note referring to the capture of Miss Ellen M. Stone. In this note it is pointed out that, as ransom paid and the prisoners delivered to Turkey, the brigands must be within the Turkish frontier, and should, therefore, be captured.

"THE TERRIBLE TWINS"

Rheumatism and Sciatica are thus well named.

South American Rheumatic Cure relieves in 6 hours and cures in 1 to 5 days.

South American Rheumatic Cure is the open door to a perfect cure—it goes directly to the seat of the trouble—drives out of the system the uric acid—the effete matter—the poisons which fasten themselves in the joints and muscles—retard circulation—induce inflammation and the intense suffering that follows such derangement. Relief from the first dose—marvellous cures have been made in from one to three days. 76

THE GLARE OF THE SUN AND SNOW

is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

THE SLATER
SHOE
Branded Values.
A nugget may be worth twenty dollars, but you don't know it until it is tested and weighed.
A piece of gold stamped by the mint is worth exactly what it is branded.
A common shoe may be worth what is asked for it, but you don't know till you wear it and find out. It may be Goodyear welted and it may not be.
A "Slater Shoe" branded with makers' name and price in a slate frame is worth exactly what the makers say it is.
They know its value. They put a coupon on it telling the leather it is made of, the wear it will give and how to care for it.
Every shoe branded with price and name, $3.50 and $5.00 per pair. "The Slater Shoe."

R. NEILL, Sole Local Agent.

GOUGH BROS.

375-379 George St., Peterborough. 5-8 Queen St. W., Toronto

The Dawn of a New Business Year!

Clothing to Measure!

Some people have a fancy that they can't get good clothes ready to wear. They can at **GOUGH'S**—always. But we won't argue the question. If you have made up your mind to get your clothes made to your measure, our custom department will give you a perfect fit, and made up from the newest and nobbiest of Spring Fabrics—and

MINUS THE HIGH PRICE.

And, by the same token, come and register a good kick if anything goes wrong with any garment you get made here.

Duncan Cameron is our skilled cutter.

TULLY & MERRELL, Managers.

Daily Examiner.

MONDAY, MARCH 10, 1902.

Card of Thanks.

The many friends who have shown their kind sympathy in our great sorrow will please accept the grateful acknowledgments of the Rev. and Mrs. C. L. Thompson and family through this medium.

Band Concert.

A band concert will be given in the opera house on Friday evening next, when a varied programme of vocal selections, numbers by the band, etc., will be given. On Good Friday afternoon and evening the band will also give concerts.

Easter Cards and Novelties.

We invite an early inspection of our new and beautiful designs in Easter cards and other novelties, at the Peterborough Bookstore. See the pretty new booklets and unique egg designs in boxes. A. H. Stratton & Co.

Fragrant and Fresh.

When you order your flowers from Cobb's you are assured of good quality. Carnations, violets, lilies, begonias, ferns, palms, etc., fragrant, hardy and fresh, at dwarfed prices. Aylmer street Greenhouses. Phone No. 182.

Funeral Notice.

The members of Diamond L.O.L. No. 80, are requested to meet at the Orange Hall, Simcoe street, on Tuesday, March 11th, at 1.30 o'clock, p.m. to attend the funeral of their late Brother, Thomas Brown. Members of Sister Lodges cordially invited. By order. W. H. G. Armstrong, Secretary.

George St. Epworth League.

George street Epworth League have arranged for their literary meeting this evening, a debate on the subject, "Resolved, that Canada would be benefitted by the bestowal on woman of the franchise, and representation in Parliament." The affirmative will be taken by Mrs. Kendry and Mr. S. R. Armstrong and the negative by Mrs. Garvin and Mr. Jeffries. A very interesting discussion is anticipated. The public are cordially invited to be present.

PERSONALS.

Mr. Walter Squires spent Sunday at his old home here.

Miss Nattrass of Millbrook, is in town, the guest of Miss Parnell.

Captain Henning is in town to-day inspecting the stores of the 57th Regiment.

Mr. P. Lancaster, editor of the Havelock Standard, was in town on Saturday.

Mr. Fred Sawers, of the Faculty of Trinity College School, Port Hope, spent Sunday in town.

Miss Maggie Storer, Lindsay, is in town the guest of the Misses Hutchinson, Bolivar street.

Dr. A. F. Grant, of Iowa, is in town the guest of his father, Mr. Andrew Grant, No. 26 Waterford street.

Mr. Sidney Tivey, of Tweed, and formerly of the Examiner press room, is spending a few days in town.

Mr. F. R. Fakenham, who lately resigned his position on the Scranton Correspondence School, left for Toronto this morning, to take a position with McColl Bros.

Mr. Shobbrook and wife, of Sault Ste. Marie, are visiting the latter's father, Mr. Matthew McElwain, of Stewart street. Mrs. Shobbrook has been in the city visiting with friends for the last three weeks. Mr. Shobbrook is one of the prosperous merchants at the "Soo."

NEWS NUGGETS.

—The Men's Guild of St. Luke's church will meet to-night in the school house at 8 o'clock. A large attendance is requested as matters of importance will be discussed.

ASHBURNHAM CIVIC ASS'N.

The last meeting in February was well attended and quite profitable. The next meeting will be held on Tuesday, March 11th, in the council chamber, at eight o'clock. "House numbering," "Fire alarm system," "Sewerage system," "Beautifying our village," these are amongst the subjects to be considered. All are allowed to take part in the discussion. Several new members were added to the list at the last meeting, and it is hoped that there will be a good attendance and that others will join on Tuesday evening.

A. P. S. AT HOME.

The Elder Pupils Spend a Pleasant Evening—Address by Rev. Mr. Langfeldt.

A very successful "At Home" for the larger pupils of Ashburnham Public School was held on Saturday evening, March 8, in the Town Hall. About an hour was spent in various games. This was followed by a short, pointed and profitable address on "Self-Respect," by Rev. E. A. Langfeldt, M. A., after which an excellent series of lantern views on "China" were presented. There were also several views of local interest. These were explained by Mr. R. B. Rogers, to whom the school is indebted for this series of interesting gatherings.

After the presentation of the views, which were remarkably clear and distinct, light refreshments were served.

It is probable there will be another "At Home" in a few weeks, at which it is hoped the parents will also be present in much larger numbers. The pupils in the Second, Third and Fourth Book Classes are included at these gatherings.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

Woman is as Old as She Looks.

It is not age but disease, weakness and ill-health that makes women look old, care-worn and wrinkled. You cannot look your best unless you feel well, strong and vigourous, with pure, rich blood and steady nerves. Dr. Chase's Nerve Food makes good looks because it makes good health, restores the healthful glow to the complexion, rounds out the form and gives elasticity to every motion of the body.

THE LATE MR. THOS. BROWN.

One of Peterborough's Oldest Orangemen Passed Away Last Night—82 Years of Age.

In the death of Mr. Thomas Brown, of No. 547 Downie street, which occurred Sunday evening, Peterborough loses an old and respected citizen, and the Orange Order loses one of its oldest and most enthusiastic members.

The late Mr. Brown, although in his 82nd year, was in his apparent usual good health until Friday, when he received a stroke of paralysis, which terminated fatally two days later.

Deceased was born at Cotehill, Ireland, in February, 1820. In 1851 he married Miss Sarah Harrison of Canningston, a neighbouring village. In 1865 he removed with his wife to Canada, settling at Peterborough, and took part in the Fenian Raid in 1866, as a member of the 57th, Ashburnham Rangers. In recognition of his services at this time he was presented with a medal by Hon. Mr. Borden, Minister of Militia.

Mr. Brown was an active member of the Royal Black Chapter of Knights of Ireland, and for over sixty years was connected with the Orange Order. He was a devout Presbyterian in faith and a member of St. Paul's congregation. In politics he was a staunch Conservative. Strictly honest in his dealings with men, he was honoured as such by all who knew him.

He leaves to mourn his demise a family of two sons and three daughters, Joseph Harrison, of Calgary; Robert K., of the Peterborough Hardware Co.; Mrs. Wm. Dann, of Port Hope, and Misses Jennie and Sarah, of Peterborough. His wife predeceased him some fifteen years ago.

The funeral will leave his late residence, No. 547 Downie street, on Tuesday afternoon, at 2.30 o'clock, to the Little Lake cemetery. Service will be conducted at the house by Rev. Dr. Torrance, at 2 o'clock. The rites at the grave will be conducted by the local Orange Lodge, No. 80, who have lost in Mr. Brown a valued and esteemed brother.

To the sorrowing relatives is extended the sincere sympathy of all in their great loss.

THE NEW ROOMS.

The Labour Union Will Have Quarters of Their own Shortly.

The Peterborough Federation of Labour will in a few days be located in their new quarters on Water street. They have leased the old Business College rooms over Mr. Jas. Stevenson's coal office, and are now engaged in fitting up the apartments. The old Business College will make an ideal home for the labour union. It is large and comfortable and centrally located. The union has purchased from the 57th Band several hundred new chairs which the band brought only a short while ago. The rooms will be lighted with electricity and supplied with all modern lodge room conveniences.

BIRTH.

TORRANCE.—At 281 Rubidge street, on the 9th of March, 1902, the wife of Rev. Dr. Torrance, of a daughter.

RICHARDSON—At No. 39 Gilmour street, on Saturday, March 8th, 1902, the wife of Mr. G. B. Richardson, of a son.

McFARLANE — At Peterborough, March 10th, 1902, to Mr. and Mrs. Chas. McFarlane, Gilmour street, a daughter.

WITH THE ODDFELLOWS.

Thursday Night's District Rally of the Members of the Craft.

Pontypool Lodge, No. 236, I.O.O.F., held a very successful at home on Friday evening in their handsome hall. Two candidates received the initiatory degree, after which an excellent programme was rendered down stairs in the assembly hall.

Bro. M. W. Matchett, D.D.G.M. gave an excellent address on "Oddfellowship," instructive not only to the Oddfellows, but to many outsiders who were present. Games, etc., helped to pass away a few pleasant hours. Light refreshments were served and all departed, well pleased with the evening's proceedings.

On Thursday evening, March 13th, at half past seven, an Oddfellow's rally will be held in the lodge rooms at Peterborough. Members are expected from all the surrounding lodges. The initiatory degree will be given at 7.30 sharp, followed by the other three degrees. The Oriental degree will also be conferred, followed by speeches, refreshments, etc. Grand Secretary King of Toronto, has promised to be present. All Oddfellows are asked to be present, and an unusually pleasant time is assured.

THE POLICE COURT.

There Were Two Cases Disposed of at the Court This Morning.

At the police court this morning Alex Ferguson's charge against Bert Thompson for non-payment of wages was disposed of. The complainant was given judgment for $12.10 and $2.60 costs.

Thomas Branscombe has been at the shanties all winter. He arrived home on Saturday night and immediately commenced to paint the town a vermillion red. He was getting along splendidly, until about 3 o'clock on Sunday morning when he made his presence obnoxious around a certain private residence in the south end of town. The police come down and removed him to the police station. This morning it cost him $5.00 for his fun. This is the first case of drunk and disorderly that has come before the Police Magistrate on a Monday morning this year, and it is only an indication of the decrease in drunkenness. Some years ago there was never a Monday morning but that there was a great amount of griat to grind at the mill of justice, arising out of men who held their Saturday night spree or Sunday debauch.

New Delicacies.

We offer the following fresh arrivals, which are all extra choice: Large Florida pineapples, ripe bananas, new cauliflowers, crisp, white celery, new rhubarb, radish, lettuce, onions, parsley, etc. S. A. Oke, No. 376 George street. Telephone 18.

The Paper You Like.

We wish to introduce two of our leading lines of note papers with envelopes to match. They are known as "Sylvia Grey," being a beautiful London Grey shade of note paper, done up in neat packages of 125 sheets and envelopes in boxes of 100. This week the price will be 25c per package, and 25c for the envelopes. Our "Adriatic Parchment" paper is a pure vellum white note, a beautiful surface to write on—in packages of 125 sheets for 25c., envelopes in boxes of 125, for 25c. Just received, "The Right of Way," by Gilbert Parker, latest copyright, at 75c. each. A. H. Stratton & Co., 417 George street.

BOERS CAPTURE GEN. METHUNE.

Many British Officers and Men Killed and Wounded.

GEN. DELAREY LED BOERS.

A Disastrous Day for the British Arms in South Africa—British Force Numbered 1,200 Men.

(Special to the Examiner.)

London, March 10th, 1902.—General Methune and four guns have been captured by General Delarey. General Methune was wounded in the thigh. Three British officers and 36 men were killed, five British officers and 72 men were wounded, one British officer and 200 men are missing. The fight in which General Methune was captured occurred before dawn on March the 7th, between Wineburg and Elichtenburg, Orange River Colony. The British force numbered 1,200 men. The Boers captured all the British baggage. General Methune is retained as a prisoner. General Methune was the British Commander who led the army to the relief of the besieged Town of Kimberly, in Nov. 1899. In this expedition he successfully engaged the Boers at Belmont, Graspan, Modder River, and Magersfontein. The British were successful in the first three battles but suffered a severe defeat at Magersfontein. The Boer Commander at Graspan was General Delarey who has now taken Methune.

Whiten makes the best crayon work in town; when you want large work done, take your small pictures to Whiten. He will make work to suit you.

Death on Coughs.

Don't let a new cough grow old! Kill it while it's young, or it may kill you. Scott's Emulsion can't hurt you, but it's death on coughs—new or old.

"EVANGELINE."

An evening with America's greatest Poet. Recitations and stereoptican views from this charming poem. Charlotte street Sunday School Hall Monday, March 10th. Admission 10c.

GET YOUR BIKE READY!

Now's the time to have your wheel Cleaned and Repaired before the Spring rush begins. Bring your [illegible] without delay while [illegible] time to overhaul them. Charges moderate as usual.

Jas. H. Metheral

225 Hunter Street.

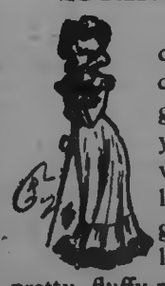
RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

A BIG STORE Full of New Goods

And every person pleased with the showing. It's a pleasure for the salespeople to show the New Goods, and a pleasure for the firm to see the way our customers are pleased with the Goods. Every day brings its admirers and buyers too. Many people buy now while assortments are complete.

SPRING PATTERNS

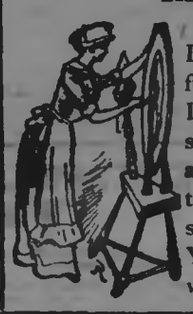


It will do you no end of good to see the pretty dress materials we have gathered together for your inspection. You will find here plenty of light fabrics for spring gowns, both in cotton, linen, silk and wool, pretty, fluffy plain and coloured goods to suit your idea of elegance and fashion; soft goods to carry out any colour scheme you may have prepared. No doubt about getting the right thing for fashion and quality.

SERVICEABLE GLOVES . . .

We have carefully chosen the Gloves we put in stock. We have been successful in getting our line from those who give attention to the best tanning, and who put the most care into the making. We keep Perrin Frere's Gloves only. They have a colour that will last. They will not be easily faded from wear, and will hold their shape. Our prices are **$1.00** and **$1.25** per pair. Every pair guaranteed.

REAL LINENS! REAL LINENS!



This is going to be a linen season in earnest. Linen Dress goods are to be very much in favour, and it is wonderful to see the pretty effects in these goods. Then in Table Linens, Towellings, Napkins and other linen goods, we are showing a bigger and better assortment than ever. We make a specialty of Household Linens—the sort of linens that stand the strain of hard wear and repeated washing—made from selected flax and woven under the most favourable conditions. You will like both the Unbleached and the Pure White Linen we're offering this season at much lower prices than last season.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

PETERBOROUGH BOOKSTORE.

PORT HOPE KNITTING WORKS

SGT. LeBAR'S BOOK.

A Peterborough Member of the First Canadian Contingent Tells his Experiences.

Sergt. V. LeBar, who was a member of the first Canadian Contingent to South Africa, and who has just completed his three years' service in the active militia of Canada, has rereturned to Peterborough. Since arriving home, some weeks ago, Sergt. LeBar has been busily employed in writing an account of his experiences on the first Canadian contingent. It is his intention to publish his writings in book form, and as Sergt. LeBar is a clever writer his production should prove to be interesting reading matter. His friends have no fear but that his literary efforts will meet with a favourable reception when placed on the market.

Sergt. LeBar says that he is through with soldiering for all time to come.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, make them active, vigorous, and thoroughly cure these ailments. One 25c box of this great Kidney medicine will do you a world of good.

Fresh caught White Fish, Trout and Pike. Maple Syrup 30c. quart. Dried Peaches 10c. pound. R. A. DUTTON, 448 George street. 'Phone 304.

SERMONS ON TEMPERANCE.

(Continued From 1st Page.)

our drinking customs are great enough to awaken apprehension in the public mind.

There is the treating system, which is so prevalent in our midst. It is by treating and being treated that many a young man first acquires a taste for strong drink. It is scarcely possible to exaggerate the evils of this treating system. Some months ago a man came on business to this town. There were two of the business men of the town, with whom he took a social glass. Can that man think with pleasure of his visit when he knows that these two men are now dead?

I must not close without a brief reference to the Prohibition Bill lately introduced by the Premier of Ontario. It strikes me as an honest attempt to redeem the pledges which the Government has given upon this subject. It is not to be supposed that it will satisfy extremists on either side, but I am inclined to think that it will commend itself to the judgment of fair-minded men. There are some, who think the referendum an objectionable feature in the Bill, others the date fixed for voting upon it. Those who desire prohibition had better set themselves to secure people to vote in its favour rather than to pick holes in it.

REV. W. L. ARMITAGE.

In St. Luke's church, Rev. W. L. Armitage gave a stirring and able sermon from the text, I Cor. viii, 2, "And through thy knowledge shall the weak brother perish for whom Christ died?" and pictured most vividly "the man" and 'his influence."

In opening the speaker explained St Paul's object in writing the chapter which, he said, was owing to the difficulty over "eating meats offered to idols." The Christians who had been Jews saw no difficulty—to them the idol was nothing—he always had been taught to abhor idols. But the Christians who had been heathens and long associated with idols could not get rid of the idea that there was something in it still. Therefore, when he followed the example of the other, his conscience being weak, was defiled.

A strong parallel picture was then drawn of the strong man of will power and moral character, who can use, and not abuse, things of the day He, however, has not charity — that love that considers his fellow man—and through his personal strength the weaker ones who try to follow his example, fall. St. Paul, realizing this bound himself by the scruples of others, disowned his rights, his liberty, and became all things to all men, that by all means he might gain some.

Speaking of "influence," Mr. Armitage showed from many illustrations how good men, fully understanding their own position in relation to Sunday, church going, the use and truth of the Bible, etc., were forgetful of the weak brother, who could not stand where they stood, and did much harm.

So it was in the matter of drinking. The example of men respected in the community, and in high positions were a snare to the weak. The treating system is a curse. None of those who occasionally drink intend to be drunkards, but the wife, the mother, the sister, the church, soon can tell you the results—and we know too well the end.

The present struggle for prohibition is an open confession of moral weakness — a confession of Christians that they have failed to know the truth of Christ's saying, "All power is given unto Me in heaven and in earth." It is very doubtful if prohibition as it is advocated, will really prohibit, and if it does not, the speaker said, in the name of God and of humanity let us not have anything which would be a repetition of the Scott Act.

A strong and eloquent appeal was made to all Christians to exert every influence to lessen the evils of intemperance and save the weak brother, "for whom Christ died."

AT GEORGE STREET.

There was a large attendance at the George street Methodist church last night, and Rev. Mr. Wilson preached an interesting sermon from Psalms xciv, 20, In the course of his remarks, he said that the following positions positions are likely to be endorsed by the most of the congregation:

1. That civil government is an ordinance of God.

2. That the civil magistrate is the servant of God, administering righteous law under a sense of responsibility to the Sovereign.

3. That the proper object and aim of civil government is the good of the people.

4. That the governing power must minister not evil, but to the material good, and moral good.

5. That the liquor traffic is not for the good of the people, either materially or morally, because it serves no desirable end, meets no natural need, does not conduce to any advantage to the individual, the family or the state; but is all evil, and evil continually, and the Government should have no relation to it—should not protect it, nor foster it.

That the liquor traffic is an evil all efforts to control it prove; it is the most aggressive foe to the family and to the church. It impoverishes the land. It is the bitter, conscienceless plunderer of the wealth of the family and of the nation. $1,400,000,000 is the drink bill of America, and 600 millions of this is from the workingmen. The drink bill of Canada is $40,000,000—as direct cost, and $100,000,000 indirect. This is the constant drain on our land.

Hon. G. E. Foster said, "The wonder is that with such a terrible waste our country enjoys any prosperity. If this waste can be made to cease, Canada in ten years would not know herself, so prosperous and wealthy would she become." Turn all this money into useful articles of consumption and prosperity would dawn. If the expenditure of our people for useful and needful articles is increased by one-half, the domestic trade of the country would be increased by one-half, and the only man who would suffer by the change would be the liquor dealer.

Actuaries tell us that out of every $1000 of Canadian money spent in one year, $250 goes for bread, $200 for clothing, $150 for education, $75 for religious purposes and $325 for rum.

It hindered the intellectual development of our people. We have two great educational forces at work in our land — our public schools, of which we are justly proud, and the saloon. What is the centre of the most degrading influences and source of great danger to the church and community?

Let a young man of good social standing and good business abilities and good moral character commence to-day to frequent a saloon, increasing his time and money spent over the bar for ten years. At the end of the time what returns will he have for his time and money spent? Would he not have been better off morally, socially, intellectually And financially if he had never entered the place? The liquor traffic is the foe of every interest of humanity and of every claim of the first God. It is the despoiler of reason and intelligence, of virtue and piety, of social order and domestic peace and national prosperity. Yet it is licensed and protected and fostered by the Governments of Christian lands, and while the brotherhood of universal humanity cries out against the traffic.

It is here because of the revenue. It gives a revenue. Whence comes the revenue? Out of murder and robbery, out of fallen men and fallen women, desolated homes, tears of wives and mothers and orphan children. Is it manly to take such money? How can a Government, "an ordinance of God," take such money and be guiltless? All this waste and sin for 7 or 8 mills of grog money.

How arrest the evil? Two plans—License and Prohibition.— Some say regulate the traffic by law—High license—and you will diminish sale—and consumption of liquor. It has been taxed in the British Empire since 1495 and yet it is here as compact, as insolent, as lawless as ever. There are fewer saloons. In 25 years Mr. Ross says 6155 drinking places have been reduced to 2,950. Yet the consumption of liquor is increased. The best authorities say license is a failure. Experience says license is a failure. License is no remedy. (1.) It does not remove the curse, and it does deliberately propose to continue the traffic. (2.) It grants the right to make drunkards, criminals, widows and orphans and idle men. It pays part of the taxes and this keeps the conscience of some men quiet. License is wrong in principle. If the traffic in souls is evil, and "the governing power must minister not evil," the licensing must be wrong. If it is evil no financial considerations can make it right. It should not have the sanction of law. In other things we regulate what is right and prohibit what is wrong. Why not in the liquor business? Human law is the echo of Divine law, Divine law says thou shalt not kill," human law says "Thou shalt not kill." There is no high tax on killing. Divine law says, "Woe to him that giveth his neighbour strong drink," human law says "You may, if you divide the spoils with the state." We believe the license system is wrong in principle. Prohibition seems to be the only effectual way to deal with this gigantic evil. "We prohibit the sale to Indians, and minors—on Sundays and on election days—why not every day and to all classes and conditions of men? The time has come when something decisive must be done. Patient endurance has made it gigantic and strong and insolent in spirit. The time is at hand when a long suffering people should say, "Thou shalt not."

The bill now before the House is the best yet offered to temperance people. While not pleased with some of its features we hail it as a blessing. One mystery remains to be explained and must be explained—why the majority of November will not settle the question, and not the majority of 1898. But temperance people must not be divided, and there is moral force enough in the Province of Ontario to win.

REV. MR. LANGFELDT'S ADDRESS.

Rev. E. A. Langfeldt preached in All Saint's Church last night, and in the course of his sermon referred to the prohibition question. While

Our $1.25 Corset is very durable and is good value at... $1.25
$2.00 Corset
This line is special value and always maintains its place in the favour of the wearer. $2.00

Experience Counts

There is a lot in knowing how and where to buy. We have had over a score of years' experience, which has enabled us to find where the best goods can be had for the least money. We have thoroughly and thoughtfully taken into consideration your wants, and our varied stock eloquently testifies.

IN BUYING at our stores you get the benefit of all this, for what our experience enables us to save, we pass along to our customers. Our New Wall Paper, Window Shades, Curtain Poles, Dinner Sets, Tea Sets and Crockery will especially bear us out in the assertion that no other house has been more diligent in providing for your wants. EVERYTHING possible has been done to secure still more of your worthy confidence and to bring us many congratulations from our customers.

Just Think—We can furnish enough Wall Paper and Border to paper a large room as low at 50c, or we can do it up in the nobbiest way possible, with the newest shades, gold finish borders and ceilings to match, at the low cost of $4.67. We have every desirable line, chosen from the leading American manufacturers, and we feel confident you will be consulting your own interests by calling at 379 George Street, or, should you prefer buying in Toronto, we will be pleased to see you at our large Wall Paper Stores at 262 and 264 Queen Street West. We know that our heavy buying brings a saving to our customers, at

ROUTLEY'S PETERBOROUGH and TORONTO STORES. Phone 363.

FURS MUST GO NOW

Grand March Finish.

We've had our profit; now the time is here for you to make yours—the time when you can buy for the first cost of manufacturing them—the time when you can save from 25 per cent. to 35 per cent., and that's a higher interest that you can get in the bank. Look over this list:—

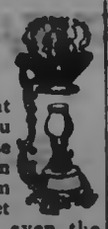
Kills Germs.



That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubles of the throat and bronchial tubes.

50

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, includes the Vaporizer and lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE CO., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Ednieson, druggist.

LONG BROS.

Nos. 388 and 416 George St.

"BE HONORABLE,"

Says Richard Croker, Ex-Leader of Tammany Hall, New York, If You Would Succeed in Politics.

In an interview succeeding his resignation of the Tammany chiefship, Richard Croker said:

You ask me for advice on how to succeed in politics.

The first thoughts that occur to me after long experience in active and practical politics are these: Be honorable, be manly, live up to your promises, be loyal to your friends, be trustworthy—not only in big affairs, but in the smallest matters.

These qualities deserve to win confidence, and they always do win it. I know this, because I have put it to the test.

The men who helped me to win victories were those in whom I had implicit confidence. I could feel that

RICHARD CROKER.

they were loyal always. And they on their part knew that I was loyal to them.

There you have a firm partnership established—a partnership that no amount of ill report can dissolve.

Men like manliness. They know that a manly man can be counted upon to fight in the open, that he has the courage to be outspoken, that if he differs, he differs honestly. Hence men as a class follow the leadership of a man they can rely upon.

There never was a sneak who was a successful leader. To retain his following, a leader must be above board with his associates. That is the first principle that anyone who wishes to achieve success in politics must learn. It will pay you to remember this, young man.

You may often have to reverse yourself, you may have to change your proposed course absolutely, you may, against your will, have to disappoint your friends. But when such a proceeding is necessary, carry it out in an open and manly way. Summon those most interested and explain the situation. You will find that they will appreciate your position. You'll find further that after your explanation they will remain your firm friends.

Depend upon it—success in leadership is built upon reciprocal personal confidence.

Apply This Test To Your Nerves.

If You Have These Symptons Your Nerves are Weak and Exhausted—You can get Well by Using

Dr. Chase's Nerve Food.

Nervous diseases are little understood. They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis or locomotor ataxia think that they are merely not very well, and will soon be around again—so insidious is the approach of nervous diseases and nervous collapse.

Study these symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerkings of the limbs; dizziness and flashes of light before the eyes; irritability and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerve force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. Nervous diseases do not right themselves. They come on gradually as nerve force becomes exhausted, and can only be cured when the nerve force is restored.

No treatment for nervous diseases has ever received such universal endorsement by both physicians and people as has Dr. Chase's Nerve Food.

Mrs. Crapper, 37 Salem avenue, Toronto, says:—

"For the last two years I have been a great sufferer from paralysis of the right side, which has confined me to the house. On recommendation of friends I began the use of Dr. Chase's Nerve Food, and can say that this treatment has proven of very great benefit to me. I realize that my ailment will not disappear in a few weeks, but I have improved so much already that I believe a continuation of this medicine will entirely cure me."

In the press of Canada you will find hundreds of the finest letters telling of the wonderful benefits derived from Chase's Nerve Food; 50c a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto. 4

For whooping cough and croup, Vapo-Cresolene is a simple and perfect remedy.

DR. WOOD'S NORWAY PINE SYRUP

HEALS AND SOOTHES THE LUNGS AND BRONCHIAL TUBES. CURES COUGHS AND COLDS. QUICKER THAN ANY REMEDY KNOWN. 25¢ A BOTTLE AT ALL DRUG STORES.

THE SINFUL BROTHER.

He Was a Good Man, but Didn't Hold Family Prayers.

It was at a certain church meeting, and the good bishop was calling for reports. He had a rather stern, sharp manner which sometimes jarred a little on the nerves of the more timid. By and by he came to Brother B., a lay delegate.

"Brother B., what is the spiritual condition of your church?" demanded the bishop briskly.

"I consider it good," said the brother.

"What makes you think it is good?" went on the bishop.

"Well, the people are religious. That's what makes me think so."

"What do you call religious? Do they have family prayer?"

"Some of them do, and some do not."

"Do you mean to say that a man may be a Christian and not hold family prayer?"

"Yes, sir: I think so."

"Do you hold family prayer?"

"Yes, sir," returned the brother quietly.

"And yet you think a man may be a Christian and not hold family prayer?"

"I have a brother who is a better man than I am who does not hold family prayer."

"What makes you think he is a better man than you are?"

"Everybody says so, and I know he is."

"Why does not your brother, if he is such a good man, hold family prayer?" thundered the bishop.

"He has no family," meekly answered the brother.

The Basking Shark.

The ferocity of sharks is not necessarily in proportion to their size. For example, there is the great basking shark, so called because of its habit of lying motionless at the surface of the water. It often attains a length of nearly forty feet, but its teeth are small comparatively, and it probably never attacks man, depending upon small fishes and crustacea for its diet. Another name for this species is "sail fish," because of its great back fin, which shows out of the water like a sail when it is basking.

Although sluggish ordinarily and easily harpooned, it exhibits great activity and enormous strength when struck, diving immediately to the bottom and requiring a great length of rope to hold it. These basking sharks are caught for their livers off the coast of Iceland, and the oil obtained is used to adulterate cod liver oil.

A Revival.

Revivalism in Jamaica has its tragedies and its comedies, but under no circumstances its advantages. The excitability of the black man is animal; it leads him backward toward the jungle, toward Obeahism. The noisy revivalistic meeting is a more serious scandal than a tea party. A doctor told us that not long since he was called in to a meeting, where he saw a woman lying on the ground, while her coreligionists danced a ketch dance in frantic circle around her, proclaiming her to be "in de spirit." He found she was dead from a fit caused by excitement. But the consequences of these "pious orgies" may be merely inconvenient, as in the case of the black lady who when "in de spirit" climbed upon her neighbor's roof and sat there for two days. The neighbor found this inconvenient. —Corahill.

The Kid Glove Kid.

The average kid glove, according to those who should know, is not made of kid at all, but of goat or lamb skin. The kids from which the real kid glove is made are nurtured and cared for almost as carefully as are race horses. Most of them are reared in a mountainous district of France. The kids are nourished on milk alone and are never allowed to eat grass, as that would coarsen the skin. The kid is kept in a pen, where he can receive no scratch or bruise. They are thus kept, as it were, in cotton wool until the age when the skin is of most value. They are then carefully killed and the skin dressed with the utmost skill. Sheep, deer and colts are also pressed into service for so called kid and dogskin gloves.

The Potato.

Humboldt says that at the time of the discovery of America the potato was cultivated in all the temperate parts of South America from Chile up the coast. The Spaniards first noticed it in Peru. The variety of potato cultivated in Europe and North America grows wild in Chile. Different species of the plant are found growing wild in most parts of South America and, it is claimed by many botanists, in Mexico and Arizona.

USEFUL MEN.

A well known Philadelphia society woman said the other day:

"I have come to separate the men of my acquaintance into three classes. There are the dancing men, the dinner men and the corner men, and each has his own place on my list. For instance I would never think of depending upon dancing men for a dinner. The dancing man is generally callow, and he doesn't know much else besides dancing. On the other hand, the dinner man seldom dances, but he is a good talker, is superficially informed upon the lighter topics of the day—the opera, drama, the latest novels—and can more than hold up his end. He doesn't allow conversation to lag, and consequently he is an important factor at a dinner. Men will accept dinner invitations quicker than invitations of other kinds, but don't think from this that they are all dinner men. Far from it.

"The corner man? Oh, he is the one who has the knack of making himself generally useful and is quite in a class by himself. He looks after the comfort of the chaperons, runs handy little errands and can even be depended upon at afternoon teas. The other men don't think much of him, but he has his own value from the feminine point of view."

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

Emperor Honors a Dragon Fly.

The oldest extant poem about a dragon fly is said to have been composed 1,340 years ago by the Emperor Yuriaku of Japan. One day, while this emperor was hunting, say, the ancient records, a gaddy came and bit his arm. Therewith a dragon fly pounced upon the gaddy and devoured it. Then the emperor commanded his ministers to make an ode in praise of the dragon fly. But as they hesitated how to begin he himself composed a poem in praise of the insect, ending with the words:

Even a creeping insect
Waits upon the great Lord;
Thy form it will bear,
O Yamato, land of the dragon fly!

And in honor of the dragon fly the place of the incident was called Akitsuno, or the moor of the dragon fly.—"A Japanese Miscellany."

LIFE WORTH LIVING.

Why not have the free use of your arms and legs. Drive out the rheumatism and feel that life is worth living. Wm. Lee, gardener, No. 793 Princess street, Kingston, Ont., suffered for years with rheumatism in the shoulders and arms. Three bottles of Dr. Hall's Rheumatic Cure made a new man of him. This great blood purifier is put up in bottles containing ten days treatment, 50 cents, at druggists or The Dr. Hall Medicine Co., Kingston, Ont.

When Frogs Are Best.

Frogs' legs are sold in Paris daintily threaded on little willow wands. People buy them for the home table instead of, as is the practice in this country, eating them exclusively in restaurants. They make a most palatable broth for invalids and convalescents, but ordinarily the legs are prepared by removing the skin, rolling them in flour, adding salt, pepper and butter, with a pinch of parsley, and cooking them gently in a frying pan or on the griddle. By Parisians it is considered that the frog is best in the fall of the year, when it is fattest and most delicate. However, large numbers of the batrachians are caught in the spring, when they are said to be more easily captured.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

Every Animal Is Fond of Bananas.

The leaves of the banana, often six feet long and two feet wide, are tender, and the strong winds of the tropics soon tear them in strips, thereby adding to their grace and beauty. The banana is a fruit that beast and bird, as well as man, are fond of, and the owner, when he lives in a sparsely settled country, must protect his plantation by a fence of some thorny plant.

The Hasty Potter.

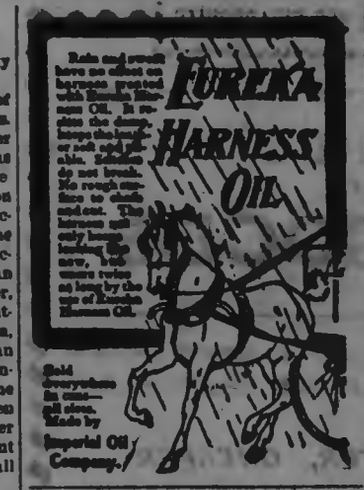
Mrs. Gatterson—You will come to dinner anyway, Mr. Tutter, will you not, though I am afraid there will not be many interesting people present?

Tutter (gallantly)—What difference does that make? One is always sure of a good square meal at your house.

A MODERN JOB

Faith, patience and six bottles of South American Nervine "made over" Mr. Wright—and all his troubles started in a disordered stomach.

"As a general builder up of the system I believe nothing can equal South American Nervine. At one time I seemed to be afflicted with almost all the ills that flesh is heir to—indigestion, nervousness, gastric and nasal catarrh, and liver and kidney disorders. This great remedy was recommended to me. I took six bottles in all, and what was apparently a hopeless case was quickly and permanently cured. I felt myself improving from the first few doses."—Noble Wright, Orangeville, Ont. 74



Rain and snow have no effect on harness treated with Eureka Harness Oil. It renders the leather pliable, keeps the fibres from breaking. No rough exterior to chafe and fret. The harness will only look better, last longer, wear easier, in fact, remain twice as long by the use of Eureka Harness Oil.

RING UP 'PHONE 388.

When any accident to your steam, water or gas pipes arises or when your furnaces or boilers need repairs, or closets, tanks, baths or other sanitary appliances get out of order, I will promptly attend to all orders, having on hand a full supply of plumbers' and steamfitters' requisites. I am prepared to meet every want, possessing a practical knowledge of the trade. I am enabled to detect at once the defects and causes, and remedy them at very low charges. I am ready to furnish estimates for all kinds of heating, public buildings, churches, etc. Iron pumps, points and pipe furnished and wells driven.

GEORGE COCHRANE
License Inspector West Peterborough

HORSES OF VENICE.

Actual Count Increases the Number to Fifteen.

It is a popular joke to say that there are but six horses in Venice, four over the portico of St. Mark's cathedral and two bronze animals of heroic size, one bestrode by Victor Emmanuel and the other by General Colleone. But this is a mistake. There are four other horses, also of bronze, in the Church of St. John and St. Paul, and quite a number of plaster and marble in the different public buildings, making altogether at least fifteen or sixteen. Ruskin and other competent critics have declared the statue of Colleone to be the best equestrian monument ever cast in bronze. It was designed and cast by Andrea Verrocchio, painter, sculptor, jeweler, engraver, poet and musician, a man of infinite genius, whose greatest fame lies in the fact that he was the instructor of the greatest artists of all centuries—Michael Angelo, Raphael and Leonardo da Vinci. The statue of Victor Emmanuel is not so highly thought of.

The horses on the top of St. Mark's are famous and have had a trying experience. They date back to the prehistoric age and are supposed to be the work of a Greek artist named Lysippus and designed for a sculptured chariot. They were taken to Rome during the empire and first used as ornaments upon a triumphal arch erected by Nero and afterward by Trajan. The Emperor Constantine took them from Rome to Constantinople, where the Doge Dandolo seized them as loot and brought them to Venice. When Napoleon entered the city in 1797, he had them taken down from the roof of the cathedral and shipped them in wagons over the Alps to Paris. They served as ornaments upon the triumphal arch in the Place du Carrousel till 1815, when Emperor Francis I. of Austria redeemed them, and they were replaced, at his expense, where they now stand. These ponderous animals are of pure copper, and each weighs about two tons. They were formerly gilded, but the gold has been worn off by the weather, and the verdigris which has accumulated upon the copper gives them a rich green tint.—William E. Curtis in Chicago Herald.

Making Errors.

A Massachusetts business firm prints this paragraph at the top of its letter heads: "Errors—we make them; so does every one. We will cheerfully correct them if you will write to us. Try to write good naturedly if you can, but write to us anyway. Do not complain to some one else first or let the matter pass. We want the first opportunity to make right any injustice that we may do." The little sermon deserves a wide audience. Few people have not had occasion at some time in their lives to regret the sending of a harsh or hasty note of complaint. It may be necessary to assert one's rights in subsequent letters, but there is no better rule of correspondence than to make the first one good natured.—Youth's Companion.

A Cure For Scald Head.

I have heard my grandmother say she had cured many a scald head by taking pure pine tar and enough lard to make an ointment when melted together so the tar won't stick, then keep the head as clean as possible and oil with the ointment. She said she had seen it cure heads when the matter had eaten seams in the neck.

Encouragement.

Tom—I don't think I'll ever get up enough courage to ask you to marry me. You know "faint heart never won fair lady."

Belle (blushing)—B-but I'm a brunette.

There is a cave on the Jorend fiord, Norway, from which at every change of the weather flashes of lightning issue.

Character is perfectly well educated will.—Novalis.

A Danish Crown.

A Danish crown is worth 26.8 cents in this country.

New York's First Iron Works.

The first iron works in New York were "set up" a short time prior to 1740 on Ancram creek, in Columbia county, about fourteen miles east of the Hudson river, by Philip Livingston, the owner of the Livingston manor and the father of Philip, the signer of the Declaration of Independence.

Parsnips.

Parsnips, it is contended, possess almost the same virtues that are claimed for sarsaparilla.

Washing Silk Stockings.

Silk stockings should be washed in tepid water with mild soap. Rinse them in several waters. Shake them well and roll them in a cloth to dry after pulling them into shape.

Meadow Saffron.

The foliage of meadow saffron (autumn crocus), when eaten, causes a burning thirst, dilated pupils, irritation of the throat and vomiting.

Voyage.

Voyage was formerly any journey; whether by sea or land, it did not matter.

The Sword Dance.

One of the most noted methods of "tripping the light fantastic" among the Scotch is the sword dance, which was originated by the Scandinavians and old Saxons and at one time was indulged in by the Spaniards.

Insurance Abroad.

Eight million five hundred thousand Europeans have their lives insured—that is, 2½ per cent of the population.

Rheumatism..

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the *cause* of those fearful shooting pains and stiff, aching joints. There is but one sure way—

BE CAREFUL

Who you employ to do your plumbing or heating; be sure he is a sanitary plumber, and understands his business, for improperly done plumbing is sure to lead to trouble. I guarantee all my work to be first-class—try me. Iron pumps repaired, wells driven and repairs of all kinds promptly attended to. Estimates cheerfully given for plumbing or heating all kinds of buildings.

JAMES NOBLE,
Practical Plumber, Steam, Hot Water and Gas Fitter, 174 and 176 Hunter street, opposite Oriental Hotel.

DIAMONDS.

United States Buys Three-fifths of World's Output.

The world has never seen and in no other part of the world is there now to be seen anything like America's jewel madness as shown by the conditions of today, when more than 300 New York establishments are engaged solely in the importation of precious stones, when agents of American dealers are searching Europe for the white gem and hopelessly endeavoring to supply American appeals for rubies and emeralds and when 6,000 men in South Africa are toiling to obtain diamonds, more than half of which are to add to the beauty and happiness of the American woman.

It is she that has caused the United States to become the greatest diamond market in the world. For her we have imported in a single year $20,000,000 worth of precious stones, for her at one period we smuggled them in at the rate of $7,000,000 a year, for her we annually buy something like $12,000,000 worth of diamonds and thus for her sake heartlessly leave of the world's total output of diamonds only some $8,000,000 worth to satisfy the vanity of all the rest of the women on earth.

For her adornment we annually cause to be brought to this country diamonds weighing in the aggregate 1,200 pounds, a weight three times that of the total output of the famous Kimberley field and practically the equal of that of the whole of South Africa, the world's greatest diamond mine.—Frank S. Arnett in Ainslee's Magazine.

Fond of Smoking.

Smoking in church is a Dutch custom. Dutchmen are such inveterate smokers that one of them is rarely seen without his pipe. He finds himself unable to deprive himself of the indulgence even for the short period of a church service. A similar practice exists in several churches in South America. Smoking in churches in Great Britain is said to have been prevalent at the end of the sixteenth and the beginning of the seventeenth century.

At one time smoking was carried to such an excess in Seville cathedral that the chapter applied to the pope for power to repress the abuse. Urban VIII., yielding to their wish, issued a bull, which was promulgated Jan. 30, 1642.

In Wales smoking in church was indulged in as late as 1850. In one church the communion table stood in the aisle, and the farmers were in the habit of putting their hats upon it, and when the service began they lighted their pipes and smoked, without any thought of irreverence in the act.—Youth's Companion.

Ark Admission.

"Yes," said the Sunday school teacher. "Noah had two of every animal, bird and creeping thing in the ark."

"Please, ma'am," piped a voice at the lower end of the class, "how much did he charge ter git in?"—Ohio State Journal.

Don't Marry.

Almost everybody remembers the celebrated advice of the London *Punch*, "To those about to marry. *Don't.*" There is in that advice the expression of the feeling of many a mother who says, "I hope my daughter will never marry and suffer as I have."

In ninety-eight cases in every hundred there's no need for this suffering. Doctor Pierce's Favorite Prescription cures the womanly diseases which cause wifely misery. It dries enfeebling drains, heals inflammation and ulceration and cures female weakness. It invigorates the womanly organism, tranquilizes the nerves and gives the mother strength to give her children.

Do not allow an unscrupulous dealer to sell you something in place of "Favorite Prescription," claimed to be "just as good." There is nothing just as good for women as "Favorite Prescription."

"I am so pleased with your instructions, I hardly know what thanks to give you for your kind favors," writes Mrs. Milo Bryant, of Lots, St. Thomas Co., Ga. "You can publish my few statements to the world, hoping all suffering women will know and be healed. I suffered so much with great pains in my back and the lower part of my stomach and palpitation of the heart, that at times I could hardly lie down, and could hardly get up in the morning, but after using three bottles of 'Favorite Prescription' and two vials of Dr. Pierce's Pleasant Pellets, I feel like a new woman."

Dr. Pierce's Pleasant Pellets cure sick headache.

Danger in Cigar Cutters.

The large man had just bought a soporific black cigar and was inserting it in the cutter.

"Don't do that!" exclaimed the tall man of cadaverous feature.

"Good gracious, why not?" demanded the large fellow.

"You wait here with me for five minutes, and you'll see why not."

A man came up and bought a cigar. He wetted the mouth end slightly, put it in the cutter, lighted it and walked off.

"Did you see that?" asked the cadaverous man. "Did you see his color and hollow cheeks? If he isn't in the last stages of consumption, I don't want a cent. Can't you just imagine the tubercle bugs in that cigar cutter?" he said triumphantly.

The large man didn't say anything, but he looked anxious.

In the course of five minutes as many customers bought cigars, and three of them wetted the mouth end before they used the cutter.

"Guess I'll buy an individual cutter," said the large man as the pair at last moved out of the shop.

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

Animals as They Sleep.

"In mild weather," says a gentleman farmer quoted by the Philadelphia Record, "my horses and cattle sleep afield, and sometimes I wander softly among them in the moonlight. It is strange to see how they lie, with every head pointed in the same direction, the direction from which the wind is blowing. Do you know why that is? It is because they have in them an instinct of fear, and they front the wind so that their keen noses may catch instantly the first breath of an approaching danger. Poor things! All you have to do is to approach softly from behind, and you can be right in among them before they are aware of it. My horses are even more cautious than my cattle, for they, in addition to facing the wind, sleep also with one ear cocked backward. Then I have a dog that sleeps not only facing the wind and with one ear cocked, but with one eye open also. He is, for sure, a coward."

Specialists' Ideas Adopted.

When originating his celebrated Four T's Merrill, the Brantford Druggist, added to drugs of many generations' usefulness some of the latest drugs used by lung and throat specialists. The result, naturally, is that Four T's is an unexcelled compound and never fails to cure a cough in 24 hours and the worst cold in two days. Large bottles 25c. at Ormond & Walsh's drug store.

Classifying a Mummy.

The story is told of a French savant returned from Egypt bringing a royal mummy with him, and the case was opened at Marseilles. Being told that it contained a pharaoh, the officer looked up pharaoh in the tariff, but no mention could he find of such an article. Then it occurred to him that a nice, high duty was on dried fish, and the savant had to pay as if for that commodity.

Alaric's Grave.

It is said that when Alaric, the conqueror of Rome, died "a river was turned aside to make a place in its bed for his grave, and when he was buried the water was again let into its former channel, and the prisoners who had helped to bury him were killed, so that no one might find out where the conqueror of Rome was buried."

Comparisons Are "Odorous."

"Well, I don't see much difference between 'notoriety' and 'fame.'"

"You don't? Then you wouldn't be able to distinguish between the perfume of limburger cheese and that of the rose."

A Woman's Way.

Madge—I wonder why she bothers so much about her complexion?

Marjorie—I suppose it's because she hasn't any.—Judge.

IN LATEST SPORTING CIRCLES.

The Peterboroughs Will Play in Galt This Evening.

Cobourg Ladies Will Play the Locals Here To-night—A Few Observations on Hockey.

HOCKEY.

The lady hockeyists of the town are hoping most earnestly that the weather will keep cold until after to-night at least. The Cobourg ladies' hockey team will arrive in town at 5.30 o'clock to play their return game. The indications are that there will be a good attendance and the girls promise that they will put up a good class of hockey. The Peterborough team will very likely be the same as played in Cobourg.

Mr. George N. Graham, of the Oriental Hotel, with his usual enterprise, has made arrangements whereby he will receive at the Oriental to-night by games, the result of the match in Galt.

Perhaps the O.H.A. management has no more vigilant watch dog than the London News. London is not in the O.H.A. Why, this is the case had better not be referred to just here, but while the people of the Forest City have to keep away back and sit down, they look on in a very criticising manner. The sporting editor of the London News has a particular spite at the "Toronto ring rule" as he terms it and never fails to give them a piece of his mind. His latest production which includes a clipping from the Cornwall Freeholder, is rather interesting reading matter. It is as follows:

"The Toronto ring rule which prevails in the O. H. A. is beginning to sour on even the staunchest friends of that unwieldly organization. The Cornwall Freeholder has been telling some candid truths about how things are run to suit the alleged sports who reside in Toronto, and all the Hog Town sporting editors have been yelling "you're another" at the top of their respective voices. But the Freeholder comes back at them in great shape, and in the course of a half column article says:

"There were no misstatements nor prejudiced concealment of facts in The Freeholder article referred to. It was simply a comparison of sport as it should be with Fair Play the predominant feature, as against sport as we often find it to-day, where 'win by fair means or foul' is the watchword."

"The whole seat of the trouble is that every long-haired Johnnie sport who calls Toronto his home seems to be of the opinion that the Queen City is the hub of the athletic universe, that the rulings of its little ring of ping-pong and tennis magnates should be respected by the whole athletic world, and that its lacrosse, football and hockey teams are horribly maltreated by the hard-working, brawny and muscular athletes of Ottawa, Montreal and particularly Cornwall, both at home and abroad.

"If the Globe and other Toronto papers would devote a little more attention towards advancing the true principles of sport among the parties who manage clubs and associations, and give less attention to excusing the defents of Toronto athletes, by accusing the opposing team whoever they happen to be, of all kinds of roughness, from scalping a man to cannibalism, they would perhaps be in a position to talk about 'cleaning up at home.'"

Boyce who was one of the fastest men on the Collingwood team this year, learned the game in Fenelon Falls, and played with that team up until two years ago. Previous to going to Collingwood Boyce was engaged as wine clerk at the National Hotel, here. He did not do much while in Peterborough.

The Fenelon Falls team have reason to feel proud of their record since their organization five years ago. Since that time they have lost only six games, none of which have been defeats by more than one goal. They have played against Midland, Lindsay, Campbellford, Norwood, Bobcaygeon, Keene and other clubs, and have won the championship of the Trent Valley League for two years in succession—the only two years that they have been in the league. Four of the players have played together and in almost the same positions for five years, and they all know each other's style to perfection. Financially the Club is most successful and they have finished the season with a surplus of $50.00. Above all, however, the Fenelon team is composed of as fine a lot of young men as one might wish to meet and their village may be justly proud of them. Long may the Cataract Town boys prosper.

The Trent Valley Hockey League has just closed the second year of its history, and the management feels satisfied that there is reason for its existence and that it has done much to foster a healthy hockey spirit throughout the Trent Valley district. Now that the season is over it becomes apparent that the only club that might have had any showing in the Intermediate Series of the O. H.A. is Fenelon Falls, and their location, as well as their rink, would not permit of them entering into the series of the premier organization, whilst as to the other teams the members thereof are over the age limit specified by the O.H.A. In the grand old game of hockey to be dead in these smaller towns, and most some shining lights remain unnoticed, for the want of nourishment and bringing out! This will not be the case so long as the Trent Valley League can stretch out its arms and rear them to maturity. There are on many of the best teams in the Ontario Hockey Association men who felt the first instinct of hockey dawn upon them, who learned the rudiments of the game and who were trained in the art of skating and stick handling, in the smaller villages of the province, or even on the little mill pond in the country hamlet.

The Trent Valley League had a very successful season. Its record as to management was unique, inasmuch as there was no difficulty during the season that required the calling of an executive meeting.

The annual meeting was held, officers elected and final arrangements made for the season's operations — not a protest was entered, not a protest heard, and the referees gave general satisfaction. Mr. Ross Cameron of Norwood, the president of the league, kept a careful eye upon the management and displayed the greatest possible interest in the various clubs of the league. The hon. president, Mr. A. H. Stratton, too, is receiving hearty thanks for his kindly interest in the management, and the clubs still have in mind his generosity in last year donating for competition the handsome trophy which is now held by the champions of the league, Fenelon Falls.

The Galt Reformer has the following to say concerning the game here:

Galt held Peterborough down to 4—3 in Peterborough last night, and that is something unique in hockeydom.

It is authoratively reported that Peterborough expected the Galt players to fall dead as soon as they stepped on the ice, such being the custom among preceding aggregations.

The score, 4—3, gladdened Galtonians last evening, and the Opera House, in particular, was the scene of the wildest enthusiasm. Pleasant dreams attended the citizens' slumbers.

Monday's deciding game here can have but one result.

The Galt team returned this morning. Their faces wore smiles.

Peterborough is likely to spend tomorrow in meditation and prayer. Monday looking less luminous than was expected. Meamwhile, laughter is a lost quantity there.

The Toronto papers print quite lengthy despatches. They bear a Peterborough bias, but, even so, there's no word of Peterborough bonfires, or other happy hysteria.

Whispers.

4-3.

Galt is gay.

Peterborough isn't.

What does Berlin think?

The Electric City was slightly shocked.

Woodstock's greetings haven't arrived.

It was something of a swimming match.

Peterborough was proud. Pride goeth before a fall.

Galt isn't saying much, but it ought to prove a merry Monday.

Peterborough rink is egg-shaped, and Peterborough predicted a goose egg for Galt. Strange, but it didn't happen.

CHALLENGE.

The Oriole Basket Ball Team hereby challenge the Business College to a friendly game of basket ball on Saturday evening, Mar. 15th, at the Y. M. C. A. Gymnasium.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

SERMONS ON TEMPERANCE

(Continued from 5th Page.)

he was strongly in favour of any measure that would lessen the evil of intemperance, he could not see that prohibition, such as the prohibitionists desire, would effect this. He believed that the Gospel of Jesus Christ alone could make a man do things that were right, and unless there is a regenerate heart, the devil will hold his revelry within, no matter what plans are devised by man. Since prohibition had become a party issue in politics, he hesitated to speak about it in church. While a sentiment would do much to carry a man away in support of any measure, stern reality would lead men to consider a measure such as prohibition from all points of view. And because a certain class of people were in favour of a thing, did not always guarantee that the thing is right. Prohibition might take away one evil, but certainly another evil might arise out of it, perhaps worse than intemperance. God has given to mankind the ability to choose between good and evil. God does not take away temptation, but He gives grace to withstand it in whatever form it appears.

AT ST. JOHN'S.

Rev. J. C. Davidson referred to Intemperance in connection with the wider subject, "Christ's Example in Temptation," dealing with Christ's conflict in the wilderness. He said that those addicted to drink deserved no denunciation or ridicule, but the sympathy of all Christian men, thoughtfully and tenderly expressed, so as not to wound the feelings of any, while at the same time the sin itself should not be condoned. To those in danger, he said, Don't allow yourself to drift but dare to take a decided stand and to take it now. A pledge was simply an act of strong determination, and what could be done without that. If the pledge was broken it should be renewed, over and over again, if necessary, and the battle fought to a finish. Public opinion and social customs should be so directed as to help men who were weak in this respect, and here the speaker deplored the apparent death or trance of the "Common Weal Society." It had begun under the most favourable auspices and received a large measure of support, when suddenly its operations seemed to come to an unexpected conclusion. He held that the society or one like it, should be resuscitated.

Mr. Davidson spoke on the lines of moral effort, making no reference to prohibition.

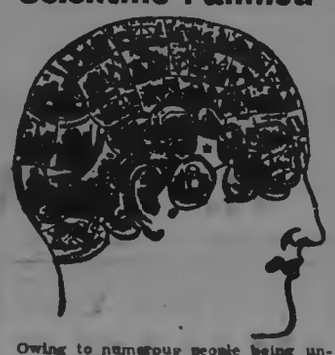
RETURN VISIT

—OF—

Professor O'Brien

Canada's Greatest Phrenologist and the only recognized

Scientific Palmist.



Owing to numerous people being unable to consult Prof. O'Brien during his first visit in Peterborough, a few weeks ago, he has been prevailed upon to pay the town a return visit on his way east, and can now be consulted at his former private office, 263 Hunter street Terrace, from 10 a.m. to 10 p.m. As Professor O'Brien will only remain in town for a very short season, people wishing to consult him should call at once, as this is their last chance. A photo read free to patrons.

Prof. O'Brien has just concluded two most successful seasons in Lindsay and Cannington, and is urgently requested to pay both towns a return visit at an early date dtf

Watch Confidence

Makes travelling a pleasure when correct time is always a necessity. No wonder a possessor of a good watch is careful into whose hands he leaves it for repairs when it fails to do its work. Many a good watch is left in bad hands, and is spoiled by incompetent or careless repairing. Does your watch need attention?

We do thorough guaranteed Watch Repairing.

Schneider's

Reliable Watchmaker and Jeweller, 391 George St.

Handsome Effects . .

Our Spring Importations are decidedly effective.

Never before have we shown such "taking" clothes for Spring Suitings and Overcoatings. Come and make your selections from a superb stock—don't wait until the season is well advanced, and everybody is hurrying their orders.

We pay cash for our Goods, and sell at lowest cash charge.

PETERBOROUGHS ARE CHAMPIONS!

Our Hockey Boys Tied the Galts on Their Own Ice Last Night.

AND WON THE ROUND BY 7 to 6.

The Intermediate Championship Comes Peterborough's Way at Last.

HOW THE NEWS WAS RECEIVED IN TOWN.

Bonfires Blazed on the Principal Street Corners in the Business Part of the Town, and the Cheers of the Crowd Brought Hundreds of Citizens Out From Their Beds to Join in the Celebration.

Not since the day on which the glad tidings were received of the relief of Ladysmith was there such excitement in Peterborough as prevailed last night, upon the receipt of the news from Galt that Peterborough and Galt hockeyists had played a tie in the western town and that Peterborough having a lead of one goal as a result of their game here, were, therefore the winners of the intermediate series of the O.H.A. by a score of 7 to 6 on the round.

It had been known that the returns would be given out at the rink, during the progress of the Cobourg-Peterborough ladies' hockey match, at the Oriental Hotel and at the telephone and telegraph offices, and these places were besieged from shortly after 8 o'clock with impatient and enthusiastic crowds all anxious to hear the result. The first tidings that were received from the boys was at half time stating that the score stood 1-0 in favour of Galt, which therefore left the teams a tie on the round. Peterborough's supporters were well satisfied, they grew more hopeful than ever for they were well aware of the fact that the boys were great on the finish and would at least hold their own. The next piece of intelligence to be received was that the score was 2-1 in favour of Peterborough. The excitement at the rink now become intense. An effort to announce the score through a megaphone was almost useless as the clatter of sticks on the sides of the rink, the cheering of the multitude and the general enthusiasm that prevailed made the people for the time being forget that there was a ladies' hockey match in progress, and it was with some difficulty that the ice was cleared and the ladies' match could be again started.

The same sort of excitement that prevailed at the rink was in progress at other quarters where the news had been received and the general [illegible] was coming east this season at least. But there was darkness before the dawn. In some inexplicable manner, there came an incorrect message from the western city stating that the game had concluded and that the score was 4-2 in favour of Galt. Had this been true Peterborough would be out of it, and the supporters of the red, white and black took their apparent reverse with good grace. There were others, however, who had their doubts as to the authenticity of the despatch and their belief was shortly found to be correct, when a telephone message from the Peterborough boys in Galt stated that the game had ended in a tie, and that Peterborough was therefore the winners of the round, the championship and the Garland Cup for the season of 1902.

Then the fun started. From every street corner went up a yell. The fire bell rang out the glad tidings to the people of the town, whilst for hours the streets were paraded with young men, old men and small boys, shouting themselves hoarse, and proclaiming the gladsome news to the populace. Bonfires were soon raging on George street, at the corners of Charlotte, Simcoe and Hunter streets, and the more enthusiastic were already making arrangements for a suitable reception to the boys upon their arrival home.

So eager were others to congratulate the champions that the telephone line between here and Galt was kept red hot for the next hour. Nearly every member of the team and the three supporters, Dr. Bradd, Dr. Scott and Mr. Jas. McCabe were conversed with and they gave their opinions as to the game. Altogether the scene last night is one long to be remembered. The evidences of enthusiasm were not confined to the male portion of the town, for on the streets were many of the gentler sex, loyal supporters of the red, white and black, who waved their colours most triumphantly, and smiled approvingly at their escorts, who were shouting with fagged out vocal organs, "Peterborough! Peterborough! Peterborough!"

To-day the excitement is not so boisterous, but there are evidences to the stranger in town which would lead him to believe that Peterborough was celebrating. Flags are flying from flag staffs, from balconies, and from windows; the hotels of the town are being handsomely decorated, and every citizen meets his brother citizens on the street with a smiling face, and a reference to the game in Galt.

THE RECORD.

The record of the Peterborough team this year has been most satisfactory. The only time they were defeated was when they played their first game in Lindsay against the Scugog seven, and were defeated by a score of 5 to 7. The Peterborough team nor the management did not look seriously upon this reverse. The team was not in condition, and again the boys were over-confident. Every man of the Peterborough team has been a resident of Peterborough for years and learned the game here. The personnel of the team is:

Goal, Ernie Wasson; point, R. M. Glover; cover point, Harold Armstrong; forwards, Roy Armstrong, Fred Whitecroft, H. Morgan and Chris Graham.

The following is a summary of their work this season. The score of Peterborough is given first in each instance:

Lindsay at Lindsay..... ....4—5
(Lindsay suspended from the O.H.A.)
Port Hope, at Peterborough .....5—2
Port Hope, at Cobourg... ... ...4—3
R.M.C., at Peterborough... ... ...13—1
R. M. C., at Kingston... ... ...4—2
Newmarket, at Peterborough.....13—4
Newmarket, at Newmarket... .....6—3
Galt at Peterborough... ... ...4—3
Galt, at Galt..... ....3—3

A brief summary of the two teams' work is given below, as follows—

	Games.	Goals for	Goals agst
Galt... 12		50	40
Peterborough 9		59	20

Galt has been beaten three times, and has played one tie game. Their best score was 8 to 0, against Owen Sound. Peterborough was beaten at the opening of the season by Lindsay, but has not lost a game since. Their best score was 13 to 1, against R.M.C. Cadets.

TO-NIGHT'S RECEPTION.

At a meeting which was held to-day at noon arrangements were made for a suitable reception for the boys when they arrive home this evening. Mr. R. H. Bradburn, manager of the opera house, very kindly offered the use of that building for a place in which to meet the members of the team. It was felt, however, that the boys would not care for speech-making, and a good rousing street reception will be accorded them. Citizens with torches and fire works, accompanied by the band of the 57th Regiment, will meet the boys this evening, on the arrival of the nine o'clock G.T.R. train from Toronto. The members of the team will be placed in carriages and a procession will line through the streets of the town. At the Oriental Hotel Mr. George N. Graham will give the boys a supper. The Oriental Hotel has been profusely decorated for the occasion.

WHAT THE GLOBE SAYS.

Galt, March 10.—(Special.)—Peterborough won the intermediate championship of the Ontario Hockey Association to-night by the narrowest of margins, the single goal majority that they put on in the game in Peterborough, when the score was 4 to 3. To-night the score was a tie, 3 all, but the score on the round was 7 to 6 in Peterborough's favour, though many Galt supporters did not understand why the tie on to-night's game was not played off. There is not much to choose between the teams, but the better one won, and would probably win by a larger margin on keen ice. The weather was mild and the ice soft and watery. The rink was jammed, and about 1,500 spectators were in the crowd. Galt has a fine rink for hockey, with ice about 62 by 100 feet. The teams were:

Galt. H. Morrison, Goal.
R. Lapp,
W. Tralts,
C. Deitrich,
Deeton, Hay, P. Deitrich.
R. Armstrong, H. Morgan, C. Graham,
F. Whitcraft,
H. Armstrong,
R. Glover.
Peterborough. E. Wasson, Goal.
Referee—R. D. Schooley, Osgoode Hall.

The play was very moderate hockey for five or six minutes, till the teams settled to the game, and only once in that time did Wasson have to put the puck away from Peterborough's goal, while "Dutch" Morrison had frequent opportunities to display his skill at his end. When Galt squared away the Peterborough defence was hard worked, and several times Whitcroft was compelled to take a dangerous chance of passing behind in order to relieve the pressure. Percy Deitrich put in three or four hard ones, and finally, after nineteen minutes, on a neat pass across from Deeton, he put one into the net, and the score was 4 all on the round. Percy always scores the first goal. It was good hockey to the end of the half, and, though Peterborough again and again got close, Harold Armstrong particularly striving in the aggressive work, they could not get into the lead again, and the half ended 1 to 0 in Galt's favour.

Peterborough went to work quickly in the second half, but Galt stood off all the rushes, and transferred the scene to Peterborough's territory. They were well bunched at Peterborough's end of the ice, when Roy Armstrong broke through, and, with little opposition, went down and scored for Peterborough. In less than a minute after the face Morgan and Roy Armstrong made another pretty run, and Armstrong scored again. Now it was 2 to 1 in Peterborough's favour on the game and 6 to 4 on the round. Half of the second period was now up, and, with a lead of two, Peterborough settled down to a defence game, but it was not a success, for Charlie Deitrich pierced it, and half a minute later it was repeated. Now they were 6 all on the round, and the scene of enthusiasm and delight among the spectators was worth a long journey to see. Peterborough was not long in getting to the front again. The play was hard now, the checking close and becoming rough. A fierce rush was made on Galt's goal, and the defence was broken through, and Morrison came out of the nets and Graham checked him hard, to which Morrison replied by a straight cross-check, and the referee rang the bell. Almost simultaneously the puck went into the nets. Galt claimed it was no goal, but the referee allowed it, and very properly, as otherwise Galt would have profited by a foul permitted by a Galt player. The wildest excitement followed the play to the conclusion of time, now only a couple of minutes away, but neither

PROVINCIAL CROWN LANDS.

The report of the Commissioner of Crown Lands for last year is interesting and instructive and contains considerable suggestive information. It indicates progress, but it also indicates that there is room for still greater advancement in settling New Ontario. The total sales of crown lands during the past year are given at 43,617 acres valued at $31,315. In the free grant townships the number of persons located was 1,367 who took up 148,312 acres, and besides 138 persons bought 6,258 acres under the homestead act. The main portion of these were settlers in the Rainy River district. The Temiscamingue district, in which a Government railway is being built, has attracted a large number of settlers. The report shows that last year 957 people took up 160 acre lots, or 153,620 acres, about six townships, the increase of population being 150 per cent. for the year. The addition to the population has greatly changed the aspect of the country. The saw mills are reported to have been working day and night, land has been platted for village lots, and churches, schools, stores and dwellings have been erected, but it is in the country that the greatest progress has taken place. The expense of reaching this district, the commissioner points out, is at present very expensive. The Government is displaying wisdom in undertaking to build a railway into this fertile territory, which ought soon to be occupied by a large and prosperous population. Settlement in other districts has been generally satisfactory. There has been a marked advance in the development of the mining resources, increased employment being given to both capital and labour. There has not been the progress in the pulp industry which was expected, one of the reasons no doubt being the large outlay required. It will have been noticed that new agreements have been made with three or four of the pulp companies, and better results may be looked for in the near future. The report gives gratifying information in regard to the Provincial parks. They are accomplishing good as game and timber preserves. The protection afforded is causing the deer and other animals to multiply largely. The Crown lands are carefully administered in the interests of the public. The settlement and development of the northern regions will directly and indirectly benefit the older settlements. A demand will spring up for various articles, the supply of which will increase the business of the merchant and the manufacturer at the front, and what is an advantage to a part must of necessity be an advantage to the whole.

Malt Breakfast Food

Is Invaluable for Invalids and Convalescents.

Not only is Malt Breakfast Food of great value as a food for invalids and convalescents, when prepared as a porridge, but it makes the most nutritious and appetising gruel and drinks.

MALT BREAKFAST FOOD GRUEL.

Take one cup of Malt Breakfast Food and stir into four cups of boiling water. Cook for one half hour, then strain. Add salt to taste. Milk or cream can be added when desired. This gruel makes a very valuable food for invalids, convalescents and young children. The weakest stomach will tolerate it and it is very nutritious.

A DRINK FOR INVALIDS.

A very excellent and nourishing drink can be made in the same manner as the gruel, but take twice the quantity of water. A few drops of lemon juice will add a refreshing taste that will often be appreciated. Ask your Grocer for Malt Breakfast Food.

The Dominion Permanent LOAN COMPANY.

ANNUAL REPORT.

The eleventh regular Annual Meeting of the Dominion Permanent Loan Company was held at the offices of the Company on Wednesday, March 5th, 1902.

In the unavoidable absence of the President, the Hon. J. R. Stratton, the Vice-President, Mr. T. P. Coffee, occupied the chair. Mr. F. M. Holland, General Manager, was requested to act as Secretary.

The Vice-President submitted the report of the Directors for the year ending December 31st, 1901, as follows:

Directors' Report for the Year Ending December 31st, 1901.

TO THE SHAREHOLDERS:

Your Directors beg to submit the Eleventh Annual Report of the Company, together with a statement of accounts for the twelve months ending December 31st, 1901. In so doing they are pleased to be able to report that the funds of the company have been well employed during the period named; in fact during the latter portion of the year the demand for loans has been in excess of the funds at the command of the company.

The outcome of the Company's operations for the year has been of such a gratifying nature as to admit of paying the usual dividends upon the stock of the company, leaving a balance of $9,000.00 to be transferred to the credit of the Reserve Fund and Contingent Accounts. The latter account now stands at $15,373.35 and the Reserve Fund amounts to $40,000. After payment of the usual dividends and strengthening the Contingent and Reserve Funds in the manner indicated, there remains at the credit of the Profit and Loss Account the sum of $19,090.75 for further distribution.

Your Directors are pleased to be in a position to congratulate the Shareholders upon the satisfactory results yeielded by the operations of the Company for the past year, and also upon the general prosperous condition of the affairs of the Company.

All of which is respectfully submitted.

J. R. STRATTON, President.

Toronto, February 14th, 1902.

AUDITORS' CERTIFICATE.

We have audited the accounts of the Dominion Permanent Loan Company for the twelve months ending December 31st, 1901, and find the transactions of that period accurately recorded in the books of the Company, the receipts accounted for, the payments duly authorized, and vouchers produced therefor. We certify to the correctness of the accompanying statement of Assets and Liabilities and Profit and Loss Account. We have made a careful examination of the securities, checked the same with the mortgage register, and report everything satisfactory.

HARRY VIGEON,
O. M. HUDSON, Auditors.
Chartered Accountants.

Toronto, Feb. 14th, 1902.

Mr. Coffee, in moving the adoption of the report, said:

In presenting and moving the adoption of the Eleventh Annual Report of the Directors, I feel that I have good reasons for congratulating the shareholders of the Company upon the satisfactory record it discloses, as represented by a gratifying increase in the volume of business and a satisfactory rate of profit, conditions indicating good management a continuance of general prosperity, and continued activity in the general business of the company.

It would be a great pleasure, if the circumstances permitted, to refer, as could be done at considerable length, to the great strides in national progress the country is making. A buoyant revenue from customs collections indicates large importations, which, in turn, show confidence on the part of business men in the prosperity of the people at large and their purchasing powers. There is expansion of enterprise on every hand. Good crops and a favourable result from all sorts of farming operations, the remarkable development of our mineral resources and the accompanying industrial outgrowths, engaging increasingly large quantities of capital; the increase of new and the enlargement of existing industries; a prevailing and sturdy faith in this country and its possibilities and the prospect that the present conditions will continuously improve, might be enlarged upon.

All these circumstances and others of an allied character not possible of present enumeration combine to create a demand for capital which must be met—a demand in which our Company will have, as in the past, and notably the last few years, a liberal and profitable share.

The conditions which give hopefulness for the future have very favourably affected the past year's operations of the Company. Among the results to be noted is the fact that in addition to the transfer of a considerable sum to the credit of Reserve and Contingent Fund accounts, the usual dividends have been paid, and there remains for further distribution at the credit of the Profit and Loss Account, the sum of $19,090.75. The Contingent Fund now totals $15,373.35 and the Reserve Fund $40,000.

Our sales of debentures during the past year have been quite satisfactory. During that year we have issued debentures to the amount of $475,265.35 and have paid off debentures to the amount of $77,925, which leaves a net increase for the year of $397,340.35 in the amount of debentures in force.

In moving the adoption of the report last year I made reference to the fact that during the year then under consideration the area of the operations of the Company had been increased. Considerable attention has been given during the past year to further extension, and with similar results, namely, demands for funds on loans much beyond our ability to supply in this direction. This activity of demand, everywhere existent throughout the territory covered by our business, gives ground for asserting without hesitancy that we shall be able to find profitable employment for whatever funds we have available for a considerable number of years to come.

The usual yearly inspection of securities has been made and I am again in a position to testify to the excellent manner in which our funds have been invested, having regard to the fundamental requisites, security and earning power.

In conclusion, I have much pleasure in pointing out that our assets show an increase during the year of $331,675.95. They amounted to $1,681,537.68 on December 31st, 1900, and on December 31st, 1901, the total was $2,013,213.63. Altogether the report of the past year is generally of a most gratifying character, and I have again to congratulate the shareholders upon the good showing which has been made in every respect. It affords me much pleasure to move the adoption of the report.

Mr. D. W. Karn, in seconding the motion for the adoption of the report, said:—

I have great pleasure in seconding the motion for the adoption of the report, which is in every way gratifying and amply justifies the congratulations the Vice-President has extended. The confidence of the public is evidenced by the increasing business its patronage provides and the general satisfactory results of such business. These and the generally prosperous conditions of the Company's affairs are subjects of hearty congratulation. I can do little more than endorse in every particular the remarks passed by the Vice-President upon the eminently gratifying conditions the report shows, and it gives me great pleasure to second the motion for its adoption.

Several shareholders added their congratulations and expressions of gratification to those of the Vice-President, and the report was unanimously adopted.

Resolutions of thanks to the Directors, agents and officers of the Company were unanimously adopted.

The following Directors were then re-elected:—Hon. J. R. Stratton President Trusts and Guarantee Company; D. W. Karn, President of the D. W. Karn Company, Woodstock; C. Kloepfer, manufacturer, and Director Traders' Bank, Toronto; T. P. Coffee and F. M. Holland, Toronto.

At a subsequent meeting of the Directors Hon. J. R. Stratton was re-elected President and Mr. T. P. Coffee Vice-President.

Infants too young to take medicine may be cured of croup, whooping cough and colds by using Vapo-Cresolene—they breathe it.

THE GREAT BLOCKADE

Western Grievances Ventilated in the House of Commons.

A FIVE HOURS' DISCUSSION

Premier Promises That the Government Will Do Everything In Its Power to Remedy the Existing Evils—Present Crisis Due to Abundance of Crop and Non-Completion of the Great Northern.

Ottawa, March 11.—Yesterday was the most interesting day of the session in the House. Mr. Douglas' motion on the western grain blockade was discussed for nearly five hours by the western members, the Premier, Mr. Tarte, Mr. Borden, Mr. Brock and other eastern members. The lack of elevator capacity and motive power and the improper extortions of the elevator combine were the chief grievances of the west. Mr. Borden urged the Government to break the elevator combine, and even consider Government ownership of elevators. The Premier promised that the Government would do everything in their power to remedy the evils existing. The present crisis was due to the abundance of the crop and the delay in completing the Canadian Northern. Hereafter the capacity of the C.P.R. between Fort William and Winnipeg would be doubled, and the Northern would also be available. The greatest trouble seemed to be lack of accommodation east of Fort William, and some remedy would have to be found for that. He promised that wherever particulars of violations of the Grain Act were given the services of the Department of Justice would be invoked. Mr. Tarte, in speaking of the need for developing every channel of Canadian trade, criticized The Globe for giving space to Mr. Loughrin's letter, saying that The Globe was always an Opposition paper. Mr. Brock defended The Globe's course.

Mr. D. A. Stewart, the newly-elected member for Lisgar, was introduced by Sir Wilfrid Laurier and Mr. McCreary of Selkirk, and received an ovation from the Liberal members.

Mr. Puttee introduced a bill to amend the Conciliation Act of 1900, the object of the bill being, he said, to extend the scope of the present measure.

Mr. Charlton's bill to amend the Alien Labor Law was also introduced and read a first time.

Mr. Davis asked: Does the Government intend taking action during the present session on the motion of this House, passed in the session of 1901, approving of the appointment of a railway commission?

Mr. Blair: My answer to that question, Mr. Speaker, is in the affirmative.

Mr. Blain was informed that no circular had been issued giving the prices at which binder twine will be sold in 1902.

Col. Hughes moved, that in the opinion of this House, in the best interests of the people of Canada, a joint commission should be appointed by the United States and Canada, to examine and report upon the diversion of the waters between the two countries, and to investigate the conditions, rise and fall, supply and uses of the waters adjacent to the boundary line between the United States and Canada, including all the waters of the lakes and rivers, whose waters flow by the St. Lawrence River to the Atlantic Ocean. He urged in support of his proposition the possibility of still greater diversion of waters of the lakes and rivers on the boundary being made, to the injury of navigation.

Mr. Tarte admitted the importance of the question, and said that a survey should be made with the object in view. He proposed to take steps in that direction this summer, but did not consider it advisable to ask the co-operation of the Americans in the matter. The motion was withdrawn.

Mr. Douglas moved for correspondence in connection with the wheat blockade in Manitoba and the Northwest last year.

After a five hours' discussion, the motion for the papers called for then passed.

The House adjourned at 10.40.

IT IS IMPOSSIBLE

To Properly Estimate the Usefulness and Worth of Diamond Dyes.

The Diamond Dyes now so universally used in city and country homes do a variety of useful work that no other home dyes can ever successfully undertake. Dresses, skirts, capes, jackets, blouses, stockings, ribbons, feathers, silks, and men's and boys' old and faded clothing can be redyed at small cost and made to look as new. Draperies, coverings, reps, damasks and curtains can be restored to new beauty and usefulness. Cotton warps, carpet rags, wool yarns, sheepskin mats, straw goods, grasses, everlasting flowers, hair, bone, and wood can be dyed any desired shade.

Send your address on a postal card to the Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P.Q., and you will be furnished with sheets of new designs for making up pretty mats and rugs.

Satisfactory Catering

Afternoon and Evening Entertainments successfully Catered for. New Neapolitan Fruit Ice Creams with Water Ices. All other delicacies suitable for special occasions.

A PERSONAL INVITATION

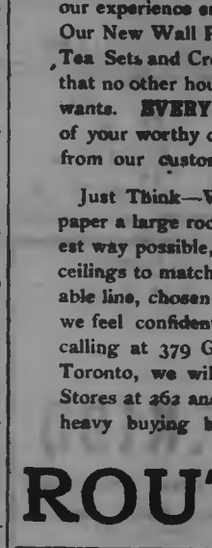
...BY...

H. LeBrun & Co.

You are cordially invited to the City Clothing Store to inspect the splendid display of New Spring Clothing and Furnishings just opened up.

EASTER IS NOT FAR OFF

and calls upon you to think quickly about your Spring attire. Our high-class, correct and reliable Clothing and Furnishings will do all the talking necessary to convince you that it is to your interest to select from us.



Come and pass judgment on our correct Spring Styles—the largest as well as the best value in town.

All the Suits and Overcoats are in
All the Furnishing Goods are in
All the New Hats and Caps are in

What about a New Spring Coat?
What about a New Spring Suit?
What about a New Spring Hat?

Every article for good dressers—for man and boy—is guaranteed the best in make and quality for the money.

Everything new for the season in Ties, Gloves, Shirts, Collars, etc., at LeBrun's.

Experience Counts

There is a lot in knowing how and where to buy. We have had over a score of years' experience, which has enabled us to find where the best goods can be had for the least money. We have thoroughly and thoughtfully taken into consideration your wants, and our varied stock eloquently testifies.

IN BUYING at our stores you get the benefit of all this, for what our experience enables us to save, we pass along to our customers. Our New Wall Paper, Window Shades, Curtain Poles, Dinner Sets, Tea Sets and Crockery will especially bear us out in the assertion that no other house has been more diligent in providing for your wants. **EVERYTHING** possible has been done to secure still more of your worthy confidence and to bring us many congratulations from our customers.

Just Think—We can furnish enough Wall Paper and Border to paper a large room as low at **56c**, or we can do it up in the nobbiest way possible, with the newest shades, gold finish borders and ceilings to match, at the low cost of **$4.67**. We have every desirable line, chosen from the leading American manufacturers, and we feel confident you will be consulting your own interests by calling at 379 George Street, or, should you prefer buying in Toronto, we will be pleased to see you at our large Wall Paper Stores at 262 and 264 Queen Street West. We know that our heavy buying brings a saving to our customers, at

ITALIAN STRIKE PREVENTED.

Government to Present Bill Providing Money For the Men.

London, March 11.—The threatened railway strike has been averted, says the Rome correspondent of The Times. This result has been accomplished by the Government agreeing to contribute three annual installments of £1,320,000 out of the total of £1,680,000 demanded as a provisional concession, the companies paying the balance.

The railway men will reserve future agitation until 1905, when the railway conventions will be renewed.

The Government, says the correspondent, has undertaken to draft a bill sanctioning the outlay, and to make it a cabinet question. The Government has thus momentarily quieted the railway men and has placated the Extreme Left by drawing a promissory note on Parliament. If Parliament refuses to pay the note Premier Zanardelli and Signor Giolitti (Minister of the Interior) will gain credit for sound democratic intentions, while the Opposition will be responsible for the strike and all contingent complications.

SENSATION IN HAMILTON.

The Recovery of Jesse Munro From Tuberculosis of the Bowels Much Commented Upon.

CURED BY OZONE METHOD.

(From Mail and Empire, March 1st, 1902.)

The Hamiltonians who were conversant with the case of Jesse Munro, Esq., a well known citizen residing at 115 Ferguson avenue, are greatly interested in his complete recovery from tuberculosis of the bowels, together with an affected stomach, by means of the liquified ozone preparation, Powley's Liquified Ozone. The details of the case appeared so extraordinary when first reported that it was deemed advisable in the interests of science to investigate them with a view to learning the exact facts. For that purpose a reporter journeyed to Hamilton a short time ago and looked up the records of Mr. Munro's case before and after he had made use of Powley's Liquified Ozone. The results simply verified the first statements that had been given out.

Mr. Munro's condition at one time was considered so extremely critical that it was deemed advisable to remove diseased portions of the bowels, to give him a fighting chance of recovery. The gravity of his case being such, and in order that the facts should be given credence Mr. Munro made out the following sworn statement, giving a concise history of the case.

I, Jesse Munro, 115 Ferguson Avenue, of the City of Hamilton, in the County of Wentworth, moulder.

Do solemnly declare that for the past seven years I have been ill and gradually growing worse, until during the last three years I had been unable to work, except a very little in the summer. For the last three years I have been under the doctor's care, having had in all 18 doctors. By some of them I was told that I had dyspepsia; by others tuberculosis of the bowels; while others could not tell what was the matter with me. Gradually I became weaker, losing 24 pounds in a very short time, and suffering very intense pain. I took fully 200 bottles of different remedies besides great quantities of pills, etc. I was also great quantities of pills, etc. I was also under the care of the physicians of the City Hospital for about two years, taking about 75 bottles, besides pills, etc. I was told by physicians both in the hospital and outside that I should have to go under an operation on my stomach and bowels to save my life; and they said the chances were ten to one that I would not survive on account of the low state of my system. This I declined to do, and was at last advised by a Mr. McKay, a neighbor, to try Ozone, which I did, with the result that I felt relief at once. I have taken in all about ten bottles of Ozone, and am now cured and free from pain, and able to do light work, and am rapidly regaining my strength. The said Mr. McKay has also been cured by Ozone of acute dyspepsia.

And I make this solemn declaration, conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act, 1893.

Declared before me at the City of Hamilton, in the County of Wentworth, this 17th day of December, in the year of our Lord, 1901. JESSE MUNRO.

J. H. LONG, A Commissioner, etc.

The following corroboratory affidavit was also made out:

I, Mary Durham, 115 Ferguson Avenue, of the City of Hamilton, in the County of Wentworth, widow:

Do solemnly declare that I personally know Jesse Munro, of the said City of Hamilton, moulder, and he has lived with me during the last two years. I have read the declaration of the said Jesse Munro, taken this 17th day of December, 1901, and corroborate and confirm all he has said therein.

And I make this solemn declaration, conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act, 1893.

Declared before me at the City of Hamilton, in the County of Wentworth, this 17th day of December, in the year of our Lord, 1901. MARY DURHAM

J. H. LONG, A Commissioner, etc.

The case is considered most remarkable and many people are experiencing the benefit of the Ozone Treatment in the Ambitious City. The reporter was informed by many druggists that Powley's Liquified Ozone had the most extensive sale of any preparation handled by them.

Indians Attack Fort George.

Victoria, B.C., March 11.—E. L. Kepner, the Hudson Bay Company's manager at Fort George, arrived at Quesnelle and stated that the Indians were endeavoring to take possession of the fort. Attorney-General Eberts forwarded instructions to send several specials to scene of trouble, and they were to take such steps as may be necessary to quell the disturbances and punish the Indians.

BILL IN COMMITTEE

Prohibition Measure Reported Except Two Clauses.

SOME SUGGESTIONS TENDERED

There Were Few Changes—Voters Will Be Those Who Vote For Return of Members to the Assembly—The Electric Railways Bill Read a Second Time—Barberry Shrub Act.

Toronto, March 10.—This afternoon in the Legislative Assembly, Hon. E. J. Davis introduced the municipal and assessment amendment bills embodying the amendments to the existing law adopted by the Municipal Committee.

Hon. J. M. Gibson introduced a bill entitled the Wills Act, 1902, stating that the amendments it contained had been suggested by the Supreme Court judges and referred to the formalities to be observed in executing wills.

Hon. J. M. Gibson moved that on and after Wednesday there would be a morning sitting of the House from 11 to 1 o'clock.

Mr. Carscallen drew attention to a motion he had introduced that the House should sit continuously from one p.m. until seven p.m., and not beyond that hour without the unanimous consent of the House. He said that in the United States, neither Congress nor any of the State Legislatures had evening sessions. It would be in the public interest that the rules of the House should not be suspended at the will of the Government to permit measures to be rushed through.

Hon. G. W. Ross said he would not be averse to considering the proposition advanced by Mr. Carscallen. He pointed out important differences between the American and Canadian systems which might form one reason of the different practice as to sittings. There the administration was outside of the House while here it was a part of it. He did not think the present system was so great a strain upon the members as had been implied, as during the present session they had not sat on the average more than two evenings a week. The motion he had submitted was one usually presented at the present stage of the session.

Mr. Foy urged that the House should not be kept sitting to too late an hour at night.

The resolution was adopted.

The Prohibition Bill.

The House went into committee on the bill respecting the sale of intoxicating liquor. A discussion took place on the 3rd clause respecting the persons qualified to vote on the referendum, the bill providing that they should be those whose names appeared on the voters' lists used at the provincial general election, who have been residents of and domiciled in the province from the date of the general election until the taking of the referendum. Mr. Pyne urged that some classes of officials who were excluded from the provincial elections should be allowed to vote. Mr. Carscallen asked if the women who had votes at municipal elections were not to be included. The Premier replied that the basis of the referendum was to be the same as that for the return of members to the House. The clause was allowed to stand.

Clause 23 provided that workingmen in cities and towns should be entitled to two hours at noon to vote. Mr. Marter said that in practice he had never known of a factory shutting down for two hours to permit the men to vote. The clause should provide that the factories and workshops should be closed for that period. Attorney-General Gibson thought that as a rule some arrangement was entered into by which the men got away to vote at different times through the day. Mr. Lucas suggested that the way to meet the difficulty was to keep the polls open till seven in the evening. Mr. Crawford said that if any man took longer than an hour to vote it was at his own expense. He urged the extension of the voting time. The clause was adopted.

When the clause respecting the form of ballot was reached Mr. Foy protested because the question of compensation was left out of the bill. He claimed that that matter ought to have been settled before the bill was submitted. The clause was passed without further comment.

On clause 61, respecting the marking of ballots for persons unable to read, by the deputy returning officer, Messrs. Matheson and Carscallen protested against the principle of requiring people to vote for a measure they could not read and did not understand. Hon. J. M. Gibson replied that there were few who would vote upon it who would not understand the general tenor and operation of the measure just as well as those who voted at political elections understand the issues between parties.

After Recess.

On clause 143 respecting druggists' retail licenses Mr. Wardell asked whether a druggist who was also a qualified medical practitioner could sell liquor on his own prescription. Hon. G. W. Ross replied that he could.

Under clause 172, respecting the appointment of inspectors to enforce the act, Mr. Matheson enquired whether two inspectors would be appointed in any one riding. The Premier replied that it might be necessary in some cases.

Mr. Foy said the Government ought to assume the whole responsibility and cost of the vote and not to ask the municipalities to pay any part of the expense of taking the vote. The Premier replied that to most municipalities where there were but few polling places the cost would be very trifling. Mr. Duff thought that the Government should pay for the polling booths. The bill passed the committee with the exception of two clauses which stood over, and the committee reported progress.

Barberry Shrub.

The House went into committee on the bill to amend the act respecting the barberry shrub. A discussion arose on the question whether it was necessary to make the act applicable to cities. Mr. Whitney asked whether it was needful to destroy the shrub in localities which might be a considerable distance from the agricultural districts. Mr. Little replied that the evidence adduced before the Agricultural Committee had shown that the injurious influence of the shrub might extend for many miles. The bill was adopted.

Electric Railways.

Hon. G. W. Ross moved the second reading of the bill respecting Electric Railways. Mr. Whitney said that the bill gave very strong powers to the Railway Committee. Mr. Foy said that such a radical departure as it embodied needed very full consideration. He had hardly had time to study its provisions. The powers given to the Railway Committee might go very far to take away the powers of this House. Hon. G. W. Ross said that he would see that the Legislature was not hurried in considering the measure. It was only recently that the Government had realized the necessity for such a measure, but owing to the multiplicity of the electric railway charters coming before the house, many of which crossed or came in contact with each other, the administration had seen that such a measure was absolutely necessary. It was not intended to hurry the bill for its consideration. The bill received a second reading.

Hon. J. M. Gibson's bill to amend the Ontario Election Act by providing that polling subdivisions having more than 300 voters might have two polling places, received a second reading.

FOR GOOD ROADS.

Mr. Andrew Pattullo, M.P.P., and Provincial Highway Commissioner A. W. Campbell, will attend a Good Roads Convention at Ottawa on Thursday and Friday of this week. The meeting promises to be an interesting and important one. The secretary, Mr. H. B. Cowan, expects delegates from all parts of the province, and has been able to prepare an excellent program of addresses on many phases of the road improvement problem. Canadian delegates will be glad to know that Col. W. H. Moore of Chicago, President of the National Good Roads Association of the United States, and the Hon. Martin Dodge of Washington, Chief of the Road Inquiries Bureau, are to be present and will deliver addresses. They will be able to tell the people of Canada something of the remarkable progress that the Good Roads movement have been making during the past two or three years throughout the various states of the Union. They have just returned from a five months' tour through various states where they were accompanied by a special Good Roads train which was carried over the Southern Railway. It traversed eight states and covered 8,000 miles in five months, carrying a complete outfit of road-making machinery. Object lessons in road-making with explanatory addresses were given at many points all along the route, and good roads conventions were held in 18 of the chief cities. At Charlestown, S. Carolina, the State Legislature adjourned to attend the Good Roads Convention there in connection with the exposition.

The next gathering for good Roads in the United States is to be held at Charlottesville, Va., on April 2nd to 4th. In connection with this gathering the Southern Good Roads Train will be present, and the construction of a great public highway, to be called the Jefferson Memorial Road, will be begun. Those in charge of this meeting declare that there will be from 10,000 to 20,000 people present. Messrs. Pattullo and Campbell, who have now attended four of the great Inter-State Good Roads Conventions, in the United States, have received invitations, and will probably be present.

In connection with the Ottawa convention this week the Hon. F. R. Latchford, Minister of Public Works, is down for an address, but the closing of the House may prevent his leaving the city.

ASSEMBLY NOTES.

The following have been appointed game commissioners: H. S. Osler, Toronto; W. B. Wells, Chatham; J. H. Casement, Lakefield; W. H. Bigger, Belleville; M. A. A. Smith, Forest.

A Prevailing Scourge.

The "Blighting White Plague." How Catarrh Does Its Deadly Work.

Cooling Off—Taking Cold. | Doctor Says It Is Catarrh. | Has Developed Bronchitis. | In the Grasp of Consumption.

It is just the same old story of exposure to cold. The neglected cold becoming chronic catarrh. Catarrh extending along the delicate mucous membrane to the bronchial tubes and developing chronic bronchitis, causing coughing and expectoration. Still neglected, further extension, the lungs are reached, catarrhal consumption is established. The "White Plague" scores another victory and the grave conceals the record of neglected catarrh. A well-worn road to a withering blight and untimely death. Thousands upon thousands have traveled it, and thousands upon thousands more will travel it. Every year develops a multitude of new victims.

Consumption the fell destroyer is most alarming in its frequency and dire in its results for it annually summons to their long rest over 200,000 victims in the United States alone. It is a disease which spares neither age, nor sex, rank or fortune. It is like the vampire that drinks up the vital stream and still fans with its wings the hopes which perpetually flutter in the hectic breast. It is a terrible and insatiable tyrant, marching down the aisles of time, blasting, devastating, destroying, establishing a gloomy empire of misery and death.

Catarrh is a forerunner of most cases of consumption. The presence of catarrh is evidence of a predisposition to the "Whitening White Plague." Do not let it progress, stop it, cure it. Before it has reached the lungs you can do this with very little effort and expense. Stuart's Catarrh Tablets are a sovereign remedy for the peculiar constitutional condition or systemic dyscrasia that permits of chronic catarrh. They drive catarrh out of the system and heal the evidences of its ravages so long as the destructive processes have not been allowed to progress to a point beyond possibility of repair. They will cure catarrh of the head, nose, throat, ears, bronchial tubes, and the alimentary tract, but if once lung substance is destroyed and in the cheeks the hectic spots burn brightly like signal lamps of death, then they are powerless to save. There is a point in the destructive processes of progressive catarrh beyond which no medicine can cure, where no agency yet discovered will arrest or save.

Be timely wise, cure your catarrh while yet it may be cured. Take no chances of some exposure fanning the smouldering fire of chronic catarrh into a devastating conflagration of consumption. You can buy Stuart's Catarrh Tablets at any drug store for 50 cents a box. Try them and you will become their advocate and friend.

Mr. F. N. Benton, whose address is care of Clark House, Troy, N. Y., says: "When I run up against anything that is good I like to tell people of it. I have been troubled with catarrh more or less for some time. Last winter more than ever. Tried several so-called cures, but did not get any benefit from them. About six weeks ago I bought a 50 cent box of Stuart's Catarrh Tablets and I am glad to say that they have done wonders for me and I do not hesitate to let all my friends know that Stuart's Catarrh Tablets are the right thing."

Mr. Geo. J. Casanova, of Hotel Griffon, West 9th street, New York City, writes: "I have commenced using Stuart's Catarrh Tablets and already they have given me better results than any catarrh cure I have ever tried."

Mr. A. E. Fernbank of Columbus, Ohio, says: "I suffered so many winters from Catarrh that I took it as a matter of course, and that nothing would cure it except a change of climate, which my business affairs would not permit me to take.

"My nostrils were almost always clogged up, and I had to breathe through the mouth causing an inflamed, irritated throat. The thought of eating breakfast often nauseated me and the catarrh gradually getting into my stomach took away my appetite and digestion.

"My druggist advised me to try a fifty cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of Catarrh by the use of these tablets, that he felt he could honestly recommend them. I took his advice and used several boxes with results that surprised and delighted me.

"I always keep a box of Stuart's Catarrh Tablets in the house and the whole family use them freely on the first appearance of a cough or cold in the head.

"With our children we think there is nothing so safe and reliable as Stuart's Catarrh Tablets to ward off croup and colds, and with older people I have known of cases where the hearing had been seriously impaired by chronic catarrh cured entirely by this new remedy."

Send a postal card to F. A. Stuart Co., Marshall, Mich., requesting their free book on catarrh. Write for it to-day.

SPRINGTIME AND ITS ENJOYMENT DEPEND UPON YOUR CONDITION OF HEALTH.

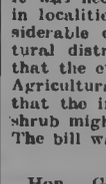
PAINE'S CELERY COMPOUND

Will Remove Your Burden of Disease and Suffering and Make Life Worth Living.

In springtime thousands resort to some remedy to purify the blood and to arouse its circulation with the view of banishing diseases common at this season.

Those whose intelligence directs them, to make use of Paine's Celery Compound, know just what to expect in results when the great medicine is used. They are aware of the fact that their relatives, friends and neighbours have used Paine's Celery Compound in the past, and that it has, in every case, proved the ideal invigorator for the rundown, weak and suffering; it has cleansed the blood and caused the life stream to course with vigor and health to every part of the body; it has braced the nerves; it has banished the agonies of rheumatism, neuralgia and dyspepsia, and has triumphed over deadly kidney disease and liver troubles.

In the past, Paine's Celery Compound as a spring medicine has saved thousands of precious lives; to-day, its work is greater, more widespread and more commanding than ever before, because people know it better and use it more freely. Headaches, sideaches, backaches, heart troubles, sleeplessness, cold chills, night sweats and fevers are quickly banished when Paine's Celery Compound is faithfully used. No other spring medicine keeps the confidence of so many earnest men and women. Paine's Celery Compound has compelled the admiration of the medical world, and will hold its high position as the surest, best and most effective health-giver. One or two bottles used at this time will work wonders for all who are weak, rundown, nervous and out-of-sorts.



Your Doctor.

We wish you would ask your doctor what he thinks of Vapo-Cresolene. He will say "It's certainly the best way of reaching the throat and lungs, this inhaling method." You see, it brings the medicine right in contact with the weak places. If it's asthma, bronchitis, whooping-cough, croup, or any such trouble, the Cresolene vapor touches every inflamed place. Relief is quick, certain. 1

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50. extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

THE GLARE OF THE SUN AND SNOW

is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

SUBSCRIPTION LIST

at Ormond & Walsh's, for Hirwen Jones' Grand Concert.

SECURE YOUR PLACE.

Men's Meeting.

Those who attended the men's meeting at the Y.M.C.A. on Sunday listened with marked interest to Mr. Roger's address on "Christ, our Councillor." Illustrations were drawn from the office of an earthly councillor or advocate to present the work of Christ, the Great Advocate. It was a practical effective presentation of the truth, backed up by experiences from life, proving the reality of the life of faith. Mr. Watson sang, and was ably assisted by a quartette from the Mark street church. Mr. Sorsoleil is the speaker for next Sunday.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

EXPLOSION IN OMEMEE.

An Acetylene Machine in a Barber Shop Causes Trouble.

The Omemee Mirrow says: On Thursday morning about 11 o'clock an explosion took place in Mr. Wm. Colvin's barber shop, caused by gas escaping from the acetylene machine, and as a result the front windows were blown out and the door completely shattered. Mr. Wm. McDonald, tonsorial artist, was stunned for a time, and it is a miracle he escaped with his life. The sleeve of his coat was scorched and his right hand badly cut with glass. The ceiling caught fire and it was only through the strenuous efforts of the fire brigade that the building was saved from being totally consumed.

CIRCUS COMING.

Messrs. Forepaugh & Sells' Bros. Will Show Here on July 15th.

The advance agent of Messrs. Forepaugh and Sells' Bros. Mammoth circus was in town yesterday and was registered at the Snowden House. He completed arrangements for the appearance here of this wonderful show on July 15th next. This show visited Peterborough last June and proved to be a great success. They will visit only the largest towns and cities in Ontario, including Toronto, Barrie, Peterborough, Belleville, etc. The circus should draw the usual large crowd.

PERSONALS.

Miss Moloney, trained nurse, left yesterday to take a case in Omemee.

Rev. E. A. Langfeldt has gone to Campbellford to preach there this evening.

Mr. Will Bullen entered the Nicholls Hospital to-day for the purpose of submitting to an operation.

Miss Mabel Bradburn returned to Toronto to-day after a pleasant visit with Miss Isabella Hay, McDonel street.

Mrs. J. B. Ormond, of Ottawa, who has been the guest of Mrs. J. R. Stratton for the last few weeks, returned home to-day.

Mr. and Mrs. Lount, who accompanied the Cobourg Young Lady Hockeyists to town, received a warm welcome from many old Peterborough friends.

Mr. T. M. D. Croly, of town, left some days ago for New York, where he has since undergone an operation for cancer of the stomach. Word has been received that the operation has been successfully performed and that Mr. Croly is resting easily.

The Montreal Herald on Saturday published a very fine likeness of Mr. John Lang, East Peterborough's popular representative in the Dominion House. The following short biography was also published: "John Lang M. P., for Peterborough East, is of good Scotch stock, the son of James Lang and Agnes Stewart, both of Renfrewshire. He was born in the village of Keene in 1839, and was there educated. He was for 16 years a member of the Township Council, and 13 years reeve or deputy reeve, always by acclamation. When he first ran as an Independent Liberal for the Dominion House he defeated the previous Conservative member, Mr. John Burnham, converting a minority of 257 into a majority of 109. In 1891 he did not run, and Mr. Burnham was again victorious, but in 1896 he was induced to take up the Liberal cause again, and received 615 majority over the same candidate. In 1900 he defeated Mr. J. A. Sexsmith, by 174."

COTTON TOOK FIRE

And Burned the Box Car at Kendry Siding.

A rather peculiar circumstance occurred on Saturday last on the C. P. R. between here and Cavanville. A freight train was on its way to Peterborough, and when near Kendry's siding a box car which was full of cotton took fire. The train hands did not notice it until it was too late to save the contents of the car, which was laid off at Kendry's siding, and allowed to burn. The car was totally destroyed. How the fire originated is a mystery, as the car had an iron roof and could not very well have caught by a spark from the engine. The shipment of cotton was from the western States to the old country, via Boston.

IN LATEST SPORTING CIRCLES.

Peterborough Young Ladies Defeated Cobourg.

The Visitors Were Well Entertained While in Town—Notes on Curling and Lacrosse.

The members of the Peterborough Young Ladies Hockey Club are entitled to the warmest congratulations on the very brilliant exposition of hockey which they gave at the rink last evening, when, before a tremendous crowd, they won from the Happy-go-Lucky Girls, of Cobourg by the score of nine goals to one. It was good scientific hockey which they played from the moment the game began until the final whistle blew. It was a combination game from start to finish, relieved at times by a brilliant individual rush, which would evoke enthusiastic applause from the spectators. The Cobourg team received plenty of encouragement, too. In fact considerably more than the home team, their fair faces appealing irresistibly to the gallantry of the boys, who invented a special yell for their benefit:

One, two, three,
Who are we?
C-O-B-O-U-R-G.

When that slogan was given, every other voice in the rink was drowned out, and the pretty visitors appreciated the courtesy and did their best to win out, but the combination game was too much for them and when they all would be chasing the puck in a bunch they would be dismayed to see it suddenly whisked across the rink to one of the wings and carried in on their goal. Miss Nellie Hewson in goal played a brilliant game, but she could not stop them all, even though she had "Dutchy" Morrison's style down to a fine point. On the forward line little Vivian Crowther was the star for the visitors, but she seldom got through the Peterborough defence, which played a remarkably steady and effective game. Whenever the puck got past Miss Alice Scott, Miss Vieva Hunter was after it like a flash, and it was seldom that it got as far in as Miss Jennie Scott in goal. The forwards played their positions well, Miss Gwen. Hall being perhaps the most clever stickhandler of the four, all of whom surprised and delighted the spectators by their skilful play.

The two teams appeared on the ice very neatly appareled in white sweaters and short walking skirts. The front of the visitors' sweaters bore the letters H. G. L. — Happy-Go-Luckies, while a neat design in crossed hockey sticks, with the letter "P" was worn on the breasts of the Peterborough players, whose toques were of red, those of the visitors being blue.

Mr. A. A. Hollingshead performed the difficult and hazardous duties of referee and as all the girls were still on speaking terms with him after the match it may be surmised that he performed his duties impartially. The teams were composed as follows:

Cobourg — Goal, Miss Nellie Hewson; point, Miss Amy McCollum; cover point, Miss Cora Thompson; forwards, Miss Ruby Thompson, (capt.), Miss Nora McNachtan, Miss Vivian Crowther and Miss Dorothy Skill; umpire, Miss Madeline Crossen; time keeper, Miss Katie McNachtan. Mr. and Mrs. Lount also accompanied the team.

Peterborough — Goal, Miss Jennie Scott; point, Miss Vieva Hunter; cover point, Miss Alice Scott; forwards, Miss Florence Scott, Miss Lulu Scott, Miss Gwen Hall and Miss Pearl Fitzgerald; umpire, Miss Helen Hall; timekeeper, Mr. Norman Bell.

The only goal scored by the visitors was in the second half when little Vivian Crowther made a sensational rush down the rink and won the honour of saving her team from a white-wash.

When the Cobourg young ladies arrived in town they were met at the station by the members of the local club and driven to Mrs. J. R. Stratton's residence, where they were most hospitably entertained, the rooms being very tastefully decorated for the occasion in the colours of the two clubs. Long Bros. looked after the catering and the refreshments were served by a number of the young men of the town. Mr. Jos. Halpany, entertainer, was present and gave a number of most amusing selections during the evening. At the conclusion of the match the young people were entertained by Mrs. Peter Campbell. The Happy-go-Luckys returned to Cobourg at noon after having made a most favourable impression.

The Grove hockey team won a great victory from the Nationals of Peterborough on Tuesday evening last. The match was played in the rink and the score at the close stood 6—2 in favour of the Grove. It was a clean game throughout, and marked by very even play among the contestants. Seeing that this was the case it would be invidious to single out anyone for special mention. Reggie Murdoff made a capable and satisfactory referee.—Lakefield News.

CURLIANA.

The curling schedule for this week has been announced as follows:—

Tuesday, March 11th.

Ice No. 1.

Sub,	Pringle
McAllister,	E. Salisbury
Dr. Nell,	Kenner
Edwards, sk,	Blade, sk.

Ice No. 2.

Robinson,	Sub.
McWilliams,	Oke
Brightman,	Waddell
Ferguson, sk,	Stanger, sk.

Ice No. 3.

Denne,	Tooley
Sub.	McCallum
Meredith,	Munroe
Giroux, sk.	Davidson, sk.

Wednesday, March, 12th.

Ice No. 1.

Sub.,	Robinson
Sub.,	McFall
Brightman,	Terrill
Stanger, sk.,	Edwards, sk.

Ice No. 2.

Sub.,	Pringle
Sub.,	Matthews
Jeffries,	Pentland
E. Rutherford, sk.	Blade, sk.

Ice No. 3.

Gough,	McClelland
E. Salisbury,	McCallum
Sub.,	Greer
Kerr, sk.,	Knapman, sk.

March 13th—Points Competition.
March 14th—Points Competition.
March 17th—Bonspiel.

LACROSSE.

A general meeting of lacrosse enthusiasts is called for Friday evening in the Y.M.C.A. parlours. A union of the Y.M.C.A. and the Vatican teams is proposed.

Y. M. C. A. GYMNASTICS.

Members of the senior Gym. class are asked to attend to-night in large numbers as business of much importance is to be conducted. Arrangements are to be completed for the closing exercises which will take place on April 4th. All men interested in outdoor sports should be present.

WHERE DOES DR. FORD STAND?

In view of the pronounced anti-prohibition and anti-referendum stand taken by Mr. Whitney, the leader of the Opposition, it is certainly pertinent to enquire where Dr. Ford, the Opposition candidate in East Peterborough, thinks this attitude places him.

Dr. Ford has long taken a very positive stand in regard to prohibition. He has addressed many public meetings and conventions in this county in favour of prohibition; he has repeatedly declared that with him there was no compromise—that with him it was a matter of prohibition first and politics afterwards. Now the time seems to have come to put Dr. Ford's declarations to the test—to see whether his principles have the real ring—whether they are the pure metal or merely political pinchback. Thanks to what the Review vaingloriously vaunts as the Opposition Leader's "honesty," on the issue, Mr. Whitney has left no room for doubt of his opposition to prohibition. He has declared himself not only opposed to prohibition in toto, but also opposed to giving the people an opportunity of saying whether they want prohibition or not.

Now, in view of these facts, is it any wonder that people who belive in Dr. Ford's honesty in regard to his well-known temperance professions, are inquiring whether he can feel it possible for him to remain the candidate of the party, whose leader has declared his uncompromising hostility to a cause which Dr. Ford has been standing up for all his life—which he declares he places before all party or political consideration. If Dr. Ford is honest in his friendship for prohibition; if he would justify the slightest claim to consistency, he cannot support Mr. Whitney or his platform on the prohibition question.

Dr. Ford seems to be, in a political sense, at the parting of the ways. He is placed in the position of deciding whether it is possible for him, by following Mr. Whitney, to take the exceedingly sharp curve that will be necessary to enable him to head in the same direction as his political leader; whether he will throw his prohibition professions to the winds or whether he will stand to his temperance guns like a man.

If Dr. Ford should succeed in being elected in East Peterborough as a follower of Mr. Whitney, he would, if he should prove true to his leader, sit in the House as the uncomprising foe to prohibition and moral reform.

The electors of East Peterborough have an old-fashioned prejudice in favour of straight and honest dealing, and it may be worth while for Dr. Ford to pay some attention to this peculiarity. Will Dr. Ford tell the people where he stands?

New Delicacies.

We offer the following fresh arrivals, which are all extra choice: Large Florida pineapples, ripe bananas, new cauliflowers, crisp, white celery, new rhubarb, radish, lettuce, onions, parsley, etc. S. A. Oke, No. 376 George street. Telephone 18.

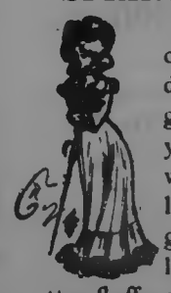
RICHARD HALL & SON

PETERBOROUGH'S MODERN STORE.

A BIG STORE Full of New Goods

And every person pleased with the showing. It's a pleasure for the salespeople to show the New Goods, and a pleasure for the firm to see the way our customers are pleased with the Goods. Every day brings its admirers and buyers too. Many people buy now while assortments are complete.

SPRING PATTERNS



It will do you no end of good to see the pretty dress materials we have gathered together for your inspection. You will find here plenty of light fabrics for spring gowns, both in cotton, linen, silk and wool, pretty, fluffy plain and coloured goods to suit your idea of elegance and fashion; soft goods to carry out any colour scheme you may have prepared. No doubt about getting the right thing for fashion and quality.

SERVICEABLE GLOVES . . .

We have carefully chosen the Gloves we put in stock. We have been successful in getting our line from those who give attention to the best tanning, and who put the most care into the making. We keep Perrin Frere's Gloves only. They have a colour that will last. They will not be easily faded from wear, and will hold their shape. Our prices are **$1.00** and **$1.25** per pair. Every pair guaranteed.

REAL LINENS! REAL LINENS!

This is going to be a linen season in earnest. Linen Dress goods are to be very much in favour, and it is wonderful to see the pretty effects in these goods. Then in Table Linens, Towellings, Napkins and other linen goods, we are showing a bigger and better assortment than ever. We make a specialty of Household Linens—the sort of linens that stand the strain of hard wear and repeated washing—made from selected flax and woven under the most favourable conditions. You will like both the Unbleached and the Pure White Linen we're offering this season at much lower prices than last season.

RICHARD HALL & SON DIRECT IMPORTERS. 130, 132, 134 SIMCOE STREET

PETERBOROUGH BOOKSTORE.

PORT HOPE KNITTING WORKS

PETERBOROUGHS ARE CHAMPIONS.

(Continued From 1st Page.)

could score, and the match ended 3 all, with the round 7 to 6 in Peterborough's favour. It was an exceedingly interesting match and cleanly played throughout, though some players came close to the line in the second half. Only one man went to the fence. Hay getting a minute rest for putting his stick too high to stop a lift. The forwards on both teams are fast, and play a fine combination game, though not able to show their best at that on account of the slush on the ice. This is Galt's first season in the O.H.A. since the association grew to its present dimensions, and, as usual, this good sporting town has made a capital record, going right up to the finals in a series that was undeniably very strong this winter, holding Peterborough to a majority of one goal on the tricky Peterborough rink and losing the championship only in the last few minutes of the second match.

MAIL AND EMPIRE'S VERSION.

The Mail and Empire publishes the following despatch from Galt:—

Galt, March 10.—While the official score of the Peterborough-Galt hockey match for the championship of Ontario, played here to-night, will pass into history as 3 to 3, it was really two three in Galt's favour, for Referee Schooley, in one of the most reprehensible decisions ever given at a sporting contest in this town, gave the last and deciding goal to Peterborough.

It was only three or four minutes before the end when the Peterborough forwards came up with a rush. Graham got the puck and threw himself towards the goal, and was sharply cross-checked by "Dutchy" Morrison. It was claimed that Schooley rang his bell to rule Morrison off for cross-checking, before a Peterborough man, knocked the puck, which was lying dead, into the net. What the surprise of the spectators was may be imagined when Schooley, without any explanation to the Galt team who gathered around him, gave the goal to Peterborough. Morrison pointed out to him that he rang the bell, but Schooley claimed he did not. It was a bitter disappointment to Galt and to its team, that the championship should have been lost in this manner, for Peterborough, having defeated Galt by one goal in Peterborough last Friday, were the winners in the home and home series.

The match itself was one of the most scientific and exciting ever played in Galt. Both teams plunged into it with great enthusiasm, and off-sides were frequent. After eighteen minutes Percy Deitrich scored for Galt, the only goal taken in the first half, which was throughout evenly contested.

Six minutes after starting the second half Peterborough scored, and one-half minute later took the second. For twenty-one minutes play continued uninterruptedly, with Galt in Peterborough's territory nearly all the time, poor shooting on goal preventing a score. Then Hay and Charlie Deitrich each scored for Galt within half a minute, and Galt was again ahead. About four minutes from the end the Peterborough goal already alluded to was taken, and with it the championship passed to Peterborough, whose team the town has every reason to be proud of.

Speaking editorially the Mail and Empire says:—"Peterborough is fast making a reputation for itself in the amateur sporting world. Its lacrosse club brought it credit, and its football and hockey teams went a step higher and landed championships.

"Peterborough won the O. H. A. intermediate championship after a struggle with Galt that could not have been keener, and the eastern city is deserving of all the praise which such a performance calls forth. The easterners, as they have done before, demonstrated in last night's game that they can play as well abroad as at home. Galt must have been surprised at the result, as they were confident of winning by a margin that would have overcome their opponents' lead of one goal."

"THE BOY GUESSED WRONG."

The Examiner can only say now what it has said all through the series that it is rather poor policy for a town to boast about what they are going to do and how they are going to do it. A feature of the Galt papers during the past few weeks back has been the manner in which they boasted of how they were going to turn down Peterborough. They carried on about the same kind of hockey on paper as is characteristic of the Port Hope sporting editor. Peterborough people were all the time laughing up their sleeve and merely said "we'll do our best." But the Galt papers were not the only ones which picked the western team to win and a few clippings from the press of the province might be of interest. The Toronto Telegram says: "Three events take place to-night of importance to the athletic world, the Galt-Peterborough game, the Tecumseh meeting, and the meeting of the Amateur Baseball League at the St. Mary's Club rooms. The first named is creating no end of excitement and there threatens to be a bumper crowd up there. And just supposing Peterborough trims the home team will it not be a horrible shock to the good people of Galt, who think Dutchy Morrison's team invincible. But at that there does not seem much danger of that, for if Peterborough cannot win out on their own ice by more than one goal they have small chance of going to Galt and turning the tables. To stimulate interest in the sport it would be a good thing if Galt did win this evening, you know."

The Galt Reformer:—"A neighbouring newspaper asks The Reformer what Galt intends to play in 1902? Why, everything on the calender. There's nothing that Galt can't play, if it has the desire. We're specialists—but in everything."

"Here's an unlooked for bouquet from the Woodstock Review: Galt will probably win out when they meet Peterborough on their own rink on Monday night. Woodstock sports hope they will.

"Peterborough may die hard to-night, but it's likely to be death, just the same."

The Globe says:—"The final game in the Ontario Hockey Association for the present season will be played to-night at Galt, when Peterborough meets Galt in the decisive game for the Intermediate Championship. The Easterners left Peterborough at an early hour this morning, and will go straight through Toronto to Galt. The first game between these two clubs was played at Peterborough on Friday night, and the home team won by a score of 4 to 3. So that Peterborough enters to-night's game with a lead of one goal. The contest should be a keen one, but the odds seem to be in favour of Galt, especially on the heavy ice.

"Peterborough was proud. Pride goeth before a fall." This and similiar little jibes were published by the Galt Reformer just after the match in Peterborough. While any paper is justified, and more than justified, in exulting over the good play of a local team, still there is no excuse for "rubbing it in" in regard to the opposing club—and then just think what the Galt Reformer will feel like when it has to swallow all the crowing which it did.

THE FIRST TIME.

This is the first occasion on which Peterborough has won the Intermediate championship of the O.H.A. They have on three occasions won the Junior Championship, and on two occasions were the runners-up in the same series. The Intermediate Series was only inaugurated in 1897 and previous to that time there was no age limit in the Junior class. Peterborough's record in the O.H.A. is a good one and is as follows;

Intermediate.

1897—Berlin-Frontenacs.
1898—Listowel-Waterloo.
1899—Frontenacs-Guelph.
1900—London-Bellaville.
1901—St. George's-Port Hope.
1902—Peterborough-Galt.

Junior.

1893—Kingston Limestones-Galt.
1894—Peterborough-Toronto Granites.
1895—Peterborough-Toronto Granites.
1896—Toronto Granites-Peterborough.
1897—Wellingtons-Guelph Victorias.
1898—U. C. C.-Stratford Juniors.
1899—St. George's-U. C. C.
1900—Stratford-Peterborough.
1901—Peterborough-Stratford.
1902—U. C. C.-Stratford.

O. H. A. INTERMEDIATE HONOUR ROLL.

1897—Berlin-Frontenac	3-0
1898—Listowel-Waterloo	4-10
1899—Frontenac-National	5-2
1900—London-Bellerville	2-1
1901—St. George-Port Hope	10-8
1902—Peterborough-Galt	7-6

AN ODE.

I

We've beaten Port Hope,
We're after the cup;
Hey, there, Cadets,
Get your ginger up.

II

We've beaten Cadets,
We're after the cup;
Hey, there, Newmarket,
Get your ginger up.

III

We've beaten Newmarket,
We're after the cup;
Hey, there, Galt,
Get your ginger up.

IV

We've beaten Galt,
We've landed the cup;
Say, old woman,
Is your rhubarb up.

NOTES.

Now for a new rink!

The town is handsomely decorated.

Let every person turn out to-night and give the boys a red hot reception.

The small boy on the streets was shouting until an early hour this morning.

"Hello, central, have you heard from Galt, yet?" was a question that was asked the most over the 'phone last night.

Ice Cream, Soda Water,
Ginger Ale and Pop,
Peterborough, Peterborough,
Always on the top!

The only consolation that Galt can take is in Sir Walter Scott's idea that the next proudest thing to a victory is a gallant defeat.

The Peterborough team will be met at Blackwater by a number of Peterborough people who intend going that far to greet them.

Peterborough landed the Junior championship three times, something no other team can say. They were the runners-up twice.

A committee is around town this afternoon and has collected a sufficient sum of money to put on a good display of fireworks to-night.

The Examiner feels more than an ordinary pride in the victory in view of the fact that Captain Glover is a member of the business staff of this office.

Mr. George N. Graham is one of the happiest men in town to-day, and the decorations at the Oriental hotel surpass anything he has ever attempted in that line before. He is giving the team and officers a banquet this evening.

The Queen's Hotel, Charlotte street, is to be gaily decorated this evening in honour of the hockey boys victory at Galt. Mr. Tooley prides himself on always having his "rhubarb up." He never wants to play second fiddle on any such occasion as this. He is a sport from the ground up, and will spare no expense to mark his appreciation of the "grit and sand" which our Intermediate champions possess.

The Peterborough team was in receipt of many congratulatory messages from enthusiastic supporters of the team here. Mayor Denne was amongst the very first to send a telegram of congratulation on behalf of the town. It was as follows:

"Peterborough, March 10.

"R. M. Glover, Capt. Peterborough Hockey Club, Galt,—

"Accept heartiest congratulations on behalf of the citizens of the town.

"T. H. G. Denne, Mayor."

This morning Mayor Denne received the following message in reply:

"Galt, March 11th.

"T. H. G. Denne, Mayor, Peterborough,—

"Team sends heartiest thanks; no one hurt.

"Roland Maxwell Glover,
"Capt."

It is up to the Toronto press to gracefully apologise for the manner in which they have called Peterborough as the losers in every round played in the Intermediate series this winter. From what source the city papers draw their information it is hard to say as the referees, who officiated in the local games, all thought well of Peterborough's chances. As a matter of fact the only defeat of the season was received at Lindsay and that was when the team was short of the services of Wasson, Armstrong and Graham. The seven which won the championship never met with a reverse, the closest call they had being at Galt, last night, when the best the western champions could do was to tie them.

GIGANTIC ADVERTISING.

Grand Trunk Arranges Plans for Picture Exhibit—Tour Covers Ten Weeks.

Though the Grand Trunk Railway system carried over 20,000 tourists and sportsmen into one district of Canada's summer playgrounds last year, the Company is starting out this year with a vigorous policy of advertising to still further increase the influx of pleasure-seekers who annually travel over this system.

The company has now decided to give the populace of some of the larger cities in the states of Ohio, Michigan, Indiana, Kentucky and Pennsylvania an opportunity of seeing the series of photographic views it had on exhibition at the Pan-American exposition at Buffalo. There will be over 100 pictures in the collection, each measuring 3 feet 6 inches by 4 feet 2 inches, in addition to one of the finest collections of mounted fish that has ever been shown. The fish include specimens of black bass from the "Highlands of Ontario," dore and maskinonge from the St. Lawrence, land locked salmon from their native waters, and other specimens of rare value. A representative of the Grand Trunk will accompany the exhibit and the art gallery will be installed in the business portion of the cities visited. Thousands of copies of literature, describing the several regions to be advertized, will be distributed. The exhibit will open at Saginaw, Mich., March 10, and goes from there to Grand Rapids, thence south to several points in the other states.

The tour will occupy ten weeks, two days being allowed in each city.

NEWS NUGGETS.

—The chief has a ladies' gauntlet for which he would like an owner.

—The Central Charity Board met yesterday afternoon and dealt with a number of applications for aid.

—The members of St. Luke's Guild at their meeting last night decided to invite the members of All Saint's Guild to spend a social evening with them on the evening of April 14th.

Mr. John Carlisle has purchased from the Bradburn estate a portion of the vacant lot on McDonel street between Bethune and Stewart, and is arranging for the building of eight brick houses.

—The musical comedy "The Runaway Girl" has been presented in St. Thomas. It seems odd that none of these high class attractions can be secured for Peterborough, although they show in places of the same size.

—The regular meeting of All Saint's Men's Union and a special meeting of the Advisory Board will be held this evening at 8 o'clock sharp. Important business can be despatched in time for any who wish to attend the welcome to the hockey team.

—Two Lakefield men will appear before Police Magistrate Edmison to-morrow, charged with obtaining money under false pretences. It appears that the two accused men at the time Dr. Blanchard went to South Africa a few months ago, obtained by subscription about $10 alleging that it was for a purse to that gentleman. He never received the money so it is said, and the promoters of the scheme will give an account of their transactions with the public.

If it is asthma, bronchitis, croup, or any such trouble, use Vapo-Cresolene. All Druggists.

NEW HATS

For Spring, 1902.

Wheels slightly used, $5.00 to $20.00. Secure Agency at once.

T. W. BOYD & SON, 1680 NOTRE DAME ST., MONTREAL.

THE BUGLE BAND.

They had a Splendid Turn out Last Night.

The members of the Bugle Band turned out last night ten strong for their first practice for the coming season's drills. The band, although diminished in numbers, owing to some of their number going to South Africa, and to others who have left town, seem to be as strong in treating it notes as ever, and show good prospects of being as good as before, if not better. The band will be presented with new drums and bugles in the near future, and any young men, musically inclined, and desirous of joining the band, made do so by seeing Bugle Major Cookson, at the Armouries, on any of the following Monday evenings. The members of the band are urgently requested to be on hand on Monday evening next, in good shape for a solid half-hour's practice. After practice a meeting will be held to arrange certain matters for the coming season's parades. The boys will find their band room at the Armouries very neat and comfortable on practice evenings, due to the kindness of Lt. Major Brittain, who has the interests of the boys in hand.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

BATTLESHIP KING EDWARD VII.

His Majesty Lays the Keel—China Medals Distributed at Plymouth.

London, March 10.—King Edward and Queen Alexandra participated in a number of functions and ceremonies at Plymouth Saturday, including the distribution of China medals. Among the recipients was Admiral Sir Edward Hobart Seymour, who commanded the first Pekin relief expedition. The principal ceremony of the day was the launching of the first-class battleship Queen by Queen Alexandra, and the laying of the keel plate of the first-class battleship King Edward VII., by King Edward. The latter will be built on the slip on which the Queen was constructed. When the Queen entered the water King Edward touched a button which released the keel plate from its temporary resting place, whence it slipped into position on the blocks. The King Edward VII. will eclipse all previous efforts in naval construction. She will be of 16,500 tons displacement and carry four 9.2 inch guns, in addition to the usual 12-inch and 6-inch guns.

Canon of St. Alban's Dead.

Toronto, March 10.—Rev. Henry Bath Osler, canon of St. Alban's Cathedral, died at his residence, York Mills, Saturday evening.

He was born in Falmouth, Cornwall, England, in the year 1814. The first years of his life were spent in the Old Land; early in the forties, he joined his brother, Rev. Featherstone Osler, and after the usual preparation for the ministry was ordained by Bishop Strachan, in October, 1843. After his ordination Canon Osler was placed in charge of Lloydtown and Albion with parts adjacent. After 31 years' ministry here he was appointed rector of York Mills. Bishop Strachan made him an honorary canon of St. James' Cathedral in 1867; in 1875 he was made Rural Dean of North and West York by Bishop Bethune, and in 1899 Canon of St. Alban's Cathedral by the present bishop.

Rev. Father Ryan Dead.

Toronto, March 10.—Rev. Francis Ryan, rector of St. Michael's Cathedral, passed to his rest on Saturday afternoon at 3.15 o'clock. Last Tuesday he was stricken with paralysis and was removed to St. Michael's Hospital. He never regained consciousness after being stricken. Father Ryan was beloved by his people for his Christian devotion and blameless life, and by his fellow-citizens for his broadness of mind, his charity and his sweetness of character. He was one of Nature's noblemen, and there are none to-day but speak kindly of him.

The remains of the deceased prelate are resting in state in the Bishop's Palace, Church street, and were viewed yesterday by a great number of people. This afternoon the body will be taken into the cathedral, and on Tuesday at St. Michael's Cemetery interment will take place.

Counting the Loss.

Baku, Russian Transcaucasia, March 8.—The official report of the committee which has been investigating the recent earthquake at Shamaka shows that 126 villages, with a total of 9,084 houses, were included in the area of the disturbances; that 3,496 houses were destroyed and 3,943 damaged. Beside the dwelling, 4,163 farm buildings, 11 churches, 41 mosques, 11 factories and 3 school houses were seriously damaged.

The Press Burned Out.

Halifax, N.S., March 10.—The building occupied by the Press Publishing Company in Amherst was gutted by fire yesterday morning, and the company's plant was ruined by water. Several other firms who had offices on the second floor also suffered by the fire. There was $1,500 insurance on the building and $2,000 on the press plant.

Rev. Dr. Smith Dead.

Halifax, N.S., March 10.—The death occurred here on Saturday afternoon of Rev. T. Watson Smith, D.D., LL.D., aged 65 years, after an illness of a little over a week with pneumonia. The deceased was possessed of great literary talent. Deceased leaves a widow, two sons and two daughters.

Handwriting by 'Phone.

Paris, March 10.—The telautograph, an instrument which transmits hand-writing by telephone, has just been tried in the Central Telephone Office of Paris. Experiments were conducted over the Paris-Lyons wire, and, except for a slight tremor, due to indication, were perfectly successful.

A Priest a Captive.

Pekin, March 9.—Chinese officials are greatly disturbed over the conditions at Jehol (Chengte), about 100 miles northwest of Pekin, where bandit soldiery have captured a priest. The Foreign Office says that the captured priest is a Belgian.

Chamber Sat on Sunday.

Paris, March 10.—Anxious to dispose of the budget, the Chamber took the unusual course of sitting on Sunday, and adopted the budget for 1902 by a vote of 398 to 64.

Strong Enough for Cancers.

Cancers are caused by poisonous humors in the blood. The only non-surgical treatment known is Merrill's System Tonic. This is a powerful blood purifier and at the same time blood builder. It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.

Webb Purchases Another R.R.

Ottawa, March 11.—It is reported that Dr. Seward Webb has purchased Gatineau Valley and Pontiac Pacific Junction Railways, known as Ottawa Northern and Western.

Married Nearly 40 Years.

London, March 11.—The 39th anniversary of the wedding day of the King and Queen was celebrated at Marlborough House yesterday with a dinner.

To the Weary Dyspeptic. We Ask this Question:

Why don't you remove that weight at the pit of the Stomach?

Why don't you regulate that variable appetite, and condition the digestive organs so that it will not be necessary to starve the stomach to avoid distress after eating.

The first step is to regulate the bowels.

For this purpose

Burdock Blood Bitters

has no Equal.

It acts promptly and effectually and permanently cures all derangements of digestion. It cures Dyspepsia and the primary causes leading to it.

TAPS FROM THE WIRES.

At Wiarton on Saturday a heavy draft team, belonging to Frank Robinson, backed into the bay and were drowned.

T. L. Pardo, M.P. for West Kent, is dangerously ill with pneumonia at his home in Cedar Springs. Mrs. Pardo is prostrated from a similar attack.

Saturday evening Detective Joseph Day of Portland, Ore., left Montreal with Charles Savage and the woman, Frankey Thomas, who are both wanted for the robbery of $30,000 worth of diamonds, which were stolen at Portland, Oregon, some months ago. Both accused were caught in that city.

A Sufferer From Backache.

Several Years of Kidney Disease—A Prominent Merchant Cured by.

Dr. Chase's Kidney-Liver Pills.

Every day adds scores of names to the long list of persons who have been cured by Dr. Chase's Kidney-Liver Pills, and among those who are now enthusiastic of this great medicine is Mr. W. Gilroy, the well-known merchant of Blenheim, Ont.

Like many others, Mr. Gilroy now wonders why he did not use Dr. Chase's Kidney-Liver Pills in the first place, instead of experimenting with new-fangled and untried remedies. There is no doubt about the exceptional virtues of Dr. Chase's Kidney-Liver Pills. They act directly on the kidneys, liver, and bowels, and thoroughly cure complicated ailments which cannot be reached by ordinary remedies.

Mr. W. Gilroy, general merchant, Blenheim, Ont., states:—"I am rather enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills, and believe I have good reason to be. For several years I was a great sufferer from kidney disease, and had pains in my back almost constantly. I tried a great many remedies, but did not succeed in obtaining more than slight temporary relief.

"A friend of mine advised me to try Dr. Chase's Kidney-Liver Pills, and I did so with great satisfaction. I had not taken half a box before I began to feel better, and now realize that I have entirely recovered. I often wonder now why people go after new-fangled remedies when this tried and proven medicine is so easily obtained, and so certain to cure."

Dr. Chase's Kidney-Liver Pills have the hearty endorsement of good citizens in nearly every city, town, and village in Canada. They are probably the most popular remedy that was ever introduced into this country, and their enormous sales are due to the fact that they radically cure serious and chronic diseases. One pill a dose; 25 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto.

What He Saw.

An Irish teamster went to his parish priest in a great fright and told him that he had seen a ghost on the church wall as he passed it in the night.

"And what was it like?" asked the priest.

"It was like nothing so much as a big ass," said Patrick, wild eyed.

"Go home, Pat, and be easy," replied the priest soothingly. "You've only seen your own shadow."

Salt Lake City Water.

There is flowing water in all the streets of Salt Lake City, and little creeks and rivulets run through many of the yards of private houses. At nearly every street corner there is a flowing fountain. The city's water supply tumbles down from the snow capped mountains into streams of crystal white, shining and cold as ice.

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

MARKET REPORTS.

A Lower Close in Wheat—Decrease in the Visible Supply of Grain—The Latest Quotations.

Monday Evening, March 10.

Liverpool wheat futures were quoted ½d to ⅝d higher to-day, and corn futures unchanged to ¼d higher. Paris prices to-day were 20 centimes higher for wheat.

Chicago markets were easier to-day, after a firm opening. May wheat closed ⅝c lower than Saturday; May corn, ½c lower, and May oats ⅛c lower.

THE VISIBLE SUPPLY.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 328,000 bushels; corn decreased 248,000 bushels, and oats have decreased 182,000 bushels.

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 95,675,000 bushels, against 95,533,000 bushels a week ago, and 93,510,000 bushels a year ago.

Produce market—Cheese, 10c to 11c. Butter, townships, 21c to 22c; western, 15c to 17c. Eggs, 18c to 20c.

MONTREAL LIVE STOCK.

Montreal, March 10.—Eastern Abattoir stock yards presented a busy appearance this morning, as business was brisk on all sides. The arrivals were fairly large and demand good, with prices, however, about stationary, with the exception of best cattle, which was quoted in advance of last week's. The quality of stock was in most respects satisfactory. Buyers were out in large numbers and the prospect of Easter trade is beginning already to affect the sales. There were young spring lambs offered, as well as a number of pretty good calves. Hogs were scarce, with quotations same as last report. The supply was probably a little in excess of demand, but all good stock was selling in excess of the medium or poor offerings. Cattle—Arrivals, 350 head; quality fair to choice; quotations slightly in advance for best cattle; demand, fairly brisk; a few choice heads sold at from 4¾c to 5¼c per lb; fair to good stock from 3¾c to 4¼c per lb.; poor and leaner, found slow sales, at 2c to 3¼c per lb. Considerable of the latter will remain unsold at the close of sales to-day.

Sheep and Lambs—Arrivals, 120 head in all; quality only fair; demand not in excess of supply; quotations stationary. Sheep were quoted at an average of 4¼c per lb. for best, but as low as 3½c per lb. was paid. Lambs offered were young and brought about $3.50 per head.

Calves—Arrivals, 100 head; quality only fair; demand medium; quotations, from 2c to 12c, according to size and quality.

Hogs—Arrivals, 20 head; quality, good; demand, in excess of supply, with quotations for selected at $6 per cwt.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, make them active, vigorous, and thoroughly cure these ailments. One 25c box of this great Kidney medicine will do you a world of good.

No Longer Secretary Long

Washington, March 11.—The third change in the Cabinet of President Roosevelt occurred yesterday, when Secretary Long submitted his resignation, and it was accepted by the President. Representative William Henry Moody of the Sixth Congress from Mass., is his successor.

RESIDENCE—178 Harvey street, Peterborough.

SHAM DIAMONDS.

They Are More Common Than Is Generally Imagined.

A point in favor of the diamond is that its imitation is more or less easy of detection. A real diamond cannot be touched with a file, and a false one, though it can be made to scratch glass, will not cut quarts. Its brilliancy also fades, while the real diamond is absolutely permanent. It reflects all the light falling on its posterior surface at an angle of incidence greater than 24 degrees 13 minutes, but its counterfeit only reflects half this light.

But the imitation of the diamond may be more common than is imagined. There is a good story of one of the famous M. Bourguignon's customers. A lady went into the well known Paris atelier of sham gems and asked the price of a parure in exact imitation of the one she produced. "Was M. Bourguignon sure that the imitation would be perfect? Had he observed the peculiar beauty and purity of the stones?" The reply came: "Be calm, madame. The same workman shall have the job. You may rely upon an exact counterpart of his former work."

Pulverized quartz is used for these stones, and it is supplied in the sand from the forests of Fontainebleau. Hundreds of men and hundreds of women and girls are employed in the Bourguignon business, and they make not only diamonds, but pearls, emeralds, rubies and sapphires. The girls line the false pearls with fish scales, and wax, polish and color with mineral the other "stones."

His Excellent Memory.

"John," she said, looking at him severely, "did you know that yesterday was the anniversary of our wedding?"

"Certainly, my darling, certainly," he replied, pretending that he wasn't at all surprised. "Didn't they send that little thing out from the jeweler's that I ordered for you? I shall go around today and see about it. Confound those people, anyway! They promised they'd send it yesterday without fail. If there's anything that makes me mad, it's to have people lie to me about a thing of that kind. I'd have gone somewhere else if they had said they couldn't have it ready in time. Well, I'll make such a kick when I get into town today that they won't forget next time, I'll bet. Yes, I remembered it, my dear, I thought of you all day and of that other happy day. What a glorious—why, my darling, what are you crying for?"

"Oh, you l-l-liar!" she sobbed. "It isn't till next month, and you're deceiving me! Go away! Don't you dare to t-t-touch me!"

"Confound women anyhow!" he said as he went down the front steps. "They're never happy unless they're making trouble for themselves!"

The Origin of Speech.

The dog can emit four or five different tones, each indicative of a special mental condition and each fully understood by its companions. The barn door fowl is credited with from nine to twelve distinct vocal sounds, each capable of a special interpretation by its fellows. The gestures of the lower animals are either facial, like the grimaces of the monkey, or changes of bodily attitude, like those of a dog. After citing the above mentioned facts the president of the anthropological section of the British association in a recent address went on to say that he thought it might not unreasonably be inferred that the remote progenitors of man relied upon equally lowly means of communication and that from such humble beginnings speech has been slowly evolved. Even yet we find gestures, facial expressions and certain vocal sounds often more eloquent than words.—Youth's Companion.

Prepared For All Emergencies.

It is proverbial, of course, that the French shopman always hopes to make twice as much as he should out of the Englishman and twice as much again out of the American. An English tourist who knew the French shopman, though he did not know his language, adopted a simple expedient for transacting his business abroad. He carried a card into every shop he entered on one side of which was written, "Combien?" (How much?) and on the other, "Je vous donnerai la moitie" (I will give you half). It is said that he never found further conversation necessary.

Kept Her Eyes Open.

The first appearance on the stage of Mrs. Kendal was at the early age of five years. She played the part of a blind child and frankly confessed that it was not a success. Unwisely she had been given a pair of new shoes for the performance, and so great was the child's delight in these that nothing could induce her to keep her eyes shut, as she should have done, and refrain from taking stray peeps at her beautiful, shiny footgear.

The Heart.

That wonderful piece of mechanism, the heart, appears to work continually day and night from birth to death, but in reality there are short pauses or rests between each beat which, though minute in themselves, mount up in the aggregate to eight hours out of every twenty-four. These short pauses enable the heart to repair the waste which constant work entails and without which rests it would break down.

Recently there have been several cases of prominent men suddenly falling in collapse just after eating a hearty meal. These men have all been under treatment for gastric "trouble," and yet the result shows that the treatment they had received had smothered the symptoms but had not retarded the progress of the disease.

There is a real danger in the use of palliatives when there is disease of the stomach and its allied organs of digestion and nutrition. The disease in such cases goes on, while the distressing symptoms alone are stopped. Presently, like a smothered fire, the disease breaks out in new places, involving heart, lungs, liver, kidneys, or some other organ.

The use of Dr. Pierce's Golden Medical Discovery results in a radical cure of diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when the disease of these organs has its origin in the diseased condition of the stomach and digestive and nutritive system.

"I will tell you what myself and family think of your medicine," writes Mr. M. M. Wardwell, of Linwood, Leavenworth Co., Kansas. "It will do all you say, and more. I was taken sick nine years ago; I got so weak I couldn't lie down, nor hardly sit up; was that way two or three months. I picked up one of Dr. Pierce's Memorandum Books one day and saw your description of catarrh of the stomach. I thought it hit my case. We had a bottle of Dr. Pierce's Golden Medical Discovery in the house that was got for my mother. You recommend it for catarrh of the stomach, so I went to taking it. The one bottle nearly cured me. I got two bottles next time and took one and one-half and was well. Your medicine cost me three dollars and the doctor cost me fourteen dollars."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 31 one-cent stamps, to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

SCROFULA.

"Scattered consumption" is a good way of describing this disease. It is in fact a real consumption of the little glands under the skin.

Scott's Emulsion cures it. Scott's Emulsion is good for all kinds of consumption but especially good for scrofula.

It heals the sores—but doesn't stop there for the weakness and loss of flesh is the worst part of scrofula.

Scott's Emulsion feeds and strengthens scrofulous children.

Send 4ⓒ for Free Sample.

HE WAS EXCUSED.

But the Talesman Bungled His Excuse For Evading Jury Duty.

A young man whose features and flashing eyes betokened great earnestness was summoned before a judge of the city court the other day for jury duty. He immediately asked to be excused. When the judge asked him what excuse he had for not serving, he replied:

"I believe it is a rule of the court that the jury is the sole judge of the facts and the court of the law—that the juror should only weigh the facts as presented by the evidence, not taking into consideration any of the rules of law governing the case, wherefore all lawyers are exempt from jury duty."

"But are you a lawyer?" asked the judge.

"No, but I have been a close student of the law for many years."

"I am afraid that I cannot excuse you if you are not a lawyer," said the court, smiling.

"But," continued the young man, with great earnestness, the color mounting to his temples, "I am sure if your honor knew as much law as I do your conscience would not allow you to serve on a jury."

After the bench and bar had recovered from this naive outburst the judge told the young man that if it was a matter which affected his conscience so deeply he would excuse him, and a very much abashed youth left the courtroom.

The Scorpion's Wonderful Ear.

I have studied the habits of the scorpion for many years and have often noticed how very sensitive scorpions are to the most delicate sound, musical or otherwise. Under the thorax the scorpion has two combline appendages, which are the antennæ (pectinatæ). It is pretty well settled by physiologists and entomologists that in insects the antennæ represent the organs of hearing. These delicate structures are easily affected by the vibrations of sound, and there can be no doubt whatever that they are also affected by sounds quite inaudible to the human ear.

The slightest vibration of the atmosphere from any cause whatever at once puts in motion the delicate structures which compose the antennæ, to which organs insects owe the power of protecting themselves against danger as well as the means of recognising the approach of one another.—London Spectator.

Horseshoe Nail Rings.

Finger rings made of horseshoe nails! They are certainly not pretty or graceful, but they are said to bring good luck to the wearer on certain conditions.

To be a genuine charm the ring must be made from a nail taken from a horseshoe found by the owner herself and nobody else. This is taken to a jeweler, who bends it to fit her little finger and cuts off the superfluous length.

The ring is not welded together, and the head of the nail stands for the setting. There's no way of proving it, but those who have adopted these ornaments say that they bring just as much luck as a horseshoe itself hung over the door with ends up.

Fattening For Marriage.

The marriageable girl in Tunis has a trying ordeal to go through after her betrothal to the man not of her choice, but whose choice she is. She has to be fattened to the required size before the ceremony can take place.

As soon as the betrothal takes place she is taken to a room and there cooped up till the fattening process is concluded. Silver shackles are fastened round her wrists and ankles, and the task of her parents and future husband is to increase her bulk till her wrists and ankles fill up the shackles. If the husband is a widower or has "discharged" his first wife, the girl has the shackles of the first spouse placed on her, and she must fill them out.

It takes a long time to do this, as a rule, and sometimes it cannot be accomplished in spite of all efforts. It is then open to the future husband to cry off the bargain or waive the condition. In the case of a bachelor he takes care to see that the bracelets and anklets are not too large—that is, if he is fond of the girl—but if he is being forced into the marriage by his parents he is a great stickler for customs. Stout girls are the more quickly snapped up in Tunis.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Polson's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

A Mark Twain Story.

Two Englishmen were discussing with Mark Twain the old topic of American humor as not appreciated by foreigners.

"But are the English really so obtuse?" asked one of them.

"Obtuse! You can't get an idea into an Englishman's head with a surgical operation," declared Mark Twain.

The questioner remained in solemn thought for a moment. Then he broke into a hearty laugh.

"Quite a delicious joke!" he exclaimed. "Though of course if you were to open the Englishman's skull you would kill him, would you not?"

Mark Twain turned to the second Englishman. "What did I tell you? He wants to know whether it wouldn't kill him!"

The countenance of the second Englishman was like a blank wall. "Wouldn't it?" he queried.

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

Used to Smoke In Church.

The Rev. Dr. Parr, when perpetual curate of Hatton, Warwickshire, which living he held from 1783 to 1790, regularly smoked in the vestry while the congregation were singing long hymns, chosen for the purpose, immediately before the sermon. The doctor was wont to exclaim, "My people like long hymns, but I prefer a long pipe."—All the Year Round.

Sweet Charity.

Mrs. Gossippe—It is a positive shame to see how poorly Mrs. Chubtee clothes her children.

Mrs. Chubb—But you must not forget, my dear, that her time is so much taken up with noble slum work that she has no time to look after them."

JEWELLERS AND OPTICIANS, 360 George St., Peterborough.

THE SMALLPOX OUTBREAK.

Thirty-Eight New Cases Yesterday.

The Examiner has to thank Mr. J. J. Turner, sr., who is now in London, for several copies of London newspapers. Mr. Turner marks the following item for reproduction in the local papers:

Thirty-eight fresh cases of smallpox were reported in London yesterday. They came from the following areas;—Shoreditch eight, Poplar six, Stepney four, Hackney and Southwark three each, Marylebone and St. Pancras two each, and one each from Fulham, Chelsea, Westminster, Finsbury, Bethnal-green, Lambeth, Wandsworth, Camberwell, Deptford, and "extra metropolitan." These are now 1,289 patients in the hospitals.

Mr. Grant Lawson informed Mr. Cogbill in the House of Commons yesterday that he understood that under a law made this month vaccination and re-vaccination would be rendered compulsory in France. Vaccination and re-vaccination had in Germany been compulsory on the population generally since 1874. Information obtained by the Royal Commission on Vaccination showed that the system had been beneficial in diminishing smallpox. (Cheers.)

The Medical Officer of Health for the City, Dr. W. Collingridge, yesterday visited the Mansion House at the special request of the Lord Mayor, and vaccinated his lordship, the Lady Mayoress, and family, and the whole of the secretarial and household staff.

HAGGART'S SALES.

Wednesday, March 12—Auction sale of farm stock and implements of Mr. Robert Eastland, lot 11 in the 12th concession of North Monaghan.

Monday, March 17—Auction sale of farm stock and implements of Mr. R. G. Ivery, lot 9, in 5th concession of Smith.

Thursday, March 20th.—Auction sale of farm stock and implements of Mr. Samuel Harper, lot 7, in 13 concession of Smith

The above farm, stock sales will commence each day at 1 o'clock sharp.

John Haggart, Auctioneer.

Diphtheria and scarlet fever cannot spread where Vapo-Cresolene is used. All Druggists.

ADDITIONAL TROOPS.

Eight Men Are to Be Despatched to South Africa.

London, March 11.—Nearly 20,000 additional men are to be thrown at once into South Africa, and 7,000 have already been despatched from India, under urgent orders, and in an unusual manner.

Instead of sending complete regiments, strong companies of 150 men have been picked from the various battalions in India, with not more than one officer attached to each company. The reason for this latter arrangement is the dearth of officers in the Indian commands, owing to previous drafts upon them for service against the Boers.

Militiaes For Canada.

Ottawa, March 11.—Since the beginning of the war in South Africa the War Office has purchased through the Agricultural Department food and forage supplies to the value of $7,000,000. If to this be added the munitions of war purchased through the Militia Department, the total will be brought up to about $9,000,000, exclusive of the outfit of the third contingent.

COLONEL PRIOR ELECTED.

The New B.C. Minister of Mines Defeats R. V. Bodwell, K.C.

Vancouver, B.C., March 11.—Col. Prior, Minister of Mines, was yesterday elected in the bye-election in Victoria City over E. V. Bodwell, K.C., Opposition. Col. Prior's majority was 31. The vote was Prior 1,495, Bodwell 1,474. This gives Dunsmuir a following of 21 in a House of 39

Col. Prior represented Victoria in the House of Commons for a number of years. He is a Conservative, though politics do not play a large part in British Columbia.

Lit Match in Powder Room.

Brampton, March 11.—A terrific explosion occurred yesterday afternoon in Peaker & Sons' hardware store, and William Peaker, jr., was, perhaps, fatally injured. After ten minutes the building was entered and young Peaker was found lying insensible, his clothing on fire. He had several dangerous burns on his hands, face and breast. It is thought he went to the powder room and struck a match to see what was in stock. The building was badly damaged.

Ruby Lips and a Clear Skin

are guaranteed to any woman who takes Merrill's System Tonic. This marvellous medicine is especially adapted for women, because it supplies iron for the blood, cures constipation, strengthens the nerves and by its blood purifying and muscle-toning properties quickly cures all female ills. 50 pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

Band Concert.

A band concert will be given in the opera house on Friday evening next, when a varied programme of vocal selections, numbers by the band, etc., will be given. On Good Friday afternoon and evening the band will also give concerts.

Like Sunshine and Rain.

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. Don't neglect your lungs. Spend 25c for a bottle of Four T's at Ormond & Walsh's drug store and avoid congestion.

TOO GREAT EXPENSE

Not the Reason.

It is not because Pyramid Pile Cure is so expensive that many people decline to give it a trial, but because they find it too great a tax on their credulity to believe that the published letters bearing testimony to the merit of this remedy are genuine and bona fide; especially to those who have realized the suffering incident to piles is it incredible that anyone who has been afflicted twenty-five and thirty years with the worst forms of protruding and bleeding piles should be cured by the application of a simple remedy, when their physician has assured them that the only relief is in a surgical operation. This is rightfully viewed with dread by all those afflicted, as it means at the least a great shock to the nervous system, with more than a possibility of utter collapse and death; in the majority of cases, too, there is a return of the complaint, owing to the fact that the cause is not removed.

The proprietors of Pyramid Pile Cure agree to forfeit one thousand dollars to anyone who will show a single published testimonial to be not genuine and unsolicited; this latter feature is most gratifying, inasmuch as these letters are written solely out of gratitude, and with the hope that those who are afflicted as the writers have been may learn that relief is at hand, at a comparatively trifling expense. Pyramid Pile Cure is for sale by druggists at fifty cents a package, or will be mailed by the makers to any address, upon receipt of price.

Mr. Wm. Lichtenwalter, head of the largest printing house in Canton, Ohio, says: "It is with the utmost pleasure and satisfaction that I can say I believe I am cured of protruding and bleeding piles, after suffering more than twenty-five years. I have been in bed for two weeks at a time. I have not suffered in the least for over a year, and I used only three fifty-cent boxes of Pyramid Pile Cure. I advise every person suffering with this distressing and painful complaint to give this remedy a trial. I have every confidence in it." Write the Pyramid Drug Co., Marshall, Mich., for their book on the causes and cure of piles.

BE CAREFUL

Who you employ to do your plumbing, or heating; be sure he is a sanitary plumber, and understands his business, for improperly done plumbing is sure to lead to trouble. I guarantee all my work to be first-class—try me. Iron pumps repaired, wells driven and repairs of all kinds promptly attended to. Estimates cheerfully given for plumbing or heating all kinds of buildings.

FURS and HATS

YOUR SPRING HAT IS HERE!

Your Spring Hat is here. This is our advanced Spring Hat opening. For the last week we have been piling in Hats by the waggon load, and although they are not all in, still every reputable maker in the world is represented in a very large way:

CHRISTY'S TRESS
SCOTT LOCKE
WOODROW'S COCKETT'S

From England.

MALLORY'S HAWES'
ARGYLE STETSON'S

and all the other most fashionable American makers have their new designs on exhibition.

By these points you will know a new fashion. Silk Hats from a side view are slightly more tapered, and more of a bell design from the front. Derby Hats are lower and taper somewhat. Alpines have a more decided curl in the brim.

COME IN AND SEE THEM!

The end of the chapter is FUR BARGAINS. A look at our windows will convince you of the slaughtering prices : : : : :

An early choice will be gratifying to you.

LIQUOR LICENSE LAWS OF PROVINCE OF ONTARIO.

What the Liberal Government Has Done For Temperance.

THE PROVISIONS OF THE CROOKS ACT.

The Amendments Which Have Been Made From Time to Time—The Opposition Steadily Opposed Every Move Which the Government Made to Better the Condition of Affairs in the Province.

When the Mowat Government took office in 1871, the liquor traffic was under the control of the Municipal Councils of the Province, and licenses to sell liquor were issued by the municipality. The inspection of hotels was also directed by the Municipal Councils by an officer appointed by the Council.

As a consequence there was great abuse of the power to issue licenses, and the whole question as to the issue of licenses and the regulation of the traffic entered into municipal politics and seriously affected municipal elections.

The first radical change in the license laws of the Province was made in 1876, by an Act commonly known as the "Crooks Act," by which the licensing of hotels and other places for the sale of liquors was placed in the hands of three commissioners for each electoral district, and the inspection of hotels, etc., in the hands of an officer appointed by the Government, known as Inspector of Liquor Licenses.

The following table gives, in intervals of five years, the numbers of each kind of license issued between 1874 and 1900 inclusive:—

Year.	Tavern.	Shop.	Wholesale.	Vessel.	Total.
1874-5	4,798	1,377	52	33	6,185
1879-80	3,199	787	42	22	4,020
1884-5	3,253	675	28	14	3,970
*1888-9	2,986	336	26	17	2,445
1889-90	3,073	445	27	15	3,560
1894-5	2,785	337	29	—	3,151
1899-00	2,621	308	21	—	2,950

*Scott Act year.

The number of licenses issued in proportion to population was as follows:—

1875..One to 278 persons. | 1900..One to 700 persons.

Comparison with United States.

The following statement taken from a late return of the Commissioner of Inland Revenue of the United States shows the number of licenses issued according to population in several States:—

Illinois	One to each 183	Minnesota	One to each 301
Indiana	" " 247	New York	" " 134
Iowa	" " 289	Ohio	" " 203
Michigan	" " 239	Massachusetts	" " 386

The position of Ontario under the License Act will be better appreciated by the following statement:—

Number of organized Municipalities in the Province	756
Number of organized Municipalities where no tavern licenses are issued. Or twenty per cent. of the whole number.	141
Number of Municipalities in which one and not more that two tavern licenses are issued. Or fifty-seven per cent. of the whole number.	435
Number of Municipalities without a shop license. Or eighty-two per cent. of the Municipalities of the Province.	625

Some Figures for Canada.

According to population, licenses were issued for last year as follows:—

Quebec	One to each 635	Montreal	One to each 349
Toronto	" " 2000	**Ontario**	" " **700**

Committments for Drunkenness.

The beneficial effect of the improvement made in the license laws is strikingly shown in the reduction of the number of commitments for drunkenness. The commitments to gaol according to population were in:—

1876	One for every 444 persons	1902	One for every 772 persons
1882	" " 561 "	1900	" " 836 "

Comparison with Other Provinces.

Statement of convictions for drunkenness in the Provinces of the Dominion, as shown by Dominion Year Book, 1900:—

Ontario	One to 838 persons	Manitoba	One to 355 persons
Quebec	" 461 "	British Columbia	" 207 "
Nova Scotia	" 448 "	Prince Ed. Island	" 341 "
New Brunswick	" 253 "	The Territories	" 180 "

Average for the Dominion, One to 440.
Average for Ontario, One to 684.

Fifteen Years' Record.

The return for each period of five years since 1886 shows a reduction in commitments for drunkenness as follows:

In the period from 1886 to 1890 the average commitments were	4,311
For the next five year period from 1891 to 1895, the average number of commitments had fallen to	2,703
For the next five year period, 1896 to 1900, the average number had again dropped to	1,920
This is a decrease in 13 years of	**2,391**

This represents a reduction of over 55 per cent., a reduction which will be much emphasized when the large increase of population in that time is considered. Ontario thus stands at the head of all the provinces in having a sober people. Education and progressive legislation have brought about these results.

Revenue from Tavern, Shop and Wholesale Licenses.

Equally noticeable with the falling off in the number of licenses issued under the Crooks Act, is the increase of revenue nevertheless derived. One of the provisions of that Act was, that part of this revenue should go to the Province and the remainder to the municipalities, the former assuming, and the latter being relieved from the sole responsibility of enforcing the law against illicit selling. The following table shows the proportionate revenue accruing to the Province and to the municipalities respectively, for the years therein stated:—

	Municipal Revenue.	Provincial Revenue
1896-7	$153,716 59	$216,455 78
1897-8	156,979 89	201,542 45
1897-8	259,873 38	298,247 40
1898-9	252,589 90	281,523 15
1899-1900	249,496 99	304,319 68
1900-1	250,482 13	304,676 60

The revenue obtained by the municipalities from the liquor traffic, under the Crooks Act is much greater than was obtained before the enactment of that law, notwithstanding the fact that the number of licenses is less by one-half, and is greater than they would have been receiving now had it not been enacted. It may also be stated that while the Act enables Municipal Councils to increase the fees for their own benefit, only 335 of the 756 municipalities have taken advantage of this provision of the law. It has been urged by the Opposition that the Liquor License act represents a "robbery" of the municipalities by the Government. The total revenue derived from the liquor licenses since 1876 up to May, 1901, amounts to the sum of **$13,234,539**. Of this sum the municipalities have received over half, or no less than **$6,418,062**.

Briefly, The Crooks Act.

(a) Limited the number of licenses to be granted in every municipality; (b) Took the power of granting licenses away from the Municipal Councils and conferred it on Boards of Commissioners; (c) Authorized each Council to still further limit the number of licenses; (d) Authorized the Commissioners to do the same thing; (e) Authorized each Council to prescribe conditions for obtaining a tavern license in addition to those specified in the license law itself; (f) Authorized each Council to limit the number of shop licenses, to require the holder of a shop license "to confine the business of his shop solely and exclusively to the keeping and selling of liquor," and to "impose any restrictions upon the mode of carrying on such traffic as the Council may think fit;" (g) Imposed a minimum fee for each of the three kinds of licenses—wholesale tavern and shop; (h) Vested the appointment of License Inspector in the Lieutenant-Govenor-in-Council; (i) Required all taverns to be well-appointed eating-houses.

Under the operation of the Act the reduction in the number of licenses issued was immediate, and has so far proved to be permanent as the following statement will show:

In the first period of five years, the reduction was **2,165, or 433 per year.**

During the next five-year period the reduction was less, being only **fifty, or ten per year.**

In the third five-year period the reduction was considerably greater—**410, or 82 per year.**

In the next five-year period the figures of reduction were also considerable—**409, or 81 per year.**

In the fifth period the number **decreased by 201, or a decrease of 40 per year.**

For twenty-five years, between 1874 and 1899, the decrease in the number of licenses has been a decrease of 130 per year, the **aggregate decrease being 3,235.**

While the actual reduction has been large it becomes relatively much greater when the great increase in population during the period named is taken into consideration. **If licenses had been issued in 1900 at the same ratio that obtained in 1874—namely, one for every 280 of the population—the licenses would have reached the very large number of 8,928, whereas the actual number was only 2,950.**

Improvements in the License Act.

Electors who can look back to the wholesome effect of the assumption by the Province of the supervision of the liquor traffic will remember the general feeling of relief which followed; and, notwithstanding the steady opposition of the Conservative party, the educated public opinion which rallied behind the Liberal Government has sustained it to the present hour—the Government having consistently improved the legislation as necessity arose. The following are some of the amendments enacted from year to year:—

Act of 1877.

The amendments of 1877 provided for the placing of:
Restrictions upon sales by druggists.
Restrictions upon sales in vessels.
Increased penalties for second and third offences.
And searching in unlicensed houses were provided for.

Act of 1878-81.

In the amendments of 1878:—
Provision was made for the enforcement of the Dunkin Act, and for paying the costs thereof.
In the amendments of 1881:—
Provision was made for the issue of beer and wine licenses.
Further increase was made of penalties for second and third offences.
The actual seller of liquor was made liable.
Increased facilities for searches and confiscation of liquor were provided
Provisions for enforcing the Scott Act were made, and Police Commissioners and Chiefs of Police were especially charged with the duty of enforcing the License law.

Act of 1884.

The amendments of 1884 provided:—
That the number of saloon licenses be limited in cities aand be refused altogether in towns having less than 6000 of a population.
Provision was also made for publication of names of new applicants for licenses and description and location of premises proposed to be licensed.
Privileges were granted to electors to oppose by petition the granting of licenses—the majority of electors may prevent the issue of new licenses.
No new shop licenses to be granted to premises in which other goods are sold; and in 1888 no shop license whatever is to be granted to premises in which other goods were sold.
No appeals allowed except to the County Judge in Chambers.
Appeals permitted to the Court of Appeal from the decision of the County Judge.
Stringent provisions were made regarding sales to habitual drunkards.
One bar only to be allowed in future.
No licenses hereafter to ferry boats.
Penalties were imposed for refusing lodging and for taking articles in pledge for liquor, also for permitting drunkeness on the premises.
The sale of liquor to minors under sixteen years of age was prohibited.
Purchasers of liquor during prohibited hours or on unlicensed premises were made liable to penalty.
Further increase of fees for licenses was made.
In 1885 purchasers not being members of the family were made further liable.

Act of 1886.

In the amendments of the year 1886:—
Increased duties for licenses were provided for, and increased penalties and punishments imposed for selling without license.
A Provincial Inspector was appointed to audit License Inspectors' Accounts, to investigate complaints and to attend to other specified duties.
More Stringent regulations were made for Saturday night and Sunday selling.
Frequenters of bar-rooms on Saturday nights and Sundays were made liable to arrest.
Penalties for sales to unlicensed dealers were imposed.
Provision was made for permitting one justice to hear cases in rural municipalities.

Act of 1888.

The amendments of 1888 consisted of:—
Further provision for enforcing the Scott Act and providing for expenses.
The amendments of 1889 were important;
New applicants for premises not under licenses were required to produce certificates signed by majority of electors.
No license permitted to be granted to vessels.
Increased penalties and punishments for selling without licenses.
Prohibited age of minors raised to 18.
Owners of houses, in which liquor is sold illegally, made liable.
No appeals allowed in cases of conviction of unlicensed persons.
Further stringent provisions were made regarding the frequenters of unlicensed premises.
And the important provision was made for the introduction and passing of Local Option By-Laws.

Act of 1891-92.

In the amendments of 1891:—
Provision was made for hearing special cases in Court of Appeal re Local Option By-Laws, and for the re-hearing of cases where by-laws were quashed.
In the amendments of 1892:—
Provisions were made for the enforcement of the License Act applied to Local Option.
Increased provisions were made regarding the sale of liquor to habitual drunkards.
Appeals were allowed to County Judge from orders of dismissal of Police Magistrate.
Further restrictions were imposed regarding druggists.
Brewers were restricted to sale to holders of licenses only.
Members of Municipal Councils and Constables were rendered ineligible as boardsmen for license holders. It was provided that Local Option By-Laws shall not be repealed for three years.

Act of 1897.

In 1897 the legislation:—
Increased the population limit to three licenses for the first thousand of the population, and one license for each full 600 additional persons except in County towns.
Further restrictions were placed on the sale of liquor by druggists.
The hours for sale of liquor were fixed at from 6 a. m. to 10 p. m. in townships, and from 6 a. m. to 11 p. m. in cities, leaving power in the hands of License Commissioners to still further limit the hours.
An amendment was passed prohibiting the sale of liquor to any person under 21 years of age—the previous limit having been 18—and prohibiting license holders from permitting minors to loiter round their premises.
This amendment, all will admit, is of immense importance.
Saloon licenses were abolished.
License Commissioners were prohibited from granting licenses, within 300 feet of churches and schools, to premises not heretofore licensed.
And provision was made for the cancellation of licenses on the certificate of the magistrate showing that the license holder had knowingly broken the law by three violations of the provision forbidding sales during prohibited hours.

MRS. IDA L. ROSER

Grand-Niece of Ex-President James K. Polk, Writes to Mrs. Pinkham Saying:

"DEAR MRS. PINKHAM:—I have been married for nearly two years, and so far have not been blessed with a child. I have, however, suffered with a complication of female troubles and painful menstruation, until very recently.

MRS. IDA L. ROSER.

"The value of **Lydia E. Pinkham's Vegetable Compound** was called to my attention by an intimate friend, whose life had simply been a torture with inflammation and ulceration, and a few bottles of your Compound cured her; she can hardly believe it herself to-day, she enjoys such blessed health. I took four bottles of your Compound and consider myself cured. I am once more in fine health and spirits; my domestic and official duties all seem easy now, for I feel so strong I can do three times what I used to do. You have a host of friends in Denver, and among the best count. Yours very gratefully,—MRS. IDA L. ROSER, 326 16th Ave., Denver, Col."—*$5000 forfeit if above testimonial is not genuine.*

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

WEDNESDAY, MARCH 12, 1902.

SOUTH MONAGHAN.

(From Our Own Correspondent.)

Council met at the Agricultural Hall, Centreville, on Monday, March 3rd ,at 10 a.m., at the call of the reeve. Members all present. Minutes of the last regular meeting read and confirmed. Communications were received from the auditors, with detailed report and abstract form; received and adopted and ordered to be printed. From the auditors, re allowances for services rendered; read. From the London Guarantee Co., re security of township officials. —Read and laid on the paper. From Registrar General, Toronto, with account of births, deaths and marriages, and order for clerk's fees thereon.—Received and ordered to be paid. From W. Buckham, report on treasurer's bond, he having examined the same and found it satisfactory.—Received. From Committee on cedar for township uses, also examining bridge, and letting cedar contracts, with the committee's time, W. Buckham, 1 day, W Green, 1-2 day.—Received and committe's time ordered paid. A bylaw was introduced and passed appointing pathmasters for 1902 for the respective road beats. Council then adjourned for dinner. Council resumed ,reeve in the chair. W. J. McBride was heard re water trough on west boundary, with bill of costs for work on the same, $4, which was ordered paid. W. Dawson was heard with reference to bonus to wire fence south of west half of lot 9 of 1st con. Moved and seconded that a bonus of 20c a rod be given. Mr. R Lang was heard in reference to gravel for the roads of the township, also re a stone crusher and the benefit it would be. A bylaw was introduced and passed appointing fence viewers and pound keepers in the several sections sections of the township. W. Byers, Pathmaster road beat No. 26, was heard in reference to shovelling snow, also bill for same, $7.35; ordered to be paid. Mr. Robinson introduced a bylaw to divide the township into two polling sub-divisions, other than at present, which was passed. The township is divided by a line shown from Rice Lake to the Otonabee River between lots six and seven of the several concessions. W. Robinson was appointed a committee to see after Smithson's wharf, with power to expend money. W. Buckham and W. Robinson were appointed a committee to inspect and measure the cedar for township uses. A bylaw was introduced and passed to regulate the performance of statute labour, No. 206 The contract for the printing was given to the Millbrook Reporter; same terms as last year.

The following orders were drawn: John Buckham, councillor's pay one day, $10.00; A. Dawson, registration, births, deaths and marriages, 36, $7.20; A. Dawson, Board of Health, $4.00; J White, auditor's salary, $6.00; J. Buckham, committee work, $2.00; W. Greer, committee work, $1; John McBride, repairs to water trough, $4; Lewis Byers, shoveling snow, west boundary, $7.35; Millbrook Reporter, printing, 1901, $32.

The council then adjourned to meet at the call of the Reeve.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, colour becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. Sold by Ormond & Walsh.

LIQUOR LICENSE LAWS OF PROVINCE OF ONTARIO.

(Continued from first page.

The Crooks Act Endorsed.

The friends of the temperance cause hailed with delight the withdrawal of the power from municipal corporations to issue liquor licenses, and the assumption of that authority by the Government. The following resolution adopted by the Methodist general Conference in 1882, voiced then, as it does now, the sentiment of the general public upon this question:—

"Although we cannot accept as righteous absolutely any license law, yet, if we must tolerate some one as the tentative regulator of an evil till we can have it removed, we must regard the Crooks Act as the best instrument for this suppression the Province of Ontario ever had. We would emphatically deprecate any legislation that would impair its efficacy, and we would respectfully recommend our people, where this law obtains, to use their voice and franchise to prevent the control of this license system reverting to the municipalities, where the industrious ward politician and the interested liquor dealer so largely manipulate the election."—*Resolution of the Methodist General Conference, Sept., 1882.*

Policy of the Opposition.

The policy of the Opposition has been particularly variable on the temperance question. A glance at the following resolutions offered by them at different periods will reveal their vacillation on this subject, and must confirm the opinion that the steady, liberal and progressive policy of the Government is the only one which can safely be followed in this important matter in the interests of the people.

Policy in 1876.

During the discussion of the licensing law of 1876, on the 7th February, contesting the proposal of the Government to reduce the number of licenses issued at once, Mr. Meredith moved, seconded by Mr. Scott:—

That the Bill be not now read a third time, but that it be forthwith referred to a Committee of the whole House, with instructions to amend the same, so far as to provide that the provisions therein contained, for limiting the number of tavern licenses to be granted, shall not come into force until the first day of March, A.D. 1877.

The date so named was a year later than that on which the Government proposed to bring the limiting provision into force; and Mr. Meredith's motion was lost on a division. Mr. Lauder then moved in amendment, seconded by the Hon. Mr. McDougall:—

That the Bill be not now read a third time, but that it be referred to a Committee of the whole House, with instructions to amend the same so as to provide that in cities and towns separated from counties for municipal purposes, the Mayor, and in other places the Warden of the County, shall be one of the three License Commissioners referred to in section one of the Bill.

This would have had the effect of perpetuating the licensing business as a vicious influence in municipal affairs to a partial extent at least. The resolution was lost.—Yeas, 31; Nays, 49.

Policy in 1877.

In the discussion of the Bill amending the Licensing Act, on February 16th, 1877, Mr. Harkin moved, seconded by Mr. Preston, in amendment:—

That the Bill be not now read a third time, but be recommitted to a Committee of the whole House with instructions so to amend the Bill as to enable the Council of every *municipality* to appoint its own inspector or inspectors; to determine his or their remuneration; to decide to whom licenses shall be granted in their respective municipalities, having regard to the limitations imposed by the Act 39 Vict., chap. 26; and to dispense with the services of the Commissioners and Inspectors now appointed under said Act by His Honor in Council.

This amendment being defeated, Mr. Creighton then moved, seconded by Mr. Barr:—

That all the words after "Municipality" be struck out, and the following inserted in lieu thereof:—"To decide to whom licenses shall be granted in their respective municipalities, having regard to the limitations imposed by the Act 39 Vict., Chap. 26."

The resolution or amendment then proposed read as follows:—

That the Bill be not now read a third time but be recommitted to a Committee of the whole House, with instructions so to amend the Bill as to **enable the Council of every municipality to decide to whom licenses shall be granted** in their respective municipalities, having regard to the limitations imposed by Act 39 Vict., Chap. 26. It was declared lost on a vote of yeas 9 nays 60.

Policy in 1882.

That they are and have been in favor of the vicious expedient of returning to the municipalities this source of danger and trouble, however, was again made manifest from the position taken at the Conservative Convention in Toronto, on September 14th, 1882, when it was unanimously resolved to be

"The opinion of this Convention that without interfering with the laws regulating the liquor traffic, and limiting the number of licenses that may be issued, the power of issuing licenses and the fees derived therefrom, should **be restored to the municipalities.**"

In speaking to this resolution Mr. Meredith said that

"He was prepared to say that the present Opposition if it took office would be prepared to wipe away the partisan commissioners. (Cheers.) He was prepared to restore to the people of the Province the rights they formerly exercised. (Cheers.) He was prepared to give back to the municipal bodies **the rights they formerly enjoyed.**" (Cheers.)—*From report in Mail.*]

Policy in 1883.

This policy was further pursued in a resolution in amendment to a motion to go into Committee of Supply, 24th January, 1883, when it was moved by Mr. Meredith, seconded by Hon. Mr. Morris:—

That all the words in the motion after "That" be struck out, and the following substituted therefor:—"This House, while recognizing the necessity of maintaining the other provisions of the existing liquor license law, and strictly enforce them, is of opinion that it is not in the public interest or calculated to promote the cause of temperance to continue the mode of appointing Boards of License Commissioners, and License Inspectors now in force, and is further of opinion that these Boards should, in order to remove them as far as possible from the influence of political partizanship, be appointed in counties by the county councils, and in cities and towns separate from counties by the councils thereof, and that the power of appointing one or more License Inspectors in each license district should be vested in the Board, and this House regrets that legislation providing for this change in the law, and for handing over to the municipalities the whole of the license fees, except a sum sufficient to pay the expenses of the Licence Branch of the Department of the Provincial Secretary, has not been proposed for its consideration by the advisers of His Honour the Lieutenant-Governor."—Lost—Yeas 26, nays 49.

Policy in 1890.

The policy of the Opposition was again reconstructed by the submission of the following resolution during the session of 1890 as an amendment to the Hon. Mr. Gibson's measure:—

"That the Bill be not now read a third time, but be referred back to a Committee of the whole House, and so amended as to provide that the License Commissioners hereafter *be appointed in counties by County Councils* and in cities and towns elected by the municipal electors of such cities and towns."

Policy in 1896.

In 1896 after allowing the question to lie dormant for several years, Mr. Marter, then Leader of the Opposition, seconded by Mr. Whitney, the present leader, moved a resolution which concluded as follows:—

"That this House is of opinion that it is essential to the honest, non-partisan and faithful execution of the liquor license laws, that the present mode of appointing Boards of Commissioners should be abrogated, and that in future the Boards of Commissioners in counties should consist of the County Judge, the Warden of the County, and one appointed by the Government and in cities and towns not connected with the county municipally the County Judge, Mayor, and one appointed by the Government."

It will be noticed that the policy of the Opposition on this subject has varied on each occasion when they brought the matter forward. In 1890 they proposed that the appointments should be made by County Councils in the counties, and that in cities and towns Commissioners should be elected by the direct vote of the electors. In 1883 they asked that Municipal Councils alone should elect Commissioners. In every instance they have demanded that not only the appointment of Commissioners but also that of Inspectors, and the issuing of licenses, should be placed again under municipal control, a system previously discarded as wholly pernicious.

Respecting the proposal submitted in 1896, it may be said that heretofore the appointment of County Judges as Commissioners has been found impracticable and inexpedient. Under the provisions of the License Act they are constantly called upon to hear appeals and determine cases. It is also their duty under the law to hear complaints when the legality of the issue of licenses is called in question, and if the evidence warrants, revoke the action of the Commissioners in granting the license, and punish them or the Inspector for any illegality committed. Under the law Commissioners who are magistrates are prohibited from adjudicating upon cases.

Policy in 1897.

The entire absence of anything like an Opposition policy on the license question under the leadership of Mr. Whitney is indicated by the following extracts from a speech by that gentleman, delivered in the Legislature during the debate on the second reading of the Liquor License Bill, on March 20th, 1897. Mr. Marter, who had spoken previously, had been questioned as to the views of his party on the subject, and the Opposition leader, in the course of his speech, dealt with the matter at some length:

"He wondered at the question that came from the Government benches, which asked why did not the member for North Toronto declare what he would do. In a humorous manner he characterized the muddle that the Government had got into as a peculiar bog, in which the Government were rapidly becoming embedded. He declared that they were calling upon the Opposition to come over and help them out. . . . It was not the purpose of the Opposition to compound a policy for the Government. In the past they had always aided them and helped them out of many serious positions, but that was at an end, and the Government need not in the future look to the Opposition to rectify mistakes for them. . . . The entire question has developed into a triangular affair, the solution of which is apparently a very difficult matter. Because it was difficult it was no reason why the Opposition should step in and untangle the matter, and, furthermore, they did not intend to do so. The Government said the Opposition ought to suggest something. They were in a minority, but if honorable gentlemen wished them to change places with them in advance of time they would cheerfully respond. They (the Opposition) had nothing to do with the matter."—(*Mail and Empire* report).

This pitiable confession of weakness and incapacity has been substantially repeated many times by Mr. Whitney in the course of his later platform deliverances. After having boxed the compass and tried every imaginable proposal for a change from the extreme of centralizing the license administration in Ottawa to the opposite expedient of the restoration of municipal control, and seeing them in turn rejected by the country, the Opposition take refuge in a non-committal attitude, and proclaim that they have no policy—"nothing to do with the matter." It is of a piece with their course throughout. They object and carp at petty details, and criticise this and that feature of administration, but have no definite, clearly-cut programme of their own to substitute, nothing but casual makeshift declarations thrown out from time to time, in the hope of catching the current of approval from any quarter, and abandoned so soon as they fail of their purpose.

Local Prohibition Provisions.

Another evidence of the Government's desire to minimize the evils of intemperance, so far as the legislation in its power can be effective to that end, is found in the local prohibitory enactments represented by Local Option Legislation. In 1899 provisions was made for the introduction and passing, by municipaiities, of Local Option By-Laws. Since 1890, by-laws for the adoption of Local Prohibition have been submitted to popular vote on 79 occasions in 68 municipalities. These by-laws prohibiting the sale of intoxicating liquors were passed in 51 municipalities, and defeated in 28 instances. In 15 cases the by-laws passed were quashed on appeal to the Courts, chiefly on the decision of Judge Galt that the Act was ultra vires, a judgment that was reversed by the Judicial Committee of the Privy Council. At the present time Local Option By-laws are in force in 21 municipalities, by which 39 tavern licenses and 3 shops have been cut off. During the past year (1901) five by-laws were submitted, four of which sustained Local Option. Two of these were quashed by the Courts on technical grounds, and one by-law was repealed.

Canada Temperance Act.

In 1887 complaints were made of the want of machinery for the enforcement of The Canada Temperance Act, commonly known as the "Scott Act," in the counties in which it had been adopted. Though this was a Dominion law, and should have been enforced by the Federal authorities, yet for the sake of the interests involved, the Government of this Province passed an Act for the appointment of special Police Magistrates in all such counties.

The Government were asked if they would appoint Police Magistrates for the purposes of the Scott Act, in cases in which the County Councils requested it. To this they agreed. Only two County Councils took advantage of this agreement, and asked for the appointment of Magistrates. The Government, complying with the request of the friends of the Scott Act, obtained from the Legislature authority for the purpose of securing a better observance of the law.

Legislation was also passed, providing for the payment of a share of the expenses of license districts in such counties by the County Council, and applying to the cases of such counties, as to such license districts, the provisions of the Liquor License Act and its amendments.

This was followed, 1888, by a measure amending the Liquor License Act, by providing for the appointment of License Commissioners in counties where the Scott Act was in force, and for the payment of expenses for enforcing the Liquor License Act in such districts or parts of districts; also for the disposal of the license fund which might accrue in any such district.

It should be noted, that in no Province of the Dominion was the responsibility of enforcing the Scott Act assumed by a Provincial Government, except in this Province, and that responsibility was assumed by the Liberal Administration, notwithstanding the refusal of the Dominion Parliament to provide the necessary legislation to secure its observance.

Commissioners and Inspectors, appointed under the License Act, who were not in sympathy with the Scott Act, were replaced by those who were, in order to ensure that the provisions of the prohibition law would be enforced, and these officers were specially charged with the enforcement of the Act. A prominent and trusted temperance advocate, the late Rev. Mr. Manning, who had some local experience in connection with the enforcement of the License Act, was also appointed by the Government, and placed in the Head Office, specially charged with the duty of supervising the work of the Inspectors, and seeing that the provisions of the Scott Act were enforced. The death of Mr. Manning having rendered vacant the position he had occupied with such satisfaction to the temperance community, the Government appointed to the vacancy Mr. Mr. J. K. Stewart, of Ottawa, whose reputation as a leading temperance advocate was provincial in its character.

Temperance in Public and Separate Schools.

In addition to the restriction and reduction of licenses it may be mentioned (though not directly connected with the License Department), that under the school regulations temperance and hygiene form part of the course of study in all the public and separate schools of the Province, the number of pupils receiving instruction in these subjects having risen from 33,924 in 1882 to 219,776 last year.

Another gratifying result of the progressive tendency of license legislation, is the improved character of the hotels of the Province, in comfort, equipment, sanitary and other conveniences.

Life Funds

FOR INVESTMENT.

CANADA LIFE ASSURANCE CO.

ESTABLISHED 1847.

HON. GEORGE A. COX, President.

Invested Funds over $24,000,000.00.
Annual Income over $3,000,000.00.

Money to Loan in large or small sums upon easy terms of repayment at from 4 to 5 1-2 per cent. interest.

All kinds of Life Assurance and Annuity Contracts at the most favourable rates, consistent with Absolute Security.

I Will Cure You of

Rheumatism

No pay until you know it.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever.

I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles of Dr Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month, and if it does what I claim, pay your druggist $5.50 for it. If it doesn't, I will pay him myself.

I have no samples. Any medicine that can effect Rheumatism with but a few doses must be drugged to the verge of danger. I use no such drugs. It is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk. I have cured tens of thousands of cases in this way, and my records show that 39 out of every 40 who get those six bottles pay, and pay gladly. I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. Let me send you an order for the medicine. Take it for a month, for it won't harm you anyway. If it cures, pay $5.50. I leave that entirely to you. I will mail you a book that tells how I do it.

Simply state name of your dealer, and address Dr. Shoop, Box 41, Racine, Wis.

TELEPHONE CO. LOSES.

Mr. Justice Street Decides in Favor of Toronto City.

Toronto, March 12.—Judgment has been handed out by Mr. Justice Street in the case stated to him by the City Solicitor as to the rights of the Bell Telephone Company to set up poles in the street without the City Council's permission. The telephone put for the claim that under the act of the Dominion Parliament incorporating it, it had the right to carry on its business as a company operating independently of local interference. Mr. Justice Street, by his judgment, denies it this power, and holds that "there is no special effect to be given to that part of the Dominion Act, which declares the company's act of incorporation to be for the general advantage of Canada."

The city's victory may be regarded as the preliminary skirmish of a big legal battle, for the company intend taking the case to the higher courts, and to the Privy Council, if necessary.

Odessa Students Arrested.

London, March 12.—Sixty students were arrested a week ago, says the Odessa correspondent of The Times. A large number of others eluded arrest, but are likely to be run down. The situation is grave throughout South Russia.

C.O.F. Treasurer Arrested.

Vancouver, March 12—Ald Macdonald, a prominent citizen, was arrested Monday for failing to account for $200 of trust funds of the Canadian Order of Foresters' Lodge, of which he was a treasurer.

To Punish the Maudite.

Pekin, March 11.—An Imperial edict just issued commands General Ma to proceed to Jehol (about 100 miles northeast of Pekin) and personally supervise the punishment of the bandits who recently murdered a Belgian priest.

INTENSE SUFFERING

From Dyspepsia and Stomach Trouble

Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets.

A New Discovery, but not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: "The patient was a man who had suffered, to my knowledge, for years with dyspepsia. Everything he ate seemed to sour and and create gases in the stomach. He had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

"I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a 50 cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given, and after he had used four boxes he was to all appearances fully cured.

"There was no more acidity or sour, watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy flesh.

"Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores, yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but fruit and vegetable essences, pure pepsin and Golden Seal.

"Without any question they are the safest, most effective cure for indigestion, billiousness, constipation and all derangements of the stomach, however slight or severe."

A POLICY OF DELAY

Want of Confidence on the Government Railway.

OPPOSITION VIEW STATED

Cost of the Line Estimated at $2,234,000—Provincial Secretary Shows Reports Contain Every Necessary Information—Work to Be Commenced Soon—House Adopted Three Amended Pulp Agreements.

Toronto, March 11.—In the Legislative Assembly to-day Mr. Carpenter introduced a bill respecting the town of Berlin and the Ontario Sugar Co.

Hon. R. Harcourt's bill to amend the Public Schools Act was referred back to committee for amendments, a clause being inserted to render it permissive for any school board to appoint a Technical School Committee.

The following bills were read a third time:

To incorporate Middlesex and Elgin Inter-urban Railway Company, Mr. Robson.

To incorporate the Southwestern Traction Company, Mr. Robson.

Respecting the Algoma Steel Company, Limited, Mr. Farwell.

To confirm certain bylaws of the Township of Cornwall, Mr. McLaughlin.

To change the name of the Town of Tilsonburg to the Town of Tillsonburg, Mr. McKay.

Respecting the Algoma Tube Works, Limited, Mr Farwell.

Respecting the Estate of William John Moore, deceased, Mr. Truax.

Pulp Wood Concessions.

Hon. E. J. Davis moved the ratification of agreements entered into with three pulp companies amending previous agreements. The first was that entered into with the Sturgeon Falls Pulp Co., on October, 1898. The new agreement called for large further expenditures. A clause was inserted calling for a deposit of $20,000 to guarantee the expenditure of $150,000 before the 1st of September next, when the works were to be completed and turning out 40 tons of pulp per day. The delay in commencing operations necessitating an extension of time had been caused by protracted litigation. The causes requiring an extension in the case of the Nepigon pulp concessions were entirely beyond the control of the company, and was owing to the failure of the water power. The new agreement bound the company to spend $50,000 in 12 months, $75,000 in 18 months, and $125,000 in four years. The third agreement amended was that of the Blanche River Pulp and Paper Co., made on April 14, 1900, in which case the difficulties which had prevented its fulfilment were similar to those in the previous case, viz., the difficulty as to water power. Under the new agreement they were to expend $750,000 in place of $200,000 as before. They were to turn out 100 tons of pulp per day and employ 300 men. They already had let contracts amounting to $380,000, and had already expended more than the amount of $50,000 required by the old agreement to be expended by this stage.

Mr. Whitney complained of the lack of detailed information laid before the House in connection with the granting of pulp concessions. The public faith of the province had been pledged, although wrongly and improperly, to those receiving these pulp concessions, and it was only just that those who had been accorded vested rights should not suffer. No doubt the Commissioner of Crown Lands was acting in good faith in the matter. He criticized some of the details of the agreements. Under the Sturgeon Falls agreement there was no forfeiture clause providing that on their failure to fulfil the conditions the concession should be null and void.

Mr. Davis replied that if the agreements were read it would be found that in all of them it was specially stated that the companies forfeited all their privileges if they failed to observe the conditions.

The resolution was adopted.

Temiskaming Railway.

The House went into Committee on the Temiskaming and Northern Ontario Railway bill. Hon. Mr. Latchford said the surveys and reports presented to the House afforded full information as to the route and cost of construction. He might say that it had been shown that the engineering difficulties in the way of the Mattawa route were so great that if it were selected it would be a very costly undertaking. The route by way of North Bay presented no such obstacles and the maximum grade would not be over 1 25 per cent. Mr. Whitney enquired whether it was necessary to have five men appointed as commissioners to construct a road 100 miles long. The road was being used to provide for supporters of the Government. Hon J. M. Gibson said no railway had a board of less than five directors, and he thought that by this plan they would have a chance of securing men of varied talents and experience, and so obtained efficiency in management. Mr. Matheson did not see why the Commissioner of Public Works could not build the road. Hon G. W. Ross said what was wanted on the commission was not so much engineering ability as common sense and advisory talent. If they were paying the commissioners four or five thousand each the attitude of the Opposition would be more justifiable. Mr. Crawford supported Mr. Matheson's contention. As regards the issue of the bonds of the road Mr. Stratton explained that they would be issued by the commissioners to defray the expenses of construction just as in building any ordinary railway. Mr. Carscallen said that he would not be surprised if the road ultimately cost the province three or four million dollars. The House should not support the proposition blindly, or without fuller information. Mr. Latchford said that the engineer selected for the work had had 12 or 14 years' experience. He was a man on whose judgment reliance could be placed. His estimate of the cost was $2,234,009. Hon J. R. Stratton said that the reports submitted with the plans give every necessary information. The Government had gone about the proposition in a thoroughly business manner. The lack of knowledge complained of by the Opposition was simply a lack of sufficient energy to examine the documents brought down. Mr. Whitney stated that leading men from the Maritime Provinces had stated that Mr. Stratton had told them that he (Mr. Stratton) was to be the leader of the Ontario Government. Mr. Stratton said this statement was absolutely and entirely false and challenged the Opposition leader to name his informant, which, however, Mr. Whitney failed to do. After considerable further discussion the bill was reported without amendment.

The Government bill to amend the High School Act received a second reading.

After Recess.

The House went into committee on the bill to amend the Statute Law. The Attorney-General introduced several amendments, one of them providing for the appointment of a deputy police magistrate in Toronto, and the fixing of the salary to be paid him by the Government. Another provision exempted the County of Elgin from the operation of the Toll Roads Expropriation Act. The bill was reported.

On motion to go into supply, Mr. Powell rose to move an amendment with regard to the Temiskaming Railway. He protested against the adoption of the North Bay route, claiming that the interests of the people of the Ottawa Valley ought to be considered. He urged that an alternative route ought to be reported on to the House before the route was finally determined upon. The engineer's report as to the North Bay route showed that the country immediately north of North Bay presented many engineering obstacles and was a difficult country through which to construct a railway. He complained of the defects of the plans of the route presented. The engineer, as he knew, was competent to do the work, but he had certainly done it in a very irregular manner and from the plans he had supplied it was impossible to make an estimate of the cost of the road. Since Confederation $200,000,000 had been expended on railroads by the Dominion Government. Ontario had never received her fair share of this and he did not see why steps had not been taken to secure a Dominion bonus for this line. He contended that Government ownership of railways was not profitable. He moved the following amendment:

That the House regretted that in view of the grant made for the survey of the road that no steps had been taken to secure from the Dominion Government a subsidy of at least $4,000 a mile, which it was entitled to; and regretted also the lack of information that had been furnished, such as the cost of building the line, etc.

Hon. F. Latchford congratulated Mr. Powell on his change of opinion. He had formerly favored the construction of the road by Messrs. Mackenzie & Mann.

Mr. Powell said he had never mentioned the name of that firm.

Mr. Latchford was astonished at the denial, as he distinctly remembered his having done so. Now he had abandoned that position. He pointed out the advantage of building from North Bay, as it would then have the advantage of connecting with competing lines. The difficulty of constructing a line along the Ottawa River had been fully placed before him. They had the assurance of the engineer that that route would be longer by 20 or 30 miles and considerably more expensive, owing to the precipitous character of the shores of the Ottawa River and Lake Temiskaming. A road had been built on the Quebec side from Mattawa and to build one on the Ontario side would be paralleling that and also the excellent steamboat service on Lake Temiskaming. The question was how to afford the best means of communication to the Temiskaming settlers, and at the same time avoid subjecting them to exorbitant freight and passenger rates. The settlers on the Quebec side had been subjected to a freight rate of $100 per car from Mattawa to the settlement. The Government had determined to build the road and knew it could be built for a reasonable sum. There had been some communication between the administration and the Dominion Government and he had the fullest confidence that a grant would be secured. The construction of the road was a pressing and immediate necessity. It was not in the public interest to present all the papers. There was a complete location survey for 80 miles of the line and a preliminary survey of the remainder. The Opposition evidently desired to delay the construction of the road but the Government did not propose to do so.

The vote was then taken on the amendment of Mr. Powell, and it was lost by a vote of 33 to 44.

Before the Legislature adjourned Premier Ross announced that he regretted to say that the Lieutenant-Governor, Sir Oliver Mowat, would not be present when the House formally prorogued, but the Government, he added, had secured the necessary permission, and the Chief Justice would perform the ceremony.

The House adjourned at 11.20 p.m.

PRAISED BY A FAMILY.

Father, Mother and Little Daughter Cured by the Great Blood Food, Powley's Liquified Ozone.

Having heard of Powley's Liquified Ozone in June last, grasped at it as a last hope, and was overjoyed to experience relief with the second bottle, and after using fourteen I am quite free from my old troubles, and go through the ordinary routine of duty with perfect ease, and enjoy the blessing of rest at night.

My little one also, who was four years old and had never been able to walk, has

MADAME EUGENE GAGNON, 265 SHAW ST. MONTREAL.

been likewise wonderfully benefited. The Ozone seemed to supply the needed nourishment and strength to the minor fibres little limbs, and she can now walk without any support.

I believe Ozone to be of great value, and can warmly endorse all that is claimed for it. (Signed) Mme. Eugene Gagnon, 265 Shaw-street, Montreal, P.Q.

Four years ago acute indigestion manifested itself, and as time went on began to seriously impair my general health. Though I did all I could in search of the needed medical advice to meet my case, every effort failed. The heart's action became very weak, while I was practically a wreck for want of proper rest, as I was unable to lie down at night, but passed propped up in bed, mouth to end mouth out, ever hoping and ever trying to find something that could overcome this distressing condition.

I have been a victim of indigestion and heart-burn weakness for five years, and of all the remedies tried and physicians consulted nothing has benefited me like the

nine bottles of Ozone that I have used. I believe it to be a most remarkable system of curing disease, and can most strongly recommend it to all.

It also cured my little girl, four years old, of a weakness from which she had never been able to walk. (Signed) Mme. Eugene Gagnon, 265 Shaw street, Montreal, P.Q.

The digestion of food begins in the mouth, where the food is ground up by the teeth, and brought into solution by the saliva. The main part of digestion, however, takes place in the stomach, where the gastric juice makes the absorption of food possible by intimately acting on it. Further digestion goes on in the intestines. If it should be that there is a lack of gastric juice the food remains undigested. Derangements, you become constipated, or have frequent attacks of diarrhoea. Your stomach bloats after eating, you will suffer frequent attacks of heart-burn or pain in the region of the stomach.

Powley's Liquified Ozone gives relief to stomach disorders. Does so it strengthens the stomach to digest the food eaten. It prevents the fermentation of food, relieves the bloating quickly. One of the principle qualities of Ozone is that it causes the stomach to perform the process of digestion thoroughly—makes it absorb the good out of the food. In that way builds the entire system and forms sound flesh. You cannot afford to be without it. It will cure you permanently. 50c and $1 at all druggists. The Ozone Co. of Toronto, Limited, Toronto. The Liquid Ozone Co., 229 Kinzie-street, Chicago.

EMULSION OF COD LIVER OIL

GOOD FOR EVERY DAY!

DICKSON DAVIDSON
(Successor to Ormond & Walsh.)
Corner Simcoe and George Streets.

Prince Henry's Busy Sunday.

New York, March 10. — Prince Henry of Prussia was the central figure yesterday in another round of entertainment arranged in his honor. He first listened to a concert at the Waldorf-Astoria Hotel, largely made up of his favorite American songs, the concert being arranged at his request. When that was over he drove to the University Club to a luncheon, which was not concluded until mid-afternoon. In the evening he was the guest at dinner of Mr. and Mrs. Cornelius Vanderbilt, and met a large party made up of persons of social prominence. Then he went to the Yacht Club, and from there to the Waldorf-Astoria for the night.

Capt. Casati Dead.

Rome, March 10.—Captain Casati, the African explorer, is dead. Captain Casati is best known as the companion of Emin Pasha, who was rescued with him by Sir Henry M. Stanley from a perilous position in Central Africa. Casati was one of the Italian officers of the Khedive Ismail, and was appointed to the command of one of the equatorial provinces. He claimed to be the discoverer of the Mountains of the Moon. He was born in 1840.

SCHOOL GIRLS KNOW ITS WORTH.

Paine's Celery Compound Gives Them Energy, Snap ans Full Life.

It Enables Them to Attain the Blessings and Vigour of True Womanhood.

Women and girls in every station of life who have used Paine's Celery Compound know that it is a blessing that sick and rundown females cannot afford to be without.

Modjeska, the peerless queen of artistes voices the sentiments of thousands of women and girls who have tested the strength-making and life-giving virtues of Paine's Celery Compound when she says: "I have found Paine's Celery Compound the best of all remedies for the nervous exhaustion consequent upon the arduous work of my profession." Overworked women in the home, and weak, languid school girls have found in Paine's Celery Compound the health and vigour it so strongly guarantees.

Miss Nellie Gallagher, of Marbleton, Que., says: "Having used your excellent Paine's Celery Compound during the last term of school, I wish to proclaim to all the great benefits I derived from it. At the beginning of the term I was weak and languid, and having to be closely confined in school at my studies, I was not able to make satisfactory progress. Mamma got me to use Paine's Celery Compound, from which I greatly benefitted, and have not had a recurrence of troubles I formerly had. Mamma has great confidence in Paine's Celery Compound, for she has used it herself and given it to my brothers and sisters. I highly recommend it to all young ladies at this special time in life when they suffer from loss of energy and strength."

Ratify the Treaty.

Copenhagen, March 13.—The Folkething, in committee of the whole, and in legislative session yesterday, voted, by a large majority, in favor of the ratification of the treaty providing for the sale of the Danish West Indian Islands to the United States.

Fell Over Prison Railing.

Toronto, March 12. — John Bourke, a convict at the Central Prison, fell a distance of 20 feet, from the gallery of the Central Prison yesterday, and received such terrible injuries that he died in the prison hospital in less than two hours.

Accepted Carnegie's Money.

St. Catharines, March 12.— The City Council Monday night decided to accept the offer of Andrew Carnegie of $20,000 for a library. The building will be placed on the corner of the City Hall lot.

Sealers' Strike Ended.

St. John's, Nfld., March 12.—The sealers' strike here is ended, and the sealing steamers have sailed for the ice floes. The sealers' committee, after investigation, ordered the men to their ships.

Rate on Lumber.

Cleveland, O., March 12.—The season rate on lumber from ports at the head of the lakes to Lake Erie has been fixed at $2.50.

Ladies' Hair Works, - - - 424 George St

Daily Examiner.

WEDNESDAY, MARCH 12, 1902.

A New Company.

Messrs. George Ball, Thos. Rutherford, Robert Clinkscalp, and Geo. Kain are forming a company for the manufacture of cement bricks.

At St. John's.

Rev. George Warren of Lakefield, will deliver the special address at St. John's this evening at 8 p.m. He will discuss the interesting subject, "Christianity in Business." Rev. J. C. Davidson will conduct services in Lakefield this evening.

A New Firm.

Mr. E. M. Best, of Woodstock, arrived in town to-day and intends opening out a stove and kinware establishment in the premises on Hunter street, at the present time occupied by Mr. George Stethem. The firm will be known as the Best Stove Company, and as Mr. Best comes to Peterborough well recommended, he will be a welcome new-comer to the town.

Murray Street Choir.

A most delightful evening was spent by the members of this choir at the residence of Mr. and Mrs. T. F. Matthews, Park street, last night. The kind hostess and genial host, needless to say, entertained their guests in their usual whole-hearted manner, various games were provided and amongst others the ping pong table was a scene of constant amusement. Music and refreshments brought a very pleasant evening to an all too speedy close.

SUBSCRIPTION LIST

at Ormond & Walsh's, for Hirwen Jones' Grand Concert.

SECURE YOUR PLACE.

Was Entertained.

Miss Irwin, Deputy Supreme Lady Organizer of the Knights of the Maccabees, was entertained last night at the residence of Mr. John Titterson, No. 145 London street, along with a number of the members of the local tent of the Maccabees. A very delightful evening was spent in music, song and games, and Miss Irwin was warmly congratulated upon her work here, having in the past two weeks added some 20 odd members to the membership of the Peterborough tent.

A Good Idea.

A Teamsters' and Carters' Union was organized Monday evening in the Central Labour Hall, Water street. In this connection the carters have suggested a good idea. It is understood they are arranging to put a telephone in Mr. Anthony's shoe shop, convenient to their stand on the south side of Simcoe street. This would be a great convenience to business men and others, as all they would have to do would be to call up the carters' 'phone and get a cart without delay. They are also talking about the wisdom of paying a rental for the privilege of using some of the stabling in the Grand Central yard for the purpose of sheltering their horses in rainy or stormy

A SPOOK SEEN AT HIAWATHA.

Mr. Robert Davis Brings a Strange Story From the Indian Village.

A GLOWING BALL OF FIRE.

It has Approached the House of Alfred Crow Four Times During the Last Week.

Mr. Robert Davis, postmaster of Hiawatha, was in town this morning and states that the residents of the village are greatly excited over an eerie supernatural occurrence which is stated to have happened in the village last week. A little three-year-old boy of Alfred Crow's is very ill and watchers have had to sit up with him at night. What they saw during the night will pass into village history.

The statement is that on four different nights a big ball of fire was seen hovering around the house. On the first night it rested for some time on the roof of the pump house and then slowly moved away to the cemetery. The next night it remained on the gate post and when Mr. Crow went to approach it the mysterious ball floated off to the cemetery on the hill. On the occasion of its third appearance, Mr. Crow was roused by the family and going out fired his gun at the apparition but with no effect. It was last seen on Saturday evening, but kept further away from the house. A large number of the villagers have watched for the ball of fire every night since, but it has not reappeared.

It is hard to place credence in the tale but it will be remembered that some years ago something of the same nature was reported as occurring in Brighton and the statement was verified by responsible parties.

Amongst those who have witnessed the presence of the ball of fire at Hiawatha are the Chief and his wife.

Hats off to Them.

Messrs. Wm. Lech & Sons have a very handsome display of hats in their window. Seven stylish looking hats are gaily decked out in the colours of the Peterborough Hockey Club, and each hat has on it the name of one of the players of the victorious seven. But Messrs. Lech & Sons are doing more than this in the matter of showing their interest in the Peterborough players. They have presented to each of the Peterborough players a hat of the latest style and best quality that they have in their establishment—and this is saying a good deal. Messrs. Lech & Sons' generosity will be warmly applauded.

Ready for Another Season.

"There isn't the shadow of a reason why the season shouldn't be a very busy one in bicycles," said Mr. James Metherel to a bunch of enthusiastic cyclists. On the strength of this idea Mr. Metherel has enlarged his bicycle and repair shop and improved his show rooms. A large workshop has been erected in the rear of his show room where the machinery for general manufacturing and repairing has been removed. New appliances and tools have been installed, and a full stock of bicycle sundries put in stock, as well as repairs necessary for the different wheels. Compressed air is furnished free at the door and tires may be filled without the labour of pumping. See advertisement in another column and hustle in your wheels if they need cleaning or repairing.

WATER COMISSIONERS.

Water Consumers will please take notice that all water rates are payable in advance, and that all unpaid rates for the present quarter must be paid at once to the Collector at the Town Office, corner of Simcoe and Water Streets.

S. R. ARMSTRONG,
Secretary.

LATE MR. JOHN FITZPATRICK.

Father of Rev. Father Fitzpatrick Passed Away Yesterday Afternoon.

The death occurred at St. Joseph's Hospital at about 3 o'clock yesterday afternoon, of Mr. John Fitzpatrick, of Norwood, father of Rev. Father Fitzpatrick, parish priest of Ennismore. The deceased gentleman was removed to St. Joseph's Hospital about two weeks ago.

The late Mr. Fitzpatrick was 71 years of age, and was born in the County of Cork, Ireland. He came to this country about 60 years ago, and almost immediately setteled in the Township of Asphodel. Some years ago he moved into Norwood where he has since lived retired. Mr. Fitzpatrick was a gentleman who was widely known and respected throughout this community, and his demise will bring forth many expressions of sorrow. He was of a retiring disposition and never sought public office but always took a deep interest in the people of his neighbourhood. He married Johanna Hefferman of Otonabee, who predeceased him 26 years. There are left to mourn his demise, six daughters and three sons. The daughters are Mrs. Garvey, Mrs. English, Mrs. Oates, Mrs. Mahoney and two Sisters of the Community of St. Joseph's. The sons are Rev. Father Fitzpatrick, Edward, who resides on the homestead, and Phillip, who is also a resident of Asphodel.

The funeral will take place at 9 o'clock on Thursday morning to the Roman Catholic Cemetery, Norwood. The remains were taken to Norwood to-day.

RADIANT MILLINERY DISPLAY AT MISS DELANEY'S.

Miss Delaney's beautiful millinery parlours, wherein all the lovely creations of glorious spring millinery are radiantly holding court, is a sight that will delight the eyes of the ladies. You see in this fascinating display of style and art the daintiest and finest models from famous millinery designs. Ladies eager to know what fashion is endorsing most abroad and at home, can see the freshest fancies noted at Miss Delaney's.

Special mention is made of the American hats, with what subtle skill and whichery, they blend the most delightful characteristic of the styles; note the dashing originality, and how well they accentuate every beauty line. New lace effects are in great vogue. Irish Point Lace, Real Batenburg Lace, Brussels Net Lace, and fancy tulle with straw mixed throughout. Among the leading trimmings are ostrich pompoms, flower sprays, rosebuds, hyacinths, fruits and berries. Ready-to-wear hats of fancy straw braids, in shapes which cannot be obtained elsewhere, will be in eager quest by fashionable dressers.

The new veiling is also worthy of note. Large spots are popular in the new veiling this season. Some exclusive novelties are shown in double veiling of a decidedly practical advantage. Elegant new kid gloves, new spring neckwear and fancy collars to satisfy individual taste and judgment. The whims of the wealthy and the needs of the everyday housekeeper are looked after. Hundreds of ladies in quest of the most fashionable outfittings for spring will visit Miss Delaney's Millinery store with pleasure and profit.

Miss Delaney is at present in New York, and is expected to return in a few days with additional American novelties.

PERSONALS.

Mr. Hugh Stevenson of the International Typographical Union, is in town for a few days.

Miss Eagleson, of South Monaghan, is visiting the Misses Robertson, Reid street, for a few days.

Mr. Thos. Blezard, M. P.P., spent Sunday in town at the home of Mr. and Mrs. G. Learmouth, Sherbrook street.

Miss Gertie Sampson, who has been visiting with friends in Peterborough for the last few weeks, has returned home, after having had a very pleasant time.—Port Hope Guide.

Mr. John Mouncey, formerly of South Monaghan, who has latterly been residing in Minden, has sold out his livery outfit and is leaving for Alberta, where he will take up ranching.

Mr. Gordon Pozer, of the local staff of the Bank of Montreal to-day received notice of his transfer to the Montreal branch of the Bank. Mr. Watson, of Ottawa, will assume Mr. Pozer's duties here.

Port Hope Times: "Mrs. (Rev.) W. W. McCuaig, who has been making her home with Mr. George Waddle during the past winter, went to Peterborough on Saturday to spend a couple of weeks with Mr. and Mrs. Potter at the manse."

Mr. H. G. Luke, of Toronto, is in town for a few days as the representative of the Niagara, St. Catharines & Toronto Railway to arrange for excursions to Niagara Falls via C. P. R. and boats from Toronto to Port Dalhousie, thence via the new electric line through St. Catharines and the fruit district to Niagara Falls. This has proved the most popular trip to Toronto excursionists and will no doubt be taken advantage of by some of our societies during the coming summer.

NEWS NUGGETS.

—Thunder was heard for the first time this season last night.

—All Saints choir will practice this evening at 7.30 o'clock sharp.

—The work of rebuilding the Crystal Block was commenced to-day.

—The Kingston fire department sold two of their old horses the other day for $91.

—A young man of the west end informs the Examiner that he saw the first robin of the season at noon to-day.

—The first consignment of settlers and settlers' effects from Peterborough to the Northwest went west on Monday, there being three carloads of effects.

—Now that a new dam is in course of construction at the locks the canoeists and others who paddle down the Otonabee occasionally during the summer months, are curious to know what facilities there will be for canoeists conveying their crafts from high to low water and vice versa. It is to be hoped that ample provision will be made.

DEATH OF MRS. G. W. ROSS

Wife of the Premier of Ontario died suddenly this morning.

Death Was Due to Paralysis—The Ontario House Adjourned This Morning as a Mark of Respect.

Toronto, March 12. — (Special.) — Citizens of every class and condition were unexpressibly shocked to learn that Mrs. Ross, wife of Hon. G. W. Ross, Premier of the Province of Ontario, died this morning after a very brief illness. On Monday she appeared to be in her usual health, but yesterday she suffered from severe pain in the head, and was seriously ill, but her condition was not considered immediately dangerous. During the night, however, after the Premier's retirement, Mrs. Ross was seized with convulsions and passed away shortly after four o'clock.

The terribly sudden death created something like consternation at the Parliament Buildings. The Legislature met at 11 o'clock, and the Attorney-General, leader of the House pro tem., made touching reference to the Premier's severe bereavement, referring to the sympathy which every member felt with the leader of the House and the Premier of the Province in the very great affliction which had come upon him, and moved the adjournment of the House.

Mr. Whitney, leader of the Opposition, in a few feeling words of tribute and sympathy, seconded the motion, and the House adjourned until three o'clock this afternoon.

The funeral will take place on Friday at two o'clock p.m.

CIVIC ASSOCIATION.

The Residents of Ashburnham Discussed Matters of Public Interest at Their Meeting Last Night.

The regular monthly meeting of the Association was held on Tuesday evening. Mr. E. A. Peck occupied the chair, and there was a good attendance of citizens.

The question of house numbering was introduced by Mr. McCarthy. He pointed out the great advantage which would result from this being done, and estimated the probable expense at not more than $150. After discussion of the matter by several of those present, the views of the meeting were expressed in the following resolution, which was moved by Mr. Faint, seconded by Mr. Butcher, and carried.

"That this association respectfully requests the village council to number the houses of the village and would suggest that about 25 feet of space be allowed for each number; that the numbers run from west to east and from south to north, and even numbers be used on north and east sides of streets and odd numbers on south and west."

A discussion took place about the introduction of a system of fire alarms. The members present expressed themselves in favour of such a system and further discussion of the matter was left over until the next meeting.

An interesting discussion then took place regarding the suggested diversion of the creek at some point in the north end of the village into the river, thus saving the expense of maintaining several bridges and also improving the lots adjoining the creek. This matter will also be considered at the next meeting.

OBITUARY.

The Dundas Banner of March 6th refers as follows to the death of the late Rev. Dr. Laing, who had many warm friends in town. The deceased was the father of Mrs. Collins, wife of Mr. Charles Collins, formerly of Peterborough:

"The death of Rev. Dr. Laing came as a blow to a very large number of people, many of whom had known him for over a quarter of a century, during which he had been a prominent figure in the Presbyterianism of the country. For the past few years he had steadily been growing weaker in health and it was seen by his friends that his long-continued ailment was pulling him down. The operation from which he expected to find relief was a last resort, and he felt that he might not survive it, so much so that he set his church affairs and his household affairs in order before going to the hospital in Toronto, from which he was destined never to return. He was a tireless and conscientious worker, and no man who ever filled a pulpit did so with more earnestness and sincerity than Dr. Laing. It falls to the lot of one who has been a pastor for so many years to perform the marriage ceremony for many of his congregation, to christen their children and to read the burial service over their fathers and mothers. In all these respects Dr. Laing did his full duty, and between him and his congregation there grew up a strong affection. It will be a long time before his memory fades from the hearts and minds of those who knew him."

MARK STREET CHURCH NOTES.

Special services will be held on the evenings of Wednesday, Thursday and Friday of this week in the basement, beginning at half-past seven. These meetings are increasing in interest and attendance. Everyone is invited to be present.

The Sabbath School has recently purchased an excellent series of maps for use in the school, which will add much to its effectiveness.

The usual thank-offering will be taken in this church on Easter Sunday.

Whiten makes the best crayon work in town; when you want large work done, take your small pictures to Whiten. He will make work to suit you.

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Easter Cards and Novelties.

We invite an early inspection of our new and beautiful designs in Easter cards and other novelties, at the Peterborough Bookstore. See the pretty new booklets and unique egg designs in boxes. A. H. Stratton & Co.

No Dance.

It is pretty definitely settled that the Golf Club will not give a dance after Easter as had been expected. The majority of the golfers, it is said, were of the opinion that there have been about enough dances since New Year's and favour calling off the annual affair this year, but it had been expected that the dance would take place about the 31st of this month.

To be strong you must have good appetite, good digestion, and good assimilation. Miller's Compound Iron Pills bring all these. Sold by all druggists.

Death on Coughs.

Don't let a new cough grow old! Kill it while it's young, or it may kill you. Scott's Emulsion can't hurt you, but it's death on coughs—new or old.

SPORTS AND PASTIMES.

HOCKEY.

The Mail and Empire says that a Galt man now living in Toronto, who saw Monday night's match, says the Peterborough team is, in his opinion, a little better than the Galt seven. He was a firm believer in Galt's ability to win the game and championship, and was prepared to back his opinion for a substantial sum, but there was nothing doing in the line of speculation.

AN INVITATION.

The management of the Y.M.C.A. wish to repeat the invitation given to all clubs for out-door sports, and not directly connected with the Y.M.C.A., to hold their organisation and business meetings in the association building, where a room will be gladly provided for such clubs. The only condition is that the clubs notify the association of their wishes.

LACROSSE.

The lacrosse enthusiasts of the town are reminded of the meeting to be held in the Y.M.C.A. on Friday night for the purpose of organizing a lacrosse club in Peterborough. Every person who has the interests of Canada's National Game at heart is asked to attend. The question of entering a team in the Canadian Lacrosse Association will be fully discussed.

Y. M. C. A. GYMNASTICS.

There is every indication that there will be a strong aggregation of Y.M.C.A. men in lining in outdoor sports this coming season. Last year the young men in blue and white did much to revive the interest in the national game among the members of the Y.M.C.A. and this year there is still greater interest being manifested by the boys, and they will undoubtedly have a successful season outdoors. Most of the members who have never played the game are anxious for the season to open up early so that they may learn the rudiments. There is a probability that additional tennis courts will be procured for the summer so as to accommodate the increasing membership. The management of the Y.M.C.A wish to contradict the statement in yesterday's Examiner that they propose amalgamating with any other lacrosse club, and that the statement was published without their sanction or authority. The Y.M.C.A. will organise shortly under their own auspices.

BASKET BALL.

The Business College Basket Ball Team hereby accepts the challenge of the Oriole Basket Ball team of the B. F. Ackerman Mfg. Co., to a friendly game to be played in the Y.M.C.A. gymnasium on Saturday evening. A. Laing, manager.

The above mentioned game will take place at nine o'clock Saturday evening at the conclusion of the League Match between the Electricians and the Ironclads of Wm. Hamilton Mfg. Co. Captains of the playing teams are asked to choose their umpires early in the week.

For twenty-four years Vapo-Cresolene has been extensively used for all forms of throat and bronchial troubles. All Druggists.

What Galt Papers Think of the Game.

The Reformer Sporting Editor Explains it all Their Reference to Mr. Schooley.

Appended is an account of the hockey match taken from the Galt Reformer:

Galt loses to Peterborough by one goal in two games, 7-6; last night's score, 3—3.
It's all over.
Peterborough wins.
Galt loses.
The prize was within grasp.
That makes it hard.
However,
Somebody must fail.
And Galt can take its medicine.
But, as the rooster would say, there's a kick coming.
3—3.
That was last night's score.
At least it was the official score.
But Peterborough's third goal was no goal, the referee having rung his bell for a face off.
Then, strange to say, Referee Schooley allowed the tally

A thing like that counts when it's neck and neck for the wire.

With time up, and the score 3—3, Schooley wanted another five minutes to break the tie, but John Ross Robertson, President of the O.H.A., and Secretary Beeton stepped in and decided otherwise. That settled it; and Peterborough was the winner.

Peterborough plays good hockey.

No one denies it.

And, perhaps, it is profitless to rake over dead ashes.

Still, Peterborough has had the silver spoon and the cream, whenever the O.H.A. has been able to supply them.

Peterborough lies to the east, and Toronto, like a good Mahometan, looks towards Mecca, where the sun rises, whether in prayer or play.

No good thing can come out of the West — if Toronto can prevent its coming.

Defeat is not pleasant at any time time, but with success within reach the wormwood flavour is uppermost, Galt has made a record for itself this season, and there is really no reason for regret so far as the team's record is concerned. But all this does not alter the fact that we must "go way back and sit down"—along with Brantford, Paris, Woodstock, Owen Sound and Collingwood, and we are in pretty fair company at that. Galt has played 13 games, Peterborough has played eight. Yet the same Peterborough obtained the bye with Collingwood. If you would have the O.H.A.'s smiles, pitch your tent in the east.

The Galt rink last night was so packed, jammed and rammed down, that even breathing space was at a premium. And even that was better than the suffocating crush that preceded the opening of the doors at 7.15. The people began to flock at 6 o'clock, and at 6.20 the roadway between the opera house and the rink entrance was in a state of blockade. This great mass of humanity grew and at seven o'clock there was a perfect mob, swaying, struggling but good natured. But it was not all poetry, and it wasn't long before the pressure told. A big fellow, in the centre of the maelstrom, felt uncomfortable. Then he became frightened, and a minute or so later was yelling right lustily for help. The pluckiest of the lot were the gentle-voiced, bright-eyed, rosy-cheeked maidens, who took the promiscuous squeezing with philosophy. One dainty damsel remarked that she must tell her father, though it was evident that she didn't mean it. But everything comes to an end, and at 7.15 one door swung open, and the other crashed from its hinges. The tide surged in and in about ten minutes time, so it seemed, the rink held a thousand rooters. And more followed. Up at the skylights boys and men sat on the girders and surveyed the scene below. Here and there along the sides, a belated enthusiast was hoisted over the side and swallowed up. Even the venerable O.H.A. President would have fared ill had not H. S. Howell and Dr. MacKendrick made room for him in the west corner, first row, of the gallery. Galt wasn't the only place represented. In fact, nearly every hockey town and city in Ontario was there by deputy. The Galt rink had never contained such a contingent. And the game that followed was in keeping with the interest taken.

As to the attendance, hundreds could not get in at all. Among these were Guelphites, who took in the play in the Opera House instead.

The ice was decidedly moist, looking more like a swimming bath than a hockey rink. Still, it was no worse than the Peterborough expanse, and considering the weather, might easily have been no ice at all. For fully three-quarters of an hour the spectators waited. Finally, the black-shirted Peterboroughs appeared. Spare, sinewy, muscular fellows, they had the material that fights to a finish. Galt came on shortly afterwards. There was a perfect salvo of shouts. Little time was allowed for preliminaries. Referee Schooley placed the puck, and the last chapter had come. There was nothing sensational at the start-off, save the mutual determination to do or die. But one fact became apparent, Peterborough's defence was about the best that had ever happened. Armstrong, the cover point, came out in his true colours early in the game, and they were not anything to be ashamed of, either. His reputation of being able to go through anything was far from a myth. He began his rushes without unnecessary delay, and they were scientific. Twaits' lifts were not up to the mark, and Armstrong caused some little anxiety. Lane, who was a sick man in Peterborough, was in fair form, and showed all his old-football stability and strength. Morrison was on the watch, and when complications occurred, he relieved in his own characteristic way. The Galt rush line was not idle, but the opposition was not of the egg-shell variety. It was rather of the stone-wall type, the movable kind, for the Peterborough guard could take the offensive when the occasion required. On the whole, neither goal was in continuous danger during the first twenty minutes. Peterborough had a goal to the good from the first game. And the visitors seemed desirous of protecting it. Thus, they may have given their own citadel rather more attention than they did their opponents'. But it wasn't all caution. Craft was a factor throughout. For instance, the Peterborough forwards would fall back. Then, when least expected, they would dash back toward the Galt cage. It wasn't such a slow trick, but it didn't work in the first half, which totalled one goal. And that was Galt's. What a noise! Everybody opened his or her mouth and went hoarse. Peterborough plugged along as before. So far, it was a tie on the round. The play went on, with fluctuating favour. But the half ended without further change, 1—0.

The slush scraped off, the teams went at it again. Now was Galt's chance. Home supporters thought so, and Peterborough's well-wishers, which included Paris, Woodstock, Ayr and Berlin, didn't seem entirely satisfied. Peterborough saw its advantage waning, and seemed bent on retrieving. But its goal was in peril, and Galt's score gave indications of expansion, when Roy Armstrong pierced the cordon and reached the Galt net. Well, Peterborough's appeal came to nought, then a minute, Roy Armstrong scoring from a run in which Morgan helped. It was now 2—1 in Peterborough's favour, or 6—4 on the round. The fourth quarter was on, and Peterborough grew confident and suffered, for Galt scored twice, and excitement was at fever heat. It was 6 all in the series. Play waxed fast and furious, and Peterborough came down like a cyclone. Graham charged on the Galt goal, and Morrison met him. Referee Schooley rang the bell, but Peterborough ignored the summons and scored. And, incredible to state, Schooley allowed the goal. If it wasn't robbery, it's up to Schooley to give a name. This made the score 3—3 on the game, or 7—6 on the round. It was the same when the gong sounded. Peterborough won—with the referee's aid, whether intentional or not. For had further time been allowed, Galt had as good a chance to win as Peterborough.

Game started at 8.12.
1. Galt. P. Dietrich, 19 min.
Second half began at 9.03 3-4.
2. Peterborough, 5 3-4.
3. Peterborough, 1 min.
4 Galt. C. Dietrich, 15 1-2 min.
5. Galt, Hay, 1 min.
6. Peterborough, 3 min.
Total, 3—3.

Remarks.

It's hard.
But never mind.
Considerable coin changed hands.
So long as the O.H.A. is satisfied.
There's no reflection on Peterborough.
And we haven't done so badly after all.
Woodstock, Paris and Berlin are happy.
It was 3—3 on the game; 7—6 on the round.
Peterborough's last goal was scored after the gong sounded.
We're runners up! To be honest, was it expected when the season opened?
Well, here's to you "Dutchy." The town is proud of you and the team. You're both all right.
Referee Schooley is said to have had a personal argument before leaving Galt. And he bears the mark.
The referee wanted the game tie played off, but the O.H.A. over-ruled him, claiming that the round score should prevail. Still, this does not condone Schooley's fatal mistake—or injustice—at the finish.

BAND CONCERT.

OPERA HOUSE

Friday next, March 14th.

Admission to all parts of the hall, 10c. Children half price. Specialties — Mr. Halpany, in up-to-date Comic Songs. Mr. Hughes, Cornet Solo. Dancing — Highland Fling, etc.

Got the White Gloves.

The spring assizes for the County of Victoria opened this week at Lindsay before the Honourable Mr. Justice Falconbridge. His Lordship was the recipient of a pair of white kid gloves, there being no cases, criminal or civil, on the docket. The Grand Jury in their presentment, referred to this pleasing fact, and also to the question of the erection of a house of refuge, which comes up at the local assizes and Sessions of the Peace as regularly as the seasons come around.

Miller's Worm Powders cure all ailments of children like magic. Sold by all druggists.

RETURN OF THE CONQUERERS.

Thousands of Citizens Greet Peterborough Hockeyists

BANQUET AT THE ORIENTAL.

A Magnificent Display of Fire-Works Last Night.

The Band Played and the Crowd Cheered—A Royal Reception to the Intermediate Champions of the O. H. A.

The scene at the Grand Trunk station last night upon the arrival of the Peterborough Hockey Team, after winning the championship of the Intermediate Series of the O.H.A. at Galt, was something that will long be remembered by the people of Peterborough, and perhaps more particularly by the members of the victorious seven, and the few supporters who returned with the boys from the Canadian Manchester. Hundreds of sky rockets illuminated the town in the vicinity of the G.T.R. station, cannon crackers pealed forth their deafening roar, the band played "Creole Belle," the small boy tooted his fog horn, steam whistles blew in honour of the occasion, men, women and children shouted louder and more enthusiastically no doubt than they had ever done before and from the general display of fireworks went up clouds of incense in honour of the return of the victorious seven. Thousands gathered for the demonstration, and standing room for some distance in the vicinity of the station was at a premium. Both sides of Charlotte and George streets were densely packed with humanity; from windows, balconies and awnings streamed profusely the Peterborough colours, from mostly every individual went up a joyous shout, and altogether the return of the Peterborough Hockey Team was attended with as much enthusiasm as was the return of the Jews from Babylonish captivity.

The reception committee, consisting of Messrs. R. H. Kells, J. S. Knapman and Walter Stocker, who worked untiringly during the afternoon, had the arrangements well planned and the programme passed off in a highly satisfactory manner.

An almost inexhaustible supply of fireworks had been procured, hacks had been hired, and the people of the town fully informed as to the nature the proceedings were to assume.

Immediately as the train steamed into the station everything was torn loose. The scene baffles description and completely staggered the members of the team, whose modesty and unselfishness is one of their chief characteristics. They were met at the platform of the coach by the Reception Committee and ascorted to the carriage in waiting, and the procession moved off down Charlotte street. The crowd shouted words of congratulation to the boys and waved the red, white and black, while the display of fireworks was, to say the least, magnificent.

The route was east on Charlotte to George, north on George to Hunter, east to Water, north to Murry, west to George, south to Hunter and thence to the Oriental Hotel. There were about ten hacks in the procession. In them were seated the players Messrs. Ernie Wasson, R. M. Glover, Hurold C. Armstrong, Roy Armstrong, Fred Whiteroft, Harry Morgan and Chris Graham; the officers of the club, and a number of other prominent supporters. Notwithstanding the slushy state of the roads, many marched behind the vehicles, setting off fireworks, shouting slogans and cheering wildly as an evidence of their appreciation of the honour that had fallen to Peterborough.

A HOT TIME.

The procession was not without incident and an exciting time occurred just about in front of Dr. Robinson's livery stable on Charlotte street. The skyrockets had been distributed amongst the occupants of the various hacks. In the third hack which contained Messrs. H. R. H. Konner, president of the Club, H. Rush, jr., J. S. Knapman, Walter Stocker and E. S. Clurry, an explosion took place that scattered the occupants of the hack and damaged to a considerable extent the interior of the vehicle. The bottom of the hack had been transformed into a temporary magazine. There were several bundles of skyrockets, and the sparks from the lighted rockets fell in amongst them. One after another they commenced to explode and the occupants of the carriage thinking that they were up against a warmer thing than they could stand, leaped to the street. In a few seconds the hack was a seathing mass of flames and constituted a pretty though expensive fiery chariot. With the aid of snow the flames were subdued but, as before stated, not before considerable damage had been done.

AT THE ORIENTAL.

It is some time since such a crowd gathered in front of the Oriental Hotel. There were hundreds, yes thousands, but the boys wedged their way through and were warmly greeted inside the hotel by their friends. They then repaired to the dining room where they sat down to a complimentary supper which had been tendered them by Mr. George N. Graham. Seated around the tables were the following: His Worship Mayor Denne, Messrs. H. R. H. Kenner, president, A. W. McPherson, sec.-treasurer, R. M. Glover, captain, Harold Armstrong, Ernie Wasson, H. Morgan, Fred Whitcroft, Roy Armstrong, Chris Graham, Wm. Buntom, Dickson Davidson, H. Rush, jr., A. H. Stratton, Wm. Breen, Ed. Dillon, Harry Gunsolus, Victor Hamilton, J. Crane, S. S. Moore and E. S. Clarry.

After partaking of a hearty dinner Mr. Kenner asked the Mayor to make a few remarks.

In reply His Worship said that it was a pleasure to him and to all present, he felt sure, to be there, and have an opportunity of extending to the members of the town team, the very heartiest congratulations. Last year they had won the Junior Championship; this year they are Intermediate Champions, and he hoped that they would all be together next season and once again land the Intermediate trophy. On behalf of the town he thanked them for the honour they had brought to Peterborough and he assured them that they were the means of doing Peterborough no inconsiderable amount of advertising during the past few weeks. In view of this fact he thought that a new rink ought to be more than ever a live issue. He hoped that a good rousing meeting would be held shortly with a view of carrying on the undertaking even more vigorously than ever. The Mayor incidentally mentioned that there was an agitation at the present time in favour of having public swimming baths, and if it were possible to utilize a portion of the rink during the coming season for this purpose it might be that the town could be induced to give a grant towards the erection of the new rink.

Mr. John Crane favoured the gathering with a vocal selection, after which the toast of "Our Host" was very enthusiastically honoured.

Mr. Chris. Graham, replying on behalf of his father, assured the boys that his father was pleased to have them present and assist in whatever way he could in entertaining them.

The president announced as there would be an opportunity given some time soon to have further speech-making in eulogy of the team they would bring the proceedings to a close God Save the King was sung and the gathering dispersed. During the supper the band of the 57th Regt. was stationed just at the door of the dining room and rendered a short programme.

AT GALT.

Of course it would be far from correct to say that Galt was not disappointed; of course they were and everybody knows it. However they gave the boys a real good time after the match and banquetted them along with the O.H.A. officials who were present. Speeches were made by Messrs. John Ross Robertson, A. H. Beaton, Francis Nelson and the captains of the two teams. When the boys started for home next morning they found that their special car had been gaily decorated with red, white and black. The work had been done by Messrs. Wm. Bunton and Ed. Dillon. Speaking of the game the boys say that the people of Hespler, who were present in large numbers cheered wildly for Peterborough. Only two ladies in the audience of 2000 people wore the Peterborough colours. They were Miss L. Quirk and Miss Lizzie Scott, two of Ashburnham's young ladies who are visiting in Galt. They cheered loyally for Peterborough.

NOTES.

Hon. J. R. Stratton went down to the Union station yesterday morning to meet the boys.

Mrs. C. B. McAllister, met the boys in Toronto and presented them each with a handsome bouquet.

The Hook and Ladder Brigade of the Fire Department took a prominent part in the procession, as did both fire teams.

Mr. George Stevens has earned the reputation of being one of the most enthusiastic supporters the Peterborough team has.

Those who went up to Blackwater to meet the boys were Messrs. A. H. Stratton, H. R. H. Kenner, H. Rush, A. W. McPherson and D. H. Burrett.

Messrs. Walter Stocker, R. H. Kells and J. S. Knapman deserve great credit for the manner in which they arranged the details of the demonstration.

Those accompanying the team from Peterborough were Messrs. Wm. Bunton, George Stevens, E. T. McCabe, Ed. Dillon, W. Breen, Wm. Scott, Joe Lowes, W. Gould, H. Gunsolus, Victor Hamilton and Dr. Bradd.

The puck was put into the net on two occasions in the Galt-Peterborough match in which goals were not allowed. Once a Galt forward picked up the puck with his hand behind the net and dropped it over in front and inside. The other was a goal shot by Whiteroft for Peterborough, which was called back as an offside play, although it looked as though Graham, who made the pass, had skated his club mate onside in time.

The Toronto Globe says: Hon. J. R. Stratton had made every preparation to give the members of the intermediate champion Peterborough team a reception when they went through Toronto yesterday on their way from Galt, and a luncheon had been ordered for them at the Grand Union Hotel. The train was late in arriving and the players and their supporters did not have time to partake of the repast. On Tuesday night in Peterborough in conjunction with the big banquet which will be held in honour of the team, Mr. Stratton will dine a hundred of the team's enthusiasts.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. KENNEDY'S MEAT MARKET, 'Phone 275.

Peterborough Poultry Association.

A meeting of the Board of Directors has been called to be held in the Town Council Chamber on Thursday evening at 7.30. All members and those in sympathy with the work of the Association, are invited to be present. Important business will be taken up.

Experience Counts

There is a lot in knowing how and where to buy. We have had over a score of years' experience, which has enabled us to find where the best goods can be had for the least money. We have thoroughly and thoughtfully taken into consideration your wants, and our varied stock eloquently testifies.

IN BUYING at our stores you get the benefit of all this, for what our experience enables us to save, we pass along to our customers. Our New Wall Paper, Window Shades, Curtain Poles, Dinner Sets, Tea Sets and Crockery will especially bear us out in the assertion that no other house has been more diligent in providing for your wants. RETURN VISIT

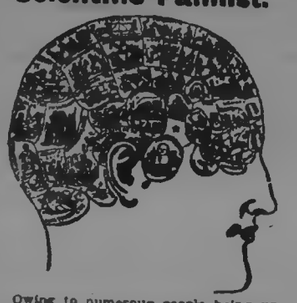
—OF—

Professor O'Brien

Canada's Greatest Phrenologist and the only recognized

Scientific Palmist.



Owing to numerous people being unable to consult Prof. O'Brien during his first visit in Peterborough, a few weeks ago, he has been prevailed upon to pay the town a return visit on his way east, and can now be consulted at his former private office, 263 Hunter street Terrace, from 10 a.m. to 10 p.m. As Professor O'Brien will only remain in town for a very short season, people wishing to consult him should call at once, as this is their last chance. A photo read free to patrons.

Prof. O'Brien has just concluded two most successful seasons in Lindsay and Cannington, and is urgently requested to pay both towns a return visit at an early date. 4tf

A Siege

The matrons of the Edison Orphanage at Lowell, Mass., U.S.A., wrote they had a siege of whooping-cough in their institution. They said that every case was promptly relieved by Vapo-Cresolene. Its value in coughs and colds was so great they always kept it ready for use. You know how it's used, don't you? 'Tis heated by a vaporizer and you inhale it. Write us for a book that tells all about it.

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

CASUALTIES ARE 650

Total Known Casualties 324. With 326 Unaccounted For.

MOAE MEN FOR LORD KITCHENER

Mr. Brodrick Announces That 6,000 Yeomanry Will Be Sent—Drafts of Cavalry and Infantry—Lord Kitchener Will Be Given All the Assistance He Requires—Lord Rosebery's Talk.

London, March 12.—The official information on General Methuen's disaster is still incomplete. The total known British casualties amount to 324. There are still 326 men unaccounted for.

MORE MEN FOR KITCHENER.

Mr. Brodrick Makes an Announcement in the House.

London, March 12.—The War Secretary, Mr. Brodrick, when asked in the House of Commons yesterday what steps had been taken in view of the success of the Boers against Gen. Methuen to send Lord Kitchener reinforcements, said 6,000 yeomanry would be immediately embarked, with large drafts of cavalry and infantry. Lord Kitchener would be given all the assistance he asked for.

Expressions of steadfastness have yesterday succeeded those of humiliation which were universally heard here Monday on the publication of the news of General Methuen's disaster. Lord Rosebery struck the popular note yesterday, in a speech before the Glasgow students. He admitted that it was heart-breaking after all the expenditure of life, time and money, but he added: "It will not dishearten us. We have got to see this thing through. We must take the blows which fortune deals us with equanimity, showing ourselves worthy of better fortune."

Prussian Sympathy.

Berlin, March 12.—In the Prussian Diet yesterday the Foreign Secretary, Baron Von Richthofen, after reading the answer of the British Government permitting the delivery of German charitable gifts to the Boers in the South African concentration camps under the surveillance of the camp authorities, declared that the reply guaranteed a just distribution, and added:

"The English and German nations are connected by the ties of blood, race and friendship. They are cousins who may again find themselves side by side. General Methuen deserves our complete sympathy. As the military attache to the British Embassy in Berlin, he enjoyed the estrem of Emperors William and Frederick."

Of Great Moral Effect.

Paris, March 12.—The disaster to Gen. Methuen's column has caused a deep impression in Paris. The newspapers express the opinion that it will have a great moral effect in encouraging the Boers to more obstinate resistance. At the same time the papers do not speak too harshly of Gen. Methuen, owing to his generous conduct in the Gen. Villebois-Mareuil affair.

Boer Delegates Talk.

Washington, March 12.— C. H. Wessels and A. D. W. Wolmarans, the Boer delegates in the country, had a talk with President Roosevelt yesterday at the conclusion of the Cabinet meeting. They called to pay their respects and to say good-bye, as they will leave for Europe about the 20th inst. In the course of their interview, they stated that they desired to particularly make known to the President that they neither asked for, desired nor expected intervention on the part of this or any other country. What they wanted and what they laid before the American Government, Mr. Wessels said, was a request that civilized warfare be insured in South Africa. "President Kruger is not seeking intervention in Europe," he concluded, "and all stories of that kind may be denied whenever they are seen. The Boers have nothing to lose, and all to gain, by keeping up this fighting. They may call it guerilla warfare if they want, but it is at least humane warfare."

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, make them active, vigorous, and thoroughly cure these ailments. One 25c box of this great Kidney medicine will do you a world of good.

A Brakeman Killed.

North Bay, March 12.—Walter Smaith, a brakeman on the C.P.R., was killed here Monday evening, while coupling cars on the passenger train from Sault Ste. Marie. When found his head was badly crushed, and it is thought that he had raised himself too high in an attempt to couple the cars. The only relatives that the deceased is known to have are a sister in England and a brother in Spain. The deceased lived at Woodstock, where his remains will be buried by the Sons of England. He came out to Canada from England a year ago. He was 26 years of age.

Prince Henry Has Gone.

New York, March 12.—Prince Henry of Prussia sailed for Germany on the Hamburg-Americaner Deutchland at 3.45 p.m. yesterday, and thus ended his first visit to the United States. The Prince's last day in America was spent entirely on board the Deutchland, he having decided not to make a number of social calls, but he received farewell visits from members of the party which accompanied him, and various officials of Germany in this country and of the United States Government.

Strong Enough for Cancers.

It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.

KING'S CORONATION

Correspondence Brought Down in the House of Commons.

CANADA'S REPLY TO INVITATION

Canadian Ministers Think a Useful Discussion Might Take Place on the Commercial Relations Between the Various Sections of the Empire—The Budget on Monday—Railway Contracts For Past Year.

Ottawa, March 12.—The Premier yesterday afternoon laid on the table of the House correspondence relating to the coronation of King Edward and the Imperial conference which is to be held in London. The formal invitation to Sir Wilfrid Laurier to attend the coronation ceremonies was extended in a despatch from the Colonial Secretary to the Governor-General.

Lord Minto's Answer.

The answer of the Canadian Government was cabled by Lord Minto on Feb. 3, 1902, as follows: "Referring to your despatch of Dec. 27, 1901, my Government accepts the invitation extended to the Prime Minister to attend coronation. He expects to sail about June 10, accompanied by Lady Laurier, but the exact date cannot yet be fixed.

"Referring to the several questions mentioned in your despatch of Jan. 15, the only one which, in the opinion of my Ministers, gives promise of useful discussion is that of commercial relations between the various sections of the empire. The political relations now existing between the Mother Country and the great self-governing colonies, and particularly Canada, are regarded by my Ministers as extremely satisfactory, with the exception of a few minor details, and they do not anticipate that in the varying conditions of the colonies there can be any scheme of defence applicable to all.

"In the opinion of my Ministers there is but a limited rabge of subjects upon which the contemplated conference can be productive of useful action. Nevertheless, my Ministers, realizing the desirability of taking advantage of every opportunity for the discussion by the public men of the Mother Country and the colonies of the questions of Imperial interest, and Canada's representative will be prepared to give respectful consideration to any proposals that may be submitted by His Majesty's Government or by the representatives of other colonies."

The Budget on Monday.

The Minister of Finance announced this afternoon that the budget speech would be delivered on Monday next. Monday is usually given up to private members, and the departure from the almost invariable practice of having the budget on a day devoted to Government business excited some surprise. It seems, however, that Mr. Fielding was prepared to make his financial statement on Thursday, but the Opposition leader asked that it be postponed. It was then proposed as a matter of joint agreement that the speech should be given on Monday, and to this the House consented. It is not expected Mr. Fielding will announce any tariff changes.

Railway Department Contracts.

A return tabled shows that the following contracts were awarded by the Minister of Railways during the financial year ended June 30th: Sir W. Armstrong Whitworth & Co., Limited, construction of a railway ferry steamer for the Straits of Canso, £47,000; T. Dixon Manufacturing Co., 16 locomotives, $15,000 each; Manchester Locomotive Works, 10 locomotives, $15,500 each; Barney Smith Car Co., 6 first-class passenger cars, $11,995 each; 3 dining cars, $15,775 each; 4 sleeping cars, $19,255 each; Kingston Locomotive Works, 20 locomotives, $19,000 each. Rhodes, Curry & Co., 17 refrigerator cars, $1,158 each; Crossen Car Manufacturing Co., 150 box cars, $747.50 each; 200 flat cars, $495.50 each; 5 baggage cars, $4,650 each; 5 postal and baggage cars, $5,750 each; 6 second-class sleeping cars, $8,000 each; 1,000 box cars, $718.75 each; 20 stock cars, $875 each; Manchester Locomotive Works, 8 locomotives, $18,500 each; Richmond Locomotive & Machine Works, 5 simple locomotives, $14,485 each; 5 compound locomotives, $14,985 each; the Rathbun Co., 125 box cars, $747.50 each; Charles Cammell & Co., 5,000 tons first quality of steel rails delivered at Montreal, $24.90 per ton; at Pictou, $25.70 per ton. The Kingston Locomotive Works also received an order for 2 locomotives at $10,150 each. Mr. M. P. Davis was given a contract for supplying 400 horse power electric current and 250 electric lights. The following contracts for supplying Portland cement were awarded: The Rathbun Co., 10,000 barrels, at $2.66 per barrel; Owen Sound Portland Co., 5,000 barrels, at $2.66 per barrel, and 5,000 at $2.27 per barrel; Lakefield Portland Cement Co., 3,000 barrels, at $2.27 per barrel; the Canadian Portland Cement Co., 15,000 barrels, at $2.27 per barrel.

A Day on the Estimates.

The House, in committee, took up the vote of $125,000 for Ottawa public buildings and $31,000 for rents of Dominion public buildings, and after some discussion the items passed.

On the vote of $76,500 for rentals, care etc., of the Yukon Public Buildings, Dr Sproule asked for an explanation of the Treadgold Hydraulic concession. Owing to Mr Sifton's absence the matter stood.

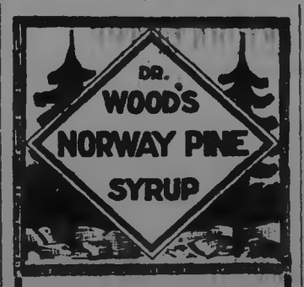
A long debate ensued upon the votes for breakwaters in the Maritime Provinces and Quebec at odd places.

On the vote of $170,600 for deepwater wharf at Sorel, upon which $86,000 had been spent by the contractors, the full amount of the contract being $600,000.

Mr. Kemp protested that this was the first that had been heard of the project of making an ocean terminus of Sorel.

The Premier said that the scheme had been underway for three years. He dwelt upon the importance of the trade of the country south of Montreal, which would be served by a deepwater harbor at Sorel. The item passed.

The sum of $50,000 was voted for the harbor of Three Rivers, a total of $422,000 for harbors in Quebec, and the House adjourned shortly after midnight.



Cures Coughs, Colds, Lung and Bronchial affections that other remedies won't touch.

MR. THOS. J. SMITH, Caledonia, Ont., writes: "A year ago I had a very severe cold which settled in my lungs and in my throat, so that I could scarcely speak louder than a whisper. I tried several medicines, but got no relief until I used one and a half bottles of Norway Pine Syrup, which completely cured me."

25c. a bottle or five for $1.00.

THE MISSING HURONIAN.

A Wrecked Vessel Reported on Sable Island—Aberdeen Has Been Ordered to Rescue.

Ottawa, March 12.—Hon. James Sutherland, Minister of Marine and Fisheries, received a telegram last night from Halifax, stating that it was reported that the Allan steamship Huronian, which was eleven days overdue from Liverpool for Halifax, had foundered between Sable Island and Halifax.

The Minister at once despatched orders to the Government steamer Aberdeen to start at once for the scene of the alleged disaster and search for survivors of the rumored wreck.

A despatch from Glasgow says: The anxiety felt here for the overdue British steamer Huronian, Captain Brodie, which sailed from this port February 11 for St. John, N. B., is intensifying, as a month has now elapsed without any tidings of her.

In a Plaster OF Paris Jacket

To Relieve Excruciating Pains in Back and Loins—When Doctors Failed a Cure was Found in.

DR. CHASE'S KIDNEY-LIVER PILLS.

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life.

Mr. S. O. Demers, Conception Station, Labelle County, Que., writes:—"I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins, back and sides. I had become so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists but all of them pronounced me incurable and could not even give me relief. One of them encased me in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure.

"About this time I received one of Dr. Chase's books and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in my back and sides grew less severe, and my bowels became regular and active—constipation had been one of my worst symptoms.

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and side, frequent desires to urinate and pain in making water, stiffness of the body and all the accompanying derangements of the liver and kidneys.

"Since using Dr. Chase's Kidney-Liver Pills these ailments have become less and less until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their favour. The people in this county are surprised to see me so well again and no wonder, for my cure has been almost miraculous."

Dr. Chase's Kidney-Liver Pills; one pill a dose; 25 cents a box, at all dealers, or at Edmanson, Bates & Co., Toronto.

What It Means.

Victoria, B.C., March 10.—It is said that Messrs Mackenzie & Mann have an option on the Esquimalt and Nanaimo line, and that its purchase means the return of Col. Prior to the Local House.

Seven Thousand to Strike.

Boston, March 10.—The Freight Handlers', Freight Clerks' and Freight Teamsters' unions, representing in all some 7,000 men, voted yesterday to strike at 7 o'clock this morning.

Like Sunshine and Rain

which comes to the rich and poor, good and bad, alike, so Four T's, the greatest remedy of the age, cures coughs and colds, bronchitis, asthma, whooping cough and pneumonia for all who take it. Don't neglect your lungs. Spend 25c for a bottle of Four T's at Ormond & Walsh's drug store and avoid congestion.

Calves, receipts, 314; 290 head on sale; steady; about 50 head unsold. Veals sold at $4.50 to $8; a few tops at $8.25; city dressed veals sold at 9c to 12¼c per pound. Sheep and lambs, receipts, 4968; about 13 cars on sale; general sheep market steady; lambs about steady; peas not fully cleared; sheep sold at $4 to $4; top figure for very good; lambs at $6.50 to $7.20; culls at $5; dressed mutton, 8c to 9½c per pound; dressed lambs, 10c to 12½c per lb. Hogs—receipts, 8287; one deck on sale; weak. A bunch of state hogs sold at $6.05.

CHICAGO LIVE STOCK.

Chicago, March 11.—Cattle—Receipts, 4000; steady; good to prime steers nominal, $6.50 to $7; poor to medium, $4 to $6.30; stockers and feeders, $2.50 to $5.25; cows, $1.25 to $5.50; heifers, $2.50 to $5.75; canners, $1.25 to $2.40; bulls, $3.50 to $4.60; calves, $3 to $6.50; Texas fed steers, 4.75 to $5.90.

Hogs—Receipts, 23,000; mixed and butchers', $5.95 to $6.40; good to choice, heavy, $6.30 to $6.47½; rough, heavy, $6 to $6.25; light, $5.85 to $6.15; bulk of sales, $6 to $6.30.

Sheep and Lambs—Receipts, 10,000; sheep steady to strong; lambs, best steady to strong; good to choice wethers, $4.50 to $5.25; fair to choice, mixed, $3.75 to $4.40; Western sheep, $4.60 to $5.85; native lambs, $4 to $6.50; Western lambs, $5.25 to $6.50.

BRITISH CATTLE MARKET.

London, March 11.—Prices steady; live cattle, 12c to 13¼c, dressed weight; refrigerator beef, 10c to 10¼c per lb.

HEAD-ACHES and HAND SHAKES

Some imagine that because the head-aches or the hand shakes that the head or hand is the seat of the trouble. Ninety-nine times in a hundred you could trace them as unmistakable symptoms that the kidneys are in revolt.

South American Kidney Cure cleans the system of all impurities in nature's way—eradicates all the disturbing symptoms—quiets the head and steadies the hand—it puts the kidneys to rights. As a kidney cure it's next to infallible. Relieves in six hours.

Shoe Style.

When you wear a "King Quality" shoe you get all the style, the fit and finish found in the best American shoes.

The "King Quality" factory is the only one in Canada that makes Ladies' Shoes better than the American article, which comes into Canada with a 25% duty taken out of its quality.

The "King Quality" brand is worn by the *best dressed* Canadian ladies; it is a true note of shoe fashion, of *correctness* in dress.

27 styles, 4 widths, all sizes.
Branded "King Quality."
Gold medal awarded at the Paris Exposition, 1900.
Made by The J. D. King Co. Limited, Toronto.

Enlarged Pictures and Groups

My work combines the qualities of Permanence, Artistic Posing and Natural Likeness.

When you're ready for a sitting make your appointments with

LENDRUM Only Ground Floor Studio Charlotte Street.

RING UP 'PHONE 388.

When any accident to your steam, water or gas pipes arises or when your furnaces or boilers need repairs, or closets, tanks, baths or other sanitary appliances get out of order, I will promptly attend to all orders, having on hand a full supply of plumbers' and steamfitters' requisites. I am prepared to meet every want, possessing a practical knowledge of the trade. I am enabled to detect at once the defects and causes, and remedy them at very low charges. I am ready to furnish estimates for all kinds of heating, public buildings, churches, etc. Iron pumps, points and pipe furnished and wells driven.

THE NEWS IN PARLIAMENT.

Regret Expressed by Lord Roberts, the Premier and the War Secretary.

London, March 11.—Lord Kitchener's despatches announcing the disaster to Gen Methuen's forces were read in both the House of Lords and the House of Commons yesterday, by Lord Roberts, the commander-in-chief, and Mr. Brodrick, the war secretary, respectively. They both paid tributes to Gen. Methuen, the former expressing his appreciation of Methuen's success throughout the war, declaring that his task of forcing the Boer position at Magersfontein was an almost impossible one.

What "Bobs" Said.

Lord Roberts, the commander-in-chief, who announced the British disaster in the House of Lords, said Gen. Methuen, for over two years, had carried on his work with zeal, intelligence, and great perseverance, adding that the general was beloved of his men, and that no work was too dangerous or difficult for them or Gen. Methuen. The commander-in-chief was sure the House was deeply grieved at what had occurred. He would ask their Lordships to concur with him in his sympathy for the gallant officer in his present unfortunate position, and defer adverse criticism till they had definite information as to who was directly responsible. From Delarey's conduct throughout the war, they could all be assured that Gen. Methuen would be taken great care of.

The Premier's Remarks.

The Premier, Lord Salisbury, also expressed deep sympathy with Gen Methuen under the present unfortunate circumstances. He said it was not the time to discuss his action. His Lordship was convinced Gen. Methuen had done his best with this most melancholy affair.

The feeling of depression in the lobbies of the House of Commons over the news of the disaster in South Africa was very marked. The service members of the House expressed the opinion that it will necessitate sending fresh troops to the front, while the belief was widely expressed that the Boers will not fail to take advantage of Gen. Methuen's prominence to hold him as a hostage for the safety of Commandant Kritzinger and other Boer leaders now in the hands of the British.

In the Commons.

The news was received in the House of Commons amid great excitement. The reading of Lord Kitchener's telegram by the War Secretary, Mr. Brodrick, was listened to in deep silence, which was broken by loud Irish cheers.

Instantly there were cries of "Shame, shame," from the Government benches. Then the Irish members seemed to think better of their outbreak, and suddenly subsided. The subsequent eulogistic reference to Gen. Methuen were received with cheers.

Rosebery on the Defeat.

Glasgow, March 11.—Lord Rosebery spoke before a crowded meeting in St. Andrew's Hall last night. He referred to the Irish demonstration in the House of Commons yesterday, when the reading of Lord Kitchener's telegram announcing the capture of Gen. Methuen was greeted by loud Irish cheers, as a fresh indication of the impossibility of Home Rule. Lord Rosebery said that Mr. Gladstone himself, if he returned from the dead, could not dare to entrust an independent parliament to men who openly rejoiced at a British military disaster.

Dressed as Britishers.

Advices received last night say that the force under General Delarey was almost entirely dressed in British uniforms. This made it impossible for the infantry to distinguish between their own men and the enemy when the mounted troops were driven in on them. The enemy numbered 1,500 men. They had one 15-pounder and a pom pom.

Delarey, Calliers, Kemp, Tromp and other commandants were present.

In a private telegram just received here Lord Kitchener adds: "I find Methuen has a fractured thigh, but he is reported to be doing well."

Killed His Sister.

Halifax, N. S., March 11. — While skylarking with a pitchfork at Port Gilbert, Digby County, on Sunday afternoon, Adolphe Melanson, accidentally drove one of the prongs into the eye of his sister, a young woman, who died yesterday as a result of the injury.

Mr. Harcourt Nominated.

Wellandport, March 11.—Hon. R. Harcourt was to-day given the unanimous nomination for the County of Norfolk. Speeches were delivered by Messrs. Blain, ex-M.P.; John Brown, ex-M.P.; and G. P. Graham, M.P.P.

Demands still Refused.

St. John's, Nfld., March 11.— The sealing steamers Algerine, Harlaw and Panther sailed from Cape Ray yesterday for the Gulf of St. Lawrence, and the steamer Newfoundland sailed from Catalina, all with full crews. The steamers at St. John's are still without crews. The ship owners, at a meeting held yesterday, decided to still refuse to grant the terms demanded by the men.

Where Is the Huronian?

St. John, N.B., March 11.—The overdue Allan liner Huronian has not yet arrived. The steamer is now out twenty-seven days from Glasgow.

When Sir Wilfrid Leaves.

Ottawa, March 11.—Sir Wilfrid and Lady Laurier sail from New York on the Etruria on June 14 to attend the coronation ceremonies.

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

IT IS EASY WORK

when you are well, to rub and scrub, but when the back aches and the head throbs, a woman's work is hourly torment.

No woman can be strong and healthy of body who is the victim of those womanly diseases which are often responsible for feminine sufferings.

Women who have used Dr. Pierce's Favorite Prescription for the cure of diseases of the womanly organs, say that work doesn't tire them any more. "Favorite Prescription" regulates the periods, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

There is no alcohol in "Favorite Prescription," neither opium, cocaine or any other narcotic.

"I had poor health for nine years (ever since the birth of my child)," writes Mrs. Armintie Watkins, of Acme, Kanawha Co., W. Va. "Had female weakness, was very irregular and would suffer untold misery. Our family doctor did not do me any good and I concluded to write to you. When I wrote I had no idea that I would ever get well, but when your letter reached me I began to have hope. I commenced taking Dr Pierce's medicines as directed and began to improve in strength. I was soon able to do the work for my family of six. I think there never were such medicines in the world. I took eight bottles, three of 'Favorite Prescription' and five of 'Golden Medical Discovery' and two vials of 'Pellets.'"

Dr. Pierce's Pellets cure constipation.

MEMORY DOES NOT FAIL.

It Simply Gets Weak and Languid For Want of Use.

Memory does not "fail" (except in loss of all the faculties); it simply gets weak and languid for want to use, just as the physical organs do. People often say, "My memory is failing," when it is really as good as ever if they would give it a chance.

A word, a date, a name, an incident, comes up, or rather fails to come up when you want it. There seems to be no possible way of remembering it. You make two or three efforts, give up and say, "There's no use; it's gone from me."

Nonsense! It hasn't. It is there just as much as it ever was, only there are a lot of things over it. Keep at work, bring your will to bear upon it, try and try and try, and after awhile you can get it.

And, better, you will find that the exercise required in remembering it will help you next time, and that a little toil and determination put together will accomplish wonders in the whole range of the faculties.

Look over your memory, see where you are most deficient and exercise it in that respect. You can do it at any odd time; while you are walking, riding, resting after a day's work, listening perforce to a dull speaker. Don't let a few failures discourage you. The long corridor of recollection lined upon both sides with valuable material will be opened for you because of your importunity if you use it.

A Little Too Sure.

A well known Philadelphian is noted for his inability to remember faces. He has passed by his best friends on the street as though he never before had seen them. A woman of his acquaintance is equally famous for never forgetting a face. She prides herself on this "gift," and she declares that the faces of every man, woman and child whom she has ever met is photographed on her memory. The absentminded man had passed her by several times, looking blankly at her. At last she said:

"I wager a box of the best cigars you ever smoked that I will recall myself to your recollection the next time I meet you."

The man in return wagered a box of gloves. One day the woman, going along Walnut street, felt sure she saw the man. He was abreast of her and showed no sign of recognition. The woman had an umbrella with her. She gave a sudden poke with it and hit the man's ribs. Startled, her victim looked up.

"Madam," he began in confusion.

"I beg your pardon," blushed the woman. "I—I struck the wrong man."

She had never seen him before in her life.

Only Two Held the Office.

A town in central Illinois boasted for many years of a most ornamental figure which adorned the town square seven days in the week. His name was Price Poor, and in splendor of attire he rivaled the Beau Hickman of the capital. He had a numerous family, which he kept well in the background during the few hours he spent at home. In the course of political events in Illinois Price Poor was elected a justice of the peace. He was prouder of the office than a bird of paradise. The neighbors shared his glory by reflection. One of them was seated in Justice Poor's sitting room one day soon after the election and heard the justice talking with his eldest son.

"Is we all jestices, paw?" the boy asked wistfully.

The old man had something of an impediment in his speech. "Eh-no, my son," he answered; "only eh-me and eh-your maw.'

An Aristocratic Grain.

Could plants lay claim to aristocratic position, as representing an old family, rice might safely claim to be of the most ancient pedigree. It is the earliest cereal known. Originally a native of India, it has crossed the ocean and made a home for itself where heat and moist soil could be found. It grows in all warm portions of the globe and furnishes the principal food of nearly one-third of the human race.

CURE SICK HEADACHE.

THE ROAD TO DYSPEPSIA.

Why So Many Persons Suffer From This Distressing Trouble.

It requires about five hours for the stomach to work on an ordinary meal and pass it out of itself, when it falls into a state of repose; hence if a man eats three times a day his stomach must work fifteen hours out of the twenty-four. After a night's sleep we wake up with a certain amount of bodily vigor which is faithfully portioned out to every muscle of the system and every set of muscles, each its rightful share, the stomach among others.

When the external body gets weary after a long day's work, the stomach bears its share of the fatigue, but if, when the body is weary with the day's toil, we put it to bed, giving the stomach meanwhile a five hours' task which must be performed, we impose upon the very best friend we have—the one that gives us one of the largest amounts of earthly enjoyment—and if this overtaxing is continued it must as certainly wear out prematurely as the body itself will if it is overworked every day.

And, if persons eat between meals, then the stomach has no rest from breakfast in the morning until 1, 2, 3 or 4 o'clock next day; hence it is that so many persons have dyspepsia. The stomach is worked so much and so constantly that it becomes too weak to work at all.—London Family Doctor.

Sure Cure for Sea Sickness, Nausea.

Maladies of this type yield instantly to Polson's Nerviline, and if you suffer periodically from these complaints, just keep Nerviline at hand. A few drops in sweetened water gives instant relief, and in the course of half an hour the cure is complete. A large 25c bottle of Nerviline in the house will save doctor bills, and a vast amount of suffering every year.

Railways In Argentina.

"The railway system of Argentina," says a correspondent of the London Post, "is second to none in the world. Trains run at frequent intervals and punctually, especially the long distance trains. The rolling stock is excellent, and a long distance journey by rail is a luxury. The sleeping cars are sumptuously appointed, the permanent ways are well laid, and there is consequently very little jolting. It is possible to breakfast or dine in the trains as comfortably as in a hotel. The dining cars are well fitted up and beautifully decorated with flowers and pot plants. The food is properly cooked and tastefully served at any hour of the day or night, and, above all, the charges are extraordinarily low. Fares, too, are very low, so that traveling is an easy and a cheap matter."

Medical Science Advances.

It is not more than half a century ago that surgeons considered a surgical operation, with its risk, expense and pain, as the only cure for piles. To-day it is only the out of date doctors that think of such treatment. It is cruel and extravagant to operate for a disease which is far more certainly cured by the application of Dr. Chase's Ointment. You may be skeptical but for proof you are referred to tens of thousands of cases that have been cured by this famous preparation.

Cool.

It was in a western hotel. A bellboy was sent to Colonel William Greene Sterett's room to ascertain what urgent need had impelled that gentleman to push the button. He entered and found the colonel deeply immersed in a friendly game with some chosen spirits.

"Did you ring, sah?" he deferentially inquired.

"Yes," said Colonel Sterett, deftly hurling two unpromising pasteboards into the discard. "We want you to bring us some whisky. My friends here will take Scotch, and mine is rye."

"Yes, sah," said the boy, turning to go.

"And after you have brought us the whisky," continued Colonel Sterett, arresting his flight, "turn in a fire alarm. Some one in the next room has set the place afire."

A Way of Cooking Rodents.

The negro slaves of Jamaica used to regard rats as a dainty, their masters not providing them with any other meat. Their method of cooking the toothsome rodents was to impale each one on a long wooden skewer after cleaning the animal and cutting off the tail, turning it briskly around over a fire until the hair was all burned off. Then it was scraped until free from fur, and finally the end of the skewer was stuck into the ground, inclined toward the fire, until it was toasted dry and crisp, thus being made ready for the meal.

SAVE YOUR EYES.

If your eyesight is good, take care of it. Look away off yonder every time you get to the bottom of a page in reading. If it is defective, let no foolish pride prevent you from wearing the proper glasses.

There is no sense in handicapping yourself in life when a piece of glass before each eye will make your vision as good as it possibly can be. The oculist will not advise you to wear glasses if you do not need them any more than he will prescribe a drug you do not need.

Plenty of people, though, do not know that they have defective sight because they have never really seen at all. They have headaches, inflamed eyes, sties, even much graver troubles, from the strain of trying to see with eyes that were put up wrong. There are cases where homicidal insanity has been completely cured when impaired vision has been corrected.—Harvey Sutherland in Ainslee's Magazine.

A Scriptural Mule.

"I'll be ready for you in a minute," said the old colored farmer to the sheriff; "des es soon es I feeds Solomon."

"Who's Solomon?"

"He's my mule, sub. Dat what he name is."

"Why did you give him that name?"

"Kase he de wises' mule in de county, suh, en he t'inks dat fast travelin' is all wanity en vexation er sperrit, thus fulfillin' de book er Proverbs!"

Stops the Cough and Works off the Cold.
Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25c. m-w-f

The Rosemary at a Wedding.

In the island of Crete, it is said, a bride dressed for the wedding still calls, last of all, for a sprig of rosemary to bring her luck. Thus we come to find rosemary in close association with both marriage and death, just as the hyacinth was, and perhaps still is, among the Greeks. It is interesting to trace the connection by which the same plant came to have two such different uses.—All the Year Round.

The Color of the Eye.

The color of the iris is not uniform in any eye. Some eyes have spots, others stripes, still others blotches of white, green, blue, yellow and black, and the eye takes its color from the predominance of one hue. An eye that is considered gray will often be composed of black and yellow. An eye that is thought to be brown will be very dark red, with spots of yellow or blue.

It Would Be Suicide.

Mr. Frank—No, I won't take that horrible stuff.

Mrs. Frank—But the doctor ordered it.

Mr. Frank—I don't care. Why, that stuff would kill a mule.

Mrs. Frank—If you really think so, John don't take it

Desperate Resolution.

Rivers (exhibiting it)—This is a necktie my wife gave me.

Brooks—What are you going to do with it?

Rivers (heroically putting it on)—I am going to try to live it down.—Chicago Tribune.

CURES PILES IN 5 DAYS

Dr. Agnew's Ointment might have a thousand testifying to its merits as an absolute cure for Piles only, but it cures permanently all manner of skin diseases too.

Adam Brydon, of Deleware Ave., Chatham, Ont., is a well known man in the west, and what he says of Dr. Agnew's Ointment can easily be verified. "I was troubled for a long time with piles. On the recommendation of our leading druggist I tried a box of this remarkable ointment, and after applying for four or five nights, it completely cured me of this troublesome ailment, and I heartily recommend it to all like sufferers." 35 cts. 79

WANTS A TITLE.

Editor Smiff of the Bobcaygeon Independent has a Suggestion.

Editor Smiff of the Bobcaygeon Independent, in an article dealing with the probable withdrawal of Major-General O'Haley-Grady from the command of the Canadian Militia does not take kindly to the idea of having an Imperial officer appointed as his successor, as has been the custom in such appointments. He concludes his criticism in the following sarcastic strain:—"We have lords for Governors, and lords for commanders, and with our 'flannelled fools at the wicket and muddled oafs at the goal' this great homespun country can smirk and smile and throw on a heap of style and side. Imperialism for ever! Down with democracy! The great need of Canada is more aristocracy—more titles. How would it do to have Adolphe Smiff created Earl Nogey, Duke of Bobcaygeon and Marquis of East Harvey. Gee whiz! Wouldn't it be great. Think it over. It would not be a blank bit more ridiculous than any other titles in existence and he certainly would have the advantage over the great bulk of titled noodles that when not too intemperately sober, he could distinguish his elbow from a hole in the ground, and at least have sufficient nouce to come inside when it rained.

DOMINION PERMANENT REPORT

The Years' Business was of a Most Satisfactory Nature.

The report of the eleventh annual meeting of the Dominion Permanent Loan Company, which appeared in yesterday's issue cannot fail to be gratifying to the shareholders, exhibiting as it does, a considerable extension in the company's business, and a continued good rate of profits earned.

The profits for the year, after payment of expenses, amount to $107,780,-02, which, with the balance brought forward, make the total profits for division $109,250.59. This enabled the directors, after paying interest on debentures and deposits, besides writing ten per cent. off office furniture, to transfer $9,000 to the reserve and contingent funds, besides payment of the usual dividend of 6 per cent., and to carry forward a balance for further distribution of $19,090.75, a most satisfactory condition of affairs.

The assets at the beginning of the year were $1,681,537.68, while on December 31st last they had increased to $2,013,213.63, an increase for the year of $331,675.95.

The report was unanimously adopted, and the retiring directors re-elected. At a subsequent meeting of the board the Hon. Mr. Stratton was re-elected President, and Mr. T. P. Coffee Vice-President.

WOMEN MAY VOTE.

The Result of a Debate at George Street League Monday Night.

The regular weekly meeting of the George street Epworth League was held Monday night. The proceedings took the form of a debate on the rather vital question, "Resolved that Canada would be benefitted by the bestowal on women of the franchise and representation in parliament.

The Literary Committee of the League have arranged a number of very successful programmes in the past, but it is questionable if they have ever before placed at the pleasure of the members and their friends a more interesting and profitable evening than that of last night. In view of the previous announcement as to who the speakers would be, those present anticipated a literary treat and they were nnot disappointed. The of the affirmative was championed by Mrs. Kendry and S. R. Armstrong whilst Mrs. J. W. Garvin and Mr. J. Jeffries were the speakers for the negative. The judges were Messrs. E. A. Dixon, J. S. Knapman, and F. C. Frances who gave the decision to the affirmative. The debate was interesting in the extreme and many excellent ideas were advanced. The other item on the programme was a vocal duet by the Misses Gray.

Ruby Lips and a Clear Skin.

are guaranteed to any woman who takes Merrill's System Tonic. This marvellous medicine is especially adapted for women, because it supplies iron for the blood, cures constipation, strengthens the nerves and by its blood purifying and muscle-toning properties, quickly cures all female ills. 50 pleasant-to-take doses for 50 cents. Sold by Ormond & Walsh.

PETERBOROUGH PRESBYTERY

Met on Monday Night in St. Andrew's Church-The Business.

The Presbytery of Peterborough met last Monday night in St. Andrew's church vestry at 7.30. Rev. A. G. Sinclair, of Port Hope, presided. After opening exercises the appointment of a new moderator rested upon the Rev. Jas. G. Potter, of Peterborough, who expressed his appreciation of the honour.

The convenor of the Home Mission Committee read a most interesting report showing the great progress that is being made in the various Missions of the Presbytery. The report was adopted and the convenor thanked for his diligence.

Adjournment was then made to the church where a large audience had assembled for the Presbytery Conference. The Rev. Dr. R. P. Mackay, on the "Outlook of Foreign Missions," and the Rev. J. M. McDonald, of the Westminster, on the "Problem in Home Missions," gave most inspiring and instructive addresses, which were greatly enjoyed by all present. The Presbytery then adjourned to meet at 9 o'clock on Tuesday morning.

The Rev. J. G. Potter, on behalf of Cordova church, was made the recipient of a very handsome pulpit chair for Cordova Miners' Church, from Mr. and Mrs. W. J. Maxwell, of Port Hope. The gift has been acknowleged by the Presbytery and will be appreciated by the Cordovans.

THE ARMY IN SOUTH AFRICA.

Trodinnick, Dulo, Cornwall.

Gentlemen:—

While stationed at Orange River Station, I was suffering from a very bad throat, and unable to take any solid food for about three days. On retiring to rest at night I used to put my socks around my neck in order to obtain relief. It suddenly dawned upon me that I had in my haversack a small pot of Kelpion, and this I took out and saw on the label "Swollen glands." I applied the ointment immediately, rubbing it well in for about 20 minutes. I then retired to rest and was able to get up next morning and do full justice to a good breakfast. The lightning results were beyond my comprehension.

We offer the following fresh arrivals, which are all extra choice: Large Florida pineapples, ripe bananas, new cauliflowers, crisp, white celery, new rhubarb, radish, lettuce, onions, parsley, etc. S. A. Oke, No. 376 George street. Telephone 18.

Mummies.

In estimating the value of a mummy its medicinal qualities are no longer appraised, and thus the problem is easier of solution. Its value must have been greater when it formed a regular part of the materia medica. Until pretty late in the eighteenth century mummies entered into a great variety of drugs, balms and other medicaments.

As the genuine mummy was then expensive, recipes were given by many ancient writers for converting human flesh into mummy. Usually certain portions of the body were used, and these were beaten, dried, macerated and spiced out of all likeness to their natural condition; hence "beaten to a mummy."

Numerous allusions are made to the practice in ancient literature, and in an old play, "Bird In a Cage," are the directions, "Make mummy of my flesh and sell me to the apothecaries."

Bologna's Leaning Tower.

Bologna has two great square towers, the Asinelli, which is 315 feet high and was erected in 1109, and its rival, the Garisenda, which was built one year later and was originally much higher and is rendered peculiar by its decided inclination to one side. It is now only 153 feet high, the width of one side is 23 feet, the walls at the base are 6 feet 6 inches thick, while higher up they are 4 feet 9 inches. Its origin is somewhat obscure, but it was certainly intended to outdo the Asinelli, and both were for retreat in troublous times. Some say the original intention was to make it lean, but others contend that either the ground has settled or there was a defect in the engineering. This unique relic was so little thought of by one of its later possessors that it was sold in 1266 for 220 lire, something less than $44.

A Jury Experience.

A man who had been summoned to serve on a jury in the New York city supreme court the other day was asked if he had ever served on a jury before. In a deep, rich brogue he replied:

"Indade Oi hove. 'Twas on a coroner's jury down beyant south Jersey. What looked like the remains of a corpse had been washed ashore furninst a shipwreck.

"We sat in hated deliberation on what might be the cause of death for twelve mortal hours, vhin we called in an ixpert, who informed us that the remains had been dead 4,000 years an' was nothin' more'n a haythen Egyptian mummy.

"But that was not all, for the county refused to pay our fees on some technicility of the law. Indade Oi hove served on a jury!" He was excused.

On the Trail of Fame.

"And now that you are through college, what are you going to do?" asked a friend of the youthful candidate.

"I shall study medicine," was the grave reply of the young man.

"But isn't that profession already overcrowded?" asked the friend.

"Possibly it is," answered the knowing youth, "but I propose to study medicine just the same, and those who are already in the profession will have to take their chances."

Diphtheria and scarlet fever cannot spread where Vapo-Cresolene is used. All Druggists.

Against the Referendum.

Winnipeg, Man., March 12.—W. R. Mulock, acting as counsel for the Dominion Alliance, has prepared a brief to place before the Minister of Justice at Ottawa, in which the legal reasons are fully set forth why the referendum bill is unconstitutional and should be disallowed. The brief was completed yesterday afternoon, and was forwarded to Ottawa last night.

Shutting Out Canadians.

Detroit, March 12.—A few days ago a Windsor painter was sent back to Canada by the immigration authorities at the Woodward avenue ferry dock. A similar incident occurred Saturday, when a carpenter, Eli Mennie of Walkerville, was returned by the authorities for coming over the border to work for the Northern Shipbuilding Company.

Dr. Harbottle's Release Refused.

Ottawa, March 12.—The Government, on the recommendation of the Minister of Justice, has decided not to accede to the prayer of the petitions which have recently been presented asking for the release of Dr. Harbottle of Burford, who was sentenced to twelve months' imprisonment for shooting a farmer named Stewart.

May Be a Strike.

St. Thomas, March 12.—A largely attended meeting of the employes of the M.C.R. shops was held last night. The meeting considered the proposed introduction of the piecework system into the shops. The employes decided not to accede to the proposal, and to strike if an attempt is made to force the system upon them.

DOLLAR SAVING

Carpet Sale!

Rushing Out the Remnants and Odd Lengths.

FRIDAY and SATURDAY will add another link to our chain of unparalleled merchandizing events. It will be Carpets this time—and although this sale may forestall our regular opening of New Spring Novelties, it will afford a substantial saving in dollars to carpet buyers.

This sale wouldn't happen just now were it not that our Carpet Department is so jammed with New Spring Importations that room must be provided for showing them.

CARPET SALE COMMENCES FRIDAY MORNING, prompt at 8 o'clock, and will continue until Saturday night. Here is a list showing a comparison of what they were and what they will be sold for:—

ENDS OF ALL WOOL AND REVERSIBLE UNION CARPETS

A PROVINCE SHOCKED

Mrs. Ross, Wife of the Premier, Died Very Suddenly.

THE SORROW IS UNIVERSAL

Tributes to the Deceased in the Legislature by the Attorney-General and Mr. Whitney—The House Adjourns to Express Sympathy—Proceedings in the Assembly During the Afternoon.

Toronto, March 13.—Mrs. Geo. W. Ross, wife of the Premier, died yesterday morning at 4.30 o'clock.

Death came very unexpectedly. Mrs. Ross was apparently in her usual health until within twenty-four hours of the end. The cause of death was acute uremia. Tuesday afternoon she became ill, and Dr. R. A. Stevenson, the family physician, was called in, and he subsequently summoned Drs. W. P. Caven and Burritt in consultation.

Mrs. Rose drove to church on Sunday with the Premier, and on Monday morning went down town. This was the last she was out of the house, but there was no anxiety concerning her condition until Tuesday afternoon.

Physician's Statement.

The following statement was issued yesterday by Dr. Stevenson: "Mrs. Ross, wife of the Premier, the Hon. Geo. W. Ross, died suddenly at 4.30 o'clock this morning. The cause of death was acute uremia. She appeared to be in good health until within 24 hours of her decease. Dr. Stevenson, the family physician, was in attendance on Tuesday afternoon, and subsequently Dr. W. P. Caven and Dr. Burritt were called."

Mrs. Ross' maiden name was Miss Catherine Boston. She was of Scotch descent, her people coming to Canada in the early forties. She was born in the Township of Lobo, Middlesex, fifty-six years ago, and had been married to Hon. Geo. W. Ross about twenty-five years. A number of her brothers and sisters are still living. Robert Boston, ex-M.P., Governor of the London jail; Graham Boston of Winnipeg; Thomas of Iowa; Andrew of Sault Ste. Marie; Mrs. Arthur Scott and Miss Boston of Lobo.

Devoted to Her Husband.

Mrs. Ross was known personally to almost every member of the House. During the session she entertained on a generous scale at her home, and everyone who came in contact with her carried away the kindliest feelings towards her. She was always cheerful, and had a bright smile for everyone. She was a frequent visitor to the Legislature, and occupied a seat on the floor of the House or in the Speaker's Gallery whenever debates of any importance were proceeding. She was, in fact, nearly always with the Premier. Her devotion to him was frequently remarked while she was alive, and to-day it is on every member's lips. In recent years she had accompanied him on nearly every railway trip he has made. His career was the pride of her heart. And in helping to give that career its brightness she assisted in countless ways. Those intimate with the Premier say that she has been a tower of strength to him. She took a lively interest in every public question. Everything that interested her husband interested her. It is doubtful if Canadian history holds a parallel of a public man and his wife in such constant and complete sympathy with each other.

Great Place in Home.

How great a place she filled in the home was realized by everyone who has watched Mr. Ross and his popular helpmeet. This was shown at the official welcome given to Hon. and Mrs. Ross at Niagara Falls on September 21st last on their return from England. The address contained the following tributes to Mrs. Ross: "We desire Mrs. Ross to share in our felicitations. She does not escape notice from Liberals, who know well the help she gives you ungrudgingly, and in so wifely a spirit, and we hope you may both be long spared to your country and your party."

To this address of welcome Hon. Mr. Ross said: "I thank you for the kind reference to Mrs. Ross. She is a tower of strength to the Ontario Government. (Cheers.) She is a shadow of a great rock to a weary land. I was almost going to say she was a pool of Siloam, where you can get healing for some of your troubles. I thank you for your kind references to her. The part which a good woman can play in the Government of the country cannot very easily be expressed. (Applause.) You seem to know it, and I am sure she knows it and feels it, too."

Hon. Mr. Gibson's Grief.

The Legislature met at 11 o'clock yesterday morning, with nearly all the members in their places. It immediately adjourned on the motion of Attorney-General Gibson and Mr. Whitney, both of whom made brief speeches. Mr. Gibson displayed deep emotion, and his voice quavered, so that he almost broke down while he spoke a few sentences. He said:

"Since the adjournment of this House last night death has invaded the home of the leader of the House and deprived him of his lifelong companion, his wife. I do not think that this House would be satisfied to proceed with the ordinary business before the House without marking in some emphatic way the sympathy which I am sure is felt by us all for the leader and his family in the sudden and trying bereavement. Her presence was familiar to the members of the House, almost as well known by us as the Premier himself. She not only had in the highest degree the respect and admiration of this House, but was greatly liked by us all. I am unequal to the task of saying more, and I simply move, that as a mark of respect for the Premier and his family under these trying circumstances, the House adjourn forthwith until three o'clock this afternoon."

Mr. Whitney's Tribute.

Hon. J. P. Whitney, leader of the Opposition, seconded this motion. He, as well as every member on that side of the House, he said, was ready to accede to the suggestion that the House should adjourn until the afternoon. The profound sympathy of the House went out to the Premier on account of this sudden calamity, and they in the House desired to assure him, that in every corner of the province sympathy was felt for him and his family in this the hour of his bereavement.

Mr. Whitney concluded by adding: "I think it is eminently proper and fit that we should adjourn at this the first opportunity after the news of the sad calamity, because, in addition to the reasons I have feebly endeavored to protray, I think if we were to sit down to our ordinary work it would perhaps remind us too forcibly what shadows we are and what shadows we pursue. And, therefore, I simply repeat that we offer our warm and heartfelt sympathy to the leader of the House, to the first citizen of this province at the present day, and to his afflicted family."

Mr. Speaker then put the question, and it was carried amid a dead silence. The members of the House remained standing while the Speaker left the chair. Evidences of strong emotion were displayed in many quarters.

The Funeral.

The funeral will take place from the family residence, 1 Elmsley Place, on Friday afternoon at 2 o'clock, to Mount Pleasant Cemetery, and will be private.

Messages of Regret.

Many telegrams of regret have been received by Mr. Ross in his bereavement, among the first being one from Sir Wilfrid Laurier, and one from Mr. Calvert, the chief Liberal whip of the House of Commons.

Sir William Meredith—I have just learned of the great sorrow that has come to you and yours with such awful suddenness, and hasten to express my deepest sympathy with you and them, a sympathy which will go out from the hearts of all your fellow-countrymen, without distinction of class, creed or political faith.

The chief Liberal Whip on behalf of the Ministerial members telegraphed as follows to Premier Ross: "The Liberal members of the Commons deeply sympathize with you in your great sorrow, and unite in deploring the loss of one whose devotion to her husband and family were so manifest to all." (Signed) W. S. Calvert.

At the convention of the Order of Canadian Home Circles, which was brought to a close last evening, on motion of M. G. Keating of St. Catharines, a resolution of condolence with Hon. G. W. Ross in his bereavement, was carried.

We announce a full assortment of the new and natty Suits to be worn for Spring and Summer 1902.

It has been conceded in the past that in Sutcliffe's Suit was entailed all the newest and best ideas as well as the proper fit. You'll find it the same this season. They're ready to inspect. An introduction to these Suits would be appreciated by us.

Daily Examiner.

London (England) office—149 Fleet street, E. C., Central Press Agency Limited, Special Agents.

THURSDAY, MARCH 13, 1902.

THE LATE MRS. ROSS.

Universal sympathy will go out to Hon. G. W. Ross, the honoured Premier of the Province, in the crushing affliction he has sustained by the sudden death of his wife. Such a bereavement is at any time inexpressibly severe, but in his case it is exceptionally heavy. The conjugal relations of Mr. and Mrs. Ross were uncommonly intimate; she was indeed to him a "help-mate," who stood by him and assisted him in ways known only to a wife, with unusual social charm and tactful sympathy. In his long and strenuous public career she has been to him, as he himself expressed it, a "tower of strength," and her solicitude for his personal comfort, as well as for his public and political success, possessed such qualities of intelligent sympathy and loyalty that her removal means the removal of a support that will be missed to a degree beyond the power of words to express. Mingling freely in the circle in which the Premier moved, Mrs Ross won the devoted respect and esteem of the whole House, irrespective of party affiliations, and in social circles, where she occupied a prominent and honoured place, and in the places where the unobtrusive but abundant charities, to which she found time to give her hand, found expression, her death creates a vacancy which cannot be again so well filled. The Examiner ventures to extend to Hon. Mr. Ross and his family its most cordial sympathy and condolence.

MAKING A PARTY FOOTBALL OF THE QUESTION.

Our evening contemporary, the Review, seems to be haunted with the idea of making all the political capital possible out of the prohibition and temperance question; and it hypocritically pretends to be anxious to know where Hon. Mr. Stratton stands. Through the Examiner the exact position occupied by Mr. Stratton has been defined—his position is that of the government of which he is a member, which has passed a prohibitory act up to the limit of the powers of the province and has provided for an opportunity of its being endorsed by the popular will. There is therefore no doubt of where Mr. Stratton stands. Will the Review now tell where it stands on the question? It has not done so except inferentientially in endorsing the position of Mr. Whitney, who has declared positively against prohibition and in favour of relegating the licensing system to the unspeakable evil of municipal control. The Government has aimed especially to prevent the prohibition question being mixed up with party politics, but the Review and its friends seem determined to drag it through the mire of party complications.

If Dr. Ford, who, the Review thinks should be trusted, no matter what contradictory stand he takes, can bring himself to adopt the platform of his leader, who declares prohibition to be an impracticable dream, he places himself in the position of putting his party first and his temperance principles in the background.

The Review's slanderous insinuations in reference to the license law are as ill-timed as they are unjust. That law is in the hands of the people, who are to be afforded an opportunity of declaring whether they prefer a prohibitory measure, such as the province can give, or a license act, under whose administration there has been such marked improvement in the drinking habits of the people; such great decrease in the facilities for procuring drink; such great diminution in misdemeanours and crime due to drink and such general increase of provincial sobriety.

The wise way is to keep a question that is not a party question out of the arena of party politics. Any newspaper or person or combination of persons seeking to do otherwise has sinister designs which will stand careful watching.

THE NORWOOD BUDGET.

What is Going on in the Village to the East.

Mr. Fred Cameran, of Peterborough, was in town on Saturday on business.

Miss Flora Lawrence, of Winnipeg, Man., and Mr. John Hart, of Peterborough, were the guests of Mr. and Mrs. Geo. Niebel on Thursday and Friday of last week.

Miss Lettie Blezard is spending a few days in town the guest of Mrs. W. A. Eaton.

Mr. Howard Taylor, of Peterborough, spent a couple of days with his parents last week.

Mr. Arthur Vanvalkenburg, of Havelock, was in town last week looking up friends.

Mr. Ira Moore, an old high school boy, came down from Peterborough on Friday last to attend the annual "At Home" in the High School.

The Misses Taylor, of Keene, spent Sunday in town visiting friends.

Mrs. Bert Cress is spending a few days with her parents, Mr. and Mrs. Jas. Harper.

Miss Maggie McGuire was in town last week attending the High School "At Home."

The Rev. Mr. Macknight, of Peterborough, again occupied the pulpit of the Presbyterian church on Sunday, and delivered two very instructive addresses. In the morning he took as his subject "The Training of Children," and earnestly urged parents to give more attention to the home training of their children "That they might be as beautiful plants in the garden of the Lord, and polished corner stones in the palace of the King." In the evening he based his remarks on III. John, i, 3.

The anniversary services of the Presbyterian church will be held next Sunday, when the Rev. Mr. Bruce, assistant of Dr. McTavish, of Central Presbyterian church, Toronto, will officiate.

Mr. John Kirby, formerly of Norwood, but now of Toronto, is in town this week calling on friends.

Mr. D. O'Shea is busy moving his household goods to Peterborough where he intends to reside for the next three years.

Miss S. Paget left to-day for Kansas where she intends to reside.

Mr. Thos. Rork, of Peterborough, was in town on Friday last attending the funeral of the late Walter Scott.

The annual High School "At Home" which was held in the High School on Friday evening last, was the most successful that has yet been held. The students were out in full force, accompanied by many friends and all were out for a good time. Many students returned to town to be present, and they were certainly well repaid. The first part of the evening was spent in social intercourse. About 9 o'clock order was called and a short, but pleasing programme rendered. Refreshments followed this and the remainder of the evening was spent in promenading in which all heartily joined. The affair was a complete success, the proceeds amounting to $48.50.

Hockey! Hockey! What's the matter with the Peterborough Hockey Club? It's all right. Oh yes! You bet. Shake, Peterborough.

The Board of Education met on the 10th of March, pursuant to notice. Present, W. E. Rexburg, chairman; Messrs. P. W. Reynolds, P. W. Stevenson, R. W. Waters, Jas. Pengelly, Jas. Cumming, John Brackenridge, J. Squire and John McNaughton. The minutes of last meeting were read and confirmed. The following report was submitted to the Board by the treasurer: Pupils on on the High School Roll, 78; receipts from fees for term, $182.00; County grant to Model School, $150.00; County share for maintenance of school for 1901, $892.54. The following accounts were presented: F. J. Willoughby, wood, $27.50; C. J. Russaw, wood, $32.75; F. Long, wood, $24.00; A. Davidson, work on High School, $11.50; J. G. Keefer, account, $4.00. Moved by Messrs. Squire and McNaughton, that the above accounts be left in the hands of the Supply Committee and if correct be paid.—Carried. Board then adjourned.

TOO GREAT EXPENSE

Not the Reason.

It is not because Pyramid Pile Cure is so expensive that many people decline to give it a trial, but because they find it too great a tax on their credulity to believe that the published letters bearing testimony to the merit of this remedy are genuine and bona fide; especially to those who have realized the suffering incident to piles is it incredible that anyone who has been afflicted twenty-five and thirty years with the worst forms of protruding and bleeding piles should be cured by the application of a simple remedy, when their physician has assured them that the only relief is in a surgical operation. This is rightfully viewed with dread by all those afflicted, as it means at the least a great shock to the nervous system, with more than a possibility of utter collapse and death; in the majority of cases, too, there is a return of the complaint, owing to the fact that the cause is not removed.

The proprietors of Pyramid Pile Cure agree to forfeit one thousand dollars to anyone who will show a single published testimonial to be not genuine and unsolicited; this latter feature is most gratifying, inasmuch as these letters are written solely out of gratitude, and with the hope that those who are afflicted as the writers have been may learn that relief is at hand, at a comparatively trifling expense. Pyramid Pile Cure is for sale by druggists at fifty cents a package, or will be mailed by the makers to any address upon receipt of price.

Mr. Wm. Lichtenwalter, head of the largest printing house in Canton, Ohio, says: "It is with the utmost pleasure and satisfaction that I can say I believe I am cured of protruding and bleeding piles, after suffering more than twenty-five years. I have been in bed for two weeks at a time. I have not suffered in the least for over a year, and I used only three fifty-cent boxes of Pyramid Pile Cure. I advise every person suffering with this distressing and painful complaint to give this remedy a trial. I have every confidence in it." Write the Pyramid Drug Co., Marshall, Mich., for their book on the causes and cure of piles.

To cure a cold in a night—use Vapo-Cresolene. It has been used extensively during more than twenty-four years. All Druggists.

THEIR GOLDEN WEDDING.

Mr. and Mrs. Samuel Staples of Cavan Have Been Married 50 Years —The Celebration.

On the evening of March 5th a very pleasing event took place at "Elm Grove," the commodious home of Mr. and Mrs. Samuel Staples of Cavan Township, the occasion being the celebration of their golden wedding. Their children and grandchildren and other friends to the number of forty or more assembled to convey congratulations to them on the attainment of the jubilee of their married life, and a most enjoyable evening was spent by all present. At the close of a sumptuous supper Mr. Henry Staples, councillor for Cavan Township, and eldest surviving son of the honoured couple, on behalf of their sons and daughters, read the following address and presented Mr. and Mrs. Staples with a purse of gold:

Dear and Honoured Parents, — We have met to-night to celebrate an event interesting to us, and we trust also to you—the fiftieth anniversary of your wedding day. As members of your family we desire to offer our congratulations to you and our sincere gratitude to God that His Providence has spared you through a long and prosperous life to see this day. You have reached a spot in life's journey attained by few, the golden milestone of a Christian journey. Especially we wish to thank you for the example you have set before us for upright living, and that through the dangers and temptations of childhood you have guided us with loving hands, and we have enjoyed the blessings of a Christian home. If we have been kept from evil courses we owe it in a large mesure under God's blessing to the Christian training and example of those early days. In your relation to the church and society you have nobly and cheerfully borne your part. Your home has been one of hospitality, and in these things also you have set us an example, which we well may follow. We thank you for your patience and forbearance and for all the sacrifices you have made for us in the years that are past, and we pray that your lives may be long spared to us as a light and joy. Please accept this small token of our love and esteem and may we meet as an unbroken family in the "House Beyond the Tide."

Though visibly affected Mr. Staples made a most felicitous reply after which congratulatory speeches were made by Rev. Jos. Kitgour, of Peterborough, Rev. H. V. Mounteer, pastor of the family and Mr. W. H. Lowes, who was best man at the wedding 50 years ago. A pleasing feature of the occasion was the administration of the ordinance of Christian baptism to three infant granddaughters of the honoured couple, the eldest of whom was but seven months of age. Mr. and Mrs. Staples, who have been life long Methodists, are in the enjoyment the best of health, and being surrounded with every comfort they bid fair to realize the wish of their hosts of friends, that they may be spared for many years to enjoy the blessings which a kind Providence has given them and to serve the church and the community.

The entire family was represented with the exception of Miss Florence L. Purser and Miss Elsie Staples.

NORTH MONAGHAN.

(From Our Own Correspondent.)

The Council met in the Town Hall on Monday, March 10th, 1902, at the hour of 1.30 p.m. All the members were present, the Reeve, Mr. T. E. Bradburn, presiding.

The minutes of the last meeting were read and confirmed.

The following communications were read,—

From the Good Roads Machinery Co'y, of Hamilton; from the London Guarantee and Accident Co.; from the Secretary of the Eastern Good Roads Association, re the meetings to be held in Ottawa on March 13th and 14th; from the Township Treasurer, stating the cash balance in the Ontario Bank to the credit of the Township was $400.79. These communications were received.

Accounts were received from—W. J. Kennedy, repairs to grader, $1.50; S. McCabe, goods for Mrs. Close, $1.00; Mills & Good, wood for Mrs. Close, $4.00; The Municipal World, dog tags, etc., $6.25; R. Sanderson, wood and sundries for the Town Hall, $5.05; F. Moncrief, sundries for grader, 75c; D. Trew, ditching at Springville, $3.50.

The Auditor's report for the year ending Dec. 31st, 1901, was then read. The abstract statement of Receipts and Expenditures attached to this was as follows,—

Receipts.

To Cash from Collector's Roll	$4045.99

Total	$4946.58
Cash Balance in Bank,	$1846.91.

It was moved by Messrs. Madill and Smith that owing to the disappearannce of Order No. 7, of 1901, that an order be re-issued for the sum of $3.50 in favour of J. Fowler, on payment of the account, and the Treasurer is hereby instructed to cancel the original order.—Carried.

Moved by Messrs. Smith and Dobbin that the accounts as read be passed and paid.—Carried.

Moved by Messrs. May and Smith that the Auditor's Report be received and adopted, and that the same be published according to law, and that an order be issued for the sum of $5.00 each in favour of W. G. Yelland and J. R. Bell as salary.—Carried.

Moved by Messrs. Madill and May that the whole council meet at the wash-out on the 10th concession line, near Riverdale on Thursday next at 10 o'clock a.m., for the purpose of making some arrangement to repair the break in the road.—Carried.

A proposition was made to alter Road Divisions Nos. 1 and 4, so that the gravel road would all be placed in Road Division No. 1. This was referred to the Clerk, to report on the amount of Commutation tax that such alteration would deduct from Road Division No. 4—.

The Reeve, Mr. Bradburn, reported having attended the session of the County Council and having succeeded in getting a grant of $100.00 towards repairing Lockie's bridge. The Committee that awaited upon the County Council in regard to cattle guards reported the willingness of that body to memorialize the Government, asking for the erection of more suitable guards at the highway crossings.

The Clerk was instructed to prepare By-laws for the appointing of a Collector, Road Commissioner, Fence Viewer and Pound Keeper for consideration at the next meeting.

A PERSONAL INVITATION

...BY...

H. LeBrun & Co

You are cordially invited to the City Clothing Store to inspect the splendid display of New Spring Clothing and Furnishings just opened up.

EASTER IS NOT FAR OFF

and calls upon you to think quickly about your Spring attire. Our high-class, correct and reliable Clothing and Furnishings will do all the talking necessary to convince you that it is to your interest to select from us.

Come and pass judgment on our correct Spring Styles—the largest as well as the best value in town.

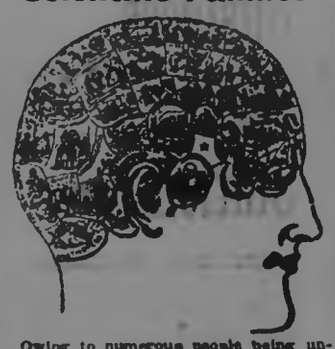
RETURN VISIT
—OF—
Professor O'Brien
Canada's Greatest Phrenologist and the only recognized
Scientific Palmist.



Owing to numerous people being unable to consult Prof. O'Brien during his first visit in Peterborough, a few weeks ago, he has been prevailed upon to pay the town a return visit on his way east, and can now be consulted at his former private office, 343 Hunter street Terrace, from 10 a.m. to 10 p.m. As Professor O'Brien will only remain in town for a very short season, people wishing to consult him should call at once, as this is their last chance. A photo read free to patrons.

Prof. O'Brien has just concluded two most successful seasons in Lindsay and Cannington, and is urgently requested to pay both towns a return visit at an early date. dtf

A PROVINCE SHOCKED

(Continued From 1st Page.)

ture and signing all bills passed during the season.

Hon. Mr. Latchford introduced a bill respecting aid to certain railways.

The following bills were read a third time:

To amend the Jurors' Act, Mr. Gibson; to amend the Joint Stock Companies Winding-Up Act, Mr. Gibson; to confer certain powers on the trustees of the will of the late John Bacon, Mr. Pyne; to incorporate the Petrolia Rapid Railway Co., Mr. Pardee; respecting the Hamilton, Ancaster and Brantford Railway Co., Mr. Dickenson; to provide for the removal of obstacles in rivers and streams; the Temiskaming and Northern Railway Act, Mr. Latchford.

Railway Aid Resolutions.

Hon. F. Latchford moved the House into Committee on Resolutions, respecting aid to railways, which in addition to the subsidies previously mentioned, embraced the following.

To the Lindsay, Bobcaygeon Pontypool Railway from the village of Bobcaygeon to the Town of Lindsay, a distance not exceeding 19 miles a cash subsidy of $3,000 a mile, $57,000.

To the Bruce Mines and Algoma Railway from a point at or near Bruce Mines to a point on the North Shore of Lake Huron a distance not exceeding four miles a cash subsidy of $3,000 a mile, $12,000.

To the Nepigon Railway Company from a point at or near Nepigon Station to a point at or near the head of Long Portage, a distance not exceeding fourteen miles a cash subsidy of $3,000 a mile, $42,000

To the Lake Superior, Long Lake and Albany River Railway from a point at or near Peninsula Harbor northerly a distance not exceeding ten miles, a cash subsidy of $3,000 a mile, $30,000.

He gave details respecting the railways to be aided and urged that they were all projects which were entitled to assistance from the public treasury. Mr. Matheson objected to the grant to the Irondale, Bancroft and Ottawa Railway Co., contending that another route was better entitled to support. The resolutions were reported.

Election Act Amendment

The House went into committee on the bill to amend the Election Act. Some discussion took place in regard to the form of oath to be required of electors. Messrs. Matheson and Wardell contended that an oath to the effect that he had not been bribed should be required of every voter. The Attorney-General held that the oath should only be administered in the case of suspected persons. Mr. Barr said that there were a large class of voters who belonged to the floating population and were not permanent residents of the place where they were entered on the lists. They belonged to the working class, which was the class most liable to be bribed, and therefore the oath should be administered to every class. Mr. Carscallen said that so far as Hamilton was concerned those who registered were a reputable class. He believed in manhood suffrage and would not throw any obstacles in the way of young men registering. Hon. R. Harcourt said the arguments of the Opposition showed a want of faith in the masses of the people who were the "floating population!' so sneeringly referred to, but railway employes and men in similar positions who were likely to have to follow their employment from one place to another. The number of people who were open to the imputation of receiving a bribe was small in most constituencies. Why impute dishonesty to every man who came to be registered? Mr. McLaughlin said that it was such men as Mr. Vance who would offer money for votes, who rendered such precautions necessary. Mr. Harcourt asked Mr. McLaughlin whether he was prepared to state on his own responsibility that Mr. Vance had bribed anyone to vote. Mr. Latchford never heard of any one being paid to register as a voter. The bill was reported without amendment.

The Prohibition Bill.

The House went into committee on the Liquor Bill. The date of the referendum election was fixed for December 4th.

Mr. Marter moved an amendment to the effect that the vote under the referendum should be taken on the day of the municipal elections. Mr. Foy was opposed to the vote being held on any day. The amendment was defeated.

Mr. Marter moved another amendment that the vote should be taken on the day of the general election, which was also lost on division.

On the clause respecting the appointment of scrutineers by the returning officer, Mr. Marter and Mr. Lucas contended that it afforded no sufficient security against the appointment of scrutineers ostensibly in favor of prohibition who were really against it. Hon. J. M. Gibson said the returning officer had the responsibility of appointing those who were bona fide agents of the side which they professed to represent. The clause was adopted.

Mr. Marter moved four amendments to the clause fixing the basis of the referendum. The first provided that the act should be adopted by a simple majority; the second that the majority required should be 55 per cent., the same being not less than the half number on the voters' list; the third that it should be 60 per cent, the same being not less than half the number on the voters' list, and the fourth that the total vote should be 60 per cent. of the total number on the voters' list of which at least 55 per cent. should be cast in the affirmative. These amendments were put successively, and each declared lost. The bill was then reported.

After Recess.

The following bills were reported from committee: To incorporate the Huron, Bruce & Grey Electric Railway Co., Mr. Farwell; to incorporate the Northern Power Co., Mr. Conmee, to incorporate the Huron & Bruce Railway, Mr. Farwell; to incorporate the Canada Central Railway Co., Mr. Conmee; respecting the City of Toronto, Mr. Foy; to authorize the Royal Trust Co. to do business in Ontario, Mr. Pardee.

Mr. Whitney asked a series of questions respecting the conviction of Ransom Norton of London for making alterations in a poll book at the municipal election and why he had not been removed to the Central Prison. Mr. Stratton explained that he had been detained in London pending an investigation, in which it was supposed he would be wanted to give evidence, but would be transferred to the Central Prison.

Attorney-General Gibson, in answer to Mr. Crawford, said that he was not aware that any special directions had been given to the Assessment Commission to report upon an equitable basis for the assessment of departmental stores. He believed, however, that the question had been considered by them.

Mr. Carscallen's resolution to amend the rules of the House so as to provide for continuous sittings from one until seven o'clock, was considered. The Attorney-General said it might very well form a matter for consideration at the beginning of a future session, but urged that owing to the lateness of the present session it could not now be taken up. It was accordingly withdrawn.

Manners of the Innocents.

The order paper was rapidly cleared, a number of measures being summarily disposed of. The following were lost on division: To amend the Drainage Act, Mr. Auld; to reduce the expenses of the administration of justice, Mr. Hoyle; to amend the Municipal Act, Mr. Brower; to amend the Ontario Election Act, Mr. Macdiarmid; to amend the Election Law, Mr. Thompson.

The following were withdrawn by their promoters: To amend the Game Protection Act, Mr. Auld; to amend the County Councils Act, Mr. Smith; to amend the act respecting the Devolution of Estates, Mr. Lucas; respecting civil engineers, Mr. Gross.

Mr. Jamieson moved the second reading of the bill respecting the representation of the people in the Logislative Assembly, reducing the number of representatives. Mr. Harcourt strongly opposed the bill. He did not consider the basis of representation, 20,000, unreasonable, but in any case he did not think that a question of such importance should be considered in the closing session of a parliament. It required thorough and prolonged discussion through the country and in the press. He urged that with the development of New Ontario the province was likely to demand an increased rather than a diminished number of representatives. Mr. Whitney criticized the re-adjustment of representation in the New Ontario constituencies. The bill was lost on division.

The Municipal Amendment Act, embodying all the recommendations of the Assessment Commission, came up for its second reading, and provoked a long discussion. A clause was added, providing that a fine of $50 be inflicted on those found guilty of "repeating" votes in municipal elections.

The bill was reported from committee.

The House adjourned at 11.50 o'clock p.m.

A WARNING TO BACKACHE SUFFERERS.

Backache may strike you at any time. Comes when you least expect it. Comes as a warning from the kidneys.

A sudden twitch, a sudden pain. The Kidneys cause it all.

If you don't heed the warning, serious Kidney Troubles are sure to follow.

Cure your Backache by taking

DOAN'S KIDNEY PILLS.

There is not a Kidney Trouble from Backache to Bright's Disease that Doan's Kidney Pills will not relieve promptly and cure more quickly than any other kidney remedy.

IN THE AIR.

The Germs of La Grippe are Conveyed Through the Atmosphere.

No one can escape the la grippe germ because when an epidemic of the disease is prevailing the air is laden with it.

The reason that everyone does not have the disease at the same time is because the persons who are enjoying perfect health are able to successfully resist and throw off the infection, while those, who for any reason are not in the best of health, fall ready victims.

The first symptoms are those of acute catarrh resembling a hard cold and if prompt treatment is applied at this time, it can easily be broken up; one of the best remedies at this stage is Stuart's Catarrh Tablets, sold by druggists everywhere and if taken freely, say one tablet every hour or two for two or three days, the danger of pneumonia and serious complications will be averted.

The Rev. L. E. Palmer, Baptist clergyman of Ceresco, Mich., makes a statement of interest to all catarrh and grip sufferers. He says: "Stuart's Catarrh Tablets have certainly been a blessing to me. I have used them freely this fall and winter and have found them a safeguard against la grippe and catarrhal troubles from which I have suffered for years. I feel that I can freely and conscientiously recommend them."

Persons who suffer from catarrh of the head and throat are very susceptible to la grippe and such will find a pleasant, convenient and safe remedy in this new catarrh cure.

Stuart's Catarrh Tablets are composed entirely of harmless antiseptics and may be used as freely as necessary as they contain no cocaine, opiate or poisonous drug of any kind.

Catarrhal Poisons and Their Remedy

The poisonous secretions from catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that anyone giving it a trial is sure to receive permanent benefit. Sold for $1. Small size, 25 cents. Druggists, or Polson & Co., Kingston, Ont.

Ottawa, March 13.—At a meeting of the Parliamentary Press Gallery last evening a resolution of sympathy with Premier Ross, on the death of Mrs. Ross, was passed, and telegraphed to Mr. Ross.

UNIFORMITY OF LAWS

Dr. Russell's Motion in Dominion House of Commons.

KEPT MEMBERS INTERESTED

By His Erudition and Mastery of His Subject, Dr. Russell Gained the Attention of the House on a Question Ordinarily Classed as Academic —A Supreme Court Amendment.

Ottawa, March 13.—Dr. Russell yesterday moved in the House his resolution favoring uniformity of the law of civil rights and property in all the Provinces of Canada except Quebec, where the civil code is in force. Dr. Russell spoke with a degree of erudition and a mastery of his subject that kept the House deeply interested in a subject which would ordinarily be considered by the members purely academic. The debate on the motion was continued until the order expired at 6 o'clock, the other speakers being the Minister of Justice, the Solicitor-General, Mr. Flint, Mr. Haggart, Mr. Maclean and Mr Demers.

Supreme Court Amendment.

Mr. Demers introduced a bill in amendment of the Supreme and Exchequer Courts Act. He explained in French that its object is to make the Supreme Court a purely Federal court, having jurisdiction in matters civil and criminal, in all matters relating to the constitution, the laws of Canada, admiralty and marine law, in cases to which the Government of Canada is a party, or between two provinces, or between a province and a citizen of another province, between citizens of different provinces, and similar cases.

Mr. Scott introduced a bill to amend the Railway Act.

In reply to Mr. Sproule the Premier stated that no communication from the Imperial Government with reference to the 3 per cent. commission, said to be granted to certain Australian colonies on outlay in connection with expenditure for the war in South Africa, had been received.

In answer to Col. Hughes' question he repeated the statement, and said that no charge had been made for commission, that purchases were usually made by the heads of departments without any commission.

There was but a brief sitting after dinner. Two private bills were read a third time and passed, respecting the Edmonton and Slave Lake Railway and respecting the Oxford Mountain Railway. The House then adjourned.

ASTONISHING PROGRESS

Medical Science has Advanced by Leaps and Bounds.

Now an Absolute Cure for Rheumatism has Been Discovered—It is no Experiment, Having Been Successfully Proven in Many of the Very Worst and Apparently Helpless Cases.

Sundridge, Ont., March 12th.—(Special.)—Physicians and other who study the treatment and cure of disease have been greatly interested in the case of Mr. Wm. Doeg, a farmer living in Strong Township about four miles from here.

Mr. Doeg had rheumatism so bad as to be a cripple for years and was completely cured by Dodd's Kidney Pills.

In order to verify the report he was visited at his home and the following signed statement of the facts secured:—

"For four years I suffered excruciating torture. I was scarcely an hour free from pain. The trouble commenced in my back where it often remained stationary for months, and so intense was the pain that I could not lie down or take rest, but had to sit night and day in a chair.

"The pain would then move to other parts of my body and when in my knees I was unable to walk and confined constantly to my room.

"I was treated by several doctors and also tried many medicines without receiving any benefit. Almost in despair I feared I would never again experience the pleasure of being free from pain.

"My attention was at last directed to some remarkable cures of rheumatism by Dodd's Kidney Pills. I bought a box and began to use them. I soon found that they were helping me a little and so I continued the treatment.

"In a few weeks I was well and able to go about my work which I had not been able to do for over four years.

"This was years ago and I have not since had the slightest return of the trouble. I have worked on the farm steadily eversince and have always felt strong and well.

"I know that Dodd's Kidney Pills saved my life and restored me to health and strength.

"I believe they will cure any case of rheumatism, for I never knew as bad a case as my own and they cured me."

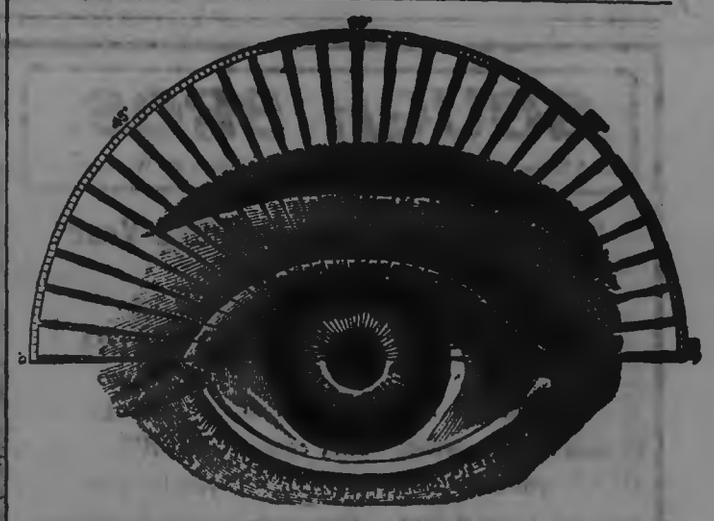
A Dangerous Tree.

Brown—Are you interested in genealogy? Ever looked up your ancestral tree?

Black—Never did. Fact is I'd be afraid there might be a man hanging from one of its branches.—Boston Transcript.

Strong Enough for Cancers.

Cancers are caused by poisonous humors in the blood. The only non-surgical treatment known is Marrill's System Tonic. This is a powerful blood purifier and at the same time blood builder. It cures Scrofula, Eczema and Salt Rheum in thirty days and boils and pimples in a week. 50 doses, price 50c. Sold by Ormond & Walsh, druggists.



THE GLARE OF THE SUN AND SNOW
is a painful strain on the eyes, and particularly hard on the muscles and sensitive nerves. By the use of properly fitted Spectacles or Coloured Glasses your sight can be protected and comfort assured. No charge for testing your eyes.

Daily Examiner.

THURSDAY, MARCH 13, 1902

NEWS NUGGETS.

—The town crossings are in bad shape and should be swept. In their present condition they are a disgrace to a village.

—The town creek is beginning to feel the result of the spring thaw. Dynamite was being used at the Park street bridge to-day.

—At the service in All Saints' to-night Rev. W. L. Armitage will speak on "The Humanity of Jesus" as found in St. Luke's gospel.

—Labour men should not fail to hear Buchanan in the Opera House to-night. He was the chief speaker who helped to elect Puttee in Winnipeg.

—Chief Rossel this morning received from Chief Nevison, of Lindsay, a communication asking if anything had been seen in Peterborough of Patrick Donohue, who is missing from Lindsay since March 3rd.

PERSONALS.

Miss Josephine Delaire, London street, left this morning for Rochester, N.Y., to spend a few months with relatives.

Nothing succeeds like success. That is why Whiten, the photographer, is kept so busy. He makes only the best quality of photos. Studio—158 Hunter street, west.

BEEF, LAMB, PORK, SAUSAGES, etc., the best in town. **KENNEDY'S MEAT MARKET, 'Phone 275.**

Is Your Piano in Tune?

The change of season affects pianos as well as everything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with twenty-eight years' experience, attends to all orders left at Mr. B. S. Macdonald's drug store.

Easter Cards and Novelties.

We invite an early inspection of our new and beautiful designs in Easter cards and other novelties, at the Peterborough Bookstore. See the pretty new booklets and unique egg designs in boxes. A. H. Stratton & Co.

Will Wait on the Council.

On April 7th a deputation will wait on the council for the purpose of representing the need of making a grant towards a fund to be raised for the purpose of defraying the expenses of indigent patients from Peterborough to the Gravenhurst sanitarium. The cost of maintaining a patient at the hospital is only about 40 cents a day and the G.T.R. offers free transportation from Toronto.

ACT AFFECTING THE TOWN

In Connection Granting Additional Land in Case New Armouries are Erected.

Some years ago the Ontario Legislature, by an Act, 42 Victoria, Chapter 67, granted what is known as the Central Park to the Town and County of Peterborough. The Act is as follows:

1. "The following lands and premises that is to say lots Nos. one, two and three, south of McDonel street and west of George street, and lots Nos. one, two and three north of Murray street and west of George street, in the Town of Peterborough, in the County of Peterborough, except that part thereof conveyed to the Government for the purpose of erecting thereon a drill shed, are hereby vested in the Corporation of the Town of Peterborough and the Corporation of the County of Peterborough, and their successors, jointly to hold the same upon trust for the purpose of a public park or square, for the use of the inhabitants of the said Town of Peterborough; provided, however, that nothing herein contained shall in any way interfere with the lease of the said lands now held by the Agricultural Society of the West Riding of the County of Peterborough."

2. "The said park or square shall be maintained by, and shall be under the control of, the Council of the said Town of Peterborough, who may make all necessary regulations from time to time, for the proper management and government of the same."

The town consequently has possession of the property in trust for the public, but the town of itself would have no power to convey any portion of the land without the consent of the county.

Recently application has been made to the Dominion Government for the erection of new armouries in Peterborough and the present site of the drill shed would not be sufficient for the purposes of the Government. The Hon. Mr. Stratton has had an amendment made to the law this session which passed the committee yesterday, giving the County Council and the Town Council the right to deed to the Crown any portion of Central Park that they may desire for the purposes of the erection of armouries. Should the Dominion Government desire to make an appropriation, this will prevent any delay, inasmuch as the Town Council and the County Council could at any time after the Act has been confirmed, deal with the matter.

A Lady who has won Prizes for her Work Writes About

Diamond Dye Mat and Rug Patterns.

A lady residing in a progressive Ontario town, and who has been a user of Diamond Dyes for over twenty years, says;

"I learned the art of making mats and rugs years ago. In many cases I was obliged to work up patterns that were but imperfectly traced by hand or stamped by the old fashioned methods. Since you have given to the public your beautiful and valuable Diamond Dye Mat and Rug Patterns, I have no trouble in making up easy or complicated designs, as your patterns are richly coloured and give a harmonious combination that no other patterns can afford. I made up several of your Diamond Dye Mat and Rug Patterns that have taken prizes at Fairs and Exhibitions. Every lady who can make a rug should see your patterns."

Complete range of designs sent free by mail to any lady who sends her address to the Wells & Richardson Co., Limited, 200 Mountain street, Montreal, P.Q.

Saturday Sale of White Underskirts at Cammell's.

This sensational sale is for Saturday only. Every buyer will save exactly half a dollar on each Skirt. Look at the chance—

80 Fine White Underskirts, made of heavy English cotton, with clusters of five tucks, 12 inch frill of embroidery, and dust flounce, worth $1.25, for only SEVENTY-FIVE CENTS EACH.

HONOURING THE HOCKEY BOYS

Banquet Tendered by Hon. J. R. Stratton at the Oriental on Tuesday Night Next.

Many persons, who do not take the trouble to reflect, are apt to attach little importance to the success of a local sporting organization. And though such a game as hockey or lacrosse does not possess much intrinsic importance in the eyes of those whose youthful agility has given place to joints touched with suggestive rheumatic twinges, yet the success in the field of sports of a local team over the best organizations of a province, has an important practical bearing in advertising the town and bringing its name into prominance, that will in due time bear fruit.

Another thing in connection with such victories is the evidence it gives of our local loyalty—loyalty to ourselves and our town. It is an axiomatic fact that if we would gain the respect of others we must respect ourselves. The demonstration given on Tuesday night by the town was not only a deserving tribute to the plucky septette which won the intermediate trophy, but was further evidence to the world that we honour our own and stand together in what affects the credit of the town. The inference is therefore plain that if we stand together in one thing, we will do so in matters that more directly affect our material interests. Reasoning on this line, manufacturers and others who know of our unsurpassed manufacturing facilities, will conclude that if Peterborough stands by its own so loyally, they can count upon a cordial welcome, and solid support if they identify themselves with the material activities of the town.

While the welcome home on Tuesday night was timely and enthusiastic, it was in one sense an anticipation of a little tribute to the boys designed by Hon. Mr. Stratton, who had arranged a little dinner in honour of the boys at the National Club in Toronto, on their way home from the capture at Galt, but the late arrival of the train prevented the boys from taking advantage of the repast provided.

However, Mr. Stratton is giving the boys and their friends a banquet at the Oriental Hotel on Tuesday evening next. Mr. H. R. H. Kenner, president of the Hockey Club, with his well known interest in manly sports, has kindly consented to act as secretary, and has undertaken to make the arrangements for the dinner, and the issuing of the invitations to some of the friends and supporters of the club on the evening named.

NO VACANT HOUSES.

The Assessors of Ashburnham Report a Very Prosperous State of Affairs.

The assessors of Ashburnham have just completed their rounds, and they have a very encouraging state of affairs to report. The assessors find that at the present time there is not a vacant house in the village. This seems rather incredible, but it is nevertheless a fact, and indicates that there has been a steady advancement in the commercial and industrial condition of the town. Quite a number of new families have moved into Ashburnham during the past few months from outside of town.

Fresh caught White Fish, Trout and Pike. Maple Syrup 30c. quart. Dried Peaches 10c. pound. R. A. DUTTON, 418 George street. 'Phone 304.

THE RELEASE OF GENERAL METHUEN

He is Expected to Arrive in Klerksdorp To-day.

HIS CONDITION FAVOURABLE.

An Exchange for Commandant Kritzinger was Never Contemplated—The Latter's Trial Postponed.

(Special to the Examiner.)

London, March 13th. — The War Secretary, Mr. Broderick, announced in the House to-day that he understood that General Methuen, who was captured, severely wounded, by Gen. Delarey, on March 10th, had been released and was expected to arrive at Klerksdorp, south-western Transvaal, to-day. The General's condition was favourable. Mr. Broderick added that the exchange of General Methuen for Commandant Kritzinger had not been contemplated. The trial of the Commandant had been postponed because consideration of the evidence to be heard had not been completed.

RALLY TO-NIGHT.

The Oddfellows of the District Will Have a Large Gathering.

Mr. J. B. King, of Toronto, Grand Secretary of the Independent Order of Oddfellows, is expected to be present at the grand rally of Oddfellows in Peterborough to-night.

Candidates for all the degrees are expected from Havelock, Pontypool, Millbrook, etc. As invitations have been sent through the lodges to all Oddfellows in Peterborough and the surrounding district, it is expected that there will be a very large turnout.

Otonabee Lodge will put on the Initiatary Degree at half-past seven sharp, and all members of the team are asked to be on hand promptly. This will be followed by the Degree of Friendship by Peterborough Lodge, the Degree of Love by Otonabee Lodge, and the Degree of Truth by the Peterborough Lodge. Then the Oriental Degree will be given to those who wish to receive it, and refreshments, speech and song will complete the programme of what will no doubt be a pleasant and profitable evening.

BAND CONCERT.

OPERA HOUSE

Friday next, March 14th.

Admission to all parts of the hall, 10c. Children half price. Specialties — Mr. Halpany, 6 up-to-date Comic Songs. Mr. Hughes, Cornet Solo. Dancing —Highland Fling, etc.

TRADES AND LABOUR COUNCIL.

Peterborough Typographical Union No. 248, Appointed Three Delegates.

At a largely attended meeting of Peterborough Typographical Union, No. 248, last evening, the question of forming a Trades and Labour Council was discussed, and three delegates were appointed to confer with the other trade unions in town with a view of forming a Council in Peterborough. Mr. Hugh Stevenson, the organizer for the International Typographical Union, was present.

The Day's Success Depends Upon Your Morning Meal.

All dietetic and medical experience clearly proves that the morning meal should consist of food that is easily digested and readily absorbed by the system.

Malt Breakfast Food rich in nutriment and favouring digestion stands far above all other breakfast cereals as a health food. Its pre-eminent qualities are the result of the action of the Malt on the starch and lutem of the Wheat, rendering these soluble and changing them into forms to be quickly absorbed by the stomach, then passing into the blood to enrich it and build up the nerves, the tissues of the body and the brain.

As the success and pleasure of each day depend largely on the food used at breakfast you should avoid starchy grain foods. Malt Breakfast Food alone can supply the fuel for a hard day's work in home, office or workshop. Your Grocer sells Malt Breakfast Food, and recommends it.

"NOTHING TOO GOOD FOR THE IRISH"

PORT HOPE KNITTING WORKS

SEPARATE SCHOOL BOARD.

The Postponed Meeting Held Last Evening—Accounts Passed.

The regular meeting of the Separate School Board was held last evening, there being present Messrs. Murty, (chairman,) Henry, Clancy, Hickey, Goselin and O'Connell.

The minutes of the last meeting were read and confirmed.

Communications were read from Mr A. H. Hardy, asking to be appointed examiner at the entrance examinations.—Received.

From Mr. J. E. McConnell, making the same request.—Received.

Mr. Wm. Pringle of the Peterborough Business College, wrote offering three prizes of $3, $2 and $1, for the three best specimens of writing at the next entrance examinations from the pupils of the town schools.

On motion of Mr. Clancy, seconded by Mr. Hickey the offer of Mr. Pringle was accepted with thanks.

Reports of attendance at the schools for the month of February were received:

	On Roll.	Avg.
Lake street	178	138
Murray street	192	165
Convent	224	175
	594	478

Supplies and repairs required were referred to the Property Committee.

Accounts paid since last meeting on order of the Property Committee were:

Mrs. Borette	$ 8 75
John Crowley	20 00
Wm. Curtin	27 00
C. A. Duranceau	99 30

On motion of Mr. Hickey, seconded by Mr. Clancy, the payments were confirmed:

The following accounts were presented:

L. B. Primeau	$20 25
J. Halpin	1 25
W. Dennis	75
R. Johnston	2 55
J. E. A. Fitzgerald	8 50
Jas. Lynch	2 78

The accounts were received and referred to the Finance Committee.

Moved by Mr. Clancy, seconded by Mr. Hickey, that Mr. J. E. McConnell, of Lindsay, be appointed examiner at the entrance examinations in June next.—Carried.

Moved by Mr. Clancy, seconded by Mr. O'Connell, that the School Management Committee have a supply of the printed monthly reports furnished for the use of the schools as may be necessary.—Carried.

The estimates for the current year were presented and after some discussion it was moved by Mr. O'Connell, seconded by Mr. Henry. That the Town Treasurer be requested to provide the Board with $4,400, to be levied on the Separate School ratepayers.—Carried.

The Board then adjourned.

What Causes Pain?

Most pains and aches come from excess of uric acid poisons in the blood, due to deranged kidneys, rheumatism, backache, lumbago, pains in the sides limbs, accompanied by bladder and urinary troubles, are warnings too serious and painful to be neglected. Dr. Chase's Kidney and Liver Pills act directly and specifically on the Kidneys, make them active, vigorous, and thoroughly cure these ailments. One 25c box of this great Kidney medicine will do you a world of good.

IN LATEST SPORTING CIRCLES.

Peterborough Hockeyists Receive Hearty Congratulations

Lacrosse Enthusiasts Will Endeavour to Place a Good Team in the Field This Summer.

HOCKEY.

Ever since the Peterborough hockey team arrived home from Galt they have been the recipients of many congratulations from town's people and from admirers of good, clean hockey. Captain Glover has during the past few days received letters of congratulations from Belleville, Lindsay, Bracebridge, Perth, Fenelon Falls, Toronto, Beaverton, Bobcaygeon and Preston.

The following is a sample or two of the kind of telegrams the local club has been in receipt of:

Fenelon Falls, March 11.

To the Peterborough Hockey Club, Peterborough, Ont.:

The Trent Valley League winners congratulate you on winning the Intermediate O.H.A. championship, and would like to arrange friendly home and home games with you if ice holds.

M. H. McCALLUM,
President Fenelon Falls Hockey Club

Newmarket, March 11.

To the Peterborough Hockey Club, Peterborough, Ont.:

Newmarket team congratulates Peterborough on winning championship.

C. P. R. CLARK,
Secretary.

Mr. Peter McMillan, president of the Lacrosse Association send his heartiest congratulations. Treasurer W. A. Buchanan, of the O.H.A., is proud of his old team. Fenelon Falls, in sending congratulations, suggests as they are champions of the Trent Valley Hockey League, and Peterborough, the Intermediate champions of the O.H.A., that the two teams play home and home games. Mr. T. Barrie on learning of the team winning the championship, immediately wrote a congratulatory letter to each member, and also apprising them of the fact that there was a championship hat at his store for each. Mr. H. E. Bradley has donated for each of the boys championship ties. From all sides are heard words of appreciation for the honour the boys have brought the town. Who would not be a member of a championship team if they only could.

The point player of the Preston team writes that he saw the game and was delighted with the style of hockey that Peterborough put up.

Miss Pearl Lundy, who was a prominent member of the local girls' hockey club, is at present captain of the Havergal Ladies College seven. The Havergal girls have an excellent record this season, not having met with a single defeat.

The Port Hope Guide says:—"Take off your hats to Peterborough. With a lead of one goal and a regular "Ontario" determination to do or die they travelled to Galt yesterday, and last night landed the intermediate championship of the O.H.A. by the smallest possible margin secured on their own ice—or rather water. Peterborough we're more than proud of you. True, we felt a little shaky when a lead of only one goal was announced from your own ice last week, but then we remembered that your victories at home were always duplicated on the enemy's ice and our spirits revived a little. As well as being a credit to your own city, your triumph is something over which this district may well be elated. It goes to prove that the hockey played in group No. 2 is about the "best what is" in the intermediate series, and probably the three best teams in the series are located right here in Peterborough, Port Hope and Lindsay. The latter is the only team to defeat this year's champions, and that was done after extra time. The "Ontario's defeated Lindsay twice and after all is said and done Peterborough will probably admit that their hardest fight was to become leaders of the district. They will likely tell you that the most stubborn battle of all was the memorable game in Cobourg when they lowered the colours of our "Ontario's" by the score of 4—3. Once more, here's to you, Peterborough."

The Belleville Intelligencer says:—"Hurrah! for the Peterboroughs. They brought the intermediate championship to the district. We are told that four of the team which beat Galt played in the game at Peterborough when the Belleville Juniors were beaten 7—6. It is doubtful if intermediate hockey was much faster than the junior article in the O. H. A. this season.

The Toronto Star says: — "The members of the Peterborough ladies' hockey team are evidently expert players. A casual glance at the score is sufficient to show that one of the forwards at least is a Lulu."

The Port Hope Guide says:—"The Cobourg ladies' hockey team took dinner at the Hotel St. Lawrence today. They are a bright lot of young ladies, and do not seem to be discouraged by their defeat. Score at Peterborough last night was 1—9 in favour of the Electric Town."

Dr. Scott, vice-president, represented the club at the banquet at Galt responding to the toast of the officers and team.

The Galt Reporter makes the following references to the game in that town:

We are not hard losers in this town but when we get so close it is equal to the tortures of Tantalus to have the trophy snatched away almost the very moment we felt our hands on it. It is still harder to lose when there is an element of doubt as to whether or not we actually did lose. The whole business hinges on a decision of Schooley's. It was near the close. The puck came in from the left. Whether the man on centre was offside or was foully checked, or whether Schooley rang the bell by accident will perhaps never be known by anyone except Mr. Roy D. Schooley, barrister-at-law, Osgoode Hall, Toronto.

Schooley says he did not ring the bell, which is so clumsy a statement as to lead one to advise him to never more trifle with referee's whistles or bells, but to go away back to his law books. It is as positive a fact that the bell rang as that the game was played.

Aside from that there are many Galt people who think that the best team won the round and while The Reporter is not prepared to make that statement, it must be conceded that the better organized team of the two won the round. Peterborough has the best balance and plays better team work than any other septette that has appeared here since the Wellingtons. There is, however, nothing brilliant about the forward line. None of the four are superior to Taylor and Munn of Paris. But there are no ups and downs in the quartette.

It is in the defence that the visitors showed their only brilliancy. H. Armstrong played the best cover point game in Galt this winter and is considerably the best intermediate hockeyist that has adorned the ice this season. He is simply a marvel. His stick handling was very neat and his individual work effective. He seemed always to land the puck in the proper place. He is not as effective a check as Twaits, but he plays a very heady game, moving about on the defence, always ready to act on an instinctive knowledge, which he seems to possess, of where the opposing forwards are going to break through.

The Reporter congratulates the winning team on the splendid exhibition of hockey they gave, and the fact that in two games not one of their men were ruled off should be a sufficient criterion of the sportsmanlike manner in which they play.

Y.M.C.A. ATHLETICS.

At a meeting of the Physical Committee held last evening it was decided to hold two separate organization meetings for outdoor sports, which will be under the direct supervision of the Physical Committee. On Tuesday next those interested in lacrosse and wishing to play and learn Canada's national game, under Y.M.C.A. colours, are asked to attend in large numbers. There is a probability that several association games with Toronto Central and other associations will be held. The organization of the Tennis Club will be held on the following Thursday and there is every indication that tennis will be well patronized. Two additional grass courts will likely be added. Members are asked to remember these organization meetings.

ROUTLEY'S PETERBOROUGH and TORONTO STORES. Phone 203.

What is it?

Vapo-Cresolene is the vapor of Cresolene. You put the Cresolene in the vaporizer, then light the lamp just beneath. When the vapor rises, you inhale it. What is Vapo-Cresolene? It's something like carbolic acid, only much more powerful. It kills all germs of disease and heals inflamed membranes. It's the perfect cure for whooping-cough. Nothing equals it for asthma, catarrh, hay fever, colds. s

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE CO., 180 Fulton St., New York, U.S.A.

Recommended and sold in Peterborough by H. H. Edmison, druggist.

SWEFT OFF IN FLOOD

Mr. William Douglas, Miller, Drowned at Port Hope.

DISASTER ON THE MISSISSIPPI

The Steamer Providence Overturned in a Sudden Squall—Twenty-One Lives Were Lost. As Most of the Crew and Passengers Were Asleep at the Time—Only Nine Saved.

Port Hope, March 13.—A very sad accident happened yesterday afternoon, by which William Douglas, miller, at the Harold Barrett Company's mills, lost his life. Shortly before 5 o'clock, owing to the great quantity of water coming down the creek, it was found necessary to take up some of the logs at the dam, and while engaged in pulling up one of the logs, one end suddenly slipped out, causing the other end to swing round, striking Mr. Douglas on the legs, knocking him into the water. The current drew him beneath and carried him away. He was for an instant seen before going under the bridge at Walton street, and unless the body has stopped at Helmes' dam, has likely been carried out into the lake. The deceased has been an employe of the Barrett mills for 37 years, and was 64 years of age. He leaves a widow, two sons and two daughters.

OVERTURNED BY A SQUALL.

A Mississippi Steamer Upset and Twenty-One Persons Drowned.

Vicksburg, Miss., March 13. — The steamer Providence, plying between this port and Lake Palmyra, was overturned at 2 o'clock yesterday morning by a sudden squall at Ione Landing, and 21 of her passengers and crew were drowned.

The dead: Captain William Cassidy of Vicksburg, master; Charles Roup of Vicksburg, chief engineer; Clyde Scott, Vicksburg, cotton seed buyer; Dr. N. A. Lancaster, a prominent physician and planter of the Palmyra neighborhood; seventeen colored roustabouts and deckhands, whose names have not been reported.

The boat left here at noon Tuesday on her regular trip, carrying a large miscellaneous cargo of freight and a number of passengers. At 2 o'clock in the morning, just as the steamer was entering Lake Palmyra, a sudden wind and rainstorm of cyclonic proportions came out of the west, catching the Providence broadside on. The little vessel was lifted almost entirely out of the water, her upper works blown away, and the hull turned bottom up in 40 feet of water. Most of the crew and passengers were asleep at the time, and were drowned. Only nine of the entire boat's company were saved. The property loss will amount to several thousand dollars.

Messrs. Cassidy, Scott, Roup and Lancaster were all married men and have large families. A steamer started for the scene at once, and will attempt to recover all the bodies.

Drowned at Newmarket.

Newmarket, Ont., March 13.—About 4 o'clock yesterday afternoon the 7-year-old son of Mr. A. J. Crippen fell into the river, and was drowned. Parties immediately commenced dragging for the body, but up to a late hour last night it had not been found.

Drowned in Molasses.

London, March 13. — A night watchman named Thaia at the Hammersmith distillery, Fulham Palace Road, was on Sunday morning discovered dead in a vat containing many thousand gallons of molasses. A verdict of found drowned was returned.

Struck by a Pile.

St. John, N.B., March 13.—Richard Ward, a native of Antigonish, was killed at St. Martin's yesterday. He was one of the crew of the schooner Abena, and was struck by a piece of piling.

PRO-BOER ATTACK IS FEARED.

Captain of a British Mule Transport Asks For Protection.

New Orleans, La., March 13.—The officers of the British mule transports here are alarmed at the attitude of the Boer agents and sympathizers. The captain of the British transport Montreal, which is loading with mules at Chalmette, waited upon Sheriff Nunez of St. Bernard yesterday and stated that he had reason to believe that his vessel would be subject to an attack similar to that on the Mechanican, against which a dynamite torpedo was floated, and asked for protection. Deputy sheriffs were detailed to protect the Montreal against Boer attacks.

Two Prominent Boers Killed.

Cape Town, March 12.—During a skirmish near Pearston, Cape Colony, March 10, between some British troops and Commandant Fouche's force of Boers, Commandant Ovendaal and Field Cornet Vander Vall were killed.

Municipal Telephones.

Detroit, Mich., March 13. — The Common Council has granted the Co-operative Telephone Company, recently organized here, in opposition to the Bell Company, a franchise to do business, establishing the maximum annual rate of $24 for residence and $48 for business 'phones.

New Candidate, New Constituency.

Rat Portage, March 13.—A Conservative mass meeting Tuesday night unanimously endorced the candidature of Dr. Smillie of Fort William for the new district of Fort William and Lake of the Woods.

Mr. Lott in North Hastings.

Madoc, March 13.—The Liberals of North Hastings nominated Lyron O. Lott for the coming local elections yesterday.

Infants too young to take medicine may be cured of croup, whooping cough and colds by using Vapo-Cresolene—they breathe it.

GET YOUR SHARE.

Blackmen, whitemen, redmen, yellowmen,—all are busy eating away at the world's food supply—every day—three times a day.

Every one is entitled to a share. Are you getting yours? Does it do you good?

If not, take Scott's Emulsion. It is a concentrated, predigested food—much nourishment in small space—and all usable by the weakest system.

It restores the flesh of young and old.

Send for Free Sample.
SCOTT & BOWNE, Chemists, Toronto.

EXPENSIVE REFUSAL.

An Interesting Case Arising Out of the Census.

Montreal, March 13.—A case of much importance and interest to the general public was commenced before Judge Choquet, yesterday. The Canada Thread Company, 295 Visitation street, is charged by the Dominion Government with refusing to answer the questions put by the census enumerators. The act is laid under the Census Act, and the Department of Justice recently decided that an incorporated company can be held responsible, as a company, where the officers decline to give the required information. The decision in this case will be watched with a good deal of interest by merchants, companies and others, who have refused to answer the questions. It is claimed by the defence in the case that is being heard, that there are people who are desirous of getting business information which could be used in competition. The minimum fine is one dollar and the maximum forty dollars. In case of conviction, the defendants can be fined every day of refusal after the judge has given his decision.

Bisley Team Commandant.

Ottawa, March 13.—Lieut.-Col. Burland, formerly of the 6th Fusiliers, Montreal, has been appointed commandant of the Bisley Team, with Major Sutherland, 43rd Regiment, Ottawa, as adjutant.

Coming to Canada.

London, March 13.—The Canadian emigration season opens to-day, the Parisian leaving Liverpool with a full complement. The Sardinian, leaving Glasgow on March 25, has already 200 emigrants booked. The Government personally conducted parties will leave by each succeeding steamer.' At the Government office here 8,000 Canadian emigrant inquiries have been received this year, compared with less than half that number last year.

Doctors Said Incurable.

Excruciating Pains in the Back and Loins—A Plaster Cast Necessary for Temporary Relief—How a Cure was Found in

DR. CHASE'S KIDNEY-LIVER PILLS.

We leave Mr. Demers to describe his own case as he wrote it in a letter to us. Few human beings are ever called upon to suffer as he did from kidney disease. You cannot wonder at it that he is now enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills. They have given him a new lease of life.

Mr. S. O. Demers, Conception Station, Labelle County, Que., writes;—"I am writing you in order that others who suffer as I did may profit by my experience. For three years I was obliged to give up all work on account of severe pains in my loins, back and sides. I has dbecome so stiff in my body that I could not lean over without suffering the most excruciating pains.

"I consulted several doctors and specialists but all of them pronounced me incurable and could not even give me relief. One of them encased me in plaster in order to support the body, for I suffered dreadfully, but this only gave me temporary relief, and I thought myself condemned to die without being able to find a cure.

"About this time I received one of Dr. Chase's books and found my case described exactly. The sample of Dr. Chase's Kidney-Liver Pills which came with this book gave me marked relief, so I bought some more and continued the treatment. Gradually the sharp pains in my back and sides grew less severe, and my bowels became regular and active—constipation had been one of my worst symptoms.

"I had also suffered from indigestion and gas on the stomach, pains between the shoulders, in the back, loins and side, frequent desire to urinate and pain in making water, stiffness of the body and all the accompanying derangements of the liver and kidneys.

"Since using Dr. Chase's Kidney-Liver Pills these ailments have become less and less until now they have entirely disappeared. I have great confidence in Dr. Chase's Kidney-Liver Pills, and they have done so much for me that I cannot say enough in their favour. The people in this county are surprised to see me so well again and no wonder, for my cure has been almost miraculous."

Dr. Chase's Kidney-Liver Pills; one pill a dose; 25 cents a box, at all dealers, or at Edmanson, Bates & Co., Toronto. 5-6

MARKET REPORTS.

Don't Help Being Cranks.

It's the effect of dyspepsia on the nerves that makes the afflicted one morose and cranky. They can't help that though until they take Merrill's System Tonic, the only positive cure, (not relief) for dyspepsia known. It cures by acting on the liver, nerves and bowels. Pleasant to take, and three weeks' treatment for 50 cents. Sold at Ormond & Walsh's pharmacy.

Switzerland's Schools.

The schools of Switzerland are famous, but so much time is demanded in them for mental efforts that a feeling has become prevalent that the physique of the scholars suffers.

A native of Basel, Switzerland, has donated to the local university 300,000 francs for the founding of chairs of critical theology, philosophy and biology, which are to be free from all interference by church or state.

Inches in a Bushel.

In a bushel measure there are 2,548 cubic inches.

A MINISTER'S DUTY

A Glowing Tribute to the Sterling Worth of Dr. Agnew's Catarrhal Powder.

"When I know anything worthy of recommendation I consider it my duty to tell it" says Rev. James Murdock, of Hamburg, Pa. "Dr. Agnew's Catarrhal Powder has cured me of catarrh of five years' standing. It is certainly magical in its effect. The first application benefited me in five minutes. It

Shoe Style.

When you wear a "King Quality" shoe you get all the style, the fit and finish found in the best American shoes.

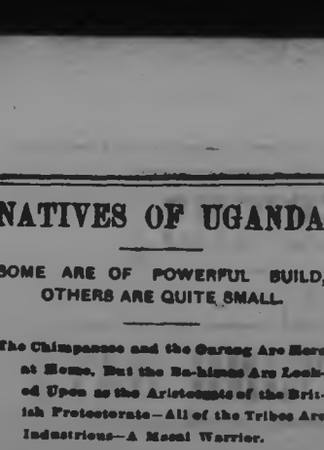
NATIVES OF UGANDA

SOME ARE OF POWERFUL BUILD, OTHERS ARE QUITE SMALL.

The Chimpanzee and the Gurang Are Here at Home, But the Ba-himas Are Looked Upon as the Aristocrats of the British Protectorate—All of the Tribes Are Industrious—A Masai Warrior.

The attention of the public being turned, at this time, with so much interest toward the British Protectorate of Uganda, in Africa, the question naturally arising as to its resources for sustaining life of settlers when they first arrive in the country should receive some attention.

Its tree and plant growth furnish an ample supply of fruit and vegetable diet and the country abounds in game, while the lakes and rivers are plentifully supplied with fish. Although the negroes seem to be incapable or disinclined to tame for



THE CHIMPANZEE AT HOME.

their use the wild creatures who live around them, a great number of domestic animals are found, descendants, probably, of those brought from the north, from Egypt, importations from Asia, in the distant past. Great herds of cattle and sheep form the chief means of subsistence for the Masai and certain other tribes. Dogs, a few cats, goats, pigs, fowls and horses are found in greater or lesser numbers, but none of the ancestors of these animals are indigenous to the country. They thrive because of the natural resources of the land to which they have been transplanted. So that besides the possibility of mineral wealth, as yet entirely undeveloped, the excellent pasturage gives promise of unlimited income to the farmer and cattle raiser. The natives work for infinitesimal wages and being great lovers of animal food may be depended upon to take excellent care of the flocks and herds. Their wants are few, simple and easily supplied.

Some of the Semitic or Hamitic races seem to have domesticated some of the native African animals. Elephants are found in large numbers, herds of giraffes, which form a strange feature of a distant landscape, many varieties of antelopes and monkeys galore may be expected to come into view at almost any turn.

It has been an open question, now settled in the affirmative, that chimpanzees inhabit the Uganda Protectorate, where they build rude houses in the trees. These and the gurang are almost human in their intelligence and are very amusing companions, when trained in the ways of civilization. The Patas monkey lives almost entirely on the ground and has long legs resembling a greyhound. Its head is chestnut on top and the remainder of the body is white and mixed yellow. There are large, dark green monkeys and little monkeys with white-tipped noses, monkeys to suit the requirements of every person who desires such a pet or diet. Some species are said to form excellent dishes.

Zebras are not uncommon in the Uganda Protectorate, and numbers of those most vicious, unsightly, nearly blind, left overs, the members of the rhinoceros family, are found. These travel in pairs, sometimes accompanied by a calf, but never in herds. As this is the home of the ostrich, it would seem that its cultivation would be a most profitable industry. It may easily be seen that the future wealth of the country will be great. Added to the incalculable mineral resources is the climate, which is so varied owing to its position relative to the equator and the heights of its numerous mountains,

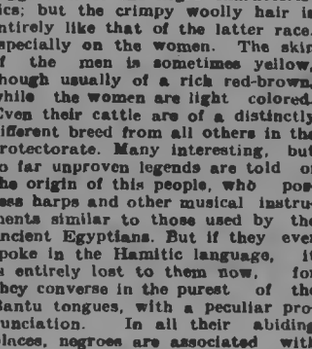
that nearly all crops may be cultivated and fruits raised. The vast grazing tracts afford pasturage and the hillsides furnish sites for health resorts unsurpassed in natural advantages. The bountiful supplies of fish and game attract the sportsmen.

While labor is so cheap and plentiful, here comes the old story of how to reckon with the present proprietors of the soil, those to whom it has descended from all past ages. It is a foregone conclusion that history will repeat itself. Meanwhile a study of the native tribes is intensely interesting. The inhabitants of many of the provinces seem nearly allied in appearance, customs and language, while others are entirely dissimilar in these respects. Some are large, finely developed specimens of the negro race, others, the Andorobo, for instance, who live with the Masai for protection, are very small. The little creatures subsist largely on game poisoned by arrows dipped in a decoction of leaves and bark.

From the Lagbwari, a remarkably tall people, Soudanese soldiers are largely recruited. Many of these men are over six feet tall. The most highly developed of the Uganda races and many of their number form the aristocracy of surrounding tribes which they have conquered or to which they have in some way become attached, are the Ba-hima. These remarkable people have been styled very aptly the Normans of Central Africa. In numbers they are few, but they have created many dynasties, and have introduced into their region the little civilization it possesses. They are doubtless of Hamitic derivation, allied to the ancient Egyptians. Their faces bear marked resemblance to the likenesses of the Pharoahs. The type and general outline of their tall, well-formed bodies suggests less of the African than the European. The straight, high nose has thin nostrils, the lips are entirely like those of a European, with no suggestion of the negro characteristics; but the crimpy woolly hair is entirely like that of the latter race, especially on the women. The skin of the men is sometimes yellow, though usually of a rich red-brown, while the women are light colored. Even their cattle are of a distinctly different breed from all others in the protectorate. Many interesting, but so far unproven legends are told of the origin of this people, who possess harps and other musical instruments similar to those used by the ancient Egyptians. But if they ever spoke in the Hamitic language, it is entirely lost to them now, for they converse in the purest of the Bantu tongues, with a peculiar pronunciation. In all their abiding places, negroes are associated with them, the Ba-hima nowhere constituting more than an aristocracy. They share the passion of the Masai for cattle, and will not allow their subordinates to be cattle owners. They leave agriculture to the negroes and are great eaters of vegetables. They are noted hunters of large game. These proud people were at first very adverse to a British protectorate, but at present peace seems to be established. The Masai appear to present as many agreeable characteristics for study as any of the native tribes.

There are thought to be, all told, about 50,000 members of this tribe within the limits of the protectorate. Of these, about 30,000 are semi-nomadic, ranging their cattle from one feeding ground to another. Around the shores of Lake Baringo are about 15,000 more, calling themselves Nyarusi. The remainder are colonized at different points. About



A MASAI WARRIOR.

50,000 Masai are resident in the East African protectorate. A great many are employed in the construction of the Uganda railway. The tendency of the tribe seems to be toward decrease. The women wear clothing enough to enable them to present a decent appearance in accepted African good society. The men seem to regard such possessions, except some trifling ornaments, or a cape of leather or cloth to throw over the shoulders when exposed to cold, as superfluities. Their ears are weighted down with all sorts of trash, even small wooden milk pails being sometimes pendant therefrom. Strings of beads on the neck, and anklets are worn. The Turkana and Suk languages are related to the Masai. Those who speak them have the curious custom of combing out their hair as long as possible and plaiting in that of their dead ancestors, which has been cut off and which they inherit from generation to generation. The huge bag depends from the scalp with an opening behind the nape of the neck. The exterior is coated with fat and clay and ornamented with ostrich plumes of various colors. At the end a stiff wire curves upward to which is attached a ball of white down like a powder puff. Within this mass its owner carries his most valued small belongings. Many other races are found in this rich country, where the labor problem seems solved for years to come.

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is
